## Professional league proposed by U.S.

A professional league for American athletes has been proposed by the U.S. Olympic Committee. The league would be a joint venture between the U.S. Olympic Committee and the Amateur Athletic Union. The U.S. Olympic Committee has long been a proponent of amateurism. However, the financial challenges faced by athletes have led to the proposal of a professional league. This move is seen as a necessary step to ensure the long-term viability of the sport in the United States.

# Inquiry into Czech student strike ordered

Prague, Czechoslovakia (AP)—The Czech government has ordered an inquiry into the strike by students at the University of Brno, which has been in progress since September 1968.

The students' strike, which began on September 19, 1968, was the first of its kind in the country since the end of the Second World War. It was triggered by the students' dissatisfaction with the government's policies and the lack of academic freedom.

The government has ordered an inquiry into the strike to determine the reasons for the students' actions and to take appropriate measures to prevent such strikes in the future.

The picture above shows Panagaris being taken away by police after being accused of death in a special tribunal in Saigon.

# Condemned man may be pardoned

SAIGON (AP)—The Greek Communist Party has demanded the pardon of a man condemned to death in a special tribunal in Saigon.

The man, whose name is not disclosed, was convicted of a crime related to the Vietnam War. The Greek Communist Party has expressed its solidarity with the man and has called for his immediate release.

The tribunal's decision has sparked controversy in the international community, with many human rights organizations demanding a fair trial and a pardon for the man.

# NIGERIA SIGNS RUSSIA PACT

Abuja (AP)—Nigeria has signed a 10-year pact with the Soviet Union for the supply of oil and other commodities.

The agreement, signed in Moscow, provides for the supply of oil to Nigeria at a fixed price. It also includes provisions for the supply of other commodities such as machinery and equipment.

The pact is seen as a significant step towards strengthening ties between Nigeria and the Soviet Union, and is expected to have a major impact on Nigeria's economy.

# Dr. Kaunda laughs at Vorster plan for buffer zone in Africa

## Re-organising pyrethrum

Since the late war, the pyrethrum industry has been re-organising itself. The industry is now being re-organised into a series of production units, each with its own processing and marketing facilities. This is a result of the agreements entered into between the major pyrethrum producing countries and the United Nations.

What the Minister for Agriculture had to do at the National Assembly, according to a radical reorganisation of the pyrethrum industry. Mr. M. Kenzie reviewed progress which has marked the re-organisation of the pyrethrum industry in 42 countries, stressing the industry's importance to the viability of many developing countries.

Then he hit on the question of pyrethrum as an income source for the small farmer and the country's co-operation between natural and synthetic pyrethrum. Mr. M. Kenzie has been anxious to do this for the past few years, and he has been successful in his efforts to do so. He has been successful in his efforts to do so.

Consider the planting success of pyrethrum since 1964, when the crop was just under 100,000 tons. In 1967, when it was 1,234,000 tons. In the 1967-68 season, the yield of the crop was 1,234,000 tons. This is a significant increase in the yield of the crop, and it is a result of the re-organisation of the industry.

Over the past three years, the industry has been re-organising itself. This is a result of the agreements entered into between the major pyrethrum producing countries and the United Nations.

**'One man one wife' is Ghana women's battlecry**

JOHN DEMOGA reports from ACCRA

The Ghanaian women are in a state of high tension because of the new law which will force them to live with one man only. This law, which is part of the new constitution, has caused a great deal of controversy. Many women are angry because they have been married to more than one man in the past. They are now being told that they must choose one man to live with and that they must divorce the others. This is a very difficult situation for many women, especially those who have been married to men who have been unfaithful to them. **TOGO: NO POLITICAL AMBITION**

President Eyadéma of Togo has stated that he has no political ambition. He said this in a speech to the National Assembly. He said that he was only interested in the well-being of his people and that he would continue to serve them as long as they needed him. He said that he would not run for re-election in 1975. This has caused a great deal of speculation in the press. Many people are wondering why he has said this. Some think that he is tired of the job. Others think that he is planning to retire. It is hard to say for sure. But it is clear that he is a man who is dedicated to his country and its people.

## Minolta CBS cells give you accurate meter reading.

Minolta SR-T 101 has a metering system which is unequalled in any other camera. Minolta call it GLC (Green Light Compensation) and works like two CBS cells are located in the top of the pentaprism, each covering a little more than half the picture area, which helps to prevent light scattering from the viewfinder. The light passing through the lens is measured by these cells, which are electrically linked in a unique circuit to compensate perfectly for incorrect lighting conditions—even when there is a high degree of contrast.

The result is correct exposure—everytime.

It now seems likely that the next ministerial meeting of the South Atlantic Council, scheduled to be held in Washington in April 1961, may discuss detailed proposals for the extension of a 2,000 sq mile territory to the South Atlantic Ocean. # Australians put spin before pace

THE AUSTRALIAN cricket team, which arrived in Mombasa on Monday, will play their first match against the West Indies in the Kenyan capital on Wednesday. The team, led by captain Peter McKenna, includes several spinners who are expected to play a key role in the series.

The Australian team consists of Peter McKenna, captain; Ian Meckler, vice-captain; and several other players including Keith Stackpole, Alan Davidson, and Keith Miller. The team is expected to be a formidable one, given the experience of its players.

The West Indies team, led by captain Frank Worrell, is also a strong side. The series is expected to be a closely fought one, with both teams having a good chance of winning.
