CONSCRIPTION

The recent Conference in Nairobi found time for a very full and interesting debate on the military training of Kenya youth. The Executive Committee has been instructed to formulate a scheme for this young Colony in accordance with the views of the European youth of Kenya and to press for the re-establishment of the military training in the Colony. As it would be a waste of years if the scheme were not prepared by the Executive before the next annual Conference for consideration, some means should be found of bringing it to the forefront for discussion earlier. For with the war receding this young Colony is entering a period in dealing with a problem which, as Sir Britton and other members of the Empire must again be faced realistically.

Talks In Moscow

It is no exaggeration to say that not only the shape of Europe to come but the progress of peace and international tranquillity in its time depend on the outcome of the talks between the Jewish Ministers of the Foreign Powers began this week in the Russian Capital. It is a fortunate bold in thought that they are being conducted in New York, and in a theatre in Paris as well. The Russian delegation found there a welcome at a disadvantage by the fact that distance imposed on them difficulties and delays and restrictions, such as, frequently happened, points at issue had to be referred back to the political leaders in Moscow. Now, Mr. Molotov has all his country at his elbow and local experience has made it possible to take a no-doubt in making the situation more favourable for the adjustment, but it should be recalled that the Russian Press and people will probably also be more sympathetic than in other countries, and that what is occurring, apart from the different points of view, is apparently possible in the earlier stages of the general agreement that is being reached.

Taking corners at speed was a waste of tyre, a strain on the chassis, and a danger to life and limb even in 1950. Nowadays, of course, the tyre is an indispensable one—your car is probably not quite so young as the war, and stresses and strains might easily break something you can't replace.

You can "Tyrerol" your tyres again and again because the process does them no possible harm. "Tyrerol"ing, by the way, is part of the ... Motor Mart Service.

I had been told that I should try the medicine advertised in this advertisement and I did so. I am now able to do my work and I feel much better. I am very grateful to the doctor who recommended this medicine to me."

Just... Andrews cleans and refreshes the stomach and bowels. Andrews soothes the stomach and neutralizes acidity. Andrews tones up the liver and cleans the blood.
