RUSSIA IS READY TO CO-OPERATE

Stalin's Assurance To U.S. Republican

Washington, May 4.—"Russia is ready to co-operate with the United States in the fight against Hitler," Stalin assured a group of U.S. Republicans in a speech broadcast to the world today.

The Soviet leader told Mr. Stettin that although Russia and the United States had different economic systems this need not prevent harmonious co-operation. But if one country did not wish to co-operate then the result would be war.

When Mr. Stettin said that the United States had offered Russia a loan of \$200 million, Stalin said that Russia would accept it on the condition that the United States would also offer a similar loan to the United Kingdom.

On the question of disarmament, Generalissimo Stalin said that he had no objection to the United States and the United Kingdom continuing to produce atomic bombs, but that the United States should not produce them until the United Kingdom had done so.

NEW BRITISH POLICY IN GERMANY

"Doomed To Failure Without More Food Supplies"

POOD is likely to play a vital part towards the success or failure of the new policy which the British Government now has to adopt in Germany as a result of the failure of the Moscow conference...

Lord Pakenham, the Minister responsible for the British zone, described the food situation in the Ruhr as "fringe and appalling"...

Lord Pakenham had conferences in Berlin with both the British and American authorities.

Lord Pakenham says German need of food is the vital factor in the new policy...

The Minister promised that he will go into the details of the food situation in the cities which are still under occupation...
