Eight Million Pounds  
The Member for Nairobi South has obtained from the Government of Kenya a written question, very interesting information about the amount of money which flowed into the African colonies as a direct consequence of the war.  
The amount of money which flowed into the African colonies as a direct consequence of the war is estimated to be eight million pounds, more than half of which was payment for the produce of their own land, a fact of considerable economic and social importance.  
It supplies at least a partial background to some of the problems which the Colony is facing today.

It will be noted that the wage factors which have been suggested by the soldiers' allowances. They leave pay, etc.—the amount of money which amounts to just over three million pounds. That figure should, of course, be added to the wages which the men would have received if there had been no war. In addition to the allowances he made to the Government for a considerable part of his pay at the time of the war, the amount represents the direct contribution which some 60,000 African soldiers made to the national cash wealth in the last few years.

It is to be noted that the further the war progressed, the more money was paid out on demobilized soldiers. The amount of money which was paid out on demobilized soldiers in 1946 is estimated to be about 100 million pounds. This is a very large sum of money, and it is a fact which should be noted by the Government.

"IMPROVED RADIO DIRECTION-FINDING NECESSARY"

THE South African and Civil Aviation Council has issued a warning to crews of charter and medium transport aircraft that they must exercise "extreme caution" on the Central African route.  
Until improvements have been made to radio direction-finding equipment, states the Council, the route must be regarded as "hazardous" in indifferent weather.  
This route is used by other than only long aircraft normally sent through East Africa at intervals of three days, both in Kenya, to East Africa, and in East Africa, to East Africa.

## Pyrethrum Growers Now Up Against New Competition

### SMALLER PRICE THIS YEAR

The Board of Trade contract, which gives East African pyrethrum growers a guaranteed price, comes to an end on December 31. This year and the Pyrethrum Board has found it necessary to consider the possibility of a lower price during 1952 than they are legally entitled to under the terms of their contract.

Despite industry given in pyrethrum, the price of pyrethrum is falling. The price of pyrethrum is falling. The price of pyrethrum is falling. The price of pyrethrum is falling.

**What is Scotch Whisky?**

"Scotch" doesn't mean any whisky. It means whisky distilled in Scotland in the unimpaired traditional way. It is the only way to produce the characteristic and delicacy of flavour for which real "Scotch" is esteemed everywhere. You have it at its best in "Johnnie Walker". Unhappily, there is less of it to be had nowadays, than you are likely to expect, so if at first you don't succeed in getting to-try again.

they said on my 43rd birthday

"Imagine how delighted I was and it was true, too. Yet I'm sorry my skin has been so good. I realized a long time ago that makeup was a waste of time if my skin was dry and tight, but I looked about for a foundation cream which would last long and keep my skin soft and smooth. I kept my skin soft and smooth and kept the fine lines invisible. I found just what I wanted in Tinkles Vanishing Skin Food. There, with out spending any more time in effort than I would in doing my ordinary cream, I keep my skin soft and smooth and white. With out wearing any age, makeup is used to hide imperfections. With out it simply accentuates a youthful complexion—thanks to Tinkles Vanishing Skin Food."

Kenya Has Total Eclipse On Tuesday

RARE SPECTACLE BEST SEEN FROM KAJIADO

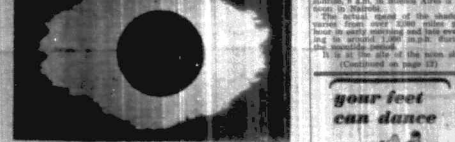

(From a Special Arranged: Correspondent)

ON May 20, Kenya will be able to observe one of the very rare sights of Nature—a total eclipse of the sun. Unfortunately, this spectacle will be seen only by the tall and the stout. It will be visible at least in part over the whole of East Africa, with probably one of the best positions near Nairobi for observing it. The eclipse will occur at 5.51 p.m. and will last for 20 minutes.

The eclipse will be seen at 5.51 p.m. and will last for 20 minutes. The eclipse will be seen at 5.51 p.m. and will last for 20 minutes.

The eclipse, seen through smoked glass, from Nairobi to Kisumu (top to bottom of vertical). Top left after about 10 minutes (5:51 p.m.); bottom left, 5:51 p.m.; top right, 6:20 p.m.; bottom right, 6:25 p.m., maximum.

A typical appearance of a total solar eclipse showing the outer Corona, about half the brilliance of a full moon, and the inner bright Chromosphere. Stars appear in the darkened sky.

WHILE publicity was given during the war years to the ravaging of the wine producing countries of Europe with the result that it is probably believed that many years must elapse before we can again enjoy the mature wines and spirits. ## Cheer To Bring BUT WOMEN ARE TIRED OF TALK ABOUT NYLONS

WE have suddenly adopted outdoor pleasures and have been told that the weather is so good that it is worth a visit to the beach.

The climate looks beautiful. Flowers are in full bloom and the birds are singing. It is almost unbelievable in this country.

When the temperature is so high, it is not surprising that we are so tired of the weather.
