"ON THIS DAY."

AGUST 24th

Mr. William Kay has returned August 24, 1922. The day of his return is the day of his departure from the East African Standard, which is an anniversary of the Standard's history. The Standard was first published on August 24, 1890, and has since then been a daily publication. It has grown from a small sheet to a large newspaper, and has played a significant role in the development of the East African press.

BRITISH ISRAELI NOTES.

The fact is that the British Government has been very generous in its treatment of the Jewish people. It has granted them the right of citizenship in the British Empire, and has allowed them to settle in various parts of the world. This has been a great benefit to the Jewish people, and it is a testament to the British Government's policy of tolerance and justice.

A Diaspora Point.

The Diaspora is the dispersion of the Jewish people from their homeland. It has lasted for over 2000 years, and has been a source of suffering and persecution for the Jewish people. However, in recent years, there has been a movement towards the re-establishment of a Jewish homeland in Palestine. This movement is supported by many Jews and non-Jews alike, and it is a sign of hope for the future of the Jewish people.

### Coffee Crop Estimates.

Coffee planters in Kenya, and the trade generally, were considerably surprised when they read yesterday the optimistic figures which appeared in the Crop Report. Their surprise was not due to any sudden change in the crop, but to the fact that the crop, originally estimated to be 12,000 tons, will only suffer a loss of twenty per cent. and will still be 22,000 tons. An analysis by districts gives a more detailed picture for East Hill area, one of the best in Kenya, and one which is known to be the most fertile in the country. The Department of Agriculture, which issues these reports to the public, has done so with only the most general statements, but it is quite clear from a statement issued by the Department yesterday that the crop is a record. The Department does not represent the position of the coffee outlook. It is difficult to estimate the extent of the coffee outlook. It is difficult to estimate the extent of the coffee outlook. It is difficult to estimate the extent of the coffee outlook.

It would, of course, not be surprising if the crop were to be a record. It is difficult to estimate the extent of the coffee outlook. It is difficult to estimate the extent of the coffee outlook. It is difficult to estimate the extent of the coffee outlook.

Practical Policy.

East Africa needs every form of encouragement at the moment not necessarily encouragement to an unbalanced optimism but something which might help to build confidence. The 1932 Annual Report of the London Office is a useful contribution. Extracts published elsewhere to-day from the sections devoted to settlement give Kenya a leading place in results achieved for the settlement of British Territories in unpopulated and sparsely populated areas. Kenya attained 80 new settlers, pupils and dependents, which is fifty per cent. better than in the preceding year and while money is at least abundant in Africa, that character and the right kind of ability it is useful to know that each of the 80 had capital of its own which totalled over £17,000. It is interesting to note that Kenya handsomely and it is not surprising to realize that greatly as the people of the country have been properly educated the type of money is at least abundant in Africa has often suffered—the political propaganda and criticism which has often in the knowledge that if a wanted and needed the land from the Kenya local should be its publicity to Kenya should never be sold and selling the only real asset there is Kenya's land. The Kenya Government is a real source of a real desire which population to help develop the land resources that fertile part of the Empire, the public can give the Government to assist those who handle the land and of the physical development of the world; it is becoming a happy of settling comfortably on the fence.

There is land in Uganda available for settlement. The Government is opening for people on the condition that they are prepared to give a 25-year lease of the land. The Government is offering a 25-year lease of the land on the condition that the lessee will provide a useful service to the public. New Settlement Increases 50 Per Cent. 1932 AN ENCOURAGING YEAR FOR KENYA. London Office Report.

HOW DEPARTURE FROM GOLD STANDARD HELPED EAST AFRICA. The 1932 Report upon the activities of the East African Office in London provides surprisingly encouraging material...

New intimately the affairs of these territories are connected with world factors is illustrated by the experience that when Britain went off the gold standard, one of the beneficial results was an improved flow of new settlers to Kenya.

Kenya led the way in new settlement with 80 per cent more settlers and dependents. This is 50 per cent more than any other territory.

The Office had records of the capital and income of only 12 of these newcomers, but the twelve had all their disposal for employment in Kenya over £47,000.

The Report also stresses the increasing attractiveness of the East African Highlands; particularly those of Kenya, as a winter resort which it is stated is acting as a deterrent in present circumstances.

Are Game Licences Too High? There has recently been some talk of the Government raising the price of game licences in Kenya...

The Kenya Association. Part of the programme was the formation of the Kenya Association in 1932 in the Kenya side of the London office for the purpose of being a central body to which all the subjects of the Government Department of the East African Office should refer...

Major Dale points out that East Africa was at some considerable intervals in the past a great deal of the Secretary of State's work done on her behalf and he hopes to see her represented in the Ottawa discussion.

Kenya Settlement. During the work of the office with special regard to Kenya the Commissioner reports that during 1932 200 people, 100 men, 70 women, and 30 children, and their dependents joined through the office's activities and settlement certificates and settlement certificates and settlement certificates...

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by correspondents in these columns and in all cases the name and address of the writer must accompany a letter, and necessarily for publication, but as a courtesy of service to the public it is essential to ensure consideration.

THE OXFORD MOVEMENT.

To the Editor: "E.A. Standard," in your issue of the 14th instant contains two astonishing mis-statements which really call for correction. The first is that "the doubts and questions" which Newman was floundering at the time of his going over to Rome and afterwards back to Rome to write "Lead kindly me" that hymn was written in 1845. It is well known that the Oxford Movement began, said a Roman years before, to hasten a Catholic or to write the most intense of becoming one. This he doubtless did, but the line between going over to Rome and doubtless, 12 years before, is manifestly apparent, and that is doubtless all in a second mis-statement. That Newman never had the least doubt is clearly demonstrated by the fact that his writings there is one very humorous and brilliant passage in "Lead kindly me" on the present position of Catholics in England. Newman must be well known to many of your readers, but upon which, in the absence of books I cannot at the moment put my hand, he has written a most humorous and brilliant passage in "Lead kindly me" on the present position of Catholics in England. Newman must be well known to many of your readers, but upon which, in the absence of books I cannot at the moment put my hand, he has written a most humorous and brilliant passage in "Lead kindly me" on the present position of Catholics in England.

What authority has your correspondent for making such statements? Neither the word "Mass" nor the word "Eucharist" are mentioned in the Book of Common Prayer as sanctioned by the Church of England, and therefore his juggling with the words is a gross error. The "Sacrifice of the Mass" does not exist in the Church of England, and his comment on his inability to find the word "Eucharist" in the Book of Common Prayer is a gross error. The "Sacrifice of the Mass" does not exist in the Church of England, and his comment on his inability to find the word "Eucharist" in the Book of Common Prayer is a gross error.

Perhaps one of some more precise correspondents would supply the passage we would very kindly print in the interest of the honest reader, and in justice to the memory of a very great and noble Englishman. Yours etc. G. R. R.

## ILLEGAL USE OF COPYRIGHT MUSIC.

**Theatre Music.**  
THE production of the Performing Rights Society is making a deliberate effort to see that in East Africa no illegal use is made of their copyrighted music. The Society's representatives, authors, publishers and proprietors of copyright musical works, are endeavoring to collect fees for the public performance of these works as well as to receive substantial public performances thereof. The money so collected is distributed to the interested parties. It will be recalled that the Society was a registered status in their demands by one case heard in London recently, a case which caused the revealing judge to wonder what would happen to him if he should be caught whistling or singing a popular tune while having his post-natal bath?

NOT until the past year, however, has the Society extended its activities to East Africa, where the radio broadcasts on which the Imperial and International Communications have been paying for a much longer period. The hotels are now being visited but in every case efforts are being made by the local agent to arrive at a reasonable compromise. What it amounts to is that no copyright work can be played in public, whether by mechanical means or otherwise, unless a license has been taken out by the performer. Even the local concerts are not exempt but here the case is one of persons arranging such a concert. A dance, where tickets are sold, is a public performance and the same rule is enforced.

**A Thriller.**  
PEOPLE who have seen the advertisement for "The Big Game" must have had their appetites whetted for the thriller that it promises. They have their origin in the man who makes his life to keep life. The leading role is taken by Bill Boyd, whose performance was quite interesting, for he proposed to his wife, then Ellen Fair, before the camera when they both appeared in "The Vigilant." Boyd's life like so many others was fairly kaleidoscopic before he fell into the picture. He was a newspaper editor, a grocery assistant, movie salesman and all-driver in turn.

**A Doreville.**  
THE management of the Empire Theatre is in the same program with "The Big Game." Described now as the doreville comedy, it is a movie story the part that he once lived in real life, for when he had finished school he found his business as a cowboy in Nebraska, Montana, Kansas and North Dakota, till he saved enough money to get him through college, after which he studied drama. He

and others of his kin provide some excitement in "Sundowner Trail." "Almost a Heroism."  
IN March 1932 the East African Standard said of "Almost a Heroism": "It proved that in this kind of straight acting the English have a long head over their American rivals." "Almost a Heroism" belongs to the "Rocky Hook" and "Gambler" Scouting Ring class, and is, in everything, better good clean fare, superior acting. While the whole film is giving repeat showings of films may sometimes be a reputation that merits of a challenge.

**Class Hero.**  
IT is some time since a film starring Clara Bow was shown in Nairobi, and in "No Limits" she is the "polly" substitute who goes ritzy, "to quote from an advance notice. In other words, she is a woman in a moving picture palace with a longing for social improvement, life in the direction of the good things of life. In the cast is Stuart Edwin, who is the "polly" substitute who goes ritzy, "to quote from an advance notice. In other words, she is a woman in a moving picture palace with a longing for social improvement, life in the direction of the good things of life.

**John Touchstone.**  
SHE is the star in an exceptionally good east playing "Unshaken," written by Ray and Voller, authors of "With the Law" and "The Trial of Mary Dugan." Like most of

his works, this deals with a police case and has its climax in a trial sequence. There is, in fact, a strong similarity between this and "The Trial of Mary Dugan," and its whole success depends entirely on its acting.

**Future Bookings.**  
THE management of the Empire Theatre has obtained the first

review of Africa of Nine Till is a first made film in which Louise Hampton plays the same role that she did in the same genre. Richard Bird of Journey's End, and several other well known people, are in the cast.

At the same time the Empire Theatre will show the spectacular film "Hells Drivers," which the Empire Theatre brought to Nairobi from the stage. Wallace Evans, who is a fully featured character, takes the lead in this one for as

**Favourable Reports.**  
"WHEN HE got the Moon" and "How to Love," both to be shown in Nairobi shortly, have received most favourable reports from the Board of Censors.

**The First Mrs. Fraser.**  
WHAT is the name? Everything about it is an apology to the name of the play of the same name. It is a story of the First Mrs. Fraser, who is the wife of the Governor of Kenya and will be notable for the appearance of Mrs. McEwen and "Taka Paves." She gave up a most promising career on the London stage when she came to Kenya and her husband is well known. In the cast are also J. Muller and H. J. Hume, and the eight characters are so unfamiliar to most Nairobi people.

**Ambitious Amateurs.**  
THE "Wandering Jew" is a production from September 1932 by the Theatre Royal for the past few weeks. The production is a series of episodes of an ancient story which is now being revived. The production is a series of episodes of an ancient story which is now being revived. The production is a series of episodes of an ancient story which is now being revived.

**MISS Elizabeth Waddington** plays the part of death in the first phase and of Ollie, a Mrs. Morrison, who unwittingly betrays a Jew to the Inquisition. LONDON POLO SEASON.

A Mastery Indian Team. English Season Opens Next Week-end. JAIPUR'S ACHIEVEMENT. PROSPECTS OF THE TEAMS.

In reviewing the past London polo season, one is forced to the conclusion that the polo season of the Maharaja of Jaipur's team overshadowed all else. The Indian side proved themselves to be a really powerful combination, and their play was so good that the observer's admiration and their own exultation were well expressed during the season. Each member of the team pulled his weight, and the brilliant display of polo that the side gave attracted larger crowds to witness the three London clubs had advertised seen on a polo ground in any other country than the Indian Empire. They started in London by winning the Kensington Cup by taking the Championship Cup at Hurlingham, and then followed that up by taking the challenge Cup without any results at all. That in itself is a record as no side had previously won all three open cups. Jaipur were successful in the final of the Maharaja Cup and the Indian Empire Challenge Cup, and they were successful literally to beat to have swept the board. They are again the Indian champions last winter before coming to London for the polo season, and their dependence about being able to back them. After the fact that each member of the Jaipur team is a really good player for their own work and combine team was successful, and of course they were splendidly supported. The only English team that could stand up to the Indian side was Doncaster, who were the runners-up in each of the three open tournaments, but even they were not their best sides, and were not dependent about being able to back them. After the fact that each member of the Jaipur team is a really good player for their own work and combine team was successful, and of course they were splendidly supported.

Football Once Again at Hand. English Season Opens Next Week-end. PROSPECTS OF THE TEAMS. YOUTH DOMINATE

The team to be met, apart from the Indians was Frar Park, who played veterans in seven tournaments just before the season. They also had the distinction of being the only side to beat Jaipur in this form a former match at Boshampton in which Mr. Frar's team were a start of 6) goals and beat their formidable opponents by 11) goals to 0. Their team was composed of Mr. David, Captain Butler, Captain Morrison, and Mr. Robinson. Mr. David injured a collar-bone in a fall, his place being taken over

Derby County are also strong in the year, but until they get all the inside forward positions better they are likely to miss promotion. They will have to better start the season with a good deal of confidence.

Spurs Opportunity. The Spurs who are now in the First Division have a wonderful opportunity to regain their position in the game and if they can achieve a fair number of successes the odds will rank to the White Hart Lane ground has been broken. They require more players while Half has been obtained as a substitute for forward. Greenwood is fit to play after his leg injury but he will want a little time to work up confidence. The team continues its policy of training young players.

NAIROBI - MOMBASA BY ROAD.

Direct Route Now Impossible. Graphic Description of Journey.

Points to Watch.

In view of the numbers of people who are making the journey from Nairobi to the coast by road, Mr. Galloway has the Secretary B.E.A.A. has the following graphic account of a recent trip undertaken by himself.

So many motorists have endeavored lately as to the state of the Nairobi-Mombasa road that I thought a brief account of my recent trip undertaken by myself. The direct road via Makindu is quite impossible now as it is necessary to detour via Lengua and Mochi. The old road to Mombasa is 110 to 120 to Makindu 110 to Voi and 105 to Mombasa. The present road is 140 miles but is longer. It is a far better condition than the direct route even in the hottest days.

To do the trip in comfort one must sleep two nights on the road, either at Kajajale or Naranga on the first night and at Mochi, Maranga or Voi the second. Leaving Nairobi at 11 a.m., one can be in Naranga at 9 p.m., but if the start is made after lunch it is better to sleep the night at Kajajale.

Nairobi-Kajajale.

(Distance 60 miles—Time 2 1/2 hours) Leaving Nairobi via the Hill Road one reaches Ngugi at Mile 14 and the end of the Ngugi Hill at mile 20. The road so far is excellent and the day is pleasant. It is a fine road and about 1 1/2 hours' distant is a fat top track jutting out over the steep escarpment of the Rift Valley, from whence there is a lovely panoramic view. From here the road deteriorates badly and in the worst section by far. It is rough and stony and the greatest care must be taken of projecting stones.

Kajajale and Motor Tours.

Even those who live in remote spots, far from electric mains, may enjoy economically, volume music, equal to that of mains receivers if they install a Moxvox battery Superheterodyne. This receiver operates on the new Quiescent Push-pull system which gives enormous output with an H.T. consumption of only a few milliamperes. Thus an ordinary sized battery will last much longer than usual.

### \$6,000 of Gold in Seven Months.

### KENYA HEADING FOR A NEW HIGH RECORD.

### The Latest Figures.

### GROWING RE PRODUCTION: THE KAKAMEGA ALLIUM.

In seven months this year the export of coarse gold from Kenya totalled 7,196 ounces, at an average price of £95 per ounce, represents nearly £36,000.

During the whole of last year the production was just over 9,000 ounces and there is therefore a prospect that 1933 will set a new high record.

From Kakamega alluvial soil leads over the seven months period, but from other parts of the Colony the gold is all re-produced.

### A Tanganyika Month.

The address given by the Hon. J. O'Brien to members of Nairobi Branch of this last week has helped to focus attention on the Kenya goldfields as an important economic factor in the Colony.

The average price which has obtained during the past seven months for fine gold has been \$100 an ounce. This work it is fair to say that the price has, however, deductions must be made for a percentage of silver and impurities together with the royalty demanded by the Government of the East Africa Protectorate. From this the net price does not reach the value of £30 which is only 20 per cent of the average price.

In the past seven months the export of coarse gold from Kenya totalled £1,396 ounces, and taking an average price of this 1933/4 of £95 per ounce, the value of the gold exported this year at that price would be £1,326,000, representing the sale of £6,000.

The figures quoted are sufficient evidence of the part, likely to be played by the gold mines of the East Africa Protectorate in the development of the East African Empire.

If a reliable time signal were to be issued in Nairobi it would have the effect of changing the general character of the people in the Colony from very unpolished to exactly the opposite.

Most amusing and somewhat more than a bit of time thought them out was the comment made by a member of the Nairobi Chamber of Commerce at its meeting on Thursday on certain proposals to increase the value of existing stamp duties.

The meeting arranged by Colonel Kirwood and held recently in conjunction with the Northern Political Association, to hear Major E. S. Grogan's views on the Kenya monetary problem was swayed with much interest by settlers in all parts of the district.

## INDIAN CHESS CLUB

MR. P. R. AMRIT HONORARY Secretary, informs us that the new sets of chessmen and boards ordered in connection with the formation of this club, have now been received. A general meeting of the members is being called for this afternoon at 4.30 in the Hall of the East India Brotherhood, to confirm the constitution of the Club and to transact other business. This is an important meeting requiring the attendance of every member. It is therefore hoped that everyone who is interested in the success of this new Indian Chess Club will make a special point of being present.

**SOLUTIONS**  
 Keynotes to problems 1459-1460 are 1-Qa1, 1-Kf3, 1-Kg1, respectively.  
 Problem No. 1463, by M. Havel Key 1-Rc7.  
 11... Kf1 ch. mate.  
 11... Kf3 ch. mate.  
 11... Kf5 ch. mate.  
 11... Kf7 ch. mate.

 11... Kf5 2-Bc4 ch. etc.  
 11... Kf7 2-Bc4 ch. etc.

An interesting setting of the problem is possible should the Black King be retreating to the square of the Knight. The mailed knights are very dangerous and are hard to spot, the complete irresponsibility of the Black Queen being unusual for such a position.

# REMODEX the x-ray of business

The new way for all records surpasses the old "card-in-box" or ledger methods. Makes crystal clear facts, which, unless arranged on Remodex, are obscure and difficult to arrive at. Among other advantages, Remodex gives you control over every stage of your work, and enables you to see at a GLANCE:

Customer's Record—You can see at once those who have not purchased from you for 6 months.  
 Ledger—You can see at a glance those of your accounts which have not been settled for any particular period you wish to know.  
 Stock Record—You can see at a glance:  
 (a) Those goods which are not moving.  
 (b) Those goods which are dangerously low.  
 (c) Those which are heavily overstocked.  
 Work Record—You can see at a glance—  
 (a) Each progress of any piece of work at every stage; (b) All jobs in hand or unstarted.

A unique system of Coloured Signals automatically reveals to you the vital facts. You can see the facts as they actually occur.
