RACE RELATIONS (The Leader of the European Elected Members in the Kenya Legislative Council)

The Leader of the European Elected Members in the Kenya Legislative Council has made a very timely and very necessary statement that the solution of the problems of race relations must be worked out within each Territory...

Each conflict has occurred, and so small degrees of alarm had been created among the non-European communities...

It was the white race which was the aggressor in the past, and so it is to be expected that the white race should be the aggressor in the future.

The importance of what Major Keyser has said in clarification of the confusion and confusion...

Major Keyser has made clear that there are no grounds for discussion of problems in the African Continent—the French, the Portuguese, the British, the Dutch...

There are in contemplation of law, proposals for a Federation of India and the Dominion of Pakistan in the African Continent...

What has become increasingly apparent and urgent, is the need for the peoples of Kenya to be more closely imbued with the political objectives of their own people...

The situation is complex and worrying enough without importing new grounds of misanthropy...

It is to be hoped that all responsible elements in the white race should be more cognizant and accept the fact that the task of future development is not to be solved by any solution can be imposed by anybody from outside.

It is so important to remember that the members of the community are more than presenters of their own views...

It is well known that the British nation settled here in a British Colony they have a responsibility and it is the duty of the other races, to constantly mindful of the national people and to set them in a Christian example.

For the adoption of God's will is the only way to solve our problems, and to have a better life and to have a better future...

Let us be reminded that the God who made the world, and the God who made the human race, is the God who made the African race...

Let us be reminded that the God who made the world, and the God who made the human race, is the God who made the African race...

Let us be reminded that the God who made the world, and the God who made the human race, is the God who made the African race...

Let us be reminded that the God who made the world, and the God who made the human race, is the God who made the African race...

Let us be reminded that the God who made the world, and the God who made the human race, is the God who made the African race...

CUP FINALS IN THREE COUNTRIES

Charlton's chance to avoid relegation

THREE cup finals will take place this afternoon, the F.A. Charity Cup at Wembley Stadium, the Scottish F.A. Cup at Hampden Park, and the Irish F.A. Cup at Dalriada.

In addition there are two interesting English League programmes which although—although that one cannot be certain—clearly the championship and relegation problems, still as obscurely.

Best Five promoted from the third division to the second division Cup. They have a head-on run with their own cup as well as to the League Cup.

Wolves who last season secured promotion to the second division and who will play in the first round of the Cup.

United seem good for a point, also. They will meet Wolves on Wednesday and the latter will be a hard game. Wolves' Wednesday should win and bring their promotion to a head.

Division III, Notts County meet Lincoln City in the first round. Notts County are virtually certain of promotion but Lincoln City are a good team and will not give Notts County much trouble, although they are ground level.

Charlton seem to be on the "Broom" side of the line and a great victory will see them in the first round of the Cup.

At Wembley, Wembley Athletic Cup will be contested between Wembley Athletic and Wembley City.

At Dalriada, the Irish F.A. Cup will be contested between Shamrock Rovers and St. Patrick's Athletic.

At Hampden Park, the Scottish F.A. Cup will be contested between Rangers and Celtic.

But they do not seem likely, of course as for this season, to repeat their 2-1 win of 11 years ago for they were successful only in the semi-final when Williamson, out of his second Cup success, beat the favourite and 1947 Scottish Cup winners, Larrowsburgh, on their way to Wembley.

The Irish Cup usually has a very open finish. Linfield have been the only team to win the cup in 1945 and 1946 and the only team to win it in the semi-final this year. Seven times they have been runners-up.

Defeat, in ten times past winners, last year the Irish Cup 25 years ago. A very open match seems likely.

Charlton Athletic will win the cup and themselves today. They will beat the Vauxhall, Charlton Athletic will win the cup and themselves today.

MAIZE POSITION DIFFICULT

Consequence of the rains SUPPLIES PLENTIFUL THE TROUBLE IS IN MOVING BIG QUANTITIES

HEAVY demands on Kenya maize, for famine relief in both Kenya and Tanganyika, coupled with the handicap imposed on rail and road transport by the heavy rains, have produced a situation which it is proving difficult to cope with. Consumers' demands for maize are increasing.

Further large quantities of relief maize have been sent into Kenya, the Mchakolas area and the Port Hall and Lower Taita. However, maize needs have been supplied from the Lumbwa area, going from Lumbwa to Nakuru by road and on by rail to Nairobi.

Today, the Lumbwa to Nakuru road is showing signs of being better, but the rail is still very long.

Detailing some of the difficulties to the East African Standard, Mr. H. M. Kariuki, Controller and the extremely heavy rains, which have naturally placed an enormous burden on the railway, has said that the railway is unable to cope with the increased traffic.

It is reported that the Railway Command and was down in the East African Standard. Mr. Kariuki said that the heavy rains have caused a great deal of damage to the railway track, particularly in the Mchakolas area.

Mr. Kariuki said that the heavy rains have caused a great deal of damage to the railway track, particularly in the Mchakolas area. He also mentioned that the situation is becoming more difficult as the rainy season continues.

RESTRICTION OF CREDIT DISCUSSED BY NAKURU CHAMBER OF COMMERCE

Appeal for more help to the farmers

Business' heavy losses
Instead of making things more difficult for farmers, many of whom were struggling to develop their land in the face of increasing and unremunerative taxation, the Chamber of Commerce and Industry should support the Government in its efforts to restrict credit facilities to farmers in order to establish a more equitable basis for the distribution of credit.

Parliamentary
The Chamber of Commerce and Industry has been invited to send a representative to the Parliament to discuss the matter of credit restriction with the Government.

Shortsighted
It is stressed that the Government should not be shortsighted in its policy of restricting credit to farmers, as this would result in a loss of production and a consequent loss of revenue to the Government.

Minimum figure
The Chamber of Commerce and Industry has also expressed its concern over the minimum figure of 10 per cent for the Government to retain in its hands, which would result in a loss of production and a consequent loss of revenue to the Government.

PEOPLE'S SAVINGS DROP
The extension of social services has taken some of the keen edge of incentive

Their content the so-called "Annual Survey of Statistics" shows that in 1949, the total savings of the country were £1,000 million, or 10 per cent of the national income. This is the lowest figure since the year which ended on March 31, 1947, when the total was £1,100 million, or 11 per cent of the national income.

'NO IMMEDIATE DANGER OF JAPAN DUMPING GOODS IN KENYA'

The arrival of several Japanese commercial travellers in East Africa during the past few weeks brings both commercial and political attention to the resumption of trade over, even in a restricted form, between these Territories and Japan.

So far as Kenya is concerned, facilities for re-exporting trade with Japan were made available in August, 1949. As a result of an agreement between the British Government and the Government in Japan, which says that it will cover the territories of Kenya, Uganda and Tanganyika, it is now possible for Japanese goods to be imported into Kenya.

Mr. Adams said that the Government is not at all concerned with the possibility of Japanese goods being dumped in Kenya. He said that the Government is not at all concerned with the possibility of Japanese goods being dumped in Kenya.

ECONOMIC BATTLE AGAINST COMMUNISM IN ASIA

First steps may be taken at Sydney talks

HOPE of major results from the Commonwealth economic conference in Sydney, Australia, is meeting to discuss proposals for progress in Colombo by the Australian Minister for External Affairs, Mr. F. C. Spender, but it is not expected to bring forth anything in the nature of a far-reaching development plan for the continent.

Berlin, it is emphasized, will not take the initiative and it will be left to the Australians, as authors of the plan to make constructive proposals.

The British delegation, led by Lord Macdonald, Permanent Secretary, will have been in the lead since the economic battle against Communism in Asia may be taken.

Difficulties

One is to invite non-Commonwealth governments to join in a concerted attack on the non-servicing countries. There will be little difficulty in asking Burma, Borneo and Indonesia. The problem here is to see how to bring in the smaller territories, such as Malaya.

India, for example, might object to any such association which looked through the very being treated as a colony. And, since the Commonwealth has been in the habit of looking to Asia to help it to bring in the smaller territories, it is not likely to be able to do so.

It is also possible that Australia might be able to bring in the smaller territories, but it is not likely to be able to do so.

Emergency plans

Any consideration that the Sydney plan on progress at a rate which will be deferred to the question of economic experts in the next few months. It is not likely to be able to do so.

With South-East Asia, it is a question of whether the plan is to be carried out in the next few months. It is not likely to be able to do so.

Churches stand against racial discrimination

THE Council of Churches in Great Britain has issued a statement which represents all the main non-Catholic church movements in the British Isles.

A resolution on racial discrimination was adopted at the meeting of the Council of Churches in Great Britain, which was held in London on May 15. The resolution was passed by a vote of 100 to 10.

Not justified

The Council of Churches therefore wishes to state that racial discrimination of any kind is not only unjustified but also sinful.

Kenya policy aims explained at Eldoret

AFTER the declaration of the Royal Society of Foreign Editors, Eldoret has been the host of Kenya's proposed constitutional amendments. Major A. J. Nathan, leader of the European Editors Members said: 'We have just formed the body of Kenya and, in so doing, we have presumably widened prosperity and happiness to all her people, a factor which can only be achieved by a spirit of co-operation and understanding between those who live within her boundaries.' Nathan said that newspaper editors had been invited to Kenya to give the serious consideration of the proposed constitutional changes which were being discussed within national and international boundaries. The Road to the Isles

To the Editor, "E.A. Standard."
—A few weeks ago, South Africa's Minister for Information, Mr. J. G. van der Stoep, announced a very interesting programme of South African broadcasts to the "Isles". The singer, in his introduction, gave me the impression that this was an important and important business and it might be of interest to the readers of this paper to know the history of this time.

A family called MacLellan lived in the north-west of Scotland. The father was a 2nd class stevedore and was always looking for ways to improve his standard of living. He had a son, John, a moderate performer on the bagpipes. John was a pipe tuner for bar and pipes. The "Isles" of the "Isles" was a name that in the 1930s, John was invited to play at the service in Cape, and returned the title "The Bagpipe King".

PRESIDENT TRUMAN AT 66 IS FIGHTING FIT

WHEN America's President, Harry S. Truman, began his sixth year of office earlier this month he was on the eve of his 66th birthday—he will be 66 on May 6.

Yet President in American history have had a more strenuous year.

"I've done who me Mr. Truman does very well, the cabinet as well, as fit, and as alert today as I have ever been in the past. In fact, the exacting role of United States President."

His constitution is as good as new, the doctor told 17 pounds, which he says he has lost through his weight loss. He got up at 5:30 and 8:20 a.m. and an early morning walk through the streets of Washington. He strides along at the infantry pace of 110 steps a minute. Alden says he takes ten post and perspire, and shrugs his head in admiration, 110 hours later at the end of his walk. He says the president "often says the president 'than they get me to go to the office. My attitude toward himself and his work offers a partial explanation of President can't break your back if you let it. In a few days he'll not be sorry."

President Truman walks today. He often drives or receives on an average of three nights a week and often receives Truman, and three government ministers and Mrs. Truman are walking through the streets of Washington. The President and Mrs. Truman are walking through the streets of Washington. The President and Mrs. Truman are walking through the streets of Washington.
