ES ON DEMAND STEM PROPOSED

For Nairobi traffic offenders

CITY COUNCIL TO CONSIDER PLAN TO HELP THE COURTS

TRAFFIC offences of a certain category would automatically return to the courts of the city if the offender is unable to pay the fine. This was the proposal of the Nairobi City Council at its monthly meeting on Thursday.

The Traffic Control Committee suggests that the council give a list of offences in which a "ticket" system will be introduced. The offences will be those in which the offender is liable to a fine of less than five shillings and the offender would be liable to return to the courts if the offender is unable to pay the fine.

It is understood that about 1,400 traffic cases are pending in the city at the moment.

It is also understood that authorized police officers might issue motor fines on a specified scale whenever an offence is committed. This would mean that the Traffic Ordinance would be a failure on the part of a delinquent to pay the fine. This would be liable to return to the courts in the normal way in the case being brought before the courts in the normal way.

CAN PRINCE SIMON EMULATE IROUOIS' FEAT?

American coli backed to win £100,000

TODAY is Derby Day and even those who hardly know a horse's whiskers from its quarters will be having a mild flutter on the greatest race in the world—the Fitzroy of the Derby Stakes, first run at Epsom in 1733.

Of the 22 horses entered, 19 will start the race, which will be run on the 1st of June, at Epsom, Surrey. The race is one of the most important in the world and has attracted the attention of the world's leading sportsmen. The American colt, Prince Simon, is the favourite to win. He is owned by the Duke of Devonshire and is trained by Sir Gordon Richards. He has won several races and is considered to be one of the best horses of the year.

Drums, portraits

Drums, portraits and other things from the stocks of the London and North Western Railway Co. are being sold at a sale of stock at the office of the company. The sale is being held at the office of the company, 15, Abchurch Lane, London. The items for sale include drums, portraits, and other household goods. The sale is open to the public and is expected to attract a large number of buyers.

War casualty

Princess Rose, who killed her father, the Duke of Devonshire, during the fighting in France, has been found to be a war casualty. She was killed on the 1st of June, 1918, while serving with the Duke of Devonshire's regiment. Her death was a great loss to the country and she is being buried with full military honours.

M. BOUSSAC WINS HIS FIRST DERBY

French owner's double in Epsom classics

MARCEL BOUSSAC, millionaire French industrialist, achieved a long-anticipated ambition at Epsom on Saturday when his beautiful chestnut colt *Calador* (Djebel/Kay) trained in France by Charles Semblat and magnificently ridden by Australian jockey Ron Johnston, won the Derby, beating the favourite Prince Simon (by Prince Quillo) by a head.

There was to be a double for the French owner, as he had also won the second of the Epsom classics, the Oaks, when *Calador's* sister, *Calantha*, won the race by a neck over the favourite *Princess Margaret*. *Calantha* was trained in France by Charles Semblat and ridden by Australian jockey Ron Johnston, who also won the Derby.

Result in brief

Derby (12.40) *Calador* (R. Johnston) 1, *Prince Simon* (W. H. Carr) 2, *Calantha* (R. Johnston) 3, *Princess Margaret* (W. H. Carr) 4, *Princess Margaret* (W. H. Carr) 5, *Princess Margaret* (W. H. Carr) 6, *Princess Margaret* (W. H. Carr) 7, *Princess Margaret* (W. H. Carr) 8, *Princess Margaret* (W. H. Carr) 9, *Princess Margaret* (W. H. Carr) 10, *Princess Margaret* (W. H. Carr) 11, *Princess Margaret* (W. H. Carr) 12.

At Tattenham
At the top of the list in the first of the two races was the French-trained *Calantha*, who won the Oaks by a neck over the favourite *Princess Margaret*. *Calantha* was trained in France by Charles Semblat and ridden by Australian jockey Ron Johnston, who also won the Derby.

World Cup Soccer: tentative dates
Dates for the final World Cup soccer tournament have been tentatively fixed for 1958. The tournament will be held in Sweden and will feature 16 teams.

Only a mile
Johnston and Calador won the Derby by a head over Prince Simon. The race was a close one, with Calantha finishing second in the Oaks.

Consolation
The consolation races at Epsom were also won by French-trained horses. *Calantha* won the Oaks and *Calador* won the Derby.

Supply Co. Hotel college suggested for East Africa

Mr. Jack Hoot, president of the East African Hotel Association, thinks the general standard of the efficiency of hotels in East Africa, could be much better. He is convinced that a training college for hotel staffs is the best way to improve the standard of hotels in East Africa. The idea had already been suggested to the Government, but it was not taken up. Mr. Hoot says that although it has not yet been decided, he is sure that a training college for hotel staffs is the best way to improve the standard of hotels in East Africa. BRITAIN'S BATTLE FOR THE TRADE SHIFTS TO TORONTO

Writing from Canada, a correspondent tells how 500 British exhibitors at the International Trade Fair are making the biggest post-war bid to step up the export trade.

Reasons why Britain is losing ground
In 1928, the most decided of the power countries held out their hands to the British Empire.

Arab League is facing its biggest crisis
The Arab League, which was formed in 1945, is now facing its biggest crisis.

Overcrowding by-laws are held up

Overcrowding by-laws are held up. A new by-law relating to overcrowding in public buildings has been held up in the City Council. The by-law was introduced by the Mayor and is intended to control the number of persons who may be present in public buildings at any one time. It is expected that the by-law will be passed in the near future.

The cost

The cost of the proposed by-law is estimated to be £10,000. This is a significant amount, but it is considered necessary to ensure the safety and health of the public. The Mayor has assured the Council that the cost will be covered by the City's resources.

Board's food

The Board of Health has issued a report on the food supply in the city. It states that there is a shortage of certain types of food, particularly meat and dairy products. This is due to a combination of factors, including a decline in production and a rise in demand.

Establishing health

The Health Department is working to establish a network of health centres across the city. These centres will provide a range of services, including medical consultations, health education, and vaccination. The aim is to improve the overall health of the community.

Use an Union Day

The Health Department is encouraging citizens to use their Union Day for health-related activities. This could include visiting a health centre, getting a check-up, or participating in a health education session. The department wants to make the most of this opportunity to promote public health.

Think to the start

The Health Department is reminding citizens to think about their health from the start. This means eating a healthy diet, exercising regularly, and avoiding harmful habits like smoking and drinking too much alcohol. By taking these steps, citizens can reduce their risk of illness and live a longer, healthier life.

Health is a habit

The Health Department is promoting the idea that health is a habit. This means that good health is not just something you have, but something you do every day. By making healthy choices consistently, citizens can build a habit of good health that will benefit them throughout their lives.

Accepted everywhere

The Health Department is pleased to announce that its services are now accepted everywhere. This means that citizens can now access health services wherever they are, making it easier for them to get the care they need. The department is committed to providing high-quality services to all citizens.

COMPTON'S KNEE INJURY WORSENS

No more football; cricket endangered

There is depressing news for England cricket enthusiasts. Denis Compton, England and Middlesex all-rounder may be finished with first-class cricket and will certainly never play Division I football again.

Compton's injury to the right knee, which occurred in a match against Lancashire, has now become so serious that he will have to undergo a major operation. It is expected that he will be unable to play for several months.

Learn a lesson from a Lifobal

Ninety-nine days out of a hundred a Lifobal is less than it cost to make. But on the hundredth day when it is needed urgently, its value is beyond price.

The Planned Protection offered by the "MUTHAIGA" is like that, too. Its real value is realized when it is most urgently needed.

Planned Protection is for your family and it enables you to give and take financial decisions according to your own personal circumstances and in the years ahead. May we tell you more about it?

AT PRICE RISES ANNOUNCED
 force from tomorrow

NEW GRADING SYSTEM FOR BEEF INTRODUCED

Tomorrow meat prices are to rise. The southern grade of beef is given below, but the full range of prices from Lamb and veal will not be available until, roughly, the end of the month. As a result they will pass on beef to the consumer, but the Commission will take no profit on the beef in the first three grades at the same price as the previous year, that is, the Commission will take no profit on the beef, relying on by-products for its surplus.

JETS WITH RADAR IN THE NOSE
 Russia may have produced her first jet-propelled bomber

It is reported that the Soviet Union has produced the first jet-propelled bomber. The aircraft is said to be a two-engine, high-altitude, long-range bomber. It is believed to be capable of reaching speeds of up to 6,000 m.p.h. and has a range of up to 10,000 miles. The aircraft is said to be equipped with a radar system in the nose, which is used for navigation and target identification.

Wholesale range

The Government has considered the possibility of a wholesale range of goods. This would involve the production of a range of goods in large quantities, which would then be sold to retailers at a discount. This would be expected to help to reduce the cost of living for consumers.

Hit by shells

A Nationalist vessel was hit by shells from the British Royal Air Force. The vessel was carrying a large quantity of supplies and was operating in the waters off the coast of East Africa. The attack was carried out by a squadron of British fighters, which dropped several incendiary bombs and fired several shells at the vessel. The vessel was damaged and was forced to return to port.

Adenauer welcomed
 Buchman's plan

Adolf Adenauer, Chancellor of West Germany, was welcomed by the British Government. The British Government has expressed its support for Adenauer's plan to reunify Germany. This plan involves the formation of a new German state, which would include both West and East Germany. The British Government believes that this plan is the best way to achieve a lasting peace in Europe.

HE BLAMES THE B.B.C.
 Weather forecast put holidaymakers off

The British Broadcasting Corporation (B.B.C.) has been blamed for putting holidaymakers off. This is because the B.B.C. weather forecast was said to be inaccurate. The forecast predicted heavy rain and strong winds, which would have discouraged people from going on holiday. However, the weather turned out to be much better than the forecast predicted.

First to sail
 round America

A Canadian vessel, the *Albatross*, has become the first to sail round America. The vessel sailed from Vancouver, British Columbia, and completed the voyage in 101 days. This is a significant achievement, as it is the first time that a Canadian vessel has sailed round the world.

Compulsion IS NOT RULED OUT

Enforcement of Union's segregation policy

The South African Minister of the Interior, Dr. F. E. Donges, has told the House of Assembly in Cape Town that the government is not ruling out the possibility of using force to enforce its segregation policy. Donges said that the government would do whatever it takes to maintain the system of racial segregation in South Africa.

Pacific nations agree on 'joint action'

General Carlos P. Romulo, Philippine Foreign Minister, has released the text of a resolution of the Pacific Conference. The conference, which was held in Manila, has agreed on a joint declaration of solidarity against aggression in the Pacific region. The declaration calls for the peaceful settlement of international disputes and for the maintenance of peace and stability in the Pacific area.

CHINESE NATIONALISTS 'BEHAVED LIKE PIRATES'

Chinese Nationalists who intercepted the British ship *Shin Hai* near Hong Kong have behaved like pirates, according to the British Government. The *Shin Hai* was carrying a large quantity of supplies for the Chinese Nationalist Government. The Nationalists seized the ship and its cargo, and held the crew and passengers captive. The British Government has demanded that the Nationalists release the ship and its cargo, and that they should be held accountable for their actions.

BLOODLESS THIS TIME
 South Korea voting was quiet

South Korea has held its general election. The election was held in a bloodless manner, with no reports of violence or intimidation. The Nationalist government, led by Syngman Rhee, won a decisive victory. The election was held in a free and fair manner, and the results were accepted by all sides.

2600 hold-up men
 reward for them

The Government has offered a reward for information leading to the capture of 2,600 hold-up men. This is part of a campaign to reduce the incidence of highway robberies in the country. The Government is offering a reward of up to 100,000 shillings for each man who is captured. This is a significant incentive for the public to help the authorities in their fight against crime.

200 salvoes at
 British ship

The British ship *Chesapeake* was fired upon by 200 salvoes from the Chinese coast. The ship was carrying a large quantity of supplies and was operating in the waters off the coast of China. The Chinese coastguard vessels fired several salvoes at the ship, which were believed to be incendiary shells. The ship was damaged and was forced to return to port.

Police seize (suspected) bill-bearings for East

The British police have seized a large quantity of suspected bill-bearings for East Africa. The bill-bearings were found in a warehouse in London. They were believed to be counterfeit and were intended for use in East Africa. The police are currently investigating the matter and have arrested several suspects.

Italy joins pool talks

Italy has joined the talks on the formation of a new pool of resources. The talks are being held in London and are aimed at reducing the cost of living for consumers. Italy's participation in the talks is a significant development, as it shows that Italy is willing to cooperate with other countries in the region to address the issue of inflation.

Clear-cut issue of 'joint action'

The conference has agreed on a clear-cut issue of joint action. This issue is the peaceful settlement of international disputes. The conference has agreed that all disputes should be settled through peaceful means, and that the use of force should be avoided. This is a significant achievement, as it shows that the nations of the Pacific region are committed to maintaining peace and stability.

Move to ease Allied controls

The United States and Britain have agreed to move to ease Allied controls. This move is intended to help to reduce the cost of living for consumers in the Allied countries. The move involves the relaxation of certain controls on the export of goods and services. This is expected to help to increase the availability of goods and services and to reduce the cost of living.

'Positive advances'

The conference has made positive advances in the settlement of international disputes. The conference has agreed on a number of principles that will guide the settlement of disputes. These principles include the peaceful settlement of disputes, the respect for the sovereignty of all nations, and the maintenance of peace and stability in the international community.

Jews today debate arms, Jerusalem

The Jewish community in Jerusalem is today debating the issue of arms. There is a strong opinion that the Jewish community should have its own army. This is because the Jewish community has been the victim of violence and persecution for many years. The Jewish community believes that it has the right to defend itself and to protect its people.

Operations for both

The British Government has announced operations for both sides of the conflict. This is part of a campaign to reduce the incidence of crime in the country. The operations are aimed at reducing the number of crimes committed in the country and at improving the safety of the public. The operations are expected to continue for some time.

REGIMENTED CHILDREN OF BERLIN
 The spectacle that disturbed

HUNDREDS of special train-sets of Berlin and river barges were yesterday commandeered by the Soviet and Communist forces in the city of Berlin. The children of Berlin were regimented and forced to work in the city's defense. This is a disturbing spectacle that shows the human cost of war.

Good beginning'

The conference has had a good beginning. The conference has agreed on a number of principles that will guide the settlement of international disputes. These principles include the peaceful settlement of disputes, the respect for the sovereignty of all nations, and the maintenance of peace and stability in the international community.

Two dangers to free men

The British Government has identified two dangers to free men. These dangers are the loss of freedom and the loss of peace. The British Government believes that these dangers can be avoided if the principles of democracy and peace are maintained. The British Government is committed to the defense of these principles.

Operations for both

THE HOUSING OF AFRICANS

With Member's suggestions

MANAGEMENT AND HELP TO BUILD THEIR OWN HOMES

Before he was appointed Member for Health and Government, Mr. E. A. Yessy was invited by the Government to enquire into the problem of African housing in the House of Representatives. He has since made a number of visits to the various African housing schemes in the country and has reported on his findings to the House of Representatives. He has also made a number of suggestions for the improvement of African housing.

Mr. Yessy's first report has been issued. It deals with the housing of Africans in townships and in the country. He points out that the present system of housing Africans in townships is not satisfactory and that it is necessary to find a better system. He suggests that the Government should encourage Africans to build their own homes and that it should provide them with the necessary management and help to do so.

AUSTRALIAN AIR HELP FOR MALAYA

Strachey tours hotspots

The Australian Prime Minister (Mr. R. G. Menzies) has announced that Australia would send a transport squadron to aid Malaya in the fight against the Japanese. The transport squadron will be led by the Australian Air Force officer, Mr. Strachey. He will be touring the hotspots in Malaya to assess the situation and to coordinate the Australian aid.

Mr. Strachey is expected to arrive in Malaya in the next few days. He will be accompanied by a number of Australian aircrew and ground staff. The transport squadron will consist of transport aircraft, which will be used to transport supplies and personnel to the front lines.

BRITAIN TO PAY 212/- A CWT

Terms of Kenya bacon agreement released

The agreement will run for a period of five years, from December 1950 to the end of 1955. The price for the bacon will be 212/- per cwt. This is a significant increase from the current price of 170/- per cwt. The agreement also provides for a number of other terms, including the quantity of bacon to be supplied and the conditions of sale.

The agreement was reached after a number of negotiations between the British and Kenyan Governments. It is expected that it will be signed in the next few days.

GENERAL SMUTS HAS PNEUMONIA

Daughter flying to his bedside

General Smuts, the former Prime Minister of South Africa, has been diagnosed as having pneumonia. His daughter, Mrs. Smuts, is flying to his bedside in London. General Smuts has been in the hospital for some time and his condition is reported to be serious.

General Smuts is one of the most prominent figures in South African history. He served as Prime Minister of South Africa from 1919 to 1924 and again from 1939 to 1948. He was also a member of the British House of Commons from 1911 to 1919.

BRITAIN'S COLONIES HEALTHIER

Millions now live longer

The British Colonial Office yesterday claimed spectacular gains in the health of the millions of people living in the colonies. It stated that the life expectancy of the population in the colonies had increased significantly in recent years, and that this was due to a number of factors, including improved medical care and better living conditions.

The Colonial Office also announced that it had set up a number of new health centres in the colonies, and that it was providing a number of other services to improve the health of the population. It stated that it was committed to the improvement of the health of the people in the colonies, and that it would continue to work towards this goal.

FRANCE TRIES TO IRON OUT THE DIFFERENCES

New approach to Britain on Schuman Plan

France has made a new attempt at conciliation with Britain over differences about her plan to pool coal and steel production with other European countries. The French Government has proposed a new approach to the Schuman Plan, which is aimed at creating a common market for coal and steel in Europe.

The French Government has stated that it is willing to make concessions in order to reach an agreement with Britain. It has proposed that the common market should be established by 1952, and that it should be open to all European countries. It has also proposed that the common market should be financed by a common fund, which would be contributed to by all member countries.

Tanganyika European Council

Members' views expressed

The Tanganyika European Council has held its first meeting, at which the views of the members were expressed. The council is a body set up to represent the interests of European residents in Tanganyika. It has a number of members, including British, German, and other European residents.

The council's first meeting was held in Dar es Salaam. It discussed a number of issues, including the proposed new constitution for Tanganyika and the role of European residents in the new government. The council also discussed the need for better relations between European residents and the African population.

More verbal than real

French peace talks with Germany

The French peace talks with Germany are more verbal than real, according to a number of observers. They point out that the French Government has made a number of concessions in order to reach an agreement with Germany, but that these concessions are not being implemented. They also point out that the German Government has made a number of demands, which the French Government is not willing to meet.

The observers also point out that the French Government is not doing enough to improve the economy and to reduce unemployment. They believe that this is a major reason for the current political situation in France. They also believe that the French Government should take a more firm line towards Germany.

RAILWAYS LOAN

Local investment falls short

The local investment in the railways has fallen short of the target set by the Government. The Government has announced that it is providing a loan of £100 million to the railways. However, only a portion of this loan has been used for investment in the railways. This is due to a number of factors, including a shortage of funds and a lack of interest in the railways.

The Government has stated that it is committed to the improvement of the railways, and that it will continue to provide financial support. It has also announced that it is providing a number of other services to improve the railways, including the purchase of new rolling stock and the improvement of the infrastructure.

Allotments

Government to provide more

The Government is providing more allotments to the public. Allotments are small plots of land, which are used for growing vegetables and fruit. They are a popular way for people to grow their own food, and they are also a good way to improve the environment. The Government has announced that it is providing a number of new allotments, and that it is also providing a number of other services to improve allotments, including the provision of water and electricity.

It has also announced that it is providing a number of other services to improve the health of the population, including the provision of medical care and the improvement of housing.

The Government has also announced that it is providing a number of other services to improve the environment, including the planting of trees and the improvement of parks. It has also announced that it is providing a number of other services to improve the health of the population, including the provision of medical care and the improvement of housing.

Perplexity caused

Public opinion on Anglo-French talks

Public opinion on the Anglo-French talks is perplexed. The talks are aimed at reaching an agreement between the British and French Governments on a number of issues, including the Schuman Plan and the role of European residents in the new government. However, the public is confused by the talks, and they are unsure of what the Government is doing. They also believe that the Government is not doing enough to improve the economy and to reduce unemployment.

The public is also concerned about the current political situation in France. They believe that the French Government is not doing enough to improve the health of the population and to improve the environment. They also believe that the French Government should take a more firm line towards Germany.

From Food Ministry to Colonial Office

Transfer of responsibilities

The responsibilities for the colonies have been transferred from the Food Ministry to the Colonial Office. This is a major change in the way that the Government handles the colonies. The Colonial Office is now responsible for all matters relating to the colonies, including the provision of financial support and the improvement of the infrastructure. This change is expected to improve the way that the Government handles the colonies, and it is also expected to improve the health of the population in the colonies.

The Colonial Office has announced that it is providing a number of new services to improve the health of the population in the colonies, including the provision of medical care and the improvement of housing. It has also announced that it is providing a number of other services to improve the environment, including the planting of trees and the improvement of parks.

JIM LAKER MAKES CRICKET HISTORY

8 Wickets for 2 runs in Test trial

JIM LAKER, Surrey's 25-year-old off-spin bowler, accomplished one of the most remarkable performances in cricket history yesterday when he took eight wickets for only two runs, bowling against the Test trial at Bradford. His full figures were 6/12, 2/2, 8/4.

Laker was first to bowl by the England first team. He was all out for 37 in 110 minutes, the longest first-class total since Gloucestershire dismissed Somerset at Bristol for 25 runs in 1894.

As a feature about the whole, it was that Laker was born at Bradford about a stone's throw away from the ground to which he took his performance of his career to date was recorded in his first Test match. Laker, one of the very outstanding men who will regard the Test series very, very as a triumph in first-class cricket.

Adramatic tie at Southampton

A MID season of intense excitement, which was broken by a 100-run victory by Hampshire and Kent at Southampton, was the first in cricket history.

When Hampshire batted a second time, Hampshire captain, E. G. W. Laker, and opened the century with a brilliant century and half, but Hampshire lost to Kent, who were led by C. J. Knott.

The match was a real one, Hampshire supporters when, after a long and hard-fought game, they were with a late cut in the air.

SELECTIONS FOR NAKURU JUNE RACE MEETING

Racers can expect an interesting day

THE new customary six-race card, seven flat races and a hurdle handicap, will be raced at Nakuru on Saturday, June 10.

For the first time there is no event of outstanding importance, good racing is expected and some interesting racing is in prospect.

Handicap
The handicap is a new venture, a 1000 yards hurdle handicap, will be raced at Nakuru on Saturday, June 10.

Filly preferred
Chatham will probably run in the Nakuru Handicap, and it is expected that she will be the favorite.

THE FULL PICTURE OF THE OWEN FALLS DAM

By Dr. E. B. Worthington

The supply of fish for those who will build the Owen Falls dam introduces some of the big developments of East Africa.

The dam has had some publicity in the last year or two, particularly under the title of "The Owen Falls Hydro-Electric Project," but it is more appropriate calling the Owen Falls Project, for reasons which will be explained.

The Owen Falls, as it stands in the Owen River, is a natural dam of the Nile from Lake Victoria, in the form of a low, irregularly shaped barrier of rock and sand, which is 1000 feet long and 100 feet high. It is situated in the Owen River, which is 1000 feet long and 100 feet high. It is situated in the Owen River, which is 1000 feet long and 100 feet high.

This week Dr. E. B. WORTHINGTON, Scientific Secretary to the East Africa High Commission, discusses the full significance of the Owen Falls Dam project, an affair of more than hydro-power value to Africa.

Most interests of the producers and the users of Nile wheat could be met in the form of a low, irregularly shaped barrier of rock and sand, which is 1000 feet long and 100 feet high. It is situated in the Owen River, which is 1000 feet long and 100 feet high.

Egypt's floods

In 1946 these flows were caught into the Nile with the floods of the Nile. The Nile is 1000 feet long and 100 feet high. It is situated in the Owen River, which is 1000 feet long and 100 feet high.

Dr. Worthington's report has been published in the form of a book, "The Owen Falls Dam Project," which is available from the East Africa High Commission, Nairobi.

Much to be done

It is clear that much more work is needed to be done in the Owen Falls area. The Owen Falls Dam Project is a major undertaking, and it is essential that it be completed as soon as possible.

Power

The Owen Falls Dam Project will generate a large amount of power, which will be used for a variety of purposes. This power will be used for a variety of purposes, including the irrigation of the Owen River valley.

Use for Duty

S. African astronomers to explore Milky Way

A GROUP of astronomers led by Dr. Bart J. Bok, of Harvard University, now at Bloemfontein, will study during the next few months thousands of photographs of the Milky Way through their special telescopes. Their results will most certainly reveal a number of the mysteries of the tremendous galaxy of stars which comprise our Milky Way.

The centre of it believed to be the Great Square of Sagittarius. At Bloemfontein, the South African Journal of Science, the "journal," now believe that the Milky Way is a spiral system. PLAIN OR COLOURED

As was noted here last week, the British way of life expresses itself prominently in its dress. It also manifests itself in the appearance of that custom, particularly in the possession of the best raw material.

It is not to be the pride of the home, but the pride of the world. It is the pride of the world because it is the pride of the world...

The why and wherefore of whiskers

Following on last week's article by a more than ordinary woman's secretary...

T. male has superiority over the female in the matter of the moustache. A moustache is a trim in what is now called by a woman a decorative matter of dress.

It is later, being the weight of the mustache, that it is a thing to be proud of. The moustache is the harbinger of the woman's moustache...

Cherchez la femme Women are instinctively ignorant of the new fashion type of moustache...

from the man. The great sport is hair! The hair grows and whether, and gentlemen were usually clean-shaven...

There is one more thing to be said about the moustache. It is a thing to be proud of. It is a thing to be proud of...

There are some things which make all the difference between the hair of a man and the hair of a woman...

But right from the start there were no real clandestine; it was organised for me by the N.K.V.D. In January 1949, six months after the liberation of Rumania and its occupation by Soviet troops, I had a row of ten men and women from the Rumanian Communist Party who were to be sent to Moscow to work on a sabotage affecting some sixty or eighty other men in the Rumanian Communist Party. In principle this did not affect other men than the named saboteurs, but in fact there was a considerable amount of work to be done. The operation was a success.

Soviet police arrested four of those men, but the others, including the Bucharest man, were allowed to leave the city, and in fact were not proceeded against. The operation was a success.

Poite regret

Although a French citizen, I found myself, since liberation, in a very difficult position. I had to take any money of my own pocket to stand the responsibility of my own actions. I was not allowed to take any money of my own pocket to stand the responsibility of my own actions. I was not allowed to take any money of my own pocket to stand the responsibility of my own actions.

Not questions

This fulsome between the Soviet workers and the deportees was not at all times. To the street you could see the first person you met for a cigarette and he would give to you as simply as he would give to an enemy.

Treated as cattle

I have often been asked if we were ill-treated during the journey. The answer is that we were treated as cattle. We were not treated as human beings.

For clean healthy breeding from MARES AND COWS
