TEAMS WITHOUT STARS SHOW WAY

It's League Cup final day in Scotland

THE Americans are coming and we are unprepared, is almost a truism, says a Glasgow daily. It remains true today as the French team at Highbury came head-on by Walsley at Cardiff.

Yet, while the national side are in a state of flux several unimpeachable clubs are ready to receive any without the help of stars.

There are many reasons for this. First, the manager of Division I, William Manning and his staff, are in a state of flux. Second, the clubs are in a state of flux. Third, the players are in a state of flux. Fourth, the fans are in a state of flux.

Favourites

The football situation today goes South. Glasgow, which is a great footballing power, has a great team. Dundee, which is a great footballing power, has a great team. Aberdeen, which is a great footballing power, has a great team.

Cup final weekend

Two important football matches will be played in Nairobi over the weekend. The first is the League Cup final between the Kenya Police and the Kenya Railway XI. The second is the Kenya Cup final between the Kenya Police and the Kenya Railway XI.

The Kenya Police XI are the favourites to win the League Cup. The Kenya Railway XI are the favourites to win the Kenya Cup.

World Postings

The Kenya Football Union has announced that it will be holding a tournament in Nairobi over the weekend. The tournament will be held at the Kenya Sports Ground.

LONDON REACTION TO GOVERNMENT OF KENYA'S TEA PRICE INCREASE

The immediate reaction to the Government's announcement...
The Kenya Government's recently announced increase in the price of tea may be considered in the view that the decision is an overdue step in the industry.

There is, however, a more important underlying cause...
The Government is naturally realistic in the view that Kenya has any serious intention of stimulating the long-term development of its growing in a part of the country where yields from certain districts which have been overworked, prospects for the industry are relatively bright.

It is also pointed out that...
The Government are the people who will find opening up new fields. They are offering to plant tea on their own land and need their own establishment to plant tea which is to be cultivated on their own land.

NO doubt it is right that...
The Government are the people who will find opening up new fields. They are offering to plant tea on their own land and need their own establishment to plant tea which is to be cultivated on their own land.

STERLING

THE ASSOCIATED PRESS (London) reports that the pound sterling has risen to a new high of 100 shillings and 10 pence against the dollar. This is the highest level since the end of the Second World War. The rise is attributed to the fact that the pound is now being used as a reserve currency by many countries. This has led to a steady increase in demand for the pound, which has in turn led to a rise in its value.

RE-SHUFFLE OF FORCES IN THE MIDDLE EAST Egyptian influence on the wane

From SEBASTIAN HAFNER, London. It is beginning to look as if Egypt, by her summary rejection of the Four-Power offer of an Alliance, and by her denunciation of her treaties with Britain, has managed to knock herself out. Other than in generalities, it is hard to produce a general re-orientation of forces both in the Middle East and in North Africa.

In both these areas, Egypt has hitherto commanded respect. It has been the dominant power in the Arab world. It has been the pivot of the Arab League. It has been the centre of the Arab world. It has been the centre of the Arab world. It has been the centre of the Arab world.

Relief for family man
INCREASED DUTIES TO COVER REVENUE-EXPENDITURE GAP

EXPORT commodities enjoying unusual prosperity on world markets as well as tobacco, beer and spirits will be hit by the new Kenya Budget which was drafted by the Hon. Mr. Finance, Mr. V. G. Mathews, when he introduced the Budget for the coming year in Legislative Council yesterday.

At the same time the Budget effected a measure of relief. The family man will benefit. With effect from the next year of account, all allowances on a family's additional income in respect of income tax will be increased by 30 per cent.

With immediate effect, Customs duty will be abolished on the import of foreign repair and maintenance parts which will be held on imported stock.

Mr. Mathews says that he has been advised that the Government will be able to meet its increased expenditure on the new budget by the end of the year (which he says is not a long time) by the sale of Government stocks and the raising of new loans.

COMMONS ELECTS NEW SPEAKER

Decision on choice of candidate

Mr. W. S. Morrison (Conservative) was elected Speaker when the House of Commons met for the first time yesterday. He was given a majority of 41 votes. The House had divided over the election when Mr. Churchill had been elected Speaker.

The second candidate, nominated by two Labour backbenchers, was Major James Millar (Labour) who had served as Deputy Speaker for several years.

Mr. Morrison's election was a surprise to many observers, as he was not expected to be elected. He was given a majority of 41 votes.

AFRICAN SKILL BEAUTIFIES THE CATHEDRAL

(COMPARABLE with that seen in cathedrals in Britain was the judgment of a local expert on stone-work executed by African artisans in the new cathedral to the Cathedral of the Highlands Nairobi.)

He was referring in particular to the consistent manner in which will be set the new window—an outstanding feature of the future East End of the Cathedral. African craftsmanship, many of which were only rough drafts a year ago, have been employed in shaping and moulding from single blocks of stone the various patterns shown in the photograph on this page.

Patience needed

It is work which calls for a high degree of skill, patience and calm application. The stone, which comes from Langata, has to be accurately dressed and fashioned in separate pieces each fitting into the general symbol.

The quality of the work had the speed with which it has been carried out have been surpassed more than favourably with the efforts of artisans of considerable general experience.

The building firm which is undertaking the extensive alterations at the Cathedral, the modesty of their labours. The remainder of the work which is undertaken the extensive alterations at the Cathedral, the modesty of their labours. Ready in January

It is our policy to encourage African artisans and anyone who shows potential in giving every opportunity to improve his standing. Those who show the aptitude are given progressively more difficult jobs.

It is expected that the work will be completed by January as which is the date fixed for the consecration ceremony to be presided by the Bishop of Mombasa, the Rt. Rev. G. C. Clarke. The service will be presided by the Bishop of Mombasa, the Rt. Rev. G. C. Clarke. The service will be presided by the Bishop of Mombasa, the Rt. Rev. G. C. Clarke.

The target of the Building Fund was £20,000 and this sum is likely to be reached in the near future.

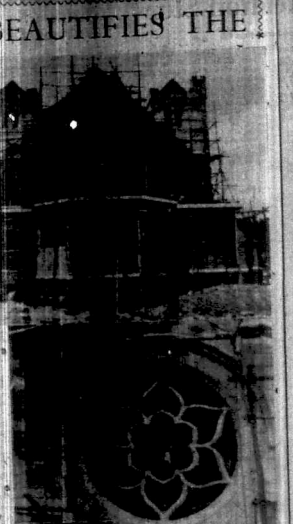

In an effort to raise the final £2,000 required to complete the Cathedral Fund a G.D. Day was held at the Cathedral yesterday.

The Program was in the Cathedral from 7 a.m. until 7 p.m. in favorable conditions, all of which were aimed and treated in accordance. There was a special effort at which the gifts were solemnly dedicated.

Money for windows

REPRESENTATIVES of the Royal Society of St. George, the West India and the Irish Society presented, on behalf of their members, requests to raise the cost of manufacturing windows which are shortly to be placed in the new Chapel commemorating the justice of the peace of the Cathedral.

The final stage of the Corporation Appeal, involving some £120,000 required for part of the renewal of the roof, will be begun in November before the Corporation of the Cathedral.
