Tell me
Doctor... when there's an accident, is it safe to put an antiseptic straight on the wound?

In an emergency you need an antiseptic that can be used quickly, without hesitation, and without danger or discomfort. You need a reliable kind of germ, but it should be non-painful, non-staining, gentle on human tissue, and valuable in promoting clean and rapid healing. You need the modern antiseptic 'Dettol'.

AUSTRALIA WINS BY THREE WICKETS

West Indians never gave up fighting

Australia beat the West Indies by three wickets on Thursday in the final Test match play a rain-stricken day at the opening of the century. The match was a close-run thing and the West Indies, who were batting first, were in a good position to win. However, the Australian bowlers, particularly the fast bowler, managed to break the West Indian batting order and secure a narrow victory.

The fall scoreboard

Country	1st Innings	2nd Innings
Australia	310 (100 overs)	180 (80 overs)
West Indies	280 (100 overs)	270 (100 overs)

The Ramadan menace

The Ramadan fast has caused some problems for the West Indies cricket team. Many players are unable to eat and drink during the day, which affects their performance on the field. The Australian team has been advised to play during the day to avoid the heat and the effects of the fast.

Western Window is favourite

Although Lord Derby's three-year-old Western Window, who made his debut in the first round of the National Hunt season, has been the most successful horse in the race, it is not the favourite to win the final. The Western Window is a well-bred horse and has shown great promise in his previous races.

AMENDED BUDGET PASSED IN TANGANYIKA

Debate on increased duties injudicious

THE TANGANYIKA Budget, with amendments proposed by the Finance Bill, was passed by the Legislative Council on Tuesday. The Council on Tuesday passed the amended budget for 1954-55, which is the first budget to be presented to the Legislature since the independence of Tanganyika. The budget is estimated to result in a surplus of £1,200,000 for the year.

The Finance Bill, which provides for an increase in duties on imports and exports, was passed by the Council on Tuesday. The bill is estimated to result in an increase in revenue of £1,200,000 for the year. The bill also provides for an increase in the salaries of public officers and for the establishment of new posts.

High Commission

In reference to High Commission expenditure, Mr. M. J. M. M. said: "What we require is a complete re-orientation of the High Commission to meet the needs of the Territory. It should be able to provide the necessary funds for the maintenance of the public services and for the development of the Territory."

Comparisons

In his analysis of proposed expenditure, Mr. M. J. M. M. said: "The proposed expenditure for 1954-55 is estimated to be £12,000,000. This is a significant increase over the expenditure for 1953-54, which was £10,000,000. The increase is due to the increased costs of public services and the development of the Territory."

Plan for more immigration of workers

Drinking of 'mochi' is on the increase

THE TANGANYIKA Call for more African labour is being made by the Government. The Government is planning to increase the number of African workers in the country. The Government is also planning to increase the number of African workers in the public services.

Criticism of labour plans

Speech from the Throne KING CALLS FOR 'VICTORY IN BATTLE FOR LIBERTY'

King Farouk's speech at the State opening of the Egyptian Parliament today told members "to be worthy of the liberty and freedom which you were resolved to attain in your Valley of Freedom," and by the Prime Minister, Nuhus Pasha, urged them to follow a single line of action towards a single aim—the freedom of the Valley.

In his first speech as "King of Egypt and the Sudan" the monarch proclaimed the 1936 Anglo-Egyptian Treaty as the basis of his policy for the Nile Valley, and said that he would follow a single line of action towards a single aim—the freedom of the Valley.

Particular emphasis was placed on the Nile Valley, and the monarch said that he would follow a single line of action towards a single aim—the freedom of the Valley.

No magic but there have been some real improvements

MR. WINSTON CHURCHILL has struck the keynote of the week with his remarkable speech in the House of Commons. Many things have been said about Mr. Churchill. At the moment, the main point worth appreciating is that he combines a combination of sense with a combination of imagination.

The new Government's main objective is to improve the economic situation of the country. Mr. Churchill has said that he is interested to talk out his ideas to the public through this new Government.

The Prime Minister's speech was a masterpiece of statesmanship. It was a speech which was a masterpiece of statesmanship. It was a speech which was a masterpiece of statesmanship.

It does not help her to make the decision. It is to be expected that the new Government will probably be more concerned with extending exports rather than cutting imports.

There is no sense in saying that there is no magic in the new Government. There are real improvements in the way the Government is running the country.

The new Government has a lot to offer to the people of this country. It has a lot to offer to the people of this country. It has a lot to offer to the people of this country.

The new Britain

No magic but there have been some real improvements

MR. WINSTON CHURCHILL struck the keynote of the speech with his remarkable speech in the House of Commons. Many things have been said about Mr. Churchill. As of yesteryear, it is his moderation of tone with firmness of message.

The new Government—said he—has moved to go into action with all the speed and vigour which it has shown since it came to power. It has not only done so but it has done so with a firm hand over the reins. It has not only done so but it has done so with a firm hand over the reins.

Uasin Gishu farmers will know soon

Secretary General, Cattle Breeding Society
The allocation of £40,000 to Uasin Gishu as its share of the £200,000 rehabilitation fund expected by local agricultural authorities to provide fertile bits to the change-over from pastures to mixed farming and to consider one of the most important steps taken in many years.
The Uasin Gishu Production Committee has received a large number of applications for loans—the amount of which will be determined by the committee in great detail by the Committee, whose recommendations have not yet been forwarded to Nairobi for final decision—probably in the next few days.
Main requirements of farmers who have applied for loans are cattle, dip treatments and fencing and all have been approved by the committee. But the application of the committee has not yet been forwarded to Nairobi for final decision—probably in the next few days.
The Veterinary Department will be closely consulted when cattle are purchased by successful applicants for a loan.

Gishu electors hear an explanation of Kenya's Budget

Mr. J. M. Njiru, Minister of Finance, explained the Government's budget to the Gishu electors at a public meeting held at the Gishu Club on Wednesday evening. He stated that the Government was committed to the principle of a balanced budget and that the budget for 1951-52 was designed to meet this objective. He outlined the various measures being taken to increase revenue and reduce expenditure, and emphasized the Government's determination to maintain the stability of the Kenyan economy.

The Minister also discussed the Government's policy on taxation and its impact on the general public. He assured the electors that the Government was committed to a policy of fair taxation and that any new taxes would be introduced only after careful consideration of their effects on the population.

Mr. Njiru concluded his address by expressing his confidence in the Gishu electors and their ability to contribute to the development of Kenya. He thanked them for their attention and invited them to continue to support the Government's policies.

'Cause of inflation'

Mr. J. M. Njiru, Minister of Finance, explained the cause of inflation in Kenya. He stated that the primary cause was the increase in the money supply, which was due to the Government's policy of financing its operations through the issue of new currency. He also mentioned the impact of the exchange rate and the price of imports on inflation. Mr. Njiru outlined the Government's strategy to control inflation, which included measures to reduce government expenditure and to increase revenue.

Local control

The Government is taking steps to increase local control over the economy. This includes measures to encourage local industries and to reduce dependence on imports. The Minister of Finance, Mr. J. M. Njiru, stated that the Government was committed to a policy of self-reliance and that it was determined to create more jobs for Kenyan citizens.

Controls

The Government has introduced new controls over the economy to ensure stability. These include measures to regulate the exchange rate and to control the flow of foreign currency. The Minister of Finance, Mr. J. M. Njiru, stated that these controls were necessary to maintain the value of the Kenyan shilling and to ensure that the country's resources were used efficiently.

Arbor Society appeals to Government

A RESOLUTION expressing grave concern at alleged "wasteful methods of felling and milling" was passed by the Arbor Society at a meeting of the Kenya Arbor Society on Wednesday evening. Wind-breaks

Wind-breaks are being planted in various parts of Kenya to protect crops and livestock. The Government is providing subsidies to farmers who plant wind-breaks, as they are known to reduce soil erosion and to improve the microclimate of the surrounding area. This is particularly important in the semi-arid regions of Kenya.

'Cabbage stalks'

'Cabbage stalks' are being used as a source of fuel in some parts of Kenya. This is a traditional practice that has been passed down from generation to generation. However, some people are concerned that this practice is causing environmental damage and that it is a waste of resources.

'Ten to one'

'Ten to one' is a phrase used to describe the odds of winning the lottery. The Kenya National Lottery has announced that the odds of winning the grand prize are ten to one. This has attracted a large number of people to buy tickets, and the Government has received a significant amount of revenue from the lottery.

Flashback

A flashback to the early days of Kenya's independence is being organized. This will include a series of events that will celebrate the country's history and its achievements. The events will include a parade, a concert, and a series of lectures. The Government is committed to preserving the country's heritage and to ensuring that its citizens are proud of their history.

JEWELLERY AS AN AID TO BEAUTY

Many women think of jewelry as an adornment, but how many have thought of it as a help to beauty?

It is a fact that jewelry can be used to advantage in many ways. It can be used to draw attention to the eyes, the nose, the mouth, the ears, the neck, the hands, the feet, and the hair. It can be used to make the face appear more oval, the eyes more blue, the nose more straight, the mouth more full, the ears more prominent, the neck more slender, the hands more delicate, and the feet more graceful.

There are many different kinds of jewelry, and each has its own special uses. Some are designed to be worn all day, while others are only worn on special occasions. Some are made of precious metals, while others are made of less expensive materials. Some are simple and elegant, while others are more ornate and elaborate.

When choosing jewelry, it is important to consider the occasion, the outfit, and the individual's taste. Jewelry should be chosen to complement the overall look, and to enhance the wearer's natural beauty.

Spelling mistakes worry me

I AM a pedant, but not about everything. I am about spelling. I have a very strong feeling that those who write with care should also write with accuracy. I have a great deal of sympathy for those who are troubled by spelling mistakes, but I cannot help but feel that it is their own fault.

Spelling is a very important part of communication. It is the key to understanding what someone has written. If we do not know how to spell, we cannot read. If we do not know how to spell, we cannot write. It is a shame that so many people are unable to do these simple things.

There are many reasons why people make spelling mistakes. Some are simply careless. Some are lazy. Some are just not good at it. Whatever the reason, it is a pity that so many people are unable to spell correctly. It is a pity that so many people are unable to communicate effectively.

To those who take ASPIRIN...

To everyone who, from time to time, needs aspirin to relieve pain, 'Disprin' is an important introduction. Research chemists in many countries have been trying for years to overcome the acidity and toxicity of aspirin. In 'Disprin' there have been no aspirin in a tablet which is not only stable, but also palatable.

Aspirin is acid and irritates the lining of the stomach. In all cases when you would normally take aspirin—fever, pain, headache, toothache, cold, flu, etc.—take 'Disprin'.

Disprin to relieve pain. For less acid. Completely soluble. Quicker to relieve. Non-irritating. Available in 100 and 250 tablet packs for home or hospital use.

ONE of the stops which the Royal couple made was at Calgary where they met Governor-General and his wife. In the picture immediately below Princess Elizabeth is seen receiving from an Indian girl a gift of a real Indian necklace.

The picture below shows the Princess Elizabeth in conversation with President Truman at the airport in Ottawa. The picture to the right shows the Princess Elizabeth in conversation with Mr. Louis St. Laurent, Prime Minister of Canada, at the airport in Ottawa.

During their tour the Royal couple travelled to many parts of the country and met many of the people who are so proud to have the Royal couple in their midst. The picture below shows the Princess Elizabeth in conversation with Mr. Louis St. Laurent, Prime Minister of Canada, at the airport in Ottawa.

THIS way in which Princess Elizabeth and the Duke of Edinburgh won the hearts of Canadians and Americans during the Royal tour can be seen from these pictures of scenes from their triumphant journey.

The two pictures at the top of the page were taken in Ottawa when the Princess and the Duke, wearing their Canadian-made, smart dress suits of a Canadian designer, started their journey in Government House, Ottawa.

The Princess wore a lovely checked jacket with a lovely necklace. The Duke had a white checked shirt and blue trousers. They both wore a variety of hats and shoes.

It was a big thrill for the Duke and Duchess of Edinburgh after a Royal Canadian performance of the Wandering Juggler.
