Mr. ODINGA URGES

KENYA'S Minister for Home Affairs, Mr. Odunga, said in Parliament yesterday that South African and African States were ready to visit war on South Africa if the remaining colonial territories in Africa could not be freed.

He expressed his deep sympathy for the African States, and in a long speech in the House of Representatives, he urged the Government to take steps to secure the freedom of the African States. He said: "The position of the African States is a serious one. The remaining colonial territories in Africa are a source of constant danger to the peace of the African continent." He said that the African States were ready to visit war on South Africa if the remaining colonial territories in Africa could not be freed.

Common man 'too often forgotten'

THE goal of freedom had been reached in Africa, said the speaker, but the common man was too often forgotten. He said that the African States were ready to visit war on South Africa if the remaining colonial territories in Africa could not be freed.

ENGLAND gained their first international victory over Uruguay when they won 5-1 at Wembley yesterday. Averaging 60-0 in two earlier matches, the British team were only a shadow of their former selves in the past two World Cup, and England, who had lost 7-1, halcyon, were not hard pressed to win.

Kitale draw with Bungoma

IN a thrilling game, rated one of the best seen at Kitale for some time, Kitale drew 1-1 with Bungoma at the Christian Stadium. The results from the kickoff were second to none. When Peter Mshini, the defender, intercepted the ball from the right half, Tom Wambui, the centre forward, took the ball and scored the first goal. Wambui, an easy chancer, took the ball and scored the first goal. The game was a draw. The players were very happy with their performance.

No type of investment — not even stocks and shares — can offer what an insurance policy can. There is no substitute for insurance. Life insurance premiums ought to have a first claim on your attention. Life insurance has unique advantages which no other form of savings has. Protect your dependents by insuring your life against death. Protect yourself against living too long by an annuity policy. Take that worry off your head as to what happens to your family in case you die by having your obligations fulfilled or in case you live too long.

Dr. NYERERE Finance will come from outside

DAR ES SALAAM
A CHALLENGING five-year development plan involving the expenditure of £2.66,000,000 was presented to a crowded National Assembly in Dar es Salaam yesterday by President Nyerere. In a 50-minute speech, the end of which he was given a standing ovation, the President outlined the plan which he said was the first of three consecutive five-year plans covering the period up to 1980.

ODINGA SIGNS TWO AID AGREEMENTS

A KENYA Government minister, Mr. Odinga, signed two aid agreements with the British Government during his visit to London. The agreements are for the supply of technical assistance and for the supply of foodstuffs.

The three main objectives of this extended plan were to raise the annual per capita income from the present £19 6s. to £24; To be fully self-sufficient in trained manpower requirements, and to raise the expectation of life from the present 35-40 years to 50.

Referring to the common market between Tanganyika, Kenya and Uganda, Dr. Nyerere said that in future the three countries would enable each to share the benefits of the market.

Not substitute for work

President Nyerere said the plan was not a substitute for work on the contrary it was a call for it. By itself the plan was worth no more than the paper it was written on. It was the work on the plan which would transform it into something of value to our nation, the President said.

The estimated annual income per head in Tanganyika was now £19 6s. and the first objective of the plan was to raise this to £24 by 1980. It was estimated that the average income in the country.

Dr. Nyerere had to rely on non-citizens to carry out many of the skilled professions and managerial jobs. The second objective of the plan was to train people to fill these posts by 1980.

Statistically the baby boom today could be expected to level off by 1960.

President Nyerere said it was essential to improve the standard of living and the health of the people. This could be achieved by the development of agriculture and industry.

The President outlined the plan for the next five years. He said that the plan was a challenge to the people of Tanganyika to work hard and to improve their standard of living.

EAST AFRICAN AIRWAYS

WALLS beat East Africa last night by four goals, a try and a penalty to a goal and a penalty (25/5).

What the records will show — but they will not show how well East Africa fought against the odds which tonight and how hard the Wallabies had to play, pulling out all the stops in the second half, to record that amazing margin.

East Africa had to start all of October, and this was very much against the run of play for East Africa had had to play in an inferior position and the odds were against them. Both sides in fact night they were not in the best of form.

Although there was considerable pressure on the Wallabies by East Africa, the Wallabies had to play the Wallabies were wider able to start an attacking programme in the first half.

They were either backed in possession by the counter-attacking East Africa, or were being hit by the Wallabies, which was a dilemma since which would be the best result.

When talking, was ineffective, and the Wallabies for a time of the Wallabies for the second half, but with the Wallabies in the middle of the second half, the Wallabies were able to take an early lead in the second and sixth minutes when they Young and then Irvine made mistakes, but their first try expert showed them how to do it, and then they were able to make up for their mistake when, with Shorter caught offside in a show screen on the East African forward line, by Shorter, or even their penalty.

East Africa came back on to the attack making the Wallabies took very accurate pressure and with McCulloch missing, with the Wallabies attempt and Irvine's penalty was not enough to give them the lead, but the Wallabies were able to make up for their mistake when, with Shorter caught offside in a show screen on the East African forward line, by Shorter, or even their penalty.

Weak tackling

Agate East Africa attacked and this time they scored their try where McCulloch made a good break, passed to Dering up to support who is later stopped by the Wallabies, but the Wallabies were able to make up for their mistake when, with Shorter caught offside in a show screen on the East African forward line, by Shorter, or even their penalty.

Cricket missed

East Africa, with Russell, the Dar es Salaam second forward, prominent, were early all the time in the first quarter of an hour and had two chances to take an early lead in the second and sixth minutes when they Young and then Irvine made mistakes, but their first try expert showed them how to do it, and then they were able to make up for their mistake when, with Shorter caught offside in a show screen on the East African forward line, by Shorter, or even their penalty.
