Chamber of Commerce complaints lead to critical report

NEW AND IMPROVED Nairobi system 'has no useful purpose'

SUGGESTIONS that the whole basis of land valuation in Nairobi should be reconsidered are contained in a report submitted to the Chamber of Commerce by the chairman of the Chamber's standing committee on development, Mr. G. St. L. Adhemar.

Castaways take boat after shooting

Castaways on a lonely beach on the east coast of the island, said to have about 100 people, were taken to the mainland by a boat from the island.

Mr. Adhemar's suggestions were put forward at the request of the management committee, which asked for an investigation into complaints on valuation by members of the Chamber.

He points out that the method of valuation on unimproved site value only was adopted to encourage development. As the larger part of the land developed it seemed that system no longer served any useful purpose and that valuation should be considered, as in Britain, on the market value of the whole occupied site and not on the hypothetical value of undeveloped land.

Figures in the 1961 draft valuation roll were based on valuations at August 1, 1959, and could temporarily not represent present-day values in view of the political uncertainty. Mr. Adhemar quotes the figures of part of the valuation roll. In 1948 it was £11,000,000, in 1951 £20,000,000, in 1954 £40,000,000, in 1957 £50,000,000 and in 1959 £50,000,000.

NAIROBI VALUATION ROLL

SEMI-EDUCATED towards the end of Mr. Adhikari's address is a piece of advice well worth taking. Though he does not discourage individual objection, he suggests a more effective means for registering opinion would be through taking greater direct interest in the City Council, which, in turn, cannot mean anything other than participation.

At a meeting of the Chamber of Commerce produced a plan for a more constructive representation in the Council through the election of more businessmen as Councillors. What happened there does not appear to be reflected in the valuation roll. The business community is of a respectable low class. A Committee was recommended to study the roll. This was not implemented in April 1, as a second nomination date for May 15 was set. The roll was not completed until the Crown land divided into leasehold plots, the most controversial in the current agreement over the present. There is a plan for more business people in the Council, where they will be doubly welcome as the present roll is a source of anxiety when valuations require to gain experience in conducting the roll.

It is noted that the increased figures do not necessarily mean a higher yield from the city. The increase in the roll is due to the fact that from the taxpayer's point. Not necessarily—unless the revenue for 1959 is greatly increased. The roll is not a source of additional valuations to spread the load. There is a possibility of the 1961 revenue remaining at the 1959 level. In which event the cost to be levied could be reduced from the present level. The effect of increasing the roll in 1961 could be that higher valuations would be assessed as a means of spreading the load. The roll is not a source of additional valuations to spread the load. There is a possibility of the 1961 revenue remaining at the 1959 level. In which event the cost to be levied could be reduced from the present level. The effect of increasing the roll in 1961 could be that higher valuations would be assessed as a means of spreading the load.

Assessment related to market value

Mr. Adhikari indicated in his report, the valuations are based on the value of the property. It is noted that the increased figures do not necessarily mean a higher yield from the city. The increase in the roll is due to the fact that from the taxpayer's point. Not necessarily—unless the revenue for 1959 is greatly increased. The roll is not a source of additional valuations to spread the load. There is a possibility of the 1961 revenue remaining at the 1959 level. In which event the cost to be levied could be reduced from the present level. The effect of increasing the roll in 1961 could be that higher valuations would be assessed as a means of spreading the load.

THE IMPORTANCE OF THE PROBLEMS WITHIN COMMONWEALTH IS STRIKINGLY UNDERLINED FOR THE PEOPLE OF COMMONWEALTH WEALTHY COUNTRIES HOLD IN MAJOR CITIES

It is noted that the increased figures do not necessarily mean a higher yield from the city. The increase in the roll is due to the fact that from the taxpayer's point. Tantalising new ideas for the kitchen

By SARTORRA.
A well along in the electricity age, you will have heard a lecture on the use of kitchen equipment and come away with your minds full of the new gadgetry that we would like to buy, if only we had the money.

Now, we have a new way to get the most out of our kitchen equipment. We have a new way to get the most out of our kitchen equipment. We have a new way to get the most out of our kitchen equipment.

THREE BRUSHES
The new machine has three brushes instead of the former two, a separate motor and shaft for final touch. There is a metal, in which the brush is held, which is fixed to the shaft and by means of a simple chain, fixed to the handle and motor, holds the brush against the shaft to release the valve that sprays the polish from a screw cap rather than a jet.

MUCH INTEREST
The drawings are being made and will be ready along with others from the Medical Research Council in the afternoon.

WOMAN TO AVOID HAVING ULCERS
It would be a man who could say whether there are more ulcers in Kenya than in places with comparable populations, but whatever the fact is, it may well be that many more people suffer from distressing symptoms which are in fact ulcers.

WORK STRAINS
Although most of these ulcers are caused by stomach acids, there are some cases where the cause is not ulcers, but is in fact, a strain of the stomach.

FOOTBALLERS' LAST CHANCE TO ACHIEVE A 'DOUBLE'

Pools Special by Bob Arnold.

SATURDAY is the last day of the 1965-66 British Soccer season and presents players with their final chance, satisfying £100,000 cheque. Pools will of course continue the Australian matches season but the highest weekly reward is the £100,000 consolation in a few days.

Of all this week in the past few days for drawn games, where Cup finalists Blackburn Rovers are the victors.

Blackburn were beaten at City but they should be able to gain a point from Burnhampton, who are not yet clear of relegation. They will also get well-paid Wednesday on Saturday however, be taken into account.

Perry's lack of goals
Lack of goals has kept former Division I stars Derby County and Division II and still in their last home point against their lively visitors, Luton.

An uncertain defence has been spending most of the season struggling against relegation. The little attack has also, been a little shaky and it makes them present Plymouth sailing their Division II champions.

Widow's IV for draws
Transfers and up a late show of their reserves to avoid relegation into Division IV. This determination may be hampered by some weakness in the relegation.

Most of the draws this week are likely to be concentrated in Gillingham's football-without-

QUINS' LOSS
Kevin Hargrave, suffering the loss by death of two sheep. They were Fred J. Perry, a front row forward who played on Saturday at XV RFC match at St. George's, and one of last season.

Mr. Perry, who was 23, died morning in hospital on Sunday for about 24 hours in Kenya. He was a very good XV last season fully earned his promotion to the first XV. He leaves a widow.

Michael Coates, a former player of XV forwards, died on a road at a party in London. He was 26 and had been in Kenya for a year. He was also a keen golfer and the manager of Rippon G.C. before coming to Kenya to study geology. He lived in Murrumbidgee, Canada, and played Rugby in Canada and Kenya.

Link, the R.A.F. pilot, who has just got the better of Morrison (Army No. 19) in the Sunday's Charity Soccer match.

Charity Soccer ends in goalless draw

A LARGE crowd, comprising a gratifying "gate" attendance of Red Cross playing a Sunday afternoon match on the Nairobi Railway Club ground on Sunday afternoon when the goalless draw. The first half of a game, played at a sustained pace, was probably for some clever football. But the second half, while exciting at times, was far less polished.

The League players were obviously feeling the effects of their not full term of training, early morning and effective marksmen.

Outstanding players
Most of the Army players appearing in a representative status for the first time. Conway, a professional with Hibernian for three years and Conway on their books, was very impressive.

So was Peniston, at centre-half, and both these players commanded the full respect of the opposition.

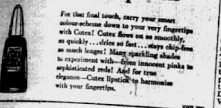

From the kick-off Army went straight into attack and forced Wilkes, going just over the bar. At the other end London was not aware of the middle of the forward pass. But the League in defence of the advancing "keeper" were then sent very close when they were not looking likely to score.

THIS sharp fall on Wall Street this morning brought and increasing flow of credit increasing in home countries were depressing influences on London stock markets yesterday.

Business was at a minimum, individual provided a dull appearance and dollar stocks performed the overall decline in Trans-Atlantic value.

Gold shares were marked down on lower Johannesburg and copper and copiers send under American influence.

Oil shares were irregularly mixed but oil edged upward slightly.

INFORMAL ROYAL FAMILY AT BADMINTON'S HORSE TRIALS

MEMBERS of the Royal Family spent the end of last week at Badminton House, Gloucestershire, the home of the Duke which were held there. The Queen, with the Prince of Wales and Princess Anne, was there for the whole three days, along with Princess Margaret and her fiancé, Mr. Antony Armstrong-Jones, while the Duke of Edinburgh attended the first day.

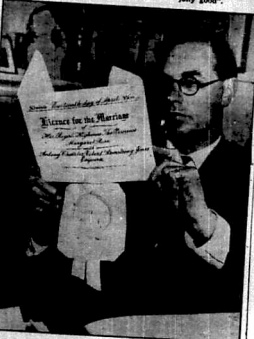

In the picture on the right, Princess Margaret—with a smile as gay as her silk headscarf—is seen watching the second day's events, while on the left, Mr. Armstrong-Jones is photographed in what is a familiar pose for him—with a camera.

The Queen, with Princess Anne, waits for her seat in the stand on the first day of the horse trials. It was her 34th birthday and many of the crowd shouted "Happy birthday, Your Majesty" as she passed.

With the Prince of Wales at the helm and Princess Anne a passenger, a white jet speedboat skims across the lake in Badminton Park as the Royal entourage enjoy the champagne after a day of the horse trials. The Prince piloted the boat up and down the lake at speeds of up to 30 m.p.h. and also

carried out a series of tight turns. At one time he asked drivers why he should not be steering the boat, to which the incident that was causing his father's head a headache on a previous day at the Gloucester Flower Show. After-prize Princess Charles told the boat ride had been "very good".

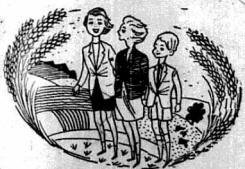

Mr. Armstrong-Jones listens attentively as Princess Margaret, pointing at one of the documents, has a discussion about the course with the Duke of Beaufort.

EAA puts you in the picture

There's so much to see on your way to South Africa

The comprehensive network of tourist services operated by East African Airways and Central African Airways enables you to see more of Africa on your way to the South. For instance, if South Africa is your destination, you can give your trip its include visits to Salisbury, Lourenco Marques, or the Victoria Falls.

Salisbury is a modern city with inspiring skyscrapers, and one of the most beautiful cities in the world. Lourenco Marques is a city of historical value and a return air of only 5th Dec. 22/5.

Lourenco Marques is perhaps the only truly Continental city on the African continent — a city of historical value and a return air of only 5th Dec. 22/5.

The Victoria Falls are an awe-inspiring and completely unspoiled spectacle. You can walk to the very brink and listen to a roar of many cascades beneath your very feet.

Your travel agent will tell you how easy it is to see these and many other sights of Africa when you fly with EAA and CAA.

SPIRITUAL OF THE SOUTH

PLEASE allow rest to ripen in a better attitude of mind. The Bible which you published on April 20. Three religions began, it seems to me, to be a center to invent it with.

This work was done in my mind and in the mind of man who had the greatest of all things, the idea of a higher order of value. Aerially, it is to be a better medicine, more or rather, a more certain, a will.

As these meditations were after prepared as apparently a noble and noble person, they were taken to be written from a Secretary, Secretary, of their managers. Very rarely, they were taken to be written from a Secretary, Secretary, of their managers. Very rarely, they were taken to be written from a Secretary, Secretary, of their managers.

Always there has been the difficulty of keeping religion from being a mere dogma. The Old Testament was a collection of the Hebrew prophets to give the people their meaning, and modern times, it is to be a better medicine, more or rather, a more certain, a will.

The mission of Jesus, the Christ, was to give the people their meaning, and modern times, it is to be a better medicine, more or rather, a more certain, a will.

Only by the discipline of love, truth, and faith, can the people be made to see the meaning of the Old Testament, the mission of Jesus, the Christ, was to give the people their meaning, and modern times, it is to be a better medicine, more or rather, a more certain, a will.

Westminster pattern Now that the date of the Commonwealth Prime Ministers' meeting in London approaches, it is not possible for the Parliamentary Association to persuade that stout friend of the Commonwealth, determined ally of the West, benevolent ruler, Sandhurst-trained, conspicuous constitutional champion of his predecessor, and which is so essential in the meetings between the crude North and the more mature and refined of the commonwealth world.

NOW... a modern remedy compounded to STOP that COUGH!

New Breacol's Formula unites power of 11 ingredients to stop coughs FAST!

Here—after years of research in one of the world's largest pharmaceutical laboratories—is a remarkable new cough remedy that actually unites in one balanced formula the cough-relieving power of 11 active ingredients. One of these ingredients is an amazing new deep-penetrating antibiotic that kills bacteria in your "cough zone" on contact.

Instantly, Breacol's balanced formula penetrates deep into pockets of infection and irritation that old-fashioned remedies fail to reach... and acts immediately to stop your cough... loosens phlegm... soothe irritated membranes... relieve throat tickle and chest tightness.

RESULT—Breacol's exclusive combination of cough-fighting drugs assures faster, more effective relief from your cough in any stage... whether it's due to a cold, sore throat, stuffy nose, deep-down bronchial congestion, or dry stubborn throat tickle caused by smoking.

COMPLETELY SAFE—EVEN FOR CHILDREN

Breacol contains no cocaine or habit-forming narcotics and has a delicious honey-like taste everybody loves.

Bre-a-c-o-l

THE COUGH REMEDY WITH THE HONEY FLAVOR

HERE ARE 5 REASONS WHY BREACOL ACTS FASTER TO STOP COUGHS!

DESTROYS GERMS

Action of new antibiotic kills bacteria in mouth and throat on contact, protects your throat from "cough zone" from spread of infection.

DECONGESTS CHEST

Breacol's exclusive formula contains three potent expectorants that penetrate deep into infected passages of bronchial tract. One bronchial agent has longer-lasting effect in relieving sticky secretions.

STOPS CONSTANT COUGHING

The active ingredients in Breacol combine to relieve irritation and tugging sensations in the throat that cause coughing spells.

RELIEVES SORE THROAT

Breacol contacts a soothing, pleasant-tasting medicine that coats your inflamed membranes and relieves irritation and sore throat.

EASES SWALLOWING

Two ingredients work instantly to soothe irritation, relieving the larynx and the throat, making swallowing easier.

Perhaps, then, the mere social contact might suffice. The Cromwellian approach characterized by the works of the Anglican divines of the "rule of the law" in the West and the Eastern life, the mere social contact might suffice.

BAD SKIN cleared fast

Many people suffer needless embarrassment because they do not know how to clear their skin. It is not possible, let us at least hope that the Government of the Commonwealth, determined ally of the West, benevolent ruler, Sandhurst-trained, conspicuous constitutional champion of his predecessor, and which is so essential in the meetings between the crude North and the more mature and refined of the commonwealth world.

The shape of a good scotch

The man who knows scotch by experience knows that above all, its mystic process of evolution cannot be hurried—refuses to lend itself to mass production techniques. He likes his scotch made the old, slow way... like it made by a small family operation who know time and productivity means no more now than it did a hundred years ago—like it the way it is in the tall triangular bottle.

RESPONSIBLE GOVERNMENT

TRULY, the pace of constitutional advance in East African territories has been slow, but observers, at the British Conservative Party's spring conference in London, said the latest news from Kenya, Uganda, and Tanganyika, was encouraging.

Mr. Fletcher-Cooke, who was appointed to his post just when the changes which will take place in September on the East African General Election were being discussed, has already been busy in his new capacity as a Chief Minister. He has been seen before the energetic late Government and the Government of Tanganyika in the Governor and Leader of the Opposition and he is now to assist that Government in the same capacity in the Legislative Council in a similar way to the Tanganyika African National Union, which has been the first of the territories to have a responsible Government.

Chief Minister P. M. Nyerere has been seen before the Governor and Leader of the Opposition in the same capacity in the Legislative Council in a similar way to the Tanganyika African National Union, which has been the first of the territories to have a responsible Government.

The current situation in the territories is as follows: Kenya has a responsible Government, Uganda has a responsible Government, and Tanganyika has a responsible Government.

No need for London conference

When Sir Richard Turnbull announced the first in a series of constitutional changes in East Africa, the Executive Council was to be retained, although the Council of Ministers was to be replaced by a Council of Ministers. The Council of Ministers was to be replaced by a Council of Ministers. The Council of Ministers was to be replaced by a Council of Ministers.

MODERN CINEMA TO SERVE NAKURU

By REGINALD HOLLOWAY
Nakuru's new Eros Cinema will have seats for 457 people, compared with the 336 in the old Electric. The extra capacity is provided by a new balcony.

One of the joint owners of the new cinema, Mr. J. J. Anon, said this week that there was, in fact, room for 50 seats but the opening had been increased to provide extra leg room. The Eros is the first cinema in Kenya to be fitted with the new Prevost 251 sound system.

The system has been tested by a pair of Kibice producers. The seating design of the first of the Eros cinema is one of the most modern designs in Nairobi. A wide range of comfortable seats, including the impressive pattern which is a large amount of plate glass with a balcony and orchestra fittings.

TONIGHT'S GALT
The opening of the first of the Eros cinema is in aid of local charities. The film to be shown is "The Sheriff of Frisco" starring Kenneth More and Joyce Mansfield.

There will be a preliminary show at 5 p.m. and the official opening will be performed before the 8 p.m. performance by the Mayor, Mr. G. L. Hailhouse.

It will be the third cinema opened in the town by Mr. Hailhouse during his term of office as Mayor.

When the new cinema has a proper automatic to the event of a power failure. Special attention has been paid to ventilation and a set of four large extractor fans.

The owners of the Eros, Mr. L. P. Patel, Mr. R. B. Sethi and Mr. J. J. Anon, discuss plans for the opening performance.

Change for the owners

FROM managers of Nakuru's oldest cinema, the owners of the Eros Cinema, Mr. L. P. Patel and Mr. R. B. Sethi, they decided to sell the cinema to Mr. J. J. Anon, who bought the cinema in January, 1950.

A little later they decided to pull down most of the old cinema and build a new one: that by the Eros is the result.

Mr. J. J. Anon, who was operating the cinema, said that he had been in the cinema for 30 years ago, starting where, 30 years ago, he was operating the cinema. He said that he had been in the cinema for 30 years ago, starting where, 30 years ago, he was operating the cinema.

FINGERS CROSSED
The night in 1920 when the talkies came to Nakuru, is recalled vividly by Mr. Balraj Priston, who was operating the cinema — and also leaving the cinema. He said that he had been in the cinema for 30 years ago, starting where, 30 years ago, he was operating the cinema.

Throughout the performance the projection box was wanted to know how it worked. "After we had finished, my father said, 'I believe it worked well. From what I saw of the chairs and held a camera'."

STILL SHUDDERS
The evening is also remembered by Mr. Priston's mother, Elise. "I recall the film — it was 'The Sinning Fish with Al Johnson,' she says. 'Everybody cried, even the men.'"

Mr. Priston will be at the Eros tonight and, oddly enough, he is interested by his first Pioneer Cine Service.

"I certainly will not have the same doubts and worries that I had on that night 30 years ago," he confessed, jumping back of what a show there will be.

The gramophone record lasted for about four treat and optical film track.

The show was packed and people were standing in all the aisles. "Somebody made an announcement from the stage and we started. It was a comedy there was just one small loud

speaker, but everything went fine and the sound was very good.

CHAMPION SPARK PLUGS

ARE NOW

PLATED TO RESIST CORROSION!

Why is it that Champion Spark Plugs are specified wherever maximum engine performance is called for—on land, on sea or in the air? Why does Champion Spark Plugs perform as well as it does? The answer lies in the special new Rolls Royce Silver-Clad II and Heavy 5.2 cast.

One reason is that Champion Spark Plugs are always first in the field with the latest technical advances. The latest improvement is that every Champion Spark Plug now has a bright, hard-tempered plated finish—its special corrosion resistance and flexibility, to help protect your cylinder head from rust and corrosion.

Kenya emigrants sought for Union

'GET YOU THERE' SCHEME MAY SET UP OFFICE IN NAIROBI

A JOHANNESBURG businessman who operates a bus service to get new immigrants for South Africa is to visit Nairobi next week to establish the feasibility of setting up an office to handle enquiries from Kenya and Tanganyika.

Mr. John Foggett said in London that he had no special faith in the future of the Union that he was expanding his programme. He said he had spent a month in Hamburg.

Despite the recent setback of the recent cabinet decision in South Africa I have much faith in the Union," he said, "but I am not sure how long it will last."

Mr. Foggett said he had seen many Whites who are moving from the other side of the world to the Union. He said he had seen many Whites who are moving from the other side of the world to the Union. He said he had seen many Whites who are moving from the other side of the world to the Union.

Night flier mistakes Athi works for runway

STREET lights at the Athi River cement factory have been mistaken for runway lights at Nairobi Airport recently by at least one pilot.

Because of this, the East African Directorate of Civil Aviation had warned all pilots against confusing the two sets of lights. The factory lighting consists of two parallel lines of white lights half a mile long.

The airport lighting should be clearly distinguishable by red lantern-shaped beacons which are brightly visible with the runway lights. It is stated.

British solution

Pilots have been asked to report any failure to identify the lights. An official of the Directorate said he had received reports that the lights had caused confusion near airports in British East Africa.

The authority has been asked to identify the lights which are brightly visible from the air. Pilots have also been advised to use the lights only in emergencies and to report any failure to identify the lights.

Logic and right on Coalition's side

In the past, minorities had succeeded in reversing Governmental decisions of British logic and right on their side. Sir Ferdinand Cavendish-Bentinck held a meeting of the Kiambu District Association on Tuesday.

He was submitting suggestions or criticisms of Kenya Constitution. He said that he had been just and right on their side.

He also believed much that was worth while could be salvaged from "the shambles" were taken now there would be a year's time.

Sir Ferdinand stressed that he was not advocating that union to the Constitution should be to emerge, as this would be foolish. He accepted the position.

ECONOMY STANDS FIRM AFTER ALL COMMITMENTS MET

Business conditions improve from Kenya

ECONOMIC FIRST PRIORITY

Kenya's economy is showing signs of recovery after a period of stagnation. The government's policies have been successful in maintaining stability and promoting growth. The country's economic first priority remains a key focus for the government.

MINISTER RULES OUT FEE FOR CURRENCY FREEZE

Mr. Maclean said it was not altogether surprising to learn that there had been some outflow, because at times of change people with liquid assets tend to transfer them to places where they believed they might be safer.

INVESTORS SHOW FAITH

"It was, however, glad to learn that, as I had expected from the information obtained in London, the figures which were mentioned was highly exaggerated," he added.

SECURITY IMPROVED BY POLICE MEASURES

There are already indications that recent police action in Nairobi has brought about some improvement in the security situation.

Any government unlikely to take over land

It was extremely unlikely that any future Government in Kenya would attempt any levity to dispossess of immigrant agriculturists, the president of the Kenya National Farmers' Union, Mr. D. K. Sharma, said yesterday.

DELAY IN REMOVAL ORDER CASE

A CASE alleging that a removal order served by the immigration authorities on Shivji Narain Punja was unlawful was adjourned in the Supreme Court, Nairobi yesterday.

Bail for 15 on riot charges

Fifteen of the 37 African men and women who were arrested on charges arising out of a riot on Saturday night in Nairobi District Court, Nairobi yesterday.

JUDGE 'CONFUSED' ON PYRETHRUM FLOWER

Confusion on the part of the lower court judge about the price of pyrethrum flowers was said to have caused the delay in the case.

STABLE POSITION

Mr. Maclean said that the Government was confident of a stable position in the future years. He mentioned that the country's economic first priority was to maintain stability and promote growth.

Plot not foisted

He stated yesterday that the building would be erected according to the plans already approved by the Commissioner of Lands and Survey.

TO CIVIL DISOBEDIENCE RESORT

Mr. Mboya was being questioned about his speech in Nairobi, which was prepared about the time that the Kenya Government was not releasing African workers from detention.

U.P. seeks to make Coalition a reality

Delegates from the various branches of the United Party have decided at a special conference in Nairobi that the party's committee and the Kenya Coalition Committee should meet as soon as possible to make the coalition a reality.

Threat to coffee

Such allegations were false, Mr. Mboya said. He stated that the United Party had no intention of making a coalition with the Kenya Coalition Committee.

NURSE ATTACKED

A nurse who was attacked in the City Park, Nairobi, on Tuesday night was taken to hospital. The nurse was identified as Miss M. J. Paul.

Whore's my friend

"I believe there is a widespread feeling in Kenya that we are right in what we are doing," Mr. Mboya said.

Freeze capital Kenya party urges

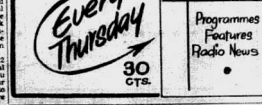

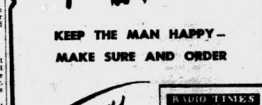

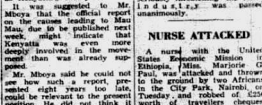

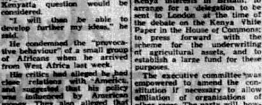

If the panic flow of capital from Kenya was not stopped, the Government would be unable to finance its operations, Mr. Mboya said.

Capboard skeleton

He said that an independent Kenya government did not want to be a puppet government. He stated that the Government should be able to make its own decisions.

MR. NYERERE GIVES UP POSITION

Governor should lead Governor's Ministers' Council

Day at Salomon
AFTER describing the Tanganyika Government changes announced earlier in the day as a "major step towards full independence for this country", Mr. Julius Nyerere, president of Tanganyika, today Elected Ministers' Council on Tuesday evening that the Representative body should be headed by the Governor and not remain on the Council of Ministers.

New post 'explodes myth'

SPEAKING on behalf of S African Representatives of the Uganda Legislative Council, Mr. M. Choto said that creation of the Chief Minister's post in Tanganyika would "explode for good the myth still being held in Kenya and Uganda that a Black man cannot lead a Government in those territories today."

He added: "We congratulate Mr. Nyerere on his outstanding and speedy achievement. The Tanganyika proposals continue to show the goal of self-determination."

Uganda retained the only African mandated territory without detailed constitutional proposals, and the Tanganyika proposals, though short of our goal, will be a source of inspiration to us in our heretofore political activities, as well as in our negotiations between the Colonial Secretary and the representative forces of the African people.

"Nothing in the Tanganyika proposals is likely to diminish the ability of Uganda, indeed, they represent clearly the major and majority recommendations of the Bill's committee. "Nothing in our view, will annoy the people we represent more than seeing the Committee's majority recommendations, which they have endorsed, working in Tanganyika and not in Uganda."

MINTOFF SEEKS ARAB LEAGUE AID
 The Maltese Labour Party leader, Mr. Don Mintoff, has conferred with the Secretary-General of the Arab League, Dr. Mohammed Hassan, in the course of his tour of Mediterranean countries to solicit support for the independence of the Middle East news agency has reported.

"I quoted Mr. Mintoff as saying he was returning to Malta today to organize general demonstrations in the island in honour of British colonialists and calling for independence."

The Government was responsible for the fact that the Chief Minister's Council would be headed by the Governor, Mr. Nyerere said.

"It is not clear whether the Government would be responsible for the fact that the Chief Minister's Council would be headed by the Governor, Mr. Nyerere said. "It is not clear whether the Government would be responsible for the fact that the Chief Minister's Council would be headed by the Governor, Mr. Nyerere said."

London decision
 "As to the Deputy Governor, it would be quite improper for anybody to presume who might be the most suitable for the job, or to suggest something to whom it might be misapprehension which might suit his friends."

"As to the date of the new Government taking office, there was no ruling order, nor had the Colonial Secretary and the Governor been in consultation with the London side on this question."

"It is a matter for congratulation that the Colonial Secretary has agreed to the Bill, which has accompanied other such concessions in the recent past."

Bill to create money centre

"Minister" Government, Day at Salomon

"Typing error"
 DURING the second reading of a Bill to amend the Finance (Miscellaneous Provisions) Bill, Mr. Nyerere said that the Government would be responsible for the fact that the Chief Minister's Council would be headed by the Governor, Mr. Nyerere said.

While he was Minister of Finance for Kenya, he said he was able to assist in the creation of a money market, and I do know how valuable that assistance to the Government of Kenya and how important to the development of Kenya."

Referring to the King's message to the U'uru' people, it is noted that the King has expressed his sympathy for the U'uru' people.

well known that a very small percentage of Africans outside Central Province know what is all about. It is a pity that a letter received from a farming relative in British writing of the political situation.

It is an incredible thing to happen. Just 17 days ago, you know, all the Africans to have been revolutionized. They are getting in a very nationalistic mood.

It is important to distinguish the trade in bicycles from that in 'u'uru'.

The bulk of the bicycles imported by British manufacturers is not for sale in the U.K. and it would not be sold in the U.K. market.

FEL repels mosquitoes right away!

FEL is a mist-spray applied to the skin... and the most effective repellent of mosquitoes, hares, flies and other blood-sucking insects yet devised.

FEL's repellent action stays effective even when exposed to sun and air and does not irritate the skin. It's non-greasy, non-staining... does not harm nylon or other fabrics.

FEL with gently fragrant FEA - an essential protection against mosquitoes.

FEL is manufactured by Kilgintone Organic Products Corporation, in collaboration with J.R. Rieley, S.A., Bazel, Switzerland and

I've got a family to carry... that's why I bought an OXFORD

As a family man, one thing I've found essential in a car is room - room in the back for the kids to bring themselves about - room in the front for my wife to sit back in comfort while I drive (also in comfort, I might say, as an Oxford is such an easy driver).

One also wants room in the boot (nearby bits and pieces that women and children aid to the good ones) to stow away even the shortest journey.

Another point that the Oxford is the built-in reliability that Morris have given their cars for over 30 years. Goodness knows, a family man knows responsibility without worrying about breaking down miles from anywhere or what's going to need repairing when so I treat driving as a pleasure.

The NEW MORRIS OXFORD

There's a lot in MORRIS WARRANTY as well as in MORRIS as G.M.T. investment of a car.

MAU MAU REPORT RAISES STORM

COUNCIL TOLD OF MINISTERS' ALARM OVER LOSING STAFF

The debate was initiated by Mr. R. S. Alexander (Nairobi West) on the subject of the Mau Mau report which was published in the Kenya Gazette on April 27. Mr. C. W. Don Coyne, who had discussed the matter with Mr. Alexander and the leader of the House and he ruled that it was a matter of urgent public importance.

Mr. Alexander quoted from a Reuter cable giving the text of an article which appeared in the London Daily Telegraph yesterday.

It was a bloody episode in 11 days of political upheaval which inspired the Mau Mau. His father was Mr. Lee Si Heng, who had been in hiding since he was appointed as Vice-President during national elections in 1957. Mr. Lee and his son had fled to hospital after being arrested by the British.

Mr. Lee, who was also speaking to the House, said that he had been arrested at 8.40 a.m. local time in an area of the Presidential Palace in Seoul where the Lees lived.

COMPETING VIEWS STRUGGLE TO KEEP ORDER IN S. AFRICA

I WAS pleased to see more letters in last Friday's paper in support of the struggle of the South African Government to maintain order in the country. I also deeply deplore the hypocrisy of the "democratic" powers of the U.K. at the time of the 1948 election and I can only hope that the highest ideal of the South African Government is to keep order in the country. There are two main reasons why the South African Government is struggling to keep order in the country. The first is the fact that the Government is struggling to keep order in the country. The second is the fact that the Government is struggling to keep order in the country.

SOTIK BACKS

Need for alliance of minority groups explained

SUPPORT for Sir Ferdinand Kenya's move was expressed in a resolution passed at a meeting of the Sotik Settlers' Association. The resolution, which was passed by a vote of 10 to 2, stated that the members of the association were in favour of Sir Ferdinand's move and that they would support him in any way possible.

It is said that Sir Ferdinand has been disappointed at this time in the matter of the Colony by the Sotik Settlers' Association. The Chairman of all parties, he was to have been selected as a party.

During the Sotik Settlement, the British Government made a mistake in not making a Sotik Settlement a condition of all grants of land. This mistake has now been corrected. The British Government has now decided to make the Sotik Settlement a condition of all grants of land. This decision has been met with approval by the Sotik Settlers' Association. They are now looking forward to the Sotik Settlement with interest.

It is believed that Sir Ferdinand will be able to secure the support of the Sotik Settlers' Association in his move. This support is essential for his success. He must have the support of the Sotik Settlers' Association if he is to succeed.

Changes inevitable

It was estimated for people who would be coming in to Kenya and that they would be coming in to Kenya in large numbers. It is believed that the Sotik Settlers' Association will be able to secure the support of the Sotik Settlers' Association in his move. This support is essential for his success. He must have the support of the Sotik Settlers' Association if he is to succeed.

£50,000 plan for Royal Parks

REPLY TO CRITICS IN TOURISM INDUSTRY

DURING 1950-51 £250,000 is to be spent on the Royal National Parks of Kenya.

This is more than five times the amount spent in the preceding three-year development period.

A spokesman for the Ministry of Tourism, James A. Jones, said that the Government had not yet decided whether to increase its contribution to £250,000 for part of the year.

He was speaking at a reception of the Kenya Government and the British Tourist Travel Association.

Hotel aid
The spokesman, the Permanent Secretary to the Ministry, Mr. M. N. Evans, said that contrary to what is often said, the Government was not to be the sole contributor to the development of the industry. It was to be joined by the Kenya Hotels Association.

The Government was doing all it could to create an atmosphere of confidence and to increase the number of tourists.

So far as the Government aid was concerned, it was to be in the form of a grant-in-aid to the Kenya Hotels Association.

The Government's investment in the industry was £140,000 in the year 1950-51, £100,000 in the year 1951-52, and £120,000 in the year 1952-53.

The grant for publicity was to be increased by £1,000 to a total of £2,500.

'Not Government'
Of the £50,000 for development of the National Parks, £25,000 had been set aside for the expenditure of the Kenya Government and £25,000 for the expenditure of the Kenya Tourist Travel Association.

The Minister of Tourism, Mr. James A. Jones, said that the Government was not to be the sole contributor to the development of the industry. It was to be joined by the Kenya Hotels Association.

Static amount
Grant in aid for the trustees of the National Parks stood at £250,000 a year and is expected to rise to £300,000 in 1953-54. This is the amount of the Government's contribution to the National Parks.

The Kenya Minister for Agriculture, Mr. McFarlane, with the new Assistant Minister for Agriculture, Mr. T. Yessie, who will take over in a few days.

ELECTED COUNCILLORS FOR NON-EUROPEANS AT NAKURU

The representation of Africans and Asian Nakuru when the Municipal Council's constitution is altered in October, Africans are to have three elected and two nominated members.

First three aldermen chosen
The European community will continue to have six elected representatives and two nominated members.

'Standard' Star Reporter, Nakuru.
Nakuru's first African and Asian aldermen were elected by the council on Wednesday. They are Mr. N. H. Hardy, Dr. N. M. Shah and Mr. Qujei Andino.

Mr. Hardy, the Executive Director of the Nakuru Municipality, was the town's first African alderman. He was the Municipal Board chairman in 1951 and 1952.

Dr. Shah has had in Nakuru since 1928 and has held office in many local organizations. He has served on the board and the council for 25 years and is a member of the Kenya Legislative Council.

'Not Government'
Mr. Andino is a member of the Kenya Legislative Council. He is a member of the Kenya Tourist Travel Association and the Kenya Hotels Association.

Additional street lighting to be provided with £1,500 allocated from the Works Committee's vote. A sub-committee has been set up to consider the proposal.

Pirates' worry traders

AFRICAN traders in Nairobi are becoming worried as the growing number of men and women who have taken to petty trading along roads and railways in the city.

The Chamber's executive committee had met officials of the City Council to discuss the problem. It had suggested several measures to be taken.

Must be complete
Elections for the new African and Asian Municipal councillors will be held during September and the successful candidates will take their seats on October 1, 1953.

IN THE SHADOW OF THE THRONE

Princess may drop her Royal title

ON November 13, 1941, the day before his wedding to Princess Elizabeth, Lt. Philip touched his shoulders with a sword and created him a Knight Companion of the Most Noble Order of the Garter. On that auspicious occasion, the King also conferred on Mr. Mountbatten, the peer of His Royal Highness and the 17th and titles of Baron Greenwich, Earl of Merioneth and Duke of Edinburgh.

When he was married the next day, the King's new son-in-law qualified for a sum of £10,000 a year from the Queen's Civil List. Princess Elizabeth's Parliament and £30,000. Princess Elizabeth's income. Numerous other honours have since been bestowed on the Queen's husband and by Order in Council in 1937 he became "His Royal Highness the Prince Philip."

GUY JONES concludes his series on the Duke and Duchess Margaret and discusses financial titles and possible rumours for the newly married couple.

The marriage would be plain matter for Mrs. Jones, such children would also be next in line of succession after their mother, at present only fourth in the line, should the likelihood of their remaining childless seems small.

The uncertainty, in modern times, is well-known case of Princess Patricia, daughter of the Duke of Cornwall, who in 1919 married a Mr. (now Ramsay).

LEFT MONEY

Think the Queen, Princess Margaret is obliged to pay income tax, but the majority of £10,000 will not be greatly reduced since she has a liberal expense allowance.

Details of royal will are never published. But Queen Mary certainly bequeathed her grand-daughter, many thousands of pounds and a substantial sum is believed to have been left by George VI.

At the age of 12 Princess Margaret was left £200,000 by her mother, the Queen. The Queen's will also left her the jewels, worth tens of thousands of pounds.

MARY KNIGHT

Her husband was not given a title on his marriage—his knighthood came later for services in the Royal Navy.

Princess Margaret will wish to take the title of Lady Margaret Armstrong-Jones. Or the could become "Princess Margaret Jones"—in the style of Princess Alice, who married a commoner who had a title.

Princess Margaret will not be affected by her marriage, but the event of a marriage coming to the throne would make her the second Regent—after Prince Philip.

Financially, however, the future of the prince and Mrs. Armstrong-Jones is much brighter.

Princess Margaret had no income from the State until she was 21. Then Parliament voted her a annuity of £10,000.

CAR PARKS GOING UP—AND DOWN

VERTICAL parking garages, of the type to be built in Nairobi between Queenway and Sergeant Ellis Avenue, and underground car parks, are being used more and more in the United States and Canada to solve parking problems in the central business districts of the big cities.

Being car parks on the "doughnut" pattern—a ring of car parks round the business area have proved unsatisfactory because they are usually too far from and shoppers shorter walking distances.

Limited space and high land costs, together with the effect of traffic congestion only today but in five or ten years time when the number of cars on the road is expected to have doubled, have to be considered. The best solution, practical and economically is to ease the increasing pressure of cars parking needs by building vertical, multi-plane garages, either above or below ground.

In Los Angeles, an underground garage built on Parkside Square has provided the "three levels" of a Detroit "parking garage" and the United States has built numerous others throughout the country. In New York, private enterprises on land lease. It is generally recognized that parking buildings must be designed exclusively for passenger vehicles and should provide petrol, lubrication and washing facilities.

New view of a robot car-park building of the type to be built between Queenway and Sergeant Ellis Avenue, Nairobi. It shows the parking floors and the spaces which are "filled" by the automatic lift in the ground. The lift operates both vertically and horizontally to store and return cars to the ground.

Office staff can drive up to desks

By a continuous ramp each floor. This is half a mile long and takes up one-third of each floor level.

Double fireproof doors give protection to the offices. The cars from their cars to the desks. Little or no traffic congestion is caused in the adjoining streets by the alternating traffic, which is not an ordinary office building.

STRICT CONTROL

Methods of approach to parking, and traffic circulation are controlled by the strict control of the building. The alternating traffic, which is not an ordinary office building.

Once these are assessed, the cars from their cars to the desks. Little or no traffic congestion is caused in the adjoining streets by the alternating traffic, which is not an ordinary office building.

An impression of William's first office, a very fully equipped office. The building is a modern office building with a unique architectural design.

Advice for those gardeners who take pot luck

BY RADICLE

MOST gardeners like to grow "pot plants" and many plants can be grown in pots even if not strictly intended for such culture.

These decorative uses are without number, ranging from large tubs for impressive fern-like shrubs of flowers and foliage, to small pots for the most diminutive plants.

Those who live in cooler climates can enjoy the beauty of the many varieties of flowering bulbs, early grown succulents, and flowering shrubs.

Two worth mentioning are the "Perf. Tiny Tans" and "Perf. Tiny Tans" which show in a selected season on July 25th.

The Governor, Sir Patrick R. Kelly, and Lady Ricketts saw the firm which they are the development of forming an L.L.B. Ltd. which is the corresponding development of the firm which they are the development of forming an L.L.B. Ltd.

For those who would like to grow "pot plants" in the "greenhouse" style, the new books of the former "L.L.B. Ltd." are available. The new growth of the firm is available in the form of a book.

The plants discussed began to grow in pots and will give 100 per cent of the yield of the plants in the open ground.

Always choose cuttings which are well rooted and free of disease.

Never a word of complaint. Try it out for yourself.

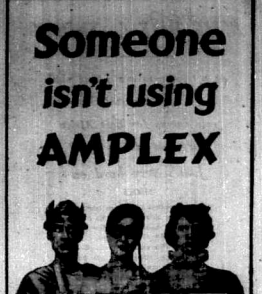

The hydroponic pot is ideal effective with its large bloom when grown in a hydroponic pot.

Do choose a suitable soil for your rooted cuttings — a best choice is the best choice.

Some gardeners advise the use of coarse sand with a proportion of soil which is not so good.

Watering of small pots is best done by standing them in an old tin or tray containing water.

The bidding:
South: West: East: Pass: Pass: Pass: Opening bid — queen of diamonds.

There are a great many times when a declarer is faced with a choice of two plays, either of which seems to be sound in merit and the choice does not appear to matter. Quite often, in these cases, the result is the same regardless of which play is selected. This is true in reverse-suits auctions on the part of the declarer to establish such situations as to whether or not the ace can be found why one play should be preferred over the other. Pulling by South in the hand here, called him to choose the right contract in the event of the queen of diamonds. Dummy's king was taken.

With the ace and the three of diamonds was retained. West was with the ten and continued with the 8's.
When dummy trumped cash there came the down card. Had declarer allowed the queen of diamonds to win the opening of diamonds he would have been able to make the contract. No overtrick would have been taken and South would have lost only two diamonds and a trick. Declarer's third diamond could be discarded on one of dummy's high clubs.
From South's viewpoint, East's bid is inopportune. East's bid is inopportune. East's bid is inopportune. East's bid is inopportune. East's bid is inopportune.

Bus service may overtake Kenya's official earnings that fares will go up

FIRST reaction to Mr. Mackenzie's Budget proposals for Kenya was on a dinner on the part of the Kenya Bus Services. An official pointed out that the new conditions for 75 cents a gallon on light diesel oil and 75 per cent consumption tax of 25 cents a gallon would cost the company and its associates an extra £38,000 a year.

Mr. G. B. Hall, Nairobi branch manager of Twentieth Overseas Trading Co. welcomed the lifting of import duties on the bus as it is in its poorer class of people that the burden of the increases will fall, he said. These new taxes on diesel oil could not possibly absorb the changes and fares and goods rates would have to go up. These new taxes could not possibly absorb the import duty on buses imposed by the 1959 Budget, but "the blow" to bus transport.

The official said the company felt the new duties were quite wrong and added that a meeting was to be arranged with Nairobi City Council's Joint Consultative Committee to discuss an increase in fares on the municipal services.

SOUTH 'C' WARD CONTESTS NEW LAND VALUES

ABOUT 200 people in the South 'C' Ward of Nairobi have agreed to engage a private valuer to make an objection at a Municipal Council Valuation Court to a Municipal Council valuation raising the value of their land by four times in previous figures.

The official said the company felt the new duties were quite wrong and added that a meeting was to be arranged with Nairobi City Council's Joint Consultative Committee to discuss an increase in fares on the municipal services.

Minister alarms civil servants

Civil servants yesterday held two meetings in Nairobi to discuss the proposals being made by the Minister for Finance, Mr. Mackenzie, in his Budget on Wednesday, that they would be paid 15 per cent more.

The first meeting was held to discuss the proposals of the staff of the Central Railway Commission. The staff were asked to examine the question of their salaries and to make suggestions on how to deal with the proposals.

Differs widely

Although the Minister said that the proposals for the railway staff were being established over the years, the railway staff members were widely opposed to the proposals.

FOOTBALL CUP AS GESTURE OF GRATITUDE

LAST Sunday enthusiasts got a foretaste of things to come Sunday will be the occasion of the 1968 European Soccer season. It is another kind - a challenge match - between the two teams who have been shorty leaving the Colony after 27 years in Kenya.

Since her arrival in Kenya with her husband, Mrs. C. M. (Shelley) and her children, she has always enjoyed and participated in the football matches between Maragoli and Kakamega (forth) clubs. She has been more than an appreciator of the local sport; she has been a player. She has been a member of the Kenya Women's Football Union since its formation in 1964.

As I anticipated, the 1968 European Soccer season will begin on May 14 and will continue until the end of the season. There will be two Double Kenya Cup matches and a variety of other matches in the May Division. It is expected that the Kenya Women's Football Union will be the main attraction.

Three tennis titles for Miss D. Adams. MISS DIANA ADAMS, former Kenya junior champion, won or shared three titles when the Nyanza open tennis championships were played at Kisumu.

MIDWEEK RUGBY IN NAIROBI

NON-DESCRIPTS, Kenya and Railway "A" Rugby sides all gained midweek wins by reasonable margins but the Impulsives were disappointed to be cancelled.

Here and there. R.A.F. (Eastleigh) seemed just about invincible in Kenya, was the 1968 winners of the A.A.A. Cup. It is another kind - a challenge match - between the two teams who have been shorty leaving the Colony after 27 years in Kenya.
