## CREECH JONES WARNS UNITED NATIONS Britain To Withdraw If Palestine Problem Remains Unsettled

THE British Colonial Secretary, Mr. Arthur Creech Jones, on behalf of the British Government, announced yesterday with what he called "all solemnity" that if all settlement was based on the Palestine problem, Britain would have to plan an early withdrawal of all British troops from the territory administered.

The Colonial Secretary was giving Britain's views to the United Nations Palestine Commission in New York and said that Britain would agree to the termination of her mandate in Palestine.

"Britain is not ready to enforce any plan which is acceptable both to the Arabs and to the Jews," he said, "but the United Nations will have to find a policy which is acceptable to the two communities. Britain will not feel able to carry it out."

It would then become necessary, he pointed out, to provide external authority to put the policy into effect.

Britain is not prepared to undertake imposing a policy in Palestine by force of arms," he declared.

# Britain Still Has Chance Of U.S. Interim Aid

## 'UNFREEZING OF REMNANTS OF LOAN POSSIBLE'

BRITAIN'S chances of sharing in interim aid from the United States are not completely ruled out, it is reported from Washington where State Department sources have expressed President Truman's call for 500-page measures to help European countries to improve their economic conditions.

A decision, so far as Britain is concerned, will be a corresponding one, depending on the progress of the Marshall programme. It may be possible to free up some of the loan—\$100,000,000 worth of help, which has been frozen.

There are persistent reports in Washington, the correspondent says, that the Secretary of the United States Treasury, Mr. Snyder, will announce the substance of these proposals soon after he gets back to Washington from London during the coming week.

Meanwhile, in London, Britain's part in the plans formulated under the Paris economic conference, report have been explained. Britain is aiming at growing more grain than before the war, and also intends to keep up her greatly increased wartime production of oil, sugar and to have more wheat and poultry.

In the shipping, she will attempt to make good her wartime losses. This means that by 1951 Britain will have more than 17 million tons of cargo shipping and more than 11 million tons of passenger tonnage.

Already Britain is building more shipping than the rest of the world put together. In regard to manpower, Britain has 15,000 skilled workers and 100,000 unskilled workers.

The realisation of these plans will depend on the success of the Marshall programme. It is reported that the United States will be prepared to consider a loan of \$100,000,000 to Britain, which would be used to finance the purchase of American goods.

It is also reported that the United States will be prepared to consider a loan of \$100,000,000 to Britain, which would be used to finance the purchase of American goods.

Understood in London that the British evacuation of Palestine, announced to the United Nations Palestine Committee by the Colonial Secretary, Mr. Arthur Creech Jones, will be part of the general rearrangement of British forces in the Middle East.

# PALESTINE IS A WORLD CHALLENGE, Says London Opinion

MOST people in Britain support the attitude of the Government in the Palestine problem, say the daily papers. Comment by the Times is—

Two principal factors shaped the statement of British policy on the Palestine problem. One was the fact that the British people are not prepared to support a policy of racial discrimination which would result in the creation of a Jewish State.

The second is the recognition that the British people are not prepared to support a policy of racial discrimination which would result in the creation of a Jewish State.

## A Change In The Weather Turns Thoughts To Winter

### People Are Unnasy But Cheerful

WINTER, which in the British Isles, where appropriate, begins in the first week of November, is being met with a certain amount of interest in the United Kingdom. The weather has been so good for the last few weeks that the change is being met with a certain amount of interest. There has been a certain amount of interest in the weather, and a certain amount of interest in the weather. There has been a certain amount of interest in the weather, and a certain amount of interest in the weather.

I didn't mean it, but the weeds slipped out. I was so it's all over these days. It's raining our happy marriage!

What? Well, we would not expect, but we did not expect to be so happy. If you were to be so happy, you would not expect to be so happy. If you were to be so happy, you would not expect to be so happy.

For those who are not so happy, there is a certain amount of interest in the weather. There has been a certain amount of interest in the weather, and a certain amount of interest in the weather.

# THE WORLD OF SPORT

## Arsenal Forge Ahead In Championship

**W**ith almost a quarter of the League programme completed Park Rangers are the only unbeaten ones in the roster of 88 Clubs.

It is to be noted, however, were they to lose their present position Arsenal with 17 points from nine games, would be second in the Championship by the time they have 19 points from 19 games, and Manchester United and Tottenham Hotspur, who have both retained their unbeaten status.

In Division III (North) a double period of intense pressure at Tottenham, to force a draw and retain their position in the Championship, was the most impressive feature of the League.

## CRIPPS WILL FIGHT THE BATTLE OF BRITAIN

### Cabinet Changes To Help Country Weather The Economic Crisis

His Staff Mr. Cripps, President of the Board of Trade has been given governing powers to lead Britain through the economic crisis.

The appointment of this prominent advocate of austerity to be Minister of Economic Affairs, a newly-created Cabinet post, has been announced by Prime Minister Mr. Churchill today.

It is the first of a series of Cabinet changes by which the Government is regrouping and centralising posts concerned with the economic crisis. Other changes, it is expected, will be announced at the end of the week.

The new appointment was announced by Mr. Herbert Morrison, Lord President of the Council, in responsibility for coordinating the domestic economic policy.

He will not have a department but will be given a small personal staff and will have the help of the central economic planning staff, the economic information unit and the economic section of the Cabinet secretariat. It was officially stated.

A new Ministerial committee on economic planning will be set up covering the major trends of internal and external policy over which the Prime Minister himself will preside in view of the gravity of the present economic situation, the statement added.

### Youngest Minister For Years

The Staff's former post of President of the Board of Trade will be taken over by Mr. James Harold Wilson, who, at 31, becomes the youngest Cabinet Minister Britain has had for many years.

The third change announced was the resignation of Mr. J. D. Sinclair, Minister of Pensions and Finance, to be replaced by Mr. Arthur Greenwood, Minister of Pensions and Finance, in April this year, and before that Lord Prov. Lord.

Mr. Arthur in a letter to his constituents on 21 said: "I am in my own way, essential to look to the future of the movement and to bring on the side of the younger members of the party."

It was the intention of the Government to give the younger men who have given long service to the movement.

"You have a great record of service to the movement and to the state and to our movement. To make this record more permanent, it is essential that you should be able to give your services to the movement."

# Pakistan To Lodge Complaint with U.No

## Nehru Would Have Liked 'Armies Of India To March'

WHILE a spokesman of the Pakistan Government in Karachi has stated that Pakistan is not to lodge a complaint with the United Nations on the Punjab situation in New Delhi, the Prime Minister of India, Pandit Nehru, is reported to have written to the United Nations Secretary-General, Mr. A.G. RIFE, to lodge a complaint against Pakistan for "failure to protect its minorities" but his hands were bound by similar happenings in his own country.

It would have liked the armies of India to march into Pakistan in the protection of the Hindus rather than to see Pakistan in a quelling riot and guarding hospitals," he said in a letter to the United Nations Secretary-General, Mr. A.G. RIFE, last week.

Mr. Nehru would have liked to see the British Commonwealth Relations Ministry, who has been the British Government's first-hand report on the situation in the Punjab, to return to Britain tomorrow.

He will be accompanied by two members of the Indian Government who have been selected as liaison between the Cabinet and the Indian Government and who will be available if necessary for Cabinet discussions.

Mr. Nehru's position is described as "a most critical one" in the Indian Government's appreciation of the situation in the Punjab.

Meanwhile, as the floods on the Indus continue to cause the distress of the Indian, Pakistani and Afghan Governments, the Indian Government is despatching an expedition to the Punjab to investigate the situation.

On the night of October 24, 1940, the German bombers attacked the Church House, which was then the headquarters of the Colonial Office. The attack was a surprise, and the building was severely damaged. The German bombers dropped a large number of incendiary bombs, which caused a fire to break out in the building. The fire spread rapidly, and the building was almost completely destroyed. The damage was so severe that the building had to be abandoned for several months. The Colonial Office was then moved to other premises in London.

The strike has caused a major disruption in air travel between the United States and Europe. The airlines are trying to negotiate with the pilots, but the strike has lasted for several weeks. The pilots are determined to win their demands, and the airlines are struggling to find a way to get the planes flying again.

# It's The Evening Dress Problem

COMING out on board ship. I was told by an "old" what that the height of fashion in East Africa was to be invited to dinner and the pictures on suspicious occasion one always wears evening dress. Alas I have loved but not least since then.

Much has been written of what the women should wear on short skirts, whether men should wear black or white, both on the but when a woman should wear evening dress appears to remain problematical—at any rate, in East Africa.

AFTER a week in the Colony we were taken to dine with a social light. I don't know if it was and the comfortable feeling that I had done the right thing and was "just the cat's whiskers"—after all the frock had come from "Harris" Incorparated. Govins Department and it was the first time I'd worn it.

On entering the room there was an awkward silence. I tried to think of something funny to say but failed and was subjected to a load of other women present were, several of them were young, and their hands were very nervous.

THE following week we received a similar invitation. This time national social reception, and so I did come to me a few minutes before I had time to think about "being" invited whether "short" or "long" but our hosts had no telephone and I had to wait. I had to wait for the evening. I had to wait for the evening. I had to wait for the evening.

After the reception at the Club, the time and time again with my secretary and I had to wait for the evening. I had to wait for the evening. I had to wait for the evening.

### VAGINALIN

the scourge of the herd, now effectively treated

WITH VAGINALIN

Many farmers throughout South Africa have reported that their herds are suffering from a disease known as Vaginalin. This disease is caused by a parasite which enters the vagina of the cow and causes a severe inflammation. The result is a discharge of a thick, yellowish material from the vagina, which is often accompanied by a strong odor. The disease is most common in the winter months, and it is especially prevalent in the highveld areas of the country.

Vaginalin is a highly effective treatment for this disease. It is a powerful antiseptic and disinfectant, which kills the parasite and relieves the inflammation. It is also a good general tonic for the cow, and it helps to restore her health and vitality. Vaginalin is easy to use, and it is safe for the cow. It is available in the form of a powder, which is mixed with water and applied to the vagina of the cow. It is also available in the form of a cream, which is applied directly to the vagina. Vaginalin is a highly effective treatment for this disease, and it is essential for every farmer who has a herd of cows.
