Central Assembly passes Bill

DOUBTS OVER ANTI-DUMPING ACT

Token of good intent—five years too late

FOR at least two years an attempt would be taken on the Customs (Dumping) Bill, introduced by Mr. C. D. Haddock, the Secretary of State for the Colonies, in the House of Commons last night. The bill, which is now before the Central Assembly, was introduced in the House of Commons last night. It is a measure to give effect to the recommendations of the Committee on Dumping, set up in 1955, and which reported in 1956. The bill is intended to give effect to the recommendations of the Committee on Dumping, set up in 1955, and which reported in 1956. The bill is intended to give effect to the recommendations of the Committee on Dumping, set up in 1955, and which reported in 1956.

International obligation

Referring to these criticisms in his reply, the Legal Secretary, Mr. C. D. Haddock, said that he was not prepared to say that the bill did not do what he intended it to do. He said that he was not prepared to say that the bill did not do what he intended it to do. He said that he was not prepared to say that the bill did not do what he intended it to do.

GUARANTEED FOR 18 MONTHS

SILVER EXIDE offers you this solid guarantee: 18 months of guaranteed life from the day of purchase! Every Silver Exide vehicle battery is sold with a printed guarantee attached to the battery stating these terms: Should it fail in normal use within six months, you get a new one absolutely free. Should it fail at any time in the next 18 months, you get a new one at a proportionately reduced price. For instance, failure 12 months after purchase would be half its guaranteed life—and you would get one at half price. Buy a Silver Exide—and know you can't get less than 18 months of power for your money. In all probability you'll get more—a great deal more!

ISLAND GIVES ROCKET MEN RUDE RECEPTION

A CHANCE to do down-to-earth astronautical jousting, unfolded in a current Scottish play, *Whisky Galore*, yesterday. Adapted from Maclean's story and liberally photographed in Glasgow, it tells how the "rocket men" of the United States, who are determined to test their flying saucers in the rugged, mountainous island of Barra, find themselves rudely received by the islanders.

The plotline, a product of Farnsworth, carries some of the characteristics of *Mad About the Boy*, yet has its personality of its own. Jeanine Cameron's starchy confessor, which at times commingles with the grown daughter, as Janet Donald Spindler proves more than adequate as Hughie, Robert Colver is excellent as the stuffy Wainwright, Noel Purcell impersonates as Father James and Carl Hoff, gives an amusing caricature of a German doctor.

In *Whisky Galore*, James Cameron and John Stevenson have tried to capture the spirit of the island, but since the islanders are not shown in their own homes, the remaining characters are not as convincing as they should be. The play is a good one, but it is not as good as it should be.

Michael Spindler's production is a good one, but it is not as good as it should be. The play is a good one, but it is not as good as it should be.

Most photographs may be gotten from the *Whisky Galore* production, which is being staged at the Theatre Royal, Glasgow.

LOWER FARES

yet MORE PROFIT

The structure of today's jet liners has already been pointed out in previous issues. On North Atlantic routes 70% of all passengers now travel at 8000 feet. This altitude is chosen because it is the most profitable on short and medium haul routes, and is the altitude of highest fuel economy. The only aircraft capable of bringing about these reductions, and making a profit, is the VANGUARD. In its capacity, the Vanguard has 50% greater profit potential than any other jet liner. By substantial margins in most cases the lowest cost profit is the VANGUARD.

What fare cuts are possible?

At 50% passenger load factor the new Vanguard, with 100 seats, can make a profit with one passenger at 25% extra per seat with fares ranging from 20% to 100% lower current levels. In calculating these figures actual loads, current fares and current costs have been used.

Only the VANGUARD has all these features yet with 100 seats. Seats with over 100 seats per hour available - 100 seats per hour available. Full routing and A.T.C. flexibility - Can use normal routing facilities. Quick turnaround - No wheel maintenance, quick turn flight - Ten year service life with 10000 hours per engine operation.

Britain and the Arab world —the years of friendship

IN THE First World War, Britain had little direct contact with the Arabs. But after that war, the British Empire expanded to include the Arab world, and Britain became the ally of the Arab world. This was the beginning of a long and fruitful friendship between the two peoples.

UNDER

the leadership of Sir John Ginn, the British Government has been successful in securing the cooperation of the Arab world in the fight against the Axis powers. This has been a remarkable achievement, and it is a testament to the strength of the friendship between Britain and the Arab world.

'Pussyfoot' along to economize in petrol

By JOHN REEDY
Every petrol consumer who desires and maintains economy during which powerful cars cover long distances at fairly high average speeds, should be careful to economize in petrol.

The secret, who economize in petrol, is to use the car in a way that will allow it to run at a steady speed. This will allow the car to use less petrol and will save the driver money.

SIMPLE TECHNIQUE

The simple technique for economizing in petrol is to use the car in a way that will allow it to run at a steady speed. This will allow the car to use less petrol and will save the driver money.

with IRIUM Pepsodent cleans where other toothpastes cannot reach

If the hidden corners between your teeth are neglected, that harbor food that would go unseen and this may cause tooth troubles. Only Pepsodent with Irium goes right into those remote corners. Irium gets Pepsodent extra penetration which keeps the whole surface of your teeth clean. For all round protection and whiter teeth use Pepsodent with Irium.

If you could look around, behind and between your teeth, you'd see the dangerous hidden away corners which most toothpastes cannot penetrate.

*what makes
 a specialised
 service cheaper*

... into electrical service sounds an expensive operation. Oddly enough, it isn't. It applies particularly to Lamps and C.A.V. equipment. The former, as you probably know, is the electrical equipment which is fitted to every British car. The latter is its commercial vehicle counterpart.

Diagnosis and repair of electrical faults can stump many of the technically-minded and even those much lauded amongst the average mechanic. K.R. & T. Auto electrical service is operated by technicians expressly trained for this work, aided by modern precision test machinery.

It is a pleasure to use K.R. & T. Auto electrical service because fault diagnosis is made rapid and more quickly, accurately and cheaply.

COMMERCIAL SOCCER AT THE CROSS ROADS

LIKE many other people who attended the final of the long running "Football League" in London, I had been surprised to read in a contemporary newspaper that the League's decline as a business proposition was "greatly exaggerated".

Indeed, I believe that the League's financial position is not so bright as it appears. The fact that the League's income is not sufficient to cover its expenses is a fact which is not generally known. The League's income is not sufficient to cover its expenses is a fact which is not generally known.

Mr. Charles Hooley, the Football League's Secretary

Useful Junction
SOME leaves have already been written on the subject of the League's financial position. It is not necessary to repeat what has already been said. On the other hand, it is necessary to point out that the League's financial position is not so bright as it appears.

Some of the points which have been mentioned in the above article are:—

MONEY The same goes for a general condition of affairs in the whole country. All these points have been mentioned in the above article. It is not necessary to repeat what has already been said.

ACCURATIONS That have been levied on Commercial League players and officials must be getting more and more onerous. It is not necessary to repeat what has already been said.

9 REASONS WHY

1. There's a 3-year guarantee on the sealed units of any Atlas refrigerator.
2. All models are designed to give maximum space with maximum efficiency. The shelves are adjustable.
3. The wide choice of outside finishes means there is a size to suit the taste, the wall colour and the surroundings.
4. They are smart and durable built, with a high quality of finish.
5. Easy to clean, with no sharp corners and some models have a "drip" drain, providing extra working space.
6. All models have built-in egg-tray, night tray and wire rack.
7. Economy. Atlas refrigerators and freezers have a very low running cost.
8. All are thermodynamically guaranteed.
9. Lastly, there is the PRICE. For their size and quality you won't find a refrigerator of better value anywhere.

WESTERN TRIBUTE TO DULLES

Resignation 'great loss for free world'

STATESMEN of the Western world have paid tribute to the work and personality of Mr. Dulles, whose resignation as Secretary of State was announced by President Eisenhower on Wednesday night.

The general feeling was that a great loss had been sustained by the free world. In a statement from 10 Downing Street, the Prime Minister, Mr. Macmillan, said: "This indeed sad news, as President Eisenhower once referred to me, I do not know how to say this."

Mr. Dulles's resignation came after the news of a medical bulletin which said that the respected statesman had been found on Mr. Dulles's lower back, the Dulles had been treated, and his agents were good and that due to having better X-ray treatment, Mr. Dulles was likely to have a long life.

Lively speculation in Washington

United States officials expect Mr. Christian Herter, Acting Secretary of State, to be named soon to succeed Mr. Dulles, and the implications of his coming to the post are not yet made up regarding a successor. Herter was getting the appointment.

When the news of the State, however, it is Washington believe there will be no change in the foreign policy of the United States. Herter will definitely continue the policy of the United States.

Colonialism 'out of date'

WEEK-END STANDARD MASAI WARRIORS HOLD WHAT MAY BE LAST 'EINOTO' CEREMONY

COLUMBIAN, who attended the recent "einoto" elder-making near Nairobi, describes this centuries-old Masai ceremony in words and pictures.

It was all very picturesque. There we stood in our 20th-century shirts, shoes and trousers, watching a ceremony that might have been taking place on Columbus day had the New World. Almost a thousand warms — Masai warriors from the Purko district — were working themselves into a heated frenzy as the climax of the centuries-old einoto elder-making ceremony approached.

Reckoning in their line and silent head-dances, they showed their characteristic way of expression — the 22. Their version of the 19th-century dance. And every one and then they made the Masai line 22. They had their faces painted with a "long" but perfectly painted and their ceremonial bodies glowing in the sun they ran meaningfully.

They had their bodies from every corner of the Purko district — Masai warriors on the Masai River, Laikipia, Kakonyo, Sotik and Naivasha — a few miles out of Nairobi along the Masai country and a hundred in the of the great savannas.

Although the ceremony is only a steady affair, it represents weeks of preparation, weeks in the saddle, labor, or sick days, who have many miles from the scene of the ceremony, hundreds of the women and their children to attend and last but for come least, lighting the hundreds of wood and dung fires which are made the ceremonial grounds on the site chosen by the chief father.

MOON SETS DATE
With all the details ready in a few weeks the night, the ceremony is held in the evening when the moon, which is a fortunate sign, is in the sky. The Masai believe that the moon sets the date for the ceremony and that the moon sets the date for the ceremony.

The first two weeks before the ceremony — usually a week — are spent in preparation. The Masai warriors, who are the chief of the ceremony, are the Masai warriors, who are the chief of the ceremony.

The ceremony is held in the evening when the moon, which is a fortunate sign, is in the sky. The Masai believe that the moon sets the date for the ceremony and that the moon sets the date for the ceremony.

A description was sent to the Masai warriors, who are the chief of the ceremony, are the Masai warriors, who are the chief of the ceremony.

Keep on top of the NEW ROMNEY BLOOD RAISE BETTER FLOCKS

MR. R. A. HAINSWORTH, Immediate Past President of Veterinary Services, Kenya, gives a brief history of sheep farming in the Colony and describes how the arrival yesterday of Light Corriedales and Romney from New Zealand—two of the best sheep importations since 1949—will aid and improve the industry.

CORRIEDALE GROWS IN POPULARITY

The Corriedale Sheep Society of East Africa was formed in 1931 by a few interested breeders. Since then, with the rapidly expanding sheep industry in Kenya and the popularity of the breed, the society's membership has grown to more than 120. Apart from the many objects of interest to the breeders in Kenya, the society has been successful in its efforts to help with the welfare of some sheep owners. It has held sheep fairs, organized sheep shows, and has been instrumental in the formation of many of the sheep raising societies in the country.

I WANT you to get me the following—
 1. A good name, ten Romney Marsh rams. I want them as good as possible for the wool and the wool, and it is particularly important that they should come from good flocks and not be flukes.
 2. A good name, ten Romney Marsh ewes. I want them as good as possible for the wool and the wool, and it is particularly important that they should come from good flocks and not be flukes.

On Wed. Last Delivered in June, 1952, an expert of the Royal Agricultural Society, who was to give detailed instructions about how best to import sheep, was to give detailed instructions about how best to import sheep, and to give detailed instructions about how best to import sheep.

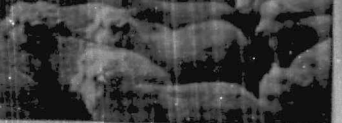

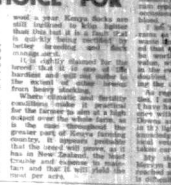

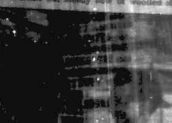

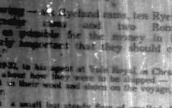

For 167 years since there has been a small but steady flow of woolled sheep into Kenya. In 1845, the first sheep were imported from the United Kingdom. Since then, the industry has grown steadily, and the number of sheep in the country has increased from a few hundred in 1845 to over 1,000,000 today.

What has been achieved for the sheep industry in Kenya since 1949? The answer is that the industry has grown steadily, and the number of sheep in the country has increased from a few hundred in 1949 to over 1,000,000 today.

It is a fact that the industry has grown steadily, and the number of sheep in the country has increased from a few hundred in 1949 to over 1,000,000 today.

ROMNEY MARSH--AN IDEAL CHOICE FOR HIGHLAND FARMS

Improved flocking, the ability to produce a high quality of wool, and the ability to produce a high quality of wool, are the main reasons why the Romney Marsh breed is so popular among highland farmers. The breed is well adapted to the highland environment, and its ability to produce a high quality of wool makes it a valuable asset to any flock.

Some of the Corriedales which arrived yesterday at Christchurch, the first lot, from New Zealand. The sheep industry in Kenya is growing rapidly, and the arrival of these sheep is a welcome addition to the industry.

What this cargo means to the average breeder

PEOPLE have asked me why I am buying a number of Romney rams from the K.F.A. importation, and what effect this will have on my flock.

All I have been able to offer in the past was an occasional importation from Britain of a pedigree ram which I have used for a number of seasons. The results have been excellent, and I have been able to produce a number of good quality rams.

Now, with the arrival of these Romney rams, I am able to produce a number of good quality rams, and I am confident that this will have a beneficial effect on my flock.

The arrival of these Romney rams is a welcome addition to the industry, and I am confident that this will have a beneficial effect on my flock.

THE CORRIEDALE SHEEP SOCIETY

104 HERFORD STREET, CHRISTCHURCH, N.Z.
 April 1, 1958.

THIS OPEN LETTER from New Zealand offers the greetings of the parent body of the Corriedale Sheep Society to the flockowners of Kenya. Congratulations on the arrival of the first consignment of Corriedales to the Colony.

The parent society, who have been privileged to play our part in the establishment of the Corriedale Breed throughout the sheep-raising part of the world, take this opportunity of wishing you the same success that has attended similar shipments over the last 75 years.

Our confidence in your success with the Corriedale sheep is based on the experience of the Society over the 75 years. The breed has proved itself to be one of the best in the world, and its ability to produce a high quality of wool makes it a valuable asset to any flock.

The Corriedale sheep is particularly valuable in the highland areas of Kenya, where the climate is often harsh and the ground is often rocky. The breed is well adapted to these conditions, and its ability to produce a high quality of wool makes it a valuable asset to any flock.

This valuable quality of 'Dettol' make it the most antiseptic for use on the farm. 'Dettol' is non-corrosive, safe and pleasant to use. It's ready to spray, can be the precursor of blood and pus. And, because it does not irritate or sting raw wounds, animals remain quiet during treatment. You, too, can guard against infection by using 'Dettol' to disinfect animal cuts and sores, to disinfect your hands and arms (when assisting in lambing and calving, for instance), instruments and feeding troughs.

**Wisdom of decision
evident in two years**

Wise in and near Canterbury and Otago, the Government has decided to increase the number of sheep in the country. This decision is based on the fact that the number of sheep in the country has increased by 20 per cent in the last two years. The Government has decided to increase the number of sheep in the country to 10 million in the next two years. Biggest act of faith by the industry in 50 years

By R. J. FARMER
K. A. Supply Province Executive

It was about a year ago, when the K.F.A. and its members had just received information in connection with the proposed merger of the K.F.A. and the K.A.S. that the industry was about to undergo the biggest act of faith in its 50-year history. At that time, the industry was in a state of confusion and uncertainty, and the members were not sure of the future. The industry was divided into two camps, one of which was in favour of the merger and the other was in favour of the status quo. BRITISH REACTION

The British reaction to the proposed merger of the K.F.A. and the K.A.S. has been one of surprise and concern. The British Government has expressed its interest in the industry and has offered its assistance in the merger process.

CARGO TO ISRAEL

The K.F.A. has received a large order of wool from Israel. This order is a significant one and shows the confidence of the Israeli Government in the industry.

LAMBING SEASON IN ENGLAND

THE lambing season in Britain is a busy and important one for the farmer. It is the time when the ewes are brought to the point of calving and the lambs are born. The weather is often very variable, and the farmer must be prepared for all contingencies. The lambing season is a time of great activity and excitement for the farmer and his family.

OLDEST BREED

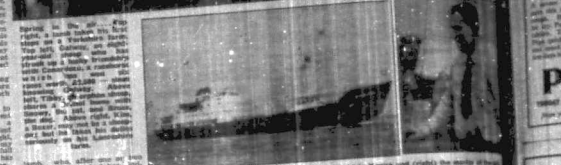

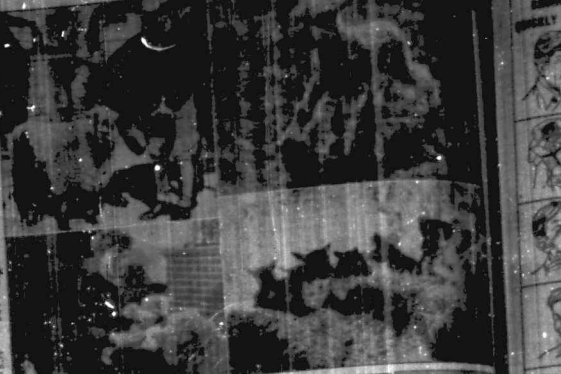

The responsibility of the farmer is to ensure that the ewes are healthy and that the lambs are born safely. The oldest breed of sheep in Britain is the Shetland sheep, which is known for its hardiness and ability to withstand the harsh weather of the Shetland Islands.

HOUSE OF WHEELS

The farmer must also be prepared for the possibility of a "house of wheels" or a "house of cards" situation, where the price of wool or other products falls sharply. This can be a devastating blow to the farmer's income.

SHELTER NEEDED

The farmer must also be prepared for the possibility of a "house of wheels" or a "house of cards" situation, where the price of wool or other products falls sharply. This can be a devastating blow to the farmer's income.

A well-earned rest after ewes leave the yard

With the ewes now in the hands of the butcher, the farmer can take a well-earned rest. The lambing season has been a busy and demanding one, and the farmer has done well to see it through. The weather has been good, and the lambs have been born safely. The farmer can now enjoy the fruits of his labor.

SOLVING PROBLEM OF THE ENTERPRISE CUP

COMMENTARY
by
Charles DeWitt

THE ENTERPRISE CUP is a football tournament which has been held in London since 1927. It is the only international football tournament which is held in England. The cup is named after the *Enterprise*, a ship which was built in 1870 and which was the first to cross the Atlantic Ocean.

It is a pity that the cup is not held more often. The tournament is held only once a year and is a very long and tiring one. It is a pity that the cup is not held more often. The tournament is held only once a year and is a very long and tiring one.

WEST KILIMANJARO EXPERIENCES IN PIG PRODUCTION

I HEARD with interest both Mr. Hartley's letter on page 10 and Mr. Webster's (Robinson's) reply.

I have just read Mr. Lionel T. Davison's article, which, as you are unable to believe that it is possible to destroy 100 pigs with one shot, certainly the writer has some ideas.

During the war, I was engaged in pig production in the West Kilimanjaro District. I have found that the best method of pig production is to use a mixture of piglets and sows.

The best method of pig production is to use a mixture of piglets and sows. This method has been found to be the most successful in the West Kilimanjaro District.

A policy for land

THE Government's attitude towards the land problem is becoming clearer as the Government's policy is being laid down in a series of bills which are now being introduced in the House of Representatives.

The Government's policy is to provide a framework for the development of the land resources of the country. This policy is based on the following principles:

- 1. The land is a national asset and should be managed in the interests of the people as a whole.
- 2. The land should be used in a way which is consistent with the national development plan.
- 3. The land should be allocated to those who are best qualified to use it.
- 4. The land should be developed in a way which is consistent with the national development plan.

Removing lease and freehold disparity

THE House of Representatives has today passed a bill which will remove the disparity between leasehold and freehold land. The bill will provide that leasehold land will be treated in the same way as freehold land for the purposes of the Land Acquisition Act.

The bill will also provide that leasehold land will be eligible for the same benefits as freehold land. This will include the right to be included in the national development plan and the right to be developed in a way which is consistent with the national development plan.

Co-operation in Elgon-Nyanza RAPID ADVANCES BY KENYA'S YOUNGEST A.D.C.

MEKEMBI WEDIGER, Kenya's youngest Assistant District Commissioner, is making rapid advances in his work. He has been in the post for only three years, but has already achieved a great deal of success.

Mr. Wediger is a member of the Kenya African National Union (KANU) and has been active in the organization's activities. He has been instrumental in the development of the Elgon-Nyanza region and has been successful in bringing about a number of improvements in the area.

Waco donkeys
 The Government has decided to purchase a number of Waco donkeys for use in the Elgon-Nyanza region. This is part of the Government's policy to improve the transport facilities in the area.

Forging ahead
 The Government is forging ahead with its development plan. It is making rapid advances in a number of key areas, including agriculture, industry, and transport.

Mr. Joseph H. Njiragu, Assistant District Commissioner of the Elgon-Nyanza region.

First grown Kipsis

THE first grown Kipsis, a new variety of coffee, has been successfully grown in Kenya. This is a significant achievement for the country's coffee industry.

The Kipsis variety is known for its high yield and resistance to disease. It is well-suited to the conditions of the Elgon-Nyanza region and is expected to play a major role in the country's coffee production in the future.

Wealth in land

THE Government is making rapid advances in its development plan. It is making rapid advances in a number of key areas, including agriculture, industry, and transport.

The Government's policy is to provide a framework for the development of the land resources of the country. This policy is based on the following principles:

WEEK-END STANDARD HANDLESS KIRUYU FIND HOMES AND CONTENT IN THE BAMBOO FOREST

By William Harrel

CRASHING roads and military forts built in the Aberdare and Mount Kenya forest reserves during the Emergency, have provided the key to opening up the vast and rugged country and are now the problem of the thousands of landless Kiruyus in the Colony.

Close the heart of Mau Mau country, it is now the setting for social projects and a tribute to the imagination of the Kenya Government in starting the Supplementary Forest Development.

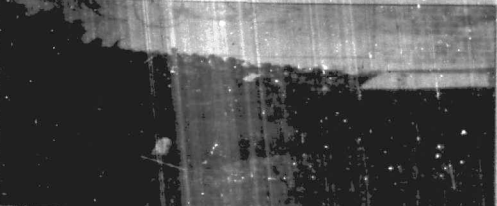

This is rather a curious case for a plan of great vision and a surprising success. The 15,000 acres of bamboo forest covering more than 50,000 acres of land in the Aberdare and Mount Kenya forest reserves have been transformed into a vast area of homes and content for the thousands of landless Kiruyus.

The strategic roads have given access to the heart of the forest and these have been improved by the Forest Department. The all-weather dirt roads have been built to forest stations.

At the 21 mile long M. A. road in the Mt. Kenya area, and the other 15,000 acres of forest, the Forest Department has been successful in building up a new forest reserve. The 21 forest reserves have been expanded to the extent of 15,000 acres, and the supplementary forest development is now being carried out in the form of small groups of plots.

WORK CREATED

At least 2,000 Kiruyus are employed in the forest reserves. The Forest Department has been successful in building up a new forest reserve. The 21 forest reserves have been expanded to the extent of 15,000 acres, and the supplementary forest development is now being carried out in the form of small groups of plots.

Men from Kiruhia village (above) stand on forest road in a grove at the forest station. In the background is a hut of young forest workers who have been found near the Mt. Kenya forest reserves.
