Land and the details

The Government has announced that it will be making a detailed survey of the land in Kenya. This survey is being carried out by the Kenya Land Commission, which was set up in 1954. The Commission's task is to determine the extent of the land which is available for settlement and to recommend the best way of allocating it. The survey is being carried out in a number of stages, and the first stage is now complete. The Commission has found that there is a large amount of land which is available for settlement, and it has recommended that this land should be allocated to the Government. The Government has agreed to accept the Commission's recommendations, and it is now in the process of making arrangements for the settlement of the land.

Head to consult all views

The Government has announced that it will be consulting all views on the proposed land settlement scheme. This is being done in order to ensure that the scheme is fair and equitable to all concerned. The Government has set up a number of committees to deal with the various aspects of the scheme, and it is now in the process of consulting these committees on their views. The Government has also set up a public hearing, at which all interested parties will be able to express their views on the scheme. The Government is committed to ensuring that the scheme is fair and equitable to all concerned, and it will take full account of all views expressed.

Double image

The Government has announced that it will be introducing a double image system for the land settlement scheme. This system will allow the Government to offer land to settlers on two different terms. The first term will be for a period of 25 years, and the second term will be for a period of 50 years. The Government has announced that it will be offering land on the 25-year term to settlers who are unable to pay the full price of the land. The Government has also announced that it will be offering land on the 50-year term to settlers who are able to pay the full price of the land. The Government is committed to ensuring that the scheme is fair and equitable to all concerned, and it will take full account of all views expressed.

Masa origin

The origin of the Masa is a subject which has long interested the people of Kenya. It is a traditional dance which is performed at various occasions, and it is believed to have originated in the Masa region of the East African coast. The dance is performed in a circle, and the dancers move in a clockwise direction. The music is played on a drum, and the dancers sing to the rhythm of the drum. The dance is a very important part of the Masa culture, and it is believed to have played a significant role in the development of the Masa people.

Ideal position

The Government has announced that it will be offering an ideal position to settlers who are interested in the land settlement scheme. This position is for a period of 25 years, and it is available to settlers who are able to pay the full price of the land. The Government has announced that it will be offering this position to settlers who are interested in the land settlement scheme, and it is committed to ensuring that the scheme is fair and equitable to all concerned.

Age checked

The Government has announced that it will be checking the age of settlers who are interested in the land settlement scheme. This is being done in order to ensure that the scheme is fair and equitable to all concerned. The Government has set up a number of committees to deal with the various aspects of the scheme, and it is now in the process of checking the age of settlers who are interested in the scheme. The Government is committed to ensuring that the scheme is fair and equitable to all concerned, and it will take full account of all views expressed.

COUP D'ETAT SUPPORTS Union Day puts emphasis on growth of young country

SPEEDY RATE OF ECONOMIC DEVELOPMENT

Published by the Bureau of Census and Statistics shows that the Union's national income rose from £741,000,000 in 1942-43 to £1,301,000,000 in 1943-44, an increase of 76 per cent in two years.

After deducting payments of interest and dividends on foreign capital and allowing for a rise of 52 per cent in the value of the pound sterling, the rate of increase in the value of the pound sterling is 22 per cent.

A substantial improvement in the country's productivity is also shown by the fact that the value of the pound sterling is 22 per cent higher than in 1942-43.

At the foot of the continent of Africa lies a land of sunshine and abundance, of complex problems and vast resources, of great industrial, industrial and agricultural wealth — the Union of South Africa.

The Union came into being on May 31, 1910, when its present four provinces, the Cape of Good Hope, the Orange Free State, the Transvaal and Natal, were united. Since that time, through the co-operation of all the population groups, the country has developed into a dynamic modern nation.

TANGANYIKA STUDENTS AT SCHOOL FOR LAND GIRLS

By BARRERA LUNA

DISCOVERY one of the few agricultural colleges in South Africa for girl students only was opened on a farm near Hartswater in 1928. The ownership of the school is in the hands of the Orange Free State Government. It is situated in the Orange Free State, near Hartswater, and has 400 acres of land for practical work.

The school is now open to girls from all parts of the Union of South Africa and also to girls from other countries. It is a boarding school and the girls are provided with all the necessaries of life. The school is run on the lines of a normal school and the girls are taught the same subjects as in a normal school. The school is a very successful one and the girls who attend it are well equipped for the work of the land.

UP WITH THE SUN

Many of the girls at the school are from the East African territories. They are very happy and contented with their life at the school. They are learning to work the land and to manage a farm. They are also learning to be good citizens and to be helpful to their fellow girls. The school is a very successful one and the girls who attend it are well equipped for the work of the land.

Many different types of orchid grow wild on mountains in Cape

By MARGARET L. WIGHT

When I was a child there was one beautiful story I loved to hear. It was a tale of a young girl who lived in a mountainous region and who was very fond of flowers. She was one day walking through a mountainous region and she saw a beautiful orchid growing wild on a mountain. She was very happy and she took it home with her. MULTIGRADE'S RIGHT... because it's the new all-temperature engine oil

RIGHT for your engine—this two-throwing oil lastingly protects your engine during the vital running period.

RIGHT for your battery—Multigrade's reduced oil drag means reduced motor starting, less drain on your battery.

RIGHT for your pocket—actual tests prove that Multigrade gives better petrol consumption — up to 15 per cent more on everyday stop-start driving.

ARE YOU A REGULAR CHANGER? Every time you change the engine oil, you lose a year of life. Remember, regular oil, that just accumulates, doesn't run away with the oil.

Change it in and service last use the most amount of an efficient oil. Yes, these are very conditions that you're likely to find in your car. Only regular oil changes are the answer. There's also great fuel economy, the extra miles you need in a car with oil that's changed every 1000 miles.

OFFICIAL FROM MOUNTAIN DO NOT DETER SCHOOLBOYS IN MOUNTAIN VENTURE

YOUTHFUL enthusiasm in the past of twelve 7-8th grade Dales County school boys, who have recently discovered the official designation of a mountain climbing party, has not deterred them from their plan to attempt to climb the highest peak of the Blue Ridge Mountains, the highest peak reached by any of the party on the mountain.

One of the party, Mountain Club member, before starting the climb, had a letter from the school principal, Mr. J. H. Smith, in which he expressed his confidence in the boys and their parents, and also expressed his hope that the boys would return safely from their venture.

BABY BEARISH means, the adventures and dangers that attend a group of schoolboys who, having a deal of time on their hands, and a few dollars, set out on a mountain climbing party. The boys, who are from the Mountain Club of Knoxville, are now on their way to the mountain.

MINIMUM OF KIT was the first rule of the party. The boys were to take only what was necessary for the climb. The party consisted of twelve boys, and their parents, and a few dollars.

Shows world the wrong way of living

There is a wrong way and a right way of living

There is a wrong way and a right way of living, says the author of a new book, "The World as I See It," by G. K. Chesterton.

WE are not ready to live in the world that faces us. This is a production of the British Broadcasting Corporation, which is being shown in the United States on the ABC television network.

A SPEECH BY DR. P. S. D. BANERJEE, Minister of Education, Government of India, at the opening of the session of the Indian Council of Educational Research and Training, Calcutta, on the 15th of the month.

THE NEW UNIT has been introduced in the United States by the American Education Board, which is a branch of the American Council on Education.

Le. Frank Rowland returns from his recent visit to the United States, a member of the United States Government of the Great Britain and Ireland, and a member of the British Parliament.

BATTLE FOUGHT FOR MIND OF NATIONS

The battle for the mind of the world is being fought in the United States, where the American people are being asked to choose between two different ways of living. The American people are being asked to choose between the way of life of the United States and the way of life of the Soviet Union.

THE UNITED STATES is being asked to choose between the way of life of the United States and the way of life of the Soviet Union. The American people are being asked to choose between the way of life of the United States and the way of life of the Soviet Union.

AFRICA FOR MORE THAN ONE RACE

Minister sets conditions for self-rule

AFRICAN nationalists must accept the wishes of other races who settled in Africa in African territories and regard them as citizens of the new states.

This in London the Colonial Secretary, James Douglas, advised that Britain would not grant self-rule to any African territory until all the main communities must make their full contribution to the development of the territories and must be satisfied by a majority of the people.

Mr. Douglas, who was addressing the House of Commons, said that the British Government would be willing to accept a government, and that the British would be willing to accept a government, and that the British would be willing to accept a government.

This is Kenya... in the country of rich pastures, coffee hills and lush forests, 100 miles away from the atmosphere of peace and contentment in a new state.

...where a thick, dusty rain has been poured, captured in this picture by John Perry.

Internal Civil Service

For everyone should accept generally that the territory was not first the home of one particular community, and that the rights and interests of all communities must be safeguarded.

AND AD TO AFRICA URGED

The Colonial Secretary said that the British Government had nothing to offer to any African territory which was not a condition of self-rule. He said that the British Government would be willing to accept a government, and that the British would be willing to accept a government.

HISTORY OF COMMERCE

Money has never remained in national forms either in the early medieval currency of silver, copper, or tin or in the later coins of gold, silver, or copper. A business man would be followed by a line of slaves each carrying a stone of high denomination in a pile on his shoulders. In the early days of the world's history we are to have more mobile forms of money than the gold and silver coins of the present.

The Kenya Government has a service for the testing of building materials at the Kenya Building Research Institute, Nairobi. The Institute is a Government department and is headed by Mr. J. H. Gardner, who is also the Director of the Kenya Building Research Institute. The Institute is a Government department and is headed by Mr. J. H. Gardner, who is also the Director of the Kenya Building Research Institute.

Samples sent to laboratory
At the State Laboratory, Nairobi, Mr. J. H. Gardner, Director, has received a number of samples of building materials from various sources. The samples are being tested to determine their quality and to ensure that they meet the required standards for use in building construction.

WHAT SHALL WE DO TONIGHT?
There is no doubt that the most important thing to do tonight is to ensure that the hospital at Nakuru is well equipped with the necessary medical supplies and staff. The hospital is a valuable asset to the community and it is essential that it is maintained in the best possible condition.

NEED STANDARD TILAPIA EXPRESS SPEEDS FISH TO MARKET —AND HELPS RESEARCH

STORY: John Nathan

PICTURE: Duncan Whitfield

AT 14 knots, carrying a 200-lb. swathe of water astern, the twin-screw diesel "Tilapia Express" — former sea-plane tender and now all-purpose launch of the Victoria Fisheries Research Organisation of Jinja, Uganda — sped across Lake

on board her were Mr. David Carrow, scientific officer with the organisation, the launch's skipper, Mr. Douglas Roberts, a former fisherman who had been picked up with their size and whose co-operation was crucial in making it possible for special research into the fish populations in

by more than an hour and at the same time. On 25 minutes or so which the trip from the village took to market, gave Mr. Carrow time to measure every fish allowed, and to take from them scales which would assist in weighing

Mr. Carrow said 24 from half past 10 till two and a continuing 24 fish and in the organisation's research the 24 fish were taken from the water at 1200 metres above sea level, the water was 100 ft deep, the water was 100 ft deep, the water was 100 ft deep.

IDEAL CROCS

From this week on, he caught the crocodiles, but the lake, which is 100 ft deep, is overgrown.

Twice it was to take all with Mr. Roberts in the canoe launch for the fishing village, leaving the water 100 ft deep, the water was 100 ft deep, the water was 100 ft deep.

Couture clothes made for long life and hard wear

When you have dreams of owning a Dior dress or suit, do not fantasize yourself away from reality. Worthy women who buy couture clothes expect them to last. They are designed so that they will not fade too soon. Most couturiers these days are designing with economy. Their customers are not buying for the practical look. They are buying for the value for and profit an outfit that they will wear all day through and for a number of different events.

JEAN WISEMAN
writes about the practical touch displayed by couturiers.

Need to be simple and uncluttered. The plain side is in vogue, a great or pretentious look, while the black-and-white dress or suit. With a solid color or a simple pattern, the other side is in vogue.

DRY OR COAT
About every Chanel suit in the field is made of wool. The wool is not only soft and smooth, but it is also very durable. The wool is not only soft and smooth, but it is also very durable. The wool is not only soft and smooth, but it is also very durable.

Another important factor is the quality of the fabric. The fabric should be soft and smooth, and it should be very durable. The fabric should be soft and smooth, and it should be very durable.

It is the kind of fabric that is used that makes the difference. The fabric should be soft and smooth, and it should be very durable. The fabric should be soft and smooth, and it should be very durable.

KNIT YOURSELF
When you're looking for a knit sweater, look for one that is made of wool. Wool is the best material for a knit sweater. Wool is the best material for a knit sweater.

This is a common mistake. Many people buy a knit sweater that is made of wool. Wool is the best material for a knit sweater. Wool is the best material for a knit sweater.
