Prime Minister orders trial of Army leader

THIRD SUDAN MINISTER ARRESTED

Complicity in coup attempt alleged

Prime Minister orders trial of Army leader
SUDAN'S Minister of Agriculture, Brig. Hassan, has been placed under house arrest in Khartoum. He is to stand trial when proceedings in his case is complete.
It was alleged in Cairo that the Sudanese Government, Gen. Abdir, had ordered his minister's arrest because he had evidence that Brig. Hassan had not report an abortive coup attempt in Khartoum. Gen. Abdir, Chief of Staff, had ordered his minister's arrest because he had evidence that Brig. Hassan had not report an abortive coup attempt in Khartoum.

Science plea rejected

Brig. Hassan is the former Minister of Local Government and Brig. Awad, Minister of Commerce and Industry, are members of the Sudan Armed Forces Committee of which Gen. Abdir is President.
The court martial tried the two ex-ministers yesterday until Saturday to show them to be guilty of complicity in the abortive coup attempt of the five men who had failed to arrest Gen. Abdir.

Where home plays big part

Letters to the Editor

Editorial: The Home is the heart of the nation. It is where the future is shaped and the past is remembered. The home is the place where we find comfort, security, and a sense of belonging. It is the place where we can relax and recharge our batteries after a long day's work. The home is also the place where we can raise our children and pass on our values and traditions to the next generation. The home is the place where we can find love and companionship. It is the place where we can find peace and harmony. The home is the place where we can find ourselves.

Police officers

More than 100 police officers are being recruited in the next few months to help with the increased traffic and security demands of the summer months. The recruitment drive is part of a larger effort to modernize the police force and improve its efficiency. The new recruits will be trained in a variety of skills, including community policing, crime prevention, and public order. The police department is also investing in new technology and equipment to enhance its capabilities. The recruitment drive is expected to be completed by the end of the year.

Why is it that public houses in the East of London are so full?

Mrs. J. G. Smith, 100, Whitechapel Road, London E1, writes to the Editor to enquire why public houses in the East of London are so full, particularly in the evenings. She notes that in her area, the public houses are always crowded, and she is curious to know why this is the case. She suggests that there may be a high concentration of public houses in the area, or that there is a high population density. She asks for the Editor's opinion on this matter.

Close-down

London, June 21, 1956.

Dear Sir,

I have been thinking about the closing of public houses in the East of London. It is a pity that the public houses in the East of London are so full, particularly in the evenings. It is a pity that the public houses in the East of London are so full, particularly in the evenings. Another Year of Achievement

THE AFRICAN LIFE ASSURANCE SOCIETY LIMITED

RECORD BONDS MAINTAINED

Statement by the Chairman, Mr. John S. Schleminger

It is my pleasure to present to you the results of your Society's operations for the year 1958. The figures show a substantial increase over last year, and all Departments have demonstrated

New Business Exceeds 36 Million Pounds

I am able to report that the new business written during 1958 after deduction of reinsurance, amounted to £22,818,785, being an increase of £1,629,771. However, in addition to this Fidelity Scheme, was introduced for your Society's local and Overseas Staff which entailed the issue of policies totalling £1,737,497, thus making a record total new business figure of £24,556,282, which represents 66.143 per cent increase in the Ordinary and Industrial Departments.

Profits Increase

The total retained income for the year was £4,419,584, of which £2,407,328 came from the Ordinary Department and the balance from the Industrial Department.

Paid Claims 30 Million Pounds

Your Society's Funds as at the December, 1958 stood at £20,918,113.

Benefits Paid

During 1958 a total sum of £1,181,232 was paid out of £228,026, bearing the amount £983,926 and Annuity Payments £79,880.

Pensions

Your Staff has again been able to secure an increase of 10% on its pension plan which is now £7,781,500 commencing at the age of 55 and rising to £11,500 at the age of 65.

Pension Department

Your Society's Pension Department's work has been satisfactory, I am very pleased to say that the Department has been increasingly recognized by employers during the year under review. Its existing scheme, as well as new schemes, have shown the most gratifying increase in figures due to your Society's successful advice in the development of this important type of business throughout South and Central Africa. Pension Schemes today are an integral part of any well-organized business and the advantages they offer register a feeling of loyalty and goodwill amongst the Employees concerned.

Industrial Department

This Department, which exists to serve the needs of the lower income groups employed in our industrial centres, has been making steady progress over the year. We have now come to the conclusion that the time has come for us to introduce into it a full range of half-price policies which are now the backbone of our Field Force, and we feel sure that they will be appreciated by the public as they become better known.

We have also brought this policy into line with other similar policies with the view to making it more attractive to the public as they become better known.

With these new policies now available to our members, I am sure that the Department will continue to show a steady increase in the number of policies written.

Building Programme

This year our programme of building has been most successful. We have completed the new Cape Town building, replacing what I would have liked to give the following details.

New Head Office Building

In my previous statement I mentioned the new Head Office building at the corner of St. George's Street, Johannesburg. This building, which is a landmark in the city, was completed in 1958.

I am pleased to report that the changes took place early this year and your Society's staff will be working in the new building which is a landmark in the city.

the improvement which a big move entails, your Society's staff congratulated in the fullest degree and I should like to record the appreciation of the Management in this regard.

New Cape Town Building

The erection of our new Cape Town building has now commenced, and the site has been demolished. The site is in a most favourable situation, and the building will be a great benefit to the new business and the old business of Cape Town. It will serve the two areas.

A few details regarding this building will be of interest. The total project will represent an outlay of £1,250,000. This island site represents an area of 20,815 sq. ft. and is a complete city block situated at the corner of St. George's Street, facing the new Thibault Square. There will be a base of two floors to house shops and offices and on the base will be a superstructure of seven or 10 stories of office accommodation. The base will be completed in September 1960 and the superstructure one year later, and the building's erection will be an addition to the city's skyline.

stands in the hands of the very capable representatives on both sides of the table.

The Health and Welfare Insurance Company, Ltd.

It will be recalled that your Society formed a subsidiary Company named as above in 1957, and in my previous report, I indicated that the position was being very carefully investigated from every angle to satisfy ourselves that this particular type of business could be satisfactorily conducted. Since then there have been many advances but before the South African public could be advised of the results of the investigation, I should like to state that the results are such as to give us every reason to believe that this particular type of business could be satisfactorily conducted.

The fact that the building is in the future prosperity and growth of our Mother City.

Workshop Building

Your Workshop building is the one with all your Society's buildings. It is a building which is a landmark in the city, and your Society felt justified in making this particular building in connection with the new building operations we were in hand.

Income Tax

You will have observed from the recent Budget Speech of the Minister of Finance that it is proposed to introduce a new tax on the income of individuals. This tax will be a percentage of the total income of individuals and will be a new tax on the income of individuals. It is proposed to introduce this tax in the year 1960. It is proposed to introduce this tax in the year 1960.

your Society throughout the past year of its operations.

Conclusion

I conclude by drawing your attention once more to the tremendous progress achieved by your Society during the past year as recorded by the figures before you, and feel confident in mentioning that the year 1959 should again produce the opportunity for the writing of a record book and the continuance of your Society's policy of offering a measure of security to the public, and at the same time contributing substantially to the development of South Africa.

I wish to thank you for your interest and that of the Board and Management of your Society during the past year as recorded by the figures before you, and feel confident in mentioning that the year 1959 should again produce the opportunity for the writing of a record book and the continuance of your Society's policy of offering a measure of security to the public, and at the same time contributing substantially to the development of South Africa.

GIRL TRAVELS ALONE FROM EAST AFRICA TO ALGIERS—BY BUS

Of the 1,000 routes from East Africa to Europe—the Nile Valley by public transport—this usually only the first that is considered possible.

France's car and bus lines are the only ones that connect the Nile Valley to Europe. The Nile Valley is a vast region, stretching from the Nile delta in Egypt to the Sudanese border with Ethiopia. It is a region of great beauty and interest, but it is also a region of great difficulty. The Nile Valley is a region of great beauty and interest, but it is also a region of great difficulty. YOUTH RAMPAGE AT WIMBORNE

Nielsen knocked out by Loner

Richardson outpointed by Erskine

WIMBORNE, June 25.—A group of about 200 youths, many of whom were from the surrounding villages, gathered in the streets of Wimborne on the evening of June 24, to witness a prize fight between two local boxers, Richard Erskine and John Richardson.

The fight, which was held in the town square, attracted a large crowd of spectators. Erskine, who was the favorite, won the bout by a unanimous decision.

Richardson, who was a local favorite, was knocked out by Erskine in the fourth round. The fight was a well-fought one, with both men displaying good boxing skills.

Around the golf clubs

WIMBORNE Golf Club has been closed for some time due to the damage done to the clubhouse by a fire on June 10. The club has been unable to play on the course since that time.

The clubhouse, which was a fine building, was completely destroyed by the fire. The cause of the fire is still under investigation.

The club has been advised to rebuild the clubhouse on the same site. It is hoped that the club will be able to resume play on the course in the near future.

JUVENTUS TURN THE TABLES

TO the almost hysterical delight of Juventus fans, the team has turned the tables on their opponents in the latest match.

The team, which has been struggling for some time, has now won a crucial victory. The goal was scored in the 85th minute, which secured the win for Juventus.

The manager, who has been praised for his tactics, says that the team has shown great improvement. He believes that the team is now in a much better position to challenge for the title.

Lancashire hit 400 for five against Indians

A LANCASHIRE batsman has hit a century, scoring 100 runs in the process. This is a remarkable feat, especially in a match against a strong opposition.

The batsman, who has been in excellent form, has shown great skill and technique. He has scored runs at a steady pace, and has not been troubled by the bowling.

The captain, who has been praised for his leadership, says that the batsman has been a real asset to the team. He believes that the batsman's performance has helped to turn the tide of the match.
