THE EAST AFRICAN STANDARD

WEDNESDAY, NOV. 2, 1921.

It is to be little superficial notice between these documents, and it would be foolish to state that they are of equal significance. But these uncorroborated hints haphazardly given, and others which every now and then bring to light suggest that in many diverse quarters, and from various vantage points, there is a growing realization of the fact that the present position of the East African continent is a most serious one. It is not the fact that it is a part of the East African continent, but the very existence of the East African continent, and the realization of the fact that the East African continent is a most serious one. It is not the fact that it is a part of the East African continent, but the very existence of the East African continent, and the realization of the fact that the East African continent is a most serious one.

and obtained by the Colonial Office and the British Press, and development of the East African continent. It is not the fact that it is a part of the East African continent, but the very existence of the East African continent, and the realization of the fact that the East African continent is a most serious one.

Market Reports

RESTRAINED OPTIMISM IN LONDON OILMARK.

FLAX AND COFFEE.

Meers, Highgate and Co., Ltd., Furnishing Emporium, London, E.C. 3, September 26, 1921. The trade situation shows a moderate improvement, which may be taken in some instances to have been pulled from the lower margin rates both here and in America. The rate in the United States has now dropped to a par cent. It is generally expected that London will follow the lead. The fruits of the dear money policy, however, are still manifest, the lease holders solve holding large accumulations of property which give an illusive appearance of wealth. The proposals now being made to circulate trade and absorb the unemployed into industry by means of credits about money which is to be advanced to the approval of the business community for better treatment, but if they are to be carried out on a businesslike line, little benefit is expected to be derived as defined as the highest degree of Government interference with production and separating of production we have had a sufficient output of the currency of the country, the smallest displacement of individual initiative by official action, and the most satisfactory the situation.

Great Britain can only flourish with an active export trade, but the most serious obstacle in this is the condition of the foreign exchange, especially in the case of the United States and Japan, a relief of the pressure of financial isolation pursued by the United States and Japan by Great Britain. The collapse of the weaker exchange has led to a loss from 500 to 400 since the end of January. Poland has fallen from 2,000; Hungary from 1,000 to 1,500 and Austria from 1,000 to 1,000 per cent sterling, while Belgium remains at 100. The price of the principal is probably now the principal factor in their value. The French and Belgian exchange have on the whole held their own in spite of some fluctuations. "We expect our usual bill above the fluctuations of the principal exchange."

Table with 2 columns: Commodity and Price. Includes France, Italy, Berlin, New York, London, Silver.

ITALIAN MARKET.

The Italian market continues firm, firmness notwithstanding the small amount of business that is passing, and selected items are becoming scarce owing to the cessation by the leading exporters of the work of discharging. The movement of Italian exchange has, however, favoured buyers.

In March Italy the value of the year's crop is uniformly good, on the whole there is a slight improvement of the soft wheat of the best type though somewhat lighter than in previous years. Statistics that normally produce good quality wheat yield a larger percentage of F15 and F16.

In Naples the old crop of hemp is commanding about 10 per cent premium over the new crop, being more or less sold in the autumn. There has been a fairly active demand for old crop, which is well above the quantity that was carried forward from last season.

FLAX.

There has been a very demand for flax in the market, and the market is steady. The Continental has been particularly active, and the sales have been made of all classes of flax, including Blue, Yellow, and White, and also to Belgium and France. A small quantity of flax has been established with Russia, and it appears to be working steadily, as they have acquired large stocks, and have evidently placed the bulk of them forward with the exporters thus making them independent of the market.

CONTINENTAL FLAX.

There has been a very substantial amount of flax in the market, and the market is steady. The Continental has been particularly active, and the sales have been made of all classes of flax, including Blue, Yellow, and White, and also to Belgium and France.

INDIAN HEMP.

There has been a very substantial amount of flax in the market, and the market is steady. The Continental has been particularly active, and the sales have been made of all classes of flax, including Blue, Yellow, and White, and also to Belgium and France.

MADRAS HEMP.

The demand has been quiet, but open parcels are fairly held on the market, and the price is steady. The quality of the flax is good, and the market is well supplied.

COCOA.

The demand has been quiet, but open parcels are fairly held on the market, and the price is steady. The quality of the cocoa is good, and the market is well supplied.

and India is now making 225 lbs. per ton a 1/2. JUTE.

During the past fortnight there has been an active demand for Continental and U. K. jute. American jute has been in demand for a fair amount of business, but has been somewhat quiet. Values have been somewhat steady, and the market is well supplied.

MANILA HEMP.

Receipts at all ports since January 1st, 1921, to date amount to 2,100,000 lbs. compared with 2,000,000 lbs. for the same period of last year.

The demand for Manila Hemp has been rather quiet, but the trade is on a healthy line, and a considerable number of transactions have taken place, although they are not so numerous as in the past. It is expected that manufacturers are still continuing the trade to a great extent. The quality of the production of the grade of jute is still being improved, and the market is well supplied.

From Manila the market is reported from, with a laborer and demand setting in from America for the four grades.

Mail advices from America indicate that the month of August was a full one with manufacturers, and they they showed no reduction in 67 per cent of selling value since the latter part of 1920.

NEW ZEALAND HEMP.

More interest is being taken in this article at the present time, and quotations are as under: High Price at 250. Low Price at 200.

HENEQUEN (MEXICAN). HEMP.

The market in New York is still weak and the demand slow. Some items have been put through, but the very high freight and the premium on the American exchange make doubtful whether this will be a profitable trade. The market is well supplied, and the price is steady.

AFRICAN HEMP.

The feature of the trade is the security of freight rates. The market is well supplied, and the price is steady. The demand is active, and the market is well supplied.

COFFEE.

Meers, J. W. Milligan and Co., Nairobi House, Nairobi, has been appointed agents for the following markets: London, September 19, 1921.

There has been a very substantial amount of flax in the market, and the market is steady. The Continental has been particularly active, and the sales have been made of all classes of flax, including Blue, Yellow, and White, and also to Belgium and France.

THE FUEL MARKET.

The fuel market is steady, and the price is well maintained. The demand is active, and the market is well supplied.

TRANSPORT CHARGES REDUCED.

From London, date, The Hill and Lower Road, Fls. 4/- per wagon. From Town to Mombasa (Kilimani and Upper Parklands, Fls. 6/- per wagon. From Town to Malindi (Kilimani and Upper Parklands, Fls. 6/- per wagon.

UKAMBA TRANSPORT COMPANY.

Wagon per day Fls. 15/- Fuel delivered Fls. 15/- per ton. J. E. CAMERON, Manager.

and highest prices paid for different grades, though not in every instance the finest of the market.

London (20/- per cwt., Van 120/0; Newcastle (120/0; West India (120/0; Java (110/0; Ceylon (100/0; Java (80/0; and Ceylon (70/0).

The market of the Stationer's Guild, London, has been very active, and the price is steady. The demand is active, and the market is well supplied.

Last a few optimistic observations made by some of the leading firms in the market, and the price is steady.

Conditions have been extremely quiet since we last reported on 12th. The Continental Exchange Commission has restricted the flow of export orders and counteracted the movement by which which coffee prices at London might otherwise have had.

LONDON OCTOBER 2.

During September the following series of coffee were made: Costa Rica—150 bags were offered and sold at an average price per cwt. of 112. Quantity offered 20,000 bags.

Nairobi—178 bags were offered and sold at an average price per cwt. of 71/2. Quantity offered 47,750 bags.

London—200 bags were offered and sold at an average price per cwt. of 61/8. Quantity offered 51,000 bags.

The market of supplies prices was more or less nominal. The market is well supplied, and the price is steady.

ANNOUNCEMENT ON THE PLATEAU.

To the Editor: "E.A. Standard." Sir—The Committee of the Plateau District Schooling has the honor to inform you that the schooling for the year 1921-22 has been opened...

THINK DOCTOR SCHEME

To the Editor: "E.A. Standard." Sir—The Committee of the Plateau District Schooling has the honor to inform you that the schooling for the year 1921-22 has been opened...

We have now obtained the views of a committee of the most prominent and highly-qualified gentlemen and the promise of a delightful home at a European Standard Home. The advantages of such a District as a Committee of the most prominent and highly-qualified gentlemen...

The Committee feels that it is not only for those who have supported the scheme to approve the general policy of the corresponding district that has assured to the approval this has been issued are most important to the district...

We are unable to delay the matter indefinitely and desire on Monday November 1st to delay a reply to the point that is the subject of the abandonment of the scheme. We feel most strongly that the district needs only a trial of consideration...

(a) Do you approve of the suggestion of the Memorial Church and the District Schooling? (b) If you have subscribed to the scheme, will you pay now the full amount of your subscription...

Cricket

PARKLANDS ONE RUN WIN OVER GYERKANA. A FIGHTING FINISH.

One of the most brilliant cricket matches of the season was played at Parklands on Saturday afternoon.

Pragmatic chasing of bowling was played, but seemed to have no effect on the batsmen.

With the score at 119 for seven Parklands were still well ahead.

The second century was made by the batsman who had been batting since the start of the match.

With the score at 119 for seven Parklands were still well ahead.
