Under the intense heat developed by Motorcar engines in this country ordinary lubricating oil forms great quantities of black sediment which has no lubricating value.

SOCONY oils resist heat to an unusual degree. Sediment is reduced 80 per cent.

Have your engine flushed out to clear it of grit and sediment. Put in Socony oil. You will notice the difference at once.

There is a special grade for your car. Do not put in too light or too heavy a grade. Ask your dealer or garage for the correct grade of Socony for your car.

THE STAFF OF LIFE.  
To the Editor, "E.A. Standard."

As a wheat producing country, Kenya, more particularly the part of it, has everything in its favour. The climate is equally the variation of temperature throughout the year without any seasonally perceptible fall in amount and always enough to enable the farmer to grow wheat. The soil is admirably fertile. Fertilizers are not so much needed as in some of the other parts of the world. It is not that the soil is so good as to be without need from year to year, but that the soil is so good that it will grow wheat for a more perfect combination than in any other country.

It has to be stated that a good yield of wheat is not so much a matter of course as it has been in the past. The farmer does not consider that his crops will be as good as they were in the past. It is (thirty shillings) a bag for it.

Amports, the largest wheat-producing country, has conditions almost the reverse of those mentioned above. The weather of the East and insufficiency of rain are always an anxiety. It is not so expensive; and, although originally fertile it has become so often that it is now but normal at its best. An enormous amount of capital is required to run the field labourer in a machine. The field labourer is not so well paid as in the past. It is not so much a matter of course as it has been in the past. It is not so much a matter of course as it has been in the past.

The discrepancy is much more startling when we come to consider the price of flour. The cost of the first three American flour from the Atlantic to New York is \$1.00 a bushel, but the cost of the same flour in Kenya is 1.50 shillings per bushel of 60 lbs. The cost of the same flour in Kenya is 1.50 shillings per bushel of 60 lbs. The cost of the same flour in Kenya is 1.50 shillings per bushel of 60 lbs.

For nearly all the economic life of the country is afflicted with what the country is afflicted with. It is not so much a matter of course as it has been in the past. It is not so much a matter of course as it has been in the past.

A RECORD OF GOOD WORK

VALUE OF OFFICIAL CO-OPERATION

Mail and Shipping

Table with columns: ARRIVALS, DEPARTURES, VESSELS IN PORT, ARRIVALS EXPECTED. Lists ship names, origins, and dates.

The East African Flax Association, which was formed some eight months ago, recently met in its first general meeting...

On March 2, at the 10th of the Association's annual meeting...

It is a pleasure, therefore, to announce the progress of the industry...

Mr. Webb said he thought it well to be clear on the question as to whether the flax could be grown...

THE OFFICIAL ORGAN. Mr. Fagan said his point was that the flax industry had been established...

AGRICULTURAL SHOW, NAKURU. The fact section of this show was framed by your Council and carried on in its entirety by the Agricultural Association...

GENERAL. "It had been found to collect information and data regarding market conditions, and local sources which would have been of interest to members both in the home and abroad...

GRADING OF FLAX FOR EXPORT. "One of the chief objects of the formation of the Association was the setting up of an efficient grading scheme for export to Great Britain...

Wanted. "The flax industry had been established in the Colony and Protectorate of Kenya...

OFFICE MATTERS. The meeting then proceeded to deal with other business, and the following resolutions were passed...

Under the heading of "any other business" Mr. Fagan said that a petition had been presented to the Government...

Mr. Dawson pointed out that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

105 in the shade. Damp heat will soon spoil the best tea, if it is packed in an ordinary way. But by using Brooke Bond tea...

Ask for Brooke Bond Tea in the patent round vacuum tin. There is only one variety protected against the humid East Indian climate...

NOW READY THE AGRICULTURAL GARDENERS' FIRST REPORT. Issued by the Department of Agriculture of the Colony and Protectorate of Kenya...

Price 1/- 1/2. Pounded 1/- 1/2. carried on as an advisory body to the Government...

Mr. Fagan said that the flax industry had been established in the Colony and Protectorate of Kenya...

# Protect your Car from this abuse.

Under the intense heat developed by Motorcar engines in this country ordinary lubricating oils forms great quantities of black sediment which has no lubricating value.

**SOCOYNY** oils resist heat to an unusual degree. Sediment in reduced 80 per cent.

Have your engine flushed out to clear it of grit and sediment. Put in Socoyny oil. You will notice the difference at once.

There is a special grade for your car. Do not put in too light or too heavy a grade. Ask your dealer or garage for the correct grade of Socoyny for your car.

# SOCOYNY

OILS AND GREASES  
Standard Oil Co. of New York.

## VETERINARY SERVICES

Director of Agriculture & their Development

### IMPORTANCE OF RESEARCH AND EXPANSION

The Annual Report of the Department of Agriculture states:

An important service to the community is rendered in the inspection of meat at Nairobi. The abstract returns for the last 2 years are as follows:

	1921	1922
Meat inspected	1,112,142	1,112,142
Meat condemned	1,112,142	1,112,142
Meat returned	1,112,142	1,112,142

Carcases condemned as being unfit for human consumption represent a very small percentage of the whole. At Nairobi only 60 carcases, 120 sheep and 2 pigs were condemned in 1922.

In order to lessen the inconvenience caused to the community through the operation of the permit system governing the movement of animals, the number of honorary permit holders has been increased from 50 to 104.

There has been a substantial increase in the number of carcases registered and number of head of stock. The number of head of stock is estimated to be 1,112,142. The number of head of stock is estimated to be 1,112,142.

The Chief attended the Imperial Entomological Conference held in London as representative of Kenya.

The Division keeps in touch with the South African Lousure Bureau regarding locusts in these territories and in the state of affairs in the colonies.

SHOW! SHOW! SHOW!

SHOW! SHOW! SHOW!... ON DECEMBER 28th & 29th... Splendid Entries... NAIROBI SHOW!

ONCE

When, when with satisfaction is de-
scribed, it is said for him, he may
be induced to follow some special
plan and then left in the lurch and
derelict.

Amis no man can stand unless
the first thing he does is to get a
party. All this will stand that we
will not get the best men to repre-
sent us, but the weak and stupid, or
those stronger men, who have
succeeded several times, will be
likely to take to active politics,
the most will leave them severely
alone.

This and the Party tactics, war-
fare and manoeuvres which we
are all so delighted to see what
Party-Politicians lead to and have at
the end of it, "Have a look at
those they have the House of Lords
who are not independent of their
actions and should not be dependent
on parties and for this reason efforts
are made to reduce the Upper
House.

If then events indicate that our
Leaders will voluntarily rush into
such a system, either because they
lack the foresight or initiative to see
the evil to be done to work out
something better, or because they
cannot forgive their desire for power
or some other selfish aim, or be-
cause, or else because they wish to
share the destiny of the country to
their own ends we must at once
consider that they are no longer fit
to be in power.

It would be foolish to combine
with a system because its evils have
not yet become apparent, but since
they have been fully manifested else-
where. Should we do this, we
would open the door to all the
abuses, I have enumerated, and
if possible to over-ride it again.

It seems to me that though Par-
liament is a weakness of Human-
ity, it is not an evil, and that it is
not an evil which will exist without it;
at any rate, the evil attendant on
Parliament is not so great that it is
necessary to exhaust every effort to
keep them away from us and not
rush blindly to welcome them.

Yours, etc.,
M. S. H. MONTAGU.

Kyamba, Dec. 4.

THE PRINCE'S VISIT.

To the Editor, "E.A. Standard."
Sir,—I may interest your readers
here that in the "British
Chronicle of Saturday, October
22nd, and I have no doubt that
the notice in the paper is a large
notice in the minds of the principal
persons, reading as follows:—

BOYS AND DAUGHTERS OF
INDIA.

REMEMBER THE 17th of
NOVEMBER.

BOYCOTT THE PRINCE'S
VISIT.

FOR IT IS A POLITICAL MOVEMENT.

(1) To mislead outside world
about your intentions.

(2) And thus to delay the
attainment of Swaraj.

IF YOU WANT SWARAJ
CONCENTRATE ON SWADESHI

To what a state of impotence
must the Government of India be
reduced to permit the publication
of such a notice!

Yours, etc.,
C. KHAMBATTA SONS.

Most of the seed used for sowing... The reason for this difference... The two methods employed in sowing...

WEEDING

A great amount of labour and expense is involved in the weeding of a crop... The best time for weeding is when the weeds are small...

PULLING

The proper time for pulling the crop is difficult to determine... The best time for pulling is when the crop is mature and the weeds are small...

DE-SEEDING

The old system of hand pulling is employed with greater success... The best time for de-seeding is when the crop is mature and the weeds are small...

COVERING

Except in a long spell of dry weather it is expedient if better to cover the soil... The best time for covering is when the soil is moist and the weeds are small...

QUANTITY OF SEED PER ACRE

No one seems to know how much seed per acre to sow... The best time for sowing is when the soil is moist and the weeds are small...

Except in a long spell of dry weather it is expedient if better to cover the soil... The best time for covering is when the soil is moist and the weeds are small...

QUANTITY OF SEED PER ACRE

No one seems to know how much seed per acre to sow... The best time for sowing is when the soil is moist and the weeds are small...

Most of the seed used for sowing... The reason for this difference... The two methods employed in sowing...

WEEDING

A great amount of labour and expense is involved in the weeding of a crop... The best time for weeding is when the weeds are small...

PULLING

The proper time for pulling the crop is difficult to determine... The best time for pulling is when the crop is mature and the weeds are small...

DE-SEEDING

The old system of hand pulling is employed with greater success... The best time for de-seeding is when the crop is mature and the weeds are small...

COVERING

Except in a long spell of dry weather it is expedient if better to cover the soil... The best time for covering is when the soil is moist and the weeds are small...

Protect your Car from this abuse.

Under the intense heat developed by Motorcar engines in this country ordinary lubricating oil forms great quantities of black sediment which has no lubricating value.

SOCONY oils resist heat to an unusual degree. Sediment is reduced 80 per cent.

Have your engine flushed out to clear it of grit and sediment. Put in Socony oil. You will notice the difference at once.

There is a special grade for your car. Do not put in too light or too heavy a grade. Ask your dealer or garage for the correct grade of Socony for your car.

SOCONY

OILS AND GREASES Standard Oil Co. of New York.

A Kenya Alphabet

A stands for Ambar and Ambar... B stands for Bagan, a powerful law... C stands for Churchill who tells us... D stands for Douglas, model for... E stands for Estimate, proving and... Protect your Car from this abuse.

Under the intense heat developed by Motorcar engines in this country ordinary lubricating oil forms great quantities of black sediment which has no lubricating value.

SOCONY oils resist heat to an unusual degree. Sediment in reduced 80 per cent.

Have your engine flushed out to clear it of grit and sediment. Put in Socony oil. You will notice the difference at once.

There is a special grade for your car. Do not put in too light or too heavy a grade. Ask your dealer or garage for the correct grade of Socony for your car.

SOCONY

 [PROBABLE RUGBY ANNOUNCEMENT]  
 A Rugby match will be played on Saturday, December 17th, at 10 o'clock, for the benefit of the children of the Theatre Royal.

public of heavy responsibility in this matter, and we are bound to say that they have given their attention, except so far as their own children are concerned to the development of the thing generally. The organization of the Annual Sports is held to be the most important of the kind in the remotest relationship to a sports day, price giving or concert. We are not aware of any initiative having been undertaken in the past, and the delivery of an address. The Indian schools have been the first to give prizes, and we gather that, for though our own light and leading are, no effort is made in England, to call their sympathy with and encouragement of the soldiers in the matter. The Indian schools have been the first to give prizes, and we gather that, for though our own light and leading are, no effort is made in England, to call their sympathy with and encouragement of the soldiers in the matter.
