# MR. GICHURU HINTS A 'TIGHTENED' TAXES

## Control of Insurance Societies

Finance Minister, Mr. James Gichuru yesterday hinted of increased taxation, pay cuts, Government control over insurance societies and stricter control over foreign exports.

Mr. Gichuru, who was speaking at a meeting of the Freedom Party in Mombasa, said he was going to be one of the most unpopular Ministers in the country after the June 5 Budget to the Legislative Council.

He said that it was perhaps better to increase taxes and cut down wages and salaries after a year to raise adequate money for the country, rather than being dependent on foreign countries, something which would lead Kenya into a difficult position.

Mr. Gichuru listened in complete silence as Mr. Gichuru speaking in English and Swahili, explained what he was going to do to get money after independence and he believed in what President Nasser of Egypt said that any people who wanted to rule themselves well had to be prepared to have their throats cut as well as controlling insurance societies, which is a good deal of money was leaving the country, they must also be able to control import and export.

## Control of Insurance Societies

Mr. Gichuru said that he had not yet decided on his policy, but he would be prepared to have his throats cut as well as controlling insurance societies, which is a good deal of money was leaving the country, they must also be able to control import and export.

## The World Bank report urges £53m. investment drive

# TRADING FIRM TAKEN OVER IN GHANA

THE Ghana Government has taken over the majority second largest trading company, A. C. Lewis & Co. Ltd. The agreement was formally signed in Accra yesterday.

The takeover of Lewis & Co. Ltd. is the first step in the process of nationalizing the trading sector in Ghana. The firm, which has been operating since 1908, is one of the largest trading firms in the country. It has a turnover of about £10 million annually. The Government has appointed a committee to investigate the possibility of nationalizing other large trading firms.

The takeover of Lewis & Co. Ltd. is part of the Government's policy of nationalizing the economy. The Government has already nationalized the banking, insurance, and transport sectors. It is now turning its attention to the trading sector. The takeover of Lewis & Co. Ltd. is expected to be completed by the end of the year.

The takeover of Lewis & Co. Ltd. is expected to have a significant impact on the trading sector in Ghana. It is expected to lead to a more efficient and modern trading sector. The Government has announced that it will invest £53 million in the trading sector over the next five years. This investment will be used to modernize the trading sector and to improve the services provided by trading firms.

A REPORT published today suggests a five-year programme to enable Uganda to achieve full economic growth. The report is a general economic survey initiated and organized by the World Bank at the request of the Governments of Britain and Uganda.

The report recommends a public investment and development programme of more than £53,000,000 over the next five years. The programme is to be financed by the Central Government and the proceeds of public authorities. The report also recommends that the Government should take steps to improve the efficiency of its public services and to reduce its expenditure.

# YOUR NEW SIGN OF ENERGY IS UP!

### ALL THINGS TO BETTER YOUR LIFE

Without knowing it, most of us use several products made from petroleum through Esso petrol. For instance, many of the plastic products around you come from petroleum. And there's more! The synthetic rubber shoe soles help you walk better than natural rubber. Other oil derivatives - solvents and additives - are essential ingredients in paints, lacquers, and countless other things that make life better.

### OIL PRODUCTS BOUGHT BY MORE PEOPLE THROUGHOUT THE WORLD

Add up all the volume of gasoline and oil sold throughout Europe, the Americas, Asia, Africa, Australia and all over the world, the first choice is Esso.

### BETTER FUELS FOR FARMERS

Esso tailors fuel to the demanding requirements of the machines farmers use. These fuels are carefully designed to help protect the heavy machinery in farm machinery. In a very real way, Esso fuels help cut down costly time losses because of breakdowns. Esso's heavy-duty machinery oil is as good as the oldest and most Esso contribution to farming. For special problems, Esso technicians are on call to bring you famous Esso service.

### FROM ESSO'S UNMATCHED RESEARCH FACILITIES

In Esso labs throughout the world, scientists work to unlock products from petroleum. Hundreds of useful products have been developed yet the full resources of petroleum remain untapped. To reach these resources, all of the advances of science are used, including advanced research. Research like this brings about not only better fuels but developments that add to better living generally.

## IRELAND TERROR TO BE BROUGHT TO A HEAD

### WAIT AND SEE

THEIR is a sense of the "kailyard" atmosphere which surrounds the Kenya situation. Although the treatment of the 400-odd prisoners is much as the heads of the British Government's military machine have been able to do, it is not clear that they will be able to do more.

But whereas the Dublin Government has been through public relations, the British Government has been through public relations. It is not clear that they will be able to do more.

One of the new measures has been the change of name to the Kenya Police Force. This has been done in order to make it clear that the police are not the British Army. The change has been made in order to make it clear that the police are not the British Army.

The British Government has been through public relations. It is not clear that they will be able to do more. The British Government has been through public relations. It is not clear that they will be able to do more.

### WEST EUROPE UNITES TO START SPACE PROGRAMME

SEVEN governments have now signed the convention for the European Launcher Development Organisation. The British Government has been through public relations. It is not clear that they will be able to do more.

### On going to Britain

REPORTS from various Commonwealth countries indicate that concern is growing about the way in which the Immigrants Act, which was passed in Britain in 1962, will operate. To ally anxiety the Home Office has issued a million copies of a new leaflet which describes the correct procedure.

### THE TROUBLES

For the older generation, at least, the report of violence in Northern Ireland will operate. To ally anxiety the Home Office has issued a million copies of a new leaflet which describes the correct procedure.

# 'Equal opportunity for all' is the Government's aim

## PREMIER'S NEW MINISTERS AWARDED

### Premier will take post to woman

**BY THE STAFF REPORTER KAMPALA.**  
The cabinet of the Uganda People's Congress, headed by Sir Milton Obote, was yesterday sworn in by the Prime Minister. The Governor, Sir Robert Wilson, also approved an initial list of appointments in Mr. Obote's Cabinet.

In a message to the nation Mr. Obote said that his Government was committed to a policy of "equal opportunities for all" in the development of the Commonwealth. "We shall have equal shares in opportunity, equal rights that give meaning to life", he said.

He added that policy, however, will be guided by the principles on which the Government will be founded. "We shall not be governed by the principles of class but we shall be governed by the principles of justice and equality which will lead us to a better future."

He also stated that his Government will be guided by the principles of justice and equality which will lead us to a better future.

### IN ASKED TO DEBATE S. RHODESIA WAR DANGER

A UNITED NATIONS sub-committee yesterday recommended the General Assembly to debate the situation in Southern Rhodesia next month and asked that if there was no revision of policy and procedure by the colony "serious conflict and violence" might result.

The representatives might not be limited to Southern Rhodesia, said a report by the sub-committee which was taken up by the U.N. Committee on Colonialism. It recommended as an alternative to raising the question at the resumed General Assembly session, that a special session of the Assembly be held.

The sub-committee subcommittee added the provision that the renewed discussion should be held in the absence of "favorable developments" in the colony, or in the situation there appeared "the risk of great violence."

It expressed the hope that Britain would accept the situation in Southern Rhodesia with "order and peace" and deviating a commitment except for the "minimum" of its position.

The Assembly is due to resume on or about June 10. According to present plans the British entry into the debate on the future of Rhodesia is expected to be on the agenda of the General Assembly, on July 1. The Secretary of State may still offer options to the assembly.

### Twilight strikes

The report said the sub-committee with members from Kenya, Tanzania and Victoria, considered that the situation in the area of Southern Rhodesia (Government and the British) might be "settled" if it could "not affect the interests" of the people of Southern Rhodesia.

The sub-committee is expected to resume on or about June 10. According to present plans the British entry into the debate on the future of Rhodesia is expected to be on the agenda of the General Assembly, on July 1. The Secretary of State may still offer options to the assembly.

### Premiers discuss Market entry

**MR. MACMILLAN** and **MR. DENEFENACKER**, British Prime Minister and German Chancellor, met in London yesterday to discuss the entry of Britain into the European Common Market.

Mr. Macmillan arrived in Bonn on Monday night and met with Mr. Diefenbaker and Mr. De Gaulle.

Mr. Diefenbaker said he would be discussing "not only Commonwealth matters, but international matters" with Mr. Macmillan.

## Foiled

YESTERDAY, when I went to the Nairobi Game Park I found some people have no sense at all. Soon after we had looked some lions, one of them moved off, followed at short intervals by the other two.

We noticed they were stalking a wildebeest which was some distance away from the main herd. We moved up closer as to see better, but not so close as to frighten them. However, they were determined that they would catch the wildebeest.

Many cars had gathered in front of the lion's pride. We were all watching the lone wildebeest when suddenly a lion leapt out of the bushes and drove right up to the lionesses and, of course, Mr. Brown was followed by a few more cars, much to our annoyance.

# Burroughs adding, calculating and cash machines

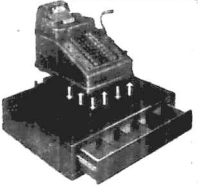

**FULL VISIBLE KEYBOARD ADDING MACHINE**  
The Erbe Thelma model. Full visible instantaneous adding keyboard shows errors before they are printed. A perfect machine for all businesses. Hand or electric models with or without tabulation.

**MEMORY-DIAL CALCULATOR**  
Here's a machine that does more than merely add and subtract. Burroughs' Memory-Dial Calculator keeps you 'on top' on your calculations. It adds, records it in the rear accumulating dial—while the other 'eye' is recording the operator's calculations at the front. That's why there is only one handling of the figures with Memory-Dial. With three Duplex features, you can sub-total, grand-total, and set-back at any speed. It is designed to give accurate control of accumulating totals by the transfer key.

**10-KEY ELECTRO ADDING MACHINE**  
This high quality Burroughs Machine is efficiency-engineered for fast, accurate, easy slide addition and subtraction. Separate total and sub-total keys operate without requiring spacing strips. Models with or without multi-precision.

**ADDING MACHINE AND CASH REGISTER**  
This Burroughs combined Cash Register and Adding Machine gives positive cash control over sales and the precision adding machine can easily be separated for home or office use. Widely used for preparation of monthly statements.

Banks and businesses throughout the world use Burroughs machines. Service facilities (including 12 months' free service) throughout the country. Ask your Burroughs man for a demonstration.

# Kenya has a 'control not herp Kenya'

## REPLY TO MINISTER'S HINT

Insurance laws and the control of insurance societies, stated at in a press conference on Sunday by the Minister for Finance, Mr. Gichuru, were completely unlikely to help the economy, the acting president of the Chamber of Commerce, Mr. G. S. L. d'Adhemar, said yesterday.

Director of a firm of insurance companies, who is also managing proposals contained in a memorandum submitted to the Government, said the present 'employment and lift up the economy' is a completely negative policy, whereas Kenya is a completely positive policy to deal with Kenya's problems.

It was unlikely that so much money was leaving the country as the insurance companies had invested about £20,000,000 in Kenya and if they were to be allowed to send some of their money out they should be allowed to do so on staff and claims.

**BUSINESS AT A LOSS**  
The companies maintained a large technical staff who were to be paid. Also some business - such as motor insurance - was done at a complete loss. Mr. d'Adhemar said that the Government was not doing anything to help the business.

Money sent out had to be counted against the original investment. They have supported building very heavily, and they have supported Government very heavily.

Kenya's worst problem, he said, was that it was not doing anything to help the business. He said that the Government was not doing anything to help the business.

# Public health standards in jeopardy

**ALARM** at the 'inevitable effects of any further lowering of public health standards in Nairobi has been expressed by the City Council's Public Health Committee.

When the council meets tonight members will be told of the committee's 'deep concern' at the Public Health Officer's 'serious' staff position. The Medical Officer, member of the department has resigned and that two more employees may do so in the near future.

Dr. McLean mentions the 'serious picture' in which the department would then find itself. There would be only three first-grade health inspectors. The number was reduced from ten last year because the council was unable to recruit.

The City Treasurer, Mr. A. W. Ken, has held the committee that the Department of Public Health has suffered a total collapse. He has referred to the fact that the department is unable to recruit.

Mr. Ken said that the committee that the Department of Public Health has suffered a total collapse. He has referred to the fact that the department is unable to recruit.

# MR. KENYATTA HAS BURIED THE TRUCE, KADU CLAIM

**STATEMENTS** by Mr. Kenyatta that 'Malindi' had been buried before the Lancaster House conference left Kenya for the constitutional conference were the 'final blow to the so-called truce between KANU and Kadu' yesterday.

He told a Press conference that Kadu would lose interest in the election and that it would not support the Constitution based on a regional party system between Kadu and KANU areas.

So long as a truce would be maintained, said Mr. Kenyatta, any talk of a two party system would be meaningless. Only one Government must rule in Kenya.

The only way the election could be held was by the Lancaster House conference and the Lancaster House conference. He said that the Lancaster House conference was the only way the election could be held.

Members of 2000 people at Bungoma and other places were told that the Lancaster House conference was the only way the election could be held.

Referring to a KANU meeting at Kisumu on May 1, Mr. Kenyatta said that the meeting was a 'show' and that it was not a real meeting. He said that the meeting was a 'show' and that it was not a real meeting.

He doubted whether the bulk of the people would attend the meeting. He said that the meeting was a 'show' and that it was not a real meeting.

## Burnley and Spurs have special mission

### This could be clue to missing millions

BURNLEY and Tottenham have a special mission when they step on to the lush Wembley turf on Saturday for the final stage of the English F.A. Cup.

They have earned a reputation as the two most attractive soccer outfits in Britain over recent seasons. Now, by a strange paradox, they can come up with the answer that a £2,000,000 survey failed to find, by charming all their undoubted skills into a frothy exhibition of all that is best in the game.

#### SURVEY PRODUCED NOTHING NEW

The Football League have spent £2,000,000 trying to find out what is wrong with English soccer. The survey produced nothing that was new known before. Burnley and Tottenham can show what is right with the best in the land and reformers can hope that most people have harboured for a long time, that the customer will finally reject the mediocre stuff dished up week after week by many clubs, but give almost anything to see really good soccer.

### RUGBY PLAYERS DO NOT USE 'DOPE'

MR. D. E. DAVIES, President of the Welsh Rugby Union, has officially denied an allegation that Welsh rugby teams have used stimulants to keep them going during important matches. The denial came after a report had appeared in a London Sunday newspaper that members of the Welsh International Rugby team had taken benzodrine on occasions in the past.

The report, which was published in the "Daily Express," stated that the Welsh team had used stimulants to keep them going during important matches. The denial came after a report had appeared in a London Sunday newspaper that members of the Welsh International Rugby team had taken benzodrine on occasions in the past. Mr. Davies said that the Welsh team had never used stimulants and that the report was a complete fabrication. ### Nairobi tennis championships

At the Nairobi Friends Club's Polo Championships on Sunday—the "official" Kenya championships—Mr. Ron Lock was the only first-class club in Wales.

The Welsh trainer, Mr. Gerry P'Neeld, commented that the Welsh team had never used stimulants and that the report was a complete fabrication. He stated that the Welsh team had never used stimulants and that the report was a complete fabrication.

### Irish hopes of soft going in 2,000 Guineas

IF the present fine spell persists it looks as if the 2,000 Guineas (conveyed) will be fast.

There will be four runners from Ireland in the 2,000 Guineas (conveyed) will be fast. The favorite is the 2,000 Guineas (conveyed) will be fast.

### Injuries plague Nondies

FIRST highlight of the season will be the Africa v. British Combined Services game on Saturday. Already two of the injuries to the British team have had to cry off owing to injuries.

But Nondies have almost their entire first team down through concussion. Kenyon, who was injured in the first test, is still out. The second test will be a fair one.

### How YOU can aid rugby tour fund

TO revert to less formal matters, the Combined Schools rugby tour, in aid of the fund, will be rather a costly one.

FIVE members of the U.K. Combined Services tour will be included in the tour. The tour will be a fair one.

# GOING LIKELY TO BE HARDER FOR COUNTY CHAMPIONSHIP

HAMPSHIRE'S efforts to retain the British county cricket championship, which was last year for the first time, will be by far the most intriguing domestic fixture of the new season which opened on Saturday.

Hampshire upset all predictions in their adventurous leadership of Colin Ingleby Mackenzie when they finished ahead of what appeared to be stronger sides like Yorkshire, Middlesex and Worcestershire.

These three counties followed Hampshire in that order and on potential strength the 1934 championship should come from the trio. But Hampshire, with its approach to the game which embraces all the qualities sought by England's new selectors, will be the pressure carrier on the teams, and they will have to show such an approach in the chase.

STERLING STRONGER

'Sustained attack' has been defeated

The British Chancellor of the Exchequer, Mr. Selwyn Lloyd, said yesterday that the British Government had defeated a 'sustained attack' on sterling and that Britain is in a sound position for expansion.

He said that excluding Britain's contribution to the International Monetary Fund the country's current and long-term external account in 1960 had a deficit of £240,000,000.

EUROPE BEATS COMMONWEALTH IN BRITISH TRADE STAKES

BRITAIN'S exports to East and West Europe in the first quarter of this year were for the first time 'considerably higher' than to the Commonwealth, it was announced by Sir R. S. Sillitoe yesterday.

He said that excluding Britain's contribution to the International Monetary Fund the country's current and long-term external account in 1960 had a deficit of £240,000,000.

# ADMINISTRATION OF INCOME TAX LAWS

During the past year I have been putting before my readers certain aspects of the administration of the income tax laws of East Africa. Now I wish to turn my attention to the work of the local committees which are established under the provisions of Section 10 of the East African Income Tax (Administration) Act, 1962. For the purpose of this article, I am assuming that the committees are set up in accordance with the provisions of the Act and that they are functioning in accordance with the spirit of the Act.

The committees are established in each of the three territories of East Africa. Their functions are to advise the Commissioner of Inland Revenue on the application of the provisions of the Act to the circumstances of the territories and to advise on the manner in which the provisions of the Act should be administered in the territories.

The committees are composed of representatives of the various sections of the community. They are appointed by the Commissioner of Inland Revenue and their members are appointed for a period of three years.

## Commonwealth

THE WORLD has been in a state of confusion since the outbreak of the Suez crisis. The United Kingdom has been unable to secure the necessary supplies of oil from the Middle East. This has led to a shortage of oil in many parts of the world. The United Kingdom has been forced to turn to other sources of oil, such as the United States and the Netherlands.

## Examinations

I QUITE agree with what Mr. Njiru has to say about the examinations. It is true that the examinations are not as good as they should be. This is due to a number of reasons, including the fact that the examinations are not held in a proper manner and that the questions are not of a high standard.

## U.K. information offices stoned

HERE, I would say that the information offices in the United Kingdom are being stoned. This is due to the fact that the information offices are not providing the necessary information to the public. This is a serious matter and it should be investigated.

## Question on Mr. Gieluhr's speech

THE Member Mr. Njiru has asked a question about Mr. Gieluhr's speech. He has asked whether Mr. Gieluhr is satisfied with the progress of the Government's policy on the subject of the information offices.

## Martian water

A Russian scientist says he has proved the existence of water on Mars. He has done this by using a special instrument which he has called the "Mars Water Detector". He has found that there is water on Mars in the form of ice.

# Hour-a-week self-help plan launched

COMMUNAL schemes embracing a wide variety of activities — from farming to mathematics — will start in the Machakos and Kitui districts next week in an attempt to show that theoretical politics, divorced from practical action, were of no benefit to the country.

Mr. P. Njiru, who is directing the scheme, has toured for an hour a week for some time voluntarily and will elect a leader in each section or location. He said the first stage would be to set up a central mental farm building, a library and other agricultural work.

## AFRICANS 'NEEDED' AS GAME HUNTERS

SUITABLE Africans must be trained to become professional hunters, the chairman of the Tanganyika Game Commission, Mr. N. K. Bond, said at the association's annual meeting in Arusha.

Mr. Bond said he was pleased to see that the Government was taking steps to train Africans as game hunters. He said that the Government should provide the necessary equipment and training for the hunters.

## U.K. information offices stoned

A large stone was thrown through a plate-glass window at the offices of the British Information Commission in Nairobi. It was wrapped in a copy of a newspaper dated April 5, the date on which an armistice was made in the Suez.

## Keep hunting clean

Mr. Reed said members should take a look at themselves and see if they are clean. He said that the Government should take steps to ensure that the hunters are clean and honest.

## Question on Mr. Gieluhr's speech

THE Member Mr. Njiru has asked a question about Mr. Gieluhr's speech. He has asked whether Mr. Gieluhr is satisfied with the progress of the Government's policy on the subject of the information offices.

# City Council a walk-out

## DISPUTE OVER PRESENCE OF DEPUTY MAYOR

Members of Nairobi City Council staged a walk-out at the monthly meeting yesterday, protesting at the presence of the Deputy Mayor, Mr. Shani Pandit.

They were led by Mr. E. Block (Nairobi East) who is chairman of the council. Mr. Travis was seated, asked for leave of absence from the chamber.

He said he regretted having to take such a step "but the presence of the Deputy Mayor this afternoon has forced from me and from some of the Asian councillors the decision to resign."

Dr. Y. A. Ezra (Asian Muslim, East) was quickly on his feet and informed that he hoped Mr. Block would view his action, remain calm and not be provoked by his term of office was up. "If he does not wish to present a show of it," he added.

Mr. S. Singh Mandla (Asian, East) said he thought it was an insult to the chair, to which the Mayor elected Mr. Block left the chamber, he was followed by Mr. D. S. Clarke (Bwerende), Mrs. M. N. Holden (Hill) and Mrs. M. Scott (Woodlands).

**GROUP REFUSES TO POSE**  
Earlier in the afternoon, when an official photograph of the council members was being taken, Mr. Pandit was not allowed to be present, and about 11 Asian councillors refused to join the group.

After Mr. Block announced he was leaving, this point was also brought up by Asian councillors. Mr. Mandla said that the absence of the Deputy Mayor "is a matter of which we are all very much concerned."

When Mr. N. Desai (Asian, West), said the photograph should not be taken, Mr. Block said he would issue a statement on the subject. Mr. Pandit was asked to leave the room as he was not a member of the council.

**SHOPKEEPER TURNED GUNMAN**  
An Eastleigh shopkeeper was arrested yesterday on suspicion of the murder of a woman. The woman was found dead in a shop, which was a burst into his shop and demanded the taking.

Several earlier he had seen a bullet taken into a door, inches away from his terrified young brother.

**NOT TO QUIT**  
The action of the Minister, Mr. Nyamwaya, was not to be taken, Mr. Nyamwaya said. "We are not going to quit the office," he said.

# Higher tax hint shows Kanu policy

The speech by the Minister of Finance, Mr. Gichuru, on taxation was a reflection of Kanu policy, the executive officer of Kanu, Mr. M. M. M. M.

"Some people, particularly organised commerce, seem to have failed to comprehend the meaning of Mr. Gichuru's statement at Mombasa on Sunday," Mr. Kibaki said.

"The Minister had emphasized the fact that the Government was not going to increase any tax on any business, but also a fair one."

**Another loss to boxing**

By CHARLES DIBNEY

KENYA amateur boxing K will lose the services of yet another stalwart today with the departure for Britain of Mr. Danny Harton (below), Welfare Officer to Nairobi City Council.

He has done a considerable amount of work on the amateur side of the sport, and has been a member of the A.B.A. of Kenya for many years. He has done much to encourage and assist the growth of amateur boxing in the country.

**Twenty-five Services' Rugby Union players** gathered at the Royal Air Force Transport Command airfield, at Lyttelton, Wilkesir, in readiness to fly off yesterday morning at crack of dawn for their tour of Kenya and Rhodesia. The party arrives in Nairobi today.

"We are going at the request of the Rhodesian Armed Forces," said Rear Admiral R. V. Brockman, who is in charge of the party.

"The team will be making contact with a lot of the Services over there and we believe that the tour will be of great benefit to all of them."

Activity 'on the field' seems likely to reach a peak at their first match, against the Rhodesian national side at Salisbury.

# SPURS DISPLAY NO SIGNS OF FINAL NERVES

**BURNLEY and Tottenham Hotspur, the English F.A. Cup finalists next Saturday, had mixed fortunes in English League First Division matches away from home.**

While Burnley were thrashed 6-2 by Sheffield Wednesday, Tottenham beat Leicester City 3-1 in the first half, but had reserves in their team but such a heavy defeat did not have a demoralising effect.

Burnley, who have now only won six during their last ten league games, were utterly out of league. Sheffield goals came from Colin Dodds (2), James Farnham and Derek Wainman.

Tottenham meanwhile showed no signs of nerves, when they met with Leicester, when they beat in last year's Cup final.

**Only one behind**

Tottenham finished with 21 points from 12 games, only one point behind Burnley, who still hold the Cup.

Leicester, who were 10th, were 10 points behind Tottenham.

Sheffield Wednesday, who were 11th, were 11 points behind Tottenham.

Sheffield United, who were 12th, were 12 points behind Tottenham.

Sheff Wednesday, who were 13th, were 13 points behind Tottenham.

# JUMP IN U.K. OUTPUT

## Survey forecasts further expansion this year

A SURVEY of 500 firms, carried out by the National Association of British Manufacturers, draws a picture of slowly rising production and further modest expansion during the next few months.

The latest investigations had shown that costs were still tending to rise, but cost increases had not been passed on to customers. They had been absorbed by the firms themselves, resulting in a decline in profits.

This trend appeared to be a consequence of growing competition, which was becoming severe in many trades, the survey concluded.

### CREDIT TERMS

It found that the Credit Squeeze was affecting production adversely in some cases. Exports were said to be limited to some extent by credit terms and lack of incentive, shortage of capital and general uncertainty.

Anxiety was also expressed about possible further wage increases and labour unrest.

# LONDON TRENDS FIRM DESPITE UNCERTAINTY

## More cars exported

PRODUCTION and exports of British cars in the first three months of the year show a slight increase over 1952.

Output of 27,400 units, representing a 30 per cent increase on 20,600 in 1952, was reported by the British Motor Industry Federation.

The increase was largely attributable to large export orders from the United States, for which the value of British export cars has now for the first time exceeded that of the United States.

### IN THE CITY

## GUINEA MAKES TRADE PACT

Guinea and Switzerland have signed a trade agreement which also covers protection of investments.

The pact, the Swiss Trade Ministry announced in Bern, is the first of its kind in the West African continent.

# Japan face more trade barriers

THE Japanese Foreign Ministry has a trade report which notes that while nations were easing trade barriers in Japan, Europe, Latin America, Africa, Asia, the Middle East, Near East and East were tightening restrictions.

The report recommended that Japan should extend greater economic assistance to these less-developed countries and import restrictions and tariff rates on primary products.

The report said South Africa, Rhodesia, the Lebanon had for several years discriminated against Japan in terms of tariffs. During the past year, Cambodia, Ghana and Nigeria had imposed restrictions and large rates on primary products.

This tendency by emerging nations was being met by their attempts to eliminate deficits by their attempts to eliminate deficits by their attempts to improve their international balance of payments and protect domestic industries.

# Return of two areas to Bunyoro recommended

## Commission warns of civil war risk

Uganda's Baganda and Kavirondo Counties, where the population is overwhelmingly Bunyoro, should be returned to Bunyoro, the Privy Council has recommended, headed by Lord Molsana recommends in their report presented yesterday in London yesterday.

The commission says the other "lost counties" claimed by Bunyoro are in Baganda. It expresses the hope that Baganda will be returned to its boundaries as a "generous act of statesmanship" and that the Baganda of Bunyoro should renounce all claims on the other counties. Emphasizing the danger of the present situation and the possibility of leading to civil war, the commission says the return of the two areas to Bunyoro must take place before Uganda becomes independent on October 9.

The report comes after discussions to take place on the chairmanship of the Government, between the Government and the Bunyoro, but the Government has not yet made known, the report adds. The commission says the return of the two areas to Bunyoro is a necessary step to settle the problem of Baganda as an "urgent matter."

The report also contains a list of recommendations, comprising Lord Molsana, Lord Goff, Lord Willes, was appointed by the Privy Council, last December after the resignation of Lord Molsana. The report of the Uganda constitutional conference held in Kampala in January and headed by Lord Molsana. The commission's report is dated May 2, 1962, and is the first of a series of reports to be published in the next few days.

# Premier reassures House on British Common Market policy

The British Prime Minister, Mr. Macmillan, said yesterday he was sure the heads of the European Common Market countries would do everything they could to help the United Kingdom in the Common Market negotiations.

In Rochester, New York, Dr. C. J. Shaw (right), Kodak vice-president, discusses genetic disease control work on magnetic tape with Mr. R. W. Young (left), Kodak (East Africa) Ltd. and Kodak executive from Central and South Africa.

## KODAK EXECUTIVE ON U.S. VISIT

THE deputy managing director of Kodak (East Africa) Ltd., Nairobi, Mr. R. W. Young, has been at a two-day management conference of Kodak executives in Rochester, New York. During his visit Mr. Young saw the Kodak Research Laboratories, which are one of the first industrial research organizations established in the world celebrating their 50th anniversary this year.

Since the founding of the laboratories in 1912, Kodak photographers have gained wide recognition for their research and development work. They have expanded their scientific work into such related fields as genetic control, animal state diagnosis, and the complex chemistry of the laboratory, which has been developed for the study of genetic, medical, and industrial chemicals.

Dr. C. J. Shaw, Kodak vice-president in charge of research, speaking in Rochester, said that in the past 50 years scientific research has advanced to the point where it is now an integral part of industry, to which it is generally considered basic to industrial progress.

New areas

"New products now progress, lower costs and higher quality are the recognized aims and goals of research and the main stays of technological progress for an industry today," he said.

In evaluating research progress investment in the new laboratories have led to new areas of research, which would be used to help the production of lasting research, product development, highly complex production, highly complex sales organization that has been increasing research and development everywhere in the world.

## Dollar at lowest value in 12 years

EXCHANGE value of a Canadian dollar has been at 90 cents for the first time since Canada adopted a "floating" exchange rate in September, 1950.

The new value, slightly below the level at which it was set in 1950, was announced by Finance Minister, Mr. Dufferin-Perry, in a statement issued after the release of the monthly trade figures.

The decrease in the value of the dollar was due to a combination of factors, including a decline in the price of raw materials and a rise in the price of manufactured goods.

The new rate means that Canadians will have to pay a little more for each dollar.

## Britain hails Ghana president's 'reconciliation' move

# TKRUH TAKES 60 PRISONERS But many leaders still detained

TKRUH, 100 Ghana detainees, mostly political, were freed yesterday on the condition of President Nkrumah. He described the move as a "general reconciliation".  
Their release still leaves about 100 to 150 people in detention for allegedly political or criminal reasons. It is understood that many of the United Party leaders, arrested last October in connection with an alleged plot against the State, are not included in the first batch to be freed.  
Among these leaders were Mr. Joe Appiah, deputy leader of the Opposition, and several members of the late Sir Stafford Cripps, and Dr. J. B. Danquah, one of Ghana's best-known intellectuals. Nearly 50 people were held after Dr. Nkrumah announced that he was ordering State security following discovery of an alleged plot to assassinate him and members of his Cabinet.

### Important step to normalcy

The move was hailed in London by the Secretary for Commonwealth Relations, Mr. Duncan Sandys. He even took the unusual step of issuing a statement which was not included in the British Government's daily decision as "an important step towards the restoration of confidence and normalcy".

"We have heard this news with pleasure," Mr. Sandys said. "It is not the intention of the British Government to comment upon the internal affairs of other Commonwealth countries. We have not therefore at any time expressed any views upon the circumstances which led the Ghana Government to arrest these people."

# Services triumph in see-saw rugby

## E. AFRICA FOUGHT ALL THE WAY

U.K. Combined Services 36  
East Africa 17

By the SPORTS EDITOR  
THIS game blew hot and cold for both sides.

One minute it was exciting rugby, the next it was tumbled and forward passes and the ball was in the air.

To some extent this could be regarded for both sides as playing in a snail for the first time.

Whatever it demerits the game suggested everybody's new approach to the game.

It was fast and furious, with the ball in the air for most of the game. The weather was not ideal, but the players were determined to win.

The East Africa forwards were particularly impressive, showing great strength and determination.

Winning gamble  
The crowd from the Services was a sea of blue, and they were cheering loudly for their team.

Services' scrum-half, Both (below), gets the ball away and East Africa's Chris Young races through to try and intercept.

Chris Young (left) has a try for East Africa. The Services' scrum-half, Both (below), gets the ball away and East Africa's Chris Young races through to try and intercept.

Two more  
The game continued with both teams showing great skill and determination. The Services were particularly strong in their defence.

The Acting Governor of Kenya, Mr. E. Griffith-Jones, meets the British Combined Services team before Saturday's match at the Road, Nairobi. The skipper, Lieutenant Jenkins, presents a different picture (below), in the climax through the scrum. East Africa's scrum-half, O'Shea, is going for the ball.

### ENGLISH!

The key to success in the modern world is English. Without a good knowledge and command of the language one is always regarded as a second-class person if only for inferior positions. Every word you speak, every word you write, either makes you or breaks you.

To many people the study of English is hard, but the B.T.C. with its vast experience provides courses specially prepared for people who have only a little knowledge of English, designed to teach them to the standard required. We conduct courses in English for all purposes—

- Practical English
- Junior English
- Senior English
- Advanced English
- English Literature
- Commercial English
- English Correspondence
- International and Reporting
- Articles of Association
- And English in India
- And English in Africa
- Cambridge Certificate
- Cambridge Certificate
- General Certificate of Education, etc.

**WE GUARANTEE: NO PASS, NO FEE!**

You can study at home in your spare time, rapidly and easily. Our courses are practical and effective. Learn to speak well and write well. Write or call for details.

# SPURS F.A. CUP DOUBLE

## KIBERA'S GOLF PAIR SECOND IN 'OPEN'

### A match to thrill

SAYS CHARLES DISNEY

## Burnley go under 3-1 at Wembley

ALTHOUGH I have, all a field, been watching and writing about sport for more than 50 years I have never known so much excitement in any game—particularly rugby football.

**TOTTENHAM Hotspur**, the famed London club, won the English F.A. Cup final at Wembley on Saturday for the second successive year, beating the Lancashire club Burnley 3-1.

Certainly any but the most hard-boiled observer must have been thrilled with Saturday's match between East Africa and British Command Services Forces.

It was a fast, keen, exciting and thrilling match which proved good play from both sides. In taking the cup back to Tottenham, the Lancasters had accomplished a feat which since Newcastle United won twice successively ten years ago.

Even when East Africa secured a marked technical advantage for all the first half, however, the leading always went to Burnley.

Obviously enough it was Spurs defence, and in particular their great forward, and their most valuable player, that made them the victors.

It was a fast, keen, exciting and thrilling match which proved good play from both sides. In taking the cup back to Tottenham, the Lancasters had accomplished a feat which since Newcastle United won twice successively ten years ago.

Obviously enough it was Spurs defence, and in particular their great forward, and their most valuable player, that made them the victors.

# Ald. Charles Rubia and Ald. John Kasvoka take over in July

## MAIR MAY HAVE A NEW MAJOR

### Only two nominated for city leadership

Two Africans made history in Nairobi last night when they were chosen for the next Mayor and Deputy Mayor of the City — the only two candidates for the job as the capital's first citizen.

Ald. Charles Rubia was voted Mayor-elect and Ald. John Kasvoka was elected to be his deputy. The sudden change in the governing body of the city came after a short, informal meeting of the council on the night called to nominate the successors — to be formally elected in July — to Ald. Harold Travis and Ald. Shanti Prasad.

There was little discussion. Aldermen Rubia and Kasvoka being the only names put forward for the mayor's post. Afterwards, members of the council said they were pleased over the selection. Ald. Mohan Singh commented: "It was made in the right direction today — and it was made in the right direction."

Ald. Rubia is a man who will not be influenced by political pressure in the running of the city and he will form a party, Mr. Eric Wilson, said. The mayor-elect was not in the council chamber when his name was put forward.

### Son of a Kikuyu farmer

When told about the council's decision later at his home, he said: "This is a great honour and I look forward to the co-operation of all members of the council and staff. I think the coming civic year might be a difficult one and citizens."

Ald. Rubia, who is 46, is the son of a Kikuyu farmer and was born in Maralal. He is married with five sons and a daughter. His early education was at the Christian Mission School and later at the Alliance High School, Kisumu. Shortly before being elected an alderman in 1949 he went on a study tour of Britain.

Ald. John Kasvoka, Deputy Mayor, is a member of the Legislative Council and was born in the village of Kikuyu, near Nairobi.

### Decameron film cuts cause a storm at Cannes

THE Cannes Film Festival got off to a stormy start yesterday when an Italian director threatened to prevent the showing of a picture.

A decision by the producers of the Italian picture to cut out one of its four sketches infuriated the sketch director, Mario Monicelli.

Going to Cannes from Paris with his lawyer, he immediately instructed French agents to prevent the presentation of the picture.

The law producer Carlo Pont, one of whom the British lawyer, Mr. Robert G. Jones, wanted to reduce the picture to a single sketch, which is the film which is treated by the festival.

Can you imagine? The principal stars of the much-admired Italian film are Anita Ekberg and Sophia Loren, who were in Cannes yesterday afternoon.

### U.S. FIRES NUCLEAR MISSILE

THE United States has fired and exploded its first Polaris missile carrying a nuclear warhead. It was announced yesterday.

The missile was fired from the U.S. Pacific fleet and travelled close to the full range of nearly 1,400 miles. It was launched from a nuclear-powered submarine while it was submerged and was within a mile of its intended target.

The test was conducted under conditions which are expected to show that the missile can be launched from a submarine and that it can be recovered.

**Examinations**

READ Mr. Swartz's lead column. I am glad to see you agree with most of what he says.

It is chiefly academic ability that determines the grade a student receives. There are many factors that influence the result, but the chief one is the student's ability to do his work.

He writes, however, that we go to change in the examination. I think you are right in your opinion that we should have to change in the examination.

A PART from hearing young people give by making the Junior Red Cross? A lot more than you would expect—in fact, although practical work is concentrated on helping the sick, the Junior Branch of the Red Cross has much in common with other, more public, youth organizations.

Members of the Junior Branch of the Red Cross are busy with their work, but they are also busy with their studies. They are very busy, and they are very good at their work.
