Leicestershire won by an innings and 106 runs.

FAILURE OF SUSSEX

London, August 28. Lancashire has won the County cricket championship. This was decided to-day when they gained a first innings lead over Surrey. Once again, therefore, Sussex has

just failed to win on the post. A splendid side during the season, they just failed to round matters off, and so the honour evades them for another year.

Rain interfered with several of

Rain interfered with several of the matches and at Boursemouth no play was possible at all during The Australians won their game at Hove, where Sussex wont down by over an innings. Fleetwood-Smith and O'Reilly were mainly ret in the home team's second in-ting, when only Bowley and John

A BATTERY WITH A SELLING POINT THAT SPEAKS FOR ITSELF

No one " wonders what it is for " when they see the new "Indicator" on the Exide "D" Type Batteries. It explains itself. There on the clear white dial is a pointer that points to "Full," "Half," or "Empty," according to the state of the " charge." The battery's " charge " is thus placed on the same measureable footing as more concrete things. It is a convenience that everyone instantly appreciates. It therefore

takes very little selling. Dealers who have got supplies tell us that it has already markedly increased the sales of what was already the world's best seller in batteries. So don't let "the other man" get a lead on you.

As the most comomic breed is a matter of great importance with dairy produce at its present price—the following extracts may be of

The figures seem to prove, fairly conclusively, that the High Yielder

Average Yearly Butterfat and Milk Production

7		Based upon ad	vanced registry	records of breed	associations.
	(A)	Ayrshires	8,004 cows	10,393 lbs. milk	415.0 lbs. fat.
Э		Guernseys	27,210 cows	9,775 lbs mlik	488.1 lbs fat.
	100	Jorseys	37,875 cows	8,466 lbs. milk	453.09 lbs. fat.
		Holstein-Friesinns		16,070 lbs. milk	
	(B)	Holstein Friesians	produced on av	erage:-	
п		129.49 lbs. more	butterfat than	Avrshires	
		56.39 lbs. more			
-		91.40 lbs. more			

77.27 lbs more butterfat than average of other breeds stein Friezians unduced on average

5.677 lbs. more milk than Ayrshires. 6.295 lbs. more milk than Guernseys 7.604 lbs. more milk than Jerseys.

5,708 lbs. more milk than average of other dairy breeds

Deductions from above.

A) If butterfut sells at 40 cents per pound the average annual Holstein fat income would be:—
51.80 greater than average Ayrshire.
22.56 greater than average Guernaey. 36.56 greater than average Jersey

30.91 greater than average of other breeds.

The Average Holstein Produces in one year. 159 lbs. more skim milk than the average Ayrshire value at \$.50 per 100 lbs 3,130 lbs more than average Brown Swiss value at \$.50 per 100 lbs.

7,238 lbs more average Jersey, value at \$.30 per 100 lbs. (Continued in next column.)

fat at 40 cents per lb. — skim milk at 50 cents per 100 lbs. \$77.00 more than average Ayrshire. \$52.91 more than average Guermey. \$72.75 more than average Jersey.

Holsteins Win in Returns over Feed Costs. Net profit rather than the exact cost of producing a pound of butter-is one of the important factors to consider when selecting a dairy

breed.

Therefore, if one has a natural preference for the Holstein he may be assured that the breed cannot be beaten when it comes to "net profit." In all the most important contests the Holstein has won in returns over

returns over feed costs.

The most extensive breed competition perhaps ever conducted in this country is the "Wisconsin Dairy Cow Competition".

CATTLE SHOWS IN SWITZERLAND

Remarkable System.

COMPREHENSIVE SCORE CARDS.

PREMIUM AWARDS.

There has recently been considerable correspondence in the agricultural press of several countries on the value of Shows to Dairy Breeders.

The following article by Dr. Andreas Sciuchetti which appeared in a recent issue of "Hoards Dairyman" gives particulars of the remarkable and comprehensive system of judging cattle which has been adopted in Switzerland.

There is a great deal in the Swiss system which merits careful consideration. In any case the accepted practice of a country where the development of intensive dairy-ing has reached a high standard is of considerable interest. Certain features may well prove worthy of introduction at agricultural shows in Kenya.

SATURDAY, SEPT. 1, 1894.

Cattle Shows at Swins

These exhibitions include only a limited number of excellent

specimens of males and females of the four Swiss breeds. The judging methods at these exhibi-tions are much like those in-tioned before. These cattle shows advertising.

show systems and customs of Switzerland may not be ideal for other countries. However, we are proud of some features of our show system. We think that the judging is made more securate because of the fact that the owners and herdsmen are not allowed in the ring at the time of the judging. Because of the more uniform showing and later inspection of the animals when tied at the rail, their true confortied at the rail, their true conformation can be judged more ac-curately than when an animal is handled by a skilled professional showman. At the same time we hope that in the future other factors such as the yields of the Vigna spp. Cassa spp. formation of the descendants.

5 Why Children should always use WRIGHT'S

Whether indoors or outdoors, at play or in school, children's hands are constantly sustaining small hurts which are in ceaseless contact with sources of infection. They are not particular in what they touch, and from soiled hands harmful germs are easily conveyed to the mouth. Mothers are well. aware that Wright's Coal Tar Soap is not only an effective cleanser, but is correctly antiseptic, invaluable in the nursery and for cleansing those small hurts which active children so easily incur. For the children's safety always use Wright's.

WRIGHT'S COAL TAR SOAP INSIST UPON

WRIGHTS, THE TAR SOAP The London Institute of Hygiene has certified Wright's Coal Tar Soap annually, since 1904, for purity, quality and meril.

KALZAN

Weak Teeth

are usually due to a lack of Calcium (lime) in the body

Women

For

Kalzana is of the greatest value in regulating the bodily functions. Any lack of calcium results in pain and prostration, but these are quickly relieved as soon as the shortage is made good. By taking

Kalzana, the scientifically approved calcium treatment, you can avoid pain and discomfort. By restoring the balance of calcium in a natural way, Kalzana must do you good, and cannot possibly be harmful.

Before Baby comes

to remember that she must supply all the calcium needed to form her baby's

bones and tissues. Kalzana gives all the extra calcium needed, and cor-

rects any shortage in the mother's

rects any shortage in the mother diet. It protects the mother against loss of hair, decay of the teeth, vomiting, general weakness and debility,

whilst it also ensures her

baby against any pre-

disposition to rickets.

Preserve your own health, and safe-

guard your baby's by taking Kalzana in good time.

(Use it during the last six months of

Well-Defined Veins.
Well-defined veins have already been proved to below 500 feet depth by drilling at Kimingini to date, while further drilling to date, while further date is in hand.

At Kimingini Mine itself it is ealeulated that to a depth of some calculated that to a depth of some are 120,000 long tous of one averaging 12,0 dwt. sold not long ton.

Profit per Ton. It is estimated that mining and milling costs at a maximum will not exceed 20s. per ton; there-low, with gold at 120s. per ounce. the above ore would give a profit of over 45s, per ton of ore treated. capacity is on the field and will shortly be put into commission to

The Directors of the Kimingini Gold Mining Company Limited

Remember that your teeth are living parts of your body. The

food they require is Kalzana, the calcium food. If your teeth get too little calcium, they become weak and liable to decay. Such teeth are a constant cause of pain and trouble and never look healthy. Start taking Kalzana and notice how quickly your teeth become atrong and white. By taking

Kalrana, pain and trouble are prevented, decay is as rested and your teeth permanently

Lack of Calcium in the body causes many different com-plaints. Regain your health by taking

VALUE OF AGRICULTURAL SHOWS

MOUNT HOPE BULL INDEX

Many farmers will have read articles in the Agricultural Press quoting the severe criticisms which Mr. R. S. Boutflour, of the Royal Agricultural College, Cirencester, England, has hurled at the English breeders of dairy cattle.

is generally admitted that there is a great deal of sound sense in Mr. Boutflows arguments, but at the same time it has been maintained that he has spoilt his case. by exaggeration and over-emphasis.

The article which is produced herewith was contributed by Mr. Boutflour to "Hoard's Dairyman," which is published at Fort Atkinson, Wisconsin, U.S.A. prehensive statement of Mr. Boutflour's views it should be of interest to breeders of dairy cattle in Kenya. As to whether it will assist the sale of British pedigree stock to America is another matter.

Arrival of Books

A large consignment of books, maps, diagrams, and pamphlets has arrived, covering every phase of the British Israel discoveries.

The books are for sale at the pub-lishers' prices, and a mere glimpse of the shelves should show the strength of the movement and the authority for our beliefs. The extraordinary growth of British-Israel literature. ael literature, and the wid range of subjects involved will be imagine our message is merely religious speculation. It is, c course, nothing of that sort, but i proving to be an intensely practi-cal aspect of truth, of utmost value to the community and of great steadying power upon individuals at this time of crisis.
