## RAIL RATES ADJUSTED TO MEET OPPOSITION Drive for recovery of £800,000 lost URGENT NECESSITY

ADJUSTMENTS to the railway tariff in East Africa to counter the growing encroachment of road transport on traffic in the vulnerable higher rating levels are becoming an inescapable necessity, the acting General Manager of the East African Railways and Harbours, Mr. W. Urquhart, states in the Administration's draft estimates for 1959 and 1958 (revised).

The road freight charges to be introduced as a result of the tariff adjustments are expected to be a net saving of £800,000 to the railway. The total loss to the railway from the 1958-59 tariff adjustments is estimated to be £1,600,000.

The tariff adjustments are expected to be a net saving of £800,000 to the railway. The total loss to the railway from the 1958-59 tariff adjustments is estimated to be £1,600,000.

## EOKA SUSPENDS VIOLENCE

Opportunity for U.N. to find solution in peace

COL. DRIVAS, leader of the EOKA movement, issued a statement on Saturday calling off the "active guerrillas" of terrorism to give an opportunity to the United Nations to solve the Cyprus question in a fair and equitable manner. A British resolution tabled for debate by the Political Committee today urges the General Assembly to back British efforts to reach a settlement of the problem.

The EOKA leader stated that the "active guerrillas" would be suspended from the 1st of December. He added that the "passive guerrillas" would continue to operate in the mountains of the island.

### Licensing enforcement problem

Mr. Pugh has pointed out that there is no evidence of any substantial improvement in trade in East Africa and in the volume of railway traffic. He issued a warning that the Administration cannot continue to meet obligations to carry raw materials and primary products at low and non-incentive rates if its compensating revenue from the more highly rated commodities is not reduced by road competition.

Explaining that the problem could be met either by the freight charge revision already decided on or by the enforcement of road laws, he stated that the latter course would be difficult to achieve in East Africa. Predictions made last year that the substantial increase in railway and harbour traffic would be possible to achieve are not being met.

MEMORIES are short, are they not?

As every Christmas came round during the years of active Emergency, appeals were launched to provide Welfare for the Troops

What is being done this year with only a month to go before Christmas? There are no more appeals in Kenya as yet

There are still between 3,000 and 5,000. Many have come back from Aden or Jordan. Others are relatively new. In Britain, about half will be National Service youngsters for the next year or two, of them are far from home

This is not only a question of Christmas either. The manifold problems of providing entertainment and healthy interests for their off-duty hours and recreations are tackled eagerly in the United Kingdom

STATUS OF THE URBAN AFRICAN

Rapid growth in political awareness of labourer

THE study of labour problems in Mombasa was concentrated in the port over a period of two years. I was able to witness and to study the effects of several campaigns and strikes during this period.

A preliminary study of the port was written and circulated in December 1956. It was concerned with matters in the port and many of the recommendations were implemented by the Port Employers' Association.

Twenty years ago H.R. Willan in his report recommended that the developing companies be established if they did not agree to a control policy when dealing with labour matters. This suggestion was not put into effect.

The developing companies that have been established have not put into effect the suggestion that they should be established if they did not agree to a control policy when dealing with labour matters.

# 12 years' help by London Centre in war on locusts

MODERN techniques of locust control have come a long way from the methods of the early 1940s when the insects were driven into trenches and destroyed by burning petrol or else scared off by beating drums and cymbals. Today locust control is an international scientific operation.

Locusts in the Desert Locust Control Organisation have been coordinated through a substantial number of the member countries of the United Nations.

The Desert Locust Control Organisation has been set up to coordinate the work of the member countries in the control of locusts. It has been working for 12 years to help the member countries in their war on locusts.

THE ONLY DRYSHAVER THAT SUITS EVERY TYPE OF SKIN AND HAIR

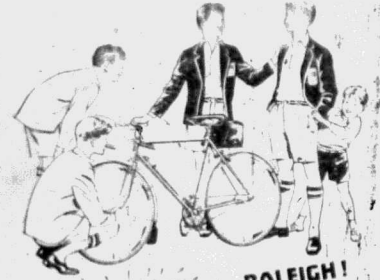

Dryshaving is much better and much more comfortable than any other method of shaving. The superiority of the Philips Dry Shaver is based on 2 likely allied advantages.  
1. The unique rotary action system of the Philips Shave.  
2. The undisputed fact that the Philips Shave is the only type of electric dryshaver that suits every type of skin from rather sensitive to very tough and coarse. It is a dry shaver in what it does: it shaves close.

#### TAKE A DECISION

By a good decision you will be able to "know" what you want before you buy it. This is the philosophy of the Philips Dry Shaver.

# All with homes in Colony 'belong here naturally'

(Continued from Page 1)

All Kenyas of whom I have known only homes in Kenya should be treated in the same way in connection with the immigration provisions. At the moment this principle was referred to the Attorney-General by One Uganda member of the House of Representatives who had earlier defined the word "Kenyans" as every person who is a member of an African tribe indigenous to Kenya.

Dictionary definition  
The operations word dictionary defines Kenya as a country in East Africa. It is bounded on the north by Sudan, to the east by Uganda, to the south by the Indian Ocean, and to the west by the British Somaliland Protectorate.

Three heads  
There were three heads of state in Kenya. The first was the British monarch, the second was the Governor, and the third was the African member of the Legislative Council who was elected by the African population.

Indigenous position  
The indigenous population of Kenya was the African population. They were the people who had lived in Kenya for centuries.

## Changing conditions in Kenya increase problems of child welfare

CHILD welfare problems in Kenya are growing rapidly as a result of the increased number of irresponsible European parents, the increased independence of African children and the brevity of parental and tribal control among Africans. Mr. H. Shide told a meeting at Thika on Monday.

Mr. Shide outlined the various objectives of the Child Welfare Society of Kenya, of which he is president. Changing conditions were causing a great increase in the need of care and attention, and the probability the Society were only beginning.

**New element**  
Twenty years ago it was difficult for a society such as ours to find enough to do but today we have quite a lot of irresponsible European parents, people who do not know of any sort of care and we do not see people like that here very many days.

Mr. Shide said there was also a change in the African community where the discipline of parents over their children was very much less than it has been. And in the African community we have the harmful result of the loss of education and civilization, a break down in parental and tribal control.

But the biggest problem of all in the growing number of children of mixed blood because there is no recognition of what we can do for help in dealing with them.

**Appeal for help**  
The fact that we are the Nairobi branch dealt with the various inquiries and also the problem in Mombasa and other parts of Kenya.

Some stressed that the purpose of the society was to help the children to get the best possible start in life. The appeal is the public for help in the form of money, gifts, and support of all treatment.

## UGANDA POLICE TALKS ON BORDER SECURITY

Sudan coup has 'no effect so far'

### KHALIL RELEASED

UGANDA Government spokesmen said in Entebbe yesterday that police chiefs were conferring at Kitgum, near the Sudanese border, on measures to strengthen security and that the Provincial Commissioner, Northern Province, Mr. Powell-Cotton, had gone to Moyo, a town on the border.

It was also understood that top-level talks were being held in Entebbe on the situation arising from the military coup d'etat in the Sudan.

#### No troop movements

The Government spokesman said that reports in the Sudan had led to no effect on Uganda and that the situation in the border areas was normal. Arrangements were being made to deal with any abnormal situation of emergency by means of a mobile force of Ugandan troops.

Mr. Powell-Cotton had been in Moyo since the military coup had been announced in Khartoum that Gen. Abboud (the Sudan Army Chief) had seized power on Monday. He had been in the border areas of the Sudan since then. Mr. Khalil and other members of his Cabinet had been in the border areas since then.

Soviet threats blow Bonn hopes of German reunity

By MICHAEL DAVISON

RUSSIAS latest call for the ending of the four-power occupation of Berlin and Dr Adenauer's warning of counter-measures which can be taken in the event of a non-Soviet blockade of West Berlin bring to the fore once again the prospect of a divided Germany and a divided Europe. The Press comment that which has been in the forefront of the news since the end of the Second World War is that the Soviet Union has a plan to occupy West Berlin and to force the West to accept a divided Germany. The Soviet Union has a plan to occupy West Berlin and to force the West to accept a divided Germany. ## ALL QUIET IN SUDAN AFTER ARMY COUP

### 'Friends with Nasser' aim of regime POLITICS BANNED

THE Commander-in-Chief of the Sudanese Army, Gen Ibrahim Abboud seized power in the Sudan early yesterday. In a communique issued afterwards, Gen. Abboud said the aim of his regime would be good relations with all Governments, particularly the United Arab Republic.

A report received at the Foreign Office yesterday from the British Embassy said all was quiet in the city at 8 a.m., telephone communications were severed and armoured cars were on patrol in the streets. All embassies and Government offices were under armed guard. Omdurman (100 miles) was continuing normally through the country.

Several representatives of international firms using the airport said scheduled flights had not been affected by the happenings in the Sudan. At the time of the coup, no aircraft had been down in the flight deck. Passengers and crews of two BOAC aircraft which arrived in Nairobi last night for a Thursday morning said they had noticed nothing unusual.

# SPIN THE KEY TO TEST SERIES

## Decision unlikely in match at Sydney

By JOHNNY WARDE

SPINNING the key to a test series is a task that is not easily accomplished. The test series between the MCC and the Australians is a good example of this. The series is a long one, and the decision is unlikely to be reached until the final match at Sydney.

### SCOREBOARD

NEW SOUTH WALES

The Whites are the best of the test series. They beat Blues by six goals, a penalty goal and a try (16 points) to a goal and a try (8 points) in the Rugby Union trial match at R.S.U. Headquarters, Ngong Road. Whites and three-quarters in the second quarter. Whites were 10-0 ahead at the half. The second half was equally one-sided. Whites' halfbacks opened the scoring with a penalty for offence in the first five minutes. From a three-quarter maul after Blues had been largely out at the centre line, Whites scored twice. Blues kicked a reverse pass to Duggan, who attempted for Robertson to convert. There was no time for the try and a dead ball break sent centre-half Ross over the top line.

## UGANDA'S CREDIT NAME POOR IN LONDON

**"Standard" Complaint**

UGANDA has the unfortunate reputation of being a "poor" country in the eyes of London commodity buyers. This is the view of the British Government's Export Credits Guarantee Department of being one of the few countries in the world where the majority of buyers costs the exporters more in clearing than it receives for the goods.

Mr. F. H. Gidley, a member of the department, said rather ruefully when he visited the department this week that about once a month he finds that the country's credit is "standard" compared with the other countries.

He said that the department is not in a position to do much to help the country, but that it is doing its best to get the credit up to the level of the other countries.

## ADENAUER WARNS OF REPRISALS ON BERLIN

### Definite proposals soon from Russia

### CITY LAYS IN FOOT

West Berlin is cut off from West Germany counter-measures can be taken, the German Federal Chancellor, Dr. Adenauer, said in Bonn. He was answering the call by the Soviet Prime Minister, Mr. Khrushchev, for the end of Four-Power occupation of the city.

Dr. Adenauer said Mr. Khrushchev's statement resulted in a dangerous situation, not only for West Berlin but for the whole world. But the Federal Republic did not want to enter into the 'calling' about Berlin and the German Note due to be handed over in Moscow today would not be in a tone.

### Document being prepared

...to the Kremlin, Mr. Khrushchev said Russia is making 'definite proposals' on the status of the city. A document was being prepared. The East German Government in Moscow, he said, is quoted as saying that Mr. Khrushchev's proposals would bring only advantage to the West Berlin situation. It is a question of life and death.

...to the American Government. The American Government is not taking any action. The American Government is not taking any action. The American Government is not taking any action.

# CONTROL OF CHILDREN WHO LEAVE HOME

## Police asks for action to check vagrancy

Police authorities and parents must be made to realize their responsibilities in the control of vagrant African children, Mr. M. S. G. (Specialist Elected Member) said at the Legislative Council yesterday.

The Government's policy of control and care of vagrant children and other children in the streets, a committee created by the Government to provide a better environment for the children, is being reviewed by the Government. The committee was set up in 1957 and has since then been working on the problem. It has held several public hearings and has received many suggestions from the public. The committee is expected to report to the Government in the next few months.

### Working mothers

The Government is considering the possibility of providing day care centres for the children of working mothers. This is one of the suggestions made by the committee. It is believed that such centres would help to reduce the number of children in the streets and provide a better environment for them.

### Broadcast discussion on prostitution

Prostitution in Nairobi will be one of the main subjects discussed in an experimental 11-minute programme on the African Broadcasting Service at 8.15 a.m. on Sunday. Mrs. E. G. Hughes, Member for Upper Gushu, will present the programme. It is expected that the programme will be well received by the public and will help to raise awareness of the problem of prostitution in Nairobi.

The programme will be presented by Mrs. E. G. Hughes, Member for Upper Gushu, who will discuss the various aspects of prostitution in Nairobi. She will also discuss the measures being taken by the Government to control prostitution and the role of the public in this regard.

# 6,000 TB cases in Nairobi and district

## MORE PEOPLE TREATED

LAST year there were 6,124 notified cases of tuberculosis among Africans in Nairobi and surrounding districts compared with 5,582 in 1956. H. G. D. Muti, Government doctor and a Nairobi resident, said at the 11th anniversary meeting of the Council of the East African Tuberculosis League on Tuesday.

### REASONS FOR DELINQUENCY

The reasons for delinquency among children in Nairobi are many, said Mr. Muti. He pointed out that many children are born into poor families and are therefore unable to attend school. This leads to a lack of education and skills, which in turn leads to delinquency. He also pointed out that many children are abandoned by their parents and are therefore left to fend for themselves in the streets.

# Free Trade Area prospects brighter

FEARS of a breakdown in the Paris talks on a European Free Trade Area were yesterday reported largely dispelled by a new mood of compromise.

The most likely outcome of the talks is a Free Trade Area which will cover 10 European countries. The talks have been held in Paris and have been attended by representatives of the United Kingdom, France, Germany, Italy, the Netherlands, Belgium, Luxembourg, Denmark, and Sweden.

The talks have been held in a friendly atmosphere and have led to a number of compromises. The most important of these is the decision to include the United Kingdom in the Free Trade Area.

The talks have also led to a decision to include the European continent in the Free Trade Area. This is a significant development as it would mean that the Free Trade Area would cover the entire European continent.
