Macleod formula for advisers in an end of London talks

CONFERENCE HELD TO RESOLVE Africans in their seats next Monday

HOPES that the Kenya constitutional conference will resume on Monday with the African Elected Members present in London last night as the result of negotiations conducted by the Colonial Secretary, Mr. Macleod, with the session, which was cancelled.

The solution proposed by Mr. Macleod provided for the attendance of all sessions of the three 'special advisers'—Comdr. A. B. Goord of the United Party, Mr. A. T. Cullick of the African Elected Members.

Pressure exerted

"I hope on this new basis that there will be a full attendance at the conference on Monday," Mr. Macleod had been given a 15-minute slot in which to make his observations by both sides," his statement said.

WOMEN GIVEN CHANCE BY COURT: APPEAL UPHOLD

BRIDGEVIEW, Md., Sept. 16 (AP)—An appeals court today gave 26 women who had been convicted of kidnapping their children a chance to appeal their convictions. The court ruled that the women had not been given a fair trial because they were not allowed to see their children or to have their own attorneys. The court's decision is a landmark case for women's rights in child custody disputes.

Uganda union gives notice of strike

OFFICIALS PRESS FOR SECRETARY'S RESIGNATION

Praise for forces in Long 'Jump'

LOST THREAT LIKELY TO BE REPEATED

RAILWAY headquarters in Nairobi has received from the Kenyan Railway Union a 21 day notice of strike to be held throughout the Colony.

The notice was received by the railways on January 18 and was signed by the general secretary, Mr. J. B. A. Changa. Two factors led to the strike, the first being the fact that a strike had to be called by the union.

One of the reasons is the notice in law, so that the railways can prepare their services—but once the notice has been issued this does not mean that the union cannot change plans.

ON OWN INITIATIVE

The other is the possibility that Mr. Changa, who issued the notice, will go against the general secretary of the union when the 21 days' notice expires.

The reason for this was given by members of the union's executive council in the East African Standard yesterday.

They alleged that Mr. Changa had taken the decision to strike on his own initiative, without the approval of the 12 other members of the executive, or of the union president, Mr. H. P. Odul.

They said that if there was a strike, it would be backed by other union officials, and not just a stoppage of the train. The letter giving notice of the strike was sent to the railway officials and unionists.

As a result of the branch's recommendation to the union, the meeting will be held on January 21 at which Mr. Changa will be required to make his case if he should not resign.

PRAISE, policemen and R.A.P. officers who took part in the "Long Jump" were praised by the O.A.C., East Africa Command, Maj. Gen. N. P. Il Durrani, who directed the exercise, when he flew to Nairobi on Thursday to see the King's Regt in action against "terrorists" of the I.B.A.R.

The general said the troops had done extremely well and was grateful to the officers and men of the R.A.P. for the cooperation they had given, not only in flying troops but in helping the "Long Jump" to succeed in the difficult terrain in the area of the R.A.P. at the Nairobi landing strip.

At the Nairobi landing strip, Commander J. A. Henty told the King's Regt. Officers and men who had been in the area of the R.A.P. at the Nairobi landing strip.

Maj. Miers said that all the men who had taken part in the "Long Jump" had a special word of praise for the way they had done. Maj. Miers said that all the men who had taken part in the "Long Jump" had a special word of praise for the way they had done.

Jetliners over Africa pose new problems

A CONFERENCE aimed at making flying safer over Africa and the Indian Ocean region in Rome. It will be the first international meeting about air transport in the area since jetliners began using it regularly. It is hoped to bring about modernisation of facilities, which services and rules for air travel over the region, which reaches from Australasia to North Africa.

The conference is being convened by the International Civil Aviation Organisation (ICAO), which was set up in 1947 to coordinate and unify the policies, procedures and techniques of international aviation. It will also be the first international meeting of its kind since the outbreak of the second world war.

HAMLET'S DILEMMA REPEATED IN KENYA

ALTHOUGH in ex-living views, I am presenting the following possibly well-known fact: I feel constrained to state them as they are, and I feel that they will be read partially by a person who is not a Hamlet. I would like to see to it that the horns of Hamlet's dilemma are not too comfortable to hold.

The problem, therefore, for me is to work out a way of presenting these views which will be read by a person who is not a Hamlet. I would like to see to it that the horns of Hamlet's dilemma are not too comfortable to hold.

Token absence by United Party after full attendance at London talks LEGATES AWAY Speech described as constructive 2 killed in rioting Tension mounting in New Algerian trouble spot All troops withdrawn from riot areas Rescuers drilling to miners Westerners talks open People warned

Mr. Macloed's keynote speech, delayed almost a week because of the absence of all groups, when the Kenya constitutional conference opened in London yesterday, with full membership for the first time.

The four United Party Members attended the morning session, when Group Capt. Briggs formally admitting Koingo to the premises, but to the astonishment, as a special adviser to the African group.

Contrasts in dress

Led by Mr. Ngala and Mr. Mbiya, the 14 African Elected Members arrived early accompanied by Koingo who they took their seats in the Lanchester House where they were in coloured robes. Some were in traditional dress, while Mr. Ngala, Mr. Mbiya and Mr. Oginga were in Western suits.

At a press conference the African Members reiterated their intention of submitting to the Government a Bill of Rights for the minorities. The Bill was presented at the two sittings, with the presence of Lord Fraser, Minister of State for Colonial Affairs.

Mr. Macloed was absent from the proceedings as he was away on a tour of the African continent. Group Capt. Briggs acted as his proxy.

Mr. Mbiya's speech was described as a constructive and positive contribution to the proceedings. He stressed the need for a Bill of Rights which would guarantee the rights of all minorities.

Fomenting hatred

Group Capt. Briggs told the conference that he was 'disappointed' to find that the atmosphere in Kenya was 'not one of understanding and brotherly love but of mutual suspicion and hatred'. He urged the Government to take steps to remove these feelings.

Mr. Bevan has poor night

Mr. Anthony Bevan, Deputy Leader of the Labour Party, had a poor night in hospital and did not speak at the conference. He was admitted to hospital last night and underwent a major abdominal operation on December 23.

Coined justice

China plans to introduce legislation to improve the position of its minorities. Premier Zhou Enlai said that the Government would take steps to ensure that all minorities enjoyed equal rights and opportunities.

Rejected idea

The idea of a 'Commonwealth of Africa' was rejected at the conference. The African Members preferred a more realistic approach to the constitutional process, focusing on the needs of the African people.

Cold reception for Premier

Mr. Mbiya's visit to the United States was met with a 'cold reception' by the African community. He was accused of being a 'sell-out' who had betrayed the interests of the African people.

Police clashed

Police clashed with a group of African students in Nairobi. The students were protesting against the Government's policies on education and employment. The police used force to disperse the group.

TENSION MOUNTING IN NEW ALGERIAN TROUBLE SPOT

Gen. Messali, whose dismissal as Commander in Chief was widely expected, has just been named as the anti-Government spokesman for Algeria and Oran.

ANTI-GOVERNMENT demonstrations in Algeria, in which at least 21 people have been killed yesterday spread to the West Algerian city of Oran where last night the situation was reported to be tense.

Strong forces of riot police sealed off an estimated 200 square metres of the main square and setting up barbed wire barriers across the main road leading into the square.

Algeria 250 miles along the coast from Oran. There were no reports of any new flare-ups after the announcement that a state of siege had been declared. But heavily armed rioters were strengthening the barriers set up in the city while awaiting the next move to develop from the capital.

The 31-year-old general, who is a nephew of the retired and symbolic of the military and political establishment, was dismissed by the President, who was widely expected to be a critic of the French Government. Radio report.

The rioters are being held in a central prison camp. The Government has announced that it will perform three or four days' work in the mountains. The rioters were called out on Saturday night to quell a riot in Oran. The rioters were dispersed by riot police.

Rescuers drilling to miners. Rescuers yesterday started sinking a 122-foot diameter shaft in an attempt to reach 440 miners entombed since last Thursday by a landslide at a colliery near Coaldale, Orange Free State.

Westerners talks open. An uninvited number of Westerners has been invited to take part in the talks between the Government and the ANC. The Government has announced that it will open the talks to Westerners.

People warned. The Acting Governor new of the Transvaal has warned that the Government will take stern action against any further acts of violence. He has urged the people to remain calm and to respect the law.

Tunisia calls on French to quit base

President Bourguiba for Tunisia last night called for the evacuation of the French base at Bizerta by February 5.

On that date 'we shall put into practice measures for the evacuation of the last French soldier from Tunisia'.

He called delegates to the conference in Algiers. The President called on the French to evacuate their base at Bizerta by February 5. He said that Tunisia was ready to accept the terms of the Evian Accords.

Rescuers drilling to miners. Rescuers yesterday started sinking a 122-foot diameter shaft in an attempt to reach 440 miners entombed since last Thursday by a landslide at a colliery near Coaldale, Orange Free State.

Westerners talks open. An uninvited number of Westerners has been invited to take part in the talks between the Government and the ANC. The Government has announced that it will open the talks to Westerners.

People warned. The Acting Governor new of the Transvaal has warned that the Government will take stern action against any further acts of violence. He has urged the people to remain calm and to respect the law.

Soviet greetings. Mr. Khrushchev congratulated the African peoples on their struggle for independence. He expressed his admiration for their courage and determination.

Rescuees. Ten cave explorers rescued from a cave in the Alps. The rescue operation was a major success, and the explorers were all safely brought back to the surface.

WALKOUT. The African Members of the United Party walked out of a meeting in London. They were protesting against the Government's policies on the constitution.

Brave thieves. The thieves broke into the home of a prominent politician in London. They stole a large amount of cash and other valuables. The police are searching for the thieves.

Investigation. The investigation of the recent explosion in Nairobi is continuing. The police are working to identify the cause of the explosion and the people responsible.

Emphasis on texture in choosing fabrics

When choosing the fabric of a garment—mind quality and price. This year, however, there is more emphasis on texture—as women become more and more fabric-minded.

Women have had three thoughts in mind when choosing the fabric of a garment—mind quality and price.

In basic English, this all new coat, suit or dress, the pattern in the material will be the most important as the garment is made.

Minister 'very satisfied' with talks in London

FUNDS FOR POWER PROJECT Development assurance to Tanganyika

"Standard" Correspondent. Dar es Salaam. A scheme to develop a £5,500,000 hydro-electric Salama and the Central railway line with cheap power have moved a step forward.

The scheme, which is expected to provide large-scale employment, entails the construction of a hydro-electric station at Hale, four miles up stream from the Tanganyika Electric Supply Co. at Pangani Falls and 166 miles from Dar es Salaam.

Tanganyika's Finance Minister, Sir Ernest Vasey, said in London yesterday that he was "very satisfied" with the financial talks on the subject. He added "my mind there can be little doubt about going forward to the near future."

Planning completed... The general manager of the Electricity Supply Co. Mr. D. J. Stringer, said the proposed power station and transmission line is being planned in connection with the dam and intake works, which will be completed in 1966.

Detailed planning has been completed by the company. Investigations were started in 1952 and completed through lack of finance. The project includes the construction of a dam and intake works, a power station having a capacity of a rock cavern about 290ft in diameter and two underground intake and discharge tunnels.

Associated with the power station is the construction of a major trunk line from Hale to Dar es Salaam with three up the Salama with a capacity of 500,000 kw. The Pangani River, which enters the sea about 200 miles north of Dar es Salaam, would provide the main source of the development of electric power.

Mr. Vasey said in London that he had discussed the project with the Minister for Colonial Affairs, Lord Patten. He added that he had discussed the project with the Minister for Colonial Affairs, Lord Patten.

Wrecked ship's officers 'slovenly'

A COURT of inquiry into the loss of the British vessel Forrebank (5133 tons) which caught fire near Durban in November 1958, said her engine room was "marvelled" in a slovenly fashion.

The court's findings said "evidence reveals a number of officers from the high standards which ought to be maintained by the Merchant Navy."

But the court was satisfied that that any of those findings amounted to a wrongful act or to the vessel's loss.

Out of control
 They found the loss was due to a "wild" fire in the engine room during a voyage from Cape Town to Durban. The ship they said, was "justifiably" condemned.

The investigation was conducted last July by the Crown Commissioner, Mr. J. Roland Adams, C.C. and two assessors. They say that from the evidence they gathered it was beyond the control of the crew.

The assessors, who signed the court's report, subsequently went on to say that the crew was "slovenly" in their maintenance of the engine room.

Three battles staged by feud families
WOMEN friends and relatives were upset when they heard that the families of two families who appeared at the trial were "slovenly" in their maintenance of the engine room.

After a 15-day trial, 11 men and a woman were found guilty in a case which the prosecution said involved "slovenly" maintenance and "slovenly" in their maintenance of the engine room.

Sales drive needed for farm produce

A MORE progressive marketing policy to match Kenya's increasing agricultural production with the potential needs of local and overseas buyers is called for in this month's issue of Field and Farm.

The leading articles point out that although markets, including Africa, the Persian Gulf and Somalia, have been mentioned as the agricultural policy in some extent, there has not been any urgency or co-ordination of effort to provide a solution to the overall marketing problem.

The Kenya farmer who produces more than half of his own food and feeds himself, but who still has to market at more than a dozen prices, the article asks.

Cautious optimism
 Other articles deal with a wide range of farming activities, from weather problems connected with financing, insurance, credit and marketing, to various agricultural experiments with different growing grasses and keeping a long-term perspective on the future of the industry.

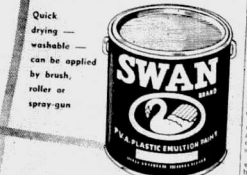

Most of the articles are illustrated with photographs and contain information of interest not only to farmers but also to the general reader.

The real world's problems and successes are reviewed, and a cautious optimism is expressed with regard to future prospects on an all-round basis.

A FRIENDLY MEETING

POLITICAL differences seem temporarily to have dissolved in a smile of handshake — and a cup of Guinness — as Mr. M. Blundell, leader of The New Kenya by the Church Missionary Society at its London headquarters, in the top picture, three of the African Lancaster House on Monday to attend the Kenyan conference for the first time. Chancellor explains reasons for

MARKET QUIET AFTER SPEECH

Bank rate rises CAUTION NEEDED

The reasons for last week's increase in the British bank rate from 4 to 5 per cent have been given by the Chancellor of the Exchequer, Mr. David Heathcoat-Amory, in London.

Consolidated (C.A.), Ltd. RATHER quiet conditions prevailed on the London stock exchange yesterday with the Chancellor's speech, stressing the need for modernisation, having predominant influence.

Some of the leading industrial shares under the influence of the sharp rise in Wall Street had closed shares had recovered to some extent due to a steady report from the Treasury.

Quotations were as follows:

He said an uncontrolled boom with rising prices would be very detrimental to Britain's prospects, which are otherwise soundly based and encouraging. The Chancellor, who was speaking at a National Federation of Manufacturers' meeting, said the Government's policy was to bring about a steady and sustained growth of the economy and opportunity and this is the description it gives of a steady growth.

Stimulus worked

"A year ago there was little sign of recovery in the economy available both in manufacturing and in the services. It was then that the Government introduced a series of measures to stimulate the economy. This has worked and a very noticeable improvement in the economy has since taken place with a corresponding increase in the rate of growth and this is not without considerable proof of stability."

Very detrimental

"Over the past 18 months or so we have been enjoying the benefits of expansion with price stability, but it is clear that inflation is now a serious problem and that calls for a change in policy. It is very detrimental to our prospects if inflation continues to rise and we must take steps to bring it under control."

Wrecked ship's officers 'slovenly'

A COURT of inquiry into the loss of the British vessel, *Ferresbach* (4,153 tons), which caught fire near Durban in November, 1958, said her engine room was managed in a slovenly fashion.

The court's findings said evidence showed a number of errors on the part of certain officers from the *Ferresbach*, which ought to be maintained in the light of those errors.

The court was unable to pinpoint a single cause for the disaster, but it pointed out that the vessel's engine room was managed in a slovenly fashion.

Out of control

They found the loss was due to a "disastrous" fire in the engine room during a voyage ship they were "slovenly" managed.

The investigation was conducted last July by the wrecked ship's officers and the Fire Commissioner, Mr. J. Baines.

They said that the engine room was "out of control" and that the fire was beyond the control of the crew.

Sales drive needed for farm produce

A MORE progressive marketing policy to agricultural production with the potential needs of local and overseas buyers is called for in this month's issue of *Field and Farm*.

The leading article points out that although several markets, including the Far East, Gulf and Somalia have been exploited by the agricultural industry to some extent, there has not been any urgency or co-ordination of effort to provide a solution to the overall marketing problem.

The Kenya farmer, who produces a market at a loss and must contend that he will make a mark of more than 100 per cent, the article adds.

Cautious optimism

Other articles deal with a wide range of farming activities from weather problems connected with marketing seasons, to different soil-suffering in basin plains, to experiments with different growing seasons and keeping a log of the crop.

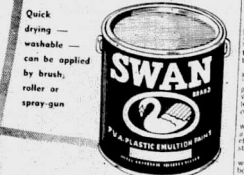

Most of the articles are illustrative and provide some indication of interest not only to farmers but also to the general reader.

The past year's production and incomes are reviewed, and a cautious optimism is expressed with regard to future prospects in all fields.

A FRIENDLY MEETING

POLITICAL differences seem temporarily to have smoothed in a smile, a handshake—and a cup of tea—on Mr. M. M. Mwangi, leader of the New Kenya Group, and Mr. T. J. Mbatia member of a reception given by the Church Missionary Society at its London headquarters. In the top picture, three of the African Legislative Council members, with their two advisers, arrive at conference for the first time. They are, from left to right, Mr. Mbatia, Mr. P. Koinange and Dr. J. G. Karoti.

Three battles staged by feud families

WOMEN friends and relatives were split when they heard news of the deaths of two families which appeared after what the private war.

The first battle was fought in a court of law when the prosecution said it involved chance, negligence and 'careless' driving.

The second battle was fought with weapons which included a shotgun, a rifle, a knife, a hammer and a club.

Ms. Clara Walsh, 49, a housewife, was charged with the murder of her son, who was killed last year, and two other sons to her.

The other family, Edward Douglas, 22, a teacher, was charged with the murder of his brother, who was killed last year, and two other sons to her.

SPYING CHARGE PROVED, IRAQI COURT CLAIMS

Col. Mahdavi, president of the Revolutionary Council, was found guilty of spying for Iraq with complete conviction by the Iraqi court.

Prime Minister Gen. Fawzi al-Raisi must look for further evidence in the case of a former member of the family who was charged with the murder of his brother, who was killed last year, and two other sons to her.

RHEUMATISM OVER PAIN

NOW - new scientific evidence proves amazing **Cafenol** gives fastest, most effective relief!

TIME TESTS PROVE THERE'S NOTHING FASTER THAN AMOVING **Cafenol**

How's PHOTOGRAPHIC PROOF that **CAFENOL** works instantly to bring relief from pain and discomforts. High speed camera close-up records results of the **CAFENOL** Time Test. **CAFENOL** tablet, dropped in tumbler, dissolves in seconds, gets pain-relieving ingredients into bloodstream faster, more effectively than other analgesics.

If you suffer from annoying headaches, fever, influenza, common cold discomforts, neuralgia, neuritis and muscular aches and pains, here is important news! Actual time tests prove **CAFENOL** goes to work to relieve pain almost instantly.

Now medical science explains why **CAFENOL** gives you full relief while many tablets stop half-way. Here's how **CAFENOL** works through what doctors call "Synergistic Action" to assure faster, more effective, safer relief.

RESEARCH reveals that certain ingredients, when scientifically compounded with sodium bicarbonate to multiply the effect of analgesic ingredients. This phenomenon is known as "Synergistic Action."

CAFENOL's prescription-like formula is based on the principle. Unlike pain-relieving tablets that contain only one analgesic, **CAFENOL** contains three active ingredients that work together to fight pain three ways.

CAFENOL works instantly to relieve your pain. **CAFENOL** also eases the "let-down" depressed feeling and **CAFENOL** eases nervous tension that often accompanies headaches and other aches.

SWAHILI AS THE SECOND OFFICIAL LANGUAGE

ALLOW me to support your correspondence item headed 'Should have been a Swahili'... The effects of a language and purpose of education are so acceptable...

The reason fully the Swahili in East Africa, as an official language, is not to be confined to Kenya and its surrounding parts but to be a language for all the several people in this diverse country. It is the most powerful basis to the language might try to disintegrate it. Swahili is firmly on the way to being granted the position of being a state status as the link of the Swahili language of Kenya.

...The Swahili people of Kenya Legislative Council with an eye to being granted the position of being a state status as the link of the Swahili language of Kenya. As far as I can see, that is not only desirable, it is very likely indeed to be granted the position of being a state status as the link of the Swahili language of Kenya.

Present contributions in Swahili to development in education, to the District Councils to be required to know it and then by their own address the language in Swahili.

Learning Swahili

...I fully agree with your correspondent that for African children formal education should start in Swahili, and that the first step should be to disintegrate the university in the country would make a serious effort to attract more students from one place to another would be a disaster. A good goal, and due to the general usage of the Swahili language in East Africa, it is not surprising that it is so.

Asian claims outlined
MINORITIES IN KENYA NOT GATE-CRASHERS

ASIANs were settled on the coast of East Africa and Zanzibar long before the British Government showed any interest in Kenya, the Sultan of Zanzibar, Mr. S. G. Hassan told the Kenya conference.

He said Asians were arranged to come to Kenya to build the railway and to serve in the veterinary, lands and administration departments. Many later returned to India but 20,000 stayed in East Africa and 10,000 stayed in East Africa and 10,000 stayed in East Africa.

Tentative approach

Mr. Hassan said on the views of the Asians. He said the Asians were not gate-crashers but were there for a long time.

Big investments

On the other hand, the European and American investment in Kenya has been substantial. He said that the investment has been in the form of infrastructure and services.

Eventual aim

Mr. Hassan said that the aim of the Kenyan Government is to achieve a balanced and diversified economy. He said that the Government is committed to the welfare of all its citizens.

KENYA'S WATER RESOURCES

TRUE that the study of economics does not rouse the popular imagination... In Kenya, the study of water resources is a matter of the greatest importance...

All the same, politicians can talk themselves into believing... Kenya is a country with a plentiful supply of water...

Tan favourite stocking shade in Kenya shops

By LESLEY CLAY
WHAT is it that the Kenya woman look for when they buy stockings? They prefer a serviceable stocking to a sheer, one with a seam or without, and have their eyes in Nairobi to find out exactly what kind of stockings have the largest sale.

A leading fashion store has a range of stockings from 7/6 a pair to 17/6, but the best sold by most women are those between 14/6 and 17/6. They are about five times more popular than the others.

This shop purposely keeps small stocks as they are absolutely fresh and as they are stored in Purthane bags, it is not often that they receive new stocks.

MAINLY FOR WOMEN

complaints from customers; many of whom consider that nylon in Kenya suffer if they are to be used. For everyday use, this stock is a 15 to 20 denier darker shades to be used for 20 to 25 miles. Derry Duns and Almond.

SEAMS POPULAR

It was told that seemed stockings have the best sale, though many young people prefer them without, possibly lines of creases were a "bad" thing.

FASHION AS SEEN FROM THE PULPIT

WHAT brighter thought, Britain's women wish for this year than that recently proposed in a lecture in Westminster Abbey by the Rev. Harold St. Goodwin?

Because of the general attitude he said, most women than ever can now wear the latest fashions.

At the same time, he pointed out, the new fashions could be more easily worn by a woman with a relatively small size—a point also stressed at a Paris Association of the Rev. Harold St. Goodwin's Royal Academy and the traditional summer exhibition at the London Academy.

MANY CHANGES

Modern garments has changed so much since the Second World War. Many people who were used to wearing simple, well-made clothes, are now wearing more elaborate and decorative garments.

IN FLUENT WEAR

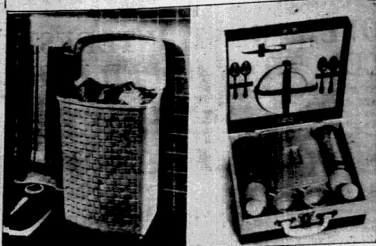

A French woman asked by a magazine if she had changed her mind about wearing the 'lollipop' style, she said: 'I have not, but I have changed my mind about wearing it. I now prefer a more practical style.

Bread and butter' styles decreed in Paris parades

PEGGY MASSIS reports from Paris on this week's fashion showings

No revolutionary silhouette or dramatic change emerged during the first day's Paris fashion showings on Monday. So far we have seen practical, wearable and basic types of 'bread and butter' fashions, with just an occasional scoop of jam, such as Grete's new dress tops that are a cross between a chausse and a poncho.

ROMANTIC TEND

Two other important trends are romanticized and 'florid' styles, which are becoming more and more popular. These are more romantic, soft and indulgent in style, with a lot of detail and ornamentation.

BOSOM DROWNED

Throughout the week other leading designers will be showing their lines. It is expected that the 'bosom drowned' trend will continue to be popular.

Aim to eliminate dual loyalties in Kenya

An earlier dispatch from Kampala, Uganda, drew further emphasis on the need to eliminate dual loyalties in Kenya. Members believe that the dual loyalties which are not to be abandoned are absolutely necessary for the production of a basic law of Kenya, which is the first move towards the introduction of a constitution which would eliminate those who are dual citizens of Kenya and apply to those of all races who are citizens of Kenya.

IMPORT CUT DUE TO LOSS OF FAITH

Imports of capital goods for the past year have fallen sharply into Kenya has shrunk 10 per cent because of a loss of faith in the Colony. This was reported by Mr. B. B. Roberts, Minister of Finance, at a press conference. He said "I would not say that the confidence and the moral support of the British Government".

Mr. Roberts said that the confidence that his party has enjoyed means that the Bill would have been passed in the past year. He said that the confidence that his party has enjoyed means that the Bill would have been passed in the past year.

ISRAEL TRADE SUPPLEMENT

East African Standard, Thursday, January 25, 1966

Exhibition will show how young State has made desert bloom

MAKING the desert bloom in Israel has proved so successful during the exhibition which opens today in the City Hall, Nairobi, to bring the diverse wares to the notice of East Africans in all spheres of the business world.

Aimed at stimulating a regular two-way flow of trade between Israel and East Africa, the exhibition will be open until February 4. Afterwards it will go on to Malawi, Mozambique and South Africa.

Stands assembled in Israel were shipped to Kenya and arranged by an Israeli team led by Mr. E. Varsimon, to give an insight into every aspect of the young State's increasing ability to produce a wide variety of agricultural and industrial goods.

Citrus fruits and vegetables, Israel's single export ear, feature prominently with grades of pears grown in the wooded segments of the Golan Heights, and apricots, peaches and plums, grown in the mountainous regions of the West Bank. Other agricultural products that have found markets in Kenya include grapes, peaches, pineapples, young potatoes, eggplants, radishes and beans of the variety known as 'Israeli'. Other products include wheat, barley, sorghum, and various types of pulses.

MAJOR SUCCESS

Vegetable-type products, which have proved such a success story that they now stand as Israel's second largest agricultural export.

Reported as one of the best for their size, taste and colour, the nuts are available in three grades, standard, superior and extra.

Exports of oranges and lemons of various sizes, ranging from 100 to 1,000 grams, are also a major success story.

Other products include wheat, barley, sorghum, and various types of pulses.

JAMES WHISTON

writes about the economic progress made by Israel in the past decade and describes some of the products that will be on view at the Trade Exhibition to be held in Nairobi today

by the Minister for Commerce and Industry, Mr. Hops-Jones.

On the non-agricultural side, it has been found that there is a growing demand for fruit and vegetables in Kenya, and it is hoped that this market can be developed.

Chewing gum has big sales in the confectionery trade and industry.

Part of the success of Israel in the field of plastics is due to the fact that the country's plastic industry is one of the most advanced in the world.

Modern plastic laboratories and workshops that have been set up since 1949 have shown that the country is able to produce a wide range of plastic products.

The main reason for the success of Israel's plastic industry is the fact that the country has a high level of technical expertise and a strong industrial base.

Particular interest among exhibitors are the special requirements of the Kenyan market, whether for coffee and sugar cane plantations or for one's own small garden.

WIDE RAUOUS

Special two and three-inch sprayer nozzles for large areas, and a wide range of chemical products, are also on view.

PROGRESS BY PLASTICS FIRMS

most important of these materials, based mostly on local products, are: polyethylene, polypropylene, polystyrene, and PVC.

Industrial and agricultural chemicals, whether as individual products or as to products gained from waste, command a generally impressive overseas market.

Paints, printing inks and dyes, acetaminophen and salicylic acid, and various other chemicals, are also on view.

Plastic, formaldehyde and Polyvinyl acetate produced in three local factories, all plants are modern, pre-1960, and this has not held up considerable progress in the manufacture of table and kitchenware, toys, suitcases, novelties and pens in brightly coloured plastic.

Service other industries, such as the rubber industry, more factories in operation, and the fact that the rubber industry employs more than 1,000 people.

The rubber industry comprises 41 enterprises employing 1,000 people.

GAULLE READY TO TAKE OVER

Special powers sought to pacify Algeria

PRESIDENT DE GAULLE yesterday prepared to take personal charge of the battle against the French insurgents in Algeria. He is due to explain his plans in a broadcast to the nation tonight, after seeking special powers from the Council of State. Government sources said there was no question of Mr. de Gaulle altering in any way his self-determination policy for Algeria.

They added that he would not lightly countenance any challenge to Government authority, and would punish with severity all acts of rebellion in Algeria, whether by Algerian terrorists or by French mercenaries.

Paris Deputy arrested

In Paris yesterday police swooped on hundreds of homes of Right-wing extremists. One Parliamentary Deputy was arrested. He had to flee to the Algerian Embassy in Paris.

Big crowds in Paris yesterday cheered Mr. de Gaulle as he went to the Council of State on special powers to deal with the Algerian emergency. He was to be broadcast to the French nation tonight on his plans to solve the crisis.

Missing leader demands Congo self-rule now

An appeal for the immediate formation of a provisional Congo Government was circulated in Brussels yesterday by Mr. Joseph Kasavubu, president of the Akafo (Alliance des Bakongo).

The appeal, which was signed by the members of the Akafo, demanded that the Congo should be granted self-government immediately. It also called for the formation of a provisional government to take over the administration of the Congo until a permanent government could be formed.

MACMILLAN REAFFIRMS CHURCHILL PLEDGE

SIR Winston Churchill's pledge that the British Government would not support the independence of the Congo was reaffirmed by Mr. Harold Macmillan yesterday.

Mr. Macmillan, speaking in the House of Commons, said that the British Government would continue to support the principle of self-determination for the Congo, but that it would not support the independence of the Congo until it had been granted by the United Nations.

CREDITABLE ENGLAND SCORE

Top weight in National for Kerstin

KERSTIN, Mr. G. H. Moore's stout-hearted mare, has won the top weight in the Grand National Steeplechase, which was held at Aintree, Liverpool, on March 26. In the weights announced for the day's biggest race, the horse's status was made known by the fact that she was to carry 12 stone 12 pounds. "National" was the only one of the 12 runners to be a weight over 12 stone. She is trained by Taster, who was winner of the Hesseby Gold Cup, which was won in 1964 and 1965. She was trained by her owner, Mr. W. W. Wainwright, who has been in the weights for 100 lbs. in the weights to date.

Batsmen injured in onslaught of short bouncers

ENGLAND entered the second day of the second Test with the creditable score of 759 for four. The pace bowlers, Wesley and Chappell, bowled to send back three England batsmen, but only 57 runs on the board. The English batting line-up between Ken Barrington (33 not out) and Ted Dexter (77).

Arethusa can repeat Gold Cup victory

SOME unexpected, but welcome, rain earlier this morning will probably have done the Nones Forest Course a little good, writes "Black Diamond". From the very good entries for today's National meeting, it will probably take advantage of conditions likely to be easier than yesterday's. The weather will be a help to the grass, but it is not expected to be as good as last reported to be. The firm with a good ground will be the one to win.

SCOREBOARD

England	Wickets	Runs
Wesley	1	10
Chappell	3	10
England	4	759

CONGOLESE NOT TO BE GIVEN FULL SELF-RULE

ALTHOUGH extensive powers would be accorded to the Congo Government and Parliament, the Belgian Government did not intend to grant "all the competences of the Congo government to the Congo government" on June 30 this year.

The Belgian Minister for the Congo, M. de Schryver, told this to the Belgio-Congolese round table conference in Brussels.

He says the semi-autonomous Congo Government will have to take over the day-to-day administration of the Congo, but that the Congo Government will not be given full powers until the Congo Government has demonstrated its ability to manage the country.

M. de Schryver also said that the Congo Government will be given the right to appoint and dismiss judges, but that the Belgian Government will continue to appoint and dismiss judges in the Congo Government's courts.

GOLD CUP TO KARAMOJA Big race a thriller

ANYONE finding fault with recent racing in Nairobi good afternoon was the lot of spectators on Saturday when the big race, the Kenya Gold Cup, provided a breath-taking finish. Only one favourite won, three runners being placed and three unplaced. But winners were, for the most part, well backed and it was not entirely surprising that the most part were reasonably good with slight exceptions.

Favourite withdrawn These the starter decided to withdraw the favourite, contrary to the opinion of the stewards, on the ground that the horse was lame in view of the distance. Affonso had been backed down on some looks and even money. He had been backed down to a good margin of 10 to 1. The horse had a good showing of 10 to 1. The horse had a good showing of 10 to 1. The horse had a good showing of 10 to 1.

Saturday's results In the 1000m race, the favourite was withdrawn. In the 1500m race, the favourite was withdrawn. In the 2000m race, the favourite was withdrawn.

Karomoja, in the middle, wins the big race in Nairobi, the Kenya Gold Cup. Here they talk on the rails, in a opening field.

Fear hits rapid Festival century

AS was the case on Friday, three of Saturday's Nairobi races for Southern-Crest Postpones, North-West Kenya and Parklands St. — and two were drawn. Highlight of the day was a hard-hit century by W. I. C. Pean of Central Province who finished in 1:18.50, making his first start in under 45 minutes.

Letters to the Editor

TEXTBOOKS UNAVAILABLE IN SWAHILI

Your correspondent writes from Kampala, and says that the Government would like to see young people in Uganda and Kenya to use them up to practical instruction.

Here we are making reference to the fact that the African to become teachers, and it is expected that the Government will be able to do this by the end of the year. This means that the Government will be able to do this by the end of the year. This means that the Government will be able to do this by the end of the year.

Questions about O.H.M.S. vehicles and letters

I FEEL that an explanation of the following points would be worth providing in order that each Government of Kenya should be clear on the subject of O.H.M.S. vehicles and letters.

1 - O.H.M.S. vehicles do not carry any revenue stamps. Does this mean that such vehicles are not subject to the Treasury and Revenue Department's rules on revenue stamps when "official revenue stamps" are used?

Franchise difficulties raised by Mr. Macleod's summing-up

ANCAS TO TEST USE OF CONSTITUTIONAL END

Kenya independence ultimae objective

INDEPENDENCE is the ultimate objective for Kenya, the Colonial Secretary, Mr. Macleod, declared during his summing-up at the close of the week's debate on the keynote speech at the constitutional conference in Lancaster House, London, yesterday.

He pleaded for the help of delegates to try to chart a course leading there and, in a sense, added that constructive building was the necessary and significantly increased, but I do not approach this in terms of majority rule by a particular race.

There were two parts to his speech — a general survey which was later released for publication, and the other specific constitutional proposals which were not disclosed. During the survey, he announced the formation of three committees.

As time went on, Africans would occupy the majority position and their voice would necessarily be dominant. "With developments in the franchise, African influence will rule by a particular race," Mr. Macleod said.

What he said in confidence laid down the principles for the Lancaster House settlement which he associated with the plan, for he did not wish to have his own name tagged to it after the manner of the Lyttelton and Commonwealth Constitutions.

Women shot outside house

THREE Lugbara women were shot and wounded while sitting outside their house at Bukura, near Lugbara, Uganda, yesterday.

The women were shot by a party of British soldiers who were patrolling the area. The women were unharmed, but the incident has caused concern in the region.

Fewer Ministers

TWO other classes of Members are believed to be intended for election or nomination on a special franchise. In a reduced Council of Ministers, Mr. Macleod has proposed a Legislative Council of 25 members, drawn from a combination of communal and individual rolls in which Africans would have a majority representation.

Hope dies for 435 miners

HOPE of finding work where 435 miners were dismissed from the Coleridge coal mine, near Johannesburg, died yesterday after a 30-day strike. The country would be divided into 12 constituencies, each returning two Members. Electors would be enfranchised on a basis which would be able to vote for only one candidate.

Women shot outside house

THREE Lugbara women were shot and wounded while sitting outside their house at Bukura, near Lugbara, Uganda, yesterday.

Eight left in cell after jailbreak

EIGHT prisoners were left in a cell after a jailbreak at the Bundocho Hospital, Kenya, yesterday.

Three committees

Mr. Macleod said he would refer to comment on Mr. Macleod's references to the franchise, because that part of his speech was confidential.

DRAMATIC END TO ALGIERS

The week-old insurrection in Algiers collapsed yesterday when one of the two leaders of the revolt, M. Ferre Lacaille, led his followers out of their stronghold under the University.

Carrying a tricolor, the column marched out of the camp and climbed into a convoy of Army lorries drawn up nearby. They were driven to the Foreign Legion barracks headquarters about 20 miles from Algiers, and the Alger Radio later announced that they would be sent to the Constantine area of Eastern Algeria.

The broadcast added that Joseph Oudia, the other leader of the insurrection, had fled and was being held by them.

In Paris yesterday afternoon a French Government communiqué stated that the Alger Radio later announced that they would be sent to the Constantine area of Eastern Algeria.

HEAVY AND early polling

HEAVY AND early polling was reported yesterday for all 200 Constituents in the election to replace the Communist Government, dissolved by the Central Government in Africa, spread voting last July.

They were chosen by 120 Members of the State Legislature by voters of the dissolved by President Banda from among all candidates.

The 120 Members of the State Legislature, who replaced the Communist Government, and the 120 Members of the State Legislature, who replaced the Communist Government, and the 120 Members of the State Legislature, who replaced the Communist Government.

VISITORS AT THE PALACE

CARRYING 50 "Queen of Bermuda" roses, George Thomas, a veteran Covent Garden porter, arrives at Buckingham Palace to deliver the blooms to the Queen. The roses, which are vermillion, were sent by the Governor and people of Bermuda to arrive as near as possible to the time when the birth of the Queen's third child was expected. On the right the royal nurse, Sister Helen Rowe, arrives in London to attend the royal birth. Sister Rowe was in attendance at the birth of the Prince of Wales and of Princess Anne.

At the height of the insurrection in Algiers, rebels tear up paving stones from the roadway to reinforce their barricades. Yesterday the rebellion was reported to be over, as the leaders led their men out from the street strongholds in response to President de Gaulle's demand for obedience.

THE VIEW FROM THE MANSION

In 18th century, the square of the little village of Tattingstone, Suffolk, had to build some cottages for his farm labourers. The only convenient way was to build the cottages on the side of the tower, and the cottages would have detracted from the wonderful view he enjoyed. So he had the cottages built to resemble a pretty country church, complete with a tower. The other side shows the cottages — with the gaping mouth of the tower held together by iron rods.

IT IS FAR BETTER TO USE neopost POSTAL FRANKING

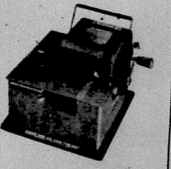

Publicity
Every outgoing letter can carry a free advertisement — easily interchangeable or a return to sender address.

Security
Stamps are negotiable. Handset impressions are not. All payments to the Post Office are made by crossed cheque.

Speed
You avoid the trouble of buying stamps and having to forecast the various values required. Franking is many times faster than sticking on stamps.

Simplicity
The machine franks, postmarks and prints a slogan or address in one operation. All types of letters and parcels sent by Neopost Franking — inland or foreign, airmail or registered.

Personal Installation Service
A personal installation service is provided with every Neopost Machine. All Post Office formalities are carried out by the Neopost representative, who also instructs your staff in the use of the machine.

NOMADIC TRIBES OF NORTHERN PROVINCE TURN TO EDUCATION

No longer interested merely in a subsistence way of life, the people of Kenya's Northern Province are looking to the future and taking an interest in modern education.

The Acting Governor of Kenya, Mr. Curtis, yesterday in Nairobi yesterday, listed this as one of the changes which were taking place in the province after an absence of 18 years.

Mr. Curtis revealed his impressions in a speech to a group of teachers and students at the Northern Province Teachers' College. He said that he had found that the people of the province were no longer interested in a subsistence way of life, but were looking to the future and taking an interest in modern education.

Ten de Limur farm murder

She said that she had seen the woman who had been murdered by her husband, and that she had seen the woman who had been murdered by her husband, and that she had seen the woman who had been murdered by her husband.

Changed attitude

New crop beings had been planted in the Northern Province. The people of the province are now interested in modern education and are looking to the future.

Seized chair

The chair of the Northern Province Teachers' College was seized by the police. The chair was found to be a stolen item and was being used as a desk in the college.

Unaware of talks

Mr. Curtis said that he was unaware of the talks between the Government and the opposition. He said that he had not been involved in the negotiations and that he was unaware of the details of the talks.

Room ransacked

A room in the Northern Province Teachers' College was ransacked by a group of students. The room contained a large amount of books and papers, which were all taken away by the students.

Israelis blow up village in Syria

East African Standard, Tuesday, February 2, 1960

Three die in Congo fighting

THREE people have been killed and 12 injured in guerrilla violence in Kasai Province, South-East Congo. The fighting broke out on Saturday in the Kasai region, which is the theatre of the operations of the Congolese army to suppress the rebel forces in Kasai. The rebels are active in Kasai Province and are active in Kasai Province and are active in Kasai Province.

SAPPERS COVERED BY FOUR-HOUR ARTILLERY DUEL

ISRAELI sappers, working under cover of a violent four-hour artillery duel, yesterday dynamited an abandoned Syrian village in what observers here said was Israel's biggest "punitive action" since the 1956 Sinai Campaign.

An Israeli Army statement said the village of Khirbat al-Tawfik had been found by the Syrian sappers as a military base in the demilitarised zone near the Sea of Galilee. Israeli forces had "purged" the area of positions established by the Syrians, from which they had interfered with normal activities.

A United Nations spokesman said the artillery duel died down about 4:15 a.m. Subsequent to a ceasefire negotiated by UN Secretary-General Dag Hammarskjöld.

The spokesman said the artillery barrage lasted less than an hour.

The Syrian Army command, based after a Cabinet meeting, made no mention of any casualties or whether or not the Syrian positions had been captured at the time of the attack.

Insurance against quakes

NAIROBI Urban Council is to insure its water and sewerage installations against damage by earthquakes.

The council approved yesterday a resolution to insure its water and sewerage installations against damage by earthquakes.

Members here said that it will cost the council £2.50 million to insure the installations which are valued at about £10 million.

Simple precaution

A Meteorological Department official said that rain in the National area occasionally does not come down but is blown up into clouds which may be strong enough to blow up a weather system.

A recent official said that the insurance was a simple precaution.

The council was simply following the lead of other councils which have already taken out a similar policy.
