Kenya And Uganda Railways And Harbours

The British Government has announced that it will sell the Kenya and Uganda railways and harbours to the Government of Kenya and Uganda respectively. The sale is expected to be completed by the end of the year. The Government of Kenya and Uganda have agreed to purchase the railways and harbours for a total of £100 million. The sale is part of a wider programme of decolonisation and self-government for Kenya and Uganda.

THIS "BRILLIANT" PRIZE GAME BEAT MASTER MIESES

(By S. BARTON-BENNETT.)

I AM glad to give an example of the play of the German in the final game of the tournament. It was a brilliant game, and it was a game in which the King was the victor of a beautiful chess game, the late Frank J. Marshall.

For some time before Marshall was the world champion, and he had a reputation for being a very strong player. He was a very strong player, and he was a very strong player.

Black's position is now worth a pawn, but it is not worth a pawn. Black's position is now worth a pawn, but it is not worth a pawn.

PINPRICKS IN THE PARADISE

OF LAKE UVIUWIUWIJIPE

A Community Of Fishermen

By MERRELL DALTON

A FAVOURITE safari from Moshi in the early 30's was Lake Uviuwiuwi for the boundary of Tanganyika. From the mountain work of his plain reach to the wooded margin passing to swamp flats beside the grass, waterway of the Loma.

The district grew rapidly out of a hot and drying fish, the shovelling of barbed, caulked, and the fishing gear to the fence into and stamped on sticks like kites that had fallen disintegrated to the ground. As soon as the drying process is completed, the fish are packed into the native wigs transport them to the nearby apparatus. The natives bring carrying their coracum.

Camp Problems

TO MAKE camp was first to choose the site and then to clear it. There was always something new and exciting about this sort of thing.

One of the first things to be done was to clear the site. This was done by the natives who were used to clearing the land for their fields. The clearing was done by the natives who were used to clearing the land for their fields.

Fish and More Fish

Two hundred were visited daily. The fish were used for many purposes. The fish were used for many purposes. The fish were used for many purposes.

Jipe, a narrow peninsula of Lake Uviuwiuwi, is today the main labour of his plain reach to the wooded margin passing to swamp flats beside the grass, waterway of the Loma.

Protect your Eyes

BEWARE TROPICAL EYE-STRAIN

To protect your eyes from sun and heat, and to prevent them from becoming sore, red and inflamed, you should use the protective benefits for the tropical eye of Optrex eye lotion, complete with special eye bath, from your local chemist.

Optrex is used and recommended by many Doctors and Opticians. It is safe even for the most sensitive eyes. You can buy Optrex eye lotion, complete with special eye bath, from your local chemist.

It is so easy to get into the habit of using Optrex as regularly as you do your toothbrush. An Optrex eye bath every day will keep your eyes in good health and will help prevent tropical eye-strain.

WEDDINGS Webster-Sargent

LAST Sunday at the Holy Family Church, Nairobi, Miss Elizabeth M. de W. and Mr. G. S. Sargent, of Lawrence Webster, only son of the late Mr. G. S. Webster, were united in marriage by Pastor Marlowe.

The bride wore a beautiful and simple white tulle gown with a broad white sash and carried a bouquet of white flowers. The groom wore a dark suit and carried a sword. The ceremony was held at 10.30 a.m. and was attended by a large number of guests.

Osborne-Davis

At the Church of the Holy Family, Nairobi, on Saturday, Miss Daisy Davis was married to Mr. G. S. Osborne, of Nairobi, by Pastor Marlowe. The bride wore a white tulle gown and carried a bouquet of white flowers. The ceremony was held at 10.30 a.m. and was attended by a large number of guests.

Carrying a bouquet of white calla lilies and wearing a fine, elegant gown, the bride had a full length train of white tulle with a long sash. Her attendants wore white tulle dresses of low-inch waist and had a bouquet of calla lilies. The bride's mother, in attractive rose pink crepe with black belt and matching accessories, received the guests at the Holy Family Hotel, where a large party was held. Mr. Osborne, of Nairobi, and Miss Davis, of Nairobi, were the bride and groom. The ceremony was held at 10.30 a.m. and was attended by a large number of guests.

The Union of South Africa produces approximately 90% of its gold and diamonds and it is with these commodities that the prosperity of the country is generally associated. These two resources, many valuable industries, although in some instances their relative importance in the economy of the Union underwent considerable change during the war years. The export of sugar, for example, declined sharply until 1942 when an upward trend developed. Gold exports almost doubled, as did the export value of wheat and spirits, while diamonds found a marked increase in comparison with the 1937 figure.

As conditions return to normal throughout the world, fresh demands will come along to show the relative importance of the industries of the Union. Full and up-to-date information, backed by an intimate knowledge of the country, is available to merchants and manufacturers interested in trade with the Union of South Africa.

'Writing On Wall' For Colonial Service?

THE precise representation of the new (United Kingdom National Health Service) on recruitment to the Colonial Medical Service was discussed by Dr. A. J. Hume, president of the Uganda branch of the British Medical Association, in his address to the Conference of the East African branches held at Kampala last week in honour of Sir Albert Cook.

Mulago's Earl's Days

After discussing the conditions in the early days of Mulago, which he said he had lived in, he said that he had seen the place in its present state and that he was glad to see that it had been built up into a town.

My NEURITIS? You'd be surprised!

If you are 40 years old, or the age of average, you must have a certain amount of neuritis... My age is 68, and I was told that I had neuritis, and I was told that I had neuritis, and I was told that I had neuritis.

The pre-mentioned business, writing his own 'recipe' for the 'week' and 'daily' all this single-headed is a truly remarkable achievement... 'That the offer now held out by the Colonial Service...'

What is Scotch Whisky?

"Scotch" doesn't mean any whisky. It means whisky distilled in Scotland in the centuries-old traditional way. It is the only way to produce the character and defining quality of Scotch whisky for which our "Scotch" is renowned everywhere. You have it or you don't have it. Unfortunately, there is a lot of it to be had nowadays, though you are likely to wait, so if at first you don't succeed in getting it try again.

Pouring in death for cattle pests—safety for the animals

Ticks, fleas and lice, even though, are now controlled with a single preparation—Gamatox Dip. The supplementary addition sets equipped and no dangers are connected with its use. With the aid of Gamatox, dipping has become much more effective—safer for the animal and the staff who are not. With Gamatox Dip, there is no danger of irritating or poisoning. An advance notice on this little booklet, is given in the middle. Each copy costs only one shilling and is available in English, French, German, Italian, Spanish, Portuguese, Dutch, Afrikaans, and other languages. Ask your dealer or Co-op, or write to the full particulars.

At Nakuru HIGHLIGHTS WERE MUSIC AND A FILM

The Nakuru Musical Society on Sunday night gave a most successful concert in aid of the Nakuru Hospital. The concert was held at the Nakuru Hotel and was attended by a large number of people. The program consisted of a variety of musical numbers, including songs, dances, and instrumental pieces. The concert was a great success and the proceeds will be used for the benefit of the hospital.

Native Workers Share The Profits

A profit-sharing experiment is being carried out by Mr. J. H. Oates, of Harlowe, Devonshire, in the Orange Free State. The experiment is designed to give the native workers a share in the profits of the farm. The workers are given a percentage of the profits of the farm, and this is intended to give them an incentive to work harder and more efficiently. The experiment is being carried out on a large scale, and it is hoped that it will be a success.

THE SECRET of HEALTH, STRENGTH & VITALITY

Amazing FOOD TONIC feeds new HEALTH & ENERGY into THIN, WEAK, RUNDOWN people

You get Run-down, Tired and Depressed only because the Run-down, weary or nerve-strained have sucked vital Mineral Salts from your system. You must replace these precious elements and re-energise your body. That is why this amazing tonic and food compound is such a boon. It gives you a perfectly balanced daily ration of the essential Mineral Salts—so vital to health and strength.

The concentrated food salt in VITAL is composed of the Finest, most costly supply gives you as much IRON as 1 lb. of BEEF, as much POTASSIUM as 2 1/2 lbs. of APPLES, as much CALCIUM as 10 lbs. of BANANAS, and as much SODIUM as 10 lbs. of SALT.

The Understanding Of Fine Paintings

THERE is probably more confused talk and misinterpretation about paintings than about any other art. Unfortunately, they give rise to visual images in the mind's eye, images that, to a lesser degree, may bring associated images into play; both are, however, finally appraised for what they are. Painting, on the other hand, deals (more or less) with recognizable objects in the world. It is to see an object for what it is.

When you look at a picture a host of impressions are sent to your eyes. Some they play and obscure. Some they play and obscure. Some they play and obscure. Some they play and obscure.

VINCENT VAN GOGH—a self-portrait, dated September 1889, now at the Museum of Modern Art, New York. The artist's face is shown in a close-up, with a somber expression. He is wearing a dark coat and a light-colored shirt.

There are many good reasons for the artist's choice of Van Gogh who has been called the "mad" painter. He was a man of great energy and a man of great energy. He was a man of great energy and a man of great energy.

The first of our artists, who are listed in the book, is the painter who is listed in the book. He is the painter who is listed in the book.

DANGER IN ENFORCED CO-OPERATION FOR AFRICANS

Chamber Committee's Communism Warning

IMPORTANT statement on Co-operative Societies, Social Services, education, roads, and other subjects are made by the subcommittee of Uganda Chamber of Commerce appointed to examine Dr. B. Woodhouse's Development Plan. These extracts from their report being continued from a previous issue.

CO-OPERATIVE SOCIETIES: These are those bodies which are formed to assist in the production of goods and services, and to distribute the proceeds of their activities among their members. They are not to be confused with the Agricultural Societies which are formed for the purpose of promoting the interests of the farming community.

WHY RISK IT?

SO LITTLE TO LOSE! SO MUCH TO GAIN! WRITE NOW FOR FULL PARTICULARS OF THE SETTLEMENT SCHEME TO H. B. HARDY & Co. INSURANCE BROKERS.

HEALTH: We consider that industrial risks have been paid on adequately by this Department.

and we regret to note that no consideration is given to the interests of the Government in the enforcement of the plan. There has also been no mention made of the very considerable work being done by commercial and industrial firms. We consider that a good deal more development could be achieved if a similar policy of co-operation with and encouragement of manufacturing industry...

Mission's Work

EDUCATION—We feel very strongly that not enough emphasis has been laid on the achievement of studies. Very much more could be done to utilize services of the Government, and also to encourage African schools. A very serious danger of the school is still concentrating too much on the study of the English language, and we are trying to force them to standardize which results in their separation from the interests of their own race, and resistance to the request of the Government for the favour of being allowed to be improved to some extent.

Too Much At Top

SOCIAL SERVICES—With these general remarks, we have no objection to the plan. We would, however, point out that the plan for the improvement of health services has been concentrated in the few districts at the top, and in the districts, with no provision for the development of health services in the other districts. It is our opinion that the plan for the improvement of health services has been concentrated in the few districts at the top, and in the districts, with no provision for the development of health services in the other districts.

LABOUR

LABOUR—We welcome the proposals for the improvement of the conditions of the labour force. It is our opinion that the plan for the improvement of the conditions of the labour force is a very good one, and we are glad to see that the Government is taking steps to improve the conditions of the labour force.

EAST AFRICA COULD HELP BRITAIN WITH DRIED FOOD

An Appeal For Increased Resources

(By LAM-OW A. J. PHILLIPS, D.E.D. M. (Gum. E.))

If we COULD make good cheap synthetic foodstuffs, many of your troubles would be over. Most people think of synthetic food in terms of "filler" which might supply energy enough, but justly taste, but those objections would soon be overcome, as it would not be difficult to supply suitable carriers. The world is terribly short of foodstuffs in many places—but not the labour nor the transport to move enough of them, apart from the capacity to pay. How much more convenient it would be if we could make good foodstuffs cheaply!

Just at this time, we have in East Africa a very rich source of protein very good eggs, and the combination of our milk and eggs should serve as the backbone of a high quality diet. But why are we not doing this? At the end of a slight investigation, it is found that the milk, cream and milk powder of the country is not being used to its full advantage. We do not have to grow our own milk.

During the war, sugar dried eggs were used in the rationing of food, and the fact that dried eggs are so valuable is not being fully appreciated. It is in this connection that I should like to draw attention to the fact that dried eggs are so valuable. It is in this connection that I should like to draw attention to the fact that dried eggs are so valuable.

These flies and, even more, are now restricted with a simple preparation—Gamatox Dip. No unpleasant odours are acquired and no dangers are associated with its use. With the aid of Gamatox, dipping has become much more profitable—results are better and the effects are real. With Gamatox Dip, there is no danger of scalding or poisoning, no adverse effect on the milk yield, no harm to the milk, and the cows can be worked immediately after dipping. Gamatox Dip is available in 150 lb. tins, with sufficient for making 400-500 gallons dip solution. Ask your trader or Co-op or write us for full particulars.

'PERMA'

'A Solution to your Breeding Troubles'

'Perma' Uterine pessaries are the answer to complications not of parturition in cows and mares. It has proved most useful in the treatment of retention of the afterbirth because it prevents bacterial activity in the uterus, and the development of uterine sepsis, such as a common cause of sterility.

'Perma' Uterine pessaries cause the discharge of the afterbirth in 24 hours. The pessaries are prepared in a special form which allows them to be inserted into the uterus without the need for surgery. They are available in 10 and 20 gram pessaries.
