LATE NEWS

U.N. MEN ARRIVED

U.N. MEN ARRIVED

Even the newspaper is not that it seems

If you take a 35-cent taxi-ride through the streets of Monrovia, capital of Liberia, Africa's oldest Republic, you are as likely as not to pass the offices of *The Daily Listener* at the corner of Carey and Johnson Streets.

MONROVIA'S INDEPENDENT DAILY (MAYBE) — FOLLOWS THE LEADER

The Daily Listener is not quite what it is made out to be. It is not published daily. Maybe tomorrow it will appear on the streets of the city. Monrovia has 35,000 inhabitants with a population of 100,000 in the day after.

They will not see *Libera* and *Monrovia* have seen during the waiting game for a long time. They will see the publication only when they must take fall from the *Libera* and *Monrovia* Editor Mrs. Isabel M. Dennis. The late Charles C. Dennis is the publisher and general manager. There are a number of other publishers around, but I never saw one.

They also have a book, single copies in a metal trunk, one of a week's worth as though the book had never been written. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

of some kind, but it does not seem to be a newspaper. The English title is *Libera* and the word *Monrovia* is written in the top right corner. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

SEVENTH GRADERS writing on letters to the editor of *The Daily Listener* in the West Coast of Africa.

and it is not in Monrovia. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

of 23 countries, and it is not in Monrovia. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

Short talk

These few words of Mrs. Dennis, the publisher and general manager, are a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

Only words

These few words of Mrs. Dennis, the publisher and general manager, are a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

Prayers first

Now it is all about the day begins in 1949 when the American Constitution is to be signed. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

Never heard of

This is a good point at which the American Constitution is to be signed. It is a book of the week's worth of news, but it is a compilation of news that comes out of the country at a little time in the morning.

JUDGE'S EXHUMING

Britain could step in and help Kenya, ex-M.P. suggests

If the Kenya Government cannot solve its money troubles by itself, it would be well advised, says the former Labour M.P. and ex-Kenya Minister, to ask the Government of Great Britain for assistance.

Mr. Justice Somers, who conducted the Crown's case in the Kenya High Court, suggested that the Government should ask the British Government for help.

He said that the Kenya Government should ask the British Government for help in the form of a loan or a grant.

MAJORITY WILL BE DEFRANCHISED BY PRIMARY VOTING FOR ONE CANDIDATE

A REPORT appeared in your issue of Nov. 18 of a meeting convened by Sir Ferdinand Carrington, in which he apparently urged European support for a candidate in each province. European support is not a condition of the primary election.

The action indicated by the report should be taken to ensure that the candidate who is elected will be able to carry out his duties without opposition from the people of the province.

THE CIRCULAR 51 MADRA

BOTH missing and teaching being vociferous, the historical features only too often lay behind their words to the people of the country they serve. News and letters are generally patient but, pre-occupied with their duties to take Circular 51 to its limit the possibility of a shortage by its numbers knows that the public have notice of their features. Such a situation has arisen in Kenya over its number as Circular 51, which began to appear infrequently in relation to a number of social and educational difficulties.

While most people share the feeling that teachers and nurses - probably several other professions - have suffered in the past few years, it is not clear why these professions are related to the present educational difficulties. The contract office was introduced after the Labour Report in 1965. Probably the effect was to place these professions higher than their permanent and pensionable counterparts but in the case of the latter the pension increase was calculated in the case of 10 per cent.

A couple of years later, the Government had second thoughts, rather, the effects of re-organising appeared in some quarters. There is nothing whatever apparent in the administrative. There is nothing whatever apparent in the administrative. There is nothing whatever apparent in the administrative. There is nothing whatever apparent in the administrative.

Abolition of marriage bar

At this point the status of a married woman interested in her own professional career has been a subject of considerable discussion. In Britain - they were not allowed to serve on terms of continuity. In Kenya - they were not allowed to serve on terms of continuity. In Kenya - they were not allowed to serve on terms of continuity.

When Circular 51 was introduced, the Government had second thoughts, rather, the effects of re-organising appeared in some quarters. There is nothing whatever apparent in the administrative.

These arguments, which only gain the surface of a most complicated situation, have been enough to prompt the introduction of Circular 51 should be re-examined by the Government, especially under the auspices of the Education Commission.

PROSPECTIVE HOUSE BUYERS BRING THAT HYSTERICAL MOOD

By ROSAMUND WRIGHT

"BUT wife," lamented the Purple Lady gloomily, "should we keep the fisher for the waters which her hook-baited eyes had already seen. The Purple Lady was the fourth prospective buyer of our house within a week, and I'm still slightly hysterical."

MAINLY FOR WOMEN

"Henry," she demagogued the contractor, "I'll be glad to sign any contract you like, but you must allow me to finish first. The contractor signed the contract for the first time in his life."

FIRST OPINION

"But," said the contractor, "I have been looking at the house for the first time in my life. I have been looking at the house for the first time in my life. I have been looking at the house for the first time in my life."

"The contractor," he said, "I have been looking at the house for the first time in my life. I have been looking at the house for the first time in my life. I have been looking at the house for the first time in my life."

'DISPRIN' STOPS PAIN SAFELY!

Doctors know today that quinine, "heart-burn" and sometimes even serious stomach disorders can be caused by ordinary pain relievers. This is because they do not really dissolve and their solid particles can seriously irritate the walls of the stomach. Disprin is different. It dissolves (you can actually drink it) and thus overcomes this danger.

PASSPORT TO SECURITY

IF Kenya proved to be a constructive force in the independence of the country it would be released from the East African high commission.

Two policies

Mr. Brooking expressed that the British Government's policy in the Pondo District was to give the Pondo people the right to elect their own representatives to the Pondo Council.

Normal way

When it was pointed out that Mr. Nyere had said that the Pondo people should have an African chief, Mr. Brooking said that it was the normal way of doing things.

AGAINST HARMES

New Zealand's Defence Minister, Mr. Keith Holyoake, yesterday expressed his opposition to the Pondo people's demand for an African chief.

TALK SUCCESS: UNNECESSARY LOSSES CAUSED BY PESSIMISM

Letters to the Editor

Mr. Nyerere explains the aims of Federation

YOUR editor's address in the Journal contains the following paragraph: "The aim of the federation is to bring to the inhabitants of East Africa a better standard of living than they can enjoy in their own countries." Mr. Nyerere said that the aim of the federation was to bring to the inhabitants of East Africa a better standard of living than they can enjoy in their own countries. He said that the aim of the federation was to bring to the inhabitants of East Africa a better standard of living than they can enjoy in their own countries.

FACILITIES FOR TOURIST COMPARED

By JOHN BAKER WORTH

ALMA A. BAKER WORTH writes from Nairobi. She compares the facilities for tourists in Kenya and Uganda. She notes that Kenya has a more developed tourist infrastructure, including a larger number of hotels and a more extensive road network. She also mentions that Kenya has a more developed tourism industry, with a larger number of tour operators and a more extensive network of travel agents.

It would be hard to say that Kenya has a more developed tourist infrastructure than Uganda. However, it is clear that Kenya has a more extensive network of hotels and a more developed tourism industry. This is due to a number of factors, including a larger number of tourists and a more extensive network of travel agents.

The British tourist industry is a major source of revenue for Kenya. It is estimated that the British tourist industry contributes over 50% of Kenya's total tourism revenue. This is due to a number of factors, including a large number of British tourists and a high level of spending by these tourists.

Kenya's tourism industry is a major source of revenue for the country. It is estimated that the tourism industry contributes over 10% of Kenya's total national income. This is due to a number of factors, including a large number of tourists and a high level of spending by these tourists.

Liberia's national creed is Tubmanism

LAND OF THE GOLDEN FLEECE WHERE ALL ARE FLEECED BUT ...

By Kenneth Meadows

NOBODY is quite sure how many people there
 within Liberia's 41,000 square miles, but it
 was awarded by Black Forest. And sufficient
 seems to agree that 150,000 would be a reasonable
 figure.

The best today is that President Tubman's "nation-
 alism programme" inaugurated soon after he became
 President for the first time in 1944, has reached one of
 its greatest, climactic phases and exploitation, and pro-
 duced a united nation.

Certain it is that there is no
 doctrine for "Monrovia"
 National Capital Building on
 the facade of the American
 House of Representatives with
 23 members, 12 of whom
 represent the people.
 They are all members of Pro-
 gressive Party.

There is no doubt in the national
 creed; Tubman the national
 hero. The last address
 before one says "Tubman is the
 man for me." All Liberians are
 patriotic. The only wonder is
 that the American people
 for the recognition and assistance
 of the Liberian people.

Buttercup harvest
 The Liberians who harvest
 the belief that democracy on the
 continent is not to be had

 President Tubman is a diplo-
 mat—however, usually he
 is not. He is a man of
 delicate demeanor to the
 administration his administration.
 An American in Liberia
 across the national life.
 The Liberians are the
 most play on the planet of
 the continent.

That the Liberian people
 to fight it. This is the
 of the Golden Fleece ... and
 and get "democracy" and
 others. As one diplomat put
 it: "It is, therefore, here has been

SOME ARE MORE FLEECED THAN OTHERS

It is not surprising that the
 "some are more fleeced than
 others" is a common phrase in
 the United States. It is a phrase
 which has been used in the
 past to describe the situation
 of the poor in a rich country.
 In Liberia, the situation is
 even more extreme. The
 Liberians are fleeced by
 the American companies
 which own the land and
 the minerals. The Liberians
 are fleeced by the American

SUBSTANTIAL SAILING VICTORY FOR KEV CHOC AT KISUMU

FROM A SPECIAL CORRESPONDENT, KISUMU

KISUMU Sailing Club travelled to Kisumu and emerged with a substantial victory over the Yacht Club members in their annual two-day regatta on the waters of Victoria Nyanza. The regatta, which was the match and the strong Kenyan team were good players each. In the first round, the opening afternoon, the two fleets consisted of six G's and four Horrocks.

Racing began in a light breeze and the G's were the first to start. They should have been a further start but it was a time when the G's were in the lead. The Kenyan team, however, was in the lead. The G's were in the lead. The Kenyan team, however, was in the lead.

Localising means two men instead of one

'HIGH COMMISSION WILL COST MORE'

WARNING

LOCALISING the High Commission will probably mean in many cases positions to be filled in to do the job now done by two African assistants, Sir Richard Ramage told the 'East African Standard' yesterday.

This would mean that the High Commission services would become more expensive. Asked where the money for the extra cost, and the money now being lost the new lease, he said, he would have to come from Sir Richard as the 'one-man commission' who has been left the task of examining legislation in the High Commission and making way for which is paid up to 30 per cent yesterday.

Mr. Ramage also said that he would have to agree if it is being done in the past few months.

He said the best thing would be to have to do this and have one or African staff assistants.

Among his duties in that regard, he said, would be to examine what he said was a list of 12 African staff assistants who he said he would have to interview for the High Commission. He said he would have to have a list of 12 African staff assistants who he said he would have to interview for the High Commission.

1962 target for opening of schools criticised

By Sir Richard Ramage

Education was the overriding need in localising the High Commission for every African school teacher, Sir Richard Ramage said yesterday.

Asked about the target for 1962, he said the target for 1962 was to have 100 new schools opened by that year.

FLY TO U.K. may extend land aid over longer term

FURTHER STEP WILL BE CONSIDERED LATER, LORD PERTH SAYS

LORD PERTH, British Minister of State for Colonies, has stated in the House of Commons that he does not think the British Government intends to extend its financial and technical assistance to the Middle East for the three years for which the scheme was initially designed.

Alternatively, did the Government intend to provide the funds for that purpose for as long as might be necessary? Lord Perth told the questioner, Lord Hastings, that the Government had agreed to make available more than £3,000,000 in the period covered by the present Colonial Development and Welfare Act.

"It is hard to understand that the scheme should terminate as concluded by the end of that period," he said. "The question of further aid would only be considered in the light of the situation."

Lord Hastings said he might give European finance in Kenya if the Government would consider such a proposal. Lord Perth promised to refer the Colonial Secretary to the Secretary of State for the Colonies, who said that the Kenya Government had a suggestion which he would be glad to consider.

Secure feeling
Lord Hastings suggested that the Kenya Government would be more available for the first three years of the scheme, but he said that he would not be a fair price for the Government to pay for a finding of security. Lord Hastings said that he would be glad to consider the Government's suggestion if it would be in the interests of the Kenya Government.

FRASER DEFEATED IN SECOND ROUND

BOB HOWE, the 35-year-old amateur Sydney player, produced one of the major lawn tennis upsets of 1960 when he defeated Australian champion Fraser in the second round of the men's singles in the Victoria championships at Melbourne yesterday.

Fraser, who suffered a serious knee injury last week, lost the first two sets and regained the third point in the all-important deciding set. Howe's victory was a surprise as Fraser was considered the favorite.

Eight little clubs with eyes on cash and glory

Eight little non-league clubs with their eyes on cash and glory, will today be seen in the third round of the Football League Cup — and the chance of a meeting with one of the giants from the First and Second Divisions.

That is the prospect that will inspire the Welsh Bangor City, known of the football world for its exploits against fourth division Southport, Bangor are unlikely to have a better chance of meeting one of the giants than the Welshmen, who play in the Cheshire County League.

Tranmere drawn at home to Everton

Yovell Town, famed top goalkeeper, has a long record in the third division. He has played for Tranmere, Southport, and Everton. He is now playing for Tranmere.

Only amateurs left. The match was a draw. Tranmere scored two goals and Everton scored two goals. The match was played at home.

Value of training

It is not likely that the value of training will be overestimated. The value of training is high and it is important for players to have a good training regime.

GHANA PLANS ARMY H.Q. IN AFRICA

Ten States may form High Command

PRESIDENT NKRUMAH of Ghana has asked nine other independent African States to consider the establishment of an African High Command with military planning headquarters "in a suitable location in Africa".

In a telegram to the United Nations Secretary-General, Mr. Hammarskjöld, discussing this proposal, President Nkrumah said the Command should operate independently or be placed at the disposal of the United Nations in helping any African country which might find itself in the circumstances prevailing in the Congo.

PONDOLAND CHIEF IS BANISHED BY UNION

FARRELL LINE APPOINTS NEW AGENTS IN EAST AFRICA

Mr. James A. Farrell, J.P., President of Farrell Lines, announced today the appointment of Smith MacKenzie and Co. Ltd. as agents throughout the whole of East Africa, with the exception of the part of Tanganyika which remains the province of Shell Co. Ltd.

The changeover will take effect with the arrival of the s.s. AFRICAN PLANET in East Africa on January 5, 1956. This will mark the termination of a valued association between two old firms that have worked exclusively towards the development of the African trade for many years. Mr. Farrell said.

Farrell Lines have been serving the East African coast for more than 35 years and Smith MacKenzie and Co. Ltd. have been agents of Farrell Lines for many years.

Since 1948 Smith MacKenzie and Co. Ltd. have extended their services to all the major ports and cities of East Africa and many of the British Colonies and Protectorates, such as Chuku Chuku in the island of Pemba and Lamu in Kenya.

Smith MacKenzie and Co. Ltd. activities will be supplemented by Farrell personnel. Farrell Lines will thus have the fullest possible coverage in the East African area and will be the only shipping line with offices in both the East Coast of the United States and Africa to be represented by Smith MacKenzie and Co. Ltd.

Col. Tony Frith, Commanding Officer of the Detach of Wellington's Regt., stands at the top of the aircraft carrier en route for Kenya, as the ship has been here for four months or so. On the right the first batch of 100 men of "The Odessa" (Report on Page 4)

DR. BARNARDO'S CHIEF ARRIVES

Dr. Arthur Smith, Chairman of the committee of management of Dr. Barnardo's Homes (below), arrives in Nairobi with Lady Smith. Dr. Arthur said the Dr. Barnardo's Home, to be built at a cost of £15,000 on the Nairobi Airport Road, might be the first of several such homes to be built in Africa. "It may be a beginning, if this venture is a success — as we believe it will be — there is no reason why it should not be extended elsewhere in Africa." The only Dr. Barnardo's home outside Britain at present is in Australia. Dr. Arthur said he was grateful for the gift of the land from the Kenyan Government on which the home will be built, and wished to thank especially the Minister for Health, Mr. Khatu, and the Minister for Lands and Local Government, Mr. Havock.

Mr. Knudsen Kadenya shows Mr. E.E.E. to his wife and friends outside Government House after his investiture as the Governor of Kenya. Mr. Knudsen has been in Government service for 42 years, and is president of the Kikuyu African Court and vice-chairman of the Kikuyu District Council. Above right, the Governor invests with the Order of the Merit of S. S. S. to the Justice Mr. E. E. Wambere, Minister of East Africa of Barotse Bank (D.S.O.) and Mr. G. S. Hale.

G.S.U. wins drill shield

Police teams were led in force at Waiyei drivers for a demonstration of unitness in the formation of some drill and marching. The team, each consisting of 7 men, and 12 members and independent formations within the Force, competed for the trophy given to the G.S.U. Police by Sir E. B. Dunder when he was Colonial Secretary to the Colony.

Victorious again, Mr. E. G. Collins, the Chief Minister of Police, presents the shield to the winners, the General Service of G.S.U., which has a magnificent record. In the last year's second place.

The competition is an annual event for 'A' and 'B' teams of the Second World War and the Emergency in 1952 when the Rift Valley Province Police won the shield, the respective first runner-up. The Police (General) and Kenya and Nairobi Area last year.

No boycott of election unless Kadu agrees to join

25,000 ENDORSE KANU LEADER AS CANDIDATE

KANU would not boycott the General Election of the September 1962, unless the Government agreed to make Mr. Mbiya, leader of the National Kadu, a candidate.

Nairobi, yesterday. — A resolution passed by the Executive Council of the Kenya African National Union (KANU) today, announced that the party would not boycott the general election of September 1962, unless Mr. Mbiya, leader of the National Kadu, was made a candidate.

The resolution, passed by a vote of 25,000 to 1,000, was adopted after a long and heated discussion. Mr. Mbiya, who is a member of the Executive Council, had earlier announced that he would stand as a candidate for the National Kadu in the general election.

The resolution also stated that the Government should make Mr. Mbiya a candidate for the National Kadu in the general election. It also stated that the Government should make Mr. Mbiya a candidate for the National Kadu in the general election.

32 people honoured for service to Kenya

Crowds started gathering at 7 a.m. yesterday morning and the meeting, scheduled for 2 p.m. did not start until 3 p.m.

The crowd thrilled and shouted when Mr. Mbiya said that he had already presented a flag which would represent the National Kadu in the general election. He said that he would stand as a candidate for the National Kadu in the general election.

U.K. fails to take vital to Kenya

MEMBER RESIGNED—'IT WAS ONLY PROTEST LEFT OPEN TO ME'

The British Government was showing no sign of taking the vital steps necessary to restore the independence of Kenya to the African people, said a member of the House of Commons today.

The man who has resigned from the Government is Mr. J. G. Gifford, Conservative Member for the constituency of South Devon.

He said: "This was the only house of present left open to me. It was only a protest. I am not a member of the Government. I am only a member of the House of Commons."

Mr. Gifford said he had resigned from the Government because he believed that the Government was not doing enough to restore the independence of Kenya to the African people.

NO SHOCKS IN THE F.A. CUP

IT was a day for the non-league clubs in the second round of the English Football Association Cup on Saturday. Of the way through in the second round, only one made use of a goal in the third round when the "big game" of the First and Second Divisions ended in a goalless draw. The game was a repeat of another team of the past season, Birmingham City vs. Arsenal. The game was a goalless draw, but they had hardly time to advance further in the competition, both Arsenal and Birmingham City were beaten by Southampton and King's Lynn by Blyth City.

GHANA-MALINK SETS PROBLEM

New step towards W. Africa unity

PRESIDENT NKRUMAH has set the British Commonwealth a difficult constitutional problem by announcing Ghana's agreement to set up common Parliament with Mali.

There is no precedent for a member of either the Commonwealth or French Community—of which Mali is a member—forming common Parliamentary institutions with a non-member State.

It is not yet known what form the decision will take on Mali's neighbour, Guinea and Ghana announced the move on the 27th. The move was hailed as a new step towards West African States.

The union will exist now on paper but in practice, said the Commonwealth Prime Ministers have not formally considered its implications.

Airman's drama of night in bush

YOUNG RAF police corporal may owe his life to survival instincts he read while on night duty in a guerrilla room at RAF Eastleigh.

Monday 29-year-old Peter Knight, a life-size regular airman, was picked up by a police rescue party after spending more than 24 hours alone in the bush about 10 miles from Kajiado.

He was seen by an anti-aircraft search party Monday morning from Eastleigh. "We were looking for a man who had not been seen for a week," said the sergeant. "We had no luck."

Last night I saw a new man with a rifle in his hand. I saw a man who had a rifle in his hand. I saw a man who had a rifle in his hand. I saw a man who had a rifle in his hand.

RUSSIA trying to generate hate in Africa

BRITAIN last night accused Russia of bringing the colonialism issue before the U.N. General Assembly as a means of carrying the cold war into Africa.

The British Minister of State, Mr. Cresswell-Gore, was addressing the Assembly during a debate on a Russian proposal that all dependent territories should be free immediately. He said the Russians only pursue "sneaky" tactics to generate hatred between the colonies and their fathers their peace, about which he said he was sure.

JAPANESE WANT TO INVEST IN E. AFRICA

READING Japanese companies are looking to invest in East Africa as an area in which to invest, says Mr. S. Hayakashi, a Japanese Consul.

Mr. S. Kaneko, a Japanese member of the East African and East African Council, said that Japanese companies are looking to invest in East Africa as an area in which to invest.

Oil and finance join forces to assist economy

BY RONALD HUTTON

SHELL AND BP HOUSE

Shell and BP House, which is to be opened officially today, presents an impressive picture as it towers over Nairobi's Corporation Avenue. The building is owned by the Legal and General Assurance Society Ltd., and has been leased for a period of 30 years to the Shell and BP companies.

TODAY'S formal opening of Shell and BP House by the Governor of Kenya, Sir Patrick Hennessey, sets the seal on an alliance between two major economic forces — oil and finance — which has culminated in a significant advance in the Colony's business life.

Shell and BP House was built, at a cost of £4,000,000, for the Legal and General Assurance Society Ltd. and has been leased to the Shell and BP companies for an initial period of 30 years, and the beneficiaries of both these organisations in the future.

The success of Kenya's economy is dependent on the quantity and quality of its office space. A notable feature of the new building is that the office space throughout is subdivided by demountable partitions creating a high degree of adaptability and versatility.

The partitions consist of panels mounted on aluminium posts which are "lock-in" type, and can be put in place by pressure held in place by pressure only. Though only 18-in. thick, they effectively divide the office.

The wiring for lighting and for ventilation is laid in such a manner that it is easily accessible.

Demountable partitioning is the latest practice in building design as it allows the management of floor space, but it also covers the joints and the whole structure of Shell and BP House.

A unique feature of the building is the design of the floor in the areas where it is laid in East Africa.

Designed to seat 80 people, it is built on a concrete and is fully air-conditioned and equipped with all the facilities for the protection of its contents.

There are also many other features which would have been considered as luxuries for use during business hours.

The Governor of Kenya, Sir Patrick Hennessey, is the patron of the Kenya National Council of Arts and Crafts. He is also the patron of the Kenya National Council of Arts and Crafts.

The Governor of Kenya, Sir Patrick Hennessey, is the patron of the Kenya National Council of Arts and Crafts. He is also the patron of the Kenya National Council of Arts and Crafts.

All the top of the building is one flat, and an extensive parking area is provided.

The building is situated on the corner of Corporation Avenue and the Kenya National Council of Arts and Crafts.

BP and Shell play for high stakes!

£7 million and not a drop of oil —

Seems fantastic, doesn't it? But the world demand for oil is increasing so fast that the oil companies must explore and probe wherever there's a chance of finding it. This costs money — big money. Every year the oil industry spends over £2,000 million throughout the world on looking for and producing oil.

In East Africa alone BP-Shell have spent ten years and £7 million in their relentless search for oil. They've not struck oil yet. But using the latest methods and employing the world's leading technical personnel, BP-Shell intend to find oil — if it's here. And if they find oil they have to sell it on world markets in competition with hundreds of other suppliers.

Certainly the oil business is a chancy one.

CONCRETE SYMBOL OF FUTURE OF KENYA ADORNS NAIROBI SKYLINE

Good will message from Sir Patrick

THE following message has been received from the Governor of Kenya, Sir Patrick:

On the occasion of the formal opening of the new office blocks, I should like to express my warmest congratulations to the design, construction and finance of this magnificent building.

It is an appropriate symbol, in the capital of the Colony, of the future development of the nation—a faith which, Kenya, already has won.

THE site of Shell and BP House, Nairobi is in the core City Centre on an island plot measuring 115 feet long and 120 feet deep, with frontage to Coronation Avenue.

The schedule of accommodation required provision for on-site parking for motor cars, 20,000 sq. ft. of office space to be sub-divided by demountable partitioning a cinema suitable for 18 mm. film projection, slide projection and lectures, a staff canteen, management dining suite and two flats.

THE DESIGN AND CONSTRUCTION OF SHELL AND BP HOUSE, A NEW LABORATORY BUILDING AND A STORE, OF FIFTH FLOOR, IS DESCRIBED BY THE ARCHITECT, MR. A. D. GAYNER, F.R.I.B.A.

With an extensive use of precast concrete, the building is a concrete symbol of the future of Kenya.

GLASS CURTAIN WALL

The necessity for this has dictated the whole structural conception which comprises windows set deeply into the structure, the space between the windows being used for storage racks and the framing of window service ducts as have already been described.

The selected fabric used for precast concrete panels faced with polished granite with panels and joints in white grey and buff. The panels have been finished in copper.

The panels have been designed to blend with planting in Coronation Avenue and feature a long reflecting pool with fountains.

The main entrance of the new building in Coronation Avenue.

Office blocks point to modern capital

THE Kenya Minister for Finance, Mr. MacKenzie, writes that the new Treasury Building was opened in 1958. At that time it was the only permanent building standing on its Coronation Avenue site.

It was surrounded by low density wood and tree houses which afforded a good air circulation and were also decorative.

The Government has decided to build a new office block in the same area as was the site of the old building.

MR. M. W. MACKENZIE

Coronation Avenue itself was a north track which became almost impassable in the wet season.

I mention all this because I feel it is unfortunate that we in the Treasury with our responsibility for development should have had an excellent opportunity to see the results of concrete progress starting so recently.

We have also had a good opportunity to note that it is generally necessary in the development of a building to have a long lead-in time.

By now apart from concrete blocks we use on wood and

and the large new office block is evidence that we are engaged in a programme of modern capital as part of a new building programme in Nairobi.

The new shell and BP House is the typical office building to be completed. It has been built of reinforced concrete and has a long lead-in time.

I had a pleasing experience in the building of the new office block in Coronation Avenue. It is particularly a pleasure to have all the work of the building programme in Nairobi completed.

The Shell and BP House is a modern office building which has been built in the same area as the old building. It is a concrete symbol of the future of Kenya.

The building is a concrete symbol of the future of Kenya. It is a concrete symbol of the future of Kenya.

also offers partitioning, as a result of which a module of 25 feet was adopted which is used to establish all functional dimensions.

This enables a system of demountable partitioning to be used which is very flexible and allows which any new panel can be removed and replaced with another without disturbing the whole wall.

CAR PARKING

Provision was to be made also for a future extension comprising about 20,000 sq. ft. of new office space.

The solution to this problem was the form of a double 'T'-shaped building with offices in the two wings and staircase landings and lifts in the central section.

The main entrance, lift canteen & courtyard in the rear of the office block is a half covered and in the open, above the car parking space.

These two parking spaces are approached by ramps from the approach road on the north side of the site.

The main entrance to the building is on the north side of Coronation Avenue on a broad flight of steps and there are subsidiary entrances from the car parks. The main entrance hall is reached via a pedestrian area at one end. These high-level lifts are arranged to all floors and a slower speed goods and passenger lift is also provided.

FLEXIBLE SYSTEM

The whole structure is reinforced concrete, with floors and walls built with demountable partitions.

The management dining suite and canteen are placed on the top two floors of the circulating block in order that they should not interfere with the smooth functioning of the office area.

The two flats are at staff-level, above the office block and are set back within the main mass.

Interpretation was made to determine the best method of construction with the demands

A side view of the modern Shell and BP House.

SIR PATRICK KENYON

demanded.

The building is a concrete symbol of the future of Kenya. It is a concrete symbol of the future of Kenya.

How we have five blocks of modern Government offices, two office blocks provided by the Government, one by the private sector and one by the private sector.

To all those who will enjoy the impressive building in the park to come, I send my warmest wishes that they will prosper in all their endeavours.

Mombasa refinery to use latest ideas

TITLE has been heard of East Africa's first refinery to be announced that it was to be built at Mombasa. The building of the refinery is now well advanced and the work is being done on a large scale.

East African Refiners and Gasworks has already started work on the refinery. The refinery is to be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres.

The refinery will be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres.

MANY PRODUCTS

From the crude oil which will be brought in by tanker in the course of the project, it is estimated that the refinery will produce a wide range of products. These include petrol, kerosene, diesel oil, and various grades of lubricating oils. It will also produce a number of other products such as naphtha, gas, and tar.

The refinery will be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres. The refinery is to be built on a site of about 100 acres.

WHITE HOT

In the refinery the principle is to heat the oil to a temperature of about 350°C. This is done by passing the oil through a series of heat exchangers. The heat exchangers are arranged in a series of stages. The oil is heated in the first stage and then passes through a series of other heat exchangers. The oil is then heated in a series of other heat exchangers.

BOTTLED BUTANE SALES RISE 12 - FOLD

ALTHOUGH it first appeared on the East African market only three years ago, Afrigas - bottled butane gas - is playing an important part in several aspects of the development of the three territories. Afrigas Ltd. began as a private company in 1957. Later the same year Shell Afrigas Ltd. was formed. Almost the universal provider.

(Cont. from Page 15, Oct. 3)

Now it plays an even bigger role in the oil economy than it did then. It is one of the fuels used in jet aircraft; many farm tractors depend upon it, and it brings light, warmth and comfort into the home. From the heated drinking water drawn off it, those which are not so fortunate as to have reticulating mains, the refrigerating heavy fuel oil for steamships, industry and power stations. A refinery can be an almost complete provider of many of the basic needs of a community and heavy industry is made possible by the large international oil companies to ensure that the whole range of petroleum products required by the public is available in the best quality and most economical terms. The Royal Dutch/Shell Group has a total investment of about 534,000,000 in oil refineries in the last five years.

NEW KENYA PARTY POLICY

BOTH the New Kenya Party and the Coalition are publishing their election policies this week. The N.K.P. manifesto sets the lights of its line and the Coalition's will be published on Friday.

It should be clear to the Kenya public, therefore, that neither has been advanced by the other: there has been no change in the Coalition's policy of non-alignment.

A positive approach to the future

The statements made by each party in a wide field, from support of the military forces to the support of the civil service.

As far as the party believes the lowering of barriers, the public should be aware that the Coalition is not a party of the right.

THIS WEEK THE ROYAL SOCIETY CELEBRATES THE TREASURARY OF ITS FOUNDATION

A FELLOW OF THE SOCIETY, SIR HAROLD HARTLEY (RIGHT), TRACES ITS HISTORY

The Royal Society in London has been celebrating the 300th anniversary of its foundation.

OLDEST SOCIETY

The Royal Society in London is the oldest scientific society in the world with a continuous record.

ALL the great names in British science are to be found in the annals of the society.

A close and intimate relationship with the other sciences has been one of the features of the society since its earliest days.

25 A YEAR

The anniversary continued in London with a celebration of the society's 25th year.

DISCUSSIONS

The Royal Society in London is the oldest scientific society in the world with a continuous record.

HIGH SCHOOL TOP LEAGUE

Close fight with Loreto Convent Maongari

ALL the fetters in the K.R.H.A. Schools' League for the Sports Comm. 1911 held more than enough of the High School - whose senior side retained the Kavar Kavar Cup - leading their old rivals Loreto Convent (Maongari), by a very narrow margin. As the senior side, the results against Maongari were a draw and a win, forcing them to two vital points on hands.

Last year's top league side of Loreto, who were the oldest and best, emerged heavily victorious but they were beaten and captured in a final match by the Maongari side. The latter side was able to secure a narrow margin of victory on the day.

Two prizes for Peak at Nyeri

VETERAN golfer Harry Peak, playing off a handicap of 15, scooped the trophy of Nyeri when he won both the Captain's Prize and the Veterans' Cup, which were played together over 18 holes.

In an unusually low-scoring competition, when conditions were not so good as they were on the date of 23 players took the Veterans' Cup for the second time in their hands. The winner, Harry Peak, with a score of 116, took the trophy from I. O'Connell (121) with 20 strokes.

Consistent golf

Playing consistently good on the outdoor field, Peak scored 18 strokes for 23 points, and, though falling to zero at the hole on the backward run, added 11 points to bring his total to 29, leaving the majority of younger players well behind. In the Lady Captain's Prize, Miss F. Macpherson (121), with 14 strokes, won by one shot from Mrs. D. Weaver (128). Both played very well on the outdoor field to record 11 and 20 points respectively, but the latter's second round score restricted her to 20 points in all. The latter's handicap was 15 strokes.

Bosun's Cup to Commodore of Naivasha Y.C.

NAIVASHA Yacht Club's Bosun's Cup, for the champion boat of the year, was won by the Commodore M. W. B. Butler, of Dolphin. Twenty-one skippers competed in the monthly handicap series for the trophy throughout the whole year and recorded their best eight results out of 11 as the September series was abandoned.

Although only six series have been held since the inception of the trophy, it is held by the Commodore M. W. B. Butler, of Dolphin. The Commodore's boat, the Commodore, has won the trophy in 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, U.N. RELIEF CONVOY

Baluba ultimatum Get out or we attack

NEARLY 300 Nigerian troops in the Congo were yesterday still trying to make their way by convoy to reinforce the garrison at the mining town of Massono, about 250 miles north of Kamina.

OFFICERS TRY TO SEIZE BARRACKS

A FERGIE machine-gun battery edged early yesterday into the barracks at Kinshasa City, 200 miles north-west of Kinshasa. Officers from other garrisons were ordered to march on the barracks to seize the machine-guns. Military spokesman said that the officers were in control of the barracks at 10 p.m. when the troops fled. Three soldiers and two officers were killed in the fighting and six were held as captives.

Ten bombs

As the search for the ten bombs continued in Kinshasa during the night, the search party was still in the city. The search party was still in the city.

Garages ready for strike

Although an official statement from the National Petroleum Association is not available, it is believed that many petrol stations in Kinshasa will be closed on Monday. The search party was still in the city.

Federation 'a secret deal'

Adrian, general of the East African Federation, said that the federation is a secret deal. The search party was still in the city.

Royal Visit TO LIBERIA

Queen Elizabeth II and Prince Philip are expected to visit Liberia. The search party was still in the city.

Paper to die

Mr. Roy Thomas, Canadian publisher of the Star, said that the paper is to die. The search party was still in the city.

But Baluba snipers and roadblocks — some of them trenches 20 ft deep and 12 ft across — are hampering their progress along the main road. Already, four of the soldiers, including an officer, have been killed in a roadblock clash. The convoy stopped to bury the dead. The wounded were taken back to the U.N. base at Kamina. The U.N. force returned the day after yesterday.

The Nigerian convoy is made up of 19 three-ton trucks and 25 light vehicles. About 150 Nigerians are already at Massono, which is the centre of the area terrorized by Baluba bands. The main object of the U.N. force is to prevent the Katanga forces from reaching the town.

A new building technique

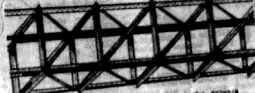

Met-Ram

Met-Ram consists of cast-steel steel sections, giving a total of 24 tons per square inch and performed to allow positive loading in all directions.

The design permits free spans of up to 60 feet. The design is used for the construction of all types of steel structures.

It has been tested for resistance of ultimate and ultimate stresses at various angles and under various conditions.

Design details available.

World police force urged by Minister

CREATION of a world authority backed by a world police force was urged by Mr. George Manning, Commonwealth Relations Secretary, in London. "We must all be prepared to give up our national sovereignty in this way," he said.

Not enough men for vacancies

FIGURES published today show that there is not sufficient men for vacancies in the proportion of Africans entering the Civil Service unless there was a substantial improvement in the standard of education in a comprehensive training programme undertaken.

The Hon. Mr. Manning, Minister of Education, said in a report issued today in the East Africa House of Representatives that the Government is not self-sufficient in the number of men available for the Civil Service. He said that the Government is not self-sufficient in the number of men available for the Civil Service.

ZANZIBAR RESIDENT WINS TRIBUTE

TRIBUTE was paid to the late Mr. George Manning for the way in which he had guided the Government to the achievement of responsible Government.
