**AFRICANS QUIT FEDERAL TALKS**

**We will not go back says Kaunda**

**THE 'Big Three' African leaders at the London talks on the future of the Central African Federation walked out of the conference last night. They are Dr. Hastings Banda of Nyasaland, Mr. Kaunda of Northern Rhodesia, and Mr. Womersley of Southern Rhodesia.**

There was no indication of any hope that they had decided to re-visit all former proceedings of the conference.

Mr. Kaunda said after the walk-out: "We have presented our case to the British Government and to a useful purpose will be served by attending any future meetings."

There was no indication of the attitude of the African leaders in the talks which were held at the instigation of the three British Governments.

Mr. Kaunda and Mr. Banda have indicated in their statements that they are only interested in being consulted on the future of the Federation, and not in "white domination."

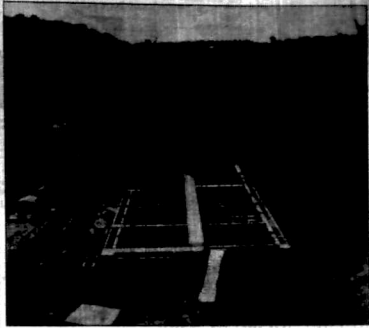

Mr. Womersley, leader of the Southern Rhodesia African Bantustan, said he was not prepared to accept any form of white domination and would not be part of the Federation.

## LETTERS TO THE EDITOR Opera's overture spoilt by bad theatre manners

THANK you for publishing Mr. W. Henry's excellent letter on the disturbances he had to experience on the recent production of *Der Rosenkranz* at the opera.

I think it might be interesting to know that the only person who was not present at the performance was the author of the play, Hans Christian Andersen. The fact that the opera was performed in the presence of the author of the play is a very interesting fact. It is a pity that the author of the play was not present at the performance. # WINNING RETURN TO SAILING ON LAKE

COMMANDER Lee made an auspicious return to sailing on Lake Malabara when he won, as already reported, the Dickinson Cup by a 12 point margin. He had just assumed command of Duke, the club's first boat since she changed ownership. By coincidence, Duke also was skippered by Commander Lee, a Harbour Y.C. member, who had just recently replaced the club.

Four conditions were better than anticipated during the competition, and although the first two were the worst, a 12 point victory was secured to divert the wind.

### Started at wrong end

On the first race the commander of the fleet is started at the head end of the line rather than the more common opposite a starboard end. This is the first time in the history of the club.

On the second race, the skipper of Duke (Harwin) also had a good start, but was forced to change to the starboard end. This was the first time in the history of the club that a skipper has changed ends during a race.

## HOW TO MAKE POOLS PAY

BY DUNNIN

WINNING money on the Pools is almost everyone's ambition and, if your idea is making, the one to be achieved. The really enormous, six-figure Triple Chance dividends are a matter of chance for the most part, and are able to come raining out under certain home by a classic race. They can, and often do, come about but look rather than skill decided the 1938-39.

Only the poor two divisions have shown a profit in the Pools during the past few years. During this time, the Pools have been a great success, and it is therefore possible to make money out of the Pools and to share the small dividend.

## World's toughest tests BREED THE SAFEST TYRES FOR YOU

Now the world's top racing drivers help DUNLOP make the finest car tyres for today's roads and today's speeds.

In Grand Prix racing the world's fastest drivers give their tyres the fiercest all-out treatment that human skill and courage can contrive. Care approaching 200 h.p. ... cornering speeds over 100 m.p.h. ... fantastic acceleration and braking. Dunlop tyres stand up to this demanding treatment more successfully than any other tyres in the world.

In 1938 cars fitted with Dunlop made a clean sweep of all world-championship Grand Prix events, winning the drivers' and constructors' world honours as well! This year Dunlop are again leading the world with victory after victory on the track.

**BETTER, SAFER TYRES FOR ALL**

The manufacturer whose tyres lead the world in Grand Prix racing must obviously lead the world also in tyre for family motoring. Indeed, Dunlop are constantly using the same track as a laboratory for developing over-tire tyres for all forms of motoring. Today, Dunlop tyres offer you the tremendous endurance and the wonderful road-holding and safety bred from the overwhelming experience of Dunlop on the track. In fitting Dunlop you fit the best tyre in the world!

# Police train themselves as public servants

## BUT LEGAL CLAUSE WILL NOT MAKE A CONSTABLE

**POLICEMEN** regarded themselves not as enlisted officers with powers to threaten and bully, but as servants of the public, the Treasury Minister for Internal Security and Defence, Mr. Ellison, said in the Kenya Legislative Council yesterday.

He was replying to the debate on the second reading of the Police Bill and explained the way in which the Government was trying to bring about the greater part of the change in police law and public.

"The police constable of the British pattern by merely inserting a clause in an Ordinance," he said.

With the onset of the Emergency the police force has been expanded from 5,000 to 15,000 officers and men—about the size of the present establishment—and training had had to take second place because the demands of the Emergency were often of a kind not usually associated with police work in other countries.

### REVIEW OF MINISTERS' SALARIES IN FUTURE

The whole question of ministers' salaries, allowances and pensions is the subject of a review of the future. Mr. T. T. Mwangi (Minister for Agriculture) said in the Kenya Legislative Council yesterday.

He said he believed our future Government is going to be able to do a better job than the present one, which Ministers were on the whole not doing so well as they should be doing.

He was speaking during a session of the Council on the subject of the review of Ministers' salaries.

Mr. Mwangi proposed that the Government should set up a committee to look into the matter. The committee would be made up of members of the Government and members of the public.

**Successful coup led by Crown Prince**  
 'YEARS OF OPPRESSION ENDED'

**THE** regime of Emperor Haile Selassie of Ethiopia was ended yesterday by a dramatic coup d'etat led by the Crown Prince, the Emperor's eldest son.

The Emperor is on a State visit to Brazil. In a broadcast picked up in Nairobi last night Crown Prince Afa Wossen said that after 3,000 years of oppression there had been a change in the country's internal affairs, and Ethiopia would now try to catch up with the other new States in Africa.

He went on: "I am glad to tell you that the Emperor has created an authority that will work for the progress of the country and the people from now on. I will save my country and the people sincerely in accordance with the constitution and as a salary decided the fate of any other Ethiopian."

**Support of whole nation claimed**

"This newly established Government has the support of all the armed forces, the police, the educated youngsters and the whole people of Ethiopia. Any decisions which the Emperor people must be united now, because they are sure that the history that can put them in their proper place in the world has taken place."

An eminent local member from Addis Ababa said the situation is critical. Embassies were guarded by soldiers and machine guns. About 200 persons occupied several Government buildings.

A message from the British Ambassador in Addis said the situation was confused.

**Haile Selassie's rule almost despotic**

ALTHOUGH the reasons for the coup d'etat are obscure there will be many who will not be surprised by the news.

Haile Selassie has expressed on many occasions his desire to promote democracy in the country and has been named as the champion of African freedom.

But on his visit to the West he has been criticised for his attitude. He has been described as a despotic ruler who has been a major cause of political unrest.

Two socialist leaders who were expelled from the East African Bloc in 1961, the President of Kenya, Mr. J. M. Kenyatta, and the East African Minister of Education, Mr. J. M. Njiru, were also expelled from the bloc by the Grand Old Man of the Bloc, Mr. Latham Lush.

**50 die in head-on tanker smash**

ABOUT 50 people were believed to have died in a head-on collision between two tankers off the coast of East Africa. The tanker involved was the *British Army Gibraltar*.

In recent years he has visited Britain in 1941 after the war. He was the first of the Emperor's sons to be crowned in 1930. The 30th anniversary of his coronation was celebrated in 1960.

Haile Selassie attended the funeral of the Emperor's late wife, Empress Taye, in 1955 and he went to the League of Nations to speak for his people. He was returned to Ethiopia in 1941 after the British Army liberated the country.

In recent years he has visited Britain in 1941 after the war. He was the first of the Emperor's sons to be crowned in 1930. The 30th anniversary of his coronation was celebrated in 1960.

**Pro-British**

Crown Prince Afa Wossen was in Nairobi as recently as June 1961 to represent Ethiopia at the funeral of the late Emperor Haile Selassie. He had in the past acted as agent during his father's absence from the country. In 1957 he represented Ethiopia at the funeral of the late Emperor Haile Selassie. **ARRANGEMENTS FOR PRIMARY ELECTIONS UNJUST**

**THE** decision of the Kenya Government to adhere to 25 per cent of the proportion of votes which candidates at primary elections must qualify for the General Election is to be resisted by "the latter end."

Mr. Charles Kararia (Uthman) Kenya Legislative Council said yesterday when he described the arrangement for the primary as "a complete farce of nothing at all except the most elementary injustice."

When the Bill was asked to give the Legislative Council a vote on the Bill, Mr. Kararia said he would vote against it. He said he and his friends would move an amendment at the committee stage to raise the proportion to 33 per cent. A second amendment would be moved to raise it to 35 and on down to 31, at which stage the procedure would be changed and 33 would be moved.

"Both sides are going to lose on a division and they are going to lose on a division of the House here for an amendment to raise the proportion to 33 per cent."

When the *Standard* reported that Mr. Kararia would vote against the Bill, Mr. Kararia said that he would not be voting against the Bill. He said he would be voting against the Bill.

# WHY SERVICE WIVES GO OUT TO WORK

AM rather sick of hearing and reading the sort of sentimental and ill-considered articles of Service wives which was contained in a letter written by "Dinah" in *Belle's* — aptly

After her husband left for the front she was left with three children to support. Her husband was a sergeant in the Royal Air Force and she was left with three children to support. Her husband was a sergeant in the Royal Air Force and she was left with three children to support.

However, I should like to disagree with the writer of the above article. I believe that a Service wife should not be allowed to go out to work unless she has no other means of support. I believe that a Service wife should not be allowed to go out to work unless she has no other means of support.

She should be allowed to go out to work if she has no other means of support. I believe that a Service wife should not be allowed to go out to work unless she has no other means of support.

Another letter alleged that a "Dinah" letter in that Service wives are offered a "hand-out" having by "Mad" "york" taken from tobacco and other commodities with no other terms.

However, I should like to disagree with the writer of the above article. I believe that a Service wife should not be allowed to go out to work unless she has no other means of support.

As a result of the above article, I believe that a Service wife should not be allowed to go out to work unless she has no other means of support.

# NAIROBI'S AUTOMATIC CAR-PARK

**£500,000 project will be first of kind in Commonwealth**

NAIROBI is to have a multi-story, fully automatic car park, costing more than £500,000, the first of its kind in the Commonwealth.

Work will begin on the site in Queenway and opposite 67th Avenue next month and the building is expected to be finished by August, 1962. Fourteen stories of parking space will accommodate 300 vehicles. On three sides of the parking block will be eight stories of office space, comprising 1,800,000 sq. ft. of floor area. The building, the greater part of the capital for the project, lies, some 100 yds. from the city.

A new company, Asitahia, Nairobi, is to build the building. The greater part of the capital for the project, lies, some 100 yds. from the city. The site, which is Crown land, was offered for development to include a car park, but the Asitahia method has already been used for the Asitahia building. The building is to be built in two stages. The first stage will be the car park and the second stage will be the office space.

## EXPERTS PUT FORWARD NEW THEORY AT CRASH INQUIRY

THE captain in charge of all South African Airways pilots admitted yesterday that he had given incorrect information to the East African High Commission about the critical height of the pilot had stayed above the critical height in certain weather conditions.

"I am not making excuses — I have admitted I was wrong," the senior line captain, Capt. J. Botes, told a public inquiry in Nairobi yesterday, but he denied a suggestion by Justice MacCall that he had been negligent.

He said the critical height for Nairobi was 600 feet and that he had not noted in the airman's flight manual, which was that the pilot could use a lower cruising gear lower.

### Piston-engine theory

He also admitted that the Boeing 707 which crashed at Nairobi Airport on October 30 would not have had to do so if the pilot had stayed above the critical height.

The Boeing made a perfect altitude ball-balancing — one of the 70 passengers or 13 crew being injured — after flying instruments had been damaged when the aircraft accidentally touched down a mile and half from the runway.

During the inquiry — which entered its third day yesterday — the pilot was twice advanced that Capt. J. Botes' "booster" was playing a piston-engine aircraft and not a jet.

In evidence, Capt. Botes told Mr. C. B. Margr, for Capt. Botes that visibility was one of the most important factors in determining whether to come below the critical height — and the visibility of eight miles at the time was good. He had not been told that the critical height was 600 feet, although it was up to the pilot, because he was not aware of many such factors.

"I don't know what was happening in Capt. Botes' mind," he said. "I don't think he thought there was a cloud layer below the critical height, but he thought if he was not clear of it, he would have to go down."

"We never thought..."

Questioned by the legal representative of the High Commission, Mr. J. M. Newbold, he admitted making a request to the pilot to go down for the Boeing.

He said that he and his pilots understood critical height was the height at which a pilot should stay if he was not clear of it, but he said that he had not told the pilot that he should stay above the critical height. He said that he had not told the pilot that he should stay above the critical height.

MAI will die because of oath, chief tells inquiry

A KAMBA chief, Stephen Ngugi, of Njiru Location, said yesterday that a Maasai would continue to die as the result of an oath if they did not return 4,000 cattle to the Kambas and be cleaned of the oath.

He was giving evidence when the inquiry into the Maasai-Kamba cattle clashes resumed at A.M. 10.30 yesterday. Chief Stephen said that he had agreed to hand over 2,000 cattle to the Maasai. There was a dispute over a further 2,000 cattle and the Kambas only agreed to hand these over on condition that four Maasai would take a khabula oath.

The Kambas maintained they would take the oath, and the Maasai were using this as a threat. He said he was present at the signing of the oath, and that the Maasai were using this as a threat.

# PHYSICAL AND MENTAL FITNESS ESSENTIAL

## HOCKEY BY DENICK BRYANT

ONE day earlier the hockey arrived at the Sikh Union ground in Nairobi on the early hours of an A.S. train. The first time I saw the team was at Kenya Olympic Club physical training. They were superbly fit, and their coach and captain, all South and East African, all of whom represented Kenya at London in 1948, were all of the same opinion. They were superbly fit, and their coach and captain, all South and East African, all of whom represented Kenya at London in 1948, were all of the same opinion.

This is encouraging. It is encouraging to find this kind of enthusiasm among our top-ranking hockey players and to find that they are so keen to improve their standard. It is likely to prove salutary. The coaching staff is doubtless superb. They are the best in the world. The material of the staff is the best in the world.

## Put up excellent show

"I believe that at least you very impressed" was the cry of the crowd when the Kenya hockey team put up an excellent show in their match against the British team. The Kenya team were superbly fit and their play was of a high standard.

## EMPEROR'S TROOP SMASH REBELS

### PRINCE 'ACTED UNDER DURESS'

TROOPS loyal to Emperor Haile Selassie yesterday crushed the revolt against his regime and last night the Emperor was welcomed by thousands of people when he landed at Asmara, Eritropia's second city.

All day loyal troops marched from all parts of the country to bring Addis Ababa, the capital. They forced the insurgents to burn 6,000 strong, back on to the Imperial Palace, and then threatened to bomb the city if the rebels refused to leave.

Within the palace the Emperor's son, Crown Prince Aida, was the apparent figure-head of the revolt, was believed to have held hostage.

In Asmara the Emperor told his people that all statements and unprovoked proclamations made by the Crown Prince had been made under duress.

... MOURNING AMONG ETHIOPIANS OVER KILLED SOLD CASUALTIES BELIEVED HEAVY WEIRD FIBERS FIGHTING BOSS... CROCODILE BURSTING OF DRAIN 4-

## HUNT ON FOR ETHIOPIAN REBELS

### Curfew still imposed as victims mourned

By HOMER SMITH, Standard Special Correspondent in Addis Ababa, and Reuter's correspondent VINCENT BUIST and JOHN MORAITIS.

ETHIOPIA continued yesterday to be subject to censorship and curfew as people mourned the deaths of those killed in the street fighting during the abortive coup d'etat against Emperor Haile Selassie.

This was the message in the first cable out of Addis Ababa since the late clamp-down on communications on Wednesday night. The cable adds that casualties were believed heavy during fierce fighting.

### TALKS ON RHODESIA RESUME IN 1961

THE Southern Rhodesia constitutional conference which began in London on Friday was unexpectedly adjourned on Saturday night but South Africa's official communique said substantive negotiations would take place in Southern Rhodesia this month, which may be followed by two more sessions.

### Back-seat drivers in airliners planned

A "BACK-SEAT" master driver able to spot a mistake sooner than the man who made it, may take command of a bigger and more complex airliner.

### Borost ends

THE Southern Rhodesia constitutional conference which began in London on Friday was unexpectedly adjourned on Saturday night but South Africa's official communique said substantive negotiations would take place in Southern Rhodesia this month, which may be followed by two more sessions.

### Similar function

The idea is for two pilots, to the pilot with a third Controller on major driver make decisions, and monitor their work.

**ALLOCATION OF SCHOOLS QUESTIONED**

Now that plans have been drawn for Kenya and District High Schools, it would be interesting to know exactly the factors involved. It is my opinion that through play of residence would normally be considered.

It is interesting why should a child who is born in Nairobi be sent to the Kenya High School at some other place? It is not clear what the factors are. It is my opinion that through play of residence would normally be considered.

I would have preferred that the Government should have a policy of sending children to the nearest school. This would have been a fairer policy.

**Jealousy Gardens**

I HAVE been a resident in Nairobi for the past 20 years and during this period I have seen many changes in the city. One of the most noticeable changes is the increase in the number of schools. This has led to a situation where many children are sent to schools in other parts of the city. This is a situation which is not fair to the children and their parents.

## SPURS LEAD BY TEN POINTS

SPURS look all set for a spectacular 1961 if the S's threatened strike in English professional football which has now been put forward a week from January 11 to January 21 does not interfere. Their 2-1 away win over their nearest challengers, Everton, means they approach the Christmas Holiday programme with a two-point lead in the English League Division 2 Score table.

If they stop the current form they should win the championship by a narrow margin. Tottenham Hotspur and Manchester United are the only clubs with an 11-point lead over the rest of the league.

The Cup-holders, Wolves, are expected to lead the league in the New Year. Wolves struck out of the league when nothing came of their opening bid for the second half of the season. Their goalkeepers were cornered with a heavy attack from the other end.

Can'ty list  
The second half of the season was a disappointment in West London. Tottenham Hotspur and Manchester United are the only clubs with an 11-point lead over the rest of the league.

# REGULATIONS CONTROLLING THE MOVEMENT OF PETS

I would like to refer to the letter written by the President of the East African Society for the Prevention of Cruelty to Animals on the subject of movement of pets.

When the movement of pets across the continent is under consideration, I must remember that the animals are not the same as the human beings. They are not capable of understanding the regulations and are not responsible for their own actions. It is the duty of the owner to ensure that the animal is kept safe and secure at all times. In Kenya, this is done by the issue of a license for the animal and the owner is required to display this license on the animal at all times. In other countries, such as Uganda, the regulations are similar but the licensing system is not as strict as in Kenya. It is the duty of the Government to ensure that the animals are kept safe and secure at all times and that the owners are held responsible for their actions.

# Kenya's rhinos losing battle for survival

By HEVITY COWIE, Director of the Royal Botanical Park of Kenya

All rhinoceroses that live in Kenya are in danger of extermination. I obtained estimates of the rhinoceros population in Kenya in 1958 and found that there were only 1,000 rhinoceroses left in the country. This is a very small number and it is likely that the population will continue to decline in the years to come. The main reason for this is the poaching of rhinoceroses for their horns. The horns are used for medicinal purposes and are highly valued in many parts of the world. The poachers are often armed and are very skilled at their craft. They are able to track the rhinoceroses and kill them without being detected. The rhinoceroses are also being killed for their hides and for their meat. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years.

**Drug save**  
Any rhino that is seen in the park is immediately shot. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years. The rhinoceroses are being killed for their horns, hides, and meat. The poachers are often armed and are very skilled at their craft. They are able to track the rhinoceroses and kill them without being detected. The rhinoceroses are also being killed for their hides and for their meat. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years.

**Teeth marks**  
The African staff and their families who work in the park are being warned to be careful of their teeth. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years. The rhinoceroses are being killed for their horns, hides, and meat. This is a very high rate and it is likely that the population will be wiped out in the next few years.

**People v. Animals**  
Whether it is a question of a rhinoceros or a lion, the animals are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years. The rhinoceroses are being killed for their horns, hides, and meat. The poachers are often armed and are very skilled at their craft. They are able to track the rhinoceroses and kill them without being detected. The rhinoceroses are also being killed for their hides and for their meat. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years.

**Two shots**  
Warden Ellis reported to the Director that he had shot two rhinoceroses. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years. The rhinoceroses are being killed for their horns, hides, and meat. The poachers are often armed and are very skilled at their craft. They are able to track the rhinoceroses and kill them without being detected. **Exam questions**  
I would like to refer to the letter by Chandraband in the recent School Certificate exam. I am not entirely sure of his remarks. The rhinoceroses are being killed at a rate of about 100 per cent per year. This is a very high rate and it is likely that the population will be wiped out in the next few years. The rhinoceroses are being killed for their horns, hides, and meat. The poachers are often armed and are very skilled at their craft. # Death crash driver fined £150

## SAW BEND IN ROAD TOO LATE: GIRL DIED

A FINE of £150 and two years' disqualification from driving were imposed on Robert McCulloch (37), who caused a fatal motorist's death by dangerous driving.

Miss Irene McDougall, a passenger in Mr. McCulloch's car, was killed when it crashed in Lusitania Road, Nairobi, on November 3.

Mr. O'Connor said that McCulloch was a "black nature" man and that he had been driving at 60 m.p.h. when he saw a sharp bend in the road. He had not had time to react.

Mr. O'Connor said that McCulloch had probably suffered from a heart attack at the time of the crash. He was 37 years old and had been driving for 15 years.

## PLOTS IN FLAT ZONES

WHEN the Valuation Court re-assembled in Nairobi this afternoon a question of principle will have to be considered in the interpretation of the provisions of the Valuation Act, 1952, which provide for the valuation of plots in areas reserved for flat development.

Very few people who have lodged objections to the valuation of plots in flat zones have been heard in Nairobi. The Valuation Court, which is presided over by the Chief Valuer, Mr. J. P. O'Connell, has been asked to consider the valuation of plots in flat zones. The Valuation Court, which is presided over by the Chief Valuer, Mr. J. P. # Noted decision vindicates ratepayers

## BIG ASSESSMENT CUTS LIKELY

MANY Nairobi ratepayers, whose objections to the City Valuer's assessment of the value of their plots were turned down, are likely to see substantial reductions because of a Valuation Court decision. Mr. H. L. Adhemar told the Chamber of Commerce.

Mr. Adhemar explained that the court's ruling applied to all ratepayers who had been assessed in areas noted for high density of development. The areas include the Valley Road, the South Hill area, Killeshwa, Selous Road and Parklands estates.

Mr. Adhemar said the court had ruled against the City Valuer's assessment that land in these areas should be valued for rating purposes on its potential value if it were created there. It also ruled that the Valuer had misapplied the function of the City Council and that valuation could now be made on the basis of what the land was actually used for.

The particular case before the court was that of the Valuer had insisted the whole of the 111 acre site of the area with all plots considered as one.

Mr. Adhemar said that the Valuer had insisted that the whole of the 111 acre site of the area with all plots considered as one.

# Four ways could cover outlay for season

**BARING SCOTCH**  
Shortbread

**BY DENVER**  
I AMY week we covered the three draws. Let us now take a look at the four ways, but before we do it is well to see how to get to the score of the dividends paid out on this plan. Taking as the base of the dividends we find that while the average was 286/- on 11 occasions there were only three over 300/- and only one over 350/- were declared and one week, there were only two over 300/- on the coupon, there being one exceeding 300/- and one exceeding 350/-.

If this is surprising to you, you will find that the four ways could really cover one's outlay for the season. It will be appreciated that not only does the four ways divide the dividend but also the share capital. It is not surprising a good percentage of the share capital is in the hands of the four ways.

On the other hand, when the four ways are not successful, the dividend is not paid and the share capital is not paid. This is a very important point to remember.

Finally, it is pointed out that the four ways will include some of the best shares in the market at the time of the issue and provide a very good return on the investment.

It is to be noted that the result should be an easy way but it is often possible that many such result in either a draw or even a loss.

**Now Available**

**Investor suffers**  
Many factors, too numerous to mention, have conspired to make these four ways and many other investments a failure.

One of the main reasons for this is the fact that the four ways are not a simple investment but a complex one. It is not surprising that many investors have suffered a loss on their investments.

**U.K. POLICY 'CAUSING DISMAY' WIDELY IN COLONIES**

VISCOUNT Hinchinbrook (Conservative), who has just returned from Africa, told the House of Commons he had found that current British Colonial policy was causing widespread dismay.

This was not only on the part of moderate Africans but also of the extreme right through the ranks of Colonial officers (some of whom are now being sent to the front) and the Colonial Secretary.

He said that he was sure that the Colonial Secretary was a "little bit behind" in his views on the subject.

BRITAIN'S Prime Minister, Mr. Churchill, said yesterday that the Government would study "most carefully" the views of delegates to the London conference on the subject of the independence of the British Colonies.

"We will be studying the views of the delegates most carefully," he said, "and we will be taking account of them in our future policy."

**U.K. duty on acceptance of rights**

A simultaneous statement on the security of land titles in Kenya was made last night by the Colonial Secretary, Mr. Macleod, in the House of Commons, and the Minister for Lands, Mr. Havelock, in Kenya's Legislative Council.

After reviewing the inclusion of provisions in Kenya's Constitution for ensuring security up to and after independence, the very last sentence stated: "H.M. Government considers it to be their duty to promote the general acceptance of those rights."

**Met by desultory applause**

Mr. Havelock's statement, which took only two or three minutes to read, was received by the House in desultory applause. There was no cheering, apart from a few "Ahs" and "Hes" when he sat down.

The text of the statement was as follows: "The Lancaster House conference there was a proposal for the enactment of a code to protect fundamental rights of the individual, including the rights in property. H.M. Government then undertook to provide security of title in the new Constitution."

H.M. Government has now taken steps to ensure that Kenya's security of title provisions will be accepted by the people of Kenya. It is the duty of the Government to ensure that the provisions of the Constitution are accepted by the people of Kenya. # FIGURES MIRROR BONN'S GREAT RECORD

WEST GERMANY'S post-war economic "miracle" is reflected in an impressive statistical report published last week by the Federal Statistical Office, Bonn.

One notable figure from the report on the outgoing decade, 1949-58, is that wages rose by 77 per cent, a record since leaving industrial production.

In France the comparative increase was 36 per cent, in the United States 21 per cent and in Britain 11 per cent.

### Pay doubles

The average weekly pay of industrial workers more than doubled from 1949 to 1958.

Wages in 1958 were 118 per cent higher than in 1949.

The index (with 1938 average 100) rose from 118 to 224.

# PALACE SECURITY CHIEF'S BODY HANGS IN PUBLIC

## HANGS IN PUBLIC

BEFORE the start of the trial of the former security chief of the Royal Palace Guard, Col. Winston Churchill, his body was exhibited in the public square. One of the prime motives of the trial was to show the public that the king had killed the people when he was assassinated before putting the pistol to his head and pulling the trigger.

On the night, the funeral cortege of Lord Alton and high officials went down the winding roads through the streets of London. The cortege was led by Lord Alton's wife, Lady Alton, who was dressed in black. She was accompanied by Lord Alton's other children, including Lord Alton's daughter, Lady Alton.

### The shape of a good scotch

People who know scotch by experience know that above all its mystic process of evolution cannot be hurried - refuses to lend itself to mass production techniques. They like their scotch made the old, slow way - like it made by a small family concern to whom time and productivity mean no more than a hundred years ago - like it the way it is in the tall triangular bottle.

Tribe asks for return of banished liabon

THE Kenya Government is considering a request from the Kiunga African District Council that the tribe's liabon - banished in 1934 - be allowed to return.

The council had asked the Government with the view of finding suitable land outside the present Kiunga Forest in which to erect a liabon kraal and a liabon kraal on the site of South Point.

It is not possible to say when the liabon kraal was banished, but it is generally believed to have been banished in 1934.

THE WHOLE FAMILY WILL LAUGH AT THIS PANTO

THEATRE, however, dancing and singing - all the ingredients of a good pantomime - have been included in Glyn Davies' production of Dick Whittington which opened at the National Theatre, Nairobi, on Monday night.

It is not more than 25 years since the Kiungu tribe, then known as the Liabon, were banished from the Kenya Government Forest and their liabon kraal removed from among them.

They were not considered a political threat, but had become known and feared by the white settlers of the hills they occupied.

One Kiungu girl, said to be a small son, who took refuge in the forest and was banished, was a girl named Mairi who had been banished in 1934.

Myoral ear

In many cases geriatric who in pain from ear trouble find it boring to have their ears examined. Great attention has been paid to the ear and there are some common causes about the myoral ear.

The point is simple, an ear which has an infection in the middle ear will not be able to hear and it is necessary to get the middle ear cleared up.

They lead on Mairi where they are involved in a world of their own. This is the world of the beautiful, daughter "The Kiungu" who has been banished from the hills.

The Kiungu, across the day and night, is a world of their own. They lead on Mairi where they are involved in a world of their own.

'DISPRIN' STOPS PAIN SAFELY!

Doctors know today that quinine, bicarbonate and sometimes even serious disorders can be caused by ordinary pain relievers. This is because they do not really dissolve and their solid particles can seriously irritate the walls of the stomach.

Disprin is different. It dissolves even as you actually drink it and thus overcomes this danger.

Disprin regd. for flu, colds, feverishness, headaches, chills.

Colour Photography with GEVACOLOR

Everybody demands colour transparency which are striking - you can take them too if your camera is loaded with Gevacolor film, the film for any time of day, every sort of weather, everywhere.

Remember - when ordering film, ask for GEVACOLOR FILM. Gevacolor is for several (non-patented) color prints and enlargements. E. E. ROSSON LTD. City House, Cannon Street and Strand Street, Telephone 25555, Box 10077, Nairobi.

# Accuracy of performance by Kenya athletes

By A. EVANS, COLONY SPORTS OFFICER

WITH the development and progress of athletics in Kenya since the Second World War, doubt has been expressed as to the accuracy of performance by our athletes. It is really not so in all cases, but in some it is high. Do you think that the results in the 100 yards race were correct?

It is a well-known fact that the 100 yards race is the most accurate of all the races. The performance of the athletes in this race is usually very accurate. The performance of the athletes in this race is usually very accurate.

The above P. J. Walker C. P. Walker, Life Vice President of the Kenya Athletics Association, has been elected as the first President of the Kenya Athletics Association. The performance of the athletes in this race is usually very accurate.

# SCOTT BAGGIN WINS ANNUAL FAULT

## Suggested terms for Colony-wide internationals

GOLF BY D. M. DUNCAN

ACTIVITY over the past few months has been concentrated on inter-club contacts. All this has done is to bring the two sides closer together, but the fact remains that the Scots were once again victorious, this time by a margin of 15 to the 10-10 draw.

Looking all with the formidable partnership of Booth and E. Munro, followed by R. V. Montgomery and D. M. Duncan, then W. C. Duff and R. Forrest, the Scots enjoyed a considerable advantage from the start of play. The first two partnerships met with some success against W. G. O'Grady and C. F. Abbott, and P. M. Morrison and M. O'Connell, but Duff and Forrest found A. E. Baxter and A. G. Guyver in a determined mood.

### Grigg Cup attracts 27 entries

With fourteen partners representing their old schools, 27 entries have been received for the Grigg Cup, to be played at Royal Nairobi over the week-end.

### D'Conna drops out of Asian side

It is a pity that the right-hand member of the Asian side in the A.S.P. match on Saturday 21st January is not the one who has been the main attraction of the match, the late Mr. D'Conna, who has been dropped from the team.

Other profiles showing taking part this year include: Mr. Alan Gray and Mr. John Hill, who have both been in the team for several years; Mr. G. P. Fisher and Mr. D. M. Duncan, who have both been in the team for several years; Mr. W. G. O'Grady and Mr. C. F. Abbott, who have both been in the team for several years.
