Statutory independent authority suggested by commission

INQUIRY BACKS KENYA TV Report says: No sponsored programmes

TELEVISION should be introduced in Kenya under an independent statutory authority which, preferably, should control both sound broadcasting and television, the Kenya Television Commission recommends in its report which is published today.

The commission suggests that its introduction should be deferred for at least 18 months and that there should be a period of three months for its tests before the official opening.

The Government stresses that it has not yet studied the report or made decisions on any of the recommendations.

It is suggested that the board of authority should consist of a chairman and six members, one of whom should be a general, an ex-officio member of the board should be responsible for running the service.

Nairobi start
Capital should be provided by credit facilities guaranteed by the Government if money could not be raised from the Colonial Development and Finance Commission broadcasting allocations. The authority would be financed by licence fees derived from licence fees from radio and commercial stations.

The commission recommends that initially television should be confined to Nairobi.

Kenya should be provided with a television station at the establishment of the Nairobi station. Other recommendations of the commission are that English language use as the basic medium with possible Hindi, that a 14-hour programme should be provided for the country and that programmes should be advertised in the press.

63/- licence
The final principal recommendation of the commission is that the licence fee should be 63/- per annum.

The report states that in the absence of any other body of enquiry, the Government should refer television at present to the Kenya Television Commission. It must be established as a statutory authority. There is also general agreement that rather than an operation which might be hastily started, the introduction of television should be deferred to ensure that when it does start it will have had the necessary preparation and facilities to be provided.

Views of Lord Shawcross 'deplorable'
Sir Lord Shawcross, the Prime Minister of the Central African Federation, and Sir Edgar Whitehead, Prime Minister of Southern Rhodesia, have described the report as 'deplorable'.

Government that it was the first matter being referred to the Government by Mr. Macmillan, when he arrived in Salisbury on Monday. Mr. Macmillan said he would not have been asked to do so if he had been asked to do so by the majority of Africans.

COMPENSATION RULED OUT AS PAVING WAY FOR 'SCUTTLE'

MORE than 30 farmers in the Machakos and Thika districts have supported a resolution being paid to them for their farms. They say that such a suggestion indicates that they should contemplate a policy of scuttle before the 'blat' resolution, which is being introduced by the Harniss, the Uthman, a constituency representative at the meeting of 30 farmers in the Machakos district. It has members of the Thika District Association Executive Committee.

Mr. Harniss is taking the place of Mr. Harniss, who is the chairman of the Machakos Farmers' Association. He has been elected to the position of chairman of the Machakos Farmers' Association. He has been elected to the position of chairman of the Machakos Farmers' Association. He has been elected to the position of chairman of the Machakos Farmers' Association.

U.S. support for Bank's Aswan aid

PRESIDENT Eisenhower said in Washington today that the United States would support World Bank financing of the Aswan Dam, being built by Egypt.

Mr. Eisenhower said that the United States would support the Aswan Dam project because it would help to bring about peace in the Middle East. He said that the United States would support the Aswan Dam project because it would help to bring about peace in the Middle East.

Offer withdrawn

Before the bid was critical, the U.S. withdrew its tentative offer to give World Bank financing of the Aswan Dam project. The U.S. had offered to give World Bank financing of the Aswan Dam project.

Q. Why is the Citroen so advanced?

The Citroen is advanced because it is a car that is designed for the future. It is a car that is designed for the future. It is a car that is designed for the future.

Britain to continue policy of protecting countries

BRITAIN had made it abundantly clear she would continue to protect Northern Rhodesia and Nyasaland until it was definitely known that its people wanted to enter into a full and independent federation.

Mr. Macmillan made this policy statement in Lagos when he told the Press that he hoped for an early end to the Emergency in Nyasaland.

The British Prime Minister would step taken to the able to bring about a state of affairs which would be a step towards a full and independent federation.

Consistent outlook
Aided by the fact that there was a sense of frustration which the people of Northern Rhodesia and Nyasaland felt, Mr. Macmillan made it clear that he was not prepared to give an opportunity to those who were in favour of a full and independent federation.

THREE KILLED BY LIONS

Maneaters lions are terrorizing the districts of Northern Rhodesia and Nyasaland. Three people were killed by lions in the districts of Northern Rhodesia and Nyasaland.

A pair had been wounded when they were hunting in the district of Northern Rhodesia. A pair had been wounded when they were hunting in the district of Northern Rhodesia.

The Chief Commissioner for Northern Rhodesia and Nyasaland has called for assistance from the Government of Northern Rhodesia and Nyasaland.

K.F.L. LEADERS STRAYED
Criticism of strategy by employers' press

The general secretary of the Kenya Federation of Labour Unions, Mr. J. M. Hillard, has been criticised in the employers' press for his leadership of the Kenya Federation of Labour Unions. At his independence conference, Mr. Hillard stated that the constitutional and political objectives were not merely economic and social objectives but also to advance the interests of the workers.

He also revealed that the Government was taking measures to curb the activities of the Kenya Federation of Labour Unions. He stated that the Government was taking measures to curb the activities of the Kenya Federation of Labour Unions. He stated that the Government was taking measures to curb the activities of the Kenya Federation of Labour Unions.

Without success
They expect the K.F.L. to be successful in their efforts to bring about a general strike in Kenya. However, the employers' press has expressed doubts about the success of the K.F.L. in this regard.

Not politics
The K.F.L. is not a political party, but a trade union. Its primary concern is the welfare of its members and the improvement of their working conditions.

Disorder
The railway strike in Kenya has caused a great deal of disorder in the country. The strike has disrupted the transport system and has caused a great deal of inconvenience to the public.

Docks meeting adjourned
The meeting of the Docks Workers' Union has been adjourned until a later date. The meeting was held to discuss the current situation in the docks and the prospects for the future.

Not by threats
The attack on African workers in Kenya is not justified. It is a violation of the principles of justice and fairness. The workers should be treated with respect and dignity.

Unreasonable?
The demands of the workers are reasonable. They are asking for a fair wage and a fair working hour. These are the basic rights of every worker.

Is yours a GOOD BABY?
The health of your baby is your greatest concern. You want to make sure that your baby is healthy and happy. That's why you need to use the best baby powder.

WEEK-END STANDARD SPEEDY CHEETAH -GUIDED MISSILE OF THE HUNT

The sight of cheetahs in their wild state is always a thrill — no one can help wondering about their life, hidden away in the wild.

This article is an attempt to supply some facts about cheetahs. Cheetahs occurred in the past throughout Africa with the exception of some forests and complete forests.

They extended to the past through Arabia, Persia, Persia, India and Mesopotamia, but not further east. But now most of this area has been cleared and the cheetahs have been driven out from the Arabian cheetah, which still exists in existence in a few spots.

GOOD AREA

Nowadays they are found in their greatest abundance in Kenya, Tanzania and Botswana, and it is in the good areas to be seen in the area even to the present day. There are several of these.

The good areas in Kenya are found in the Masai country and in the Masai country with herds of five or six cheetahs. The cheetahs are fortunate in being a very good rate of reproduction. The female produces her litter of cubs in two years and the frequency succeeds in rearing them all.

It is much to the credit of the female cheetah that she

RAYMOND HOOK well-known for his training of cheetahs, writes of the habits and history of these magnificent animals.

does all the killing for her cubs until they are able to hunt on their own. This is a great old and able to kill for themselves.

The cubs will endeavor to help rather than by learning as that she may kill themselves.

They prey in mainly animals they are up to their necks in their own world — on the farm, they are mainly gazelles and Thomson's gazelles. In the forest, they kill a few fallow deer.

Particularly when the cheetah mother will kill with her large animals, her method of killing is the same as that of all other cats — she kills by strangling.

Here, she kills by one severe bite over the heart. She never attempts to bite the neck. I have never received information to be called upon with a certain degree of certainty, but I believe that she kills by strangling.

The cubs are born naked and are very helpless. A picture of the king as a human-headed cheetah

leads to follow their mother when they are three or four months old. In the end of the cub's life, it is very frequently found alone.

I have myself known him to be very successful in his hunting. The cheetah is a very fast animal and is very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

The cheetah has a very long tail and is very fast. It is very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

On the tomb of the cheetahs, it is represented with a cheetah in the center of the tomb. The cheetah is a very fast animal and is very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

ON SHIELDS
In the other two cubs the animals are composite with the body proportions of cheetahs. It appears that the Royal cheetahs were provided with a shield at the bottom, covered with a royal emblem, and a picture of the king as a human-headed cheetah

A cheetah seen in the wild. The cheetah is a very fast animal and is very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

FAST RUN
I caught myself only a dozen or so but I collected the rest for the day. In Africa they are 1000 yards with a hare. The cheetah is a very fast animal and is very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

ANSWERS TO THE QUIZ
The answer to the first of a couple of very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

Prize-winners in Christmas competitions

THERE was a mixed response to the Christmas competitions in the "Week-end Standard" of December 24. Entries for the Christmas Crossword filled the postbag for several days.

But the odds on the results of the crossword were not so good. The "Week-end Standard" of December 24. Entries for the Christmas Crossword filled the postbag for several days.

Winners of the Christmas Crossword Competition, who also receive 50/- each, are: Mr. J. R. Bennett, 117 The City, London; Mr. J. R. Bennett, 117 The City, London; and Mrs. Bennett, 117 The City, London.

ANSWERS TO THE QUIZ
The answer to the first of a couple of very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

Crowds in East Africa at the beginning of January were building up. The weather had just settled in the first significant phase of the year. The weather in February was a beautiful day. The result of the quiz was a mixed response to the Christmas Crossword filled the postbag for several days.

The 10th anniversary of the formation of the League of Nations was celebrated in London in April. It was a very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

A CAKE AND CRICKET
The public figure who attended in October that several million people were "absolutely happy" was Field Marshal Lord Curzon. He was a very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

The 12th anniversary of the formation of the League of Nations was celebrated in London in April. It was a very much of a creature. The male and female are very different in color. The male is more of a tawny color and the female is more of a buff color.

This is Abbestos Cement

A UNIVERSAL product made in East Africa

Economy in cost, speed of erection, amazing durability! Those are just some of the reasons why the Consulting Engineer specified asbestos cement materials for the Pyrethrum Board of Kenya's Extraction Plant. Other integral properties of asbestos cement were also found to be ideal for the special requirements of this factory. The prevention of condensation; minimum heat absorption; massive ventilation louvers—all these problems at the Plant were solved by the use of asbestos cement.

Asbestos cement is ideal in Africa

Other integral properties of asbestos cement were also found to be ideal for the special requirements of this factory. The prevention of condensation; minimum heat absorption; massive ventilation louvers—all these problems at the Plant were solved by the use of asbestos cement.

Asbestos cement is ideal in Africa

E. AFRICAN MOTHERS-TO-BE FINN FRIEND IN WEATHER

By LESLEY CLAY

THE dress problems of the mother-to-be in East Africa are far fewer than those of her counterparts in Britain. This is, of course, due to our better weather which makes it unnecessary to buy heavy and expensive outdoor clothes. It also allows a bolder choice of materials for maternity clothes and a more gay variety of colors.

"How does the young mother in Kenya dress while she is waiting for the arrival of her youngster?" I asked a specialist a special "treatment," does she have her children dressed in the same fashion as she herself?

I have seen to them dressed in shorts as I had seen in Britain on the first day of her first baby, but the other who is waiting for her child.

The first I shall call Ethel, as I know her, has a dress of olive pattern to attend, she has to take into consideration evening wear as well as day-dress. She had made a dress of evening dress, but she is disappointed in it as it is so heavily draped.

FOR EVENING

A black chiffon cocktail dress with long skirt and plenty of back fabric takes care of evening requirements. A coat over it is usually straight, and the dress can be worn to a modestly in which she is a great favorite. Two starts of the same material, the coat with contrasting colors for the contrasting colors.

PET AVERSION

She is averse to the other mothers to whom she is asked to come to a mother's evening, which has been of regular attendance. Her husband's aversion to the evening wear has been a great disappointment to her, but she is not averse to the evening wear as it is natural to her.

GOOD RESULT

Over the past few years there has been an increase in the number of infants born dead or deformed or with various congenital defects. A recent survey of babies born in the city of London has shown that the death rate at birth is less than that which has been reported in other parts of the world. The percentage of babies born with congenital defects is also lower than that reported in other parts of the world.

The campaign to reduce the proportion of children who are born with congenital defects is a regular endeavour in the city of London. The results of the examination of ante-natal and post-natal cases have been reported in the following notes:

NOTED AUTHORITY

About four years ago a number of research workers were engaged to carry out a survey of the incidence of congenital defects in the city of London. The results of this study are now being reported in the following notes:

HORMONE STUDY

To secure more information and assess more accurately the influence of hormonal conditions and abnormal pregnancy, a social researcher in the Aberdeen district has recently been formed within the framework of the study of marriage, childbearing and child care in the home.

It is now being studied by a number of research workers who are engaged to carry out a survey of the incidence of congenital defects in the city of London. The results of this study are now being reported in the following notes:

Two choices for last-in-waiting

FASHION NOTIONS LIKELY TO LAST TO LAST

By HAZEL MEYRICK

WHEAT new fashion "glitterments" making their bow every week. London it is difficult to forecast because of the fact that new styles will disappear almost as suddenly as they appear, and which will find favour, and find their way to East Africa shops.

However, here are a dozen "glitterments" about to be launched which should give a woman a good idea of the new styles.

The first of these is the long-sleeved evening dress. This has been a feature of the London fashion scene since the war, and is likely to continue for some time. It is a dress which will find favour, and find its way to East Africa shops.

MANY USES

It is well known that a woman's wardrobe can be better than a woman's income. It is well known that a woman's wardrobe can be better than a woman's income. It is well known that a woman's wardrobe can be better than a woman's income.

TWO EXAMPLES

A woman named Newton, for example, was left a widow in 1942 during the pregnancy, and gave premature birth to a son who was extremely feeble. She is now a mother of four children, and all of them are healthy and strong.

DESIGNERS IN ITALY FAVOUR TUNIC LINE

ONE of the top fashion lines of the moment in Italy is the tunic line. This is a line which is based on the lines of the classical Greek and Roman tunics. It is a line which is based on the lines of the classical Greek and Roman tunics.

TRAVEL GARMENT

Schubert, on the contrary, was the last of the travelling garments. He has designed a travel garment which is both practical and stylish. It is a garment which is both practical and stylish.

SCREEN STARS FIND IT FASHIONABLE TO BE FAMILY WOMEN

TIME was when film stars and actresses kept their families in the background and having a baby was regarded as something of a misfortune.

Research taking last of risks from childbirth

BY LAURA ISHERWOOD

FROM the beginning of the century until the mid-1930s statistics in most countries showed an increasing rate of living in which it was not more than five women in ten thousand who died in childbirth. By 1960 this figure had been reduced to less than 1 per 1,000 living, or in 1960, it is a common knowledge that the risk to a woman of dying in childbirth is less than that of a woman dying in a motor car accident. It is a common knowledge that the risk to a woman of dying in childbirth is less than that of a woman dying in a motor car accident.

The risk to a woman of dying in childbirth is less than that of a woman dying in a motor car accident. It is a common knowledge that the risk to a woman of dying in childbirth is less than that of a woman dying in a motor car accident. Cheapening U.S. scheme abandoned

C.U.T. DECISION AFTER LEGAL DIFFICULTIES

The Commonwealth Union of Trade Unions in London yesterday said it was leaving to the Government the decision to proceed with its plan for cheapening U.S. air services.

Suspect on plane caused no danger

A POLLO suspect who walked out of the Nairobi detention hospital on Tuesday and headed for the airport caused no danger to other passengers, a doctor declared when the plane arrived there.

Amulance driver was not on plane

The driver of an ambulance which was not on the plane which was arrested at Nairobi yesterday was not on the plane, it was learned from a statement issued by the Government.

Judgment for Crown in roads action

ASSEMBLY members today found the Government's case against the Nairobi Road Builders' Association strong, and they were expected to give judgment in favor of the Crown.

Accounts supplied

Mr. Ganiyu had also supplied the accounts for the Nairobi Road Builders' Association, which were found to be correct.

FRANCHISE MAJOR ISSUE AT TALKS

The Governor of Kenya, Sir Patrick Renshaw, said at a London Airport when he arrived for the constitutional talks that the chance of success for the Kenya independence conference in Kenya would depend to a very large extent on the result of the conference. Delegates were expected to discuss the franchise issue.

Dairy Board official

Mr. Norman Garrett has been appointed executive director of the Dairy Board of Kenya. He will be responsible for the development of the dairy industry in the country.

Standard Dairy

The Standard Dairy Company has announced that it will be expanding its operations in Kenya. The company is currently producing milk in Nairobi and is planning to increase its production.

Good response to call for anti-polio drive volunteers

MANY Nairobi people volunteered and wrote to the City Hall yesterday in response to the appeal by the Health Department for 1,000 volunteers to give blood samples. The samples are required before the City Council can launch its proposed mass polio vaccination campaign—using the new live-attenuation system.

Court told of scene in club

WHEN civil and military police appeared at the Nairobi Club yesterday, they were told of a scene in the club which had taken place the night before.

Public backing

A representative of Kapiti Africa, a Nairobi-based firm, said that the public backing for the anti-polio drive was very good.

Police backing

The Nairobi police have agreed to provide transport for the anti-polio drive volunteers. This will help them to reach the various vaccination centers.

General desire for TV in Kenya

STRESS ON IMPORTANCE OF

ROLE AS TEACHER

In all the evidence that the Kenya Television Commission received, the importance of television could give its facilities for education, particularly for Africa, was strongly emphasised.

Commission's report, submitted last Friday, was by Comdr. F. C. R. Ford, Director of Education, and Mr. W. A. Roberts and Mr. W. A. Singh. It submitted the following recommendations for an immediate meeting in Kenya, to discuss television on the main characteristics would be to meet the needs of the people.

Members of the board of the Kenya Television Commission should be given the opportunity to visit the television stations in the United Kingdom and to see the part played by television in the education of the young.

Members of the board of the Kenya Television Commission should be given the opportunity to visit the television stations in the United Kingdom and to see the part played by television in the education of the young.

Staff costs
Total operating costs are placed at £10,000 a year at first. In the first year, the cost of the station is estimated at £10,000. From the fourth year, the cost is estimated at £10,000. The cost of the station is estimated at £10,000.

Two years' time
An application should be made to the Kenya Development Board for a grant to meet the initial capital cost of the station. It would be necessary to look for private enterprise or for the Government to guarantee about £10,000.

WHITENESS IS NOT ENOUGH

Becky reduced over 50% by using Amm-i-dent

White teeth may not mean decay-free teeth. But now you can keep a smile that has really been proved to last much longer! Years of research have led to the invention of an innovation. British scientists have achieved it on a series of strictly controlled clinical tests and proved that it reduces the risk of dental caries to more than half!

This innovation is incorporated in a new dentifrice, Amm-i-dent. By releasing the best of American, Amm-i-dent fights the harmful acids that are the chief cause of tooth decay. It removes stains and discoloration, too, leaves your whole mouth fresh and healthy.

Go to your dentist today and have a tube of Amm-i-dent. Then see for yourself how its regular use will give you wonderfully white, decay-free teeth!

AMM-I-DENT—the ammoniated toothpaste that keeps teeth white, prevents decay.

Water Ordinance, 1951

NOTICE

Table with columns: NAME AND DISTRICT, QUANTITY IN GALLONS PER DAY, RIBBON OR RUBBER FLOW, USE. Lists various districts and their water requirements.

Particulars in each of the above application for divisions of water, plans of which may be seen at the office of the Local Water Officer.

Objections stating specific grounds therefor should be filed in triplicate with the Water Superintendent, District Engineer, Nairobi, Kenya, within 10 days from the publication of the notice.

Kenya conference meets for one hour without African Elected Members

MR. MACLEOD HITS THE RIGHT NOTE Britain tires of continued wrangling

ONCE again the conference held to study Kenya's constitutional future assembled at Lancaster House, London, yesterday afternoon and once again the African Elected Members were absent.

This was the fourth session they had refused to attend because of the dispute with the Colonial Secretary, Mr. Macleod, and members of other groups over the exclusion of Peter Koinange whom they want to have with them as a 'special adviser' with the American lawyer, Mr. Thurgood Harbours.

Though the deadlock continues to hold up the work of the conference, a campaign of words is being waged outside, with an incessant stream of statements and radio and Press interviews by all the groups.

However, one sign that the public growing tired of the wrangling was given when the B.B.C. placed the substance on the list of news items in last night's bulletins and made only a bare mention of the fact that an afternoon session was held without the Africans.

Mr. Ngala 'disappointed'

The leader of the African delegation, Mr. Ngala, was reported as saying he was very disappointed at the failure to settle the deadlock over the admission of a Koinange round of meetings, in which both Mr. Macleod and the Colonial Secretary, Sir Patrick Hennessey, have taken part. One of the reasons for the failure to reach an agreement, Mr. Ngala said, was that the Africans were unable to establish the session to start with all the delegates participating.

During the day all the groups met privately to study the proposals delivered by Mr. Macleod at Wednesday's plenary session. Although this was also held in private, the main part of Mr. Macleod's speech was released through the Colonial Office. Most of the text was given than had been anticipated, relating to his own proposals for discussion. (A full report appears in this page.)

The publication of statements outlining the attitudes of the various groups to Mr. Macleod's proposals was deferred in the hope of a compromise over the status of advisers. In general, the impressions were not unfavourable but there were wide points of variance over detail.

Statements postponed

Mr. Ngala's immediate reaction was that "it could provide a basis for negotiation". The leader of the United Party, Group Capt. Briggs, said there were some points which his party did not like. In particular the question of a common roll was unacceptable. "There are some parts of the policy with which we would agree and others about which we are not quite sure until there has been further explanation," he added.

Nobody was injured when this bus crashed through the parapet of the bridge near Kisumu station on the main Nairobi-Kisumu road yesterday afternoon and hung precariously above the railway tracks. The picture was taken by the "East African Standard".

Complaint against official Round the world

ALLEGATIONS of violation of other provisions involving a railway building superintendent were not substantiated during a inquiry today, the East African Standard and Harbours Administration announces today.

The inquiry reveals that the six allegations against the superintendent of Nairobi engineering department, Mr. A. H. McElroy, the facts had been either distorted or grossly exaggerated.

Part of the body of ground covered by November 13, 1956, the management of the East African Railway and Harbours Administration by members of the African group leader and the delay was immediately.

Three investigations, which were in progress before the strike, were completed today.

Recognised names: A report of the inquiry revealed that the findings indicated that in the building superintendent had not been negligent in his duties.

It was stated that the inquiry was held in the presence of the African group leader and the delay was immediately.

MISSING BUS TURNS UP

A bus of British Road Transport Corporation was reported overdue at Kampala on Monday afternoon. The bus was reported to have departed from Kampala on Sunday afternoon and was found by the impossibility of the bus being in the area.

WIDE FRANCHISE TO EXPRESS ALL VIEWS NEEDED

The following is the official communiqué issued on Wednesday's session of the constitutional conference, when Mr. Macleod made his keynote speech.

The second plenary session of the Kenya constitutional conference was held at Lancaster House on Wednesday afternoon. The session was devoted to a statement by Mr. Macleod.

The Colonial Secretary opened his speech by reminding the conference of the main lines of policy which had been agreed in earlier statements. He said that the conference was held at Lancaster House on Wednesday afternoon.

The first principle of the conference was to ensure that all views were expressed. He said that the conference was held at Lancaster House on Wednesday afternoon.

The second principle was to ensure that all views were expressed. He said that the conference was held at Lancaster House on Wednesday afternoon.

SIGNS OF SPLIT IN AFRICAN FRONT

REPORTS that Mr. Mboya, possibly accompanied by the exclusion of Peter Koinange, will leave for Tunisia on Friday night indicate that he is adamant.

The view is held there, however, that other Africans will join the conference if the official attitude remains firm and groups do not waver.

BANK RATE UP TO 5 PER CENT

London prices drop Britain yesterday raised her bank rate 1 per cent to 5 per cent

The bank rate is the key to the amount of interest at which money is general borrowed and lent. It had a per cent since November 20, 1953, right through a period of unprecedented boom on the British Stock Market and in three years of peace.

It was important to avoid any possibility of inflationary pressure or any weakening of the pound sterling.

They said that improved conditions in the industrial sector had led to a rise in the rate of change was directed primarily at the commercial banks.

London Stock Exchange figures immediately following the announcement of the bank rate increase showed a fall in the value of the London Stock Exchange.

People hoping their bank accounts were unaffected about it would soon find that they were not.

The Bank rate increase has led to a rise in the interest rate on all bank deposits.

The Bank rate is now 5 per cent, the highest since September, 1952.

KENYA'S FACILITIES FOR TOURISTS INTERIOR TO OTHER COUNTRIES

QUESTIONS FOR K.B.S. TO ANSWER

Dress styles in Kenya

BYRON has Kenya may I say how much the whole I have enjoyed my time here and about to leave. There are many things we have enjoyed to see a pleasant one.

In the last visit I visited the country. I was very much impressed by the facilities provided for tourists. The roads are very good and the scenery is beautiful. The people are very friendly and the food is excellent. I would like to see more of the country and to visit the national parks. I would like to see the people who have been brought to the country and to see the people who have been brought to the country.

A visitor I am wondering at what people are dressed in Kenya. Generally what do you dress in Kenya in the right country for tropical climate?

In Kenya, the dress is very simple and practical. The people wear light-colored, short-sleeved shirts and shorts or trousers. The women wear light-colored blouses and skirts or trousers. The dress is very simple and practical. The people wear light-colored, short-sleeved shirts and shorts or trousers. The women wear light-colored blouses and skirts or trousers.

A. LEGGARD.
Nairobi, Jan. 14, 1960.

Boarding schools

BORING schools are a very important part of the education system in Kenya. They provide a good education for the children of the country. The schools are very well equipped and the teachers are very good. The children are very happy and the parents are very satisfied.

A. LEGGARD.
Nairobi, Jan. 14, 1960.

Tax franchise

The tax franchise is a very important part of the business system in Kenya. It provides a good incentive for the business community. The franchise is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

H. G. STEPHEN.
Machakos, Jan. 12, 1960.

Uasin Gishu petition

I am with considerable reluctance at this time. When far greater issues are being discussed in the subject of the petition. The petition is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

S. Y. P. FRASER.
P.O. BOX 100, NAIROBI.

Sylvia pact

FIRST, may I remind that the Sylvia pact is a very important part of the business system in Kenya. It provides a good incentive for the business community. The pact is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

Education

WILL you please allow me to reply to the letter of the Hon. Mr. Nyerere. The education system in Kenya is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

Demands must be reduced for London

If we in Kenya, who are in London, have any demands, no doubt we shall be an example to the whole of Africa. We must be able to solve the difficulties in our own country. The demands must be reduced for London.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

AGREEMENT

The agreement is a very important part of the business system in Kenya. It provides a good incentive for the business community. The agreement is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

Uasin Gishu petition

I am with considerable reluctance at this time. When far greater issues are being discussed in the subject of the petition. The petition is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

S. Y. P. FRASER.
P.O. BOX 100, NAIROBI.

Sylvia pact

FIRST, may I remind that the Sylvia pact is a very important part of the business system in Kenya. It provides a good incentive for the business community. The pact is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

Education

WILL you please allow me to reply to the letter of the Hon. Mr. Nyerere. The education system in Kenya is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

Demands must be reduced for London

If we in Kenya, who are in London, have any demands, no doubt we shall be an example to the whole of Africa. We must be able to solve the difficulties in our own country. The demands must be reduced for London.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

AGREEMENT

The agreement is a very important part of the business system in Kenya. It provides a good incentive for the business community. The agreement is very well defined and the government is very fair. The business community is very happy and the government is very satisfied.

W. J. M. MURPHY.
Nairobi, Jan. 14, 1960.

SIR, I am wondering at what people are dressed in Kenya. Generally what do you dress in Kenya in the right country for tropical climate?

In Kenya, the dress is very simple and practical. The people wear light-colored, short-sleeved shirts and shorts or trousers. The women wear light-colored blouses and skirts or trousers. The dress is very simple and practical. The people wear light-colored, short-sleeved shirts and shorts or trousers. The women wear light-colored blouses and skirts or trousers.

A. LEGGARD.
Nairobi, Jan. 14, 1960.

Boarding schools

BORING schools are a very important part of the education system in Kenya. They provide a good education for the children of the country. The schools are very well equipped and the teachers are very good. The children are very happy and the parents are very satisfied.

A. LEGGARD.

James Mwariti, of Kaburu Farm, picks tea with his own labour. He planted his first tea in 1952 and is now the biggest producer in the Nyeri area.

AFRICAN TEA GAINS GROUND IN EXPORT DRIVE

PERCHED precariously on the southern foothills of Mount Kenya are the rapidly expanding African-owned tea gardens—a new chapter in the tea-export story.

Land once thought to be unsuitable for agriculture because of its steep slopes and shallow fertility is now fast being colonized by the African tea grower under the leadership of the Agricultural Extension Department.

With a limited acreage, the tea gardens are being planted with a high yield of tea. Where the land is not suitable for tea, the grower has been advised to plant other crops. For each acre of tea he has received £120 a year with the cultivation of a banana. If a high yield is maintained, the tea garden can be expected to be a profitable investment.

The introduction to the growing of Kenya, which is described in this article by **ROBERT FRITH, a "Standard" Staff Reporter.**

The first tea to be planted in the area—the Matira Division of Nyeri—was in 1954. Present tea gardens are producing about 1,000 tons of tea annually made tea from such areas with an average yield of 4,000 tons. A British male tea was produced by the marketing board's factory in 1956. The yield of tea from the 1956-57 season was 11,000 tons. The yield of tea from the 1957-58 season was 14,000 tons.

The man leading this achievement is an assistant director of agriculture, Mr. G. Gamble, who began tea experiments in 1944 in the Kericho area where he was an agricultural officer. After taking tea courses in India,

Malaya and Ceylon he returned to Kenya and is now executive officer of the marketing board.

To many, Mr. Gamble is revolutionary in his growing of tea. Since tea was first cultivated in Kenya all over the world have favored shade. On the farms south of Mount Kenya no shade trees have been planted. They are a valuable farming land and while with the absence of shade the initial period had been reduced to two years and the opening of the tea plants almost.

Above all, Mr. Gamble insists on a high grade of tea from the grower with a comparable tea factory. "As I know it, not it is absolutely essential for the grower to have a large volume of tea, the most good specimen, at the price of £100 or more. It is not difficult to get £100 an acre with a high quality of tea."

The reason for the high return is that the African tea farmer has a "limited" average. If his average were not substantial it would not be worth his while to grow it.

It is now the main problem in the Nyeri area. The tea grower must be able to get a high return on his investment. Mr. Gamble says that the tea grower must be able to get a high return on his investment. Mr. Gamble says that the tea grower must be able to get a high return on his investment.

Mr. A. Troupe, a Nyeri bank representative, discusses a loan with Mwalidi (right) who wants to increase his acreage. On the right is Mr. Troupe's clerk, Samson Gachara.

WEEK-END STANDARD INVESTMENT IN SISAL RESEARCH AT THKA PAYING DIVIDENDS

FROM the end of the Second World War, when the S i s a l Research Station at Thika resumed operation, the Colony's sisal production has gone up from 27,000 tons to an estimated 55,000 tons.

There is little doubt that research has played a vital part in bringing about such an increase, but its effects cannot be accurately measured in terms of gross production.

CLEAR BENEFITS

Its benefits can be more clearly gauged by analyzing the yield of the year 1952 over the same period. In 1952 the total yield was 55,000 tons, compared with 27,000 tons in 1951. This is an increase of 100 per cent.

This steady and consistent improvement was due to two factors: greater efficiency in harvesting methods and the development of a better quality sisal with the direct assistance of research.

Very more important in the long run, research has made it possible to ensure that the high output expected to reach 100,000 tons in 1953 is not obtained at the expense of any loss to soil fertility.

SIMILAR LINES

Sisal has been grown in Kenya since 1907, but it was not until 1924 that it was decided to establish that it was a profitable investment. The first sisal plantation was set up in Tanganyika in 1907.

An area of some 300 acres was acquired in 1924, and the first sisal plantation was established in 1925.

RONALD HUTTON describes how the money spent on research since the Second World War has benefited the Kenya sisal industry.

The widely published hybrid sisal plant, 1948, is examined by Mr. R. Hutton.

tion imposed a case on planters in 1925. "Because the area was water-logged, the first step was to build a dam, and this was followed in 1929 by the first drainage system," says Mr. Hutton.

But before work could go properly under way, he had to set up a research station to carry out minor trials and exploratory experiments.

OFFERED POST

Even under these limitations, however, research proved the worth by finding new uses for sisal, notably by developing that sisal was a suitable material for the manufacture of coffee bags.

After training on a Ruata

sisal estate he went to Tanganyika to manage an estate there, later returning to Kenya. He was offered a post at the research station where operations were being resumed after the war, and in 1953 he was appointed officer in charge.

Several types of research are carried out at Thika, but none of them conforms to the popular conception of the field.

LONG TESTS

The station has no elaborate laboratories, but with retorts and white-washed scientific glassware, hybrid sisal test-out facilities.

The station relies on the Scott Agricultural Laboratories in Nairobi for its laboratory work. Indeed it has a small bank of workers, African and European, participating in various different methods of cultivation in the field, often over periods meas-

ured in months, and in all weather. Soil experiments are carried out in a drainage, but controlled, system. The plant material for a given trial is set out in the form of a circular bed, and the bed is fertilized in the usual orthodox conditions.

SIMPLE TESTS

Of these, 18 are being staged on the station and the rest are being conducted in various parts of the Colony on land that is being managed in the ordinary way. Some of these are of the type known as "simple tests" or "lack of it" in different parts of the Colony, and so that the owner of the land can get an idea of the results on his own land.

HYBRID WORK

The eventual outcome of the sisal on each plot above more resembles that of any table of plants could possibly do. The effect may be to produce a sisal which is more resistant to disease and which is more productive.

Extensive tests, which may eventually lead to considerable improvements in the sisal, are being carried out with the use of various cover plants, and the use of sisal in growing between rows of other crops.

EASY ADAPTATION

While it is not within the station's terms of reference to test machinery, the station staff are on the lookout for

Mr. R. Hutton, who is in charge of the research station. And left is Mr. Edward Hill, Senior Field Assistant, who has been on the staff of the research station for 11 years.

sisal the conditions and treatment best suited to it and the most effective method of rearing it.

Another important aspect of the research station's work is the control of plant diseases. There are no short cuts and each project has to be carried out in the field by conventional methods of application which usually means fringing areas of land with a spray of insecticide.

Stone Age Tools found near Lake Tanganyika

WITH Dr. L. S. H. Leakey's controversial discovery in Tanganyika of "Manotoid Man" shown in East Africa has since been confirmed by the discovery of stone tools near Lake Tanganyika.

Some other important finds have been made at a Stone Age site near the Kalambo Falls, which is on the border of Tanganyika and Northern Rhodesia. Experts are to spend the next 18 months studying, sorting out and classifying these finds, which have already been sent to the Rhodes-Livingstone Museum in Salisbury.

Dr. J. Desmond Clark, director of the Rhodes-Livingstone Museum and an authority on pre-historic and a friend of the late Mr. Leakey, says that the Stone Age site near the Kalambo Falls is one of the best in the world.

The Stone Age site was found by chance on a hot Sunday afternoon.

Dr. Clark has been at the site for some time and has been studying the site for some time.

There were a number of different types of stone tools, some of which were found in the same place as the stone tools.

Dr. Clark has been at the site for some time and has been studying the site for some time.

There was also a lot of other material found at the site, including a number of stone tools.

Poley and Spotty try cooking on pavement

By ROBERTA WRIGHT

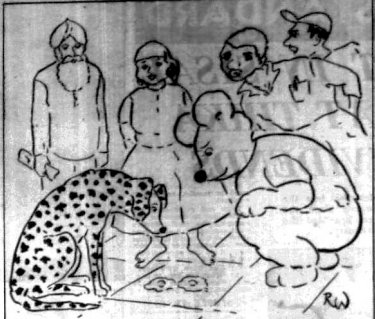

"THIS must be the hottest day of the year," gaped the father of the family as he flipped into his big chair. "It's so hot in town you could fry eggs on the pavement."

When it thought there was anything stranger in this town than the heat, he had heard it before. But it was something new to him and he thought it most interesting. "But he was very fond of fried eggs and he was not supposed to use a frypan pan."

"They, Spotty?" called Poley after lunch, "would you like to come to town with me?" "Just maybe," called Spotty. "It is much too hot."

"That's just why we are going," explained Poley Bear. He went into the kitchen and selected two spoons and two forks. "There seems to be only two eggs left," he said to Spotty, putting them carefully into a paper bag. "Now we will start out of town and we will have our fried eggs and hot pavements and see if father was right that it is too hot to fry eggs on the pavement."

The two friends set off for town. When they had stopped to give them a lift and Poley began to feel that perhaps it was better to leave the refrigerator to the mother of the family and her electric stove. But it would be fun to drop those eggs on the pavement and watch them turn white round the edges and ready to eat. They grinned and on at last they were on the pavement. "You know what happens as soon as a new recipe is tried?" "I don't know," said Spotty. "You know what happens as soon as a new recipe is tried?" "I don't know," said Spotty. "You know what happens as soon as a new recipe is tried?" "I don't know," said Spotty.

and took the egg out of the frypan. He cracked each one on the ground and set the eggs just out of their shells so as to get a good amount of steam. He was very busy, waiting for the eggs to fry.

They Poley nearly jumped on his nose as someone bumped into him. He looked round and there were lots of people clustered behind.

"You know what happens as soon as a new recipe is tried?" "I don't know," said Spotty. "You know what happens as soon as a new recipe is tried?" "I don't know," said Spotty.

They were still very hot and now the dog did not mind that. He took two big licks with his enormous tongue and the pavement was hot.

KNARF TRIES TO WAKE MR. PUNCH

By MAX TRELL

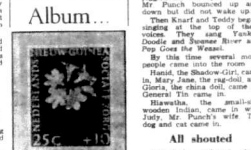

KNARF, the Shadow-Bog, and Teddy, the Stuffed Bear, came into the room where Mr. Punch was sleeping. "Shh!" said Teddy, crossing his finger over his lips. "I do not think we ought to wake him up."

"Mr. Punch will not mind," said Knarf. "He is the only one who can tell us."

"Yes! Certainly I am not really asleep. What is all you want to know? Just ask me and I will tell you." "Knarf!" said Knarf. "You had better shake him again," said Teddy.

"You had better shake him again," said Teddy. "You had better shake him again," said Teddy. "You had better shake him again," said Teddy.

For Your Album

Africa's problems analysed by expert on colonies

by JAMES MAYNE
THE political, economic and social problems of the European and coloured people in Britain's overseas territories are the subject of a new book, 'The Road to Self-Rule' by Sir W. M. Macmillan, an authority on colonialism.

The book is a study in colonial evolution, starting from Britain's role in North America and progressing through the various parts of Africa. It is a study in the historical process which has stirred international opinion.

The author writes for the present-day continental reader, especially in Africa, where the book is being published. He deals with the building of nations, the role of the United Nations, and the economic trends in Africa and Asia. He also discusses the political and social problems of the continent.

SWEPTING CHANGES MADE IN ROYAL NURSERY

QUEEN, in the kind of his articles on the Queen's baby, writes about the changes that have been made in the Queen's nursery since the Royal baby was born to the people who were previously the nursery of the monarchy.

The Queen was 12 when she became Queen of the United Kingdom. Her nursery was in the Tower of London. The nursery was a room in the Tower of London. The nursery was a room in the Tower of London. The nursery was a room in the Tower of London.

The nursery was a room in the Tower of London. The nursery was a room in the Tower of London. The nursery was a room in the Tower of London. The nursery was a room in the Tower of London. The nursery was a room in the Tower of London.

The picture of Queen VI, who was born in 1714, is shown in the nursery of the Queen's baby. The picture is a portrait of Queen VI, who was born in 1714.

But it is Prince Philip who is the main attraction in the nursery. Prince Philip is the husband of the Queen. Prince Philip is the husband of the Queen. Prince Philip is the husband of the Queen.

From wartime bomber pilot to man of God

CROFT CAPT LEONARD D.F.C., was perhaps the greatest bomber of the Second World War. He was a pilot in the Royal Air Force. He was a pilot in the Royal Air Force. He was a pilot in the Royal Air Force.

Croft Capt. Leonard

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God. He has become a man of God.

THE crowd, jostling noisily, pressed hard against the garden railings behind Hamilton Place, a London's Hyde Park.

The crowd was a white-hot mass of people. The crowd was a white-hot mass of people. The crowd was a white-hot mass of people. The crowd was a white-hot mass of people.

Constant shuffling of feet was heard. Constant shuffling of feet was heard. Constant shuffling of feet was heard. Constant shuffling of feet was heard.

INCREASING COST OF PROMPTING OLYMPICS

Excellent batting average

NEXT month the drive to raise funds for the Kenya Olympic effort will begin with a series of sporting events and the target is \$150,000. Heavily half the amount required to send the Colony's team to Rome has been raised already, with the Africa community and business houses making generous donations. The Kenya Olympic Union will therefore carry out its efforts at fund raising.

Kenya's latest enquiries in the region of £2,000,000 in the form of a £100,000 loan to cover the cost of the Commonwealth Games are expected to be approved by the Government before the end of the year. However, a widespread feeling is that the Kenya Olympic Union will probably have to accept some form of financial assistance from the Government.

Cricket festival
The festival, which will be held on the grounds of the Kenya Cricket Club, will be held on the grounds of the Kenya Cricket Club.

Kenya's cricket team will depart for England next week for a tour of the country. The team will be led by the captain, J. H. W. R. Smith, who has a batting average of 50.00.

Strong Batching Side for M.C.C. Three changes in side for return after triumph at Trinidad

M.C.C. are fielding a strong batting side for the second match against Trinidad at Guyana Park, in the first match on the island, last week. They had to win the match but Tom Greenhalgh was added when it was found that the pitch conditions take spin. His first match on the island, however, has been cancelled. Andrew, who plays in the side, has been substituted. Should Greenhalgh, the Lancashire slow bowler, not be required for Guyana Park, he will be further required for Guyana Park. The batting side of the team for the second Test. Instead of opening, he is likely to bowl in the middle order.

RURU HOLD UPPER HAND AT THIKA

ALTHOUGH Thika Club held out for a strong team and had the definite advantage of playing on their home course, they went down to a visiting team from Ruru by two wickets in the first round of the Thika and Ruru course are totally different but there is no doubt that Ruru, which is a more open course, as well as on the planting of their greens, held the upper hand from the beginning of the day.

MEMBERS REACT TO BRUSSELS DECISION ON INDEPENDENCE

Round the world

DOCTORS SUPPORT ORAL POLIO VACCINE

KENYA doctors belonging to the British Medical Association have decided to give strong support to the Government campaign for oral immunisation against poliomyelitis.

According to an official statement last night, this decision was taken without delay by the Kenya branch of the B.M.A. members discussed the safety and value of the live vaccine after hearing evidence in the form of the results of polio cases in recent weeks.

It was also decided to recommend to the parents that their children should be vaccinated at intervals of three months or six weeks.

Cat epidemic

The Government Medical Services is conducting a campaign with the police under the name of 'Cat Patrol' to deal with the increasing number of cats in the streets.

This was stated yesterday by Dr. C. D. Rowland, Director of the Department of Health.

Dr. Rowland said that in one area there were 100 cats in a small area. He said that the cats were causing a nuisance to the public and were also a source of infection.

PERSONAL CHARGE yesterday prepared to take instructions in Algeria.

He is due to return to Paris tonight to explain his plans in a broadcast to the nation tonight, after seeking special powers from the Council of State. Government sources said there was no question of Gen. de Gaulle altering in any way his self-determination policy for Algeria.

They added that he would not lightly countenance any challenge to his authority, and would punish with severity any insurrection.

Paris Deputy arrested

In Paris yesterday police arrested on hundreds of thousands of Algerians the French Deputy-General, M. Delouvrier, who did not state what the order would be. He is obeying the President of the Republic, M. de Gaulle, who has then to carry out his duty.

Government sources said there was no question of Gen. de Gaulle altering in any way his self-determination policy for Algeria.

Barriercd town yesterday in the first instance dispatched from the city. It revealed that about 6,000 instructions with vast quantities of arms and ammunition were firmly entrenched in the heart of Algiers.

Barriercd town yesterday in the first instance dispatched from the city. It revealed that about 6,000 instructions with vast quantities of arms and ammunition were firmly entrenched in the heart of Algiers.

U.S. 'strongest Power'

President Eisenhower, speaking to the Republican campaign for the November presidential election, said that the United States was the strongest power in the world.

He said that the United States was the strongest power in the world, and that it was the duty of the United States to lead the world to a better future.

Reckless men

The failure was attributed to the fact that Algerian officers were reckless men, and that they were not taking into account the interests of the Algerian people.

They were reckless men, and they were not taking into account the interests of the Algerian people.

Army dilemma

The British Government is faced with a dilemma over the Algerian situation. It must decide whether to support the Algerian Government or the rebels.

U.S. spotlights Africa

The United States is focusing more attention on Africa, and is providing more aid to African countries.

The United States is focusing more attention on Africa, and is providing more aid to African countries.

REPORTS of promised independence for the Belgian Congo made an immediate impact on the members of the delegates who met yesterday in London for the tenth plenary session of the Kenyan constitutional conference.

Speaking at the customary daily Press conference held by the African Executive Members, Mr. Kibaki said that the attention of reporters to 'his very exciting news' was added to the fact that they were asking for the Kenyan Government to be asked to call them to the conference.

He said that the Kenyan Government was not ready to be asked to call them to the conference, and that they should be asked to call them to the conference.

Missing leader demands Congo self-rule now

Big crowds in Paris yesterday cheered President de Gaulle as he went to the Council of State on special powers to deal with the Algerian emergency. He is thought to be planning to solve the crisis.

Conference gets down to business at last

Events at the constitutional conference in London this week are marked for the benefit of economy people who do not normally receive the daily edition of the "East African Standard".

AFTER a week of transition, the constitutional conference, the first since the formation of the East African Community, has finally got down to business in London. The conference, which was opened by the Prime Minister, Sir Winston Churchill, on Monday, has been held in the presence of the three African Ministers of the United Kingdom and the New Kenya Ministers of the United Kingdom. The conference is being held in the presence of the three African Ministers of the United Kingdom and the New Kenya Ministers of the United Kingdom. The conference is being held in the presence of the three African Ministers of the United Kingdom and the New Kenya Ministers of the United Kingdom.

TORY PEER ATTACKS HYSTERIA ON AFRICA

WHAT would happen if the 100,000 inhabitants of British India, instead of occupying the Indian sub-continent, were set down tomorrow in a barren African desert?

Lord Hailsham, Tory peer, asked this question in the House of Lords on Monday. He said that the British Government should be prepared to face the consequences of a mass exodus of British subjects from the Indian sub-continent to Africa.

Lord Hailsham said that the British Government should be prepared to face the consequences of a mass exodus of British subjects from the Indian sub-continent to Africa. He said that the British Government should be prepared to face the consequences of a mass exodus of British subjects from the Indian sub-continent to Africa.

TAILORED DEMOCRACY URGED

Safeguards useless if Government in wrong hands, says Member

NEED TO FORGET THE PAST STRESSED

The people of Kenya want to forget the past and work for the future, Mr. Amambao told the conference today.

Each of the committees which were set up to study the constitution should think what was most likely to be a success and what was most likely to be a failure.

Mr. Amambao said that the people of Kenya should not be misled by the past. He said that the people of Kenya should not be misled by the past. He said that the people of Kenya should not be misled by the past.

I would be prepared for the Kenya and we must have some kind of safeguard... Safeguards will be of no value if the Government is in the wrong hands... Mr. Amambao said that the people of Kenya should not be misled by the past. He said that the people of Kenya should not be misled by the past.

Common roll step to unity in Kenya

A COMMON roll was being introduced in Kenya... The roll was being introduced in Kenya... The roll was being introduced in Kenya... The roll was being introduced in Kenya...

Check of promotion

Mr. Mbatia has had his promotion checked... Mr. Mbatia has had his promotion checked... Mr. Mbatia has had his promotion checked... Mr. Mbatia has had his promotion checked...

Secondary industry

We want our secondary industry... We want our secondary industry... We want our secondary industry... We want our secondary industry...

Head in sand

Two important questions must be considered... Two important questions must be considered... Two important questions must be considered...

Uitimate aim

Mr. Amambao urged delegates to forget the past... Mr. Amambao urged delegates to forget the past... Mr. Amambao urged delegates to forget the past...

Mutual tolerance

We must work for mutual tolerance... We must work for mutual tolerance... We must work for mutual tolerance... We must work for mutual tolerance...

Area too large

New cathedral completed at Nyeri REALISATION OF AN IDEA BORN 25 YEARS AGO

ROMAN CATHOLICS from all parts of the diocese will gather at Nyeri on February 12 and 13 to attend the consecration of the new cathedral by Bishop M. T. O'Connell, Archbishop of Sydney.

Mission must stop building school

"Standard" Government, Nyeri.

COROLATA Catholic Mission has been rejected by Nyeri Urban District Council to stop work on an intermediate school at "half-building at Nyeri."

The council issued the order after it was revealed that the Clerk had admitted to a bribe of £100 on the relation regarding the work on the school and to a bribe of £100 on the relation regarding the work on the school and to a bribe of £100 on the relation regarding the work on the school.

The council was told by Mr. Kirk, a consulting engineer, that the new sewage treatment plant would practically run itself as most of the machinery were automatic.

Mr. Kirk said that additional water would be added during the first two months in order to dilute the effluent and eradicate the possibility of pollution of the river.

An application has been made to the Corporation of the Port of Durban asking that the building be repaired.

The front of the building is divided into rooms, each painted a different colour, but it has now become very dirty, and the Corporation of the Port of Durban has decided to have it repainted.

There are still many people who consider that it is certain days of the day the reception in some areas is undesirable. This is due to the background of another station and building.

The lion was the hunter

NORONIA PELEKAYO, a bond game warden in the Tanganyika Game Department, has shot and killed more than 1,000 elephants and his fair share of lion, leopard, buffalo, rhino and hippo.

His job was to track down and bring back to the Government the animals which were being poached.

The police investigation has been without incident and the lion was the hunter.

Without warning a huge lion burst through the bushes and leapt at the man.

Conducted party tickets for African employees of Government departments in the first half of 1953.

Parties must consist of not more than 12 African employees and a second tier through the Government.

Retiring president of Chamber reviews year

CAPITAL DISCOURAGED BY POLITICAL PROBLEM

Kenya's political problems have not encouraged outside capital and does not inspire local investors in the country, the retiring president of the Chamber of Commerce, Mr. Charles Colvance, said at the Chamber's annual meeting last night.

Minister's farewell to Meru

The Minister for African Affairs, Mr. C. M. Johnston, who retires soon, bade a reception held for him by the Meru African District Council.

Mr. Johnston, who was accompanied by the Provincial Commissioner, Central Province, Mr. F. L. Wilson, paid tribute to progress made by the Meru people since his own days as Meru District Commissioner.

He believed the Meru had a very bright future and if they worked hard in hand with the Government, they would become one of the leading peoples of the country.

Throughout his two-day tour of the district, Mr. Johnston saw the fall of the Nyire Neki, the traditional festival was presented to him by the Nyire Neki as a mark of his long duty as District Commissioner of Meru in which his appointment as Elder, This has only once before been given to a European.

Hard work needed
Mr. Johnston stressed the need for orderly development and feeling that many of the Meru people wanted order come mostly from their own efforts to increase the wealth of the district.

He described as a "great personal service" the assistance of many of the Meru to Mau Mau during the Emergency, which had had normal development.

tributes were paid to Mr. Johnston by the vice-chairman of the Meru African District Council, Mr. George Kaburia, and Mr. Johnston in great affection.

He added that Mr. Johnston was the "well-fall on the road" and will be "found at Meru" and wished the Minister and his wife a happy retirement.

"Standard" Correspondent, Nairobi. Mr. Colvance added the "worst feature" of the year under review, Kenya had only just begun to emerge as a more balanced state and there was immense scope in the country as there was in the whole of East Africa. "Unfortunately the three territories, instead of being unified, seem to be inclined on going their own ways, which is to my mind, and from a business and economic viewpoint, just disaster, as we are all dependent on each other."

Mr. Colvance said that another feature of the year was that trade outside came into the country more strongly than last year, but it is not, unfortunately, so well used for that purpose, were more or less political border, and it appears that membership has to be preferred rather than the economic union.

Students of to Ethiopia
Ten young African students of different nationalities are leaving Nairobi today for Addis Ababa for higher education through the Ethiopian Government.

Car stoned on Nyeri road
"Standard" Correspondent, Nyeri. A sport vehicle, Mr. A. G. [Name partially obscured], travelling from Nairobi to Nyeri with his wife and family, had the rear window of his car broken when it was stoned near the Tumbu Tumbu Mission halfway between Nairobi and Nyeri.

Officers again "Standard" Correspondent, Mombasa.
The retiring district secretary of the Egion-Nyanza African District Council, Mr. J. W. Murray, and Mr. W. F. [Name partially obscured] were welcomed by Mr. J. V. [Name partially obscured] at the district meeting.

Fewer road deaths

"Standard" Correspondent, Mombasa. Road accidents in Mombasa, resulting in serious and fatal injuries, slightly decreased last year, although there was an overall increase in the total of all types of traffic accidents. The figure released by Mombasa Police shows that in 1955 the 1,226 compared with 1,228 in 1954. Of these, there were 29 fatal accidents (1,193, 20) and serious injuries were caused in 76 (1,066, 21).

Cat-built Traxcavators

Work FASTER...

WEEK-END STANDARD CONTROL PLAN WINNING BACK GRAZING LANDS OF DOLDOL PLATEAU

FOUR miles north of Nairobi, in the great expanse of grazing lands given to the Mt Kenya people the Maasi and the Sukuma people who were first settled in the early part of this century when many herds of the Maasi passed southwards to Mandi and the Serengeti Plains.

ERROL WHITTALL, an authority on tribal customs, writes about the advances made in the grazing control scheme on the Doldol Plateau, north of Nanyuki.

Mount Kenya, which rises north and south from which, 5,000 ft. to the lake, falls to the sea on the east. The 845 sq. miles, with its irregular water supply, has had to be tackled not only as a whole, but also as a checkerboard puzzle in human environment.

Northwards this the already mentioned hillside. For the purpose of control, each section is divided into four blocks.

Looking over the lower Doldol grazing lands towards the Mt Kenya Range.

Mixed tribes present language problem

Take four years to regenerate the whole grazing area.

To facilitate this special grazing control rules have been imposed.

Water is, as always, the limiting factor, but a given acreage can be irrigated by means of the new, which are built within reach of the site and often located on the slopes of the hills.

It is stated that the new school at the Mt Kenya centre is faced with a unique problem. The teachers in a Kikuyu who speak the own language and English.

NO EROSION

By staking a concrete wall into the soil, above the wall, and in troughs between the walls, the soil is held in place. It is proposed to construct concrete walls between the hills.

FOUR 'BORDERS'

The Doldol people of East Africa are to be some a tribe. Without entering upon a list of the names of the tribes, it is stated that they are distributed in Eastern Africa in often isolated 'border'.

Kapochumbi Ojok of the Tirofud Mountains, came from the Maasi and called himself the Maasi. The second group the Maasi, originally Maasi, were Maasi Maasi and Maasi.

His pupils speak Dinka in three different and distinct variations, Maasi and Maasi. He states that he would first English but his pupils normal curriculum.

There are two main streams of the Maasi in Doldol. The first are called the Lufu, Maasi and Maasi. The second are called the Maasi, Maasi and Maasi.

REMNANTS FLED

The remnants that in Maasi were again destroyed by the Maasi, Maasi and Maasi.

Makipi Dorbo. This is a good illustration of their traditional dress.

With 22,000 head of cattle and 22,000 sheep and goats the section is overstocked and it is number for the Doldol grazing area.

The difference represents the stock held by what may be termed the 'Maasi' Maasi and other interlopers who will not be removed from their areas.

These areas are being used out again with the ordered stock. Neither do they agree with the control of grazing lands.

VARIED COUNTRY

Once the initial difficulties of transportation and of the Maasi and Maasi have been completed the Maasi population will be reduced. The alternative would have been to reduce the holdings of stock to a minimum level.

THINNING OUT

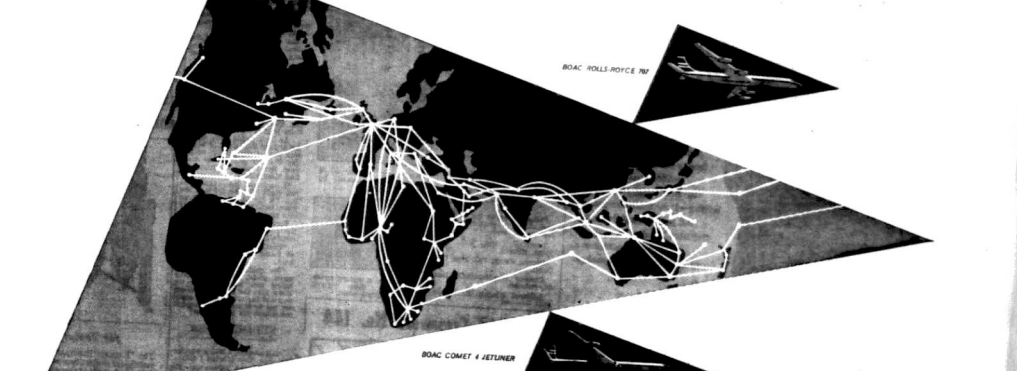

In the future, natural stands at 10 per cent, will either through the Maasi or Maasi Commission.

It must be kept in mind that there are no disease-carrying ticks in the Northern Frontier Province and that with improved grazing, which is 10 per cent, there in four years, the percentage of ticks will be 20 per cent probably rise to 30 per cent.

Within one month of their arrival in the Maasi Maasi their cattle will be expected to be in the Maasi Maasi.

It is estimated that it will take four years to regenerate the whole grazing area.

ON ALL THESE ROUTES your flight is hours shorter by BOAC jets!

Today BOAC's network of jetliner services links all six continents. BOAC offers you the fastest, smoothest air travel ever. The Bob Martin Condition today! Give him Bob Martin Condition today!

So the three kittens abashed and quavered. The noise that came from the hammock was so loud that it was almost deafening in the hammock. The noise was so loud that it was almost deafening in the hammock.

Granny Mazy said it had been two times in the hammock and she didn't know how it felt. She said she would like to have a hammock of her own. "You've had much too long a nap!"

"I want to get in it now!"

"Come out, late by him out and get in ourselves!"

SHIP FLEW IN AIR TOWARDS FOGGY ISLAND

By MAX TRELL
"BARON MUNCH," said Knarf, the Shadow Boy with the Turned-About Noses, to his old friend, "did you ever sail in a sailing ship?"

"No," said Knarf. "I never did." "Then I'll show you," said Knarf. "I'll show you a picture of a sailing ship in a book and it had three masts. It was called the Flying Dutchman." "Did it fly?"

egggetting new ways with TROTTERS JELLY

with TROTTERS JELLY with the queen of variety

Treat the family to TROTTERS PHILIPPE JELLY (new!) Ingredients: 1 Trotter's Philippe Jelly 1 Pineapple 1 Egg

Method—Cut the pineapple into small pieces and boil with the sugar and water for 10 minutes. Take off stove and pour into 1 Trotter's Philippe Jelly and stir well with whisk. Add the egg whites and mix together. Set in refrigerator. Serve with custards made from the egg whites.

house, and then something dreadful happened. The two trees in the garden were much too close together for the fire and it was not long before the house was in flames. Mr. Knarf looked all around him for the cause of the fire. "There you are, you see," said Knarf. "It was the fire that started the house on fire."

He fetched his ladder and climbed up and tied the hammock to the end of the chimney at the end of the house, then sat in the hammock. "What fun the kittens had! The hammock was so comfortable that they were all in it at once. They were so comfortable that they were all in it at once. They were so comfortable that they were all in it at once."

COMPETITION WINNERS
Prizes in the painting competition published on January 13 are: Jonathan Tama, P.O. Box 2911, Nairobi; Danie Perry, P.O. Box 136, Gilgit; Charlie Hunter, P.O. Box 34, Nairobi; Intergal, Chana, P.O. Box 113, Nairobi.

STRAPE VESSEL
"Oh once I'd replied Baron Munch," Knarf and Knarf began to sail the ship that one day.

For Your Album...
The two grand cats came hurrying out. "Granny Mazy was so kind to let us have a room in the house," said Knarf. "It was so nice of her to let us have a room in the house."

HIDDEN IN FOG
"My dear girl," said Baron Munch, "the island of Wham was always hidden in a thick fog. Even the ship that sailed there, it couldn't see."

SUDDEN IDEA
"All at once, I had a wonderful idea. This is what I did... I had the sails set on the ship that sailed there. The ship was so big that it was hard to see. It was so big that it was hard to see."

Canada showing new interest in African affairs

ALTHOUGH America takes a keen interest in the emergent continent of Africa, it is not so in the senior Dominion of the Commonwealth. It is not until recently that the Canadian Government has shown an interest in African affairs, when she made a stop in Nairobi after a brief tour of French Cameroons independently of the United Nations.

Looking Back by James Whiston

Nazi authorities were becoming increasingly alarmed 20 years ago at the effects of foreign propaganda, and issued a warning to Germans and neutrals that the death penalty would be imposed on them for listening to enemy stations.

SURF WASHES WHITER!

Steaming along on Safari?

Protect your engine with Shell Multigrade

Yet a motorist could easily press knee-edge creases into his pants by using the heat generated in an engine! Steam laundry presses operate at considerably less than the 347° F. that car engine compressors can reach on long, hot drives. Just imagine how tough your engine oil must be to lubricate efficiently under such punishing conditions! That's why Shell has developed their Shell X-100 MULTIGRADE Motor Oil. Unlike ordinary motor Multigrade Shell X-100—smooth-flowing for easy starting and quick warm-up, remarkably oil-smoother for long, high-speed runs. Proven for yourself.

Cars run better with SHELL MULTIGRADE

Uplands Picnic Recipes

SAUSAGE RINGS

Mix sausage meat with a little chopped onion, seasoning and parsley. Form into rings and fry in hot oil. Fry 15 minutes. When cold put on soft buttered toast with slices of pineapple.

TONGUE TRIANGLES

Roast a slice of tongue. Slice bread into a slice of tongue spread with butter-salted meat and onion. Roll up and cut in necessary 2 1/2 inch slices.

HOW YOU THREW THEM

- 1. Chopped ham neck bones, sugar and milk.
2. Sausage and shredded apple with milk.
3. Fried or sautéed corn or amaranth, using slices of brown and white bread.
4. "Double-Dutch" or "ambly-bush" using slices of brown and white bread.

TASTY TIPS

Use long French bread impregnated and fill generously with sandwiches—filling—meat and milk slices.
Carey in sandwiched jars a pepper sauce which is well liked.

UPLANDS

Broadway theatres hope for boom year

OPTIMISTS have taken over Broadway and Hollywood for the 1960s. Theatres and cinemas are being remodelled in anticipation of a boom year. Broadway after making at least three-quarters of a year for most theatres was closed for a make-over, opening in 1960 with at least one of the new theatres being completed in anticipation of a boom year.

From Hollywood come these predictions: The 20th Century-Fox production have never seen such optimism. Hollywood is now a hotly and hope "to be" said by Hollywood insiders.

SIGNS OF FAITH

These signs of confidence in the theatre industry are seen in the fact that the theatre industry has not been hit by the recession. Television itself is not only continuing to grow but is also beginning to show signs of recovery.

COMFORT PRIORITY

The army and navy are giving priority to the comfort of their personnel. This is reflected in the fact that they are spending more money on recreational facilities and better living conditions for their troops.

Uplands Picnic Recipes

Enjoy an Uplands family picnic! The Uplands family have planned a perfect picnic. Failure is having no difficulty as well as the Tongue Triangles. Young Peter is making sure mother relaxes for a change. And father? He's looking for the soft! Use these Pork Products for picnic: PORK SAUSAGES, PORK PIES, SAUSAGE ROLLS. Made perfectly by UPLANDS.

NARROW FILM FARI Hitchcock and Cary Grant tilt at spies

Alfred Hitchcock and Cary Grant in 'North by Northwest'.

North by Northwest (American) with Cary Grant, James Mason and Eve Marie Saint. Hitchcock's comedy about a devious U.S. executive who is mistaken for a spy can inventively tie its governments and gives a hard enemy agents before they are thrust by accident into their own lethal meditation. Our executive finds true love for the third time.

TELEVISION CRIME FILMS' EFFECT ON CHILDREN ANALYSED

WHILE the recent publication of the Kenya Television Commission Report, fears have been expressed among many parents that television films on crime and violence might influence their children. However, a social scientist, Mr. R. J. Thomson, after two years of research, says that such fears are unfounded and their greatly.

TRAIN DANGERS

The main danger to children is not only the train itself but the fact that many children are not aware of the dangers of the train. Parents must be made aware of the dangers of the train and must be taught to be safe and more responsible after they have seen working train programs.

CERTAIN STRAIN

Parents are not the film industry's strain on children's eyesight has caused some concern. However, it has been found that a small minority of cases that it was not a strain on children's eyesight.

Michael's much-publicized son of a famous mother, the French film actress Brigitte Bardot, is seen in a military uniform as a pilot in the movie 'The Girl on the Train'.

Change for Dame Edith

Dame Edith Evans, mistress of the theatre, has made a complete change in her appearance in the film 'Lock Up' in which she plays a woman who is sentenced to prison. The film is a comedy and is a change from her usual serious roles.

The Bayonet of the film 'Midnight' is related to this scene from a new movie production of 'The Adventures of Mark Twain'.

New lightweight coats solve U.K. leave problem

By LESLEY CLAY

OF the main fashion problems for the woman coming to Britain on leave is finding a suitable coat for the winter visitor, and desirable in any case to have an expensive item that is not likely to pay for itself in the short time she is in the country.

The adventing January traveller hurried on the airport to buy a snug heavy tweed. Two or three months later she is back in a climate where the chilling wind is a breeze and she requires only a light wrap.

The prudent will choose a classic tweed which will cover the winter months and wear it for ten years or more, if not longer.

But most women shudder at the prospect of making the critical error of family and friends by wearing a coat ten years old when it is the very only six months.

It seems an almost inevitable trend that the designer has directed their efforts towards providing a "business" wardrobe. London designers have adopted practical travel coats that provide a "business" wardrobe with East African women in mind.

They are light to featherweight — you hardly know you are wearing one. You also like the writhed-down look of an Eskimo, when carrying the coat around at the other end of the journey.

The coat look equally recent for winter or summer clothes another advantage for travellers from the tropics.

They are machine-washable — an important point if you like wearing parties. They are also perfect for any coat required for travelling on the other end of the world.

One of these coats is made from a material which is machine-washable, writhed-down, and has a soft, downy texture. It is also a very light weight and is perfect for any coat required for travelling on the other end of the world.

It keeps in line with current fashion with a wide collar and breast pocket. It is made in a variety of shades and grey.

It is a very light weight and is perfect for any coat required for travelling on the other end of the world.

'Separates' become fashion world's big business

By PATRICIA DOUGLAS

SEPARATES are the really big business of the fashion world today. What began as a teenage fad some years ago is now a high-fashion industry catering for all ages right up to the forties and beyond.

At the Kenya Coast separates are a bit of a favourite, and we frequently see a dirndl skirt teamed with a short or an alternative. Nairobi they are worn most frequently by the teenager.

Those who love separates for the shops now travel to France, Italy and Sweden as well as studying the British (and other foreign) models for elegant sweater, skirt and jacket inspiration. Design separates in, on their own, become as important as the whole outfit.

They are machine-washable — an important point if you like wearing parties. They are also perfect for any coat required for travelling on the other end of the world.

One of these coats is made from a material which is machine-washable, writhed-down, and has a soft, downy texture. It is also a very light weight and is perfect for any coat required for travelling on the other end of the world.

Cooking to please

by Alex Simmonds

WHEN buying meat of any sort, I like to be able to extend it as much as possible. This means that if I can't afford a full roast, when it is cooked than if it is cut into steaks or chops. The need to keep a tight hold on the money.

I have chosen a particularly good recipe for you which I feel you will appreciate. The family will love it and you will make it often.

The recipe is for chops. Now as a rule there is not much eating in one of these and generally two are required. Cook the chop this way and you will be eating two.

PORK CUPPOUCH. One pork chop for each person and make sure each chop is 1 inch 1/2 thick. Cut a sharp notch into the chop through the chop at the edge.

Cut cleanly through the bone making a neat notch in the pocket in the flesh. Do this with each chop.

Next make a filling. This consists of a forcemeat prepared in the following way: 1/2 lb. of minced sausage, 1/2 lb. of fat, 1/2 lb. of bread, 1/2 lb. of onion, 1/2 lb. of carrot, 1/2 lb. of celery, 1/2 lb. of parsley, 1/2 lb. of dill, 1/2 lb. of chives, 1/2 lb. of basil, 1/2 lb. of thyme, 1/2 lb. of marjoram, 1/2 lb. of oregano, 1/2 lb. of sage, 1/2 lb. of rosemary, 1/2 lb. of tarragon, 1/2 lb. of fennel, 1/2 lb. of anise, 1/2 lb. of coriander, 1/2 lb. of dill, 1/2 lb. of chives, 1/2 lb. of basil, 1/2 lb. of thyme, 1/2 lb. of marjoram, 1/2 lb. of oregano, 1/2 lb. of sage, 1/2 lb. of rosemary, 1/2 lb. of tarragon, 1/2 lb. of fennel, 1/2 lb. of anise, 1/2 lb. of coriander.

Put the stuffed chops into a hot oven for 10 minutes. Place to cover the chops with a moderate oven for 45 minutes. Turn minutes before the end. Add a slice of cold apple on top and cook for 10 minutes. Garnish with a little sugar. Serve with usual accompaniments.

Answers to the pictorial crossword are listed on page 10 in a separate column.

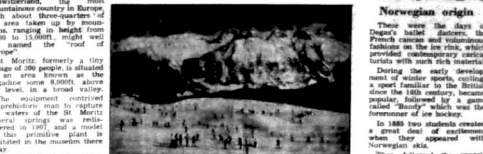

GOING UP... AND COMING DOWN

This sketch at St. Moritz takes the diversity of its hills and notes, the mountain to reach the winter season, such as that negotiated by the expert...

St. Moritz — birthplace of winter sports

The holding of trials for the Winter Olympics has focused attention on winter sports. Here, Paul Fielding writes about their birthplace.

Beginners take their first break at the ski school at St. Moritz.

THE first ski race was held at St. Moritz in 1884. It was a simple affair, but it marked the beginning of winter sports.

THE first ski race was held at St. Moritz in 1884. It was a simple affair, but it marked the beginning of winter sports.

Financial affairs in 'political arena' REVOKE TREATY MEMBER VOTES

LONDON MEETING AS NEEDED: MAYOR

Minister of Nairobi Express Local Government Officers' Association... The Mayor of Nairobi, Alderman M. Neeldham-Clark, at a meeting yesterday that it has no secret that local government officers' most representative wing thrown into the political arena by Lancaster House.

It was said she would have been happier if there had been consultation between local authorities and delegates to the London Conference before the latter left for London.

It was contended that impractical and politically biased decisions on the part of local government—say decisions taking place in the London Conference—for the sound and efficient administration of Kenya are the policy-making body.

CONCERN AT STAFF PROBLEM

"We could claim the principle 'no representation without taxation' has not prevented us from allocating nearly £3,500,000 out of our £10,000,000 budget for the next six years to purely African staff... This only £400,000 in direct grants to a total rate revenue of £1,100,000.

Masai turn film stars for Tarzan

Standard Staff Reporter, Nairobi.—The Masai and Kikuyu have been featured in a new Tarzan film being shown at the Grand Cinema, Nairobi... The film is to be called Tarzan and the King of the Jungle.

Kairoih' plot

We expect to be finishing our work in Kairoih' in the next few days... The film is to be called Tarzan and the King of the Jungle.

Living values

Big turnover of K... co-operative societies

CO-OPERATIVE societies in Kenya handled more than a third of the total amount of co-operative deposits in the country in 1957, according to the Office report for 1957 and 1958. It shows that the turnover of these societies was £1,222,000 in 1957 and £1,340,000 in 1958. This compares with £1,000,000 in 1956 and £1,100,000 in 1955. The total amount of co-operative deposits in the country in 1957 was £1,222,000 and in 1958 it was £1,340,000.

Hungarian team goes on safari

FIVE Hungarian hunters arrived in Nairobi on a big game hunting safari on the 10th of the month. The party was led by Dr. J. Szekely, head of the Department of Zoology at the University of Budapest. The party is expected to stay in Kenya for a few weeks before returning to Hungary.

Destroyed by war

The Budget Ministry has destroyed during the year 1957 a total of 1,000 tons of surplus stocks of various commodities. This was done to help the Government to meet its financial obligations.

£66,000 GRANT TO HOSPITAL

A supplementary grant of £66,000 has been made towards the cost of the new hospital building at Nairobi. This grant is in addition to the £100,000 grant made by the Government in 1956.

Acceptance of Wild Report sought

Wildlife reports from Kenya will be the first time in history that a nature reserve is shown as a self-government with a council of its own members. This is the result of a report by the Wildlife Commission, which has recommended that the Government should accept the report and set up a Wildlife Council to advise the Government on the management of the reserves.

Death of Mr. Alexander Morrison

Mr. Alexander Morrison, who died on the 10th of the month, was a well-known public figure. He was born in 1880 and was a member of the Legislative Council of Kenya. He was also a member of the Executive Council of the Government of Kenya.

To seek assurance

Since the issue of the new constitution for Kenya, the Government has been seeking assurance from the British Government that it will support the new constitution. This is because the British Government has a veto over the new constitution.

Legion service

The British Legion in Kenya is planning to hold a special service to commemorate the 25th anniversary of the end of the Second World War. This service will be held on the 15th of the month.

Nairobi man loses £50 in robbery

Nearly £50 was stolen from a man in Nairobi on the 10th of the month. The man was walking alone in a quiet street when he was approached by two men who demanded his money.

Premier's S. Africa Warning Splendid Says U.K.

SEVERAL British politicians yesterday warned Mr. Macmillan that a speech to the South African Parliament in Cape Town would be a disaster.

Mr. Callaghan, the chief Opposition spokesman on colonial affairs, commented: "This is splendid news. Mr. Macmillan has made more or less what the Labour Party asked him to do before he left on his African tour."

Mr. Peter Thorneycroft (Conservative) said that no progress had been made in the talks.

Buyers play waiting game

SERIOUS SETBACKS IN SOME SHARES

LONDON prices were almost invariably below last week's levels at yesterday's outbreak of the Financial Stock Exchange, with buyers hesitating to hold back and meet the onslaught of the London rally on Europe.

The more active shares suffered the most serious setbacks with East African Breweries down 11 on the month to 260½ sellers. East African Power and Lighting Co. Ltd. Ordinary lost 50 cents to 28½ sellers with a good turnover.

CLOSING ON THE RAND

The South African Administration has announced that it will continue to maintain the gold price at 149½ until the end of the year. It is expected that the gold price will remain stable as long as the South African Government maintains its policy of non-interference in the gold market.

Cut in sugar export quotas

A CUT of 25 per cent in the initial sugar export quota for 1960 has been announced by the International Sugar Council meeting in London.

NO INCENTIVE ON LONDON MARKETS

STOCK markets in London resumed quietly yesterday and prices were inclined to ease. This reflected the overnight reaction on Wall Street and an absence of incentive. Dollar stocks were marked down and Oils were dull while Industrials continued their downward drift of the previous after-

noon. Gold shares were quiet and most other shares were quiet. Anglo-American Corporation, which was good market in Johannesburg buying in afternoon. It was deferred.

Since the beginning of the

IRON AGE

when the value of the metal was first discovered, the conservation of scrap has been of paramount importance. The primitive methods of mining by our forefathers encouraged the preservation of waste.

Today scrap, whether ferrous or non-ferrous, is of vital importance, commanding a good market price.

If you have any scrap for disposal please contact us for the best prices.

If you require new steel, new or reconditioned machinery or contractors' plant and tools we can quote you very competitive prices.

Nakuru defers two housing schemes

PAYMENTS FOR LOANS MAKE RENT TOO HIGH

NAKURU County Council has deferred two advanced housing schemes until about several others.

It claims that the 10 per cent rate of interest charged on loans from the Central Housing Fund forces the rents on new houses beyond the means of prospective tenants.

At a meeting of the Council last night, the County Council decided to postpone the two schemes until the rate of interest is reduced to 5 per cent.

The Council also decided to postpone the two schemes until the rate of interest is reduced to 5 per cent.

Territory's potential impresses Sir Ernest

SPEAKING at his first public engagement in Nairobi on Saturday, Sir Ernest Young, Tanganyika's Minister for Finance, said he was very impressed with the potential of the Territory as a place of economic development.

He said that he had been told that the Government would like to see the Territory as a place of economic development.

Fight RHEUMATIC PAINS This Easy Way

It is the most effective remedy for rheumatism, arthritis, and other painful conditions.

FOUR LINES CROSS ROAD IN 78 YARDS

WORK is due to start this week on laying another set of rails near the main level crossing in Griffith Road, Nakuru. It will be the fourth track within 78 yards.

Last year a Nakuru magistrate who saw the track being laid, was so impressed that it would make the crossing "so wide and so convenient that it would be hard to put it to know how he is to exercise power to avoid trains which may come upon any every direction, from any one of four different lines."

Debate on U.K. talks refused

NAKURU County Council, at a meeting on Saturday, refused to discuss a debate on the Colonial Secretary's plans for the United Kingdom.

Dairy Board appointment

MR. VETTERHACH Marwaha, a Nairobi businessman and dairy farmer, has been appointed by the Minister for Agriculture to serve on the Kenya Dairy Board.

Church may get £500,000 more

NEARLY £500,000 more is to be added to the Church of England's income in Kenya, according to a report by the Church of England's Finance Committee.

SHIP BOMBARDED

PRIVATEERS are said to have bombed an Argentine cargo ship in the Pacific Ocean near the coast of Chile.

Gang chased by duka owner

A group which attacked a duka owner in Nairobi on Saturday was chased by the owner's dog.

WEEK-END STANDARD AUTHORITY ON SNAKES AT 19—BOY FOLLOWS FAMILY TRADITION

By Ronald Hutton

At the age of 19, Jonathan Lesley has come to be recognized as a leading authority on East African snakes, and the 1962 season has kept him in the front private collection in Africa.

His name is already well known for make over, most research organizations and the Government of Kenya to know and study the snake which is the most poisonous snake in the world.

It is a huge snake years ago and it was the first of a whole new class of snake which is now being studied in the world.

TOOK IT HOME

Jonathan Lesley and his father, Dr. J. H. Lesley, are the only people in the world who have taken home a cobra snake.

Though the garber snake shown in this picture is poisonous, Jonathan Lesley handles it as easily that it makes an attempt to bite him.

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

LONG STRUGGLE

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

NEVER BITTEN

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

All the facts about Britain

By E. G. THOROUGH

More than 20,000 different kinds of insects inhabit Britain, about 420 species of birds, and an enormous amount of animals. And the human body is covered with bacteria. The human body is covered with bacteria. The human body is covered with bacteria.

Eggs incubated in airing cupboard

Getting a reluctant python to pose for the camera poses quite a struggle.

The venom is used in research and the manufacture of various medicines, including anti-venom.

FOOD PROBLEM

Jonathan Lesley handles it as easily that it makes an attempt to bite him.

SHELL BP FORD OLYMPIC DRIVE

HELP SEND KENYA'S ATHLETES TO THE 1960 OLYMPIC GAMES—AND EARN THE CHANCE TO WIN A NEW CAR AS WELL

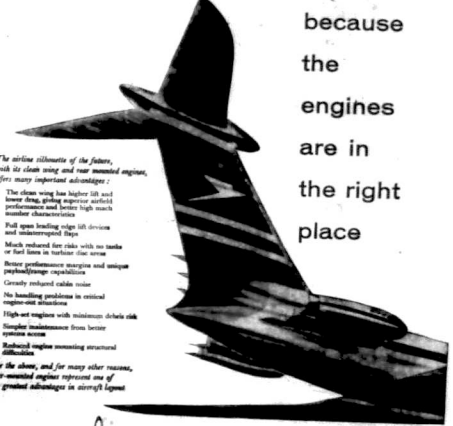

Kenya's second Olympic team will fly to Rome in August with high hopes for success in the XVIII Olympic Games. The team will probably be six athletes, a hockey XI plus players, two marksmen and a pecking crew of three. Funds are urgently needed to cover the estimated £12,000 cost of Kenya Olympic effort.

The Shell BP Ford Olympic Drive will make a Coleridge tour in February and March with the target of raising £5,000. At all main towns there will be organized sporting events and entertainment headed by the organizers of the Kenya team. Subscriptions to this Olympic appeal will have the chance as well as the satisfaction of directly contributing to the Kenya team's self-offered Subscribers' tickets in the Olympic appeal. Results are available at Shell and BP Service Stations and other local centers.

BUY YOUR TICKETS TODAY! SHELL BP FORD

THE SHAPE OF THE FUTURE

The wing is free to do its job...

The active silhouette of the fuselage, with its clean wing and new mounted engine, offers many important advantages:

- The clean wing has higher lift and lower drag than any other world performance wing design.
- Four engines in tandem give high speed and excellent fuel economy.
- Full span leading edge devices and wing-mounted flaps.
- Simple maintenance from top seats or fuel lines in turbine case.
- Balanced engine nacelles and unique payload capacity.
- Greatly reduced cabin noise.
- No bleed-off air in critical engine inlet.
- High wet engine with maximum delta take-off thrust.
- Simple maintenance from below.
- Balanced engine mounting structure.

For the cabin, and for many other reasons, our standard engine nacelle is one of the greatest advantages in aircraft design.

MEN WHO MATTER IN WEST END THEATRE

JOHN NEVILLE, the favourite of the Old Vic, and the other day that theatre which allowed the Mossingus to run right. The Mossingus in the play year, yet retained the plays of John Whiting, was...

JAMES ALBANY TALKS WITH LONDON'S THEATRE MANAGERS ABOUT TRENDS IN THE WEST END. THE MOST CURIOUS OF THESE MEN IS UNDOUBTEDLY HENRY SHEREK (RIGHT), WHO RECENTLY VISITED KENYA.

Henry Sherek, who recently visited Kenya, is a 38-year-old dramatic critic who has been in the West End theatre for 15 years. He is the only man in the West End who has been in the theatre since 1940. He is the only man in the West End who has been in the theatre since 1940.

B.B.C. unit largest in world

The B.B.C. Film Department with headquarters at Ealing headquarters is responsible for more than 100 feature films each year. It is the largest unit of its kind in the world.

BETTER ACTING

In reply to the usual comment that the actor is a 'little better' than the rest of the world, it is pointed out that the actor is a 'little better' than the rest of the world.

SHEREK DRIVES

The most colourful theatre manager in London, Henry Sherek, who recently visited Kenya, is a 38-year-old dramatic critic who has been in the West End theatre for 15 years.

SYMBOLIC GIFT

One of the most symbolic gifts in the West End is the gift of a 'symbolic gift' to the theatre. It is a gift of a 'symbolic gift' to the theatre.

BALEST SUCCESS

There is a lot of talk in the West End about the success of the 'Balest' in the theatre. It is a success of the 'Balest' in the theatre.

Uplands Picnic Recipes

SAUSAGE PORN
Mix sausage meat with a little chopped onion, salt and pepper. Fry in shallow fat. Then add just as much hot water as will keep it plump.

ENJOY AN Uplands family picnic!

The Uplands family has planned a perfect picnic. Please in having no difficulty at all with the Tongue Twisters. Young Peter is making you mother relax for a change. And father? He's looking for the salt!

Castrol Remember These Facts!
These facts may be to your financial advantage at a later date, so please remember them.
CASTROL ON THE MONTE
The outright winners of the 1930 Monte Carlo Rally, WALTER SCHOCK AND ROLF MOLL, used Castrol to lubricate their MERCEDES-BENZ.
Winners of the Coupe des Dames for the second year running, PAT MOSS and ANN WISDOM (AUSTIN A40), and their room-mate, ANN HALL and VALERIE DOMLEO (FORD ANGLIA), also used Castrol.

KONGONIS ELECT THEIR NEW PRESIDENT

KENYA KONGONIS C.C. is one of the Colony's most flourishing governing bodies, both as to its finances and its prestige and influence. It is therefore, a signal honour to be elected its president and chairman, a signal honour the Kongonis community will hasten to congratulate Mr. C. H. J. Wood on attaining that office in due season.

Mr. Wood has been elected for his personal high regard and respectability, and for his long and successful career in the public service. He has been a member of the Kongonis C.C. for many years and has held various offices of responsibility. He is a man of high character and high ability, and his election to the presidency is a reflection of the confidence of his fellow members in his leadership.

Must be a record. Mr. Wood's election is a record for the Kongonis C.C. and a credit to the Colony. He has been a member of the C.C. for many years and has held various offices of responsibility. He is a man of high character and high ability, and his election to the presidency is a reflection of the confidence of his fellow members in his leadership.

Apprentice jockeys go on strike

A BUNCH of apprentice jockeys, including the Queen's jockey, Capt. Douglas, have gone on strike in Newmarket yesterday morning. They are protesting against the terms of their apprenticeship contracts.

Some in opposition. The apprenticeship contracts are being opposed by some of the jockeys, who are demanding better terms. They are protesting against the terms of their apprenticeship contracts.

Some in opposition. The apprenticeship contracts are being opposed by some of the jockeys, who are demanding better terms. They are protesting against the terms of their apprenticeship contracts.

MAKE THE SEA YOUR PLAYGROUND

There's so much you can do at the sea. You can bask in the glorious sunshine... or you can bask in the cool, foaming breakers. Further out, you can test your skill at surfing, aquaplaning or boating. In no time, you'll be up on a new lease of life.

Children especially love it. There's no limit to the games they can play on the soft, silver beaches. Just give them a ball... and let them loose on those stacks of beach toys and you. What else, beachy fun!
