ENGLAND were made 8-1 favourites for the World Cup by a leading London bookmaker after they led off over Mexico in London on Saturday night. West Germany were preferred favourites at 13-8. Italy and Portugal figured next in the list at 6-1. The former favourite, Brazil, was priced at 11-1. Italy are also on the list.

Other prices: 4-1 Russia 1966, Hungary, 10-1 Uruguay, 10-1 Mexico, 10-1 Chile, 10-1 North Korea, 10-1 Mexico and 10-1 Brazil.

A good 25,000—now the heaviest—was bet on the tournament—lawfully in England—last night. The first bet was on each group.

It is a pity that must be a great disappointment because of Hungary despite the fact that three would have four points, and Hungary would have been responsible for a convincing 1-0 win.

In the remaining group one the only team which has a chance of a place in the final is Argentina, who need play to the top of the group. Who knows?

# FEISAL SLIP IN K.N.F.L.

Keino sets the pace

## Two weekend defeats for champions

FEISAL, the K.N.F.L. champions, suffered the second defeat of the weekend at Nairobi City Stadium yesterday when they were beaten by Luo Union 7-1. Luo Union, weakened by administrative problems and a boycott by most of their star players, completely dominated the Feisal defense and scored three goals in the first half and four in the second.

Legitimate Madgeira returned to the Feisal side after finishing a month's recuperation and collection of backlogs. Feisal looked to be awaiting an easy win when Madgeira scored twice within 15 minutes. A straight lefter, however, the Feisal defense blundered when Molo pulled a goal back into the net. Madgeira added the second and Feisal's third goal from the 22nd minute. Madgeira made it 5-2 and before the interval Youngi leveled matters.

## COURT REJECTS S.W. AFRICA COMPLAINT

### President's casting vote tips scales

The World Court last night rejected complaints brought by Ethiopia and Liberia against 50 years of South African rule over South West Africa by a majority of one vote.

The court decided that the League of Nations which gave South Africa a mandate over the vast area of South West Africa conferred no rights on individual League members to "investigate" over the territory's administration.

However, the President of the World Court, Sir Percy Spender of Australia, exercised his casting vote — given in addition to his normal vote — as the decision of the 14 judges was split 8-6.

Ethiopia and Liberia had levelled the complaints as members of the League of Nations and on behalf of all African peoples, and after five and eight months of deliberation and a judgment that took two hours to read, they were disappointed to have failed in the legal aspect of the case.

## Decision 'loss to both sides'

According to competent observers in The Hague, the World Court had pushed the explosive South West African issue far beyond the political arena.

The New York expert who headed Liberia's and Ethiopia's case, Mr. Ernest Gross, said in a brief comment after the decision, "I think that the abolition of the judicial process over The Hague leaves very unpredictable political consequences about which nobody can possibly judge."

Mr. Spender said that the court's decision will not only have a bearing on the future of the territory and the question of the border, and the question of the future of the territory, but also on the future of the League of Nations.

## THE FIGHT WILL GO ON SAY AFRICANS

UNITED Nations delegates of African and Latin American origin expressed their disappointment at the decision but said they had rejected their complaint.

## Principal organ

The lack of one vote by the court in favour of the South African position, which Ethiopia and Liberia had sought to establish their legal right to self-determination.

## Meeting with Malawi may heal rift

Meeting which began in Mozambique last night is expected to result in a settlement of the long-standing dispute between Malawi and Mozambique.

## Hanoi given warning of 'war trials'

THE United States yesterday said the International Red Cross in Geneva had said there would be disastrous consequences if American prisoners in North Vietnam were put on trial.

## SUPERANNUATION FUNDS

**SURELY, THE CARDINAL POINT** the Kenya Government views in mind in reaching the decision, announced for Friday, about the payment of provident fund pension fund balances to members of the national office comes into force, is that an unmet obligation should be fastidiously or even scrupulously observed.

Every employee who has been a member of a provident or pension fund operated on behalf of a private firm must have been satisfied that benefits would be paid according to the rules. Companies operating the funds provide for payment, pending, the company's obligations, or by the estate of a deceased member.

The selection committee made a hard task of itself by ordering a replay of the match between Mombasa and Nairobi. The match was played on Sunday and the referee's decision was criticised. The committee decided to replay the match on Monday.

# Big expansion plan by Cooper Motors

## ONE-FOR-THREE 'RIGHTS' ISSUE

SHAREHOLDERS in the Cooper Motor Corporation Ltd. are to be asked to approve an increase in the company's authorised share capital from £300,000 to £500,000 to permit the modernisation and expansion of its activities in East Africa.

The expansion will include the taking on of another franchise for a new car, the Renault "Audy" which has been developed by Mercedes-Benz and built by Volkswagen in saloon and estate car versions. It will be exhibited at the Kenya Show in September. Costs are quoted at £117 (saloon) and £128 (estate car).

C.M.C. already has the East African franchise for the Volkswagen, Rover and the Austin. P. C. Becher, said that the increase will be held on August 11 at a meeting of shareholders to be made in all shareholders in the proportion of one share for three shares.

The new issue would be in the form of one-for-three rights. The Government of Kenya has agreed to invest in the company. It is expected that the company will be able to obtain more capital in the future.

## Progress in Congo oil talks

AN early improvement in the London Stock Market. A yesterday's lackluster market through scattered small buying diminished and many counters were still showing good levels, though most industrials were still showing good gains in the day.

### WHERE IS JUSTICE ?

**BY DUCKING THE RESPONSIBILITY** for recording a clear verdict for or against apartheid which is the real heart of the South West Africa case, the World Court has brought international justice into disrepute among the Afro-Asian States.

Members of the Hague may think the court has avoided a direct confrontation between S. Africa and the United Nations. But the demand for just determination in S. W. Africa remains one of the most conspicuous of the inalienable factors, the strongest basis and the Africa itself to break down the parasitic system of apartheid with possibly equal vigour.

The complaint was laid before the International Court of Justice in 1956, by the African States against the I. A. U. and the Afro-Asian members of the United Nations. The I. A. U. is the African administration in the adjoining territory. The mandate was handed to the I. A. U. in 1920, when the League of Nations, predecessor of the United Nations.

The court's ruling by the President's casting vote is based on a technical point. Justice, in millions of ordinary people, looks suspiciously like a lawyer's dialectical exercise. The court's consideration of the moral issues and possibly even legal-determination refused to proceed. The court's consideration of the moral issues and possibly even legal-determination refused to proceed. The court's consideration of the moral issues and possibly even legal-determination refused to proceed.

If a stop is applied at that point, the court can conveniently shelve consideration of the moral issues and possibly even legal-determination refused to proceed. The court's consideration of the moral issues and possibly even legal-determination refused to proceed.

### Intensification of the campaign

Though its jurisdiction is voluntary, that is the supreme international court of justice, where there can be found? The court ruled, albeit with 50 per cent of dissenting members, that there is no legal basis for UN action against S. Africa or S. W. Africa, unless the intervention in other disputes and conflicts? The intervention in other disputes and conflicts? The intervention in other disputes and conflicts?

Because the court has refused at the first obstacle, the court cannot be completed with the justifiable examination of the merits and demerits of S. Africa's discharge of the mandatory responsibilities under the policy of apartheid in S. W. Africa. This refusal disposes of what had been considered the unimpeachable principle of humanitarian considerations, being alone sufficiently powerful to generate legal rights and obligations.

A judgment S. African Government continues refusal to make a declaration on the substance of the complaint has not been presented on S. W. Africa. Dr. Vorster made attempts to ease the court's machinery on the basis of a dramatic attack against S. Africa in the Security Council has failed. But the attack is coming nonetheless.

Indignation arising from the Afro-Asian group that a special session of the General Assembly of the Security Council may be summoned. The General Assembly of the Security Council may be summoned. The General Assembly of the Security Council may be summoned.

Complaints which have formed the substance of 73 declarations by other U.N. bodies, will not be allowed to slip past by default simply because half the panel of international jurists cannot be persuaded to act.

### School gives hope to Nyanza's blind

BLIND children from all over Nyanza Province and other parts of Kenya have learned to read, write and speak at a school set up at Kiloh, three miles east of Nairobi, by the Salvation Army. The school was opened in 1961 and has since then been successful in training blind children in western Kenya and other parts of Kenya.

The amount to be increased by 15 per cent to bring the annual total payout to an all-time high of £58,000, the Jockey Club of Kenya, Lord Delamere, said yesterday in Nairobi.

He also said seven fillies are to be bought at the Newmarket sales in Britain at a price imported into this year. This shows a further investment of £3,500 in the breeding industry, because after these animals have been raced they will be used as brood mares.

The limited cost of each horse would be more than £500 and anyone wishing to purchase horses at similar prices could obtain details from the secretary of the club, he said.

On the second stake money, Lord Delamere said this would be spread over the various divisions. Division A's stake money will be increased from £200 and £200 to £220, giving £50 for first place, £30 for second and £20 for third.

# KENYA WIN HOCKEY 'TEST'

## Sparkling display by tourists

KENYA, by virtue of taking advantage of the opportunity that came their way, when counts in international hockey managed to beat the Kenyan side in the "Test" between the two countries by 2-1 at the City Park Stadium last night.

Kenya's victory does not reflect upon the quality of the opposition, the Kenyan side being a touring party of 18 players, most of whom are of international standard. It is a fact that the Kenyan side, which was captained by the late Mr. J. M. O'Rourke, played a sparkling display, and it was their sparkling display that was the cause of the Kenyan victory.

Ray Arnold has been the dominant force in the series since he won the title last year. He has been unbeaten in the series since then, and his lead over his nearest rival, Brian Jones, is now four points.

### Aid to new States has risen

REPRESENTATIVES of most of the more economically advanced non-Communist countries met in Washington yesterday to discuss aid to the developing countries of Africa, Asia and Latin America.

A two-day meeting of the Development Committee of the Organisation for Economic Co-operation and Development (O.E.C.D.) opened in Paris, the total aid commitment to the developing countries last year is expected to show a significant increase over figures for 1964, when it reached £2,243,000,000, or the £1,142,000,000 of private development.

These figures compared with £1,562,000,000 in 1963 and £1,829,000,000 in 1964, including £1,000,000,000 of private development.

plans will save  
£2.7m. a year

Small project in the west of the country would save £2.7 million a year, the Minister for Agriculture, Mr. MacLean, said today.

The project, known as the 'Linn (Guarantee) Act', would allow the Government to repay over ten years the cost of £2,500,000 to be made available to the Linn Agricultural Board at the rate of 5 per cent.

The project would be a whole project but the whole project had been already approved by the Board, and accounts and approval were given to the House as part of the project.

## INCREASE IN RAPE CAUSES CONCERN

THE Kenya Attorney-General, Mr. Njiru, told the House that the Government was very concerned about the increase in the number of instances of rape taking place in the country and warned that the courts would deal with offenders 'with the utmost severity'. There had been, he said, a most regrettable increase in reported cases of that nature since his independence. In 1963 there had been 60, the figure from January to May this year had been 55.

By a long narrow vote, he told Mr. A. Njiru (Kamu - Mombasa) that he could not vote for the motion that certain politicians were spreading the idea that people should be given life.

After this motion was passed by a K.P.U. Member, Mr. Njiru said he had made no reference to the K.P.U.

## No political test for smallholders

THE Government was duty bound to render all its services to all citizens irrespective of their political loyalty, the Minister of State in the President's Office, Mr. Nyamwaya, said in the Lower House yesterday.

**Gift appreciated**

Mr. Mura's assistance in the fight the country would be in it served loans to members without being able to raise money for their maintenance.

## LACED NANDI FORGOTTEN

Mr. Mura actively resumed the question submitted by Mr. Njiru (Nandi) who would like to see the Government to take the necessary steps to assist the Nandi people in the Nandi District.

**Nationalism**

An Assistant Minister in the Government, Mr. Njiru, said that the Government would encourage the women to farm well in the settlement scheme. "Political alignment is not one of the factors determining whether a landless person should get a plot in a settlement scheme," he added.

# EIGHTH COMMONWEALTH GAMES

By the Sports Editor, John Downes, who will be accompanying the Kenya team to Jamaica and will be sending daily dispatches on the competitors' performance during the Games.

**K**ENYA Commonwealth Games team leaves Nairobi shortly after midnight tonight for Kingston, Jamaica. The team comprises 21 athletes, ten boxers, seven shooters, three swimmers, ten officials, a public relations officer and a television cameraman and is the largest contingent of individual competitors to be sent overseas.

In the past Kenya's participation in the Commonwealth Games has been regarded as a 'taken affair'. Now the world is demanding to see Kenya's sportsmen and women and the country has had to respond to this enthusiasm. Much is expected of Kenya's competitors at the Eighth Commonwealth Games. But those who will be writing about them for the British Standard are the best sportsmen of the Commonwealth's best sportsmen and women who had at Kingston and the winner will be selected the Kenya team.

**Call from Kingston**  
On Tuesday the general team manager, Mr. Harold Cooper, received an early morning telephone call from Mr. Maurice Chapman who has been sent to Jamaica by B.A.T. Kenya Ltd. to make arrangements as possible for the Kenya team and he reported that the best and friendly were very strong.

Nevertheless, the Kenya competitors will do their best to beat the Perth Commonwealth Games medal tally of two gold (Shirahnes Adu - 100 and 200 yards, two silver (Kenyan Kipkor - 400 yards hurdles, and Ali Duma - featherweight boxing) and one bronze (Philip Warburg).

The athletes are expected to arrive in Kingston with a few medals, particularly Kipkor, Kenia and William Kipkor but it may be the heavy who will bring great credit to the team but whether they win or not there will be some exciting recoveries.

The meetings between Ron Clarke of Australia, and Kipkor of Kenya, will undoubtedly be the highlight of the Games. Clarke, at one time thought to be falling, has now been re-trained by 1,000 metres coach from the Kenya selection team, the 3,000 metres record holder has been doing and his five

and running improve with each meeting. He will be one of the Kenya favourites as they Perth Commonwealth Games members reported to the University College, Nairobi, and have been busy studying the training and attending programs. Their last official action before they leave on their charter aircraft for London, New York and possibly Bermuda, will be at State House this afternoon where the President of Kenya, Mr. Kenyatta, will present the colours.

## Some problems

After that the team officials and competitors can relax at least until Jamaica where no doubt there will be some problems to face as well as training to undertake. One official of the team is a participant in the 100 and 200 metres of the Empire Games in London. The past 11 months making and

coordinating the arrangements to make the trip possible. During the past year the Management Committee of the Kenya Commonwealth Games Association in Nairobi has been busy with many problems have been met but they have been overcome. One of the biggest headaches was the question of finance. At one stage it was thought that Kenya would not be able to deposit sufficient money with the International Council when the team with £14,000 and the R.O.C.A. has asked a further £3,000 needed to pay for the party of 25.

Surprisingly the team is leaving for Jamaica at 12.15 tomorrow morning and it is probable that the athletes will be competing at an international meeting at White City, London, on Saturday, August 20. The departure probably will go to West Germany and the return to Kenya will be via the Atlantic. The whole team is due to leave Nairobi at 7.20 a.m. on August 22.

**INDICATEDLY** the Kenya team prior to Jamaica with a reputation of being the finest sporting team currently in Africa and I believe they will see to it that sufficient success is obtained that reputation.

My own opinion is the effect of the economic sanctions combined with those at Jamaica and the officials and competitors will have to see to it that they are not let down by the team.

It is indeed a great honour that the Kenia team is to represent the Commonwealth of the British Commonwealth in the upcoming Kenya team in next month. My own opinion is that every individual and competitor will do their best to win every medal that is offered and I have no doubt that our athletes will be rewarded with some of the best of medals.

Chairman of the R.O.C.A.

Team Commissioner

## MESSAGE FROM PRESIDENT

It is my pleasure to send the message of goodwill to our athletes and officials who are leaving for the Commonwealth Games which will be held in Jamaica during the period August 17 to August 25. The athletes are expected to arrive in Kingston with a few medals, particularly Kipkor, Kenia and William Kipkor but it may be the heavy who will bring great credit to the team but whether they win or not there will be some exciting recoveries.

J. M. KENYATTA, President of the Republic of Kenya.

# Screening of a refugees in Kenya demanded

Members of all religions in Kenya were urged in the Senate yesterday by Nyandarua, Sen. G. G. Kiago, when he continued his speech on the Budget.

He said some of these refugees were close to Kenya leaders and could be used as spies by foreigners. It was had that some of these refugees were allowed to stage shows in night clubs that were obscene and immoral.

Mr. Kiago said the Government should tell the House whether it had complied with the resolution of the 11-january conference in Nairobi which called for the repatriation of refugees who used Kenya as a platform to attack their countries.

He criticized the provisions in the Liquor Licensing Act which stipulated that beer-halls should close by 3 a.m. and urged the Government to extend the opening hours of beer-halls.

### IMPORTED STAFF AT EMBASSIES

Kenya Ambassadors in foreign countries should not be allowed to employ nationals of those countries for security reasons, Mr. Kiago said.

He said Kenya some of the Embassies do not employ Africans and in some even drivers and house servants are imported so that their secrets cannot be known.

He said that in some cases there were thousands of landless Kenyans who had to depend on their neighbours who had acquired settlement plots.

The situation is so bad that under articles in the constitution which allow the Government to take over land for public purposes, the Government is taking over land for settlement purposes.

He said that the Government should take steps to find alternative employment for those who are being displaced, although this step can be taken only if the Government is not so busy with its foreign affairs.

Mr. Kiago commended the Government for giving the House the opportunity to discuss the operation of the Arms and Explosives Act, which was passed last year.

He said that the Government should take steps to ensure that the Act is not misused by those who are not qualified to handle arms and explosives.

### MORE Y.W. HOSTEL NEEDED IN TOWNS

The secretary-general of the Young Women's Christian Association, Mrs. Margaret Mugo, said yesterday that there was an urgent need for more hostels to accommodate the increasing number of girls who came into Nairobi and other towns to seek work.

She said that the Government should take steps to provide for the needs of these girls, who are often left to fend for themselves in the towns.

She said that the Government should also take steps to provide for the needs of these girls, who are often left to fend for themselves in the towns.

### Stock thefts 'can shatter the economy'

Stock thefts continued to be a major problem in Kenya, Mr. Kiago said. He said that the Government should take steps to reduce the incidence of stock thefts, which he said could shatter the economy.

He said that the Government should also take steps to provide for the needs of the people who are affected by stock thefts.

### New Nyandarua boundary

The Government has approved the new boundary of the Nyandarua District, Mr. Kiago said. He said that the new boundary would be more equitable and would take into account the needs of the people in the district.

### CONVERSION OF DRILLING RIG

# SOCCER SUSPENSIONS LIFTED

## 'Improved conduct' says F.A.

THE suspensions of three Liverpool players, Mikiel, Beier Omer and Mwanjulu, and that of Mwanjulu Whwaywey, have been lifted by the Football Association of Kenya which met on Tuesday to select the Kenya team for Zambia and Zanzibar.

The three Liverpool players were among five who were suspended on August 20 for their part in the rioting during the Sportsman Cup semi-final for Uganda Fetaal at Mombasa Stadium on April 17. The players, all from Nairobi, Mwanjulu, Mwanjulu and Omer were sent off the field by the referee during the match which Fetaal won 5-0.

All Beier was suspended for three months and Mikiel for two months and an F.A. committee of inquiry, headed by Mr. J. Mwanjulu, will continue their inquiries into the rioting. There will be no suspension of Mwanjulu Whwaywey because of his improved conduct during the three years' suspension before the committee of inquiry.

### Second hockey 'Test' off

The second hockey 'Test' between Kenya and the United Arab Republic, which was to have been played on Saturday, has been cancelled because of the illness of the Kenyan players.

The visitors would have been expected to play at the Kenyan Club Ground, but after several weeks of illness, the Kenyan players are unable to play.

The lifting of Mwanjulu's suspension means that he will be able to play for Kenya in the match against Zambia and Zanzibar.

# AGREE ON NEED FOR TRADE EXPANSION

## Relief from G.P.T. refused

**AN amended Opposition motion calling on the Kenya Government to expand its foreign policy in trade and cultural affairs and to seek markets in all parts of the world irrespective of a country's political, economic or social ideology, was passed unanimously in the House of Representatives yesterday.**

The original motion, by Mr. F. O. Oduho (K.P.U. Edith West), had called for similar measures. Mr. Oduho urged the Kenya Ministers to refrain from attitudes and to seek to extend trade relations over other States "without any discrimination". The original motion was moved by a Minister of State in the President's Office, Mr. K. O. Ngunjiri, who objected to the inclusion of Ministers and to the use of the word "discrimination". He was supported by the original motion, but some Government Ministers had been attacking friendly countries when delivering speeches. Some Ministers had said a number of foreign countries were suffering with the internal affairs of Kenya, but not yet substantiated their allegations. The political climate of Africa should not be affected by foreign countries, he said. The Ministers concerned had mainly attacked Russia and China during the last year that both countries maintain, landed and shipping trade with Kenya and were friendly towards Kenya.

# NEED WARNING TO CIVIL SERVANTS

**Parliament rejected a motion which had asked for Tana River district residents to be exempted from paying Graduated Personal Tax for 1964 and 1965. It had called for a subsidy for the country's rural areas and a further increase in the number of civil servants and a further increase in the number of civil servants in the rural areas.**

**Working against the motion was the revised debate on Agriculture Minister for Local Government, Mr. K. K. Mwangi. He said that the Government had not yet decided on the subsidy for the rural areas. # Lighten our darkness

DOUBTLESS YOU HAVE HEARD OF the young lady called Bright, who could travel much faster than light. She set out one day, you will recall, in the relative way and came back the previous night.

Mrs Bright's jet propelled excursions into relativistic space sound nothing like the confusion there will be the Boeing way, if an experiment in the U.S. succeeds in producing eternal day. From Seattle it is reported that Boeing Inc. has received a Government contract to examine methods for making the sun shine at night. An award of 125,000 dollars (about £20,000) if starting is not exceeded on top of all the other benefits to be furnished by American Army. Wilson has been offered for a study of the feasibility of sending a huge satellite which will lighten the earth's darkness by reflecting light from the sun on to the dark side of the earth.

This will mean trying to make a third day in a naughty world, since there are already two—day natural, or natural day consisting of 24 hours from midnight to midnight, and day artificial, or artificial day which seems to be hardly variable proportion. When there is time enough to get into plenty of trouble in a civil day, why should anybody want to prolong the agony by adding more months of their sleep. Like being lying gas all round the clock by electric light? You can probably get the poor man of Seattle sitting in rows, their dead faces gas hollow-eyed for want of sleep in a world where the sun never goes down in a vast field of relief and darkness, bring the blessed vision of oblivion.

Suppose Boeing's success in hanging an immense mirror in the heavens, a celestial orb to compete with the moon and the stars, would do it. It is written, "God made two great lights, the greater light to rule the day and the lesser light to rule the night."

## Sunshine on a moonless night

Even on a pitch dark night, the sky has a light of its own, according to the findings of a team of clever Minnesota hunters. After much research they are convinced the light of a moonless night is "worn incandescent," being made up of several continents. One part originates from the diffused reflection of light from the big cities in North America. Another element is redial and procreant resulting from sunshine on billions of tiny grains of dust in the high atmosphere which are in constant rapid orbit round the sun. There is a wonderful chance for gas far and away above the clouds over Kenya during the dusty dry season.

The natural light, or aureole because of North America, resulting from the dark scattering of sunshine by these whizzing particles of atoms about 100 billionth the intensity of the original sunlight, when streams for the sky on a moonless night looking black enough by any ordinary standards.

Were the Boeing Light to shine in the darkness, it would be small wonder if the darkness comprehended it not. After all, the demons of the night winging aloft in their darkness, are not used to being pushed around by too much daylight saving. It is an old conceit that Boeing Inc. is active about hugging up a mirror on sky-booms to turn night into unholly day precisely half a century after the British started putting the clock an hour on, or back, to get people to bed earlier and save fuel in wartime stringency.

The idea had been suggested ten years earlier by Will Willett, the Chelsea builder who wanted 30 minutes more time for opera-viewers when the Government settled for 15. There was a tremendous outcry among the farmers who said the cows would never play, never send the dancymen. If more minutes would hanker after the discovery of electricity, the world would be a better way and a far cry from the wings of the swallows clothed with the light of the sun, the dew, the light and the follow and find the sun.

## Officers reported killed in attack

More than 10 high-ranking Congolese Army officers were reported to have been killed in an attack on the city of Kisangani, formerly Stanleyville, by troops of the Congo army on Sunday.

The Congolese Prime Minister, Mr. Mulamba, a former general who commanded troops in Stanleyville and is reported to be well thought of by the army, was reported to have fled to the interior, Mr. Tshisekedi, to negotiate. The mutiny is the worst since the Congo was rocked by violence after independence in 1960. The rebels took control in a lightning attack backed by cannons and rockets. Among the Army officers reported killed were Joseph Demin Tshisekedi, the Foreign Minister, Mr. Yehoua, and the Minister of the Interior, Mr. Yehoua. It was thought that the situation will be quickly brought under control.

## Plan to evacuate Europeans

The city was reported completely quiet, with all telecommunications links cut off and the radio station of the Congo. The Congolese gendarmerie were in control of the central parts of the city with the mercenaries holding the rest.

Diplomatic sources said last night plans were being drawn up to evacuate the 400 Europeans in the city, composed of about 150 Belgians, 150 Greeks and a mixture of other nationalities, including white mercenaries. One of them is Mr. Patrick Baines, who, with an American, Mr. Sapiro, were due to leave yesterday after the Belgians had a "semi-detention" for illegally entering the country earlier this month.

## TALKS ON ROW OPEN

The seven-nation group of the Organisation for African Unity (O.A.U.) has opened talks on the Congo crisis in Addis Ababa. The talks are being held in the presence of the O.A.U. Secretary-General, Mr. Amadou Mbaye, and the O.A.U. Executive Secretary, Mr. Amadou Mbaye. The talks are being held in the presence of the O.A.U. Secretary-General, Mr. Amadou Mbaye, and the O.A.U. A PROVIDENT DECISION

IN ARRIVING AT THE DECISION not to order the winding up of private retirement funds, the Kenya Government has paid regard to the interests of the workers. Their maintenance being, it emerges from the statement by the Minister for Labour, has been paramount consideration.

The Government has stood firm on the central issue of its refusal to instruct private employers to close and set up these provident funds, ruling that they should continue, parallel with the national fund.

Corps leaders, who have widely accepted this position on a general payment, have wisely accepted this position. In turn they have been assured by Mr. Njiru that the Government is aware of the risks of a Workers' Investment Fund inherent in the Development Plan. They will also have welcomed Dr. Kenia's pledge that they will continue to be consulted in the task of securing the recall of private provident fund money now invested outside Kenya.

The point has been made that the Government is aware of the risks of a Workers' Investment Fund inherent in the Development Plan. They will also have welcomed Dr. Kenia's pledge that they will continue to be consulted in the task of securing the recall of private provident fund money now invested outside Kenya.

Moreover, there can be no guarantee that the proceeds from the sale of investments held as assets by the workers will match up in the market with stock which has risen in value. The market with stock which has risen in value. The market with stock which has risen in value.

Consequently, the Government is concerned that the loss that would be sustained by the workers, most of whom have no other assets, would be considerable.

End to a prodigal campaign

Sen. Lubiano's argument that floating the national fund automatically makes private schemes redundant, or brings them to maturity is invalid in law and from a human standpoint. The national fund is a long-term investment and the private schemes are high return and can be used to accumulate funds for retirement.

The launching of the national fund, welcome as the beginning of social security, is not the end of the road. The national fund is a long-term investment and the private schemes are high return and can be used to accumulate funds for retirement.

The Government's decision displays a prudent sense against impulsive action. The Government's decision displays a prudent sense against impulsive action.

## RENTS UNPAID FOR YEARS

In some cases rents for houses have not been paid for a number of years. This included Council staff stationed outside were late from time to time to other divisions.

The Clerk to the Council, Mr. J. O. Sanga, suggested that the housing clerk should be employed to keep a register of housing rents, including training rates, and to be responsible for notifying the finance committee of arrears occurring in the Government and Council staff occupancy of houses.
