VORSTER NEW PREMIER

Edges to continue Verwoerd policy

VORSTER. South Africa's Minister of Justice and architect of Dr. Verwoerd's apartheid policy, was yesterday elected Prime Minister of the Republic. Immediately he said he would continue on the course set by the assassinated Premier.

One week after Dr. Verwoerd was stabbed to death in Parliament, Mr. Vorster was elected by a caucus of the ruling National Party. His only rival was the Minister of Transport, Mr. Schoeman, who stood down at the last moment to avoid a party split.

As Minister of Justice Mr. Vorster, who is aged 48, drew to South Africa's strictest apartheid laws and has defended his tough position by stating his political philosophy. The end justifies the means.

In an impromptu speech to several thousand cheering supporters in the days of his appointment, Mr. Vorster said: "You will see that course I will follow. My course is to go further on the road which Dr. Verwoerd followed."

Hardening of attitude

"What do I believe in? I believe in the National Party and its principles and in the full implementation thereof in every respect, whatever the consequences."

Mr. Vorster is not expected to make immediate drastic policy changes, although Opposition politicians in South Africa believe his leadership will mean a hardening of South Africa's attitude to the outside world, critical of his regime.

Communists, who were expelled from the Government by Mr. Vorster, were a major force in the Verwoerd Government. Dr. Verwoerd was assassinated by a Communist in the Cape Town, South Africa, street.

Mr. Vorster's appointment as Prime Minister was a surprise to many. He had been Minister of Justice for only a few months. He is a member of the National Party, which is the ruling party in South Africa.

Yesterday the Government Cabinet, led by President Verwoerd, approved the new draft of the four-point Commonwealth agreement, which will be signed in London in the near future.

London talks deadlocked as Britain stands firm

THE Commonwealth talks in London became deadlocked last night as the British side insisted on a four-point agreement, refused in a special session the fourth key requirement of Commonwealth leaders by the Commonwealth.

The sources continued that, though basic problems were at present unclouded, discussion of the draft agreement now leave the way open for some kind of understanding.

Asian, Australian and Caribbean countries were said to be strongly dissatisfied by the refusal of the British Prime Minister, Mr. Wilson, to commit Britain to a policy which would grant some independence to Rhodias only when its 1,000,000 Africans had been majority.

The Zambian Foreign Minister, Mr. Kapembwa, told reporters after the working session "an understanding has been reached between the Commonwealth countries, but the British side is still holding out."

Mr. Kapembwa was due to fly to London last night to report personally to President Kenia, who was expected to return to Kenya today.

Mercedes-Benz truck came that slow

Mercedes-Benz truck L1A 2620 during a test run on the "Sauberg" (the mountains)

Mercedes-Benz trucks are built to do without roads!

When they've got a road... nobody outperforms them!

"In summer we do test drives almost every day here on the Sauberg, and with an audience, too." The Mercedes-Benz man was standing there in the glossy gloom of the headlights, trying to speak over the roar of the trucks. Then a visitor asked: "Why do you drive those brand new trucks so hard anyway?"

"Well," began the Mercedes-Benz man, "for us, there can be no plain 'good' trucks. Or 'bad' ones. Only 'very good.' So we exercise a very rigid quality control, all along the line... from raw materials, through production, and right up to the final check-out. But

then, the "super check-out" begins. Absolutely everything is checked... mercilessly, untiringly. Among other things, the truck has to take climbs of up to 27 degrees, up and down, again and again, without a letup. It happens to every new truck model. "It comes the road test, fully loaded."

What is this? Well, Mercedes-Benz trucks must thrive themselves under extremes: cold and heat, dryness, humidity, steep hills, long and bad rains. Everything. You see, Mercedes-Benz trucks are exported to 110 countries around the world. People there expect them to be good. We can't let them down.

The Super L1A 2620 with all-wheel drive, 200 hp. HPV6AL, wheel base 141.25 and 52.76 in. or the platform truck L1A 2620 without or with all-wheel drive, 200 hp. CENTRAL BANKING SYSTEM

WITH THE creation of a 20-25 Central Bank for the East African states, East African countries have their own state banking institutions. They have been set up to replace the Colonial Currency Board which controlled the issue of the former East African currencies—pounds, shillings and rupees. They are based on state currencies and Kenya's bank notes come under their jurisdiction.

The Currency Board's report for its last year's operations will be published shortly. During the coming months, the Currency Board will be dismantled, with its life not to be resurrected until the notes have been distributed to the three countries. After that, having previously agreed.

Many people viewed the decision to meet separate currencies with concern, for it meant the possible disappearance of the Currency Board, instead of its conversion into a Central Bank for the whole of East Africa. It was argued that one central banking system would be essential to ensure the currency market and also to ensure a sound political foundation. When the East African Central Bank, revolving from the Currency Board (which had formerly discharged most of the duties associated with central banking), could serve four countries — the three Governments and S.A.D.E.C.O. — besides acting as banker to the member states.

Tanzania's decision to set up a Central Bank may be its own currency forced the pace. For a while there seemed a possibility of forming a central banking partnership between Uganda and Kenya, but the difficulties of having more than one Government customer interested.

The public should clearly understand the functions of a Central Bank are vastly different from those of a commercial bank. Kenya has not opened another bank to compete with the commercial banks in banking the deposits of private customers. Indeed, almost the only direct contact the general public will have with the Central Bank is in obtaining Kenya currency in exchange for the old East African money and bank notes (not come from Uganda and Kenya). The interim period for one year, the commercial banks will accept East African currency and also the Kenya notes which will be effected without charge. As a further step they will operate, the three Central Banks have agreed to accept one another's notes without discount, so that currency is freely interchangeable.

Co-operation ensured between Governors

Purity exists between the currencies, which are on equal footing with the dollar pound, because all are related in gold. The denominations of cents and shillings and the Kenyan unit will be issued, but the sign will be for calculations in bigger units.

Consideration of the fiduciary liabilities and the record of recoveries of the Queen's Head against Lake Victoria notes up to June last year (presumably indicate very substantial has occurred since they would indicate that Tanzania and Kenya look like enjoying very favourable trading backing. Unless there have been marked changes, known only to the experts, during the past year, Uganda may find its currency situation rather more difficult in the respect.

What the Currency Board's notes do show is that they will be issued between the three Central Banks. What are to be issued between the Governors give financial advice to the Governments on matters such as international trading, banking and loan issues. If the Governors act as clearing houses for the commercial banks, ensure a distribution of currency, ensure sufficient to meet seasonal requirements of commercial banks in the Government and also to ensure foreign exchange transactions for private firms, the Central Bank will be automatically be responsible for exchange control.

Kenya's Central Bank has been set up to take over the issue of banknotes from interest on Kenya's reserves will have amount of income from interest on Kenya's reserves from its own operations, therefore, the Central Bank will be one of the main sources of revenue for the Government.

There will be continuing need for the close co-operation between the Governors of the three Central Banks to ensure the coordination of banking policy and protection of currency values, as that fluctuations will not take place. Kenya's stability of the currency market. As President Kenyatta has said, the Central Bank will be a major part in the economic common market has not been abandoned. Arrangements have been considered to ensure the smooth continuation of payments between the three countries.

NO REACTION FROM REGIME Mr. Wilson refuses to recall Parliament

MR. WILSON'S refusal so far to make any comment on the communiqué from the Commonwealth conference in London is the Salisbury view as an indication of the Rhodesian Government's indifference towards the opinions of her British and Afro-Asian critics.

The Rhodesian Prime Minister would not comment on the communiqué until he had received his proposals from the British Minister, Mr. Wilson, a Government statement said.

Observers in Salisbury saw the timing of Mr. Smith's declaration of independence on November 11 — the first anniversary of Rhodesia's unilateral declaration of independence — as a London move to mark the 10th anniversary of the Rhodesian Government's intention to remain in power until the Commonwealth conference in London.

The head of the residual British mission in Salisbury, Mr. John Hamilton, declined to comment on what would be his attitude towards the Rhodesian Government with the latest British proposals.

SPECIAL CABINET MEETING

In London yesterday Mr. Wilson rejected a request by the Conservative Opposition Leader, Mr. Heath, for an emergency session of Parliament to discuss the latest Rhodesian proposals.

Mr. Wilson, in a letter to Mr. Heath, said the Conservative leader's request was based on the fact that the Government was not insisting on a favourable for Rhodesia's retention. "This can hardly be argued," Mr. Wilson said.

Mr. WINA DENIES APOLOGY

The British Prime Minister yesterday denied he had apologized to Mr. Wilson for the remarks by the Zambian Foreign Minister, Mr. Kapwepwe, that the British leader was a racist.

HOUSING PROJECT OPENED BY Mr. NGEI

Example of enterprise'

Minister for Housing, Mr. Ngei, yesterday said such housing project that was completed was not only the first of its kind in the island but also a reflection of the steady economic progress of Singapore.

Mr. Ngei was speaking at the opening of the new building of Embankment Village, situated at Government Road, near the Airport.

The houses were built by the Ministry of Works at a cost of \$2,500,000 to a standard design which has been used for the past 10 years in various parts of the country. Each block consists of 1,000 including car-parks, access roads and other works.

Mr. Ngei said that a comparatively small housing project in relation to the very large needs of Singapore did not mean it was not an example of what can be done in the way of solving the housing problem.

The steady economic progress, he said, had been made possible by the political stability and security of the country.

WARDS ON THE TABLE' VISIT Kinsey found

Minister hopes to see Mr. Smith

British Commonwealth Secretary, Mr. Rowden, who was due in Kenya last night, said in Harare, Malawi, that he hoped to see Rhodesian Prime Minister, Mr. Smith, during his stay in Rhodesia.

Earlier, the Commonwealth Secretary and the British Attorney-General, the former having just returned to Harare, were met at the Kenya Government offices. They were met at the airport by the Minister for Defence, Dr. Mwangi, the Minister for Agriculture, Mr. McKenzie, the U.K. High Commissioner to Kenya, the Rhodesian Prime Minister, Mr. Mphahlele, and the Permanent Secretary in the Office of the President, Mr. Mphahlele.

A British High Commissioner official said Mr. Rowden and the Attorney-General had been in Harare for a few days. They were allowed to take pictures. The only photograph which was taken was of Mr. Rowden and the Attorney-General.

Bring home realities

In Harare Mr. Rowden said he did not wish his Commonwealth Secretary, the Governor of Rhodesia, to be misled by the Rhodesian Government. He would bring home the realities of the Rhodesian situation to the British Government. He said that he was putting up cards on the table and showed the picture of the situation as it was.

Asked whether the appointment of Mr. John Vorster as Prime Minister of South Africa would help his South to consolidate his position over the Rhodesian independence issue, Mr. Rowden said that it was too soon to say if there would be any improvement. He said that he would be in Harare for a few days, and would be in Harare for a few days.

Try fixed odds draw

Fixed odds draw is a new type of horse racing bet which is being introduced in New York City. It is a bet on a single horse to win a race, and the odds are fixed at the time the bet is placed. This means that the bettor knows exactly what the odds are and what the potential payout is. The draw is held at the New York City Race Course, and the results are announced on the radio and in the newspapers.

BUGANDA — 'NATIONAL ISSUE'

Standard Staff Reporter. **THE QUESTION** of public opinion in Buganda, Uganda, is a "national issue" that has caused a great deal of controversy. The issue is the proposed merger of Buganda with the rest of Uganda. How To Achieve A Lovely Complexion

Reserve Skincare
Reserve Skin
Reserve Cream

A beautiful complexion begins to develop as the body's natural skin cells are renewed and the pores are kept clear of dirt and oil. Reserve skin cream is the key to a clear, glowing complexion that is radiant and healthy.

A Beauty Patch

Probably the most popular of all complexion treatments is the use of beauty patches. These are small pieces of paper that are placed on the face to draw out impurities and to give greater definition to the facial features.

Beauty Tonic

To keep your skin clear and supple, it is essential to use a beauty tonic. This is a liquid preparation that is applied to the face to refresh and tone the skin. It is particularly beneficial for those who have a dull or tired complexion.

Beauty for the Mature Years

There are many products available for the mature skin. These are designed to address the specific needs of older women, such as dryness and wrinkles. They help to restore the skin's natural moisture and elasticity.

PROBES BY AMERICAN ARCHAEOLOGISTS TO PINPOINT THE SITE OF HATICE, A LONG-LOST CRETE CITY, HAVE BEEN INTERRUPTED DELIBERATELY.

The remains of Haticia, apparently agreed to be between the mounds of the Sarcophagi and Corymbos trees on the north side of the Peloponnese, 100 miles west of Athens.

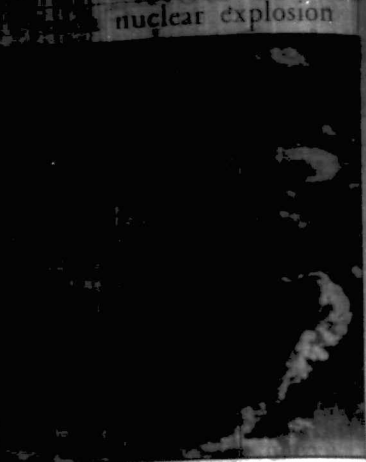

The area, occupied by a large number of small houses, was excavated by the American Archaeologists in 1932 and 1933. The site was then abandoned by the American Archaeologists in 1933.

The American Archaeologists are now in a great hurry to complete their work in the Peloponnese, headed by Dr. Carl Blegen, who is the director of the American Archaeological Expedition to the Peloponnese, which is the largest archaeological expedition in the world.
