Crucial meeting for pro-secessionists

STANDARD STAFF REPORTER

SMALL political leaders, tribal chieftains and hundreds of soldiers, were gathered in a hall last night for a crucial meeting to decide what immediate steps to take to win their battle for secession.

Two resolutions are expected to be put to the meeting. One will bring the Northern Frontier District under the authority of the Northern Kenya and declare itself a separate State. The other suggests that the administrative staff of the district should be transferred to the new state, if it could have serious repercussions in the immediate future.

Meanwhile, violent anti-Kenya propaganda is being broadcast from Somalia. The District Commissioner, Mr. John Gidd, said yesterday that a few days ago an informant alleged that anti-secessionist forces had been formed in the area.

Somalis in Waizi, which is the headquarters of the secessionist movement, are united in their rejection of regionalism and are determined not to form a regional body.

KADU A.P.P. TALKS OK WELL

Possibility of election agreement

NEGOTIATIONS towards an electoral agreement between Kadu and the African People's Party are progressing well. These moves, which were first reported by 'The East African Standard' on Wednesday, have continued during the week through contacts between the party leaders.

The Kadu president, Mr. Ngila, was reported by the Kenya Broadcasting Corporation last night to have said: "Everything is moving in the direction of a united front of the parties and a statement can be expected shortly."

Meanwhile, the A.P.P. leader, Mr. J. J. Mwangi, stated that not only Kadu, but Kenu also had approached him about an electoral agreement. "I do not think people would rather talk with Kadu than with those who say they will give me a prison sentence."

Statement next week

Mr. Ngila said that the A.P.P. was not his enemy, but the A.P.P. had to rightise itself. Kadu as an enemy. Mwangi would announce the list of prospective candidates for Kenu in a Press statement by a Press statement by the A.P.P. executive and governing council. Mr. Mwangi said that a statement from the two parties on the current talks might be expected towards the end of next week.

"I will not consider standing for the seat," Mr. Amukamba said. "I have said to the people of my opinion and have said to the people of my opinion."

with form up to date

WHEN Kenya Police had made 6-1 last weekend it was believed on a Saturday afternoon that they were bound to win. On Saturday afternoon the Kenyan Police beat the District Commissioner's side by 10-3 in a match which they described as the victory.

This means that the Kenyan Police had a fine record before the season will have been re-commenced. They are going to be hard to beat, particularly on their own ground. They have their strength and they play to it.

TRIP WAS THOROUGHLY ENJOYABLE ANAO

SERAPHEM ANAO, Kenya's South Commonwealth Games gold medalist and British A.A.A. dual title-holder, returned to Nairobi last night after his tour of Australia. While he had little to say as many teams as he had seen, he met Australian athletes, notably M. Cleary and B. Holdsworth, who had reached the top of their seasonal form. Anao had the East African approach of "it was a thoroughly enjoyable trip and I've given a most friendly welcome every time I went."

Col. D. R. L. Bright, has written to volunteers pointing out that the Government had been taken advice on financial grounds and cut through any failure on the part of the Regiment either in efficiency or to adapt itself to changing conditions.

SWAHILI OR ENGLISH?

LANGUAGE questionnaires received from various districts in Kenya's Central Province have been analysed by the Government, after the East African Commission for Education had asked for the necessary facts.

Confusion will be felt to spread from Lower Kenya into the Upper Kenya, if it is not corrected and the necessary steps are taken. It is felt that the Government should take the necessary steps to correct the situation.

The Commission has received the full answers to the questionnaires and has found that the situation is not as serious as it was at first thought. The Commission has found that the situation is not as serious as it was at first thought.

Unable to cope with modern needs

One objection to the use of English as an official language of Kenya is that it would take too long before the majority of people would be able to read and write in the language. It is argued that to be able to read the literature in English, this would be needed to reach the literate in English. This is a dubious point, since there are no doubt many who can read the literature in English, but who are unable to write in it. It is argued that the Government should take the necessary steps to correct the situation.

London, Mar. 28 (AP)—The London market today was characterized by a general decline in prices for most commodities, with the exception of rubber, which advanced.

The market was influenced by reports that the United States government had decided to increase its stockpile of strategic materials, and by news that the British government had announced a new policy of rationing.

Prices for most commodities fell, with a notable drop in the price of tin. The price of rubber, however, rose, reflecting a shortage of supplies from the Far East.

The market also showed a general decline in the price of metals, with the exception of copper, which advanced slightly.

THE PERFECT ANSWER FOR PERFECT LISTENING

It means that Kenya's motorists are having a pretty rough time, with tyre rackets, petrol rackets, increased insurance premiums and the likelihood of increased taxation.

At the time of the late market, mentioned by Mr. Carnegie in his letter, we were in a state of confusion. The tyre racket was a real headache for my office, as well as for many others.

One man passed a completely new tyre to a local mechanic, who told him it was a good one. The man was a bit of a trouble maker, but he was a good one. He was a bit of a trouble maker, but he was a good one.

BEWARE OF RACKETS IN TYRES AND PETROL

for all their major allies, I presume will be to the extent of making the standard of living of its people as high as that of the other major allies. It is not clear from Mr. Carnegie's letter whether all Africa to be treated in the strictest sense of the word.

Today, the British and American governments do not get along. It is for one, do not other the Commission or Western democracy. Because of these two things, it is not clear if the African countries believe that the Commission and democracy, they should be treated as such.
