Report rejects idea of currency split

Standard Staff Reporter Dar es Salaam

Bank system in East Africa, with four State banks for Kenya, Uganda and Zanzibar assuming territorial autonomy, is recommended in a report to the Government by a German financial expert, Herr Bismuth.

The report also recommends a steady widening of the economic co-operation among the East African countries and joint planning for development of industrial areas which would be allowed a certain measure of independence and freedom of decision on a territorial basis, and which would serve to safeguard the special interests of their own countries.

The report emphasizes that the distribution of functions between central and State banks would depend on close cooperation under a board of directors.

Right to issue currency

At the top would be the central bank, established on a regional basis for East Africa. Governmental functions, which would take over the assets and liabilities of the present East African Currency Board, and which would have the sole right to issue legal tender.

Incorporated in and forming part of the central bank system would be four State banks in Kenya, Tanganyika, Uganda and Zanzibar, which would be allowed a certain measure of independence and freedom of decision on a territorial basis, and which would serve to safeguard the special interests of their own countries.

The report emphasizes that the distribution of functions between central and State banks would depend on close cooperation under a board of directors.

Agreement

In addition to the general of the bank who would be present on the board would be four State banks in Kenya, Tanganyika, Uganda and Zanzibar, which would be allowed a certain measure of independence and freedom of decision on a territorial basis, and which would serve to safeguard the special interests of their own countries.

The report emphasizes that the distribution of functions between central and State banks would depend on close cooperation under a board of directors.

Opposition

With widespread hopes that a State bank it would likely be established in East Africa, the report has been met with opposition in some quarters, which has suggested a split between Kenya and the other territories.

The difficulty of setting the central bank system, it is pointed out in the report which emphasizes that the central bank would be established on a regional basis for East Africa, with four State banks for Kenya, Uganda and Zanzibar assuming territorial autonomy.

Z.N.P. SECRETARY MAY NOT SEEK ELECTION

The general secretary of the Zambian National Party, Shikishi Abdul Rahuman Makwano (Dahot), recently released from prison after a 15-month sentence for sedition, said he was not sure whether he would stand again at the forthcoming election. In the 1963 election he was defeated by an Afro-Asian candidate.

While he had been in prison he had been able to follow news of Zambian affairs. The most significant thing he had noticed was the increase in the price of the people's rice. He said that the price of rice had increased by 50 per cent since he was in prison. He said that the price of rice was a major problem for the people of Zambia and that he was determined to do everything in his power to reduce the price of rice.

He said that he was not sure whether he would stand again at the forthcoming election. He said that he was not sure whether he would be able to win the election. He said that he was not sure whether he would be able to do anything to help the people of Zambia. He said that he was not sure whether he would be able to do anything to help the people of Zambia.

Iron industry plan well advanced

The iron industry in Uganda is well advanced in the preparation of a plan for the development of the iron resources of the country. The plan is being prepared by the Ministry of Mines and is expected to be completed in the next few months. The plan will provide for the development of the iron resources of the country in a systematic and planned manner. It will also provide for the training of personnel and the development of the iron industry in Uganda.

Unsettled mood in the City

Unsettled mood in the City. The mood in the City is unsettled. There is a general feeling of uncertainty and concern among the people. This is due to the uncertainty of the future and the possibility of a change in government. The people are worried about their jobs and their future. They are also worried about the economy and the possibility of a recession.

UGANDA TO HAVE TV IN SCHOOLS

UGANDA TO HAVE TV IN SCHOOLS. The Government has announced that it will provide television sets for use in schools. This is a significant step towards the development of the education system in Uganda. The television sets will be used to provide educational programs and to provide information to the students. This will help to improve the quality of education in Uganda.

More minerals exported

More minerals exported. The value of mineral exports from Uganda has increased significantly. This is due to the discovery of new mineral deposits and the increase in the production of minerals. The increase in mineral exports is a positive sign for the economy of Uganda. It will help to increase the country's income and to improve the standard of living of the people.

Blow to hopes of 40-hour week

Blow to hopes of 40-hour week. The hopes of a 40-hour week in the iron industry have been dashed. This is due to the discovery that the iron resources of the country are not as abundant as previously thought. This means that the iron industry will not be able to produce as much iron as was expected. This will have a negative impact on the economy of Uganda.

History of the Industry

Dr. M. V. Shah, Director and Chief Engineer

The History of the Industry

In its early stages, the industry was primarily a government undertaking. The Government of India, through the Ministry of Steel, took over the industry in 1952. The industry was then known as the Iron and Steel Corporation of India. It was later renamed as the Indian Iron and Steel Company Limited in 1962. The industry has since then grown rapidly and has become one of the leading industries in the country.

War come

The war came and the industry was faced with many difficulties. The demand for steel increased sharply and the industry had to work at full capacity. The government took various measures to ensure the smooth functioning of the industry. The industry has since then emerged as a major contributor to the national economy.

will begin the negotiations with the Government of India.

IS ANOTHER YEAR OF SHEETS IN A YEAR

AFTER only six months of production at the new plant, the industry has already achieved a record production of 15,000 tons of sheets in a year.

The industry has achieved this feat due to the efficient management and the high quality of the raw materials. The industry is now producing sheets at a rate of 15,000 tons per year.

Exports, too

The industry has also started exporting sheets to various countries. The exports are expected to increase further in the coming years. The industry is now producing sheets at a rate of 15,000 tons per year.

Capital raised

The industry has raised a large amount of capital for the expansion of its production facilities. The capital is being used for the purchase of new machinery and the construction of new plants.

The industry has also started producing sheets at a rate of 15,000 tons per year. The industry is now producing sheets at a rate of 15,000 tons per year. The industry is now producing sheets at a rate of 15,000 tons per year.

This simple corrugated iron roof is the end product of a skilled steel manufacturing industry — an industry whose expansion and progress means a boost to the country's economy and a higher standard of living and full employment for many of its workers.

Step by step through the process

The process of manufacturing sheets involves several steps. It starts with the melting of iron and steel in a blast furnace. The molten metal is then poured into a continuous casting machine. The resulting strand is then rolled into sheets. The sheets are then finished and ready for use.

Galvanised sheeting in large rolls are unrolled by a fork truck from the railway siding alongside the Mombasa factory of Kawasaki Iron Works Ltd. These rolls are cut into lengths before the sheets are corrugated. The raw sheet comes from the Kawasaki Steel Corporation of Japan; they are bought from and delivered by the Onji Co. Ltd., another Japanese firm.

Above right: A coil of galvanised sheeting being unloaded from a rail truck at the siding of the Mombasa firm.

A coil of galvanised sheeting is being unrolled as it is set before passing the sheets through the corrugating rollers. Operating the winch is Mr. Kameji Hyashi, who serves from 1948.

Left: Galvanised iron sheeting being cut into the required lengths at the Mombasa factory before the corrugating stage. The sheets are a secondary product from the Japanese firm of Kawasaki Steel Corporation. The corporation also makes stainless steel, as well as other types of special steels, wire ropes, steel drums, pressure vessels and weighing and measuring machines.

KAMBA COMPRISE MAJORITY OF WORKERS AT FACTORY

Mr. A. D. Singh (left) one of the directors of the airtight sheeting factory shows one of the "multiplex" type automatic machinery which has arrived in order from Japan for the new galvanizing mill.

After testing the airtight sheet, they are packed in bundles for shipment through the Air India. One of the workers in the Shimizu factory and Kamada Mr. Fumio Kawada, one of the Kamada employees, is fastening a bundle of sheets and raises a special crane for the transportation.

The right: Bundles of airtight sheeting being loaded on a lorry for transportation from the Shimizu factory to the railway station at Shinjuku, where they will be taken by train to be loaded in the north and Yamanashi.

Here, the steel which comprises the equipment for shipping in the Shimizu factory, is being raised from a lorry to the factory building. These steel sheets are being raised from a lorry. One of the iron sheeting workers from the Kamada Steel Corporation's main works at Osaka, near Tokyo, is regarded as one of the best technically integrated steel workers in the world. It is probably with modern equipment in mind, intended to be made the maximum production effort.

Although the Government has not yet announced its policy on the production of steel, it is expected that the Government will continue to support the steel industry in the near future.

Under way... The steel industry is currently engaged in a series of negotiations with the Government regarding the production of steel. It is expected that a final agreement will be reached in the near future.

JAPAN'S GROWTH SINCE THE WAR

Japan's economic growth since the war has been remarkable. The country has achieved a high level of industrialization and has become a major power in the world. This growth has been the result of various factors, including government support and technological advancement.

One of the main factors in Japan's growth has been the government's support of the steel industry. This support has been in the form of subsidies and other financial incentives, which have helped the industry to expand and modernize.

Another factor has been the country's technological advancement. Japan has invested heavily in research and development, which has led to the development of many new and improved products. This technological advancement has been a key factor in the country's economic growth.

The steel industry in Japan has been a major contributor to the country's economic growth. It has produced a wide range of steel products, including sheets, pipes, and other forms of steel. This production has been essential for the development of other industries in the country.

Under way... The steel industry is currently engaged in a series of negotiations with the Government regarding the production of steel. It is expected that a final agreement will be reached in the near future.

Fast 29-mile-per-hour board clash

Only survivor swims miles to shore

Standard Staff Reporter
Members of the 30 people on board an escapee ship were rescued off the coast between Kilifi and Mida Creek on Saturday. Search parties worked throughout yesterday but had no success in the rough sea, lashed by winds of 25 to 30 knots.

The one survivor is the captain of the ship, Mr. Ahmed Ali, who swam 11 miles to the shore at about 3 a.m. on Sunday after being blown overboard shortly after the vessel sprang a leak at about 9 p.m. on Saturday.

He said that there was a crew of 11 and that passengers included a woman and two children. The ship had 275 score of bottles and 25 drums of diesel oil.

The show, the Masha Hur, left Zanzibar on Monday for Mombasa, but met heavy seas and a strong wind off the Kenya Coast. It is understood that the vessel had successfully put into Kilifi Harbour after having engine trouble.

Rough sea stops search

Yesterday morning Mr. E. H. G. Alleyne, the District Officer at Kilifi, and Mr. Peter Leth set off from the Mombasa Club, Kilifi, in a light motor launch to look for survivors, but had to turn back after going about 10 miles because of the rough sea and bad visibility.

Later, Mr. Alleyne travelled to Watamu with the intention of continuing the search in a borrowed motor launch.

board clash on pyrethrum agreement

Standard Staff Reporter, Nairobi.
There was a dramatic development during a stormy seven-hour meeting of the Pyrethrum Board of Kenya called at Nakuru on Saturday to discuss a new pyrethrum agreement with Mitsubishi Cereals Ltd.

A former board chairman for ten years, Mr. D. H. Peck, Smith (Mombasa), resigned after the meeting. He had resigned from the board in protest at the endorsement of the agreement, and that Mr. J. F. Perkins, of Embu, had resigned from his post as vice-chairman, but remained a board member.

COLLECTIONS EXPECTED AT TAX OFFICE

Collections still about £2m. short of payments due

Before the deadline for payment of the latest Income Tax returns, the Inland Revenue Department has only collected about £2m. short of the £200m. expected to be received in the month of April.

Mr. Butler, who had a team of accountants to assist him in dealing with the returns, said that the department's office in the Headquarters of the E.A.C.P.D.

He pointed out that although of the great grade of 18, had been increased from 1958 to 1959 and that the returns for 1958-59 were due to be submitted to the Controller of Inland Revenue by the end of April.

Mr. Butler said that the department's office in the Headquarters of the E.A.C.P.D. had been closed for the past few days and that the returns for 1958-59 were due to be submitted to the Controller of Inland Revenue by the end of April.

Plans take shape for £2m. package factory at Jinja

Standard Staff Reporter, Kampala.

PLANS for a £2,000,000 project at Jinja are now going ahead, and investigations have already shown that the venture can be a practical one.

Announced this weekend, the sponsors of the project revealed that a factory is to be built soon to produce packaging materials.

This will provide a market for the raw materials and will also create a number of jobs for the local population.

The project is being sponsored by a group of businessmen and is expected to be completed within a few years.

REPT WAITING FOR HOURS BY NEW V.I.P.

It is interesting to note that African ladies are now waiting for hours at the airport to see their husbands who are returning from overseas. This is a sign of the growing importance of international travel for Africans.

Reigning memories

The article 'Reigning memories' is a very interesting one. It describes the lives of the British monarchs and the impact they have had on the world. It is a well-written and informative piece that is worth reading.

New ship to serve cotton islands

The new ship 'Mwamba' is expected to start serving the cotton islands in the next few weeks. The ship is a modern and comfortable vessel that will provide a reliable service to the islands.

Postal delays

Postal delays are expected to continue in the next few days. This is due to a number of factors, including a shortage of staff and a backlog of mail. It is hoped that the delays will be resolved in the next few days.

Ganda party may broaden its appeal

Standard Staff Reporter
The Kabaka Yekwa Party in other parts of Uganda and the Uganda Peoples' Congress in one of the provinces, is expected to be a serious contender for the post of prime minister. The committee was appointed by the K.Y.P. executive conference to investigate the causes of weakness in the organization and to recommend a course of action.

The recommendations were contained in a 40-page report which was read to K.Y.P. members at Mengo at the weekend. The report said the organization's weakness was due to external and internal causes. It accused U.P.C. of having played a great part in weakening the organization. The opening of U.P.C. headquarters in Kampala, its continuing state of the seats in the House of Representatives and their refusal to resign, were also mentioned as reasons for the weakness.

The report also said that the K.Y.P. should be made to accept the U.P.C. as a partner in the Government. It also recommended that the K.Y.P. should be made to accept the U.P.C. as a partner in the Government. Rhodesians accused of being agents

THREE Southern Rhodesian African agents, Sakala, Bonnie, Sam Mchana and Ben de Alcora, have been detained under the Preventive Detention Act as spies, the Tanganyika Government said yesterday.

A statement said the Government had evidence, deposed to on oath, that the two men and the woman, while posing as political refugees from Southern Rhodesia, were paid agents of the Special Branch of the Southern Rhodesian police force.

"Documents found in their possession and statements which they have made clearly indicate that their objectives were to collect and transmit information of the views and movements of leaders of the Zimbabwe African People's Union, to whom the Government of Tanganyika has given political asylum, and the activities of these people directly affect the security of the republic."

Worked in Tami building

Dr. Abeya had been employed at a hotel in Dar es Salaam in charge of the mess room. A spokesman for the hotel said that she worked "faithfully enough" but left the hotel to work at the Tama Parliament Party building, where she was employed as a housekeeper until April 20.

There were reports in Dar es Salaam yesterday that another Rhodesian girl was arrested about eight days ago at the Lady Twining Hostel, where she had been living while taking a clerical course at the Technical College. Zapsu cried said Sakala arrived in the capital "in a desperate" form. Formerly a member of the Zapsu Youth League, she had not assumed a Rhodesian name.

PARTY HEAD COMMENTS ON DETENTION

Standard Staff Reporter, Dar es Salaam.

Mr. J. M. Salim, president of the Tanganyika African National Congress, said at a Press conference in Dar es Salaam yesterday that his detention for 74 days at the Mlimbaung Hospital, Mombasa, was "in the interest of the country" and that the Government was "not in a position to give any further information."

He said that he was "not a member of the Rhodesian Government" and that he was "not a spy."

Qantas have put the southern hemisphere down to size—and brought Australasia right home nearer South Africa. It's been done by the Electra—fastest turbo-jet speed, comfort and dependability—and now to be in service with Qantas on the Ballarat route to Australia. And Qantas experience means you fly with assurance. With the real confidence of the passenger that comes from air travel on one of the oldest established world airlines—a world famous airline, linking 26 countries in all five continents.

All very good reasons why, whether it's air freight, a vacation, or one of those Very Important Personal visits, Qantas is by far the better choice for the world traveller.

At what age should a girl start using Tampax?

There are no hard and fast rules about when to start using Tampax. It is entirely up to the girl and her doctor.

There are two reasons for this. First, women who have used Tampax throughout their lives are usually better able to cope with the changes of menopause.

The advantages are clear. Comfort, freedom of action. No odor, no bacterial problems, no cramping or irritation. Tampax is comfortable and safe to use.

Tampax may be purchased in a variety of 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.
