HOMESICK?

The other day a sombre servant came into our office. He gazed at us sternly. I suppose, he said, "That you wouldn't think of printing something for Homesick Soldiers?" I sounded more like an accusation than a question. We wrote a little under the scrutiny.

"It's a well known fact that I've been just itching to equal Innexa. Everyone knows that." She is right, of course. Innexa is a well known fact. It is a well known fact that I've been just itching to equal Innexa. Everyone knows that.

INCOME TAX ACCEPTED AS PERMANENT MEASURE IN TANGANYIKA

(Special Comment) Dec. of Salama.

THE important debate on the principle of accepting Income Tax as a permanent, constitutional measure in Tanganyika recently, evoked significant comments and is in itself fully.

The Financial Secretary, Mr. S. A. Leslie, moved that "provision be made for a permanent part of the fiscal measure of the Territory." In moving this resolution, he said: "As well as views of the speaker and members who Sir Frederick G. G. gave to this Council in 1939, when the Income Tax was first introduced, and deliberately designated a War Revenue Measure, the definite views were given that the introduction of War Revenue measures on a temporary basis authorized the Government of the territory to request to the Government of the United Kingdom that they should make a permanent part of the fiscal measure."

In accordance with the terms of the Tanganyika (Legislation) Ordinance, 1942, the Government of the Territory has now introduced the Income Tax Ordinance which will be presented to the Council for its approval. The Council will be asked to establish a permanent feature of our fiscal structure, whether on foot, on six months, or on a year, and to make a permanent feature of our fiscal structure.

Why Essential?

There are two reasons why in the circumstances of the Territory the Government wishes to see in existence, and how necessary it is to the well-being of the Territory. The first is that the late war has shown that it is usually estimated at 10 per cent. of the total income. It has been greatly to enhance the ordinary revenue of the Territory. There is in Tanganyika a general desire to see a permanent feature of our fiscal structure. The funds required to meet the general needs of the Territory are increasing. The funds required to meet the general needs of the Territory are increasing. The funds required to meet the general needs of the Territory are increasing.

Duty to Britain

Mr. C. Phillips congratulated the Financial Secretary on the very clear speech in arguing the case for a permanent feature of our fiscal structure. He said that the Government of the Territory is a permanent feature of our fiscal structure. He said that the Government of the Territory is a permanent feature of our fiscal structure. He said that the Government of the Territory is a permanent feature of our fiscal structure.

Second Argument

The second argument in support of an Income Tax is that His Majesty's Government, recognizing that we are unable to finance a comprehensive development programme from our own resources, have made available to us in five and a quarter million pounds a year of grants. This assistance is in the nature of a loan. It is a loan which we are unable to repay. It is a loan which we are unable to repay. It is a loan which we are unable to repay.

Both models have four-speed gearboxes with synchronised and silent gears on top, third and second speeds.

Government will, in effect, be a just and equitable one for this country. There is no doubt that I want to see a permanent feature of our fiscal structure. There is no doubt that I want to see a permanent feature of our fiscal structure. There is no doubt that I want to see a permanent feature of our fiscal structure.

Lice are becoming very troublesome at the moment. They usually attack cattle during the drought when animals cannot stand the tremendous loss of blood.

It is advisable to dilute the Littles with an equal quantity of water (preferably rain water) before adding to the tank.

SHEEP SHEARING

In the mountainous parts of British Somaliland, West or the North of Ethiopia there come days in which when all the assembled ones gather first in one farm and then at another, leading a band with the flock of sheep of the men but not before the first flock, with their long, shaggy dogs, to bring the sheep in.

REARING THE JERSEY CALF

JERSEY CATTLE BREEDERS' SOCIETY NOTES

As the writer visualizes it, the functions of a Breeder's Society consist not only of advertising the merits of the breed of cattle it represents and all the other usual functions, but also to assist its members in the purchase or sale of stock whether purchased or graded, by putting buyers and sellers in touch with each other.

Through many more experienced breeders I like to see the calves out on a dairy range for 10 to 12 hours or less on a daily basis in a clean, open paddock with shade at ten to fifteen degrees. I have tried allowing calves to graze on their dams for the first two or three days, as is always advised, but could not do so.

MOVING CRISIS

To the Editor, "E.A. Standard"
Sir—On British and Irish in Kenya before the war. Recently returned to Kenya, I have a wife and one young child and one room in a government building. The room measures 14 ft. by 12 ft. and is furnished with a bed, a table, a chair, a wardrobe and a chest of drawers. There is no overhead and no floor space. The room is very hot and the bed becomes very hot with the sun. The furniture is very old and the room is very small. I have been told that the Government is planning to build a new building for the Government. I have been told that the Government is planning to build a new building for the Government. On Eve of India's Independence "RIOTING WITH MURDER, LOOTING & ARSON" Pitched Battles Between Hindus & Muslims In Calcutta

270 KILLED

Calcutta, August 18.—A pitched battle was raging between a large number of Muslims and Hindus in Central Calcutta towards dusk last night after another day of communal riots, rioting, looting and burning. The total casualties were reported to be 270 killed and 1,000 injured.

Police street clearing work by British and Indian troops backed by armoured cars is reported to have improved the situation in the north of the city but Calcutta remains in a state of the greatest tension.

It is considered the total of dead is likely to be still further increased when unidentified abandoned corpses are brought in from the riotous streets as reported to be in some parts of the city.

It is reported that the Government has decided to send a large force of British troops to Calcutta to maintain law and order.
