DODDERA TO NAIROBI BY CAR IN 36 HOURS.

Non-stop Record Journey by the Chrysler Expedition.

CUTTING OUT THE JUNGLE BUSINESS.

The Chrysler Expedition, consisting of two cars, a truck and a motor cycle, left Doddera on the 10th inst. and after a non-stop journey of 36 hours, arrived in Nairobi on the 14th inst. This is the first time a motor car has crossed the East African continent from west to east.

Am of the Trip. The object of the trip was to test the reliability of the Chrysler cars in the East African bush. The cars were driven by Mr. J. G. M. and Mr. J. G. M. The trip was a success and the cars were found to be reliable and comfortable.

The First Lap. The first lap was from Doddera to Nairobi. This was a journey of 36 hours and was completed without any incident.

The Chrysler Expedition is a record-breaking achievement and a testament to the reliability of the Chrysler cars.

FIRST SHOWING OF The NEW ERSKINE SIX CLUB SEDAN

STUDEBAKER's latest achievement, the NEW ERSKINE SIX CLUB SEDAN, a beautiful new five seater sedan built by Studebaker!

Wider, roomier, swung low for safety and style yet retaining generous head-room... Arm rests and many other interior refinements.

Powerful six cylinder engine. Under official observation of the American Automobile Association this improved *THE ERSKINE SIX* averaged 27.1 miles per hour for twenty four continuous hours!

Also amazing new low price! Studebaker offers this high quality six cylinder sedan at less than the cost of many four cylinder models. See this new *ERSKINE SIX CLUB SEDAN* for today.

Sixth Avenue Garage,
opposite the Post Office,
Nairobi.

STUDEBAKER'S
ERSKINE SIX

Weather Wiles

The weather has been very erratic during the last few days, and it is difficult to make any accurate forecast for the next few days. The wind is expected to be from the north-west, and the temperature will be in the mid-twenties. It is advised that motorists should take care to check their vehicles before starting a long journey, especially as to the condition of the tires and the amount of fuel on hand. It is also well to have a spare tire and a few tools on hand, as it is never known when one may be needed.

VERDICT IN THE SOY ASSAULT CASE.
Evidence Which Was Inconclusive.

The jury in the Soy assault case returned their verdict on Monday in the case of the Naitani. The evidence was inconclusive, and the jury returned a verdict of not guilty.

M. D. KAMPF—Manager.

The Accused's Gail.
The standing eye is not from a healthy enough position to see the milk in the ground. The only remedy is to give the complainant a course of treatment.

Uganda Appointments.
The latest Uganda appointments to be gazetted are: Mr. R. A. Boyd, Nursing Sister to be Matron, Mulago Native Hospital; Mr. M. A. H. Morgan, Senior Agricultural Officer, to be District Director of Agriculture; Mr. W. J. Moon, Assistant Labour Commissioner, to be Inspector of Labour, Kiunga and Taveta; and Mr. E. J. McNeill, to be Inspector of Labour, Kisumu and Kavirondo. Mr. E. J. McNeill is to be District Officer, Lodwar.

The court in the Soy assault case heard the evidence of the complainant and the accused. The evidence was inconclusive, and the jury returned a verdict of not guilty. The case is expected to be a precedent in the law of assault.

The court in the Soy assault case heard the evidence of the complainant and the accused. The evidence was inconclusive, and the jury returned a verdict of not guilty. The case is expected to be a precedent in the law of assault.

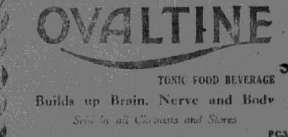

Ngong Road Accident.
An accident occurred at the bridge some distance from Nairobi on the Ngong road on Friday night when Captain Nicholas, a member of the R.A.F., struck the posts on the right-hand side of the bridge. The front car was overturned and the driver was badly injured. The driver was taken to the hospital and is expected to recover.

Morgan, Senior Agricultural Officer, to be District Director of Agriculture; Mr. W. J. Moon, Assistant Labour Commissioner, to be Inspector of Labour, Kiunga and Taveta; and Mr. E. J. McNeill, to be Inspector of Labour, Kisumu and Kavirondo. Mr. E. J. McNeill is to be District Officer, Lodwar.

Tired Nerves
When you have no energy and you are tired it is the sign that your nerves are starving for want of nourishment. Stimulants and drugs will not restore your nerves and renew your energy. These do more harm than good. Only the nerve restoring nourishment obtained from food will build up your nerves and give you perfect health.

The food which is richest in nerve restoring nourishment is "Ovaltine" Tonic Food Beverage which supplies that nourishment in a highly concentrated and easily digestible form. Drink "Ovaltine" after a day's hard work. It will furnish lanque, restore your nerves and give renewed energy and vitality. Prepared from milk, milk and eggs—the best of Nature's food foods. There is nothing just as good or so delicious in taste.

Captain Returns.

Towards 4 1/2 the Captain of the ship returned in the H. B. Hoggan and informed Mr. Hoggan that his crew had landed and he wanted to collect his effects. He mentioned the ship and asked whether he should be placed in the motor launch and be left with Pilot for Mirani. They landed at 6 0 0 a.m. The crew were also brought ashore by the motor launch. As neither the master nor any of the crew could see the motor launch, the ship was abandoned. The ship was abandoned because the crew had landed and the master was not in the motor launch. The ship was abandoned because the crew had landed and the master was not in the motor launch.

SAVE MONEY

On your new electric lighting plant

NOTE THESE FEATURES COMPACT.

HomeLight is self-contained in its generating unit, high output, simple and durable treatment of the most compact unit.

FUEL.

The engine operates on petrol or paraffin.

SIMPLICITY.

The engine is of unique design and construction the most efficient, dependable and economical ever known. It is simplicity itself to adjust. ONLY SIX MOVING PARTS. Hundreds of plants have been in operation for years without repair or replacement parts. No HomeLight is even worn out.

OUTPUT.

The HomeLight generates 100 watts, 150 watts, 200 watts, 300 watts, 400 watts, 500 watts, 600 watts, 800 watts, 1000 watts, 1500 watts, 2000 watts, 3000 watts, 4000 watts, 5000 watts, 6000 watts, 8000 watts, 10000 watts.

NO STORAGE BATTERIES.

There are no storage batteries in HomeLight. The engine generates electricity on demand and the light is on when you want it.

NO FOUNDATION.

HomeLight needs no foundation. It is set in a box which is carried on a trolley.

PORTABLE.

HomeLight is only four feet long, two feet high, and weighs only 150 lbs. It can be carried by hand or horse drawn motor car.

SILENT.

HomeLight operates silently and without vibration, and will light 30 flats continuously or operate electrical machinery up to and including 10 horse power.

NO SERVICE MAN NEEDED.

HomeLight is simplicity itself. In simple design and construction, and it should be any trouble at all need to send for a repair man. Just pick up HomeLight put it in your car and take it to any garage. No special "service man" needed.

PRICE FOR PARAFFIN £50

Deferred Payment Plan

Approved customers who desire to purchase the HOME LIGHT plant on this basis may obtain delivery by making a down payment of only £20 followed by 12 monthly payments of Shs. 74 each.

A Master Stroke of Engineering

Homes, Farms, Schools, Churches, Hospitals and Shops have long awaited the electric lighting outfit of smaller proportions and lower price. High in quality, low in first cost, surprisingly economical in operation, requiring no storage batteries, and extremely simple with only six moving parts. Such is HOME LIGHT—easily the greatest electric lighting plant of small size in the world.

AGRICULTURE

NEED FOR FERTILISING THE SOIL.

Some Useful Notes for the Farmer.

—WORTH A TRIAL.

It is a well-known fact that the soil is a storehouse of nutrients for plants. However, the amount of nutrients available to plants is often insufficient, especially in the case of nitrogen, phosphorus, and potassium. This is due to the fact that these elements are used up by plants and are not replaced in sufficient quantities. It is therefore essential for the farmer to fertilise his soil in order to maintain its fertility and to ensure that his crops are able to grow to their full potential. There are many different types of fertilisers available, and the farmer should choose the one that is best suited to his soil and his crops. It is also important to apply fertilisers in the correct way, and to avoid over-fertilising, which can be harmful to the soil and the crops.

The C.P.U.

LIKELIHOOD OF A KIPPARERS BRANCH

The Kipparers Association of Uganda is a body of farmers who are engaged in the production of coffee. It is a well-known fact that the coffee industry in Uganda is one of the most important sources of income for the country. The Kipparers Association has been successful in many ways, and it is now considering the possibility of forming a branch in the Kippara district. This would be a great benefit to the farmers in that district, as it would enable them to share the experience and knowledge of the Kipparers Association. It is hoped that the Kippara branch will be formed in the near future.

Oyamum

Coffee plantations in the Kippara district of Uganda are one of the most important sources of income for the country. It is a well-known fact that the coffee industry in Uganda is one of the most important sources of income for the country. The coffee plants in the Kippara district are of a high quality, and they are able to produce a large amount of coffee beans. It is therefore essential for the farmers in the Kippara district to take care of their coffee plants, and to ensure that they are able to produce a large amount of coffee beans.

For Best Maize

Through the assistance of the Kippara Farmers Association, a number of farmers in the Kippara district have been able to produce a large amount of maize. This is due to the fact that the Kippara Farmers Association has provided the farmers with the necessary equipment and tools, and has also provided them with the necessary knowledge and experience. It is hoped that other farmers in the Kippara district will be able to produce a large amount of maize in the future.

Children Nitrate

Children nitrate is a type of fertilizer that is used to fertilise the soil. It is a well-known fact that children nitrate is a type of fertilizer that is used to fertilise the soil. It is a well-known fact that children nitrate is a type of fertilizer that is used to fertilise the soil. When to Instal New Spark Plugs.

Dependable Champions are built to last longer than any other spark plug made. They have perfectly plain, evenly recognized points of material and structural importance, including willow-like insulators, special analysis electrodes and two-piece construction which insure long life. And yet Champions—selling evenly 70 per cent of all the spark plugs used the world over—claimant out of its experience says this to you: Change your Spark Plugs every ten thousand miles if you want to get the utmost out of your motor and the greatest good out of your car for less money.

RUGBY IN BRITAIN.

Yorkshire Wins County Championship.

LEADING CLUB MATCHES.

STANDARD CHALLENGERS.
London News is an opinion on their place in the present rugby scene. The English Rugby Clubs were all strength on Saturday, and there were many interesting and exciting encounters throughout the county. The central idea of the championship was to see which club was the best. The Yorkshire team, captained by Mr. Lister, was the most successful. They won the championship by a score of 10 to 0 against the London News.

Gloucester and Devonians.
Gloucester and Devonians were all out to win. Gloucester was the stronger team, but Devonians were very good. Gloucester won by a score of 10 to 0.

SANDOWN PLAYING CARDS.
Sandown playing cards are very popular. They are made of high quality paper and are very durable. They are also very attractive and are a great addition to any collection.

THE "ORIENT" WRITING PAD.
The "Orient" writing pad is a very popular choice. It is made of high quality paper and is very durable. It is also very attractive and is a great addition to any collection.

EVERYMAN FIRST AID OUTFIT.
Everyman first aid outfit is a very popular choice. It contains everything you need for first aid and is very portable. It is also very attractive and is a great addition to any collection.

COLOSSA BOX.
Colossa box is a very popular choice. It is made of high quality paper and is very durable. It is also very attractive and is a great addition to any collection.

SATURDAY'S FOOTBALL.
A Roach's Collected Match on Police Ground.
A HOME TEAM VICTORY.

All interesting football matches were seen on the Police ground on Saturday afternoon when a friendly game was played between the Police and the Home team. The Police were the victors by a score of 2 to 0.

The County Final.
The County final was a very exciting match between the Yorkshire and London News teams. Yorkshire was the victors by a score of 10 to 0.

The Railway Team.
The Railway team was very good in their match against the Police. They were the victors by a score of 2 to 0.

The Yorkshire team.
The Yorkshire team was very good in their match against the London News. They were the victors by a score of 10 to 0.

The Devonians.
The Devonians were very good in their match against Gloucester. Gloucester was the victors by a score of 10 to 0.

The London News.
The London News was very good in their match against the Yorkshire team. Yorkshire was the victors by a score of 10 to 0.

LADIES FASHION'S

A Letter from Paris

The latest two-piece frock. The bodice is arranged in batavia colored rope satin with pink lace resting from the rounded neckline. A draped sash of black broadcloth, on which rest the neck and the bust, is draped in the front and back.

Little hints for the needlewoman

It is a good idea to start with a small piece of fabric, for instance, a handkerchief, and work on it until you are satisfied with your results. This will save you a great deal of trouble and expense. It is also a good idea to use a good quality of thread and to take care in your stitching. A good needlewoman will always use a good quality of thread and will take care in her stitching. It is also a good idea to use a good quality of fabric and to take care in your cutting. A good needlewoman will always use a good quality of fabric and will take care in her cutting.

FRUIT POPOVERS

These are made by mixing a batter of flour, sugar, and eggs, and then dropping it into a hot oven. They are a delicious and easy-to-make treat.

Two shades of very ripe fruit are used in this distinctive aluminum model pear grey for the main part of the gown and the apple grey for the flared sleeves and main panels. The waterfall collar which reaches below the hem is edged with blacked stitching in shell silver thread.

POULTRY NOTES.

Some Diseases of the Egg Grains.

There are several diseases that can affect egg grains, including bacterial and fungal infections. These can lead to significant losses for poultry farmers. It is important to take preventive measures and to identify and treat any infections as soon as possible.

The egg grain is a very important part of the poultry's diet. It is a source of protein and other essential nutrients. However, it is also a common source of infection. Bacterial and fungal diseases can affect the egg grain, leading to a loss of quality and quantity. It is important to take preventive measures and to identify and treat any infections as soon as possible.

It is an Old, Old Story

HERE IS nothing new in this secret of good cake. Cake to be good must be made of good, wholesome ingredients. It must be properly baked—light, or even, fine texture, with no bitter taste. Because Royal Baking Powder is made with the purest ingredients, it makes cakes which taste better and are more wholesome. This is why generations of good cooks use Royal Baking Powder. Royal Baking Powder is always pure and wholesome, always dependable.

TRY IT IN YOUR BATH

SCRUBB'S AMMONIA is a powerful cleanser for floors, walls, and laundry. It is made from natural ingredients and is safe for use in the home. It is a must-have for any household.

ENQUIRY INTO HOMBASA CAR TRAGEDY.

Suggestion That Throttle Was Mistaken for Brake.

The trial of Messrs. Hombasa and Hombasa, who were charged with the murder of a woman, is now under way. The prosecution has suggested that the throttle was mistaken for the brake, leading to the fatal accident. The defense has denied this suggestion, claiming that the driver was in full control of the vehicle at the time of the crash.

PLEA FOR CO-OPERATION IN ZANZIBAR.

British Resident and the Clove Industry.

The British Resident in Zanzibar has issued a plea for co-operation from the clove industry. He has expressed concern over the declining production of cloves and has urged growers to adopt more efficient methods. He has also called for better organization and marketing of the crop to ensure that growers receive a fair price for their produce.

ENQUIRY INTO HOMBASA CAR TRAGEDY.

Suggestion That Throttle Was Mistaken for Brake.

The trial of Messrs. Hombasa and Hombasa, who were charged with the murder of a woman, is now under way. The prosecution has suggested that the throttle was mistaken for the brake, leading to the fatal accident. The defense has denied this suggestion, claiming that the driver was in full control of the vehicle at the time of the crash.

Incomparably soft

Ashes of Roses FACE POWDER

of a Florida flower with the exquisite perfume of the rose, ASHES OF ROSES face powder imparts a magical bloom and freshness to the complexion. Equally glowing is the delicate and wifid charm of the powder perfumed with ASHES OF VIOLETS. There is a complete series of other preparations made by Mmes. Bourjois, of Paris. Entirely accented either with ASHES OF ROSES or ASHES OF VIOLETS perfume, obtainable of all chemists, stores and druggists.

NAIROBI STEAM ROLLER AS CAR OF JUGGERNAUT.

Although Not a Vehicle May Be Dangerous.

An Indian appeared before Mr. Gumbel in the Resident Magistrate's Court last week on a charge of driving a steam roller in the danger of the public...

The accused said that the roller was not a vehicle but he was not sure about a steam roller...

The Magistrate said he thought that a steam roller could not be classed as a "vehicle" but he thought that anyone had committed an offence...

THE SOBYE BOARD

Appoint the Largest Measure of Co-operation

The Soby Board has been appointed to investigate the conditions of the Soby industry in the East African territories. The board is composed of representatives from the Government, the Soby industry, and the public. Its terms of reference are to inquire into the various aspects of the Soby industry, including production, distribution, and marketing. The board is expected to report on its findings and recommend measures to improve the industry and the welfare of the Soby workers.

MAIROBI STEAM ROLLER AS CAR OF JUGGERNAUT.

Although Not a Vehicle May Be Dangerous.

An Indian appeared before Mr. Goshal, the Resident Magistrate, last night to seek a license to drive a steam roller in the city. The roller was described as a "car of juggernaut." The magistrate expressed his concern about the safety of such a vehicle in a populated area. He stated that steam rollers are designed for heavy-duty work on construction sites and are not suitable for use as a mode of transport in a city. He refused to issue a license unless the roller was modified to meet the requirements of a motor vehicle. The Indian argued that the roller was a simple machine and could be driven safely. However, the magistrate insisted that the roller must be equipped with proper brakes, lights, and a steering mechanism. The matter is still under consideration.

A NAIROBI WEDDING.

Two Well-known Residents of This.

St. Andrew's Church which was beautifully decorated with floral ribbons and banners, was the scene of a very pretty wedding on Tuesday April 4 when two well-known residents of this district were united in matrimony. The bride was Miss M. J. O'Connell, daughter of Mr. J. O'Connell, and the groom was Mr. R. J. O'Connell, son of Mr. J. O'Connell. The ceremony was officiated by the Rev. Canon J. O'Connell. The bride wore a beautiful gown and carried a bouquet of flowers. The groom was in a dark suit. The wedding was attended by many friends and family members. A reception followed at the church. The newlyweds are expected to leave for their honeymoon in the near future.

THE COST OF LIVING

It is a well-known fact that the cost of living in Kenya is one of the highest in the world. This is due to a number of reasons, including the high cost of imported goods, the high cost of transport, and the high cost of labor. The Government has taken steps to reduce the cost of living, but these steps have not been sufficient to bring the cost of living down to a level that is acceptable to the general public. It is therefore necessary for the Government to take further steps to reduce the cost of living, and to ensure that the general public is able to afford the necessities of life.

NATIVE LAND TRUST BILL
The Native Land Trust Bill, which is now before the Legislative Council, is a very important piece of legislation. It is designed to provide for the better management of native lands, and to ensure that the interests of the native population are protected. The Bill provides for the establishment of Native Land Trusts, which will be responsible for the management of native lands. The Bill also provides for the appointment of trustees to manage these trusts, and for the powers of these trustees. The Bill is a very important step towards the better management of native lands, and it is hoped that it will be passed by the Legislative Council.

Kenya Building Programme
The Government has announced a building programme for Kenya, which is designed to provide for the better housing of the native population. The programme includes the construction of a number of new houses, and the improvement of existing houses. The programme is a very important step towards the better housing of the native population, and it is hoped that it will be successful.

'The coin was made to roll'

This coin was made to roll, says an ancient proverb. Your money invested in the Studebaker Six Touring, the remarkable new automobile sponsored by Studebaker, will roll further—bring you more comfort and happiness. With the Duke's abundant flow of velvet-smooth six-cylinder power you can accelerate from 0 to 23 m. p. h. in five seconds, climb an 11% gradient in top gear, or travel 60 m. p. h. if you care to go that fast! You will welcome the saving of petrol and lubricant with this modern automobile. The luxurious du-rumex cellulose finish cloaks a roomy body, fuelled by electricity into one unit of total. Every tiny low line and graceful curve reveals the artistic genius of a master designer of costly special-built models. The upholstery covering the deeply sprung seats in this Deluxe Sedan is of heavy cloth, richly trimmed with broadleather. Balloon tyres, four-wheel brakes, front and rear bumpers, and many other items of "extra" equipment are included without extra charge!

RESPONDENCE

THE COST OF LIVING

The cost of living has risen to such an extent that it is almost impossible for the average man to maintain the same standard of living as he enjoyed a few years ago. This is due to the fact that the prices of many of the necessities of life have risen so high that it is no longer possible to buy the same quantity for the same amount of money. This is a serious problem for the average man, and it is one that must be solved if we are to maintain our standard of living.

It is true that the Government has taken steps to control the prices of many of the necessities of life, but these steps have not been sufficient to bring the cost of living back to its former level. This is because the Government has not been able to control the prices of many of the raw materials and the labor that go into the production of these necessities. This is a serious problem for the Government, and it is one that must be solved if we are to maintain our standard of living.

Kidney Warnings.

It is a fact that many people are suffering from kidney trouble without knowing it. This is because the symptoms of kidney trouble are often very slight and are easily overlooked. It is important to pay attention to these symptoms, as they can lead to serious complications if they are not treated early.

The symptoms of kidney trouble include backache, aching in the loins, a feeling of heaviness in the back, and a general feeling of weakness. It is important to see a doctor if you experience any of these symptoms, as they may be a sign of kidney trouble.

FOR GARAGES & FARM BUILDINGS

CHAMBERLAIN'S COLIC REMEDY

STANDARD CORRESPONDENT

It is a fact that the Arab education at the coast has made great progress in the last few years. The number of schools has increased and the quality of the education has improved. The Government has been very generous in its support of Arab education, and the results have been most gratifying.

THE KORN IN ARAB

The Korn in Arab is a very important article of commerce. It is used for many purposes, and its value is high. The demand for it is increasing, and the supply is becoming scarce. It is therefore important to ensure that the supply is maintained.

STANDARD CORRESPONDENT

The caterpillar plague in the Kavirondo has been a great disaster for the people of that region. The caterpillars have destroyed the crops, and the people are suffering. The Government has sent a party to investigate the cause of the plague, and it is hoped that they will be able to find a way to control it.

Rain-Germes.

Rain-germes are a very common cause of disease. They are carried by rain, and they can cause many different types of illness. It is important to take precautions to avoid rain-germes, such as covering up when it rains and avoiding standing water.

Differences Settled

The Zanzibar Press has just received the very good news that the differences between the Sultan and the Government have been settled. This is a great relief for the people of Zanzibar, and it shows that the Government is committed to peace and stability.

Customs and Taxation

Continuing on the subject of Customs and Taxation, the Zanzibar Press suggests that the Government should consider the appointment of a tax collector to oversee the collection of taxes. This would help to ensure that the taxes are collected fairly and efficiently, and it would also help to increase the revenue of the Government.

Kenya Mail. The mails despatched from Mombasa on March 19 by the 'Gis' 'Voyager' arrived in Bombay on April 1.

Twenty Years Ago

Twenty years ago, the East African Standard was a small, local publication. It was founded by a group of men who were interested in the progress of the East African colonies. Over the years, it has grown into a major newspaper, providing news and information to a wide audience. It has played a significant role in the development of the region, and it continues to be an important part of the East African press.

Looking for Him

Looking for Him is a story about a man who has disappeared. The story is set in a remote part of the East African continent, and it follows the search for the missing man. The search is a long and difficult one, but it is finally successful, and the man is found. The story is a classic example of adventure fiction, and it is a popular read.

AN EXCITING ADVENTURE AT JINJA

THE PROBLEMS OF KENYA'S NORTHERN FRONTIER.

No. 1.

PICTURESQUE NATIVE LIFE.

Patriarchs Whose Life is Romantic of the Scenes of the Bible.

The Northern Frontier Province of Kenya is the least settled portion of the country. It is almost one half of the whole Colony—82,190 square miles with a population of two men to every five square miles.

The Province has recently come directly under the notice of Government. Sir Edward Denham, when Acting Governor, made to some stations the first tour since the return from England H.E. Sir Edward Grigg has made two tours.

The life of the tribes and the problems they present to the Government and people of Kenya, will be set out in a series of articles of which the first appears to-day.

ONE HALF THE AREA OF THE COLONY.

The public in Kenya give only very occasional thought to the Northern Frontier Province of the Colony, perhaps they have little to remind them of its existence except the reports of occasional raids among the nomadic tribes punctuated by place names and tribal designations which come off to those who have reached or passed through the province. It is a wondering thought to those who have never seen it that one of the most important of the Empire is to be found in this remote and almost unpopulated area.

The area of Kenya is 220,000 square miles. The area of the Northern Frontier Province is 82,190 square miles—nearly one half of the total area of Kenya.

It is not that bordering the north and east of the Province are the mountains and hills of the East African highlands, and the great rivers of the Nile and Congo basins.

The Province Tribes: The tribes proper are in six tribal divisions.

These include the Sabaki, Rendile, Galla, and Kenia. The Rendile and Kenia are the most numerous of the tribes, and the Sabaki and Galla are the most important.

The Rendile and Kenia are the most numerous of the tribes, and the Sabaki and Galla are the most important. The Rendile and Kenia are the most numerous of the tribes, and the Sabaki and Galla are the most important.

The Rendile and Kenia are the most numerous of the tribes, and the Sabaki and Galla are the most important. The Rendile and Kenia are the most numerous of the tribes, and the Sabaki and Galla are the most important.

The Best Print Every Time is on
"Velox"

The enthusiastic amateur will not accept prints that are merely passable. He can get such prints from just negative on any paper. But he can get the best prints only on "Velox." Some moments are so fast regarded as failures yield surprisingly good results on "Velox."

"Velox" is fully developed by the automatic photobromide. It is exposed in four degrees of contrast and four grades. There is always a "Velox" paper to suit your negative.

Sixth Avenue Opposite the Post Office Nairobi

Nandi Border.

A compact farm of about 1,200 acres of which 400 acres are under cultivation; plenty of wattle trees, well equipped with farm buildings, rare dwelling house with large flower garden, good water. 1,100 acres can be ploughed. Has very pleasant views and is a most healthy district.

Price £2,500 which includes 4 teams of oxen, seven ploughs, 2 disc harrows, steeper harrow, cultivator and other implements, 30 pigs.

This is a genuine bargain, no waste land and the Nandi market at its door. 124 miles from Usain Gishu main line railway station. Well served by motor road. A purchaser would get an income within eight months.

KIRKWOOD & Co.,

E. AFRICA IN THE HOUSE.

Unofficial Majority, Railway, and Cotton.

STANDARD CORRESPONDENT

It is a fact that the House of Representatives has been a very active body since its formation. It has shown a marked interest in the welfare of the African people, and has taken a number of steps to improve their condition. One of the most important of these steps has been the establishment of a committee to investigate the cotton industry in East Africa.

The committee has held a number of public hearings, and has received a large amount of evidence from the growers and processors of cotton. It has also conducted extensive research into the various problems connected with the industry, and has prepared a number of reports and recommendations.

One of the most interesting of these reports is that on the subject of the cotton trade. It points out that the trade has been steadily increasing since the war, and that it is now one of the most important sources of income for the African people. It also points out that the trade is still in its infancy, and that there is a great deal of work to be done to develop it further.

The committee has recommended a number of measures to be taken to improve the cotton industry. These include the establishment of a cotton board, the improvement of the roads and railways, and the provision of better facilities for the growers and processors. It has also recommended that the Government should take steps to protect the growers against fluctuations in the price of cotton.

—in correct tread design

TWO years ago Royal Cord engineers developed and announced a new Balloon Tyre. Designed on very different principles, this tyre gave greater traction, was easier to ride and, best of all, it minimized early and unnecessary wear—it was dead-end of Flat Tyres.

The decided practicability of the Flat Tyre for Balloon Tyres is evidenced by the fact that many tyre makers are now beginning to adopt the Flat Tyre principle.

NAIROBI CHAMBER'S HELPFUL DISCUSSION

Explanation of the position of the butter, bacon and meat trades.

The agitation in connection with the high cost of living in Kenya and particularly in Nairobi was emphasized by the large attendance at Thursday's meeting of the Nairobi Chamber of Commerce.

The chairman, Mr. J. H. Schwartz, who originally advocated the appointment of the Commission, stated that the Commission had been set up to investigate the question of commercial credit and that its personnel be strengthened by the addition of three commercial men.

Through the discussion was a lengthy one, various aspects of the difficulty being presented, the members were practically unanimously in favour of the original resolution, an amendment proposing a public meeting being defeated.

Wincarnis gives you Life Blood

Poor blood is responsible for a larger number of human disorders than is realized. Neuritis, insomnia, indigestion, loss of appetite, to mention but a few, often have in their basic cause nothing else but impoverished blood. The red corpuscles upon which life and health depend are made in insufficient quantities. Wincarnis supplies the deficiency—it gives rich red blood. Wincarnis cures all those minor but depressing ailments which rob the zest out of life and hasten old age, and wards off the attacks of graver maladies. With the fine flavour and bouquet of good wine, it is at the same time the greatest tonic.

New life flows into your veins when you drink Wincarnis.

TRADE BETWEEN INDIA AND EAST AFRICA.

His Excellency a Special Commissioner for East Africa, Nairobi, Kenya, has issued the following statement regarding the objects of a Government Mission to East Africa.

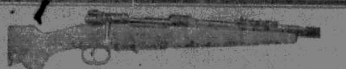

The Government of Kenya has decided to send a mission to East Africa to study the trade relations between India and East Africa. The mission will consist of a Commissioner for East Africa, Nairobi, Kenya, and a member of the Indian community in East Africa. The mission will be headed by the Commissioner for East Africa, Nairobi, Kenya, and will consist of a member of the Indian community in East Africa. The mission will be headed by the Commissioner for East Africa, Nairobi, Kenya, and will consist of a member of the Indian community in East Africa.

The main purpose of the mission is to study the trade relations between India and East Africa. The mission will be headed by the Commissioner for East Africa, Nairobi, Kenya, and will consist of a member of the Indian community in East Africa. The mission will be headed by the Commissioner for East Africa, Nairobi, Kenya, and will consist of a member of the Indian community in East Africa.

Make Your Teeth strong with KALZANA

Dr. Maughan Brown, showed at the 19th South African Medical Congress that "tooth decay is very often due to a lack of calcium in our food and water."

When your teeth are weak and painful, when your gums often bleed, then use Kalzana the calcium food. Kalzana tablets contain calcium in a form that is easily taken up and retained by the body-cells.

A few tablets daily will provide your system with the material necessary to harden and strengthen your teeth, and to make it more capable of lasting a lifetime.

A doctor of Dental Surgery writes: "Kalzana makes the teeth strong and hard and so stops tooth decay. I have often seen extraordinary results even after a few weeks use."

TRY KALZANA TABLETS TODAY.

THE NAIROBI CELEBRATION OF ST. GEORGES DAY.

This Excitement Reveals Some of the Colon's Current Problems.

THE SPIRIT OF COMPROMISE.

An Appeal and an Earnest Assurance to the Indian Community.

THE NAIROBI CELEBRATION OF ST. GEORGES DAY, which is being held in the city of Nairobi, is a most interesting and important event. It is a day when the people of the Colony are reminded of the many problems which are facing them at the present time. It is a day when they are reminded of the need for compromise and for a more united front.

The celebration of St. George's Day is a day when the people of the Colony are reminded of the many problems which are facing them at the present time. It is a day when they are reminded of the need for compromise and for a more united front.

A Challenge

from Kohler

NO NOISE

Kohler Home Lighting Outfits are silent in operation. A few feet away in sound reduces the use as quiet and vibrationless as their faultless performance.

60 per cent. of the total number of Kohler electric lighting outfits operating in Kenya, Uganda, and Tanganyika have been installed to replace plants of other makes particularly of the storage battery type.

and yet

NOT ONE SINGLE Kohler plant in these territories has ever been removed or replaced by a plant of different make or type.

This Record, we believe, is equalled by no other make of plant of accredited sales volume in Kenya, Uganda or Tanganyika.

NO STORAGE BATTERIES.

The usual set of storage batteries found with other private electric plants is made unnecessary by the Kohler—only a small battery for starting the engine is used. Current from the Kohler plant flows from the generator directly into the appliances, without first being stored in batteries.

This direct system insures that practically 100% of the current generated is turned into light, heat or power. There is no loss due to storage battery inefficiency.

The absence of storage batteries also saves Kohler owners the expense of buying costly new sets to replace those damaged by accident or worn out by use.

AUTOMATIC START AND STOP.

Turn the switch on any electric light bulb or appliance and the Kohler plant starts automatically to generate the amount of current needed. It stops automatically when the last lamp or appliance is turned off. This part or all of the capacity of the plant is always conveniently available for emergency turning on, and repairs to the plant to start and stop it are made unnecessary.

KOHLER NO STORAGE BATTERIES

The Kohler plant is also guaranteed against all other risks. The Kohler plant is also guaranteed against all other risks.

AGRICULTURE

THE FERTILISATION OF THE SOIL.

Types of Manures Which are of Advantage.

There are two classes of manure, those which are rich in nitrogen and those which are rich in phosphorus. The former is known as green manure and the latter as bone manure. Green manure is made of the refuse of the farm, such as straw, hay, and other organic matter, which is ploughed into the soil and decomposed. Bone manure is made of animal bones, which are crushed and mixed with a small quantity of lime to prevent them from becoming acid.

The nitrogenous manures are of great value for the growth of green crops, which are ploughed into the soil and decomposed. They also contain phosphorus, which is of great value for the growth of root crops. The phosphoric manures are of great value for the growth of cereals and other crops which require a large amount of phosphorus.

The nitrogenous manures are of great value for the growth of green crops, which are ploughed into the soil and decomposed. They also contain phosphorus, which is of great value for the growth of root crops. The phosphoric manures are of great value for the growth of cereals and other crops which require a large amount of phosphorus.

THE COFFEE MARKET.

The coffee market is showing a steady decline in prices since the outbreak of the war. The price of coffee has fallen from about 150 cents per cwt. in 1914 to about 100 cents per cwt. in 1929. This decline is due to a number of factors, including the reduction in the area planted to coffee in the tropics, the increase in the production of coffee in the United States and other countries, and the general depression of the world market.

The price of coffee is expected to continue to fall for some time longer, unless there is a marked improvement in the world market. The coffee growers in the tropics are therefore being driven to look for other crops to plant on their land, and to look for other markets for their produce.

The coffee market is showing a steady decline in prices since the outbreak of the war. The price of coffee has fallen from about 150 cents per cwt. in 1914 to about 100 cents per cwt. in 1929. MOTOR TOPICS

THE NEW ENGINE

Lateral Motion Absorber in Napier.

The Napier engine is a masterpiece of engineering, and its latest development, the lateral motion absorber, is a most interesting feature. It is a device which absorbs the lateral motion of the piston, and thus prevents the side thrust which is usually caused by the piston. This is done by means of a special arrangement of rods and guides, which allow the piston to move in a straight line, and thus prevent the side thrust which is usually caused by the piston.

MODERN TYRES

Additional Work Placed Upon Them.

The modern motor car is a most interesting machine, and its latest development, the modern tyre, is a most interesting feature. It is a device which absorbs the lateral motion of the piston, and thus prevents the side thrust which is usually caused by the piston. This is done by means of a special arrangement of rods and guides, which allow the piston to move in a straight line, and thus prevent the side thrust which is usually caused by the piston.

UNDER INFLATION AND WEAR

Modern tyre construction is a most interesting feature.

Modern tyre construction is a most interesting feature, and its latest development, the modern tyre, is a most interesting feature. It is a device which absorbs the lateral motion of the piston, and thus prevents the side thrust which is usually caused by the piston. This is done by means of a special arrangement of rods and guides, which allow the piston to move in a straight line, and thus prevent the side thrust which is usually caused by the piston.

An African Conference

There is one other thing that is a development not done in this conference and that is to invite the other territories to a conference on industrial matters. This may be of interest in the connection. I have already stated that the representative of Uganda is prepared to attend this conference and I know that the Government of Tanganyika will be able to accept the invitation.

The Pioneer Spirit

Well, we must be the first to appear in the present. I would have said that the English character of a people is a permanent thing. It is not a thing that can be changed. It is a thing that is a part of the nature of the people. It is a thing that is a part of the nature of the people.

THE NAIROBI CELEBRATION OF ST. GEORGE'S DAY.

It is a pleasure to me to see that the celebration of St. George's Day in Nairobi is being observed with the same spirit and enthusiasm as it is in the other parts of the Colony. The fact that the celebration is being observed in Nairobi is a proof of the progress of the Colony and of the progress of the people of the Colony. It is a proof of the progress of the Colony and of the progress of the people of the Colony. It is a proof of the progress of the Colony and of the progress of the people of the Colony.

POOMA

AGAINST ALL VERMIN

The sure radiator and exterminator of all verminous poison and disease-carrying insects—the cause of inextinguishable harm, a menace to health, in the tropics and an ever-present source of discomfort and danger.

Applied by means of a Vaporizer or Sprayer, light vapour is volume produced, which being lighter than air penetrates all cracks, crevices, and corners, smothering and destroying all noxious insects.

POOMA
Is Absolutely Fatal to Flies, Mosquitoes, Cockroaches, Bugs, Beetles, Fleas, Lice, Moths and all similar undesirable pests.

The finest flyweight boxer the world has ever seen, writes—

It is a pleasure to tell you of the benefits derived from Phosferine, which I have found invaluable during my arduous training and terrific encounters.

Everyone will realize the immense strain of fighting in the ring, where there is not a second of relaxation and where the nerves must be keyed up to anticipate every movement of one's own and one's adversary.

With the help of Phosferine I have been able to overcome this strain, and I can thoroughly recommend it as a sure nerve tonic and pick-me-up for everyone.

From the very first day you take PHOSFERINE you will gain new confidence, live life, see pleasure, it makes you keen, active and strong better, and you will wish that it were yours.

Phosferine is given with equally good results to the soldier, the athlete, the worker, the student, the mother, the child.

THE BRIDGE

THE BRIDGE, I have had the opportunity of seeing the bridge under construction, and I have been struck by the fine workmanship of the masons.

The bridge is a fine example of the art of bridge building, and I have no doubt that it will be a lasting monument to the skill of the masons.

THE NEW 12 H.P. MORRIS CARAVAN
12 H.P. 1200 cc. 1200 cc. 1200 cc. 1200 cc.

TO-DAY horse power rating has an entirely new value. It is not size that determines a car's power and performance, but efficiency and it is in the building of efficient cars that Great Britain leads the world.

Morris from the outset has built only high efficiency cars, and consistently through the years the power unit of the Morris has been more and more developed, towards greater efficiency, increased economy.

To-day, when choosing your car, look for efficient economical power—rather than rated horse-power. You will save good money.

THE COST OF LIVING

There has been a great deal of talk about the cost of living lately, and it is not surprising that the public should be interested in it. The cost of living is a very important factor in the life of every individual, and it is one that is constantly changing. The cost of living is affected by many factors, such as the price of raw materials, the cost of labor, and the cost of transport. The cost of living is also affected by the government's policies, such as its taxation and its control of prices. The cost of living is a very complex problem, and it is one that is constantly changing. The cost of living is a very important factor in the life of every individual, and it is one that is constantly changing.
