SCHEME FOR SETTING UP NATIVE LAND TRUST.

Control and Management of the Reserves.

A CENTRAL BOARD.

Representative Local Advisory Bodies to be Created.

One of the most important items of the Business to come before the next session of the Legislative Council is the Bill which has as its objects the final fixing of the Native Reserves and the establishment of a Native Land Trust Board.

AN IMPORTANT MEASURE.

The main provision of the Bill is as follows:—The Ordinance may be cited as the "Native Lands Trust Ordinance, 1929."

It should be noted by the members of the Council that the Bill is not intended to affect the existing reserves of the Native Lands Trust Ordinance, 1929.

Lands Trust Board.

How, then, is the Native Lands Trust Board to be set up? It is to be a body of five members, to be appointed by the Governor in Council.

Local Boards.

There shall be established in every administrative district in which one or more Native Reserves may be situated an "Advisory Board" (hereinafter referred to as a "Local Board") which shall consist of such members as the Governor in Council may think fit to appoint.

These shall be established in every administrative district in which one or more Native Reserves may be situated.

NANYUKI WHEAT CROP PROSPECTS.

Alleged Unsympathetic Attitude of Railway.

STANDARD CORRESPONDENT, Nanyuki, April 27.—It is estimated locally that the wheat crop in the Nanyuki district will reach 10,000 tons. Representatives have been made to the Railway for a small part of the railway to be used for the purpose of taking the wheat to the coast. The Railway authorities have refused to do so, and it is alleged that they are unable to carry the wheat, and the wheat will be sold at a low price.

AGRICULTURE

A Challenge from Kohler

60 per cent. of the total number of Kohler electric lighting outfits operating in Kenya, Uganda, and Tanganyika have been installed to replace plants of other makes particularly of the storage battery type.

NOT ONE SINGLE Kohler plant in these territories has ever been removed or replaced by a plant of different make or type.

This Record, we believe is equalled by no other make of plant of accredited sales volume in Kenya, Uganda or Tanganyika.

NO STORAGE BATTERIES. The great electric power batteries found in a large number of plants made recently by the Kohler Co. are small, light, and sturdy, and do not require any special care or attention. They are particularly suited for use in the tropics, where the high temperature and humidity of the climate make the use of storage batteries very undesirable.

AUTOMATIC START AND STOP. From the switch on any electric light bulb in operation and the Kohler plant starts automatically to generate the amount of current needed. It stops automatically when the last lamp or appliance is turned off. Thus part or all of the capacity of the plant is always automatically available for use, and there is no need to start and stop the plant unnecessarily.

When to Instal New Spark Plugs.

Indispensable Champion spark plugs are built to last longer than any other spark plug made. They have perfectly plain, easily recognized points of material and structural superiority, including self-cleaning electrodes, special alloy electrodes, and two-point construction which insure long life. And yet Champion—nothing but Champion—has won all the spark plug tests the world over—Champion one of its experiments says this to you: "Change Champion Spark Plugs every five thousand miles. If you want to get the most out of your motor and the greatest good out of your car for less money."

WORLD'S ASSOCIATION OF STUDENTS
Worland's Victory at Wesley.
A Fine Recovery by Cambridge.

WORLD'S ASSOCIATION OF STUDENTS
 The annual meeting of the World's Association of Students was held at Wesleyan University, Middletown, Conn., on May 15th and 16th. The meeting was attended by representatives from over 100 colleges and universities throughout the world. The program included a variety of sports, including basketball, football, and tennis. Wesleyan's basketball team emerged as the champion, defeating Cambridge in a closely contested game. The football team also had a successful performance, and the tennis team showed significant improvement. The meeting was a great success, and the students enjoyed the opportunity to meet and compete with their counterparts from other parts of the world.

Worland's Victory at Wesley.
 The basketball team from Wesleyan University, Middletown, Conn., won the championship of the World's Association of Students. They defeated Cambridge in a game that was played in front of a large crowd of spectators. Wesleyan's team was led by their star player, who scored the winning basket in the final minutes of the game. The victory was a great achievement for Wesleyan and a source of pride for the entire school.

A Fine Recovery by Cambridge.
 Cambridge University's tennis team showed a fine recovery in their performance during the World's Association of Students meeting. They had a difficult time in their previous matches, but they managed to turn things around in their final game. Cambridge's team was led by a player who showed exceptional skill and determination. The victory was a testament to the team's hard work and dedication.

Wrecked Condition.
 The condition of the roads in the area is described as being in a "wrecked condition." This is due to a combination of factors, including heavy rain and poor maintenance. The roads are in a state of disrepair, with many potholes and deep ruts. This has caused a great deal of inconvenience for drivers and has led to several accidents. The local authorities are working to address the problem as soon as possible.

Test Cricket in England.
 The results of the Test cricket matches in England are reported. The matches were played between England and several other teams. England's team showed a strong performance, winning several of the matches. The players were praised for their skill and teamwork. The matches were a great success for England and a source of pride for the fans.

DAKES FOR SOUTH AFRICAN TOUR.
 The Standard Commercial Agency has announced that it is organizing a tour to South Africa. The tour will include visits to several of the major cities in the country. The agency is looking for interested parties to join the tour. The tour is expected to be a great success and a source of enjoyment for all who participate.

ROYAL VISIT TO KENYA

PRINCE OF WALES TO ARRIVE TOWARDS THE END OF OCTOBER.

Heir to the Throne may be Accompanied by T. R. H. the Dukes of York and Gloucester.

A PRIVATE TRIP.

Motor Tour Which Will Embrace Egypt, East Africa, Northern Rhodesia and the Union.

One of the most interesting items of news ever received in Kenya came to hand yesterday when there was flashed over the cables the announcement that His Royal Highness the Prince of Wales will visit East Africa towards the end of the present year.

There is a possibility, although there is as yet no official announcement, that the Prince will be accompanied by His Royal Highness the Duke of York and His Royal Highness the Duke of Gloucester, better known as Prince Henry.

The Royal tour, which it is stated will be of an unofficial character is likely to include a great deal of motoring and there is a possibility that the Prince of Wales will attempt something in the nature of a Cairo to Cape journey by road.

His Excellency the Governor has sent a message to the Secretary of State for the Colonies welcoming the announcement which he says will be received by the Colony with enthusiasm.

THE PRINCE'S "VERY DEFINITE IDEA."

H.R.H. The Prince of Wales.
STANDARD CORRESPONDENT

London, May 4.

The Evening News repeats the report that His Royal Highness the Prince of Wales and his brother the Duke of York and Prince Henry will visit East Africa in November.

So far there has been no official word from the Imperial Government.

There is a confirmation of the report that the Prince of Wales possibly accompanied by the Duke of Gloucester and Prince Henry will visit East Africa to take a tour of Northern Rhodesia in November, the Transvaal in late December, and Capetown early in January.

The visit which will be of an unofficial character will take the form of a motor tour as far as this is practicable.

THROUGH BRITISH AGENCY.

London, May 5.
Although a definite programme has not yet been arranged Her Majesty the Queen has been

H.R.H. The Duke of Gloucester.

very definite idea of visiting Africa towards the end of the year.

He may possibly be accompanied by the Duke of Gloucester.

The Colonial Office has been in communication with the local authorities in Africa concerning the matter. Practically the only part of the Empire which the Prince of Wales has not visited is East Africa and Northern Rhodesia. A visit to this part of the Empire is essential several months ago, since when the only motor vehicle has been collecting information as to the state of roads, suitable transport vehicles as a great part of the tour will be by motor cars.

The reports at present regarded as a private one.

There are suggestions, which are not being weighed, that the Prince of Wales may be accompanied by the Duke of York and the Duke of Gloucester but nothing has been settled.

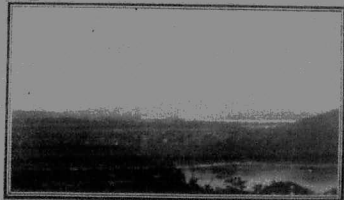

Upon enquiry at Government House yesterday the Standard learned that when His Excellency received the news that the Prince of Wales intended to visit Kenya he replied that such a visit would be welcomed with enthusiasm by the whole Colony.

LADIES FASHION'S

A Letter from Paris

Paris, May 1, 1926.

The fashion of the moment is a return to the classic lines of the late 19th century. The dress is long, with a high collar and long sleeves. The fabric is rich and textured, often with intricate patterns. The overall look is one of elegance and refinement.

A delightful expression of the Parisian spirit is seen in the dress of black crepe satin. The full skirt which is lined with rose upon rose of rich parchment colored lace, with a tiny touch of multi-hued appears on the corsage.

The dress is becoming as a princess of blue and printed fabric in every detail. Up to the present, shades appear to be more popular than stripes, and a newly discovered mixture of blue and white is also in evidence. There are shades of seafoam, and a new shade of blue is also in evidence. The dress is becoming as a princess of blue and printed fabric in every detail.

TRAYS—PRETTY AND PRACTICAL

How to Decorate Them.
(By Constance Hayes)

Most of us have in our possession trays of various shapes and sizes, but they are either upon the shelves or in the drawers. Here is an idea for utilizing them in a practical way. They are not only useful but also decorative.

THE BIRD OF THE TRAY

RESULTS OF FISHING SURVEY OF LAKE VICTORIA.

Expert Stresses the Danger of Over-Fishing.

REMEDIES PROPOSED.

Governments Recommended to Create Monopoly in Sale of Nets.

Last year a report of the Government of Kenya and Tanganyika, Mr. M. M. Chabumba, M.A. Assistant Commissioner in the staff of the Ministry of Agriculture and Fisheries, was published in the Lake Victoria Review.

The expert stresses the danger of over-fishing and suggests remedies to meet the danger. He recommends that the Governments concerned should obtain complete control of the fishing industry in the lake by establishing a monopoly of the sale of manufactured nets and the prohibition of hand-made meshes that do not fill certain specified conditions.

IMPORTANCE OF THE NEGRO.

The importance of the negro in the fishing industry is a subject that has been discussed in detail. It is a subject that is of great importance to the future of the lake.

MOMBASA AND THE NYALI BRIDGE.

Moving Favours From Enterprise.

The Nyali Bridge, which has been the subject of much discussion, is now being built. The bridge will be a great boon to the district, as it will connect the Nyali with the main line of the railway. The bridge is to be built on the site of the old bridge, which was destroyed by fire in 1914. The new bridge will be a steel girder bridge, and will be 1,200 feet long. It will have four spans, and will be supported by four piers. The bridge will be built by the Nyali Bridge Trust, which was formed in 1914. The trust has received many donations from the public, and has also received a grant from the Government. The bridge is now being built by the Nyali Bridge Trust, and will be completed in 1927.

The Best Print Every Time is on "Velox"

The enthusiastic amateur will not accept prints that are merely passable. He can get such prints from most negatives in any paper. But he can get the best prints only on "Velox." Some negatives at first regarded as failures yield surprisingly good results on "Velox."

"Velox" is made exclusively for the amateur photographer. It is equal in every degree of contrast and four surfaces. There is always a "Velox" paper to suit every negative.

Kodak Ltd., Kingston, Upper Wood, England.

Perfection

The perfect print is the one that is made with "Perfection" paper. This paper is made by the Kodak Company, and is the best paper for the amateur photographer. It is equal in every degree of contrast and four surfaces. There is always a "Perfection" paper to suit every negative.

THE BEAUTIES OF MOUNT KENYA.

Dr. Arthur and an Interesting Theory.

The beauties of Mount Kenya are many and varied. They are the result of the action of the sun, wind, and rain. The sun has a powerful effect on the rocks, and has caused them to weather and crumble. The wind has a powerful effect on the vegetation, and has caused it to be blown away. The rain has a powerful effect on the soil, and has caused it to be washed away. The result is a landscape of many different shapes and sizes. The mountains are high and steep, and the valleys are deep and fertile. The scenery is beautiful and interesting, and is worth seeing for anyone who is interested in the beauties of Mount Kenya.

"Kruschen makes you feel young—keep young—and look young."

Mrs. Vivian Mitchell.

"I am writing to tell you how wonderful your Kruschen Salt is. I had awful headaches and used to get out of work. I tried all manner of different salts, tablets, etc., but none did me any good. A friend of mine told me she could not bear Kruschen Salt, so I have been taking them regularly for months, and find they have cured my headaches. I would not be without a bottle of Kruschen Salt, as they make you feel young, keep young, and look young."

SCHEME FOR SETTING UP NATIVE LAND TRUST.

The Government has decided to set up a Native Land Trust to manage the land reserved for the natives. The scheme is to be carried out by the Native Land Trust Board, which will be composed of representatives of the Government and the natives.

The Native Land Trust Board will be responsible for the management of the land reserved for the natives. It will have the power to lease, alienate, and otherwise dispose of the land in accordance with the provisions of the Native Land Trust Act.

Land Values

It is interesting to note that the value of land in the Native Land Trust areas is increasing rapidly. This is due to the fact that the land is being reserved for the natives, and the Government is willing to pay a high price for it.

Land for Public Purposes

The Government has decided to set aside certain land for public purposes. This land will be used for the construction of roads, bridges, and other public works. The land will be reserved for the Government and will not be available for private sale.

**WHEN WOMEN RULE
IN BRITAIN**

Views on the Equal
Franchise Bill.

A SWEEZING CHANGE

STANDARD CORRESPONDENT

London, March 20.—The Equal Franchise Bill, which will give the vote to women, has been discussed in the House of Commons today. The speaker, Mr. Asquith, said that the Bill was a sweeping change in the constitution of the country. He said that the Bill would give the vote to women of 21 years of age, and that it would give the vote to women of 30 years of age who were married to men who had the vote. He said that the Bill would give the vote to women of 30 years of age who were married to men who had the vote. Position of the Creameries in
Relation to Local Demands.

SUPPLIES AND COSTS.

**Proposed Importation Under License
During Periods of Drought.**

Increasing costs in connection with the butter market were placed before the Cost of Living Commission last week.

As a result of an agreement between the creameries, the whole sale selling price of butter is fixed at 2s. 6d. during the next months and 2s. 10d. for the next months when the demand exceeds the supply. The price in London has risen to 2s. 10d. per lb.

A PROTECTED MARKET.

One suggestion to meet the shortage of butter is that the Government should purchase butter under license and sell it at a price below the market price for the local produce.

INDIANS UNCOMPROMISING: CAPE TOWN TO SCOTLAND BY AIR.

The Excellence of Aviation Defined.

Plan for a Great Non-Stop Flight.

The plan for a great non-stop flight from Cape Town to Scotland by air is being actively considered by the South African Airways Corporation. The proposed route would follow the southern coast of Africa, round the Cape, and then across the Atlantic Ocean to Europe. The flight would be made in a specially designed aircraft capable of flying for long periods without refuelling. The proposed flight would be a great feat of aviation and would provide a direct link between South Africa and Europe.

Immigrants; Cars for Police.

The next session of the Convention of Associations will be held in the Municipal Hall, Nairobi, on Friday, 28th May.

The opening of the Convention will be at 10 o'clock, and the session which continues until 2 1/2 o'clock, will be closed with 50 in session last.

One of the main objects of the Convention is to ensure that the preservation of game is not a mere matter of game laws, but that the game is preserved in the best possible manner.

Another item of great importance is the question of the preservation of game in the best possible manner. It is suggested that the Game Department should be provided with box-locks, cars for safari use, instead of as at present, motor transport.

THE AGENDA.

The agenda for the session of the Convention of Associations will be as follows:—
1. Report of the Game Department.
2. Report of the Farmers' Association.
3. Report of the Undesirable Immigrants' Association.
4. Report of the Cars for Police Association.
5. Report of the Game Department.

INTERESTING POINT IN ARBITRATION LAW.

Question of Appointment of an Umpire.

The Arbitration Act, 1926, which came into force on the 1st of January, 1927, contains provisions which are of great interest to those who are concerned with the law of arbitration. One of the most interesting provisions is that which relates to the appointment of an umpire. Under the old law, if the arbitrators appointed by the parties failed to agree on a decision, the matter was referred to a court of law. Under the new law, the parties may agree to appoint an umpire to decide the matter in the event of a deadlock between the arbitrators. This is a very important provision, as it enables the parties to avoid the expense and delay of a court trial. The new law also provides that the umpire may be appointed by the arbitrators, or by the court if the parties have not agreed on an umpire. This is a very important provision, as it enables the parties to choose an umpire who is familiar with the facts of the case and who is likely to make a fair and reasonable decision. The new law also provides that the umpire may be appointed by the court if the parties have not agreed on an umpire. This is a very important provision, as it enables the court to appoint an umpire who is familiar with the facts of the case and who is likely to make a fair and reasonable decision. The new law also provides that the umpire may be appointed by the court if the parties have not agreed on an umpire. This is a very important provision, as it enables the court to appoint an umpire who is familiar with the facts of the case and who is likely to make a fair and reasonable decision.

This new type of true Dodge drive, in the most advanced of vital parts.

All essential parts, axle shafts and springs are of electric resistance or other modern alloy steel, giving great strength and long wear, with low maintenance expense.

Showing its superiority over because of the great strength imparted by the wearing gear, and the reduced friction resulting from ball-bearing steering mechanism.

BRUSH MAKERS SINCE GEORGE III WAS KING

THIS has taught us many things, but it has also shown a big advantage to the BRITISH MADE brush, which was made by Kent.

We have gained a great amount of such knowledge, that enables us to make the best brushes of all possible qualities.

If we supply you with the "Kent" brushes, you can make an excellent profit. You will gain many new customers who will come back for brushes, as good as the last one you sold me.

You can guarantee brushes, made by Kent, to your customers too—you can do this because you know you are selling the best brushes that human ingenuity, modern machinery, and the skill and experience of over one hundred and forty years can produce.

Kenya and Uganda Trade in 1927.

Effect of Partial Failure of the Cotton Crop.

A SATISFACTORY RECOVERY.

A Marked Expansion Anticipated This Year.

THE CUSTOMS AGREEMENT.

The trade between Kenya and Uganda in 1927 has shown a marked expansion compared with the previous year. This is due to a number of factors, including a satisfactory recovery from the partial failure of the cotton crop in 1926. The customs agreement between the two countries has also played a significant role in promoting trade. The agreement provides for a free trade area between the two countries, which has led to a marked increase in the volume of trade. The trade in 1927 was valued at £1,200,000, compared with £1,000,000 in 1926. This is a significant increase, and it is anticipated that the trade will continue to expand in the coming year. The free trade agreement has been a major factor in this expansion, as it has removed many of the barriers to trade between the two countries. This has led to a marked increase in the volume of trade, and it is anticipated that the trade will continue to expand in the coming year.

THE NATIVE POLICIES OF EASTERN AFRICA.

No. 1.
THE TANGANYIKA MODEL.

Supporting the Power of the Hereditary Chiefs under Supervision.

This is the first of a series of articles on native policies of Eastern Africa. The articles are specially written in a manner which it is hoped will be instructive to the public at large. No responsibility is assumed for the opinions expressed, but it is hoped that the series will be of some use to the public. The fundamental principles and aims of the separate Governments.

Tanganyika has been selected for the first articles of the series because in that Territory the Government has recently introduced a very controversial policy, related closely to the hereditary principle of the Uganda people, whereunder the ruling chiefs are given full support to control their own lands subject only to indirect control and advice from the Central Government, in order that the best of western civilisation influences may be grafted on sound native stock.

AN ALTERNATIVE TO AN ARMY OF OFFICIALS.

Since his arrival in Tanganyika Territory early in 1921, the Honorable Mr. Donald Cameron has found a great deal of time to the acquisition of a system of native administration. He has the advantage of a long experience in the administration of native lands in the East African States.

The Honorable Mr. Cameron has frequently declared that it should be the intention of the British people in Africa to make the native a self-sufficient and self-governing community. He has the advantage of a long experience in the administration of native lands in the East African States.

DEPARTMENT OF A SYSTEM OF EDUCATION FOR KENYA

The Government of Kenya has decided to introduce a new system of education for the whole of Kenya. This system is based on the principles of the Education Act of 1961 and is designed to provide a high standard of education for all children in Kenya.

The new system will be based on the following principles:

- 1. All children should have access to education.
- 2. Education should be of high quality.
- 3. Education should be relevant to the needs of Kenya.
- 4. Education should be of a type which will enable children to take full advantage of the opportunities which will be available to them in the future.

The new system will be introduced in stages. It will first be introduced in the primary schools and then in the secondary schools. It will be fully implemented by 1965.

The new system will be based on the following principles:

- 1. All children should have access to education.
- 2. Education should be of high quality.
- 3. Education should be relevant to the needs of Kenya.
- 4. Education should be of a type which will enable children to take full advantage of the opportunities which will be available to them in the future.

After an absence of just over an hour, the jury returned the verdict.

They unanimously agreed that there was intention to cause death and that the accused had the knowledge that his act was likely to cause death.

They were unanimously of the opinion that accused by his act and subsequent action caused bodily harm which endangered life and that the accused knew his act was likely to cause bodily harm which endangered life.

THE N. A. F. REPORT.

Attitudes Real and Artificial, which are Preventing Progress.

It is a common-sense attitude regarding the people of the East African territories, and the only one which is likely to lead to their economic development. It deals with the attitude of the people towards the Government, and the attitude of the Government towards the people.

The length of time spent in the territories, the conservation of the tribes, the policy of the Government, the policy of the territories, the policy of the people, the policy of the Government, the policy of the territories, the policy of the people.

TRIBAL FEUDS AND BORDER RAIDS.

The tribal feuds and border raids in the East African territories have been a major problem for the Government. The feuds are often based on old grudges, and the raids are often carried out by the tribes against the Government or against each other. The Government has taken steps to deal with these problems, but more needs to be done.

LAND AND AGRICULTURAL BANK SCHEME.

The Land and Agricultural Bank Scheme is a major initiative of the Government to improve the agricultural sector. The scheme provides loans to farmers for the purchase of land, tools, and other agricultural equipment. It also provides technical assistance to farmers to improve their farming practices.

THE FIRST DOSE PUT ME RIGHT
I took I must have told you how much I think of Kruschen Salts. I had a very severe attack of influenza which left me very weak and I felt fit for nothing. I was recommended to try Kruschen Salts and the first dose put me right, and to-day I feel a new man and as fit as a fiddle. No sufferer should be without them. They are a boon and a blessing to all and are worth their weight in gold.

BIG in every way .. except COST!

NEW ERSKINE SIX-Club Sedan...

STUDEBAKER'S new Erskine Six Club Sedan is big in size - generous room for five adults. Big in comfort - deeply cushioned seats and a spring-back over four-fifths the length of the wheelbase. Big and beautiful in appearance because of skill in design and distinctive cellulose colours.

Big in performance because of abundant six-cylinder power. In officially supervised tests Studebaker's new Erskine Six sedan averaged more than 51 miles per hour for 24 consecutive hours. This new Erskine Six is big in every way except cost! Studebaker's modern methods make possible a price below any other five-cylinder cylinder sedan of comparable quality. Studebaker's advanced engineering keeps operating costs surprisingly low.

You will experience true satisfaction with Studebaker's Erskine Six. Take this Club Sedan for a trial run today - judge for yourself.

A Game Ranger on Safari
 (By A. HEATON FLEETWOOD)
 (Author of "A Game Ranger's Notebook")
 Edited with an introduction by
 E. D. Cumming
 MR. PERCIVAL'S first book, "A Game Ranger's Notebook" has found ready admirers and a well deserved success.
 It dealt with the life of a game ranger in the bush, and
 the present volume, Mr. Percival adds a new series of
 entertaining illustrations in connection with the life of
 animals which abound in Kenya, together with notes on
 the habits and characteristics of the different forms and
 the amusing aspects of the sportsman's life in the
 bush. The illustrations are very good, but Mr. Percival's
 book is a very good one.
