MCCORMICK DEERING

In 1831 in a far-off grain field Cyrus H. McCormick, the inventor of the reaper, was busy at his work. He had just invented the reaper and was busy at his work.

Three years from this present year, 1934, the McCormick Deering reaper will be the standard of the world. It will be the standard of the world because of the skill and experience of the McCormick Deering Company in the construction of the reaper and the years of farm machine progress.

McCormick Deering machines have a name in the world. They are the most reliable and the most efficient in the world. They are the most reliable and the most efficient in the world. They are the most reliable and the most efficient in the world.

Today these two famous names, Ireland and McCormick Deering, stand as the mark of an ALLEYSIBLE ECONOMY AND LASTING SERVICE ON WHICH TO REPOSE.

 AN APPEAL TO MISSIONS.

Disastrous Raids by Renegade Riflemen in the Turkana Country.

The first portion of the report of the C.M.S. dealing with the Northern Frontier Province records a series of disastrous raids by renegade riflemen from Southern Abyssinia upon the Turkana. The cooperation of the Sambari and the stubborn opposition to change on the part of the Galla and Rendile are also indicated. The Chief Native Commissioner suggests the opportunities being before us for Christian Missions establishing itself at Marsabit.

GRADUAL ADMINISTRATIVE PENETRATION.

The first object of the policy of the Government in the Northern Frontier Province is to secure the gradual penetration of the British Empire into the area. This is to be done by the establishment of a series of administrative posts along the frontier. The first of these posts is to be established at Marsabit. The second is to be established at Moyale. The third is to be established at Baringo. The fourth is to be established at Eldoret. The fifth is to be established at Kisumu. The sixth is to be established at Mombasa. UGANDA RAINS JUST IN TIME. Appalling Conditions in Eastern Province.

Uganda, May 19. The rains are continuing in a very satisfactory manner over the country and we are looking forward with great hopes for the 1920 season. Rainfall conditions in parts of the Eastern Province, which have been so acute, are being relieved by the end of June. Rainfall here has not been taking much heavy rain of the nature in that Province in districts on the slopes and the drought is on a low water level. Details of the weather at the end of last year and the beginning of this year show flooding through and conditions in Luoga and Toro must have been little short of appalling. Owing to the continued drought the water holes dried up and cattle had to be taken many miles to the nearest water. In Kampala the drought was as long as in Uganda. Cattle were driven down from the north and on from the south and met at the river for the holes. Kampala was present in the Kampala cattle and the Uganda cattle continued in the district in the river holes. It was only a matter of days before the Bales-enriched to be rampant all over the Province. Fabled tales of the efforts made by the natives to keep their cattle safe have been translated into a matter of fact. The cattle were kept in the holes and the water was kept in the holes. The cattle were kept in the holes and the water was kept in the holes.

DEATH OF A NOTED SCOTS DIVINE. Convener of Foreign Mission Committee.

FROM A CORRESPONDENT. The death of the Rev. W. B. Stevenson D. D. Convener of the Church of Scotland Foreign Missions Committee took place in Edinburgh on Sunday, May 6. The Rev. Mr. Stevenson was called to the Chair of Divinity in 1861, and after many years served as a Lecturer in Scotland. He was appointed in 1915 the Organising Secretary of the Foreign Missions of the Church. In this position, he did much to bring forward the cause of Missions in the Church and Abroad, especially as during that time he asked and secured the ownership of the Rev. Dr. J. D. O'Brien in 1914. He was the Convener of the Foreign Missions Committee and was succeeded in that post by the Rev. Dr. Robertson. The Stevenson presented the Report of the Foreign Missions of the Church to the General Assembly of 1919 and 1920 with speeches of great vigour and eloquence. During his term as Convener he has proved himself a worthy successor to Dr. O'Brien and a distinguished servant of the Church of Scotland. In the autumn of 1920, Dr. Stevenson visited the Church of Scotland's Mission in Kenya where his help was much appreciated, not only by the members of the Mission, but also by the members of the Colonial Administration in Kenya. Dr. Stevenson was a man of great energy and a man of great energy.

KENYA ADIES' FASHIONS

A Letter from Dar-es-Salaam

The little track of the moment. It is expressed in soft black taffeta, and made with a full skirt having a quaint little pocket. A fitting bodice buttoned down the front, and collar and cuffs of parchment colour gartered edged with the lace.

A remarkable number of women that visit the East, are attracted to the fashion of the East. The reason for this is that it is a simple, comfortable, and practical. The East is a land of sunshine and heat, and the fashion of the East is a land of sunshine and heat. The East is a land of sunshine and heat, and the fashion of the East is a land of sunshine and heat.

FEDERATING TRIBES IN TANGANYIKA.

Native Authorities and Treasuries Undertake Public Works Out of Own Funds.

The second of the series of articles on Native Policies shows the aim in Tanganyika to gather together scattered remnants of old tribes and group the chiefs of these remnants into a governing Council or Native Authority.

Where there is only one paramount chief, as when chiefs deal with their own sections of a tribe, they are advised of the older elders who represent a democratic check on autocracy.

The Tanganyika Government has deliberately revived and supported the power of those old men over the decisions and actions of the chiefs because the elders derive their influence from tradition respected by the people and they represent a counter stroke to the development of the young native political movements.

GREAT New Chrysler '62' gives you more in performance, beauty, comfort, safety and long life than cars of other makes costing much more.

Through Standardised Quality Chrysler engineering offers you in the "62" a combination of fine-car features which previously cost far more even in a Chrysler and which are still not available in any other make at anywhere near the price.

See the Great New Chrysler "62." Ride in it. Test it in any way you choose. You will then readily understand the reason for its most sensational public preference.

DOMESTIC SERVANTS BILL AMENDED IN COMMITTEE.

Important Alterations to the Original Draft.

IDENTITY METHODS.

Photographs May Take the Place of Finger Prints.

The Bill now before the House contains the following amendments to the original draft:

A Better Scope. The Colonial Secretary proposed that the definition "Native" should be limited so as to include only those persons who are employed in the service of a European or a person of European descent.

Finger Prints or Photos. The Colonial Secretary said that under the heading of "general" he proposed in accordance with the recommendation of the Select Committee that the first clause, clause 11, should read as follows:

"(a) take the finger prints of each servant or employe as well as such means as may be prescribed and send such impressions to the general register and the local registers in the several districts and provinces."

History of the Scheme

The scheme for the housing of civil servants was first proposed in 1925. It was then approved by the Government and the House of Commons. The scheme was then put into operation in 1926. It has since been extended to cover the housing of other classes of public servants.

Estimates Scheme

The Government has announced that it will be introducing a new scheme for the estimation of the cost of public works. This scheme will be based on the principle of the 'cost-plus' system. It will require the contractor to estimate the cost of the work and to add a fixed percentage to this estimate to cover his profit.

Emergency Advances

The Government has announced that it will be introducing a new scheme for the provision of emergency advances. This scheme will be based on the principle of the 'advance-in-advance' system. It will require the contractor to advance the cost of the work to the Government and to be repaid by the Government when the work is completed.

"POPULARITY"

Never in the history of the Automobile Industry has any Car enjoyed public approval to the extent of the

NEW FORD

You cannot judge the New Ford by its looks. It is as marvellous as they are. Only actual test on the road
can convince you that here is a car that is not only a work of art, but a great scientific triumph in the
mechanical engineering of the world.

Production of the New Ford is 100,000 per day. It is the most advanced car in the world.
It is the most reliable car in the world. It is the most economical car in the world.

60 Cars from Canada and 100 from East Africa. The allotment will be doubled next month.

RURAL FARMERS AND COST OF LIVING.

Danger of the Abuse of Privileges.

FORWARD.—The Government has shown a marked attention to the needs of the rural farmer. It has passed the Agricultural Land Act, 1928, and the Agricultural Land (Amendment) Act, 1929. It has also passed the Agricultural Land (Amendment) Act, 1929, and the Agricultural Land (Amendment) Act, 1929.

It is, however, to be feared that the Government has not shown sufficient attention to the needs of the rural farmer. It has not passed any legislation to protect the rural farmer from the abuse of his privileges.

Cost of Living.—The cost of living and the cost of production are both rising. This is due to the fact that the Government has not taken any steps to control the cost of living and the cost of production.

Up-country Telegrams.—The Government has received several up-country telegrams. These telegrams are of great importance to the Government.

F.M.O. REPLIER TO A CRITICAL QUERY.—The F.M.O. has replied to a critical query. The reply is of great importance to the Government.

Man Lias Railway.—The Man Lias Railway is under construction. It is expected to be completed in the near future.

A Fanchise M. L. C.—The M. L. C. has been granted a franchise. This franchise is of great importance to the Government.

A Mombasa Note.—The Mombasa Note is of great importance to the Government. It contains several important provisions.

Third Reading.—The Bill has been read a third time. It is expected to be passed in the near future.

The Government of Uganda.—The Government of Uganda has received several important news items. These news items are of great importance to the Government.

Well matured CONCRETE BLOCKS.—The Government has received several important news items. These news items are of great importance to the Government.

Geographical Names.—The Government has received several important news items. These news items are of great importance to the Government.

EMPIRE-WIDE ASSOCIATION OF BRITONS.

The Empire-wide Association of Britons is a new organization which has been formed to bring together all British subjects living in the various parts of the Empire. The object of the Association is to promote the interests of British subjects in all parts of the Empire, and to foster a sense of unity and loyalty among them. The Association has already held several conferences and has been successful in securing the attention of the Government to the needs of British subjects in the various parts of the Empire.

A Big Membership.

The Association has a very big membership, and is growing rapidly. It has already secured the support of many of the leading public figures of the Empire, and is now working for the benefit of all British subjects. The Association has a number of committees, and is active in promoting the interests of British subjects in all parts of the Empire. It has also been successful in securing the attention of the Government to the needs of British subjects in the various parts of the Empire.

Immigration Rules.

The following rules have been introduced in the Immigration Restriction Ordinance in place of those which have been in force since 1914. The new rules are more stringent, and require all immigrants to report themselves personally or by letter to the authorities in the country to which they are coming. The new rules also require all immigrants to be accompanied by a sponsor, and to have sufficient funds to support themselves in the country to which they are coming.

The Progress.

The progress of the Empire-wide Association of Britons has been very rapid. It has already held several conferences and has been successful in securing the attention of the Government to the needs of British subjects in the various parts of the Empire. The Association has a number of committees, and is active in promoting the interests of British subjects in all parts of the Empire. SUNLIGHT Saves Blankets

Blankets need the gentlest treatment in washing, but if washed the Sunlight way, they will have a long life of service, and will remain soft and fleecy. Should Sunlight Soap into hot water and stir to a thick lather. Wash in Sunlight through quickly. DO NOT Wring. Hang in the shade, and shake out. TENDERS will be accepted if tendered of with interest.

SUNLIGHT makes Clothes and Linens last longer

With the use of Sunlight Soap comes the knowledge that your clothes and linens last longer, thus saving your purse. The ease and quickness with which Sunlight Soap gets at the dirt in clothes and linens makes Sunlight unique — a true labour saver.

SUNLIGHT makes Curtains seem to last for ever

First wash the curtains in warm water, then rub them all over with Sunlight Soap, and leave them to steep in clean, warm water. Press out the dirt, and ring well; squeeze them as dry as possible without wringing. To keep them in shape, be careful to hang them with the same ring on each side of the line, and hang with a moderately hot iron. Curtains washed the Sunlight way will last a lifetime, and will be a standing testimonial to good housekeeping.

HIS EXCELLENCY REVIEWS THE NATIVE LAND TRUST BILL.

Sincere Effort to Reach a Solution to a Difficult Problem.

RELATIONS BETWEEN WHITE AND BLACK.

Need for Supervision of Independent Authority Able to Resist Pressure from Extremists.

In an important speech to Legislative Council on Monday His Excellency the Governor Oduol, expressed his views on the Native Land Trust Ordinance.

The content of the white sector and the African sector of the bill is not identical and cannot be identical for years would need the supervision of a fair, single, disinterested and independent authority which could resist the pressure of both extremists within and without the Colony.

The Governor declared that there were two articles of policy necessary for harmony - white settlement of the best type, and opportunity for the African to develop as a free, self-respecting, responsible and industrious member of the State.

ENDURING NATURE OF LEGISLATION.

His Excellency's speech is as follows: I have said that I shall have to make a considerable April contribution to the work and I suppose to start with at the very end of a short session in which there will be a number of important bills to be considered.

The bill is a personal and practical one. It is a bill which will be of enduring nature. It is a bill which will be of enduring nature. It is a bill which will be of enduring nature.

KING'S COUSIN UNVEILS THE NATIVE WAR MEMORIAL.

Impressive Ceremony in the Heart of East Africa.

TRIBUTE BY ALL RACES.

War-time Comradeship Which Points a Moral Today.

The unveiling of a member of the King's family of the memorial to Africans who fell in the service of the King drew together some of the largest and most representative groups of his vast empire in Nairobi.

The ceremony, which was performed on Sunday forenoon by His Highness Prince Maximo Loupou, was made unique and significant in the long series of similar tributes to the gallantry of British subjects by the representation of so many branches of the Empire, including the Royal family, the State of the Church, the various departments of the Civil Service, the military, the police, the native residents and other members of the Indian community, and a huge contingent of Africans, standing among whom were the paramount chiefs with other chiefs and headmen of the tribes.

His Excellency and Her Highness both made speeches in which they extolled the gallantry of Africans in the War.

ELOQUENT FIGURES.

In the presence of the base of which the Armistice Agreement takes place on November 11th 1918. In that section of the ground which has been included in the present commemorative monument to the fallen of the War. Not only a full tribute to the gallantry of the British and other subjects of the King, but also a tribute to the Africans who served the King in the War.

A Fortunate Delay.

Of the delay in the unveiling of the memorial, His Highness Loupou said that it was a fortunate delay, as it allowed him to see the progress of the work of the monument, and to see the progress of the work of the monument, and to see the progress of the work of the monument.

Two Great Qualities.

The African Troops who served the King in the War were distinguished by two great military qualities, valor and endurance. There is no greater test of the character and endurance of troops than a long and arduous march, and the African Troops who served the King in the War were distinguished by two great military qualities, valor and endurance.

ELOQUENT FIGURES.

In the presence of the base of which the Armistice Agreement takes place on November 11th 1918. In that section of the ground which has been included in the present commemorative monument to the fallen of the War. Not only a full tribute to the gallantry of the British and other subjects of the King, but also a tribute to the Africans who served the King in the War.

A Fortunate Delay.

Of the delay in the unveiling of the memorial, His Highness Loupou said that it was a fortunate delay, as it allowed him to see the progress of the work of the monument, and to see the progress of the work of the monument, and to see the progress of the work of the monument.

Two Great Qualities.

The African Troops who served the King in the War were distinguished by two great military qualities, valor and endurance. There is no greater test of the character and endurance of troops than a long and arduous march, and the African Troops who served the King in the War were distinguished by two great military qualities, valor and endurance.

KING'S COUSIN UNVEILS THE NATIVE WAR MEMORIAL.

His Majesty King George V. has unveiled the Memorial to the Native War, which commemorates the brave fighting of the African soldiers who fought for the British Empire during the Boer War.

The King, who was accompanied by the Duke of York and the Duke of Devonshire, arrived at the unveiling ceremony in the presence of a large number of officials and members of the public.

The Memorial, which is a fine example of modern architecture, stands in a prominent position in the heart of the city. It is a fitting tribute to the brave African soldiers who fought for the British Empire.

The unveiling ceremony was a most impressive one, and the King's presence added greatly to its importance.

The King's visit to the Memorial was a most interesting one, and he was greatly impressed by the fine workmanship of the building.

Freight Rates.

EFFECT OF FLUCTUATIONS ON SIAL MARRK.

Mr. J. E. H. has been attention at Thursday's meeting of the Nairobi Chamber of Commerce on the effect of the fluctuations in the East African market on the freight rates. He pointed out that the rates were relatively low last January, but had since risen to a high level.

The meeting was referred to the 1925 meeting of the Association of Eastern Chambers of Commerce to be held in Mombasa in June.

WHEN YOU SEE THE NEW RUGBY FOUR

You will realize that this car positively sets a new standard for automobiles.

You will be impressed by its size, its newly designed radiator and the very modern lines of its Direct Shift Box, Flat Body. After you have examined it thoroughly, you will be astonished at the comfortable motor and its smooth operation.

The improved Motor will surprise you. You will unconsciously compare its power and speed with that of six cylinder performance. The Direct Shift Box gives you the greater flexibility of the motor, and the Flat Body gives you that satisfaction usually associated with more expensive cars. It has no four cylinder car on the market. It is a new type of car. It is a new type of car. It is a new type of car.

AMENDING DRUGS AND POISONS LAW
Qualification Question Raised in Council

The Council of the East African Medical Association met on the 24th inst. to discuss the proposed amendments to the Drugs and Poisons Law. The Council expressed its views on the proposed amendments, which were introduced by the Government. The Council is of the opinion that the proposed amendments are not in the best interests of the public and that the existing law should be retained.

THE BANKRUPTCY LAW IN KENYA

Suggested Lack of Adequate Staff.

The Kenya Bankruptcy Law, which was passed in 1935, has been found to be inadequate in many respects. It is suggested that the law should be amended to provide for a more adequate staff of officials to administer the law. The law is currently administered by a small number of officials, which is not sufficient to handle the increasing number of bankruptcies.

DETENTION CAMPS

NOT SUFFICIENTLY USED.

The Government has been criticized for not using detention camps sufficiently. It is suggested that the camps should be used more extensively to deal with the increasing number of detainees. The camps are currently used only for a small number of detainees, which is not sufficient to deal with the problem.

Where the safety of human life depends upon unfailling light Kohler automatic electric lighting plants are used.

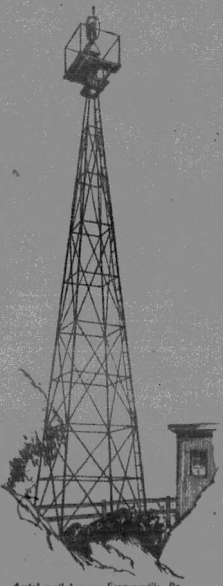

The U.S. Government have chosen Kohlers to light air mail beacon towers at night that guide the night fliers safely over their routes.

Kohlers are used in lighthouses, lightships, in mines, war and navy departments, hospital operating rooms. Here are tasks where none but the most dependable plants could serve— for without light, lives would be in peril.

In Kenya too, where absolute dependability is essential and efficiency and economy necessary, Kohlers are being selected, replacing the old storage battery type of lighting outfit.

The highest electrical and engineering authorities in Kenya are now recommending Kohlers where independent or auxiliary electric lighting plants are required.

A Cable from Sir Alan Cobham

Just arrived Durban after flight through Europe. Alan is confident and wants to tell you that his great supply of Castrol perfect at all points and that our Rolls Royce Engines run perfectly smooth under the heat of the sun. The engine and oil pressure was maintained constant without falter on every flight thanks and regards from the crew who are all admirers of the success of the Sir Charles Wallis Flight of survey Round Africa.

When to Instal New Spark Plugs.

Dependable Champions are built to last longer than any other spark plug made. They have perfectly plain, easily recognized points of material and structural superiority, including silicium insulators, special analysis electrodes and two-piece construction which insure long life. And yet Champions—selling nearly 75 per cent of all the spark plugs used the world over—Champion out of its experience says this to you: *Change your Spark Plugs every ten thousand miles if you want to get the utmost out of your motor and the greatest good out of your car for less money.*

METHODS OF FISHING ON LAKE VICTORIA.

Expert Proposes a Government Monopoly.

The methods of fishing on Lake Victoria are being studied by an expert, who proposes a Government monopoly. The expert, who is a member of the Fisheries Commission, has been studying the methods of fishing on the lake for some time. He has found that the methods of fishing are very primitive and inefficient. He proposes that the Government should take over the fishing on the lake and introduce modern methods. This would include the use of motor boats and improved fishing gear. The expert also proposes that the Government should regulate the catch and the sale of fish. This would ensure that the fish are of good quality and that the fishermen are paid a fair price for their catch. The expert's proposals have been met with interest by the Government. It is expected that a decision will be made in the near future.

HIS EXCELLENCY REVIEWS THE NATIVE LAND TRUST BILL.

Considered British page 35.

His Excellency the Governor-General has reviewed the Native Land Trust Bill. The bill is a very important one, as it will provide for the better management of the native lands. The Governor-General has expressed his approval of the bill and has recommended that it should be passed by the Legislative Council. The bill will provide for the establishment of a Native Land Trust Board, which will be responsible for the management of the native lands. The board will consist of representatives of the Government and the native community. The bill will also provide for the improvement of the native lands and the welfare of the native population. It is expected that the bill will be passed in the near future.

Adequate Reserves

The Government has announced that it has adequate reserves to meet its financial obligations. The reserves are expected to be sufficient to cover the Government's expenses for the next year. This is a very important announcement, as it shows that the Government is financially sound and able to meet its obligations. The reserves are expected to be maintained at a level that will ensure the Government's financial stability. It is expected that the Government will continue to maintain adequate reserves in the future.

MEDICAL & SANITARY SERVICES FOR NATIVES

By the Rev. Fr. Joseph Langa, M.B., B.S., F.R.C.S., F.R.C.P.

THE MEDICAL & SANITARY SERVICES FOR NATIVES are being organized in the following manner:

The first step is to establish a central hospital at Soroti, which will be the base for the services in the district. This hospital will be equipped with the latest medical and surgical appliances, and will be staffed by a qualified medical officer and a team of nurses.

In addition to the central hospital, a network of smaller dispensaries will be established throughout the district. These dispensaries will be staffed by trained medical assistants and will provide first aid and minor surgical services.

The services will be free of charge for the natives, and will be available to all who are in need of medical attention. It is hoped that these services will greatly improve the health and well-being of the native population.

The organization of these services is being carried out by the Rev. Fr. Joseph Langa, who is assisted by a team of medical assistants and nurses. It is hoped that these services will be a great benefit to the native population.

The services will be provided in a simple and efficient manner, and will be available to all who are in need of medical attention. It is hoped that these services will be a great benefit to the native population.

STUDEBAKER Championship Performance at Remarkably Low Price

YOU can enjoy Studebaker championship performance at the wheel of this Deluxe Six Tourer. In official tests its powerful six-cylinder engine in a 100-mile race made 54 miles per hour for 24 consecutive hours!

In 1930 we passed 1250 miles in a day and a half at an average of 40 miles per hour when you have the power to conquer the steepest hills, the roughest roads, and the fiercest winds. You can enjoy this performance at a very low cost because of Studebaker's exceptionally large manufacturing facilities.

This new Erskin Tourer is a quality car from gleaming radiator to graceful rear mudguard. The flat-folding hood permits perfect freedom in clear weather, with strong curtains, simple to raise or lower at once. At low price, this coach sport motor is equipped with 4-wheel brakes, ball-bearing axles, patrol gear on factory wheels, power, lock, automatic traffic signal and one-piece wind screen with automatic cleaner. See this Erskin Six here today!

THE CASE OF THE SAMBURU.

Land Alienation Must be Accompanied by Fuller Protection to the Tribe.

Major Linnell, in his letter to the Governor dated the 10th inst., has pointed out the fact that the Samburu have been allowed to graze on the land which has been alienated to the Government.

The present position is that the Samburu have been allowed to graze on the land which has been alienated to the Government. This is a most serious matter, as the Samburu are a nomadic people and their mode of life is dependent on the availability of grazing land.

INCOME TAX AND THE COST OF LIVING.

A Suggestion to the Commission.

The Commission has been suggested to the Commission which is at present investigating the high cost of living. The suggestion is made by Mr. Joseph Mottison who writes as follows:

With reference to income tax Mr. Mottison says that he has done much to reduce the cost of living. He suggests that the Government should consider the possibility of reducing the rate of income tax on the ground that the cost of living is so high.

TANGANYIKA ADMINISTRATIVE METHODS CRITICISED

Alleged Wilful Neglect of the Port of Tanga.

"CESS PIT OF EAST AFRICA."

Railway Policy Which is Said to Encourage Isolation.

Strong criticisms of the Government policy of Tanganyika and particularly of the alleged neglect of the port of Tanga were made by Major Walsh, the well-known director of a number of companies operating in East Africa in the course of an interview with the "E.A. Standard."

Major Walsh was most concerned with the isolation of Tanga which he described as the cess pit of East Africa. He declared that Tanga companies tried to do business with the Government but were discouraged by its ten years experience of this part of the Empire he said he had never encountered anything worse.

He declared that the Tanganyika Railway administration was pursuing a retrograde policy which in a short time was bound to be generally apparent.

RELATIONS WITH KENYA.

The East African Standard yesterday had an interview with Major General Walsh, who was eloquent on what he believes to be the chief shortcoming in Tanganyika's policy. He was particularly concerned with the alleged neglect of the port of Tanga.

Major Walsh, a director of a number of companies operating in East Africa, declared that Tanga was being neglected by the Government and that the railway administration was pursuing a retrograde policy which in a short time was bound to be generally apparent.

Kenya's Concerns.

The Secretary of State for the Colonies has approved the award of the African Public Medal for Meritorious Service to two Kenyan officials in recognition of their services in the Kenya Police.

It is stated that the award was made in recognition of the services rendered by the two officials in the course of their duties in the Kenya Police.

THE RAPID DEVELOPMENT OF KILINDINI HARBOUR.

Need for Extension of the Deep Water Berths.

GENERAL MANAGER'S REVIEW.

Belief that Present Traffic will be Doubled in Six Years.

A review of the general development of the harbour during the past year shows that the rapid increase in the number of vessels calling at the port has necessitated the extension of the deep water berths. The general manager of the harbour authority has issued a report which states that the present traffic is expected to be doubled in six years.

The report states that the number of vessels calling at the port during the past year has increased by 10 per cent. The general manager believes that this increase will continue at the same rate for the next six years.

NEW CAPITAL EXPENDITURE.

The general manager has estimated that the total cost of the extension of the deep water berths will be £1,750,000. This estimate is based on the present rate of traffic and the expected increase in the next six years. The general manager has also estimated that the total cost of the extension of the deep water berths will be £1,750,000.

Port Congestion.

The general manager has also estimated that the total cost of the extension of the deep water berths will be £1,750,000. This estimate is based on the present rate of traffic and the expected increase in the next six years. The general manager has also estimated that the total cost of the extension of the deep water berths will be £1,750,000.

Deep Water Berths.

It had been suggested that the present single line of deep water berths might be extended to the north of the present line. The general manager has, however, decided to extend the present line to the north. This extension will provide for the increased traffic expected in the next six years.
