No. 2067 REGISTERED AT THE GENERAL POST OFFICE AS A NEWSPAPER

NAIROBI, SATURDAY, JUNE 7, 1928

Printed and Published by the Proprietor, at the Standard Press, Ltd., Nairobi, Kenya.

WRECKED!!!

No matter how great ones' appreciation of Triplex Non-shatterable glass is, it is bound to take on renewed significance when one learns of what has happened on the roads.

A NEW FORD

Equipped with Triplex Windscreen, was involved in an accident in which the ordinary glass was bent inward four inches but did not shatter. Had the windscreen been equipped with ordinary glass, we have to think of the consequences. The car, with the Triplex windscreen, was repaired and returned to its owner on Sixth Avenue, Nairobi.

GRATEFULLY OVER FATE OF POLAR LEADERSHIP

Expeditious Return From Pole

EXPEDITIOUSLY OVER FATE OF POLAR LEADERSHIP

Expeditious Return From Pole

GRATEFULLY OVER FATE OF POLAR LEADERSHIP

The expeditionary force which was sent to the North Pole by the British Government under the leadership of Sir Robert Falcon Scott, has returned to the United Kingdom after a successful journey of over a year and a half. The expedition was the first to reach the North Pole, and the return journey was completed in a remarkably short time. The expeditionary force was composed of four men, and they were accompanied by a dog team. The expedition was a great triumph for the British Empire, and it has brought to the attention of the world the capabilities of the British people in the field of polar exploration.

THE EAST AFRICAN STANDARD

Published for the Proprietors by the East African Press, Ltd., at No. 1, Market Street, Nairobi, Kenya.

REMEMORANCE OF THE LIBERAL CHIEF

The Liberal Party in Kenya is holding a memorial service for the late Sir John A. Scott, the Liberal Chief, on June 2nd. The service will be held at the Nairobi Town Hall, and will be attended by a large number of Liberal Party members and supporters.

WAR-TIME ECHO

The war-time echo is still heard in the hearts of many people in Kenya. The memory of the sacrifices made by the British Empire during the war is still fresh in our minds, and it is a source of pride and inspiration to us all.

LAUNCH OF A NEW DESAMINATOR

The Royal Colonial Institute has launched a new desaminator, which is a valuable tool for the study of the history and culture of the British Empire. The desaminator is a book which contains a wealth of information on the various parts of the Empire, and it is a must-read for anyone interested in the history of the British Empire.

ROYAL COLONIAL INSTITUTE

The Royal Colonial Institute has been elected to the office of President by the members of the Institute. The President will be responsible for the management of the Institute, and will be a member of the Council.

DESPERATE FIGHTING IN CHINA

Southeners Said to be Retreating

Desperate fighting is taking place in China between the Nationalist Government and the Communists. The Nationalist Government is said to be retreating from the South, and the Communists are advancing towards the North. The fighting is expected to continue for some time, and it is likely to result in a major reshuffling of power in China.

EMPIRE DAY IN THE HOMELAND

Founder's Message to Britons

Empire Day is being celebrated in the Homeland. The Founder's message to Britons is a call to unity and cooperation between the various parts of the British Empire. The message is a reminder of the strength and power of the British Empire, and it is a source of inspiration to us all.

THE PEACE IDEAL

The Peace Ideal is a goal that we should all strive to achieve. It is a goal of justice, equality, and brotherhood. The Peace Ideal is a source of inspiration and strength to us all, and it is a reminder of the power of human unity.

THE NATIVE POLICIES OF EASTERN AFRICA.

No. 3.

SELF-HELP IN TANGANYIKA.

A Trend in the Direction of Creating Great Tribal Entities.

One of the most important aspects of the Native Policy of Tanganyika is the possibility that through the grouping together of chiefs in the work of Councils the long scattered portions of a tribe may be drawn together under a uniform constitution and become a great native unit selecting their own representatives for the expression of their views on their needs and aspirations.

An essential part of the policy has not been overlooked in the training of chiefs in which to train the sons of ruling chiefs that they may be fitted to carry on the family authority over the tribe. During school holidays some of these younger men take their knowledge to assist their parents or attend the Councils and Courts.

A constant endeavour is made to prevent them becoming merely bad imitations of the European and to keep them into the closest touch with tribal custom and affairs while they are acquiring at school knowledge of Agriculture, veterinary services and the art of just government.

TRAINING THE SONS OF CHIEFS.

An education of how tribal co-operation may be beneficially carried out is provided by the Native Policy. It is a policy which is designed to give the sons of ruling chiefs a knowledge of the principles of tribal co-operation and the art of just government.

most hope to avoid having to administer through alien natives but to find a way to form a small tribal unit governed by the Native Policy.

If photos are to be returned a STAMPED ENVELOPE MUST BE ENCLOSED. The Editor's decision will be final.

Drawing a Nation

In the application of the Native Policy there is of course, a tendency on the part of some minds to ask for increased power for Administrative Officers continue to impress upon them that with after a period of responsibility will the time arrive when they can do better than in the present in-charge matters.

There is, however, other aspects of this native policy which are of far greater importance than the mere increase of power for Administrative Officers. These are the aspects of tribal co-operation and the art of just government.

Training Chiefs' Sons

MOTOR TOPICS

THROUGH FLOOD AND SWAMP TO NAIROBI.

Adventures of the Chevrolet Cape Town to Stockholm Expedition.

AN ARDUOUS JOURNEY.

[By Gordon Makoyana—(Continued from the Expedition.)]

The Chevrolet Expedition, consisting of eight motor cars and a motor truck, which is en route to the Cape Town to Stockholm via Cairo and London, is now in Nairobi and there about half of what is perhaps the most arduous and dangerous part of the journey has been completed. As every one knows, we should have to do it by sea, but the Cape to Stockholm via Cairo and London is a much shorter and more comfortable route. The only difficulty is that the sea route is not so direct as the land route. The sea route is not so direct as the land route. The sea route is not so direct as the land route.

At Nairobi, however, it has been decided to go by land. The sea route is not so direct as the land route. The sea route is not so direct as the land route. The sea route is not so direct as the land route. The sea route is not so direct as the land route.

At Nairobi, however, it has been decided to go by land. The sea route is not so direct as the land route. The sea route is not so direct as the land route. The sea route is not so direct as the land route. The sea route is not so direct as the land route.

Where Life is in Peril

Kohlers are used

FEATURES OF KOHLER AUTOMATIC ELECTRIC PLANTS

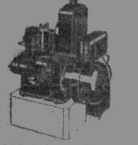

NO. 10000 BATTERIES.—Closely built and dust-tight batteries in glass jars are almost noiseless. The only battery with the KOHLER automatic is a small motor car type also for starting the engine. This starting battery is kept automatically charged so as to be ready at all times for duty.

AUTOMATIC START AND STOP.—The engine is started automatically when any lamp, motor or appliance in the circuit is turned on—it stops automatically when the last one is turned off. Fuel is available at full voltage at all times, at low demand load.

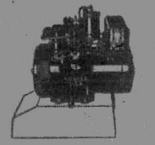

OPERATIVE COSTS REDUCED.—The amount of fuel used is controlled by an automatic regulator operated by the governor. Only small amounts are consumed at small loads, larger amounts at the full increases. Thus the plant operates economically at all times.

EASY TO PAY FOR.—You can have a Kohler Electric Plant immediately if you take advantage of the convenient pay ment plan.

Write us now for details.

Kohler Automatic, Model D 1500-watt; 110-volt, D. C.

Kohler Automatic, Model S 500-watt; 110-volt, D. C.

Where the safety of human life depends upon unflinching light Kohler automatic electric lighting plants are used.

The U.S. Government have chosen Kohlers to light air mail beacon towers at night that guide the night fliers safely over their routes.

Kohlers are used in lighthouses, lightships, in mines, war and navy departments, hospital operating rooms. Here are tasks where none but the most dependable plants could serve—for without light, lives would be in peril.

In Kenya too, where absolute dependability is essential and efficiency and economy necessary, Kohlers are being selected, replacing the old storage battery type of lighting outfit.

The highest electrical and engineering authorities where independent or auxiliary electric lighting plants are required.

BENBOW'S MIXTURE advertisement

LADIES' FASHIONS

A Letter from Paris

This evening walking suit in materialation height, long coat, with collar, long and slender skirt of navy and white tulle, and very soft long concrete.

For a lady, however, the most fashionable color is a light beige, which is a slightly lighter shade than the beige. There is, in fact, no such thing as a white beige.

A SATURDAY EVEN DRESS. Fashionable and appealing. It is a simple dress, with a high collar, and a long skirt. It is made of a light material, and is very comfortable to wear.

PARFUMS IN DISGRACE. There was a time when perfumes were in vogue, but now they are in disgrace. This is due to the fact that they are no longer fashionable.

There are many different styles of hats, and each one has its own charm. The most popular style is the wide-brimmed hat, which is very fashionable at the moment.

TO WEAVE A SUIT. It is not easy to weave a suit, but it is not impossible. It requires a lot of skill and patience, but the result is worth the effort.

THE NEW DRESS. The new dress is very different from the old one. It is more simple and practical, and it is more comfortable to wear.

THE NEW HAT. The new hat is very different from the old one. It is more simple and practical, and it is more comfortable to wear.

NEED FOR PRESERVING THE COLONY'S FORESTS.

An Interesting Discussion by the Convention. A NATIONAL ASSET. The Appointment of Honorary Forestry Officers Advocated.

A long discussion on forestry policy in Kenya took place at the opening meeting of the Convention of Associations on Monday.

It was stated that the Government was agreed as to the principle embodied in the resolution, but that shortage of staff was the difficulty.

The Convention was of opinion that the position might be improved by local officers being appointed to honorary posts.

A SHORTAGE OF STAFF.

The report of the Forests Department was discussed at the Convention of Associations yesterday.

Mr. Conroy Harney proposed the motion standing in the name of the Honorable Forestry Officer for Kenya and Uganda.

The Convention was of opinion that the position might be improved by local officers being appointed to honorary posts.

It was stated that the Government was agreed as to the principle embodied in the resolution, but that shortage of staff was the difficulty.

FOR DINNER.

THE AGRICULTURAL EDUCATION OF AFRICANS.

Committee's Recommendations as to Future Organisation.

COMPULSORY TRAINING.

The Committee's recommendations as to the future of the agricultural education for Africans are set out in the table at the end of this report of the Kenya Legislative Council.

The report was submitted to the Committee appointed to consider and advise as to the future of the agricultural education for Africans and the funds from which such education should be drawn.

The Committee's recommendations are set out in the table at the end of this report of the Kenya Legislative Council. The Committee's recommendations are set out in the table at the end of this report of the Kenya Legislative Council.

Pulverized Limestone.
 PRICE 20/- per ton in bulk
 25/- in 100 cwt. quantities
 Bagged at 30/- per ton
 Over 500 Tons Stocked at Merch Store
 Sample sent on application
 From R. H. WALKER,
 District Representative.

The Committee's recommendations are set out in the table at the end of this report of the Kenya Legislative Council. The Committee's recommendations are set out in the table at the end of this report of the Kenya Legislative Council.

Proposed Scheme.
 Under the scheme now proposed by the Committee the native boys would be educated in a primary school, and then in a secondary school, and then in a tertiary school, and then in a university.

The Agricultural Education of Africans.

(Continued from page 58).

at all secondary schools for native boys should be given by qualified teachers, and that the number of such teachers should be increased.

(4) The Government should give more advanced agricultural training to boys between the ages of about 14 and 17 years of age who have been selected for it.

(5) The Government should give the necessary instruction in agriculture to native teachers who are in training, so that they may take charge of agricultural schools.

(6) To inspect the agricultural work done at secondary schools in the neighbourhood of the main centres of population.

The Committee would emphasize that the essential feature of such instruction should be a knowledge of the nature and methods of agriculture. It would not be desirable for a simple Native Institute to give practical attention to all the boys in a secondary school. It is suggested that the simple agricultural training to the boys between 12 and 16 years of age should be given to native teachers who have been trained as competent.

provision for the training of native teachers in agriculture. The Government should give more advanced agricultural training to boys between the ages of about 14 and 17 years of age who have been selected for it.

The Economic Side.
 We desire to stress the importance of teaching native the economic side of agriculture. It is not enough to teach the technical side of agriculture, but it is equally important to teach the economic side of agriculture.

We are of the opinion that fees should be charged to all pupils who enter a higher agricultural training institution, but at the same time we consider it essential that the salary attached to the posts for which these natives seek to qualify should be such as will attract a good class of native and give him an opportunity of working for a few years before he enters a tertiary institution. We are of the opinion that fees should be charged to all pupils who enter a higher agricultural training institution, but at the same time we consider it essential that the salary attached to the posts for which these natives seek to qualify should be such as will attract a good class of native and give him an opportunity of working for a few years before he enters a tertiary institution.

ASEPTIC SKIN OINTMENT

For all skin ailments, including eczema, itching, and rashes. It is a powerful antiseptic and soothes the skin.

THE RAINS BEAUTIFY NAKURU.

But Lead to a Transport Problem.

THE COST OF LIVING COMMISSION

Excess on Price of Sugar and Bread.

Reference on Price of Sugar and Bread.

The Commission has reported that the price of sugar has risen from 10/- to 12/- per cwt. and the price of bread from 1/6 to 1/8 per loaf. This is due to the high cost of transport and the fact that the Government has not been able to import enough to meet the demand.

A tooth

For all dental work, including extractions, fillings, and dentures. We use the latest methods and materials to ensure the best results.

STEEDMAN'S POWDER

For all household cleaning purposes. It is a powerful detergent and leaves surfaces sparkling clean.

ROBEY & CO. ENGINEERS

For all mechanical work, including repairs and maintenance of machinery. We have a large stock of spare parts and can supply them at short notice.

RECKLESS MOTORING IN KAMPALA.

Several accidents have occurred in Kampala due to reckless driving. The police have issued a warning to drivers to be more careful and to obey the traffic rules.

CHAMBER OF COMMERCE

Against Speed Limits.

The Chamber of Commerce has petitioned the Government to reduce the speed limits on the main roads in Kampala. They argue that the current limits are too low and cause unnecessary delays.

1500 c.c. ALFA ROMEO BEATS ALL COMERS IN THE ITALIAN 1000 MILE ROAD RACE

ON

SHELL OIL AND PETROL.

Only 50 cars took part in this great road-race from Brescia to Rome and back—including 5000 c.c. 2000 c.c., and 2000 c.c. models.

A 14 litre 1500 c.c. Alfa Romeo beat them all in the fast time of 19 hours 14 mins 53 4/5th secs. Alfa Romeos also filled the 2nd, 3rd, 4th, 5th, 6th and 10th places in the 1500 c.c. class—all on Shell Oil and Petrol. Eight Alfa Romeos were entered, eight finished.

Three 5 cars averaged 70 m.p.h. for 50 miles in the speed test.

Shell Petrol supplied the power. Shell oil, with its 100 per cent margin of lubricating efficiency, enabled the engines to withstand the terrific strain of continuous high speed.

MATERIAL FOR AMERICA'S AFRICAN HALL

Preparative for Liverpool and Impala Groups.

The American Museum of Natural History, New York, has received from the Government of the Union of South Africa a large quantity of material for the purpose of erecting a hall in the city of New York. The material consists of a large quantity of skins of animals, including a large number of the skins of the lion, which are of exceptional quality. The skins are to be used for the purpose of illustrating the history of the lion in Africa, and the material is to be placed in a hall which is to be known as the American Museum of Natural History's African Hall.

The skins are to be used for the purpose of illustrating the history of the lion in Africa, and the material is to be placed in a hall which is to be known as the American Museum of Natural History's African Hall. The skins are of exceptional quality, and the material is to be placed in a hall which is to be known as the American Museum of Natural History's African Hall.

A Pioneer.

The enterprise is made the more interesting by the fact that it is the leading personality in Mr. J. L. Clark, the Assistant Director of the American Museum of Natural History, and a former animal photographer and hunter in Kenya Colony. He was first in Africa taking big game pictures with Mr. A. Haddad, the famous big game hunter, in 1908, and has since then been a pioneer in the field of big game photography.

A New Expedition.

For the advancement of the study of the history of the lion in Africa, Mr. Clark is organizing a new expedition to the interior of the continent. The expedition is to be led by Mr. Clark, and is to be known as the American Museum of Natural History's African Expedition.

CALL FOR REDUCED INLAND LETTER RATES

Convention Criticism of the Post Office.

The Post Office Convention, which is being held in London at the present time, has been criticized for its failure to reduce the inland letter rates. The convention is being held at the Post Office, and is attended by representatives of the Post Office and the public.

The inland letter rates are being criticized for being too high, and for being too unequal. The inland letter rates are being criticized for being too high, and for being too unequal. The inland letter rates are being criticized for being too high, and for being too unequal.

The Aero Club.

The Aero Club of Kenya has been formed, and is now open for business. The Aero Club of Kenya has been formed, and is now open for business. The Aero Club of Kenya has been formed, and is now open for business.

Telegraphic Errors.

The telegraphic rates are being criticized for being too high, and for being too unequal. The telegraphic rates are being criticized for being too high, and for being too unequal. The telegraphic rates are being criticized for being too high, and for being too unequal.

THE P.M.O. Replies.

The Postmaster General has replied to the criticisms of the inland letter rates. He has stated that the inland letter rates are being criticized for being too high, and for being too unequal. He has stated that the inland letter rates are being criticized for being too high, and for being too unequal.

The inland letter rates are being criticized for being too high, and for being too unequal. The inland letter rates are being criticized for being too high, and for being too unequal. The inland letter rates are being criticized for being too high, and for being too unequal.

ROAD-MAKING DIFFICULTIES IN THE COLONY

What is Being Done to Effect an Improvement in Destructive Lorries.

During the past few months the Public Works Department has been busy with the problem of road-making in the Colony. The main difficulty has been the destructive nature of the lorries used for transport.

Mr. J. H. M. (Mr. M. J. H. M.) has been appointed to investigate the matter. He has found that the main cause of the damage is the excessive weight of the lorries.

Mr. M. J. H. M. has recommended that the weight of the lorries should be limited to a certain amount. This would help to reduce the damage to the roads.

The P.W.D. Com. has decided to adopt Mr. M. J. H. M.'s recommendations. This will help to improve the condition of the roads in the Colony.

It is hoped that these measures will result in a more efficient road-making process and a longer life for the roads in the Colony.

RAVAGES CAUSED BY GAME IN THE SETTLED AREAS.

Country's Economic Prosperity Threatened by Wild Animals.

The Government has received a report from the Game Department regarding the damage caused by wild animals in the settled areas. The report states that the damage is becoming increasingly serious.

The Game Department has been asked to take steps to reduce the damage. It is suggested that the Government should consider the possibility of introducing a game law.

It is hoped that these measures will help to protect the country's economic prosperity and the settled areas from the ravages of wild animals.

The Government is also considering the possibility of introducing a game law to regulate the hunting of wild animals in the settled areas.

It is hoped that these measures will help to protect the country's economic prosperity and the settled areas from the ravages of wild animals.

CONTINENTALS REQUEST.

Priority Duty of the Game Department The Protection of Farms.

The Continental Bank has requested the Game Department to take steps to protect the farms in the settled areas from the ravages of wild animals.

The Game Department has agreed to the request. It will take steps to protect the farms from the ravages of wild animals.

It is hoped that these measures will help to protect the Continental Bank's farms and the settled areas from the ravages of wild animals.

The Game Department has also been asked to take steps to protect the farms from the ravages of wild animals.

It is hoped that these measures will help to protect the Continental Bank's farms and the settled areas from the ravages of wild animals.

CONVENTION DELEGATES.

Mr. M. J. H. M. (Mr. M. J. H. M.) has been appointed to represent the Colony at the Convention.

Mr. M. J. H. M. will represent the Colony at the Convention. He will be accompanied by Mr. J. H. M. (Mr. J. H. M.).

It is hoped that Mr. M. J. H. M. will represent the Colony well at the Convention.

The Convention will be held in London. It will be attended by delegates from all the Colonies.

It is hoped that the Convention will be a success.

The Convention will be held in London. It will be attended by delegates from all the Colonies.

DECISIVE PHASE IN THE WAR IN CHINA.

Wholesale Flight of the Northern Army.

NEW GOVERNMENT IN PEKIN.

Famous War Lord Reported to have Been Killed by a Bomb.

Beiping, June 2. (By Wireless.)—The flight of the Northern Army from the capital has now become wholesale. The army is reported to have fled in all directions, leaving the city in the hands of the Chinese forces. The flight is believed to be the result of a bomb explosion which is reported to have killed the famous war lord, Sun Chuanfang.

LAND TRUSTS BILL CRITICISED.

"Encroachment on Naive Reserves."

(STANDARD) CORRESPONDENT. London, May 31. The Land Trusts Bill, which the Government have introduced into the House of Commons, has been criticised by the Opposition as an encroachment on the naive reserves of the country.

The bill is said to have been introduced into the House of Commons on Monday, May 31. It is a measure which would give the Government power to acquire land for public purposes.

The bill is said to have been introduced into the House of Commons on Monday, May 31. It is a measure which would give the Government power to acquire land for public purposes.

ROAD AND RAILWAY COMPETITION.

The Convention Urges a Committee of Enquiry.

The Convention of the East African Road and Railway Association, which met in London on the 2nd inst., has recommended that a committee of enquiry be appointed to investigate the possibility of a road and railway competition in East Africa. The committee is to be appointed by the Government of the United Kingdom, and its terms of reference are to be as follows:—

"To inquire into the possibility of a road and railway competition in East Africa, and to report thereon to the Government of the United Kingdom."

The Convention also recommended that the Government of the United Kingdom should be asked to consider the possibility of a road and railway competition in East Africa, and to take such steps as may be necessary to bring about such a competition.

The Convention also recommended that the Government of the United Kingdom should be asked to consider the possibility of a road and railway competition in East Africa, and to take such steps as may be necessary to bring about such a competition.

"How did you sleep?
You certainly look fine!"

It is the way
the body reacts to
the new life through our veins
that makes the difference
between a healthy and
an unhealthy life.

Sanatogen infuses into the cells of blood
and nerves each of those elements—phosphorus
and albumin—from which healthy
body and nerve strength are derived.

There 2,000 physicians have written on
this subject letters about the success they
realized with Sanatogen.

EMPIRE DAY AT
ELDORET.
Address to Children
on Patriotism.

By A. G. ...

The children of the Empire
are the children of the future.
It is their duty to be loyal
to the Empire and to the
King. They should be taught
to love their country and
to be proud of their
heritage. They should be
taught to work hard and
to be honest. They should
be taught to respect the
law and to be obedient to
their parents and their
teachers. They should be
taught to be brave and
to be true. They should
be taught to be kind and
to be generous. They
should be taught to be
patriotic and to be loyal
to the Empire.

A Visit to B.P.

The children of the Empire
are the children of the future.
It is their duty to be loyal
to the Empire and to the
King. They should be taught
to love their country and
to be proud of their
heritage. They should be
taught to work hard and
to be honest. They should
be taught to respect the
law and to be obedient to
their parents and their
teachers. They should be
taught to be brave and
to be true. They should
be taught to be kind and
to be generous. They
should be taught to be
patriotic and to be loyal
to the Empire.

Sports Programme.

The sports programme
for the day was very
successful. The children
participated in a variety
of games and sports.
The programme was
well organized and the
children enjoyed it very
much. The sports
programme was a great
success and the children
were very happy to
participate in it.

The Brothers ...

The brothers ...
were very kind and
helpful. They showed
us around the building
and explained the
different parts of it.
They were very patient
and answered all our
questions. We were
very grateful to them
for their help and
guidance.

WEDNESDAY, JUNE 9, 1938

The children of the Empire
are the children of the future.
It is their duty to be loyal
to the Empire and to the
King. They should be taught
to love their country and
to be proud of their
heritage. They should be
taught to work hard and
to be honest. They should
be taught to respect the
law and to be obedient to
their parents and their
teachers. They should be
taught to be brave and
to be true. They should
be taught to be kind and
to be generous. They
should be taught to be
patriotic and to be loyal
to the Empire.

KENYA GOVERNMENT'S CLOSER SETTLEMENT PROPOSALS

Selected Land in Kitale and Thomson's Falls Areas.

THREE SCHEMES.

The Conditions under Which Farms May be Taken up.

A summary of the Government's closer settlement proposals are laid on the table at the recent session of the Legislative Council.

There are three schemes—(a) providing for 48 small holdings on the outskirts of Kitale to be allotted either to selected local applicants and to selected applicants with little or no capital, but for 20 farms in the

Plans for receiving selected applicants and arranging for their settlement are set out in the memorandum the main points in which are given below.

SELECTING THE APPLICANTS.

Considerable areas of Crown land available for settlement and suitable for small scale farming and in some cases for light intensive use, together with financial assistance provided by the Imperial Overseas Settlement Department and that not provided locally, proposed to be made available for settlement in the Thomson's Falls and Kitale areas.

At least 20 per cent of the population in this section should be in a position to obtain land... the Government of the Colonies is not before taking the necessary steps.

The proposal is to lease 20 per cent of the 1,000 acres in the Land Bank in the case of interest lease.

Selection Board

The administration of the scheme provided for in the memorandum is to be carried out by a Selection Board, which will be composed of the following members: Mr. A. B. H. ...

Scheme A

A reservation is made on the outskirts of Kitale Township of 48 small holdings averaging approximately 200 acres which should be allotted alternately to selected local applicants and to selected applicants with little or no capital, but for 20 farms in the Thomson's Falls and Kitale areas.

LIPTON'S TEA

Acres don't mean money unless—

THE mere fact that a farmer is large is no guarantee of money producing power. Acreage without proper machinery, little or nothing. A comparatively small farm which is thoroughly cultivated may be more profitable than a large one which is neglected and wastes.

The problem of a farmer is to get the most out of his acres. For this there is many processes, methods are either using one or other of them, but the best way is to use the most of them in a valuable way, and for getting parties.

MASSEY-HARRIS FARM EQUIPMENT

There is no doubt but that eventually the tractors will do a large extent of work with animal power on the farms. And those who are considering this form of power will be well advised to send for particulars of the Wallis Tractor which is manufactured by the Massey-Harris Company Limited.

There is some specially interesting literature dealing with the Wallis Tractor which we shall be happy to send you upon request. Will you write for it to-day?

- Massey-Harris manufactures a complete line of Farm Equipment, including: Single Furrow Plough, Two and Three Furrow Oxen Ploughs, Disc Ploughs, Heavy Breaking Ploughs, Subsoil Ploughs, Ribbed Ploughs, Tractor Ploughs, Potato Machinery, Disc Harrows, Drag Harrows, Platters, Drills, Seeders, Cultivators, Pickers.

- Massey-Harris implements have a world wide reputation for the excellent service they give. Mowers, Rakes, Binders, Reaper Trimmers, Straw cutters, Balers, Silage Cutters, Grinders, Pump Sprayers, Disc Harrows, Sowing Machines, Seeders, Platters, Pickers.

KENYA GOVERNMENTS CLOSER SETTLEMENT PROPOSALS.

The Government of Kenya has issued a white paper on the subject of closer settlement proposals. The proposals are designed to encourage the settlement of European farmers on the land available in the Kenya Territory. The Government proposes to set aside a certain amount of land for the purpose of closer settlement, and to offer this land to European farmers on a leasehold basis. The proposals are subject to certain conditions, and the Government reserves the right to cancel the lease if the farmer fails to comply with the conditions. The proposals are designed to encourage the settlement of European farmers on the land available in the Kenya Territory, and to provide a means of increasing the production of agricultural products in the Territory.

THE NATIVE POLICIES OF EASTERN AFRICA. No. 1. THE THREE UGANDA AGREEMENTS. Constitutional Bases in Buganda, Toro and Ankole Provinces. The four important peoples in Uganda, the Baganda, Batooro, Banyankole and Bunyoro are the protagonists of a highly developed national constitution supported by established traditions. In the case of Buganda, Toro and Ankole, Agreements were entered into between the native rulers and the British Administration by which these conditions were preserved and the most advanced system of native government in the East Africa Protectorate. THE EXPERIMENT IN BUSOGA. It is well known that the British Government in Uganda has been largely successful in its policy of closer settlement. The Government has succeeded in securing the settlement of European farmers on the land available in the Kenya Territory. The Government has succeeded in securing the settlement of European farmers on the land available in the Kenya Territory. The Government has succeeded in securing the settlement of European farmers on the land available in the Kenya Territory.

McCORMICK-DEERING.

In 1831, in a Virginia grain field, Cyrus Hall McCormick tried his great invention, the wonderful reaper he had built on an anvil in the farm blacksmith shop.

Three years from this present year, 1931, the history, the reputation, the accumulated skill and experience of the International Harvester Company will reach the century milestone and celebrate one hundred years of farm machine progress.

McCormick-Deering farm machines are made up through the years with agriculture. After the first of the world's great reapers, the McCormick-Deering reaper, the McCormick-Deering tractor, the McCormick-Deering combine, the McCormick-Deering plow, the McCormick-Deering harrow, the McCormick-Deering mower, the McCormick-Deering conditioner, the McCormick-Deering baler, the McCormick-Deering stacker, the McCormick-Deering trailer, the McCormick-Deering wagon, the McCormick-Deering truck, the McCormick-Deering bus, the McCormick-Deering car, the McCormick-Deering motorcycle, the McCormick-Deering airplane, the McCormick-Deering boat, the McCormick-Deering motorboat, the McCormick-Deering launch, the McCormick-Deering yacht, the McCormick-Deering motor yacht, the McCormick-Deering speedboat, the McCormick-Deering powerboat, the McCormick-Deering outboard motor, the McCormick-Deering inboard motor, the McCormick-Deering diesel engine, the McCormick-Deering gasoline engine, the McCormick-Deering electric motor, the McCormick-Deering hydraulic pump, the McCormick-Deering hydraulic cylinder, the McCormick-Deering hydraulic hose, the McCormick-Deering hydraulic fitting, the McCormick-Deering hydraulic valve, the McCormick-Deering hydraulic filter, the McCormick-Deering hydraulic accumulator, the McCormick-Deering hydraulic reservoir, the McCormick-Deering hydraulic pump, the McCormick-Deering hydraulic cylinder, the McCormick-Deering hydraulic hose, the McCormick-Deering hydraulic fitting, the McCormick-Deering hydraulic valve, the McCormick-Deering hydraulic filter, the McCormick-Deering hydraulic accumulator, the McCormick-Deering hydraulic reservoir.

RUGYBY IN SOUTH AFRICA.

Tour of the New Zealand Team.

EARLY PREPARATIONS.

STANDARDS GOSSIP.
It is expected that the tour of the New Zealand team will be completed by the end of the month.

Tactics of South African.

The South African game is a conventional one following broad lines. The players are not so much concerned with the physical side of the game as the English players. The game is more of a tactical one, and the players are more concerned with the strategy of the game.

LATEST DESIGNS IN FLORAL GEOMETRIC.

With equal measure, and a remarkably open one. And we must leave it at that.

A Powerful Team.

With a South African side, the team of All Blacks will be a powerful one. The players are well trained and have a great deal of experience. They will be a team to be feared.

THE ADELPHI FINISHING.

Printed all over the case.

THE NAVAL VISIT.

Arrangements for July.

LARGE PARTY.

The Naval Entertainment Committee has received an order from the Admiralty for a large party to be given in July.

LADIES' FASHIONS

El Letter from Paris

BY YVONNE BAZZANI

As the fashion world moves from the ultra-modern to the ultra-classical, the gown of tulle black chiffon with yoke of transparent black lace and black lace edges the skirt, which is cut with the fashionable forward movement and the attractive skirt.

It is to be remarked that the fashions of the past few years have been very different from those of the past few years. The dresses have been very different from those of the past few years. The dresses have been very different from those of the past few years.

It is to be remarked that the fashions of the past few years have been very different from those of the past few years. The dresses have been very different from those of the past few years.

For festive occasions—a gown of tulle black chiffon with yoke of transparent black lace and black lace edges the skirt, which is cut with the fashionable forward movement and the attractive skirt.

It is to be remarked that the fashions of the past few years have been very different from those of the past few years. The dresses have been very different from those of the past few years.

Another new fabric—Kashmir—materializes this winter dress. The ladies are advised to suggest a shapely skirt of stone and white crepe fabric.

A FISH AND POTATO DISH
A good dish for the family.

Three varieties of the scarf collar, and that of the prettiest. Sweep across the chest and find an one side arranged with careful negligence. All tied in front or behind over the neck with ends hanging—the scarf collar is seen on most of the newest frocks.

It is to be remarked that the fashions of the past few years have been very different from those of the past few years. The dresses have been very different from those of the past few years.

Twenty Years Ago

Twenty years ago the East African Standard was published in 1904. It was a small paper, but it was the only one of its kind in the East.

It is to be remarked that the fashions of the past few years have been very different from those of the past few years. The dresses have been very different from those of the past few years.

POULTRY NOTES

Grading.

I have had numerous requests from poultry farmers concerning the advisability of grading of their chickens. I have always spoken against the practice, and I still do so. I believe that the best way to improve the quality of poultry is by selecting the best birds and breeding from them.

The "Edinburgh"

The H.M.S. "Edinburgh" is a fast and powerful ship. It is one of the best of its kind in the world.

A Long Walk

During the last few years, there has been a long walk in the world. It is a long and difficult journey, but it is worth the effort.

Keeps Poultry Clean

Keeps Poultry Clean is a new product that will keep your poultry clean and healthy. It is a must for every poultry farmer.

THE "KENYARADO" SERVICE

To be Opened on June 15.

The British East Africa Postal Corporation will be opened on June 15. It will provide a postal service between Kenya and the United Kingdom.

Statutory Texts

The laws of Kenya are being compiled into a statutory text. This will be a valuable reference for all those who are interested in the law of Kenya.

Delimiting Camps

The delimiting of camps in Kenya is a matter of great importance. It is necessary to ensure that the camps are properly delimited.

Galle Sales

The Galle sales in Kenya are a source of income for the Government. It is necessary to ensure that the sales are properly conducted.

THE EAST AFRICAN BOOKSHELF.

No. 2.

"KENYA FROM WITHIN"

A Gesticulating Figure on a Pedestal: A Historian Who Missed His Opportunity.

Among recent books which have attracted attention, is M. W. McGeorge's book "Kenya from Within."

Had the author confined himself to the facts of history, his observations would have been in many respects judicious—when judged by worldly standards and principles.

But the author's own remains of a missed opportunity, an opportunity which a historian and a gesticulating little figure unconsciously forfeited on the numerous occasions of the East Imperial Department of Kenya administration.

The book is based on the "Kenya" series of the "East African" magazine. It is a book which will serve as a guide to five new books which have appeared within the last year, books which should not pass unnoticed in East Africa and have a special value in their value and in the qualifications of their authors for the work they have undertaken. One book which has been the subject of much criticism is from the pen of an official in the Kenya Service, another presents pages from the life of a notable figure whose life was lived in conditions suitable to a student in the Kenya Service and a third is a book which is a study in the life of a notable figure whose life was lived in conditions suitable to a student in the Kenya Service.

social studies and differences of their country. The book has one of its qualities a historical enthusiasm extending to a certain extent, and a certain amount of personal opinion and description. Mr. McGeorge has largely to show that he qualifies a non-practical person, a person whose observations are confined to the immediate surroundings of his own country, and who is not likely to be able to give a general view of the country as a whole. The author's observations are confined to the immediate surroundings of his own country, and who is not likely to be able to give a general view of the country as a whole.

A Missed Opportunity.
Had Mr. McGeorge been best advised expressed in the elements of historical writing, even a temporary African history, a historical study, would have been a valuable contribution to the knowledge of the country. It is a pity that the author did not take advantage of the opportunity which was offered to him to write a book which would have been a valuable contribution to the knowledge of the country.

THE EAST AFRICAN BOOKSHELF.

Choose All Drinks

There is a wide choice of drinks available in the East African Standard. The most popular of these is the Scotch Whisky, which is known for its quality and economy. The Scotch Whisky is a blend of the finest malted barley and wheat, and is aged for a long period in oak casks. This gives it a rich, smooth flavor and a long, lasting character. It is a drink that is enjoyed by all, and is a staple of the East African Standard.

Scoring Greatest Success in All Chrysler History

CHRYSLER

Counterweighted 7-bearing Crankshaft and Rubber Spring Mountings Made Possible for the First Time at Such Prices

Most unusual, even for Chrysler, has been the reception given to the illustrious New "72".

But no other result could have been possible, because no other car combines such rare quality and value.

Before the "72" car in its class or even in the more expensive group provided counterweighted 7-bearing crankshaft in a 75-horsepower engine spring ends anchored in blocks of live rubber; and long, roomy, handsome bodies in such correct taste.

Every Chrysler dealer is eager to show you the illustrious New "72", to put it through its paces. Only by riding in it and driving on your familiar roads with this new performance, can you be certain that it is responsible for the greatest success in all Chrysler history.

What you expect of your tyres

Budget in Royal Cords ROYAL CORDS have built their reputation by actually giving the mileage, comfort and service you expect—and, in many cases, more.

Latex-treated Web Cord is one of the patented processes used in the manufacture of Royal Cords. This and other improvements in tyre building, are responsible for the long-wearing, easy-riding qualities of Royal Cord Tyres.

Fit Royal Cords and get the fullest satisfaction from your tyres.

Deputing to B.K.

The East African Standard has been deputing to the B.K. for the past few weeks...

An Important Issue

The issue of the B.K. is one of the most important in the country at the moment...

It is a matter of some importance that the B.K. should be able to function as a normal body...

At a meeting held on June 7, 1956, the members of the B.K. discussed the various issues...

The B.K. has been deputing to the East African Standard for the past few weeks...

Mr. Thirion asked whether Mr. Morrison thought the whole thing was a bit of a farce...

Mr. Morrison replied that he thought the whole thing was a bit of a farce...

Mr. Thirion asked whether Mr. Morrison thought the whole thing was a bit of a farce...

Mr. Morrison replied that he thought the whole thing was a bit of a farce...

UNIVERSAL DOC TAX OPPOSED.

Convention in Favour of Better Control.

In the Convention of Associations of Tuesday, June 7, E. Benoit (Rabat) said that the Government had been asked by the U.S.B.P.A. to bring forward a resolution on the subject of the levying of Doc. The resolution was as follows: 'That the Convention urges the Government to undertake the study of the possibility of levying a state tax on the import of a state double tax on goods, provided that the levying of such a tax is to be on the basis of the amount of the goods imported, and not on the basis of the value of the goods imported.'

Mr. Thirion asked whether Mr. Morrison thought the whole thing was a bit of a farce...

Mr. Morrison replied that he thought the whole thing was a bit of a farce...

POLICE TRANSPORT IN KENYA.

Males Cannot Keep Pace with Crime.

The Chief Minister's resolution to the effect that police transport should be provided was discussed by the Convention of Tuesday, June 7, 1956. The resolution was as follows: 'That the Convention urges the Government to undertake the study of the possibility of providing police transport for the police force, provided that the provision of such transport is to be on the basis of the amount of the goods imported, and not on the basis of the value of the goods imported.'

Mr. Thirion asked whether Mr. Morrison thought the whole thing was a bit of a farce...
