Trains in Collision.

REVENUE OFFICE AGENCY
Washington, June 27.
The Revenue Office Agency, which has been established in London, is now open for business. It is a private enterprise, and its object is to provide a service to the public in connection with the collection of taxes and duties.

THE AGONY OF THE GREAT BRITISH MACHINE.
The British machine industry is in a state of great distress. The output of the industry has fallen to a very low level, and the industry is facing a severe crisis. The cause of this is the competition from foreign countries, which are producing machines at a lower cost than the British industry.

FAMOUS COLLECTION OF NAVAL PRINTS.
The collection contains in all 100 prints, and is a valuable addition to any collection of naval history. The prints are of various sizes, and are of great interest to collectors and historians alike.

Identity of Anonymous Donor Revealed.
The identity of the donor of the famous collection of naval prints has been revealed. It is the late Sir James Caird, who was a prominent naval officer and a philanthropist.

Polish Politics.
The Polish government is facing a severe crisis. The opposition is growing, and the government is struggling to maintain its position. The situation is becoming increasingly tense, and it is expected that there will be a change of government in the near future.

RESIGNATION OF THE GOVERNMENT.
The government has resigned, and a new government has been formed. The new government is expected to bring about a period of stability and progress for the country.

U.S. Presidency.
The U.S. Presidential election is drawing near, and the candidates are making their final preparations. The race is expected to be a close one, and it will be watched with great interest by the American people.

Peace in America.
The peace movement in America is gaining momentum. There is a growing feeling of dissatisfaction with the current policy, and many people are calling for a more peaceful approach to international relations.

East-West Flight.
A flight has been made from East to West, and it is expected that this will lead to a new era of air travel. The flight was a great success, and it has shown that air travel is now a practical and comfortable mode of transport.

THE DIRECTOR OF EDUCATION.
The Director of Education has issued a report on the state of education in the country. The report is a valuable document, and it provides a clear picture of the current situation and the challenges that face the education system.

Disarmament Conference.
The Disarmament Conference is expected to be held in the near future. It is a very important conference, and it will be watched with great interest by the world community.

Ceylon University.
The Ceylon University is making progress in its work. The university is a very important institution, and it is playing a vital role in the development of the country.

Standard Stationery Stores.
Standard Stationery Stores is a leading supplier of stationery and office supplies. The company has a wide range of products, and it is known for its quality and reliability.

New Governor of Gibraltar.
A new Governor has been appointed to Gibraltar. The Governor is a distinguished public servant, and it is expected that he will bring a new era of leadership to the territory.

Welfare of Natives at the Coast.
The welfare of the natives at the coast is a matter of great concern. It is important to ensure that the natives are treated fairly and that their rights are protected.

Welfare of Natives at the Coast.

FUTURE OF CIVIL AVIATION IN EAST AFRICA

Services of Flying Boats and Land Machines.

OUTLINE OF PROSPECTS.

London to Nile Delta and Aerial Connection with Cape and System.

It is not only the fact that the future of civil aviation in East Africa is a subject of great interest to the public, but also the fact that the services of flying boats and land machines are being developed in a most interesting manner. The outline of prospects is as follows:—

The first step in the development of civil aviation in East Africa is the establishment of a regular service between London and the Nile Delta. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Cairo. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the Nile valley.

The second step is the establishment of a regular service between London and the Cape. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Cape Town. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the Cape coast.

The third step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The fourth step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The fifth step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The sixth step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The seventh step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The eighth step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

The ninth step is the establishment of a regular service between London and the interior of East Africa. This service is being developed by the Imperial Airways Corporation, which is operating a flying boat service between London and Nairobi. The flying boats are being used for the transport of passengers and mail, and the service is being extended to other parts of the interior.

CENTRAL MANAGER'S REVIEW

Optimistic Forecast of Railway's Finances at End of This Year

The Central Manager's Review for the year ending 31st March 1924, shows that the railway's finances are in a most satisfactory position. The revenue for the year was 1,000,000,000, and the expenditure was 800,000,000, leaving a surplus of 200,000,000. This surplus is being used for the improvement of the railway's infrastructure, and for the purchase of new rolling stock.

The Central Manager is optimistic about the railway's finances for the end of this year. He expects that the revenue will be 1,100,000,000, and the expenditure will be 900,000,000, leaving a surplus of 200,000,000. This surplus is being used for the improvement of the railway's infrastructure, and for the purchase of new rolling stock.

Reliable

Thousands of miles of road mileage prove the dependability of the Dodge.

All Dodge models are built with strong steel bodies, standard motor, and standard equipment.

Handling is admirably sure because of the great leverage started by the steering gear, and the reduced friction resulting from ball-bearing steering systems.

The famous Dodge Brothers "34" motor means quiet, reliable engine performance with exceptional speed, torque, and fuel economy.

Prices from £295

PROGRESS OF CIVIL AVIATION IN EAST AFRICA.

The progress of civil aviation in East Africa has been rapid since the outbreak of the war. The first flight was made in 1914, and since then the number of flights and the distances covered have increased steadily. The Kenya Aero Club, which was founded in 1920, has been instrumental in promoting aviation in the colony. It has organized several expeditions and has been successful in obtaining subsidies from the Government for the purchase of aircraft. The Kenya Aero Club has also been successful in obtaining subsidies from the Government for the purchase of aircraft. The Kenya Aero Club has also been successful in obtaining subsidies from the Government for the purchase of aircraft.

Aren't your clothes well worth a little extra for the BEST SOAP?

The constantly increasing cost of clothes makes it all the more necessary that they should be carefully washed. Clothes lose half their wearing value in the wash-tub unless proper care is taken and pure soap is used.

Don't wash and scrub the life out of the clothes with common, impure soap.

Use Sunlight—it keeps the clothes sweet and clean and as soft as new, and makes them last twice as long.

Leaver Brothers Limited, Fort Sunlight, England.

VOLUNTEERS SUBDUED A KAMPALA PLAZA

Casualties Due to Falls and an Extinguisher

It is reported that all the main buildings in Kampala were closed for a day on Monday, June 14, because of a riot which broke out in the afternoon. The riot was caused by a group of about 500 men who were protesting against the Government's decision to raise the price of rice. The rioters set fire to several buildings and caused considerable damage. The police used tear gas and water cannons to disperse the rioters. There were several casualties, including a woman who was killed when she fell from a building. A fire also broke out in a shop, and it was extinguished by a fire engine. The riot ended in the evening.

AGRICULTURE

BIG INCREASE IN MILK PRODUCTION.

MORE SHEEP Due Largely to Improved Methods.

The increase in milk production in the East African States is due largely to improved methods of rearing and feeding the animals. The Department of Agriculture reports that the total production of milk in the East African States in 1925 was 10,000,000 gallons, compared with 8,000,000 gallons in 1924.

Hope for Advance in Cattle Industry

In a further indication of the progress of the East African States, the Department of Agriculture reports that the cattle industry is showing signs of a steady advance. The number of head of cattle in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Live-stock Industry

The Department of Agriculture reports that the live-stock industry in the East African States is showing a steady advance. The number of head of live-stock in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Natural Live-stock

The Department of Agriculture reports that the natural live-stock industry in the East African States is showing a steady advance. The number of head of natural live-stock in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Poultry

The Department of Agriculture reports that the poultry industry in the East African States is showing a steady advance. The number of head of poultry in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Hides and Skins

The Department of Agriculture reports that the hides and skins industry in the East African States is showing a steady advance. The number of head of hides and skins in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Pig Breeding

The Department of Agriculture reports that the pig breeding industry in the East African States is showing a steady advance. The number of head of pig breeding in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

Export of Native Maize

The Department of Agriculture reports that the export of native maize in the East African States is showing a steady advance. The number of head of native maize in the East African States in 1925 was 1,000,000, compared with 900,000 in 1924.

CHRYSLER EXPEDITION.

Cape to London Tour Successful.

The following report has been received from the expedition of the Chrysler Expedition from Cape to London. The expedition was successful in completing the tour in 100 days, 10 hours and 10 minutes. The expedition was made up of 10 men and 10 cars. The cars were Chrysler cars. The expedition was successful in completing the tour in 100 days, 10 hours and 10 minutes.

The Battery.

MAINTENANCE HINTS TO OWNERS

The specific gravity of the acid in a battery is a good indicator of the state of charge. It is important to check the specific gravity of the acid in a battery regularly. The specific gravity of the acid in a battery should be between 1.200 and 1.250.

GEAR CHANGING.

Often Avoided by Novices.

It is a common mistake for novices to change gears too early. This can cause the engine to lose power and the car to stall. It is important to wait until the engine has reached a certain speed before changing gears. The correct gear should be selected for the speed of the car.

The Proper Method.

The correct method of changing gears is to depress the clutch pedal fully and shift the gear lever to the desired gear. The clutch should be released gradually to allow the car to move forward smoothly. It is important to use the correct foot for each pedal to avoid confusion.

THE NEW CHEVROLET.

Some Additional Improvements.

The new Chevrolet has several improvements over the previous model. These include a new engine, a new transmission, and a new chassis. The new engine is more powerful and efficient. The new transmission is smoother and easier to use. The new chassis is stronger and more durable.

Nickel Plating.

METHOD OF KEEPING IT CLEAN

Nickel plating is a process of electroplating that is used to protect metal surfaces from corrosion. It is a common method for protecting steel and iron. The process involves dipping the metal in a solution of nickel ions and then passing an electric current through the solution. This causes the nickel ions to deposit on the metal surface.

JET CLEANING.

Jet cleaning is a process of cleaning that uses high-pressure water jets. It is a common method for cleaning industrial equipment and machinery. The high-pressure water jets are able to reach into hard-to-reach areas and remove dirt and grime. Jet cleaning is a fast and effective method of cleaning.

OIL

The Life Blood of Your Engine!

Lubricant is as essential to an engine as blood is to the human body. Both must be kept in constant circulation, must retain their qualities under all conditions of heat and cold, and must be free from impurities. Ask the mechanic why an engine loses power, what the cause of overheating, sticking valves, worn rings and bearings, and even excessive carbon deposit. Always the answer is OIL. Further talk of it, using grade, or poor quality.

You can be certain of perfect lubrication by taking the advice of over 230 Leading Motor Manufacturers, who recommend—

McCORMICK-DEERING.

In 1831, in a Virginia grain field, Cyrus Hall McCormick tried out his great invention, the world-famous reaper, which he built on an anvil in the farm blacksmith shop.

Three years from this present year, 1831, the history, the reputation, the accumulated skill and experience back of the International Harvester Company will reach the century milestone and celebrate one hundred years of farm machine progress.

The McCormick-Deering tractor is a powerful and efficient machine, designed for the most demanding farm work. It is built to last and is easy to operate.

TRACTOR PRICES: McCormick-Deering Farmall, £280; McCormick-Deering 10-20 Narrow Tread, £250; McCormick-Deering 10-20 Regular, £250; McCormick-Deering 15-30 Regular, £353.

Good Equipment Makes a Good Farmer Better. The McCormick-Deering tractor is the best investment a farmer can make.

Hot Cakes

THE UNFAILING HOT CAKE is wholesome when made of wholesome ingredients, well mixed, and then baked to a nice golden brown. Hot cakes must be light and fluffy. Lightness comes from proper leavening and the proper leavening for hot cakes is Royal Baking Powder. It is always dependable, always guaranteed pure and wholesome—never leaves a bitter taste and absolutely puts the value of your ingredients and the time you spend in preparing them.

Nairobi Flower Show

Money matters.

The Nairobi Flower Show, which opened on Monday, has been a success. The exhibition, which is being held at the Nairobi Exhibition Grounds, has attracted a large number of visitors. The show is well-attended and the exhibits are of high quality. The organizers are pleased with the response and hope to see a similar success in the future.

MOMBASA PLOT SALE

Postponement Owing to Oversight.

POSTPONEMENT OWING TO OVERSIGHT.

STANDARD CORRESPONDENT. Mombasa, Jan. 1. A plot sale which was to have taken place on Monday at the Mombasa Municipal Council has been postponed owing to an oversight. The sale was to have been held at the Municipal Council Chamber, but the necessary arrangements were not completed in time. The sale will now be held on a later date.

Review of Treasury Office

The Treasury Office, which is located at the Nairobi Municipal Council Chamber, has been reviewed. The review was conducted by a committee of experts and the results were found to be satisfactory. The committee recommended that the office should continue to operate in its present location and that the necessary funds should be allocated to it.

The Coffee Market

The coffee market is showing a steady upward trend. The price of coffee has risen significantly in recent months, and this is expected to continue. The increase in price is due to a combination of factors, including a shortage of supply and an increase in demand.

HOUSING SETTLEMENT SCHEME APPROVED BY LEGISLATURE

Doubts as to Practicability of Small Holdings.

PLEA FOR EX-SOLDIERS.

Details to be Worked out by Representative Body.

Legislature (Special Session). The Housing Settlement Scheme, which was approved by the Legislature, has been the subject of a debate. The members of the Legislature expressed doubts as to the practicability of the scheme, particularly in regard to the small holdings. It was suggested that the details of the scheme should be worked out by a representative body, which would be able to take into account the views of the ex-soldiers who are the primary beneficiaries of the scheme.

PROPOSALS BRIEFLY OUTLINED

The proposals for the Housing Settlement Scheme are as follows: The scheme is designed to provide housing for ex-soldiers and their families. The housing will be provided in the form of small holdings, which will be sold to the beneficiaries at a reduced price. The scheme is expected to benefit a large number of ex-soldiers and their families, and it is hoped that it will help to improve their living conditions.

Committee Work

The committee has been working on the Housing Settlement Scheme. They have held several meetings and have discussed the various aspects of the scheme. The committee is expected to report to the Legislature on their findings and recommendations.

Only the Best

Only the best materials and workmanship are used in the construction of the Housing Settlement Scheme. This ensures that the housing is of high quality and will last for many years. The Housing Settlement Scheme is a landmark project and it is hoped that it will set a standard for future housing projects.

Entertainment

There are several entertainment events planned for the coming months. These include a concert by a local band, a play by a drama group, and a film festival. These events are expected to attract a large number of people and will help to bring the community together.

CORRESPONDENCE

WATER.—The water supply in the various districts of the country is generally poor, and it is necessary to take steps to improve it. The Government has decided to grant subsidies to the various municipalities to enable them to construct waterworks and to lay on pipes. It is expected that the water supply will be improved in the near future.

RAILWAYS.—The railway department has decided to purchase a number of new passenger coaches and goods vans. It is also expected that the railway department will be able to complete the construction of the railway line between Mombasa and Kisumu in the near future.

POST OFFICES.—The Post Office Department has decided to open a number of new post offices in the various districts of the country. It is also expected that the Post Office Department will be able to complete the construction of the new post office building in Mombasa in the near future.

GOVERNMENT.—The Government has decided to take steps to improve the education of the native population. It is also expected that the Government will be able to complete the construction of a number of new schools in the various districts of the country in the near future.

INDUSTRIES.—The various industries in the country are generally thriving, and it is expected that they will continue to do so in the near future. The Government has decided to take steps to improve the conditions of the various industries, and it is also expected that the various industries will be able to complete the construction of a number of new factories in the various districts of the country in the near future.

NATIVE LANDS TRUST BILL

The Native Lands Trust Bill has been introduced into the Legislative Council. The Bill provides for the establishment of a Native Lands Trust, which will be responsible for the management of the native lands. The Bill also provides for the appointment of a Native Lands Commissioner, who will be responsible for the supervision of the Native Lands Trust. It is expected that the Bill will be passed in the near future.

Glorious White Teeth

There is nothing more beautiful than a smile that shows off a set of white teeth. The secret of a bright smile is in the use of Pepsodent tooth powder. It cleans the teeth and whitens them, and it is gentle on the gums. Pepsodent is the only tooth powder that has been tested and approved by the American Dental Association.

EARTH TREASURES IN THE SUB-ARCTICS

By H. H. HARRIS

THE SUB-ARCTIC regions of the world are rich in mineral resources. The discovery of oil in Alaska and Canada has opened up new fields for exploration. The discovery of uranium in the Canadian Northwest has opened up new fields for exploration. The discovery of copper in the Canadian Northwest has opened up new fields for exploration. The discovery of silver in the Canadian Northwest has opened up new fields for exploration. The discovery of gold in the Canadian Northwest has opened up new fields for exploration.

Food and Digestion

Proper food and digestion are essential for good health. The body needs a variety of nutrients to function properly. A diet rich in fruits, vegetables, and whole grains is the best for maintaining good health. Regular exercise and a good night's sleep are also important for good health.

Rid Yourself of Uric Acid!

Uric acid is a waste product of the body that can build up in the joints and cause pain and inflammation. It is the cause of gout and other conditions. There are several ways to rid the body of uric acid, including diet changes and medication. It is important to consult a doctor for proper treatment.

EXTENSION OF DEEP WATER OF AYAGE AT KILINDINI

The extension of deep water at Kilindini is a project of great importance for the port of Mombasa. It will allow larger ships to call at the port, increasing trade and commerce. The project involves the construction of a new pier and the deepening of the harbor. It is expected to be completed within a few years.

The project is being funded by the Government and private investors. It is expected to create many jobs and to boost the local economy.

The project is a major step towards the development of the port of Mombasa. It will allow the port to handle more cargo and passengers, making it a more important center of trade.

LEASING FROM THE GOVERNMENT

The Commission of Leasing has been set up to consider the possibility of leasing Government property for private enterprise. The Commission will consist of a Chairman and four members. It will be required to report to the Government within four months.

Non-Europeans Preferred.
The Government is desirous of encouraging private enterprise in any office which can be entrusted to a non-European. It is therefore desirous of receiving applications from non-Europeans for such offices. Applications should be sent to the Secretary of State for the Colonies, London, E.C.4.

FOR SALE.

1. A small motor car with 4 seats. It is a very good car and is in excellent condition. It is for sale at a very low price.

2. A small motor car with 2 seats. It is a very good car and is in excellent condition. It is for sale at a very low price.

3. A small motor car with 2 seats. It is a very good car and is in excellent condition. It is for sale at a very low price.

PROPOSED AMENDMENTS TO NATIVE LANDS TRUST BILL.

Recommendations of the Select Committee.

CONSIDERING NATIVE COUNCILS.

Deletion of Clause Relating to Leasing of Land in Occupation of Africans.

A feature of the recommendations of the Select Committee to the Native Lands Trust Bill is the deletion of amendments the effect of which will be to afford greater recognition to the native councils in connection with the administration of the Bill.

The deletion of the clause relating to the leasing of land in actual occupation of natives is recommended.

COPIES FOR NATIVE COUNCILS.

The Select Committee has recommended that the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration.

The Select Committee has recommended that the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration.

The Select Committee has recommended that the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration.

The Select Committee has recommended that the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration.

The Select Committee has recommended that the Bill should be sent to the native councils for their consideration and that copies of the Bill should be sent to the native councils for their consideration.

IMPERIAL PREFERENCE AND CONGO BASIN TREATIES.

Mombasa Committee's Views on Present and Future Positions.

NEED FOR REVIEW.

The Mombasa Committee on Imperial Preference and Congo Basin Treaties, which was set up by the Government in 1925, has issued a report on the subject of the Congo Basin Treaties. The report is a valuable contribution to the discussion of the subject, and it is to be hoped that it will lead to a reconsideration of the existing position. The report is a long and detailed one, and it is not possible to do more than give a brief summary of its main conclusions. The Committee has concluded that the Congo Basin Treaties are in need of a complete revision, and that the Government should take steps to secure a new treaty with the Congo States. The Committee also recommends that the Government should take steps to secure a new treaty with the Congo States, and that it should take steps to secure a new treaty with the Congo States.

The Mombasa Committee on Imperial Preference and Congo Basin Treaties, which was set up by the Government in 1925, has issued a report on the subject of the Congo Basin Treaties. The report is a valuable contribution to the discussion of the subject, and it is to be hoped that it will lead to a reconsideration of the existing position. The report is a long and detailed one, and it is not possible to do more than give a brief summary of its main conclusions. The Committee has concluded that the Congo Basin Treaties are in need of a complete revision, and that the Government should take steps to secure a new treaty with the Congo States. The Committee also recommends that the Government should take steps to secure a new treaty with the Congo States, and that it should take steps to secure a new treaty with the Congo States.

Reliable

DODGE BROTHERS MOTOR CARS

Sunlight Soap

for all household uses.

DEARER CLOTHES give an added importance to the Sunlight Guarantee to-day.

\$1000
GUARANTEE
OF PURITY
on every tablet

Consider well ... the money saved by using Pure Soap.

The constantly increasing cost of clothes makes it all the more necessary that they should be carefully washed. Clothes lose half their wearing value in the wash tub unless proper care is taken and pure soap is used. Laxet rub and scrub the top and the clothes with common, pure soap.

Use Sunlight—it keeps the clothes sweet and clean and as soft as new, and makes them last twice as long.

IMPERIAL PESTS

LOCUST & CATERPILLAR PESTS.

Efficacious Steps to Deal with Them.

GOVERNMENT QUESTIONS

The main question was referred to the Imperial Pests Commission. The Commission has now issued the following report:

Whether the Government should step in to deal with the locusts and caterpillars is a question which has already been discussed in the past.

The Commission has concluded that the Government should step in to deal with the locusts and caterpillars.

The Commission has also recommended that the Government should step in to deal with the locusts and caterpillars.

The Commission has also recommended that the Government should step in to deal with the locusts and caterpillars.

KOHLER of KOHLER
Automatic Electric Plants—110 Volt D.C.
20 Storage Batteries

Where the safety of human life depends upon unflinching light Kohler automatic electric lighting plants are used.

The U.S. Government have chosen Kohlers to light air mail beacon towers at night that guide the night fliers safely over their routes.

Kohlers are used in lighthouses, lightships, in mines, war and navy departments, hospital operating rooms. Here are tasks where none but the most dependable plants could serve—for without light, lives would be in peril.

In Kenya too, where absolute dependability is essential and efficiency and economy necessary, Kohlers are being selected, replacing the old storage battery type of lighting outfit.

The highest electrical and engineering authorities in Kenya are now recommending Kohlers where independent or auxiliary electric lighting plants are required.

Virginia TOILET SOAP

The softening quality of this soap is the reason why it is so popular.

PRACTICAL ADVICE ON CHILD WELFARE.

The following are the most important points to be observed in the rearing of a child.

THE DEPARTING OF THE MONTHLY PERIOD.

The first of a series of monthly periods is called a *menstruation*. It is a natural process which takes place in the female body at regular intervals. It is caused by the change in the position of the ovary and the uterus. It is a sign of health and vitality. It should be treated with respect and care. It should not be regarded as a disease or a source of shame. It should be explained to the child in a simple and straightforward manner. It should be taught that it is a natural and necessary part of life. It should be taught that it is a sign of womanhood and that it should be treated with dignity and respect.

Shouting calling

calling attention to the **Vest Pocket "Kodak" Model B**

The Vest Pocket "Kodak" Model B is the most popular of all Kodak cameras. It is small, light, and easy to use. It takes 12 pictures on a single roll of film. It is a perfect camera for the traveler, the student, and the amateur. It is a camera that is always ready to take a picture. It is a camera that is always ready to take a picture.

PRACTICAL ADVICE ON CHILD WELFARE.

MAIN ROAD COMPLAINT AT NAKURU.

"Tyre-destroying and Ankle-twisting Trap."

CHARLES CORCORAN, Nakuru, has a complaint against the main road between Nakuru and Nairobi. He complains that the road is in a state of disrepair and that it is a danger to the lives and property of the people who travel on it. He says that the road is full of holes and that it is very difficult to travel on. He says that the road is a "tyre-destroying and ankle-twisting trap." He asks the authorities to take action to improve the road.

A Suggested Programme.

The following is a suggested programme for the improvement of the main road between Nakuru and Nairobi:

1. The road should be widened to 30 feet.
2. The road should be graded to a uniform level.
3. The road should be covered with a layer of gravel.
4. The road should be lined with trees and shrubs.
5. The road should be kept in good repair at all times.

"My Beautiful Skin is due to Kruschen."

Bathing Beauty knows the secret of a Good Complexion.

"I have now used Kruschen Salts for a long time and think it a wonderful thing. I have well, I look and what a beautiful skin I have. I tell them that it is thanks to my wonderful Kruschen Salts. I have just won a second prize in a bathing beauty competition of a leading newspaper. I shall use it always and tell all my friends to do the same."

AGRICULTURE

PROGRESS OF THE WAR ON LOCUSTS.

Enormous Number of Small Swarms: Fresh Hatchings Daily.

A DIFFICULT CAMPAIGN.

Official Report Speaks of "Clever and Resourceful" Young Insects.

The Department of Agriculture has issued a report on the progress of the war against locusts. The report states that the insects are now in the larval stage and are hatching in large numbers. It is estimated that there are now 100,000,000 locusts in the country. The report also states that the insects are very resourceful and are able to hide in places where they are not expected. It is therefore necessary to continue the war against them with all possible vigour.

VETERINARY WORK IN 1927.

The Fight against Stock Diseases.

SOME EXPERIMENTS.

Further experiments in the Department of Agriculture in 1927 were conducted by the Veterinary Officer, Mr. J. M. G. B. The experiments were conducted in the Department of Agriculture, Nairobi. The experiments were conducted in the Department of Agriculture, Nairobi. The experiments were conducted in the Department of Agriculture, Nairobi.

Diarrhoea

Diarrhoea is a common disease of stock and is caused by a variety of bacteria. It is characterized by frequent watery stools. It is often accompanied by fever and depression. It is usually self-limiting but may become fatal if not treated.

Peritonitis

Peritonitis is an inflammation of the peritoneum, the lining of the abdominal cavity. It is usually caused by infection with bacteria. It is characterized by pain, fever, and depression. It is a serious disease and may be fatal.

East Coast Fever

East Coast Fever is a fatal disease of stock caused by a tick. It is characterized by fever, depression, and death. It is a serious disease and is a major cause of stock loss in the East African Highlands.

Other Diseases

Other diseases of stock include Anthrax, Brucella, and Tuberculosis. These diseases are caused by bacteria and are often fatal. They are common in stock and are a major cause of stock loss.

In Native Reserves

In Native Reserves, the Department of Agriculture has been working to improve the health of stock. This has been done by providing veterinary services and by educating the natives on the importance of stock health.

Manpower Warrants

Manpower warrants have been granted to Mr. H. E. I. Brabant to be a magistrate of the second class in the Mombasa District. He will also be a magistrate of the second class in the Mombasa District. He will also be a magistrate of the second class in the Mombasa District.

It is reported that the progress of the war against locusts is slow but steady. The insects are still hatching in large numbers and are causing considerable damage to crops. It is therefore necessary to continue the war against them with all possible vigour.

The report also states that the insects are very resourceful and are able to hide in places where they are not expected. It is therefore necessary to continue the war against them with all possible vigour.

Diagnosis of young cattle from a report on some studies which have been made by the Department of Agriculture. The studies have shown that young cattle are often affected by a disease which is caused by a parasite. The parasite is often found in the soil and is transmitted to the cattle when they graze.

The disease is characterized by fever, depression, and death. It is a serious disease and is a major cause of stock loss. It is therefore necessary to take steps to prevent the disease from spreading.

THE DEBUTANT
FOR THE DEBUTANT

The very fancy-trimmed costume worn by the young girl and which is so much worn during the debutante season is a very elegant and becoming one.

The latest fashion in evening dress is a dress of large plain silk or tulle with a deep V-neck and a high collar.

Black is the popular color for evening dress. Three rows of black ribbon are fastened to the shoulders and hang down the front.

EDUCATION IN UGANDA AS ECONOMIC FACTOR.

The education of the people in Uganda is not only a social and political factor, but also an economic one. It is the only way in which the people can be trained to do the work of the country and to develop the resources of the land.

GROWTH OF THE POST OFFICE IN 1927.

Interesting Items in the Annual Report.

REDUCED RATES; INCREASED REVENUE.

Expansion Which Points to Need for Better Accommodation.

The expansion and development of the Post Office in the East and Telegraph Department of Kenya and Uganda during the past five years is shown in the abstract part of the Department for the year 1927.

Notwithstanding the substantial reductions in rates in the past year, the revenue has increased from £181,727 in 1922 to £269,127 in 1927, an increase being 48 per cent.

In the same period the number of parcels increased from 119,617 to 1,189,942, telephonic installations from 1,196 to 2,191, while an increase of 103 per cent in the volume of correspondence dealt with, the figures being 8,242,803 in 1922 and 14,283,909 in 1927. The number of telegrams has varied from 3,600,023 in 1922 to 6,028,081 in 1927, an increase of 107 per cent.

Another item of interest which is explained by the increase in the volume of correspondence is the expansion of the Department's telegraphic and telephonic services. The telegraphic service has increased from 1,196 in 1922 to 2,191 in 1927, an increase of 103 per cent.

EFFECTS OF UNIFICATION.

The unification of the postal services of Kenya and Uganda has had a marked effect on the revenue and expenditure of the Department. The revenue has increased from £181,727 in 1922 to £269,127 in 1927, an increase of 48 per cent. The expenditure has also increased from £145,000 in 1922 to £210,000 in 1927, an increase of 45 per cent. The net result has been an increase in the Department's surplus from £36,727 in 1922 to £59,127 in 1927.

The local cash revenue in 1927 amounted to £209,127, compared with £149,000 in 1922, an increase of 40 per cent. The revenue from the sale of postage stamps increased from £11,000 in 1922 to £18,000 in 1927, an increase of 64 per cent. The revenue from the sale of telegrams increased from £1,000 in 1922 to £1,500 in 1927, an increase of 50 per cent.

The local cash expenditure in 1927 amounted to £145,000, compared with £100,000 in 1922, an increase of 45 per cent. The expenditure on the purchase of postage stamps increased from £5,000 in 1922 to £8,000 in 1927, an increase of 60 per cent. The expenditure on the purchase of telegrams increased from £500 in 1922 to £750 in 1927, an increase of 50 per cent.

The net result of the unification of the postal services of Kenya and Uganda has been an increase in the Department's surplus from £36,727 in 1922 to £59,127 in 1927. This increase is due to the expansion of the Department's services and the increase in the volume of correspondence dealt with.

It is little doubt that such a job would be sustained by the public as they realized that the weekly wages there were not the usual 10/- but 12/- per week. The annual 10/- was a very small amount.

The number of telegrams dealt with during the year was 6,028,081 as compared with 3,600,023 in 1922, an increase of 107 per cent. The revenue from telegrams increased from £1,000 in 1922 to £1,500 in 1927, an increase of 50 per cent.

The revenue from the sale of postage stamps increased from £11,000 in 1922 to £18,000 in 1927, an increase of 64 per cent. The expenditure on the purchase of postage stamps increased from £5,000 in 1922 to £8,000 in 1927, an increase of 60 per cent.

The revenue from the sale of telegrams increased from £1,000 in 1922 to £1,500 in 1927, an increase of 50 per cent. The expenditure on the purchase of telegrams increased from £500 in 1922 to £750 in 1927, an increase of 50 per cent.

The net result of the unification of the postal services of Kenya and Uganda has been an increase in the Department's surplus from £36,727 in 1922 to £59,127 in 1927. This increase is due to the expansion of the Department's services and the increase in the volume of correspondence dealt with.

The net result of the unification of the postal services of Kenya and Uganda has been an increase in the Department's surplus from £36,727 in 1922 to £59,127 in 1927. This increase is due to the expansion of the Department's services and the increase in the volume of correspondence dealt with.

OLD SORES & ULCERS

Cannot Resist ZAM-BUK.

ONLY the action of potassium permanganate on the skin properly done, the most successful remedy for the treatment of old sores and ulcers. Even in the worst cases of leg ulcers, old wounds, chronic sores, etc., the healing of Zam-Buk is truly marvellous.

The first effect of Zam-Buk is to take all the dead parts out of the sore or ulcerated place. At the same time it relieves the surrounding irritation and inflammation.

When Zam-Buk has thoroughly removed all traces of corruption and all traces of irritation, the patient is ready to be treated with the following course:

Before you buy a new stove investigate the four good reasons why you should install a Perfection Oil Stove

- 1 It is extremely economical, costing but one penny per hour per burner.
- 2 There is no smoke, soot, grime, ash, or dirt. It keeps your kitchen, pots and hands always clean.
- 3 The oven is at elbow height, and the progress of your baking is always in view.
- 4 Intense heat is instantly available and all of it is concentrated where needed.

Paraffin is especially suitable for use in the very best quality of fuel. The Oil Stove is of the same type as the common type lamp of great intensity. No soot and no smoke.
