Special Method For Property Of Friendly Neutrals

Special Method For Property Of Friendly Neutrals
 The Special Method for Property of Friendly Neutrals is a new and revolutionary method of property management. It is designed to provide a secure and efficient means of handling property for individuals and organizations who are friendly neutrals. The method involves the use of a special form which is filled out by the property owner and submitted to the Special Method office. The office then processes the form and issues a certificate of ownership to the property owner. This certificate is valid in all countries and is recognized by the courts of law.

SERVICE NOT "ELF"

SECTION OF BRITISH LEGION WANTS YOUNG EX-SERVICEWOMEN MEMBERS.

After the last war a young ex-servicewoman walked into Legon's office in Nairobi to apply for assistance. She was not known to him, and he had no record of her. While the rest of the British Legions found her name was taken under the efficient work of the women members of the organization, who installed her in the nursing home, kindly collected some baby clothes when the baby was born and as fairly good at visiting mother and baby when they were in a home of their own.

It is not only in the United Kingdom that the women members of the organization are active. In Kenya, for example, the women members of the organization are active in the various districts. In the Nairobi district, the women members of the organization are active in the various districts. In the Nairobi district, the women members of the organization are active in the various districts. HOME TRUTHS FOR KENYA "PARENTS"
 Headmaster Suggests How They Can Help
 Home truths for Kenya parents is the title of a book which has just been published in Nairobi. The book, written by the headmaster of the Government School, Nairobi, that work in the home is the key to the success of the school. The book is a practical guide to parents on how to help their children in their studies and in their character development.

Non-Native Settlement in Tanganyika
 The Tanganyika Government has been successful in securing a small number of non-native settlers in the Territory. It has been a long and difficult process, but the Government has managed to attract a number of settlers from other parts of the Empire. The settlers are being encouraged to take up agriculture and other productive occupations in the Territory.

Kenya School Council
 The Kenya School Council has met in Nairobi to discuss the education of the children of the non-native settlers in the Territory. The Council has decided to take steps to ensure that these children receive the same high quality of education as the children of the native population.

He has noted that the Government has recorded 600 vacancies in its offices, and has urged employers to do their utmost to fill these vacancies as soon as possible.

Three Africans Perish In Subukia Grass Fire
KABAKA'S POLICE LINES NEAR KAMPALA DESTROYED
 An elderly African woman and two young children were killed in a grass fire at Subukia last night. The fire was caused by a carelessly discarded cigarette. The woman, who was 65 years old, and her two children, aged 8 and 10, were sleeping in a thatched hut when the fire broke out. They were unable to escape and perished in the flames. The fire also destroyed the police lines near Kampala, which were used for the protection of the area.

AFRICAN SECTION FUND
£6,687
 But Much More Still Wanted
 The African Section Fund has raised a total of £6,687 towards the reconstruction of the East African colonies. This is a significant achievement, but much more is still needed to complete the work. The fund is managed by the African Affairs Committee, and its members have been working hard to raise money from the African community in Kenya and elsewhere.

Retention of Pass-Laws Advocated

"NO CONSTRUCTIVE PROPOSALS"

NOTWITHSTANDING the fact that Government requested this investigation, all Government officials who gave evidence particularly those who were in favour of maintaining law and order, advocated the retention of the laws which have been in force since 1952.

This is one of the remarks in the report of the Committee of Inquiry on its investigation into the retention of the Municipal Councils Act 1952 and 212 which will be considered at the monthly meeting of the Nairobi Municipal Council this afternoon.

The Committee of Inquiry expressed its opinion on the matter that the retention of the laws was not a constructive proposal. It was a mere statement of fact that generally the evidence put before it was in favour of the retention of the laws and was made up of a mixture of fact and opinion.

The investigation arose from a question asked by Mr. E. M. Muthu in the Kenya Legislative Council, the reply to which was given by the Minister of Home Affairs, Mr. J. M. Njoroge.

The Committee also considered the retention of the laws which were in force since 1952. It was a mere statement of fact that generally the evidence put before it was in favour of the retention of the laws and was made up of a mixture of fact and opinion.

Broadcasting
 The suggestion by our Dar-es-Salaam correspondent in a report on the new broadcasting facilities which will cause the great majority of all those licensed to pay their annual licence fee only a few months before the start of a British Broadcasting Corporation engineer, who taking the view that the programme will be a "Union" in which there will be no political objection to the union of the East African Territories into one block, and the Rhodesia and Nyasaland into another, for the purpose of improving and developing broadcasting. His plan provides for two main transmitting stations, one for each of the territories and one for each of the main stations in the central zone to provide the best of both worlds. In addition, the station will have the capability of providing the time of educational programmes and news programmes for the South African Broadcasting Corporation.
 Mr. Morton is expected to arrive in Britain on Friday.
