THE COMMON OR GARDEN CABBAGE

No cabbage should be without a sidekick. The most important of the green vegetables, and used to precede the most important vegetable group. Among these many advantages is their ability to grow under adverse conditions and to produce a wide range of varieties, from the early varieties of the year to the late varieties of the year.

Forward manure or other organic fertilizer, that provides nitrogen, phosphorus and potash. The plants a big part in making the plants grow. It is not necessary to use a large amount of it to every cabbage but the plants should be given about 4 to 6 ounces per square foot of soil which has been prepared in advance.

Fully-Balanced Diets Result in Reduction in Abortion

SHEEP DIPS HAVE ARRIVED

Farmers will be very glad to hear that supplies of our three Sheep Dips have arrived and further supplies are on the way.

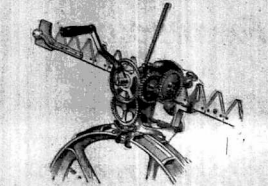

COOPER'S SHEEP DIPPING POWDER eradicates parasites on the sheep and wards off further attacks. In addition, it stimulates the skin and wool.

COOPER'S DOUBLE DIPPING POWDER is especially designed to cure scab, and is not an "all purpose" dip like the standard one.

COOPER'S "QUICK-ACT" POWDER. If you have to deal with Keds use this Dip. A single dipping is sufficient to eradicate keds and their pupae.

-FARMERS- KEEP YOUR MOWER KNIVES SHARP

This inexpensive knife grinder is designed to meet the demands for a handy, portable machine with which the farmer can sharpen his mower knives easily and quickly and still retain the correct bevel edge and cutting angle of each section. It will grind one edge of each of the two sections at the same time. The knife is then moved along and the next two sections are ground. A spring maintains the pressure of the stone against the knife and the stone is of the proper shape to give the sections the correct bevel. The knife is held in the machine by clamps and simply turning the crank moves the stone over the edge of the sections. A handle on the frame permits holding the stone at any desired point so that nick can be ground out.

As much as £2,000 per acre farm of "riobos" has been recorded in Wellington, Cape Province. Riobos grows wild in the veld and there is no doubt no expense cultivated in the Capricorn area. Riobos were introduced last year but the loss has been very small. Riobos was bought up by natives throughout the Transvaal, but it is found only in the Transvaal.

British Fight for India
 The major political parties in India are taking time to consider their attitude to the British Campaign for a Free India. There has been a marked disposition in this critical stage of the struggle to offer disinterested criticism of the often impractical proposals of political positions from which retreat has been difficult. The Muslim League meeting with all the respect it deserves for the role of the correspondence which followed the formation of the Simla talks shows how far-seeing is the program which has been made by all parties. In the past 18 months an agreed solution leaving the basis of principle involved in Pakistan side, the extent to which the Muslim League and the League are the Simla conference was the extent to which proposals should be transferred to the Centre from the Provinces. The compromise plan while rejecting Pakistan on the basis of such political facts as differences of communication and the needs of industry, defence and health, however inclined to favour the Muslim League, is a far cry from the official Central Authority, at least in the first instance. But no process of accommodation within the framework of a single proposal can fully replace the Muslim League's desire for a complete separation of India. Mr. Jinnah has declared that the Muslim League will not accept any compromise which would leave India united. It is clear that if the differences can be accommodated, an interim government, composed entirely of Muslims, can come into being within a few weeks and that the Muslim League will be making for the Centre, the Provinces and the groups, involving much hard bargaining, can begin.

World Food Plan

The Hoover Plan for a world food organization is the most important step yet set forth to deal with a situation which is daily becoming more serious. That the problem should come to the attention of the United Nations Organization is a natural consequence of the fact that it makes no allowance for universal peace, political or economic content on an international basis. That it is a humanitarian and humane plan is beyond question.
