K.I.O.'s WAR RECORD

Future Of The Office?

The first of the annual department reports for 1944 has just appeared. It is the report of the K.I.O. Information Office—its place of activity in the past and the work it has done during the past year. It is a very interesting and useful document, and it is well worth a study by all those who are interested in the work of the office during the past year.

The report is divided into two main sections: the first, which deals with the work of the office during the past year, and the second, which deals with the future of the office.

The first section is divided into three parts: the first, which deals with the work of the office during the past year, and the second, which deals with the work of the office during the past year, and the third, which deals with the work of the office during the past year.

Transitions

Requests are frequently received from various departments of Government for translations of announcements and documents into English. The Kenya Branch of the Kenya Information Office is the only office in Kenya which is equipped to do this work. It is a very important service, and it is well worth a study by all those who are interested in the work of the office during the past year.

The report is divided into two main sections: the first, which deals with the work of the office during the past year, and the second, which deals with the future of the office.

Publications by the Kenyan Section included a Kenya Weekly Newsletter distributed in British, African, South Africa and the African colonies in three months. All paragraphs in this newsletter are prepared from the source. Another publication, a monthly magazine, the Agricultural Production and Settlement Board, was published in Nairobi. It is a very important service, and it is well worth a study by all those who are interested in the work of the office during the past year.

The report is divided into two main sections: the first, which deals with the work of the office during the past year, and the second, which deals with the future of the office.

RHEUMATISM

Get quick relief

Disordered kidneys are usually the cause of rheumatism. Dr. Weir's Pills are specially prepared to act directly on kidneys, help inflammation, heal, strengthen and re-energize them.

For one year's proof of the direct action of Dr. Weir's Pills within 24 hours of taking the first dose, the following testimonial is published: "I have been suffering from rheumatism for many years, and I have tried many remedies, but nothing has helped me. I have now taken Dr. Weir's Pills, and I feel much better. My kidneys are now strong and healthy, and my rheumatism has disappeared."

Dr. Weir's Pills are available in all chemists and druggists. Wholesale depot: London House.

400 m.p.h. in the Union

(FROM A SPECIAL CORRESPONDENT)

South Africa's air force has made yesterday what is probably the fastest flight ever made in the world. The plane, a Lockheed Constellation, was flown by a pilot named John G. "Jack" Gurnea, and it took only 1 hour and 40 minutes to fly from London to Johannesburg. The plane was flying at an altitude of 40,000 feet, and it was flying at a speed of 400 miles per hour.

The flight was made in connection with a special service to Johannesburg, and it was the first time that a plane had flown from London to Johannesburg in less than 2 hours. The flight was a great success, and it showed that the air force was now capable of flying at high speeds over long distances.

His SCIATICA has Never Returned

"The first and most important step in the treatment of rheumatic sciatica is to keep the bowels regular and the kidneys well drained. Brylcreem is the only hair dressing which does this. It is a pure vegetable product and contains no harmful chemicals, and has been used for years by thousands of men who have found it to be the best remedy for their sciatica. It is available at all chemists and druggists."

SHEEP DIPS HAVE ARRIVED

Farmers will be very glad to hear that supplies of our three Sheep Dips have arrived and further supplies are on the way.

DOOPER'S SHEEP DIPPING POWDER eradicates parasites on the sheep and works off further attacks. In addition, it stimulates the skin and wool.

DOOPER'S DOUBLE DIPPING POWDER is specially designed to cure scab, and is not an "all purpose" dip like the standard one.

DOOPER'S "QUICK-ACTING" POWDER. If you have to deal with Keds use this Dip. A single dipping is sufficient to eradicate keds and their eggs.

UNITED STATES EXPERIMENTS WITH FERTILISERS

Work which has been done in the United States on the localized application of fertilizers has had the consequence that it has come to be almost synonymous with the application of fertilizers on a single band usually in such a position that the band of fertilizer lies to the side and a little below the rows as traced out by the furrows. The bands being assumed to be continuous. The bands are usually of a certain width, and are usually of a certain depth. The bands are usually of a certain width, and are usually of a certain depth. A Talk On Food In Zanzibar

(Continued from page 12)

The second of the main objectives of the Government is to give the Zanzibari people a better standard of living. This is done by increasing the production of food and other necessities. The Government is doing this by increasing the area under cultivation and by introducing modern methods of farming. It is also doing this by increasing the production of food and other necessities. The Government is doing this by increasing the area under cultivation and by introducing modern methods of farming. It is also doing this by increasing the production of food and other necessities.

EAST AFRICAN AGRICULTURE FIRST PRIORITY

—says Col. Pansyonyi

Every short of raw materials he could get for any given amount of money. It is not an increase in African land which is the main thing. It is the increase in the amount of land which is used for agriculture. It is the increase in the amount of land which is used for agriculture. It is the increase in the amount of land which is used for agriculture.

Tribesmen Dead In Border Clash

COMMON SENSE TREATMENT

GET TO THE ROOT CAUSE OF YOUR COMPLAINT

Impurities in the blood are a direct cause of rheumatism, sciatica, neuralgia, headache, dizziness, and other ailments. Clarke's Blood Purifier is the only medicine that gets to the root cause of your complaint and restores you to vigorous health and common sense. It is a natural blood purifier that cleanses the blood and restores it to its natural state.

Old Cambrians Still Unbeaten

SURPRISE 13-10 WIN OVER MONDESCRIPS

Old Cambrians gained a surprise victory over the Mondescrrips in their Rugby game on Saturday at the Railway Club ground on Saturday.

Rhinos, though again defeated by the Mondescrrips, put up a much better show on this occasion and held their own for at least two-thirds of the game.

On Wednesday, 12, Mondescrips, 13, this was a local Derby with keen interest. Rhinos were the only side to play on Saturday.

Mondescrips were out of their best and the game was won by the Rhinos. Two useful forwards were obviously unused and out of their positions.

End of Parklands Tennis Tournament

ENGLAND AND MRS. WOOD EACH WIN TWO EVENTS

The first post-war tennis tournament to be held in Nairobi—the Parklands Sports Club—ended on Sunday after three weekends of play and numerous matches on weekday evenings made necessary by the very fine entry.

Sunday's finale were watched by a good crowd of spectators. Two competitors won two events each.

They were Jack Eversley and Mrs. Dorothy Wood, both Kenya champions, who were successful in their singles matches and the level-mixed doubles and hand-mixed doubles respectively.

Mrs. Eversley's partner was W. R. Patterson but Mrs. Wood's partner was J. R. Longwood. The final between England and Mrs. Wood was a very close one.

The interval between the two sets was one hour. The match between England and Mrs. Wood was a very close one.

debate on Iron & Steel Bill EXCELLENCE POINTS TO SOUTH AFRICA SOUTHERN RHODESIA

Examples of Success In Nationalisation

The ownership of the South African iron and steel industry referred to by Dr. Hugh Dalton, Chancellor of the Exchequer, in his speech on the debate on the Iron and Steel Bill, is a good example of the success of nationalisation in South Africa. The iron and steel industry in South Africa is a very important industry, and the Government has taken steps to nationalise it. The Iron and Steel Bill, which was introduced in the House of Commons on May 12, 1936, provides for the nationalisation of the iron and steel industry in South Africa. The Bill is a landmark in the history of nationalisation in South Africa, and it is a good example of the success of nationalisation in that country.

ABERDARES' HOSPITAL PROBLEM

Great concern is being expressed in the Mount Kenya Hospital circles as to the future of the Aberdare No. 3 Military Hospital for civilian patients. The hospital, which is situated at Aberdare, was originally intended for the treatment of emergency cases.

Three years ago the "Mount Kenya Hospital" Committee, which is headed by Mr. Mount Kenya Hospital, and the Government, decided that the hospital should have been open to civilian patients. It had been for some time a question of the Government on the question of the matter which it has still failed to decide.

The Mount Kenya Association has passed a strongly worded resolution on the subject, which has been forwarded to the Director of Medical Services. This has been confirmed by the Hospital Committee. Also at a committee meeting of the Nyeri District Council, which was held on the 2nd inst., the following resolution was passed unanimously:

In view of the fact that the hospital facilities for civilian patients provided by the Military authorities at No. 3 General Hospital, Nyeri Station have been withdrawn, this committee asks the Director of Medical Services to provide the necessary facilities for the treatment of 100 to 150 patients in the hospital at Aberdare. The committee also asks the Government to make a decision about the necessary financial provisions for this.

This committee considers that the taxation provided for such medical services are essential for the benefit of the hospital service at Nyeri. The Director of the Director of Medical Services.

Thomson's Falls' First Race Meeting

A MOST SUCCESSFUL OCCASION

The first race meeting at Thomson's Falls was a most successful occasion. The race was held on the 10th inst. and was attended by a large number of spectators. The weather was fine and the racing was of a high standard.

The first race was won by a horse named "The Duke" who was owned by Mr. J. H. Smith. The second race was won by "The Duke" again. The third race was won by "The Duke" again. The fourth race was won by "The Duke" again. The fifth race was won by "The Duke" again.

The meeting was a most successful one and it is hoped that it will be repeated in the future.

Army Build Bridge Over The Tano

A 300-foot long bridge—the longest of its type in Africa and possibly the world—has recently been completed by a Field Company of the East African Engineer over the Tano river.

The company was the 54th Field Company, which was engaged in the construction of the bridge within the estimated period of two months. The bridge is a steel girder bridge and is supported by two large concrete piers.

The bridge is a most important one as it will greatly facilitate the movement of troops and supplies across the river. It is also a great boon to the local population.
