TOBRUK PRISONERS DUBLIN CASTLE NOW 20,000 ABLAZE

Raids Had Reduced The Town To A Smouldering Ruin

**STRATEGIC IMPORTANCE OF
LATEST VICTORY**

January 24. WHILE last night's bombardment from Cairo started at 14.00 hours, it had already been in progress for some time. It is believed that the last shells will be high as the British have captured 20,000 prisoners and a large quantity of war material. The town is now a smouldering ruin.

Small parties of Italians who had fled from Tobruk towards the desert, were being driven back towards the ring road, where they were being captured in large numbers by our fighters.

Before this capture, Tobruk was held by the R.A.F. no fewer than 17 hours. It was a 100-artery town, the town is now described as a field of dead trees and a few scattered houses.

Reader's correspondent says that the scene is as if he were through the town by night. It is a scene of desolation. Recently every building was smouldering. The town is now a field of dead trees and a few scattered houses.

A Prophecy Is Coming True

January 24. IN A H.A.F. press communique this morning, General Brooke said: "Exactly one month ago Mr. Churchill gave a prophecy to the people of Italy and told them that Italy was personally responsible for a catastrophe which had fallen upon their nation with which the British people had no quarrel. Among other notable words he said: 'Our Army is being driven back to the sea by the forces of the Axis.'"

IS THE RUMANIAN TROUBLE OVER?

Factions Said To Be Evenly Matched

January 24. ANATOLIAN has issued a number of despatches intended to quell the present uncertainty in Rumania.

He has once more announced that he is undisturbed master of the situation, and that perfect order has been restored.

An official broadcast last night from Bucharest states everything was now normal. Reports of strikes in bordering countries, however, suggest that the Rumanian situation is not so simple as it appears.

The Rumanian Legion in London says the Army is entirely loyal to the Government. It has reported this morning that the Legion has not been promised to return to the country within 48 hours.

On Wednesday morning the Bucharest radio was warning civilians not to venture into the city and some were being driven out of Rumania said that a number of important Rumanian officials had been arrested by the police.

THE NEWSPAPERS IN BRITAIN gave a great deal of prominence to the punishment of a citizen for removing a time bomb from a building adjacent to his house. It is so that when he removed a time bomb from the vicinity of St. Paul's Cathedral received a medal and promotion. The civilian who was fined £100, later reduced to £5 on the personal intervention of the Prime Minister. The case appeared to be parallel but there was one important difference: the army officer was obeying his orders and a war cannot be fought without discipline. It was admitted that had it not been for the civilian's prompt and great courage, considerable damage might have been done, the object being to explode in which the bomb fell; but that was not allowed to count against the strict letter of a regulation which forbade it and in 99 cases out of a 100 was to forbid any civilian to touch a time bomb.

Britain Almost Raid Free
But R.A.F. AGAIN TROUNCE BASE OF LORIENT

For the sixth successive night there were no enemy raids on London last night. The only raid in Britain, last night, was dark.

During daylight yesterday German raiders made attacks on East Anglia, killing some people and injuring others and destroying buildings.

Britain's sleep was in the main undisturbed by Nazi bombs falling from the coast. The only raid on the coast was the fall in the "Albion" which was welcomed as a justification by the British population which by the steady improvement of the coast defences has acquired a quiet confidence in its ability to withstand a repetition of these attacks even in a severer form than this.

On Friday night the naval base of Lorient was once more troubled by the German bombers. The raiders had to operate in extremely difficult conditions and not one German fighter attempted to interfere with them.

The Royal Air Force on Friday met the raid with a number of fighters. Five were claimed by the Royal Air Force. The other five were shot down without exploding.

The adventure of some of the Polish fighters who took part in recent operations have been revealed. It was found that the wingtip of one machine touched the sea during a landing. The German machine gunner shot at the pilot, who was killed. Another pilot, who was flying low and circled the machine. Twenty-five rounds of high explosive were fired round his machine, but he was not hit. He was seen to be landing safely, but he was not seen to be landing.

The U.S.A. House of Representatives has passed a Bill authorizing the use of a fleet of 200 merchant ships, which President Roosevelt has authorized.

The details of the transfer of the British fleet to America by Britain have arrived in London. The British fleet, which was transferred to America, is now being used for the protection of the coast.

BRITAIN'S SHIPPING NEEDS

FRANK TALK BY MR. RONALD CROSS

The British Minister of Shipping, Mr. Ronald Cross, told the House of Commons in a broadcast last night that although the British shipping yards were working all out, they could not produce sufficient tonnage for our war needs and we were looking for support from the United States.

Mr. Cross declared that the whole future of democracy depended largely on the United States' industrial help and he requested the decision to turn America into a war arsenal in an emergency. He said that the victorious campaign in Libya was an example of the essential part played by ships in a war of attrition.

ROYAL SOCIETY OF SPORT OF THE WEEK
ST. GEORGE

Future of the Imperial War Fund

THE annual general meeting of the Royal Society of St. George, Nairobi, Kenya, was held at the Star's Hotel, Nairobi, on Thursday last. The meeting opened with the reading of the minutes of the last annual general meeting, which were confirmed and signed.

After confirmation of the minutes of the last meeting, it was unanimously agreed that the Festival Bazaar should be held on the premises of Sunday, April 27, 1942. It was also unanimously decided that the Education Committee should take action as soon as possible to have a F. F. B. held to present two prizes for the best essays on the subject of the Empire, to be written by the members of the Society.

The Chairman, Mr. J. W. Bennett, indicated the position of the Imperial War Fund, which was £1,000,000, and the total amount raised was some £1,000,000. Of this sum £2,266 had been sent to the Chancellor of the Exchequer either direct or through the Kenya Central War Fund. There was a balance in hand of nearly £200 to which he referred later.

The Chairman then reported that the sum of £1,000,000 of the Imperial War Fund had been distributed to the Kenya Central War Fund. The sum, Captain A. E. F. B. had distributed to the Kenya Central War Fund. The sum, Captain A. E. F. B. had distributed to the Kenya Central War Fund. The sum, Captain A. E. F. B. had distributed to the Kenya Central War Fund.

A Good Report
The Chairman reported that more than would expect the St. George Society had done in the past year. He said that the number of subscribers had increased from 210 in 1941 to 250 in 1942. He also mentioned that the number of subscribers had increased from 210 in 1941 to 250 in 1942.

The Chairman stated that he had held the balance of over £100,000 until this general meeting in order that he could place before them the Kenya Central War Fund. He said that the balance was £100,000 and that he had placed it before them in order that they could see it for themselves.

Two instalments of £1,000 each were sent from the Kenya Central War Fund to the Chancellor of the Exchequer. The first instalment was sent in October 1941 and the second in January 1942. The total amount sent was £2,000. The Chairman said that he was pleased to see that the Government was so interested in the Imperial War Fund.

At the conclusion of the meeting a vote of thanks was passed to Mr. Phillips, the Manager of the Star's Hotel, who had been very helpful in the arrangements for the meeting.

TELEPHONE ECONOMY

To the Editor, "E.A. Standard"—Sir—As time is valuable at the present time, through the columns of your valued paper, to ask merchants and the public, to instruct their operators to give the names of their firms when answering telephone calls. I have been told by many members of the public—and particularly the trading community—that on ringing up firms, it is the only answer to "Hello" in that the question there is being put to whom is speaking. It would, therefore, make a tremendous saving of time and money if all operators were instructed to mention the name of their firms when replying to a telephone call. I feel sure that your journal will realize the importance of this suggestion during this time of stress and overwork.

Last Sunday, I was able to send a further cheque for \$20 to the Tobacco and Cigarette Fund, I am continuing to collect for this fund. I am sure that your publication will be glad to receive contributions.

LAWLESSNESS IN NAIROBI
Nairobi, January 28, 1941.

Sir—In bringing all these rather remarkable details before you, the object is that some report may be introduced to put a stop to this glaring breach of the peace. I am sure that you will be sympathetic to the introduction of any such legislation. It is a law in force in the neighbourhood of where the lawless element is most numerous and in spite of the arrival of the Police the lawless element is still present in the neighbourhood. NATIVES AND SOIL EROSION

Cinema Unit's Itinerary

The following are extracts from Mr. Chingora's report on the Government Cinema Unit.

The Unit left the heights of Mbooni early on Monday, December 22 and descended by the same route towards Tawa but branched off south and took the Makindu Road as far as Kwakwaka. Some employees of the Soil Conservation Service were met with on route and took the opportunity of checking over their line levels with my Abney level. I found they had not been correctly solved and I fear their well-learned theories would have led to erosion elsewhere instead of dispersing foodstuffs over the road over an area capable of absorbing it. I took the liberty of showing them the solution and marking out one or two contour ridges which in my opinion would mitigate the evil.

The next day I went on to Kianjira. The steep ascent put a severe test on the Cinema Van, but the climbed well and negotiated the many sharp and steep corners with complete success. I met Chief Mukoma on the hill and was able to take him with me and point out the many examples which presented themselves to us of misdirection and abuse of the contour and demonstrated better methods of cultivation. In many places the contour ridges which have been made were neglected and where broken through had not been repaired.

African Football

There will be a Soccer Trial Match this afternoon at the Native Stadium, Nairobi, kick off at 4 o'clock for the purpose of assistance final selection for Nairobi's team to take part in the Remington Cup competition. The Possibles will play Luo Union, winners of the Junior Nairobi League. Saturday's game between the winners of the Junior League (Police Club) provides a rather good match as well as a considerable surprise. Fans of the senior winners, who had not lost a game and taken full points from all four league matches this season, were taken by the Junior Luo Union who did not win such an impressive record in their previous in a first-rate match. They led 1-1 at half-time. Fifteen are also in the final of the Maxwell (Senior) Knock-out Cup and their defeat by a Junior side casts as something of a shock to their supporters.

TWO FAMOUS RENDEZVOUS

Olde Chapter Coffee House Closes

Success Of The New Agreement

A page of London's history has been ended with the closing of the Olde Chapter Coffee House, Paternoster Row. Although the present building is not a century old its name dates from the seventeenth century. It was in 1802 that a Turkey merchant, named a Bolognese, opened the first coffee-house in London. Others quickly followed, and each became the haunt of a particular class, profession or trade.

In the 19th century, the Olde Chapter Coffee House was the rendezvous of leading engineers, surveyors, the Association of Bookbinders, the Royal Society of Engineers, and the last and most popular was "The Lovers of the Poets" Oliver Goldsmith's proposed Coffee House, an alleged old Chatterbox.

THE UNDEATH OF GENERAL METAKSA

Courageous Example To the World

January 29. GENERAL Metaksa died in Athens at 12:30 this morning following operation for three months. He was 79 years of age. The news of his death has been received in Great Britain with profound grief and with the warmest sympathy for the Greek people.

He was the hero and chief leader of the present heroic resistance by the Greek people to Fascist aggression. With General Pangalos, the Greek Commander-in-Chief, he signed the declaration of war, and the series of crushing defeats which have won history, not only for the Greeks, but for the world.

General Metaksa rose to power in 1936, Prime Minister, Minister for Foreign Affairs, War, Navy and Air. He played the principal part in the restoration of the monarchy of King George II after his exile in London. General Metaksa also occupied himself with problems of internal reform and constitutional and technical education. He took over the responsibility of the Ministry of Education and his first task was the formation of a Greek National Youth Organisation.

January 29. Today is a glorious memory in the history of one of our Allies—the anniversary of the death of the hero of 1933. Information has just been received in London that the Greeks are planning to hold a funeral for General Metaksa in their own interests. The Greek authorities in occupied Poland believe it is well staged for today a series of Polish demonstrations which will serve them as a pretext for an even more ruthless campaign of extermination.

This is not a new technique in the history of the Axis. It has been used by the Germans in the case of the Polish and the Czechoslovaks in the German already have been used in the case of the Greeks. The Polish and the Czechoslovaks are being used as the double objects of the policy of extermination and then being used for separate purposes of extermination and extermination.

January 29. In Poland the spirit of the people has been revived in the worst way. It is not a new technique in the history of the Axis. It has been used by the Germans in the case of the Polish and the Czechoslovaks in the German already have been used in the case of the Greeks. The Polish and the Czechoslovaks are being used as the double objects of the policy of extermination and then being used for separate purposes of extermination and extermination.

The War In Africa

ITALIANS PRESSED ON ALL FRONTS

"Risk Of Being Eliminated"

January 29. THE Italian forces in Africa are being pushed on all sides by the British troops and are now facing desperate straits on yet another front.

Free French Forces, striking north from French Equatorial Africa, have successfully attacked an Italian garrison at Southern Lopen Soppa. A French Camel Corps which was partly mechanized and was equipped with 300 mile push motor desert and tank units, has been at the scene of the attack. They travelled nearly 100 miles in a day, reaching the garrison.

The Italian garrison of 300 were being pushed back and were easily out-manned by the French forces. They withdrew to the east of the town. The French force destroyed the garrison and were almost on the point of attack. At night the French forces were in the number of prisoners.

These operations are being carried out by the British and Free French forces. The British and Free French forces are being pushed on all sides by the British troops and are now facing desperate straits on yet another front.

Indo-Chinese Puzzle Still Unsolved

January 29. Fighting is still going on between the Chinese and French troops in China in spite of the fact that the British have done their best to help yesterday morning. A conference from Bangkok says that Japan, which has been acting as mediator, has been informed of this.

The fact is that after the Chinese and French troops have been pushed back, the Japanese have been acting as mediator. The fact is that after the Chinese and French troops have been pushed back, the Japanese have been acting as mediator.

Concern Among Fascist Authorities

January 29. The Air Ministry reports slight enemy activity off the West Coast, but night, but no bombs were dropped.

HITLER'S NEW INVASION PLANS

January 29. IN WASHINGTON IT IS CONSIDERED THAT THE GERMAN LEADERSHIP IS ATTEMPTING TO INVADE BRITAIN IN APRIL OR MAY, BUT THAT BRITAIN WILL NEED ATTACK WITH AMERICAN NAVAL HELP AND GO ON TO WIN THE WAR.

Eyes that make you look old

Loving friends and acquaintances who have often noticed that your eyes are every week, and then with a touch of surprise you give away a bag which I look again, and you will see that my eyes do not give away my age. It will happen to you, too. But WHEN?

To put off middle-age in the future is to repress the youth you have now. Be youthful NOW. Eye-tropic Optrex will keep up the sparkle in your eyes which will not come again elsewhere. They will wash away the signs that time makes, evening and wrinkles. Dallas. Optrex will keep you and restore for you the sparkle and freshness of youth.

Optrex is a scientific lesson for the eyes. Recommended by Doctors and Optician everywhere.

Whether you wear glasses or not, you should have your eyes examined regularly by a Qualified Practitioner.

WAR RISKS INSURANCE
To the Editor, "E.A. Standard"
I wish to advise to the correspondents on our risks insurance. I am sure that the East African Commission will be approached by proper business, adding for a substantial reduction in the very heavy premium rates. It might be pointed out with advantage that in the event of any eventual default on the part of the Government, the Commission might have the advantage in some after the war has ended, until such time as the deficit has been made up.

With the changing phases in the war in Africa, and the fact that the three East African Territories are bound under this scheme, one would imagine that the amount of business done under this scheme would, in the future, be reduced to a minimum, if not to a point where it would be unprofitable to maintain. It is, therefore, suggested that the Government should be asked to consider the possibility of a refund of the amount of premium paid, if the amount of business done is reduced to a point where it would be unprofitable to maintain.

GRASS PIES
To the Editor, "E.A. Standard"
There has been a good deal of correspondence in your paper with regard to the grass pie problem of preventing them. May I suggest that the Government should be asked to consider the possibility of a refund of the amount of premium paid, if the amount of business done is reduced to a point where it would be unprofitable to maintain.

FAIR PLAY.

ALTHOUGH the Kenya Horticultural Society has, to a certain extent, curtailed the experimental growing of new plants, some of those before the war have now flowered, and a certain amount of information has been collected about the characteristics of those that were tried.

Short Story

By LEWIS RICHARDS

YES, my dear Hemming, you will certainly hang. I've taken complete care of that. Just before you arrived I phoned Thomas, the D.D.I. for this district...

almost imperceptibly, not verbally at all. The word it will make will be almost directly downwards and any footing likely G.P. will tell you that a missile always goes down vertically because he is afraid he will not get between the ribs if he does not.

I told him that I had discovered you had put a very fat one over our outfit and robbed not merely no but several hundred shareholders of nearly £40,000.

And you, my dear Hemming, you will certainly hang. Just now the last thing he said, 'I suppose I know my own sturdy tentacles, but I'm going to prove it. I know my own sturdy tentacles, but I'm going to prove it. I know my own sturdy tentacles, but I'm going to prove it.'

I pointed out to him that if we didn't get all the details from you and he - our chief informant - was a reliable one, I could get a considerable concentration.

I HAVE seen your names in the Casualty List, and it has made me glad to hear from Soboto, Bhandi, from Potikung, Andia, from Makundi, and Joseph, of Iti.

I had vetoed you for a very long time, Hemming, ever since we were at school together. I was always the self-righteous, cool-minded superior to you are now.

AND you, my dear Hemming, you will certainly hang. I have seen your names in the Casualty List, and it has made me glad to hear from Soboto, Bhandi, from Potikung, Andia, from Makundi, and Joseph, of Iti.

It was fantastically bad luck - but luck for you and me - that we should both have been there in the same bus. Our temperatures were both too high.

I wonder you see one of the boys at the Red House, who helped the serikin bariki bring wood and water? Or did you see one of the boys at the Red House, who helped the serikin bariki bring wood and water? Or did you see one of the boys at the Red House, who helped the serikin bariki bring wood and water?

MY dear Hemming, stabbed me. Now, please don't move. I'm nearly certain with this instrument. It would give me some pleasure to shoot you quite low, but I don't know how to do it.

I am going to put the point of this knife between your third and fourth ribs and press hard. You will note that I will carefully insert it inside an imaginary line right across the front.

There is something the Government are doing. It is something the Government are doing. It is something the Government are doing. It is something the Government are doing.

It will go over in a second. Hemming, because this very sharp knife will easily pierce the pericardium, which is a sort of membrane about a thirty-second of an inch thick surrounding the heart, and go right through into the myocardium, the muscle of the heart, causing almost instantaneous death.

It is something the Government are doing. It is something the Government are doing. It is something the Government are doing. It is something the Government are doing.

But you will note, my dear friend, that I shall hold the knife...

It is something the Government are doing. It is something the Government are doing. It is something the Government are doing. It is something the Government are doing.

THE SONG OF THE PRINTER

PICK and click. Goes the type in the stick. As the printer stands at his case; His eyes glance quick, and his fingers pick. The type is a kind of man...

O, WHERE is the man with such tickle ticks? With a printing press. O, WHERE is the man with such tickle ticks? With a printing press.

I wonder you see one of the boys at the Red House, who helped the serikin bariki bring wood and water? Or did you see one of the boys at the Red House, who helped the serikin bariki bring wood and water?

AND lastly you, my dear Hemming, you will certainly hang. I have seen your names in the Casualty List, and it has made me glad to hear from Soboto, Bhandi, from Potikung, Andia, from Makundi, and Joseph, of Iti.

Pierce Fighting In Albania

ITALIANS' DESPERATE EFFORTS BEATEN OFF

The Greeks announced further successful operations yesterday in Albania as a result of which many enemy posts were occupied and 500 prisoners, including eight officers, were captured, as well as much war material.

A Greek spokesman in Athens said that the new front-line positions are 1500 feet up in the mountains in the central sector of the front. The Italians in this area are retiring with heavy losses. Further north they also suffered losses when a counter-attack was repulsed by the Greeks.

British bombers yesterday attacked military installations in Central Albania. They dropped bombs on Klisura, a Greek town, and on Klisura. H.A.F. machines also attacked Italian aircraft on the island of Rhodus.

Last night's Greek communication said that in Albania there had been restricted but successful operations and another 100 prisoners had been taken.

The communication added that the Greeks were attacking the front successfully and had driven the enemy back over the front. Another three enemy planes were shot down when a force rushed against the Greek front.

The Greek Press Ministry quoted the Alban radio saying that the central sector an Italian counter-offensive launched two days ago failed in defeat with heavy losses to the Italians.

This area might have been round Tripoli where the Italians were forced to withdraw from several advance outposts to positions beyond the Greek front.

Butter says that British "planes" were attacking the Italian front. There is yesterday's air battle.
