**BUDGETED MOTORING**

FOR A 15 DASH DOWN and easy payments monthly of Shs. 315/-, you can take delivery of a new Volkswagen De Luxe Sedan, OR if you trade in your present car and its cash value is more than 6185, you may take the balance of your initial payment in cash.

A LIBERAL MILEAGE LIMIT during the period of one year is allowed (15,000). If the limit is exceeded, then you pay Shs. 26/- for every 100 miles or part thereof in excess.

YOUR CAR IS UNDER WARRANTY for the first six months or 4,000 miles in each year. At the end of the year you may enter into a further agreement on similar lines or, alternatively, you may complete the arrangement by handing back to us the car, whereupon we will return to you your initial deposit of 1185.

NO EXPENDITURE on tyres, battery or expendable items should be necessary during the period unless, of course, your mileage is very much in excess of the figure which has been set.

OUR ALLOCATION OF VOLKSWAGENS in East Africa is not nearly as high as we should like it to be. You may have read in the world Press that the Volkswagen factories in Germany cannot at present meet world demand. This is being rectified, beginning next year and onwards, by the stepping-up of production by 100,000 vehicles during 1959 and following years, until saturation point is reached.

# THE RIGHT GLASSES HELP TO BUILD NEW CONFIENCE

BY JEAN WINDGOM

IT is a common tale that glasses do not help and put there on so they have to look to using reading glasses in a variety of company, but a little more study of the subject will show that this is not so.

It is a common tale that glasses do not help and put there on so they have to look to using reading glasses in a variety of company, but a little more study of the subject will show that this is not so.

NOT FOR ALL

There are those who have to wear glasses at all times and some who wear them only for reading. In the latter case, the glasses are not for all purposes.

TRYING OUT

To find out if it was caused by a weak eye, the patient was told to wear a pair of glasses which would correct the eye.

## Contact lenses a problem in E. Africa

It is a long and arduous task to fit a contact lens on a patient with a set of different colored parts "cylinders" in the eye.

Again, very extreme or "soft" contact lenses are not recommended in the tropics because of the heat and humidity.

TOO MUCH

A final word - if you are going to wear your glasses at any stage during an evening, remember that you are getting ready to come back at a late hour.

### What are the 'three S's'?

The three distinct points about the Post Office Savings Banks of Kenya, Uganda and Tanganyika are **SECURITY, SERVICE and SECRECY.**

What do you mean by **SECURITY**? SECURITY means that when you put your money into the Post Office Savings Bank, it is completely safe, guaranteed by the Government, and you get 2 1/2% interest-free of Income Tax.

**FREE OF INCOME TAX!** That is most interesting. How? You put in any amount of money.

You can pay in any amount up to K200 in any year in each of the Post Office Savings Banks in the three territories. The total limit in each is £2,000. You mentioned **SERVICE** earlier on. What do you mean by that?

You can withdraw 20% of the amount in any Post Office in East Africa. Larger withdrawals can be made by return of check. Your money is free (On the Market's services). There are no charges involved in the operation of your account, but accounts are subject to the usual conditions of bank charges. If you find yourself a bit short of ready cash at any time to pay a bill, you can always ask the bank to convert your money into cash (subject to your account (its terms like a cheque)).

Your service is most impressive - but what is the **SECRECY** about?

Details of your account are not permitted to be divulged to any unauthorized person.

*what makes  
a specialised  
service cheaper?*

Auto electrical service sounds an expensive operation. Dubly enough, it needn't be. It applies particularly to Lucas and C.A.V. equipment. The former, as you probably know, is the electrical equipment which is fitted to every British car. The

Diagnosis and repair of electrical faults can shunt many of the technically oriented and even cause much head scratching to the average mechanic. K.R. & T. Auto electrical service is operated by technicians expertly trained for this work, aided by modern precision test machinery.

It is cheaper to use K.R. & T. Auto electrical service because its diagnosis is more rapid and more quickly, accurately corrected.
