SPECIAL SESSION OF KENYA CONVENTION.

(Continued from page 7.)

differs spirit which I believe generally prevails to-day.

The Secretary of State

For the change of atmosphere we have the Public Utilities Committee to thank in no small measure. The settlement of the Income Tax issue in our favour was, I think, the turning point. This was because a test case as to whether or not the wishes of the people were to prevail under a democratic form of Government, such as the Colony Government under discussion, is not, as we all know, what is ultimately left in the hands of the Secretary of State for the Colonies. It is fortunate that it was in the hands of Mr. Chamberlain who, as we know, is a man of high character and high ability. It is fortunate that he was a man who was not only a British subject but also a British subject who had been consulted on matters of taxation. The Secretary of State for the Colonies is a man who is not only a British subject but also a British subject who has been consulted on matters of taxation. The Secretary of State for the Colonies is a man who is not only a British subject but also a British subject who has been consulted on matters of taxation.

Lord Francis Scott.

While we should render our thanks to the Secretary of State, I have no doubt that we could hardly have expected the generous terms of the dispatch on taxation in which his decision to drop income tax was announced—perhaps even the result itself—but for the way in which our case was handled in London by Lord Francis Scott, whose return to this country with two such a successful result as this is a great credit to him for having undertaken the task, and congratulated me on having brought it to a successful conclusion. I often think of the many of us who are still engaged in the work of the community in Kenya.

The Governor.

Another matter before I conclude is an one I have mentioned in my respectful congratulatory to H.E. the Governor, on the further success which His Majesty has conferred upon him. His Excellency and the Convention have not always seen eye to eye in the past on many of the major problems of the Colony. It is a fact that does not make us any the less ready to felicitate him upon his most recent decision and I will be my pleasant duty at a later stage to prepare a motion on the Chair in this regard.

The Session was then declared open. Reports of discussion on various resolutions are published elsewhere.

TRAVELLER'S IMPRESSIONS OF THE WORLD.

recruiting troops, and that often a watch-tower is to be seen marching round the streets with no more than half a dozen followers. Of both the Japanese and the Chinese he said that they had recruited but not creative talents and they realized that they had not progressed with the rest of the world since their closing last century.

Disappointing Bomb Race.

The South Sea Islands are disappointing. There is nothing of the romance of Hawaii left; it is all supposed by the natives to be palu-beaches. The sun in the local heat would reach his home at the sight of an aeroplane, and the prospect of a day of preaching tourist and sun him here continue in order to be sold here before the expectant eyes of the foreigner—otherwise there was practically no day seeing the inhabitants in their natural surroundings. In the general opinion, the natives of the islands 'have been magnificently and unaccountably' they had pulled together through a depression as great as any in the world, and kept their heads above water. The Director of the Commonwealth Bank said that he had had inquiries from the Government, so that instead of being American dollars two years ago they had several dollars every penny in British stock. A view of faith in the Government is justified. Some he found the Australians friendly and charming.

South Africa.

Capt. Saunders thinks that South Africa is a country which country helplessly mis-managed by the people. He said what a pity it was that he could not forget the Boer War, especially now when the country is faced with two such serious problems as the poor white and the native question. 'These two he said constitute the most important issues with which the government is faced, and he thought they waste time arguing and stirring up racial feeling about them, when they should be solving them as government officials.'

When asked his opinion of Kenya, he said that he knew nothing at all about it.

Capt. and Mr. Sumner leave Nairobi shortly for Mombasa, where they will spend some Eastern Europe from Constantinople, and hence to be back in England within the next year.

IMPERIAL GOVERNMENT & WHITE SETTLEMENT.

(Continued from page 1.)

Lord Curzon's report was issued, but it could be shown that it was detrimental to the interests of the Colony and that it should be maintained. There should be a pre-arrangement by Government on an early date.

According to the Earl of Russell held that of the Secretary of State could make some announcement it would greatly help to increase white settlement.

A Qualified Statement.

Mr. H. Hall said it seemed to be assumed that any statement the Secretary of State might make would be correct in its content, but he was not sure that that was the case. He said that it was a mistake to suppose that the Secretary of State would be correct in its content, but he was not sure that that was the case.

Major Bland mentioned the Convention of a document drawn up at the last official conference in support of a resolution which gave a complete history of white settlement in the Colony. This could be obtained and handed to the Secretary of State.

Holding the view that white settlement here is not, in the opinion of Mr. W. Mellish White, he thought they should tell the Secretary of State that they had a list of names that would be useful.

A better way of dealing with this matter, said Major Catechism, would be to have a list of names that would be useful.

BRITISH ISRAELI NOTES.

Forthcoming Meetings.

Mr. G. W. Gayer will address on Friday, 23rd January, the monthly meeting to be held at the Norfolk Hotel at 8 p.m. On the same day at 8 p.m. at the Stag's Head Hotel, Nakuru, a lecture will be given by Mr. Spencer Palmer on the Great Pyramid; the Ven. Archbishop Lawrence has kindly promised to take the chair.

Is God a Person?

The unveiling of the message preserved for us and for these particular years in the Great Pyramid, the greatest and most important monument ever built, is nothing less than a scientific demonstration of the personality of the All-wise and Almighty God. The Creator and Preserver of the universe is regarded by many as some sort of blind will which perhaps guide the great process of 'evolution' to the ultimate benefit of the survivors, which is the suffering of those destroyed in the process, and led to their cries for help.

Such a universe is not the God who has revealed Himself in Our Lord Jesus, the Messiah. Those who have obtained a glimpse of Him through reading His Word know that God is a Person who loves His creation, and every individual He has made. Who feels every hurt and sorrow with a divine sympathy as if He Himself were suffering. Who knows every tiny detail about every one of us. To whom all hearts are open, all desires known, and from whom no secret is hid. Not even a sparrow falls to the ground without His knowledge.

In fact, we realize that God is indeed Our Father, as the Christ taught us, and we begin to understand the claim of the Apostle Paul: 'We are of His Species' (Acts xvi. 1). He is the Greek on Mars Hill. This word

species is the correct rendering of the word translated 'offspring.' It means that God had put into Man the same kind of mentality as He possesses Himself. As a human thought, all its implications are examined. 'Which spirit,' said St. Peter, 'the angels desire to look into.' High spiritual beings in spheres around and above us are the ministers that are His. He is working into the Vice of His Word.' They are ministers, but we are of His own species. We can, if we will, understand something of the very heart of God. That was the purpose of our creation. 'The Father' speak only in words. His.

URGENT PROBLEMS OF COLONIAL CONSTITUTIONS. (Continued from page 2.)

Such a system of government, if ever attempted, would be of very short duration. It would lead without exception to a demand for the toppling, not only from the Indian community, who are already proving far more equal with the European, but also from the African community, who are already proving far more equal with the European. The Government is particularly on guard to a country of mixed races at different stages of progressions, particularly in a country such as each an election leads to the power within ten days of the vote of five or six principal and that produce an impasse. If it is a corrupt executive, it cannot be a constructive one. It cannot be a constructive one unless it is a constructive one. It cannot be a constructive one unless it is a constructive one.

The Second School. Yes—but what is the alternative? Does violence lie in the hands of the other school, which demands the maintenance of unrepresentative Government in Kenya until such time as the African population can share in the Government? I think not. The second school, which is based on the maintenance of a strong executive, is to have the Government be a Government of mixed races and parliament with-out four or five.

No Great Difficulty. The functional organization of a Colony like Kenya should not present any serious difficulty. An agricultural, a business and a professional corporation, each with its representative, constituted Board, would be easy to create. It is a preliminary form that already exists. There would also, I think, be need for Boards to be set up, each dealing with a certain aspect of the Government, such as a Railway Board, a Customs Board, a Board of Health and Public Services, a Board of Education, a Board of Labour and Industrial Services, and a Native Affairs Board. I think that a Board of Taxation, too. They would secure for the Government a far wider range of information and advice than it can get at present. It is a preliminary form that already exists. I think that a Board of Taxation, too. They would secure for the Government a far wider range of information and advice than it can get at present.

The Italian Model. Human political experience is becoming very rapidly and now the situation of political institutions are being canvassed everywhere. Amongst these, I mention myself improved and attracted by some which Signor Mussolini has applied in Italy. The Duke appears to me to be promoting these objects in Kenya, and at least who are persons to see the Government of Kenya in the first place, in a constructive manner, and not to be a central executive, not created out of nor responsible to a legislature, with a representative system in which all forms of national opinion can be expressed within certain functional limits. His corporations provide such a system. Men of capacity in each sphere are thus enabled to influence and even guide the Government. In those matters which constitute their special province; and there is no need in Italy for this class of political

Avoiding Class Division. I have had to deal with the second school of Signor Mussolini's corporations, which is the desire to put an end to political and economic divisions based solely on class. In Africa, the divisions that place the class divisions, and I should like to see the system of functional or-

The Rand Mines Corporation, which is the largest of the Rand mines, has reported that it has found 3,000 additional jobs for white workers on the Rand during the year that has just ended.

The Main Idea. Mr. Main idea is that the Crown Colony system might be modified by the establishment of a representative government, the economic life of the territory governed and Board dealing with the main activities of the Government. The corporations would be the main activities of the Government. The corporations would be the main activities of the Government. The corporations would be the main activities of the Government.

Sympathy at Home. Remember, however, that no constitutional system which provides an independent and irremovable Executive will work successfully in a country where the majority without understanding guidance, sympathetic handling and constant policy here in England, the headquarters of the Colonial Empire and the heart of the Empire. I return there, first of all, to the fact that I believe for some reform of system which will make both for steadier and for more constructive treatment of Colonial policy here at home. We are all that we have to the Civil Services, at Whitehall and in the Colonies. The Civil Servants are concerned with administration, not with policy; they are not equipped with the insight which political rather than administrative experience confers. We are also, at least in the East African territories, some higher Imperial officer to co-ordinate policy on the spot, to give local opinion confidence in Imperial authority, to explain our feelings to them and theirs to us. No constitutional device such as I have sketched will prevent a further weakening of Imperial authority in Kenya if

IMPORTANT NOTICE TO CONSUMERS.

Changes in the method of rendering accounts in the Nairobi area which will take effect after the despatch of December 1933 accounts.

- All accounts will show the actual meter readings and the date on which the last reading was taken. The issue of paper cards for use on consumers' premises will therefore be discontinued.
- A special monthly statement will be rendered in the month of the electricity account. An entirely separate statement will be rendered covering any other transactions. These two statements will not necessarily be posted at one and the same time.
- Each month a portion of the accounts for electricity supplied will be despatched on or about the 15th day of the Month, and will be due for payment within 15 days from the date of despatch. This change will be almost entirely confined to domestic consumers residing in the Mathanga and Hill districts.

SECOND TEST DRAW.

India Again Score Over 200.

England 7 for 2.

London, January 11. The second test played at Col. Coote was left down at the close of play on Tuesday. India's second innings total was ten runs short of the target, but the Indians, who had been bowled out in England, therefore required 20 runs to win at the close of play. They had scored 7 for the loss of 2 wickets. The third and final Test will be played at Madras beginning on February 10.

PRESSING PROBLEM OF AGRICULTURAL FINANCE.

(Continued from page 1.)

Reward for Service.

The object of our Land Bank should be not only to assist the unfortunate, but also to assist the improvident through to assist, suffering them and not to give to members of the community. Secondly, since any form of national credit would be justified in the success of our plan, it should be made a point of view that any member of the community should be the beneficiary of the loan.

A Suggested Idea.

Mr. P. T. Dunbar II proposed that Convention would make a mistake to go into the details now, let the Secretary of State to lead the position, and leave the rest to him.

Criticism.

Mr. F. Hill expressed disagreement with the suggestion, and a good part of the arguments advanced in the memorandum against the suggestion as proposed by the Land Bank as a means of raising the money.

The Reconstruction Committee.

The Chairman reminded the meeting that His Excellency had promised to appoint who was the reconstruction committee. Mr. Robert Shaw said it was desirable that several schemes would be submitted to this committee.

Keeping a Promise.

With regard to Major Ashford's memorandum, the delegates of the province of Government, in reply to a motion by the Hon. J. O'Shea, to appoint a reconstruction committee, it would be a good thing if Convention asked Government to appoint that committee with terms of reference.

Fetters.

As to the question of mortgages, Captain Ward said that the Government which had been before the Legislative Council for some time, and a committee which had been set up to inquire into the matter, had certain machinery for dealing with the matter.

of the Agricultural Mortgage Commission.

of the Agricultural Mortgage Commission, presented at the last session of the Legislative Council, but as yet no action has been taken by the Secretary of State for the Colonies. The commission's memorandum, which was submitted to the Government, was a further statement with much wider terms of reference.

Due to be Presented.

Finally, the motion proposed by Lord Pringle, which was carried unanimously, in these words: "That the Convention consider it a duty to be presented to the Secretary of State to show that for the financial recovery of the Colony it is necessary that various proposals be put into effect."

The Development Enquiry.

Arriving on Lord Pringle's motion, the Hon. J. O'Shea seconded, and Mr. Dunbar seconded, with an additional proposal by Mr. A. A. M'Callin, seconded by Mr. F. P. Dunbar, a motion that the Government be requested to appoint the Reconstruction Committee which was proposed during the last session of the Legislative Council.

BETTER OUTLOOK FOR THE COUNTRY'S LEADING INDUSTRIES.

The year 1934 has had a bright and cheery start. Optimism is the keynote of praise and present in Britain.

Vast crowds cheered in Piccadilly and Trafalgar Square; still greater crowds packed the numerous churches at which night services were held.

Tragedy stalked as usual in the midst of life. New Year's Day found Britain enveloped in fog—no ill omen, it is held, and many accidents resulted.

Prospect of Budget Surplus.

London, January 8. (By Air Mail.) Major Vickers—first activity before the Budget—has been a better one than was expected.

The revenue returns listed last week reverting to the first six months of the Budget year are the best for several years.

It is a striking feature of the New Year celebrations was the crowded streets and the packed churches.

Unhappily, the Old Year did not end, nor the New Year begin without tragedy. On Saturday afternoon, the Imperial Airways liner Apollo, stricken by a fire, was wrecked.

MEAT PRODUCTS Convention and Need for a Factory.

Mr. J. Footstern, representing the Kenya Meat Producers' Association, has called a convention on Tuesday to discuss the subject to be discussed with the Secretary of the Kenya Meat Producers' Association.

On the ground that it was a matter of getting rid of surplus meat which was causing a loss to the industry, and that the only way to do this was to export it.

Mr. W. Murray's view was that it would be a mistake to do this, as it would be a waste of money to do so, and that the only way to do this was to export it.

It is important to note that the meat which is being produced in Kenya is of a high quality, and that it is being produced in a most efficient manner.

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed in these columns... The Editor, "E.A. Standard," Sir—

Education.

WAS THERE A FACT WITH GOVERNMENT?

To the Editor, "E.A. Standard," Sir—It is a privilege to have your view on the subject of Education, as it is a subject which is of great importance to the Government.

TWENTY YEARS AGO—A BALE!

To the Editor, "E.A. Standard," Sir—It is very interesting to read the paragraph regarding the sensational fact of 500 gold bars which were found in the South Africa at Mombasa twenty years ago.

I happened to investigate that theft and if it is of any interest to readers will tell the story. As I was not at the time, it was apparent to me eventually that "the boy" was not the boy who was mentioned in the article.

As both these boys had long served with the Bank, my view was rather scorned by the Bank Manager. However, I had these boys worked for a long time, and actually traced the boy or three servants and half-servants to them. I was waiting for something to lead me to the bulk of the money before arresting them.

Years ago, A. E. HINDING, Inspector of Police, Nairobi, January 10, 1924.

most few seem. They will undoubtedly be disappointed to judge all responsible constitutional changes... The Editor, "E.A. Standard," Sir—

RAILWAY RATES.

To the Editor, "E.A. Standard," Sir—The Railway authorities in their statement published on Saturday failed to inform you that the rate for the return of empty is stopped and a minimum charge of fifty cents is made on every empty letter and parcel box.

THE POLITICAL OUTLOOK.

To the Editor, "E.A. Standard," Sir—The latter headed "Horticultural Society Judges" by "An Exhibitor" in your issue of the 6th inst. interests me very much.

The alleged "rush hour" attitude is a matter which can always be brought forward by a member of the Society, but it can be assumed that "An Exhibitor" is a member of the Horticultural Society.

TREE PRUNERS

THE DISSTON Tree Pruner is a very powerful shaver. Built principally for clipping overhead and the heavier branches of small trees and shrubbery. The peculiar formation of the hook gives the blades a shearing cut. The long, strong handles permit great leverage. Easy action: sets clean. Made in two sizes.
 1. Blade and hook of full hand-forged Dignion steel, hardened and tempered. Blade is accurately ground to a keen cutting edge. Round-head steel rivet, placed in position under great pressure, being the blade and hook permanently. Tension on it is tightened by spreading the rivet with hammer.
 2. Arm and handle and arm and hook are each one piece of steel. On the hook arm is a projection which prevents shavers from closing more than necessary.
 3. Handle of hardwood, 4 1/2 inches long; tang extends entire length; riveted on end. Nickel ferrule, 2 inch long, reinforces handle; rivet through ferrule and tang.

the x-ray of business

The new way for all records expends the old "card-in-box" or ledger methods. Makes crystal clear facts, which, unless arranged on Roneodex, are obscure and difficult to write at. Amongst other advantages, Roneodex gives you Control over every stage of your work, and enables you to see at a GLANCE—
 Customer's Record.—You can see at once those who have not purchased from you for 6 months.
 Ledger.—You can see at a glance those of your accounts which have not been settled for any particular period you wish to know.
 Stock Record.—You can see (1) a know (a) Those goods which are not moving, (b) Those goods which are dangerously low, (c) Those which are heavily overstocked.
 Works Record.—You can see at a glance—
 (a) Exact progress of any piece of work at every stage; (b) All jobs in hand or unstarted.

A unique system of Coloured Signals automatically flashes as you the vital facts.

M. Titulescu Gets His Way.

Court Purged.

KING AGREES TO FORGEWINK MINISTER'S DEMANDS.

MEMORANDUM. COMMUNICATIONS. Bucharest, January 10. M. Titulescu's acceptance of the portfolio for Foreign Affairs followed a long conference with King Carol.

The announcement of his appointment is construed as meaning a clean sweep of the Palace camarilla.

The King's private secretary, Dumbraviciu, is being dismissed, likewise the latter's father who commands the Gendarmes.

The King demurred for some time and it is believed his reluctance was connected with the Iron Guard.

The King's private secretary, Dumbraviciu, is being dismissed, likewise the latter's father who commands the Gendarmes.

MEMORANDUM. COMMUNICATIONS. Washington, Jan. 10. In a special message to Congress, President Hoover proposed an amendment to the emergency Tariff-Credit Act to order the modification to guarantee the principal of a two thousand million dollar bond issue for financing foreign investments.

COMTE DE JANZIE.
Death in the U.S.A.
Reported.

["STANDARD" CORRESPONDENT] London, Jan. 2.

The death of Count (Frederick) de Janzic, in the age of 36, who had just returned from his tour of the U.S.A. results a romance that caused much public interest among the U.S.A.

Count (Frederick) de Janzic married Miss Alice Silverstein, of Chicago, and while they were living in Kenya they met Mr. Raymond de Trafford.

Later the Countine left Paris to visit the United States, and de Trafford in the French capital, some time before a sensational confession that took place in 1927 at the farm de Noat.

Mr. de Trafford was leaving the station on the Calais train on route for England when de Janzic met him, and Mr. de Trafford said the two Countines were found wounded.

Both remained in England until the re-Countine was sentenced in the Paris Court later, and was released and left the country in 1929.

In 1929, Mr. Raymond Trafford and Miss Silverstone (who had reverted to her maiden name) were married in France.

GENERAL MARKET.
The Argentine Maize Crop.

Following is the weekly market report issued by the Kenya Farmers Association (Co-operative) Ltd.:

Maize.
Argentine continues to be a shipper of Maize in large quantities. Sellers are holding for 17/-, but purchases substantially at above 16/3/-; in fact, more demands post-poned for later delivery shipment have changed hands at 15/7/-.

Favorable conditions continue and reports of the new crop are that it will certainly be up to average. Continued pressure to sell has led to a change in prices generally. While India continues to be the main source of Maize in being disposed of at 14/7/- or so, the whole market is suffering from the Buenos Aires. There is a strong demand for small quantities of African Maize for manufacturing purposes at around about 26/50.

Wheat.
The market has been dull and uninteresting. Argentina is the main exporting seller. Prices show little change.

SEVEN
STRAY DOGS.
New Arrangements in London.

["STANDARD" CORRESPONDENT] London, January 2.

The Metropolitan Police are to make new arrangements in the New Year for dealing with lost and stray dogs in London. The new arrangements will involve closing down at least one of the three houses in which dogs are kept on the streets of London. This is intended to prevent the dogs from being taken to the East Ham home, which has received notice from Scotland Yard that he will receive no more lost or stray dogs from the local police stations after November 31. This means the closing of the houses on Clarendon Street, at the animals have to be kept for a week. Mr. Seiler said—'I have been here for 20 years. The closing is not only a hardship to me but to many people who will not be able to afford to travel to Battersea—where dogs go to go in future—to try to save a lost dog or two.'

Recently the North London Dog's Home at Willesden was notified that there would be no further orders from the police. It would have had to close at the end of the year had not Scotland Yard changed its mind.

Education.
THE SCHOLARSHIP'S PROPOSAL
To the Editor, "E.A. Standard,"
Sir—I was very interested in the letter written on December 14th by Mr. Hsu with reference to Mr. O'Shea's proposal to provide scholarships. All that Mr. Hsu has written is well worth careful study, as having formerly acted as Director of Education in the Colony and before coming to Kenya, having acted as Director of Education in the Indian Education Service, he has a wide and practical knowledge of the subject from within.

There are, however, one or two points in the letter already quoted to which I would like to refer. In the first place, as I read Mr. O'Shea's proposal, the gentleman had in his mind scholarships for those who want to proceed to overseas institutions of a University or a technical character. Secondly, there is no doubt that both the awarding of such scholarships and the extent of those who are enjoying their benefits will have to be carefully watched.

I do not share the apprehension of Mr. Hsu that the establishment of such a system of scholarships for European children, if we wait for that it will be years before we can inaugurate it, is a matter that is absolutely essential, and that it will save openings for our young people at the higher branches of the Services and professions.

I further believe that the provision of such scholarships will prove an expensive one, and may appear at first sight, I do, however, think that thoughts will have to be taken, both as regards the number and value of the scholarships, and of the way in which the necessary funds are to be provided. To put forward my ideas on those points would take up more space than you think could allot at the moment, but I hope to do so in the future.

Meanwhile, I trust that every man and woman in the Colony who has the welfare of the children at heart, will give their full support to Mr. O'Shea in his endeavour to meet the country's lack of opportunities for higher education. Yours etc. WILLIAM JESSIE.

UNEMPLOYMENT.
To the Editor, "E.A. Standard,"
Sir—Your report of what took place at Convention in connection with the pressing question of unemployment is a little misleading in that you do not state that there was a definite and

...of the country. It is only fair that the unemployed should take the full sympathy and counsel their request. There was no necessity to press my motion to a vote.
Yours etc. J. J. DOBSON, Nairobi, January 11, 1934.

THE GOVERNMENT UNEMPLOYMENT COMMISSION.
To the Editor, "E.A. Standard,"
Sir—The Government Unemployment Commission, which was constituted or reconstituted, according to an announcement in the Legislative Council a few weeks ago, has evidently not yet commenced its function. It has had time to consider the proposals of the Government members in all countries, and probably also to moving, but it has not yet been established. It is a pity that the Government members have not yet been appointed, and that the Commission is not yet in a position to begin its work. It is a pity that the Government members have not yet been appointed, and that the Commission is not yet in a position to begin its work.

PATRIOTISM AND PACIFISM.
To the Editor, "E.A. Standard,"
Sir—The other day I started to read a paper of international relations. In the opening paragraph those words occur: "In the light of which a viable new movement, the present-day movement for peace, is being born." It is a pity that the Government members have not yet been appointed, and that the Commission is not yet in a position to begin its work.

WIRELESS LICENSES.
To the Editor, "E.A. Standard,"
Sir—In your weekly edition dated December 10 I noticed that wireless licenses were under discussion with a view to their reduction. The reduced fee was mentioned as likely to be Shs. 20. This amount was no doubt suggested as it appears to be a standard amount for any tax in Kenya. As a Radio Society is now in existence I would be obliged if you would publish this letter in

French Bonds Fraud Repercussions.

BEGINNING OF DEBATE IN FRENCH CHAMBER.

Full Equity Promised. MEASURES AGAINST MAGISTRATES WHO POSTPONED PROCEEDINGS.

The strong public feeling aroused by the Byrnone bonds fraud was reflected when the Chamber re-assembled in an extremely tense atmosphere.

The Government was bombarded with questions and a debate on the scandal is proceeding.

The French Premier gave an unqualified undertaking that everything possible would be done to purge the administration of anything which had made such a fraud possible and that no-one responsible would be spared.

WHITEWAYS - NAIROBI THE SALE BARGAIN STORE

THE NEW STANLEY HOTEL NAIROBI. Kenya's Hotel de Luxe. CARS MEET ALL TRAINS AND PLANES. Cable: "Stanley". PRICE 25 CENTS.

A Canadian account of unusual methods of hunting lions in Tanganyika is causing great indignation in Britain. Mr. George Vandebilt, the American millionaire, who visited Tanganyika some months ago is credited with saying that lions were caught by baiting hooks attached to ropes tied to motor cars.

They're all Rushing to Our SALE. IN SIXTH AVENUE. We have had many wonderful sales in the past, but this time we announce to-day gives indication of surpassing anything previously held.

CHEVROLET

We have put

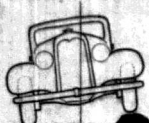

KNEES

in our automobiles...

changing your ride to a glide

People have expected something spectacular to celebrate our 25th Anniversary, and they will not be disappointed. Our 1934 cars are not the 1933 cars improved; they are the result of a far-reaching change in automobile design. To explain this very technical advance in a thoroughly non-technical fashion, we invite you to glance at the pictures below.

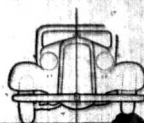

HOW KNEE-ACTION WHEELS WORK

Your present car is stiff-legged. Stiff front springs are rigidly joined by an I-beam front axle. So when you hit a bump the front of the car bounces, the rear pitches, and you are jared.

See how sensibly a man meets a bump. One knee bends easily, tilting his leg. The other leg is not affected; equilibrium is undisturbed. The knee, not the body, takes the jar.

Now, 1934—no more I-beam axle, no stiff springs. The wheel, flexibly mounted on its own self-guiding rim and falls like a knee to soak up the shock, while the car glides on.

JUST WHY THEY GIVE YOU THE GLIDING RIDE

A NEW front wheel assembly, involving a separate soft spring attached to each wheel, abolishes the I-beam axle and the old front springs. Each wheel can step over a bump or a hole without communicating jar to the car or to the passengers in it.

For more than two years, in its Laboratories and on its Proving Ground, General Motors has been at work pioneering the principle of these **Knee-Action Wheels**. No motoring improvement has ever been more thoroughly tested and proved.

The difference in comfort produced by **Knee-Action Wheels**, especially on the back seat, is beyond descrip-

tion. There is smoothness at high speeds and a steadiness and clinging to the road almost unbelievable.

Safety is much increased—the life of the car extended. There is no tramp of wheels on the road, no jerk on the steering wheel. Shake and shimmy are banished. Except for setting the course, your hands are at rest.

Have you watched a bird glide smoothly through the calm of a summer day? You may now travel almost as smoothly. With the ups-and-downs absorbed by **Knee-Action Wheels**, with drafts abolished by Fisher No-Draft Ventilation, the motor ride of yesterday is gone. Our cars of 1934 will glide.

Wilder Choice.
WITH the advent of the Franco-Turkish war, the Nairobi theatre-going public will, of course, have to sell their choice of entertainment. Tonight's program, a good opportunity for consideration—three entirely different pictures, all of which, on the whole, are small, cheap, and well-acted. Later in the week the same is true, as can be seen from the Chinese, Indonesian, or a modern story.

WOULD a notorious criminal, through a mistake of judgment, be given another man's life?

"His Landlady" was shown at the Prince Theatre for the first time on Saturday evening, but for those who did not see it that night, it will, of course, be among those that will be shown for tonight and its run lasts until Friday this week. A review appears elsewhere in this issue.

Fly Menace to Nairobi Health.

INSECTS SWARMING ROUND SUBURBAN BINS

A Doctor's Warning.

The Municipal Council blame Government for delaying by-law.

The fly of Nairobi are enjoying a marvellous carnival. They are being fed by the Town Council, whose new system of rubbish collection every second day suits the flies very well.

The Municipal Council blame the Government for building up approval of by-laws authorising the compulsory use of covered, fly-proof, bins.

The people of suburban Nairobi, hotel-keepers and housewives alike, do not care who it is to blame. They are tired of the fly nuisance.

According to the Municipal health authorities, there is no need to worry; things are worse now than they were last year.

But a private practitioner told "Standard" that there is real danger of an outbreak of dysentery.

Urgent Action Demanded.

No longer is it true as you say that there are no flies on the citizen of Nairobi.

During the commercial week the flies are swarming round the bins, covering them so that they fly over every area.

Now the flies are coming in from the suburbs, and the flies are swarming round the bins, covering them so that they fly over every area.

On the Hill Too.

In absolutely the opposite direction of the road—on the hill—there are also flies.

There had been no preparation on the long ago on the hill, but now there are flies.

It is very dangerous, and the flies are swarming round the bins, covering them so that they fly over every area.

"EXPRESS" BOMBERS FOR BUILDING OF THE LAW COURTS.

Result of the Second Tender.

[From a London (by mail).]
The design of the new building of the law courts is being accepted for the building of the law courts.

For the second time a tender has been accepted for the building of the law courts.

On Saturday the Law Courts Committee, after a meeting of the Secretariat, decided to accept Mr. George Brooker's tender for £57,710/0/0.

The tender for the tender of the contract is 14 months, to be completed in 14 months.

Mr. Brooker's tender was £57,710/0/0. The tender for the tender of the contract is 14 months, to be completed in 14 months.

Many ingenious mechanical details have been suggested for speed and economy in the construction of the law courts.

Third Round Results in the F.A. Cup.

THE 'SPURS PROVE TOO GOOD FOR THE HOLDERS.

Nine Drawn Matches.

CONSIDERABLE THINNING OF THE RANKS OF THE THIRD DIVISION CLUBS.

London, January 30. [STANDARD CORRESPONDENT.] In the third round ties of the Football Association Cup played on Saturday there were no fewer than nine drawn matches, seven of which were of one goal all.

There was a considerable thinning of the ranks of the Third Division clubs, of the eighteen in the field only four were successful while three only could manage to draw.

Charlton Athletic, suffering defeat at the hands of Oldham, Gatehead had their hopes shattered at Workington, the latter being a hard side to play on their own ground and they were out in the fourth round.

Luton Town and Arsenal provided an interesting tie for the football club failed to accomplish what Walsall did last season nor repeat their own success against the Spurs in the fourth round.

Ashton Villa, who were expected had a stiff tussle at Chester and these two teams are due for a replay.

Bolton Wanderers were victorious against Halifax at Burnley Park but the great local battle between Sunderland and Middlesbrough at Noker Park resulted in a draw of one goal all.

Sunderland and Middlesbrough have been only once previously drawn together in the competition and produced three 'one-all' results.

The first meeting was at Middlesbrough on November 26, 1897, and the second at Sunderland in a draw of two goals each.

On the following Saturday, the replay took place at Sunderland, and the result was a 2-0 win by the home side.
