The main purpose of the section of the Bill dealing with the forming of strikes is to secure compliance with negotiated agreements and awards made by an arbitration tribunal or the Industrial Court.

If the Bill becomes law the Minister will have power to declare a strike unlawful if he is satisfied that there is machinery available for the voluntary settlement of a dispute and all practical means of reaching a settlement, through that machinery, have not been exhausted.

He may also order the parties concerned to make use of the settlement machinery.

Unlawful if agreed already

A strike may also be declared unlawful if the matter is in dispute in the subject of a negotiated agreement, or an award of a tribunal or the Industrial Court, which has not yet expired. The Minister can then order the parties to comply with the agreement or award.

Similarly strikes and lock-outs designed to secure the parties to a dispute, either directly or indirectly, to hand over the power to settle the dispute to an arbitration tribunal, will be declared unlawful.

STUDENTS RETURN TO KENYA AFTER RUSSIAN ULTIMATUM

A RUSSIAN Aeroflot airliner landed at Nairobi Airport late on Monday night bringing home 29 Kenya students from Baku, where they had been studying for the past six months. The airlift had been chartered by the Soviet Government after 94 students had been given an ultimatum to return to their studies in Baku or return to Kenya.

Most of the 94 students stayed in Russia but the other 29, including two women, refused and flew home in a chartered aircraft which was given special permission to land in Nairobi.

On their arrival yesterday the students complained of spending six months of money in Baku, and alleged that they had suffered hunger, cold and racial discrimination.

They also indicated that the murder of a Ghanaian student five days ago had been a major factor in their decision to leave Russia.

The Assistant Minister for Education, Mr. Kenyan, said that the Government was pleased that the students had returned to Kenya. He said that the Government would be glad to help them in any way possible.

PLAIN FRUIT JUICE IS NOT ENOUGH

As every mother knows, there are certain food supplements that all babies must have to help them grow strong and healthy. Many do not realize, however, that the **Vitamin C that appears in fresh juices**—important as it is for their health and development—is not enough by itself. Every baby must also have **Vitamin A** for growth and good sight. **Vitamin D** for strong bones and teeth. Doctors are alarmed about the number of babies who are getting only Vitamin C supplements, and there have been reports in the medical press of cases of rickets—a bone disease caused by lack of Vitamin D.

You can't afford to risk the health of the little ones you love. Make sure they have **Haliborange** every day. Haliborange gives babies all three vital vitamins A, D, and C—a unique mixture that ordinary syrups, juices, and babies' and young children simply love!

Tripartite Agreement to relieve unemployment ends today. Sides will try to help workless

Commission report rejects 'elite' party idea

Agreement to relieve unemployment ends today. The Government, the Federation of Kenya Employers, and the Labour had concluded discussions on the terms of the agreement. The Government announced yesterday.

The text of the Government's statement is: "Being conscious of the fact that the Agreement was essentially an interim measure designed to provide a breathing space during which long-term plans could be established for developing the country's economy, the parties have agreed that the Tripartite Agreement shall cease to be an instrument of industrial relations as from April 5."

However, the parties wished the following points to be clearly understood, that the Government and the Federation of Kenya Employers have agreed to have undertaken that the maximum possible number of additional workers who were engaged under the Agreement will be absorbed into regular permanent establishments.

Completed 14 months' work

It was also agreed that no additional worker engaged for the purpose of complying with the Agreement will be discharged before he has completed fourteen months' service with the employer.

The Kenya Federation of Labour has undertaken to assist all affiliates that all available machinery should be used for negotiating wages and other issues; but that negotiations should be conducted keeping in view the interests of the workers who were employed under the Tripartite Agreement.

The spokesman said that Government wish to take the opportunity of congratulating both sides of industry for the accomplishments achieved, and to express the hope that such achievements would not be marred by irresponsible behaviour on the part of either side. This voluntary and unique temporary measure.

REVOLUTIONARIES WARNED

Kenyatta says 'I'll fight again'

Kenyatta has warned any budding revolutionaries in the Government is strong enough to deal with any whether from internal or external sources. 'I with all my strength', he said at a meeting in African wants to fight me, let him try.'

President Kenyatta strongly condemned those who went round the country telling others that free land would be given to them. Some of those were in Murang'a itself, and they should be condemned and rejected, for such a thing would never happen, he said.

The President said that he had heard that at a recent meeting led by Mr. Richard Kinyanjui of Murang'a, Mr. Gichoya of Kirinyaga and a certain Kimani it was agreed that people should get free land and that they should not say the word "harambee".

'What have you done?'

A KNA report said he was turned to Mr. Kagga, who was sitting next to the Minister for Co-operative and Marketing, Mr. Paul Nguni, and told him: "Kagga, you are deceiving free things, but we were together with Paul Nguni in jail if you go to Kigali's home, he has planted a lot of coffee and other things. But have you done for yourself? If you go to Kigali's home, he has a big house and a car. You were together with Kigali Kinyanjui in jail, now he is running his own business. What do you do for yourself?"

Mr. Kenyatta said that he had also worked hard with his own hands since he had, and now he had a very nice shamba on which he grew all sorts of cash crops, oranges, pineapples, and other things. He said he would like to see the President and his wife to see his shamba.

Why we're looking forward to the next 75 years
(Look how far we've come in the past 75)

In 1881 Gottlieb Daimler built the very first truck. In 1923 Carl Benz developed the first diesel truck. Today Daimler-Benz is the largest producer of commercial vehicles in Europe.

We've arrived at this happy position by always building vehicles that fit the job - that's our motto. For example - more power and better gears. And we've got the perfect facilities to match.

It might seem to us we were right enough. So we're looking forward to the next 75 years.

STRUGGLING WOLVES

KEEP SLIM HOPE

ENGLAND TOP THE TABLE

THE international club football season has got off to a disappointing start in England with the national team losing to the Scots at Wembley on Saturday. The Wolves, however, have had a more successful start, leading the league table with 11 points after five matches.

The Wolves' victory over the Arsenal was a significant blow to the latter's hopes of winning the title. The Wolves, on the other hand, have been in excellent form, scoring goals in every match.

The national team's defeat to the Scots was a surprise, as England had been expected to win. The match was a closely fought affair, with both sides having their moments of brilliance.

SUDAN beat Kenya 4-2 in their Africa Cup soccer match at Khartoum on Saturday. The Kenyans had an upset of the play as Sudan in the first half, the Kenyans had 4-2 the lead. They dominated the second half for most of the latter stages.

Sudan took the lead in the 20th minute. Kenyans equalled two minutes later, but the Sudanese again went ahead after 45 minutes. Kenya headed another goal in the 70th minute, their goal coming from Dabalo, but after that they merely looked like they were in the fifth and 75th minutes completed Sudan's victory.

It was Kenya's outstanding player in a match which provided a great spectacle for the spectators. Sports commentators described the game as better than international football recently at the Khartoum Stadium. Many were much taken by the Kenyan players, particularly Arab Republic, headed the game.

180 dead as tornadoes hit America

TORNADOES ripping through six states of America's Middle West on Sunday and early Monday night killed at least 180 people and injured thousands of others.

They can't even make an estimate of the number of injured, an Indiana State Police official said. They're just hauling them away, load after load. The howling dark funnels of twisting white clouds, which had demolished churches and wrecked roofs clean off the roofs as they bore through the fields, the woods, the farms and the crowded cities.

The great tornado which hit East St. Louis, Ill., on Sunday night, was the largest ever recorded in the United States. It was 1 1/2 miles wide and 100 miles long. It killed 247 people and injured 10,000. It was the first tornado to hit a city since the 1920s.

BIG BLOW TO UGANDA

Captain breaks ankle

Kampala, the Uganda capital, was rocked by a major earthquake on Saturday night. The quake, which was felt over a broad region south of the capital and as far as Kampala, was the most severe to be felt in the area since the first world war. It was immediately followed by a second earthquake of a magnitude of 5.5. A medical report said that 100 people were killed and 200 injured. The earthquake was broken to the second a little higher up. It is thought that Kampala will be out of the game for a considerable time, and the question of his ever playing world cup is in doubt. The deficit was covered by borrowing from the East African Regional Trade Association and the International Bank for Reconstruction and Development. The deficit was also covered by the sale of foreign exchange reserves. The deficit was also covered by the sale of foreign exchange reserves. T.T.A. may be wound up at end of month

Members of the East Africa Tourist Travel Association are expected to meet at an extraordinary general meeting of members on April 28 to discuss the possibility of providing for the transfer of the association's assets to a new body for the promotion of tourism in an East African State.

The proposals are contained in a draft resolution which is designed to arrange for the transfer of assets as at the end of this year. The "new" body may be established by the East African Governments.

The association's chief executive officer, Mr. W. J. D. Walter, yesterday declined to comment on the resolution in view of discussions at this stage which preclude the consideration of the resolution by the association's members.

NO LACK OF CONTINUITY

It is said however, that the E.A.T.T.A. would continue to exist until the new body was constituted. "There would be no lack of continuity in the promotion of East Africa tourism," he said. "The association will definitely continue until the new body is set up."

It is understood that discussions will be going on for some time on the formation of a new Government, general tourist body. At present the Governments of Kenya, Tanzania and Uganda are listed as full members of the association. The Uganda Government withdrew from full membership last year. The Kenya Government is now a member of E.A.T.T.A. The association's annual report, which was laid on the table at the meeting, dealt with the association's development on an East African basis, and its plans for the future.

COMMONWEALTH GAMES MOVE

Olympic body takes over

THE world federation of sports, the Commonwealth Games Association is to take over the Commonwealth Games Association's present financial and administrative responsibilities and assumed by the Commonwealth Games Association's present governing body.

The president of the Commonwealth Games Association, Mr. Harold Brunner, who suggested the move, said that it was the best interests of sport in the country. It was felt that to have separate committees dealing with the African Games in Botswana, the Commonwealth Games in Jamaica next year and the Olympic Games in London in 1960 was not a good thing, and that the control of sport in this magnitude should be the responsibility of one body.

OTHERS IN SYMPATHY

As the Kenya Olympic Association was the most important body in the country it had been decided that the Commonwealth Games Association should come under its jurisdiction in order to strengthen its position, particularly in the selection of officials and referees. It is expected that other national associations will also come under the jurisdiction of the Commonwealth Games Association.

The chairmanship of the Kenya Olympic Association, Mr. A. S. Atkinson, was present at the meeting and spoke in the Commonwealth Games Association. He said that he was well known to the African Games in Botswana, the Commonwealth Games in Jamaica next year and the Olympic Games in London in 1960 was not a good thing, and that the control of sport in this magnitude should be the responsibility of one body.

ARI DAY OF SHOCKS AND DRAMA

Person retires 'to wife's chance'

Shocks and drama, four Kenya trains were leading the East African Safari when the crew reached Nakuru on the Northern leg. Out of the strongest overcast, a heavy rain shower in local South looked a serious threat to the progress of the safari. With heavy rain producing the heaviest areas, fewer than 60 cars may reach Nairobi to start the Southern leg today.

For once, though, the fluctuations in the leading positions were overshadowed by the morning's sensational news with the sudden withdrawal of the two leading favourites - the German champion Eugen Boehring in a Mercedes 2000S and the brothers-in-law team of Erik Carlsson and Stigling Moss in a Saab.

Safari HQ based with speculation on what had happened to these top drivers, though there was no lack of other incidents on the Mercedes driven by Bill Haxley came into a bend of champagne and Ann Hall and Lucille Cardwell called their Mercedes, but it landed on its wheels and they drove off determinedly.

This unexpected development was not entirely his fault to some extent, but he had to make a dash for safety as the Mercedes was unable to negotiate a sharp curve and ran into a field and on to a ditch.

The matter continued to develop as the Mercedes was stuck in the ditch and the driver was unable to get it out. The Mercedes was stuck in the ditch and the driver was unable to get it out.

A view of the head from a central official said, while a cloud of dust, the Angles driver driven by Peter Ingham and Bruce Stewart came in to the East African control point on the return run to Nairobi from Kampala.

BRITISH HOPES FOR VIETNAM TALKS

BRITAIN, Prime Minister Mr. Wilson said yesterday he thought some action could be taken to bring peace in Vietnam. "But there are two essentialities to be held with some of the Governments concerned," he told reporters after returning from talks in Washington with President Johnson.

There was no sign that the Viet Government would now really be for the first time, held out the prospect of a peaceful settlement.

President Johnson and Mr. Wilson were believed to have agreed to give further talks to the possibility of a peace settlement in Cambodia, which still remains a neutral zone.

Mr. Wilson said at a press conference in Washington that the United States and the United Kingdom would be prepared to discuss the possibility of a peace settlement in Cambodia, which still remains a neutral zone.

FOUND THE NORTHERN LEG

It took 10 days to round a tight turn-off this Nissan PD10 (TK) driven by John Hill and Feroz Parsons seems to be making fast time.

Still motoring after their shakedown, 200SE returned near Muggingside and locked back on its wheels after skidding off the road and hitting two banana trees on Lucille Cornwell and Anne Hall.

The first casualty of this tough safari was a Fiat Abarth, driven by Eddie Fontaine Geary which overran the horizon near the Zambesi Motel, scarcely 20 miles from Nairobi. The car skidded and rolled four times. Neither Mr. Geary nor his co-driver Perry Mason was injured.

This Citroen DW19 driven by Nick March and David Farbridge appears to be heading straight for the bush.

Coming in to Embobes battered but still going well is the Ford Cortina GT driven by Michael Armstrong and S. C. Bates.

Sending up a cloud of dust as they negotiate a tight bend between Kinilili and Embobes are Jeffrey and Simon Bathurst in their Peugeot.

ers meet to ss control y Tanzania

have approached the Tanzania game authorities, Wildlife Safaris Ltd. to try to find out what Government that safaris are to be controlled by the Government through Tanzania Wildlife Safaris.

The representative of the East African Professional Hunters' Association, Mr. J. J. M. Ryan, said yesterday that it was impossible to say at present what effect the new regulations would have on safaris operated from Kenya.

A safari from the Tanzania Government had been on an all-terrain operation during the week ending January 1, but will be cancelled through Tanzania Wildlife Safaris, because wildlife was a total loss from which the profits should come to the safari.

PROFITS CUT FEARED

"We do not know whether they want to go further into Tanzania and buy all the food and so on there, but we believe they will take a percentage from all safaris taken into Tanzania," Mr. Ryan said.

A meeting of the Kenya Game Club members decided to wait until the regulations are issued. Further action will be taken if the implications of the new plan are clear.

Mr. Ryan said that from the viewpoint of the hunting, photographing, and film-making, safaris were as important as well.

NEED FOR EDUCATION OF WOMEN REALISED

MANY people in Kenya realize the importance of education for women, and Senator D. O. Makuluhi, who has introduced a bill regarding young students' training, says that the Government should realize the need for a greater emphasis on the education of women.

Mr. Makuluhi said that Kenya is a developing country and that the Government should realize the need for a greater emphasis on the education of women.

He said the importance of education for women is to be emphasized in the national curriculum, and that the Government should realize the need for a greater emphasis on the education of women.

CLOSE RELATIONS

The close relations between the Kenya and the United Kingdom are being emphasized by the fact that the Government has decided to send a mission to the United Kingdom to study the organization of public services.

The mission will be led by the Minister of Education, and will include representatives of the Kenya Government and the United Kingdom Government.

The mission will be in London for a period of six weeks, and will be followed by a similar mission to the United Kingdom.

Important place

The Government has decided to give an important place to the education of women in the national curriculum.

FREE LAND NO ANSWER TO PROBLEMS

The Board has said that such a policy would be disastrous for the country's agriculture.

HEROES' WELCOME FOR BROTHERS

led by crowd of thousands at finish

...very happy, Joginder and Jawant Singh got a warm welcome from the vast crowd outside Nairobi City Hall as Joginder drove home their ES50 privately owned 13th East African Safari after leading the field for practically the entire race.

Their win was overwhelming — they had secured 100 fewer penalty points in their second car on their return to Nairobi, and it notched for them several "firsts" — they were the first non-European team to win the Safari outright, the first pair of brothers, the first team driving No. 1 car and the first private entry to win since 1961. They are also believed to be the first Asians to win an international rally.

The brothers were mobbed by the crowd at the finish, with police leaving police warning a path for them. Last night statements were issued by Asian commentators from all over East Africa congratulating them on their astounding triumph.

Garland by mother

Among the crowd — some of whom had been waiting since early morning — was the mother of the two Singh brothers who was carrying parcels of fragrant and expensive for her sons, and who hurried to embrace them.

Joginder, who was obviously very tired after the long rally, was brought to a chair at the Nairobi market where he took the rest of the day, having entered as a Volvo a virtually of English manufacturer.

It was the car which Tom Traas — "The Flying Finn" — entered in last year's Safari, and it ranked some 200 out of Nairobi on the first leg. "I thought it was 200 — I never finished saying if it was, and probably it was my brother I took us two and a half months," Joginder said. "Since then we have driven it in several rallies."

They spent several thousand pounds on it with an annual budget from their own money, and they are manufacturers.

Joginder described this year's Safari as "very interesting, very hard, more like the 1961 Safari than the 1962 Safari." He said that the Volvo had been broken down several times, but he had no spare parts, and he had to make do with what he had. "I was very lucky," he said, "to have a spare part when I needed it."

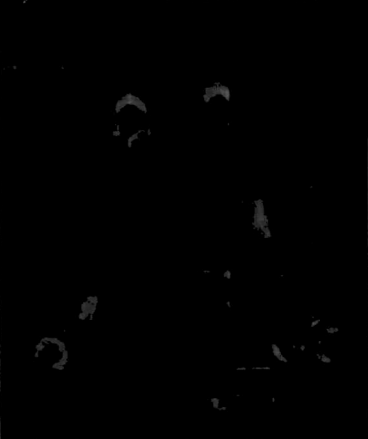

Like maniac

We whistled and sang like maniacs... we were as excited as if we were in an infant school... we were as excited as if we were in an infant school... we were as excited as if we were in an infant school...

Another child, a young boy, was seen to be shouting and jumping like a maniac... he was as excited as if he were in an infant school... he was as excited as if he were in an infant school...

At a report of 20:00... we were as excited as if we were in an infant school... we were as excited as if we were in an infant school...

At a report of 20:00... we were as excited as if we were in an infant school... we were as excited as if we were in an infant school...

The moment of triumph for Joginder and Jawant Singh. They have brought their Volvo home first in the East African Safari and now, garlanded by their mother and surrounded by hundreds of well-wishers, they sit on the roof of the car being photographed by the world's Press.
