## TANZANIA IS NOT 'A PEKING COLONY'

### Nyerere may look the East if forced

Standard Staff Reporter  
Nyerere said in London yesterday that Tanzania was not a Peking colony. Certain circles, he added, would believe anything he said. For, for example, there was no money Chinese in the country that hotels had to buy for them on the beach.

"We are friends with China. But we do not take orders from Peking although I am not likely to convince certain people that this is true. We do not take orders from East Germany or from Moscow."

### More Americans than Chinese

The President pointed out at a Press conference that if the Republic was so much under the Communist thumb as they made out, then he could not have demoted East Germany to a Consultative General without protest.

Secondly schools were filled with American teachers and Dr Nyerere added, that it was not surprising that secondary schools were filled with American teachers. But if they had been Chinese teachers everyone would have said that he must get rid of them.

Tanzania rejected the Americans' attitude. "We are quite willing to expose our people to certain ideas if we see the Americans say that in certain Western circles."

**IS NOT ENOUGH**

As every mother knows, there isn't enough food supplements that all babies must have to help them grow strong and healthy. Many do not realize, for instance, that the Vitamin C that appears in fruit juices—important as it is for the baby's teeth and skin—is not enough by itself. Every healthy baby also has Vitamin A for growth and good eyesight, Vitamin D for strong bones and teeth. Doctors are agreed about the number of babies who are getting only Vitamin C supplements, and there even have been reports about the number of cases of rickets—a bone disease caused by lack of Vitamin D.

You can't afford to risk the health of the little ones you love. Make sure they have the maximum every day. Haliborange gives babies all these vital vitamins A, D, and C—and it tastes sweeter than ordinary orange juice, and babies and young children simply love it!

# NATIONAL AFRICAN STAFF FUND FOR KENYA

## Month to be top contribution

Members of the Kenya Government's National Provincial Fund yesterday by the Minister for Labour and Social Development. Registration for the Fund will begin as soon as August 1. It will eventually become compulsory for almost all Kenya's employees.

Basically it will be a savings scheme into which both employer and employee will pay five per cent of the worker's salary over his working life with the principal aim of making provision for his old age.

Money paid will earn interest, probably about three per cent, which will be added to the worker's monthly contributions. No contributions will be levied on the worker's salary which exceeds £4 a month, making the total combined contribution £4 a month.

Private provident funds will be allowed to continue. It is intended that those members of the National scheme but owners of the existing schemes may be allowed to make payment of the contributions paid into the National scheme — provided that no member should be worse off as a result.

### £3,000,000 in ten years

It is envisaged that, within ten years, the fund will amount to about £3,000,000 which will be administered by a special board. Most of the money will be used in Kenya.

Mr. Mwendwa said that since he announced the Government's intention of setting up the scheme, last December, discussions had taken place and representatives of workers and employers and other interested parties had agreed on all major principles of the scheme and it had been approved by the Cabinet.

It was not possible to give full details at this time, he said, but a Sessional Paper, which would not only outline the scheme but also explain the Government's reasons for introducing the scheme, would be published as soon as possible.

Initially the scheme will be established as a voluntary fund, but it is expected that after a period of operation it will be made compulsory for all workers employed in the public and private sectors.

Mr. T. Karuri, the British Deputy High Commissioner in Nairobi, said that he was glad to see the Government's initiative in providing for its workers and that it might also be a model for other countries.

Mr. Mwendwa said the fund will be financed from a combination of contributions from employers and employees. He said that the Government was willing to provide a grant of up to 10 per cent of the fund's capital.

He said that the fund would be administered by a board which would include representatives of workers, employers, and the Government.

He said that the fund would be established as a separate legal entity and that it would have its own staff.

He said that the fund would be open to all workers employed in the public and private sectors, and that it would be compulsory for all workers after a certain period.

## SECURITY COUNCIL DEBATES RHODESIA

UNITED NATIONS Security Council members have agreed to meet next Wednesday to consider an embargo by more than 20 African States to stop the Rhodesian economy.

The decision was taken after the General Assembly's Security Council on Wednesday 23 to order with four abstentions, to call upon Britain to "halt right and immediate" to "open the situation."

Under the vote Mr. Richard Maliba, of Denmark, who abstained, said he declined the lack of consultation with the sponsors of the resolution with other delegates.

There was a question of principle involved. "Do our friends from Africa and Asia really want to go through with their own resolutions which would be a total embargo on Rhodesia?"

Mr. Smith warned U.N. of danger.

RHODESIA'S Prime Minister, Mr. Ian Smith, said yesterday that if the United Nations continued trying to interfere in the internal affairs of any country it might lead to the downfall of the world body.

He added that, in that case, he had no doubt other countries would welcome his departure.

Mr. Smith said that he had received the news of the United Nations' decision with surprise and that he had no doubt that other people would welcome his departure.

## Report says envoy jailed in Zanzibar

MR. STEPHAN SHARF, Ambassador in Washington of the United Republic of Tanzania, was yesterday alleged to be imprisoned by Zanzibar, according to unconfirmed reports from the island. The ambassador had been saying a visit to Zanzibar during a tour of the republic for military consultation.

According to the reports circulating in Dar es Salaam, on his arrival on the island Mr. Sharf was arraigned before the Revolutionary Council on an unspecified charge and given a "confined" sentence of ten years imprisonment.

Attempts to discover the nature of the accusation, the grounds of the sentence, or the reasons for the confinement, were unsuccessful. Mr. Sharf is believed to be a former Czechoslovakian soldier, having been recruited by the Czechoslovakian Intelligence Service in 1945, which served the regime of the Soviet Union. He was later discharged from the service and was a close collaborator of the late President Nasser.

The Green movement 'Africanisation' committee, which is headed by Mr. Mwendwa, said that it was necessary to have a national conference on Africanisation of the country.

The weather in Zanzibar is said to be good, with a high of 80 degrees and a low of 65 degrees.

# 'New' aid on 'ern dragons'

was collected yesterday at annual dinner of the aid of George in many parts of East Africa. The night was the Attorney-General, Mr. Njoro, who was presided by the R. I. M. Njoro.

Mr. Njoro quoted from Shakespeare and Blynn examples of the love each man holds for his own country, arising from "irresistible yet unbreakable ties of kindred and blood."

"Aiming what it was about Kenya that made Kenyans especially desirous to be and give their own pride in ownership, he suggested that it was first and foremost the great beauty and variety of scenery, its agricultural and agricultural life. There were also the tremendous natural resources of the country, its rich and friendship of the people, their majestic beauty and their rich and varied life."

Mr. Njoro added, however, that Kenya was still a long way from being a land of milk and honey for most of its people. Much remained to be done in the field of development, and those who were privileged to serve their country's independent country found the strongest bond of all.

## TREMENDOUS, EXCITING WORK

In the light against these modern dragons, lack of educational facilities, poverty and disease, we indeed need the help of your people. We are sure that with every assistance the outside world, either through "aid" or "aid," provided always to be "uncommitted," he said.

Many members of the Royal Society of St. George were experts in their various fields, and technical assistance in the Government service.

agricultural sectors was the most important. The Royal Society of St. George was the first of nation-building.

Mr. Njoro said that the Government was now in a position to meet the needs of the country and to provide the help of your people. We are sure that with every assistance the outside world, either through "aid" or "aid," provided always to be "uncommitted," he said.

## NEED FOR STRONG CO-OPS

KENYA was fully aware that the solution to many of its problems, social, economic and political, lay in the development of strong and self-supporting co-operative societies.

Mr. Njoro said that the Government was now in a position to meet the needs of the country and to provide the help of your people. We are sure that with every assistance the outside world, either through "aid" or "aid," provided always to be "uncommitted," he said.

## TO BE ADAPTED

The fact that these provisions are being made for the future, he said, is a sign that the Government is taking a long-term view of its life and that it is not content with a short-term view. He said that the Government was now in a position to meet the needs of the country and to provide the help of your people. We are sure that with every assistance the outside world, either through "aid" or "aid," provided always to be "uncommitted," he said.

# KENYA LUCKY TO WIN AFRICA CUP MATCH END IN 1-1 DRAW

KENYA had a narrow escape from defeat in the opening match of the Africa Cup football tournament when they were lucky to hold off Uganda in the first round. The game ended in a 1-1 draw, with Kenya's goal scored by Peter Ochieng and Uganda's goal by John Mwangi.

### GOOD INTERVIEW

In the first 15 minutes of the game it looked as though Kenya's opponents had some better players. They chased every ball and directed their attacks to better purpose than Kenyan. They were in the habit of well-worked, long and accurate passes.

Both sides were poor in front of goal. Kenya had a number of chances in the opening minutes to score goals. Mwangi, apparently recovered after his long injury, a surprise shot gathered on the line by Sudan's goalkeeper. Four minutes later Ochieng pulled a lead from under the Kenyan goalkeeper.

Kenya's attack started well, but they were forced to stop for a moment when the Ugandan goalkeeper made a brilliant save. The Kenyan attack was then forced to stop for a moment when the Ugandan goalkeeper made a brilliant save.

## DEFINITION OF AFRICAN SOCIALISM

### 'Unifying voice of our people'—President

PRESIDENT KENYATTA yesterday launched African Socialism, as it is officially defined by the Kenya Government, with a call to the people to roll up their sleeves and work at nation-building instead of wasting time on idle debates and theories.

Speaking at a Press conference where he introduced a Government pamphlet on 'African Socialism and its Application to Kenya'—which he described as 'our Bible' on the teaching of African Socialism—he said it could be taken as more or less an extension of the policies indicated in the Kenia election manifesto of 1962.

The paper should put an end to all the conflicting theories and theories which had been going on about African Socialism. It would be explained in Parliament and the public by the Minister for Economic Planning and Development, Mr. Moya, and his colleagues.

Mr. Moya told the Socialist Paper in the House of Representatives and is expected to open a debate on it next Tuesday. At his Press conference, the President said:

#### Rapid progress for all

'Since attainment of our independence just over 18 months ago, the Government has been developing the measures that will ensure rapid economic development and social progress for all our citizens.'

'Apart from the Budget statement last year, the Government published a Development Plan covering the years 1962-63. This Plan was prepared in accordance with and intended to enable us to enable Government to adjust any of the measures in the field of economic and social development.'

'At the same time, we have had secondary schools, technical schools, and colleges, and we have been able to set up a system of free education for all our children. We have also been able to set up a system of free health care for all our citizens. We have also been able to set up a system of free housing for all our citizens.'

'We have also been able to set up a system of free electricity for all our citizens. We have also been able to set up a system of free water supply for all our citizens. We have also been able to set up a system of free transport for all our citizens.'

'We have also been able to set up a system of free medical care for all our citizens. We have also been able to set up a system of free dental care for all our citizens. We have also been able to set up a system of free eye care for all our citizens.'

'We have also been able to set up a system of free mental health care for all our citizens. We have also been able to set up a system of free drug supply for all our citizens. We have also been able to set up a system of free medical equipment for all our citizens.'

'We have also been able to set up a system of free medical research for all our citizens. We have also been able to set up a system of free medical education for all our citizens. We have also been able to set up a system of free medical training for all our citizens.'

'We have also been able to set up a system of free medical services for all our citizens. We have also been able to set up a system of free medical facilities for all our citizens. We have also been able to set up a system of free medical staff for all our citizens.'

## U.K. not against Tanzania union

Unsettled but positive, says Mr. Selous

BRITAIN has no objection to the formation of a United East Africa, says the Secretary of State for Overseas Development, Mr. Selous, in a statement today.

He said that the Government was studying the proposal for a United East Africa, which would include Kenya, Tanzania and Zanzibar.

Mr. Selous said that the Government was not opposed to the formation of a United East Africa, but that it was necessary to ensure that the interests of all the countries concerned were protected.

'The Government is not opposed to the formation of a United East Africa, but it is necessary to ensure that the interests of all the countries concerned are protected. We are studying the proposal and will report to Parliament in due course.'

The only justification for introducing a new motor oil to a public already well supplied, must be its outstanding...

# Super MOTOR OIL

**IDEAL FOR EAST AFRICAN MOTORISTS**  
Shell Super Motor Oil is a unique example of a new international product so perfectly suited to motoring in East Africa that it might well have been specifically formulated for conditions in this part of the world.

### IN SIMPLE LANGUAGE

The new Shell Super Motor Oil is a thin lubricant when cold for easy starting - a medium grade for average driving conditions and a heavy, heat resistant protective oil under severe sustained high speed and tough safari operating conditions.

### EXCEEDS MANUFACTURER'S REQUIREMENTS

Car manufacturers constantly seek to improve the performance of their models. Engines are asked to work harder and harder at increasing revolutions. Naturally, these manufacturers look to the oil companies for progress in the formulation of lubricants. They set certain standards before endorsing the use of any product in their engines. New Shell Super Motor Oil exceeds these requirements by a wide margin. It is in fact the oil for the cars of tomorrow—available for your car today!

### FOR THE TECHNICALLY MINDED...

The claims made on this advertisement are authenticated by fully documented research data. Copies of this will be forwarded to any technically-minded motorist or mechanical engineer, on request to Shell.

# CORTINA TOP OF ITS CLASS

## 1st and 2nd in Class 'C' and 3rd Overall in the 1965 E.A. Safari

...and there's a Cortina to suit you from the same stable!

There have been some beautiful changes in the new Cortina line. It's not an overstatement to say that the new Cortina is a big, fun-to-drive car for a leader in the new 1965 interior in Cortina. And there's more to it than meets the eye.

The ventilation system is all new. It features adjustable louvers on either side of the instrument panel to keep the air flowing through the car. The air is filtered through the back through which made it a special feature. You get a continuous flow of fresh air from the air filter and the rear window louvers throughout the journey. A new instrument panel, new dashboard light and light control switch, new "easy dial" safety eye steering wheel, new instrument panel.

You get more for your money in any Ford-built product. Performance has been sharpened, too. New-fading disc brakes have replaced conventional drum brakes at the rear wheels. Engine horsepower and torque have been increased to improve acceleration in both the 1200 cc and optional 1500 cc engines. Cortina now only looks new but has new responses, too!

You've Found Products Dealer invites you to discover the very best price on our market—the new Cortina for 1965! It's offered in Standard, DeLuxe, Super GT, and Super Car models, with two doors or four doors.

## NATIONALISATION

**CONFLICTING** interests in nationalisation have been the cause of the delay in the passage of the policy clearly and down in the direction of a nationalisation program.

A nationalisation bill has been introduced in the Kenyan parliament. The bill is the result of a long process of negotiation between the Government and the various industries which are to be nationalised.

The bill is expected to be passed in the near future. It will give the Government the right to take over the assets of the various industries and to operate them as public enterprises.

The industries to be nationalised include the sugar industry, the cotton ginning industry, the oil industry, the electricity industry, and the telecommunications industry.

The Government has announced that it will be taking over the assets of the various industries and will be operating them as public enterprises. This will enable the Government to control the economy and to use the proceeds of the nationalisation for the development of the country.

With the rains come a deluge of requests for lifts in Nairobi. Often they are given willingly by the motorists who are usually grateful if cars are available to take them to their homes or to the office.

The practice of thumbing a lift has become a thing of the past in Nairobi. This is because there are now many taxis and other vehicles available to take people to their homes or to the office.

The practice of thumbing a lift was once a common sight in Nairobi. It was a way for people to get around the city without having to own a car. But now it has almost disappeared.
