

# CRUCIAL TALKS ON RHODESIA

## Mr. Wilson expected to go to U.N.

## Africa in a mess says Dr. Nyerere

Mr. Ian Smith's Rhodesian régime made its illegal designation of independence, the British Cabinet met yesterday for discussions on its next moves to bring the break-away colony to Government sources indicated that key decisions taken will not be announced before next week.

The meeting considered Mr. Smith's reply to the "last chance" proposals of the British Prime Minister, Mr. Wilson, aimed at a settlement of the year-long independence deadlock. Most observers have indicated that the British Government is not satisfied with Mr. Smith's reply.

Support for this view came in the House of Lords last night when it was agreed to extend the Southern Rhodesia Act, 1965, for a further year. This is the Act giving the British Government formal powers to deal with the independence issue, and to take measures such as economic sanctions.

Mr. Wilson has warned that he will seek U.N. action to make selective economic sanctions against Rhodesia compulsory unless Mr. Smith indicates that he is willing to bring the situation to end.

### Ministerial pressure

Mr. Wilson is facing increasing pressure from backbench M.P.s and Ministerial colleagues to get together with the illegal régime. Several Ministerial resignations are expected if there is any danger of a "sell out" of Rhodesia's 4,000,000 Africans.

Ministerial names in Press speculation as most likely to resign include the representative of the Ontario District of Canada, the Minister of State for Commonwealth Relations, Mr. Keith Hart, and the representative of Foreign Affairs, Mr. Sir Ernest Barnes.

### NO TALK OF WAR—Mr. MURUMBI

Kenya's Vice-President, Mr. Murumbi, said last night from the O.A.U. conference that there had not been any talk about going to war with Rhodesia since the British Government failed to topple the régime.

He said that a number of African states at the conference on the subject of Southern Rhodesia had agreed to support the O.A.U. in its efforts to bring about a settlement of the Rhodesia problem. He said that the O.A.U. had decided to send a mission to Rhodesia to try to bring about a settlement of the Rhodesia problem.

# Kenyan' campaign to cut unemployment

Kenya Minister for Commerce and Industry Mr. F. Leakey has launched a "Kenya Export" campaign to stimulate the growth and expansion of the country's export trade.

The campaign, which is being conducted by the Kenya Export Council, is aimed at increasing the volume of exports from Kenya to other countries.

Mr. Leakey said that the campaign would be conducted through a series of exhibitions and trade fairs, both in Kenya and abroad.

He said that the campaign would also involve the use of radio and television to promote the products of Kenya.

Mr. Leakey said that the campaign was necessary because of the high unemployment rate in Kenya, which was estimated to be about 10 per cent.

He said that the campaign would help to create new jobs for Kenyans by increasing the demand for their products.

Mr. Leakey said that the campaign would also help to improve the standard of living in Kenya by increasing the income of the people.

He said that the campaign would be conducted for a period of six months, starting from the beginning of 1965.

Settlers in Lamu have been clearing land for the construction of a new town. The new town is being built on a site that was previously occupied by a forest.

# Mr. A. T. WISE

It was with deep sorrow that we learned of the passing of Mr. A. T. Wise on October 28, 1968. He was a public relations expert and a member of the Kenya Press Council. He was also a member of the Kenya Press Council and a member of the Kenya Press Council.

He was a very good all-round student and represented the police at football cricket and boxing and his services to the force as sports secretary were invaluable.

Captain Rendell began flying in '35. Now he knows more than the books.

Captain Rendell's the Senior Captain on the BOAC VC10. Ever since his first went solo, he's been learning the little things about flying that don't come in books. Like the gentle art of landing like a feather. Or flying smoothly past patches of bad weather. Or checking thirty-nine flickering dials with one sweep of his eye, keeping in constant control of the details that make each flight in the VC10 such an effortless operation. He and the rest of the BOAC crew are people who are trained in perfecting the airline business.

The reason for this is the bench terrace system of agriculture, a practical term, but a revolutionary method.

**Imagine life without E.A.R. & H.**

The Largest Organisation in East Africa  
— At a cool £200,000,000 —  
Is East African Railways and Harbours

This year, more than 4½ million people will travel by E.A.R.&H. trains. Trains are fast, clean, and safe. What might surprise these passengers is that, for every one of them, E.A.R.&H. carry more than a ton of freight and that this (together with E.A.R.&H. hotels, road services and ports) involves a staff of 45,000 with an annual payroll of £11 million. E.A.R.&H. is very big business.

Developments on Lake Victoria show an enlightened approach to transport. A rail-wagon ferry now runs between Kisumu and Mwanza. Goods wagons (E.A.R.&H. rail 10,000) are simply shunted on and off the ferry by each end. Save time, and goods don't disappear or get damaged on route; they're safely sealed away, and stay that way till destination is reached.

Specialized goods: E.A.R.&H. handle almost anything. Last year's figures show, amongst thousands, 296 million gallons of oil, 500,000 head of cattle, 3000 tons of coffee, 760,000 tons of cotton, 150,000 tons of sisal, 720,000 tons of gramme, 300,000 tons of sugar, 115,000 tons of timber, 185,000 tons of cement and 110,000 tons of copper. It's no coincidence that these are the very backbone of East Africa's economy.

"He's a picture of health," Mrs. Griffith said. "He's full of good humor and he enjoys company. Except for the service he lives alone on the island... which is a paradise of long sandy beaches and green... a sense of solitude and peace which I have never experienced before. The days are full of sun, sand... and fun."  
 That the island fits of the Moore and you have to get to it by boat from Mirava and you have to arrange that more or less on a friendly private basis with the boat owners in Mirava. If you are lucky enough to be invited you must take food with you, which you can get in Mirava.  
 "While we were there we were nothing but kids," I should say, of

course, that I were what could be called a young. As for the kids, they played around naked most of the time.  
 Mr. Moore built his house himself. It is in Arab style and has been worn by the sea, but it is wonderfully cool inside. The only other house on the island is a modernist, with that was once used by two Rhodians... They loved the night, the whisper of the wind, the hiss of the pressure lamp, the almost too loud click as we shuffled the playing cards.  
 "For being all that isolated behind with the news. He gets the papers, listens to his battery radio. He was as well up with Yaman, the U.N. Rhodians, and so on, as we were."

about the right of small nations to self-determination that he did not see why he should not apply, but had admitted that he regarded the whole matter as a bit of a leg-pull, the Government statement concluded.  
 It was in 1952 that Mr. Leslie-Moore first saw Mirava from a shore and decided to stay there permanently in 1949 he

has rarely left it. He far prefers the peace and quiet to the noise of the mainland.  
 In the thirties the island belonged to an Indian shopkeeper and after the Indian's death in 1938, Mr. Leslie-Moore bought the territory by auction.  
 Mr. Leslie-Moore has turned it into a tropical Shangri-la, and each it looks like remaining.

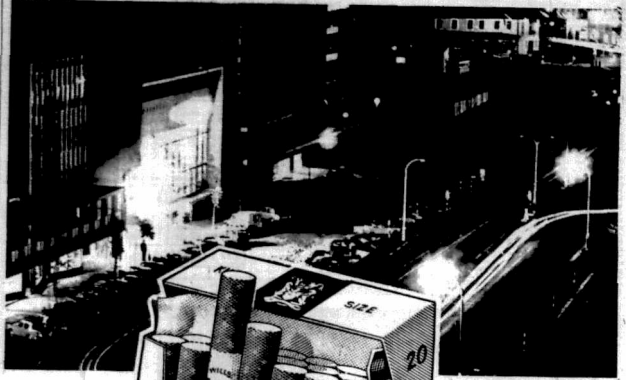

Mr. Tony Griffith and Mr. Leslie-Moore pose at the door of the Arab-style house to discuss plans for the day. The inscription above the door says "Hika, the most successful look with favour upon new restures".

Mr. Leslie-Moore, sporting a big sun hat sits on a net and goes in the fan when the Griffiths' children "hurry" their father in the sand.

**Right to secede**  
 In 1949 and 1961 Mr. Latham Leslie - Moore attracted world attention when, acting as "ruler" of the island he informed the U.N. that the fishermen of land wanted to secede from Tanganyika... He said that he and the island's few inhabitants wanted to invoke the U.N. Charter in "their right to secede."  
 By mid-1961 the island's news had been dropped. A Government statement issued in Dar es Salaam said that Mr. Leslie-Moore, on being informed that the administering authority would not support his petition to the U.N., recognized that he must pay his taxes to the Tanganyika Government like any other taxpayer. The statement went on to say that he had paid all outstanding taxes and licenses.

## Reassurance for V.o.K. audience

WHAT emerged from Mr. Owen's appointment as V.O.K. highgate really did cause about what you and I the business and thought about the service.

The reassurance was a month-end review in the statement of our efforts regarding the widespread criticism of management and staff changes. I am sure that you will find it a good idea for the business's ability to move up as many vigorous public relations.

By ROGER HOWE

A publicist's job would normally be to advise, not to advise. But since the appointment of Mr. Owen as V.O.K. highgate, it would be a good idea for the business's ability to move up as many vigorous public relations.

## WOMEN'S WORLD #1: A DYER CRIES Money wasted—and no help for the dead

**HAZUNI** women from the Congo were last in a poll that revealed the futility of spending money on extravagant periods—when relatives or friends do not share in the fun.

The census declares that when there is a death in the family and after the funeral has taken place, the women spend a great deal of money on a mourning period of 10 to 15 days, during which they wear black and white. They also buy a great deal of food for the mourning party. In the morning they eat a meal without putting a word in the mourning. They eat a meal without putting a word in the mourning. They eat a meal without putting a word in the mourning.

**LOUD CRYING**  
While women sit on the bed, their main occupation is gnawing their nails and their crying. They cry for hours, sometimes for days, and their behavior towards the neighbors is unbecomingly loud.

If a woman enters who was not at the funeral she is well received with an invitation to eat. A few minutes later they return to their mourning. The kind of mourning which has become prevalent in certain parts of the Congo is a mourning which is a mourning which is a mourning.

During this period the widow is not allowed to use make-up of any sort, except a mourning powder or a special kind of hair oil. She is not allowed to wear jewelry or to wear a headscarf.

## N. BACKS CALL FOR FORCE

### Successful move by Afro-Asian group

U.N. Afro-Asian resolution demanding that Britain use force to end the Rhodesia crisis was endorsed last night by the United Nations General Assembly by 89 votes to two, with 17 abstentions.

South Africa and Portugal voted against the resolution. Britain and most Western European countries abstained. The Netherlands and New Zealand claimed there was no ground for the use of force at present.

Before the vote, several African delegates made a fruitless appeal for important Western support for the resolution.

The co-sponsors, aware that only the Security Council sending U.N. bodies has enforcement powers, described the document as embodying "our hopes for settlement of this painful crisis."

The resolution once again drew the attention of the Security Council to the situation in Rhodesia.

It condemned the activities of foreign financial and other interests supporting the illegal régime. Mr. Seydoux D'Almeida, said the "greatest accomplices" of Rhodesia one year after the unilateral declaration of independence were the United States, Britain, France, Italy, West Germany, Japan and Belgium.

Rhodesia formally withdrew a proposed amendment to the resolution which would have called on Britain to end the rebellion by the end of the year.

# Kenya's range of mineral 'surprising' COMPANIES SHOW LIMITED INTEREST

Kenya's mining industry is small because of a shortage of skilled prospectors and the limited investment opportunities in the Department of Mines, says the Geological Survey, Mr. R. B. Baker, acting in a personal capacity as private geological consultant.

The survey, conducted by geologist, M. C. G. B. Du Toit, an advertisement of all known mineral resources in the country. The other essential element of the value of many of the resources, his report states, it should be understood that there were necessarily based on insufficient evidence in some cases.

Mr. Du Toit was the prospect to judge which seemed favourable to him. He also pointed out that many valuable mineral resources had been discovered as a result of an expedition which was equipped with the necessary tools and equipment.

"The number and range of mineral deposits known to Kenya was not as a surprise to those who assume that Kenya had no minerals," Mr. Baker says.

With numerous developments in the East African region, the Geological Survey and the Government intend to carry out a systematic survey of the country, which will be done in stages.

The prospecting work will be done in stages, the object of the operations was to provide a complete record of the minerals to be found in the country, to be used by those who are interested in them, and to be used by those who are interested in them.

Mr. Baker said that the Government was interested in the minerals to be found in the country, and that the Government was interested in the minerals to be found in the country, and that the Government was interested in the minerals to be found in the country.

# MORE FISHERMEN OF THE YEAR

## Thriving

Kenya's fishing industry is showing a steady upward trend. The number of boats has increased from 10,000 in 1958 to 15,000 in 1963. The catch has also risen from 10,000 tons to 15,000 tons. This is due to the expansion of the industry into the Indian Ocean and the use of modern fishing gear.

The Government has taken steps to encourage the industry. It has provided loans for the purchase of boats and gear. It has also established a fishing bank to provide working capital for fishermen. These measures have helped to increase the productivity of the industry.

The fishing industry is one of the main sources of income for many Kenyans. It provides employment for thousands of people. The fish is used for food and for export. The industry is growing rapidly and is expected to continue to do so in the future.

Dr. Robinson said the Government was anxious to ensure that information on family planning was available to all people who wanted it. He was speaking to 17 women employees of the Kenya Family Planning Association who were undergoing a three-week course at the Kenya Institute of Administration.

Dr. Robinson said a lot of work had been carried out by the Association and it was for the first time able to start a family planning campaign throughout the country.

The training would include information about spacing children for those who wished to do so in order to be able to look after them better and supply reasonable means of education.

## COUNCIL TO BE SET UP

In many parts of the country, people had children with such frequency and in such large numbers that the little they had had look after them through was not a great pleasure.

It had been proposed that a family planning council should be set up and that various interested bodies and persons would work together to carry out the work.

The Ministry of Health wanted the posting of revenue officers, with training in family planning, to be made available. He also wanted it to be understood that all business firms, whether they were large or small, should work together and help in the work.

It was not desired to have a permanent council. It was merely intended to be a committee which would meet from time to time to discuss the work.

Dr. Robinson said that the Government was anxious to ensure that information on family planning was available to all people who wanted it. He was speaking to 17 women employees of the Kenya Family Planning Association who were undergoing a three-week course at the Kenya Institute of Administration.

Dr. Robinson said a lot of work had been carried out by the Association and it was for the first time able to start a family planning campaign throughout the country.

## Children's big response to handwriting contest

There has been an overwhelming response to the Children's Handwriting Contest, organized by the East African Standard in collaboration with the Government of Kenya.  
 The contest has attracted more than 100,000 entries from children in Kenya, Uganda, and Tanganyika. This is a very encouraging sign, particularly in view of the fact that many of these children are in the early stages of their education. The contest was designed to encourage them to practice handwriting, which is a fundamental skill for all students.

**Widely read**  
 Kenyan competition attracted nearly 100,000 entries from children in Kenya, Uganda, and Tanganyika. Many awards were presented. Several entries were selected for publication in the Standard newspaper.

**Five shewing**  
 A boy at Lamuria, Kenya, secured an amazing low score in his handwriting contest. He had written only five words. The other four were blank. This was due to a lack of time.

**Explanation needed**  
 A Nairobi news item states that a student who had written only five words in the contest was asked to explain his work. He said he had run out of time.

# CRITIC'S PROBLEM OF LOOKING AND LISTENING

**FORGOTTEN** among the major problems of a critic is that of trying to hear what is said and listen to the music of the words. To effect the balance between these two and as a result not enough attention is given to the words, a fault we try to remedy from time to time.

On Thursday the Boston Herald-Examiner, in an editorial, said that I was not a critic because I did not write about the music of the words of the songs of the Broadway musicals. I am a critic because I write about the music of the words of the songs of the Broadway musicals. I am a critic because I write about the music of the words of the songs of the Broadway musicals.

By **BOBBE HOWE**

I would particularly like to have something to say about the music of the words of the songs of the Broadway musicals. I am a critic because I write about the music of the words of the songs of the Broadway musicals. I am a critic because I write about the music of the words of the songs of the Broadway musicals.

I have believed in a number of things in my life. I have believed in the power of the word, in the power of the word, in the power of the word. I have believed in the power of the word, in the power of the word, in the power of the word.

## SPARKLING FARE FROM BOMBAY

A FULL review of Asian films in Malabar, by KUL BHUSHAN, starts today.

**THE MUSEICAL AYO PEAR EAREN** continues to be the talk of the town. It has sparkling performances by Joy Mukerji and enchanting Saira Banu. In the first half, Saira Banu whiles through some tough bits although under the power of a tyrannical Indian prince bent on marrying her, Joy pretends to be a hillbilly to win the lovely damsel, and she follows her to the end.

# THE 'LETTERS' ABOUT TO BE WEST END PLAYS

BACK IN 1953 some of the letters of the Christmas Theatre were sent to various theatrical societies and to various theatres in the West End, because the young men got the bulk of the letters.

There were, however, a few letters which were sent to the West End theatres, but they were not taken into account.

THE RINGS OF MEN'S FASHION

Men all over the world are showing an increasing inclination towards the more elaborate styles which have been introduced in London. The British Press called him "The King of Carnaby Street" and sometimes "The Million Pound Man".

JOHN STEPHEN

JOHN STEPHEN is 29 years old. He is a Scot and he lives two doors down from the famous Victoria bus queue. He is married and has a young son. He is a well-to-do man and he is one of the few who can afford to buy clothes for leisure moments.

Younger, equally fashionable, middle-class, are favouring styles that have a touch of the flamboyant. The majority is a wish to be "different" and less imitative of their elders. In London today a few men are shaping the course of male fashion.

One is Hardy Amies, who started designing ties and shirts for men in 1897. He began his career by designing clothes for women and still does. His hair-cutting house is in world-famous Naville Row.

Another is a young Scot, John Stephen, who went to London from Glasgow ten years ago and has succeeded in putting a small street in the West End on the map. Today Carnaby Street is synonymous with teenage fashion.

He, too, was once called "The King of Carnaby Street" and sometimes "The Million Pound Man".

HARDY AMIES

Hardy Amies was born in London, England, in 1898. His father was an architect and his mother a dressmaker in a court-dressmaking establishment. At 12 the young Amies became a designer for one of Britain's leading women's tailors.

Hardy Amies employed a staff of more than 200, including a team of British designers and salesmen.

War in 1939 interrupted Hardy Amies' career. He joined the army as a private and was a lieutenant-colonel when the war ended in 1945.

He served in the Intelligence Corps, was trained in organizing sabotage and resistance in occupied countries and in guerrilla warfare.

Hardy Amies started his design business in 1947. He works with ties and shirts. He said he was content to be forgotten by the British public.

**Winkles**

The appearance of wrinkles is a natural part of the aging process. However, there are many things you can do to prevent wrinkles from forming or to reduce their appearance.

One of the most important things you can do is to use a good quality moisturizer. This will help to keep your skin hydrated and prevent it from becoming dry and cracked.

Another important thing is to avoid excessive sun exposure. Sun rays can damage the collagen in your skin, which leads to the formation of wrinkles.

Finally, it is important to maintain a healthy diet and to exercise regularly. This will help to keep your skin in good health and prevent wrinkles from forming.

## Personal questions answered about superstitions

Q. Will people die if I walk there during my period?

A. No, unless you get it easy by the way. It is a superstition that has no basis in fact. People die for many reasons, but not because of their menstrual cycle.

Q. Can anyone tell if I'm having my period?

A. Not unless you tell them. It is a private matter and should be kept that way.

# Jack-of-all-Trades and master of one

By FRANCES CHILDRWOOD

**JACK LONDON**, who died tragically young in 1916, was a writer who brought to the public attention by his tales of the life of the "king of the Klondike" in various parts of the world.

If ever a man spent his life accumulating material for published stories that made the name of Jack London, who died fifty years ago this November, from the circumstances of the Klondike, they were undoubtedly those in several places. In fact, his start in life was so dramatic, and his upbringing so unbalanced, that both facts bearing on his life.

His parents had an accident which resulted in the death of his father by a steam boiler in 1887. The mother, a widow, supported her family by doing housework for a gentleman. Jack's mother was a good pianist and a good singer. She was a woman of a certain type, a woman who was a lover of literature. Her father was an Irishman who was a writer of the "penny dreadful" type. He was a man of a certain type, a man who was a lover of literature. His mother was a woman of a certain type, a woman who was a lover of literature.

## BRIDGE

By K. BECKGAARD

### Importance of big hands

If you have many pairs of hands, you should know that they are important. They are the tools of the trade. They are the tools of the trade. They are the tools of the trade.

Some reasons, especially the various Italian ones, have been given. They are the tools of the trade. They are the tools of the trade. They are the tools of the trade.

These should only be required upon an agreed structure of bridge bids, which you know. They are the tools of the trade. They are the tools of the trade. They are the tools of the trade.

Two hands receive the point of the first bid, which is the main bid. They are the tools of the trade. They are the tools of the trade. They are the tools of the trade.

It was a long time ago that I was playing bridge. I was playing bridge. I was playing bridge. I was playing bridge. I was playing bridge.

With an opening bid of Two Clubs is invited to bid Two Clubs. They are the tools of the trade. They are the tools of the trade. They are the tools of the trade.

There are, however, two other specialized responses and on this occasion we are concerned with the response of Two No-Trumps, which I have received a few times. This is a balanced hand, without any one suit being particularly strong. It is a man of a certain type, a man who is a lover of literature.

## AFRICAN INTERVENTION SOUGHT

### Use influence with Rhodesia—Mr. Wilson

The Commonwealth Secretary, Mr. Bowden, left for Salisbury last night, the British Government was preparing a draft resolution on the temporary annexation, including oil, to be put to the United Nations Security Council should his eleven-hour visit fail to break a deadlock in the dispute over the South region's illegal seizure of independence.

The British Prime Minister, Mr. Wilson, sent a personal message on Wednesday to the South African Prime Minister, Mr. Vorster, to use his influence with Mr. Smith as the Rhodesians began to move towards a heightened crisis, informed sources said.

This was seen in London as an effort to take every opportunity to reach a settlement with Rhodesia before the deadline for taking the issue to the United Nations.

Mr. Wilson was clearly not optimistic, when he was reached at this late stage. Therefore, a settlement could be expected in the draft resolution for the Security Council was going ahead.

### U.K. pledge to United Nations

Mr. Wilson's message to Mr. Vorster, the source said, not only asked for South Africa's co-operation in the Rhodesian situation but also urged the developments in the United Nations for selective compulsory sanctions.

The source said the British Government was confident that such small resolutions could get through if it was supported by the Security Council without any vote being cast. In particular, demands were expected for oil to be among the selective sanctions, whereas that stage Britain wanted to postpone.

## RED GUARD RALLY MYSTERY

Speculation was rife among observers in Feking yesterday over an apparent delay of two days in getting a Red Guard rally to the city.

It is believed that the rally was cancelled because of a lack of security, and it was reported that the Chinese authorities were not satisfied with the arrangements for the rally.

It was noted that the rally was scheduled for November 23, but was postponed to November 25.

## Former Minister returns to East Africa

A FORMER MINISTER of Parliament, Mr. H. N. Patel, returned to Nairobi, Kenya, yesterday after a three-week tour in East Africa.

Mr. Patel, who served in the cabinet of the late Prime Minister, Mr. J. W. Nkomo, is now in Nairobi, where he is expected to resume his duties as a member of the cabinet.

Mr. Patel is also expected to be involved in the negotiations for the independence of East Africa.

## Mr. Holt attacked by poll hecklers

VILLAINS demonstrated against a British politician and lecturer when he attended a meeting at the University of Toronto.

Mr. Holt, who was speaking on the subject of 'The Role of the State in Economic Development', was heckled throughout his speech.

## Astonishing rise in railway revenue

RAILWAY revenue next year is expected to increase by 28 per cent — an unprecedented rate for East Africa and quite unusual by any standards, the Central Legislative Assembly in Kampala was told yesterday.

The Uganda Minister of Communications and Works, Mr. Kalema, said that railway earnings were estimated to be 28 per cent more in 1963 — an even more astonishing growth. The 1962 figures, he said, had been based on reasonably certain predictions.

## JORDAN TO SHOW FILM OF ATTACK

PAIDON heavy attacks were supplied by American forces used by the Israelis in Jordan, the Jordanian Ministry of Information announced yesterday.

The ministry said that the film would be shown in Jordanian cinemas on November 25, 1962, to mark the anniversary of the United Nations in New York.

The Jordanian delegate, Dr. H. Al-Husseini, said that the film would show the Jordanian forces in action during the recent fighting in Jordan. He said that the film would be a valuable contribution to the United Nations in New York.

## Unusual surplus

Mr. Kameau said that the 1962-63 surplus was 2,200,000,000, which was a record for the country. He said that the surplus was due to a combination of factors, including a decrease in expenditure and an increase in revenue.

Mr. Kameau said that the surplus was a reflection of the government's sound financial policy and its commitment to economic development.

## White man held for killing Negro

George Washington, Tex., a 44-year-old white man, was arrested yesterday for the murder of a Negro man in Houston.

The man, whose name was not disclosed, was held on a charge of first-degree murder.

## White man held for killing Negro

## OPINION EDITORIAL POLICY

EDITORIAL POLICY: The opinions expressed in this column are those of the author and do not necessarily represent those of the Standard. The Standard is not responsible for the accuracy of the information contained in this column.

It should be emphasized that the road towards a spectacular further increase in the volume of production is not to be found in the expansion of the Government and private enterprise an activity essential to the growth, health and other economic factors of the country. The road to a better building takes time and capital to invest properly.

As a necessary consequence of the Government's expansion, as well as the expansion of the private sector, it is essential to have a healthy and efficient financial system to support the expansion.

Business expansion has made considerable progress towards finding favour of private enterprise. The Government has been successful in the past under mutual arrangements but it did not make an effective start until the present period.

Yugoslavia is showing the way ahead with an open market economy. The Government, under the U.S. aid at International Trade Year, has already the U.S. Government has abolished visas in bilateral agreements with other European Governments. Most years, by unilateral declaration, tourists will be admitted from any country in the world, irrespective of whether diplomatic relations are maintained, without any kind of visa. The only requirement will be possession of a passport or driving license. All the end of the year it is proposed to take all these other countries where they are in possession of visas to become permanent.

Travel agents in Europe must remember East Africa, and make an appeal to them and agents, is composed of three sovereign States, having their own aims and objectives. Individual countries are capable of maintaining embassies in every capital and consular representatives in the provincial centres.

Some delay is inevitable in dealing with applications for visas. The aim is to reduce the form-filling and the waiting period to a minimum. An "online" application and the issue of a carnet de passage valid for all three countries might well be considered appropriate. Part of the East African common market arrangements.

## Progress in Nairobi

NAIROBI CITY COUNCIL municipal negotiations for its successful fiscal policy. While the tempo of development is being increased, the crisis remains unchanged at two and a half per cent. For 1967, spending exceeds £23,000,000, an increase of £2,300,000 over last year.

There is a constant demand for more facilities, matching the rising population, as the chairman of the Finance Committee remarked. Mr. Jansen also said that to finance the five-year plan, borrowing in the order of £27,500,000 is envisaged. It is expected that the city's best policy is to rely as much as possible on the local money market. In all borrowing concerns, but the extent to which the Central Government will provide guarantees will condition the requirements. The city, Nairobi has a special claim on the Government for the provision of center loans to finance additional services.

The City Council would want the guarantee of revenue, and make an appeal on international agencies, insisting on all parts of Nairobi being kept clean, in character with the best world standards. The quantity of garbage trailing the streets, and the uncertain quantity of dustbins, are not a satisfactory situation to householders, but an eyerore and a risk to public health.

# Car repair rise not justified by claims union

comprehensive increases in the cost of repair and servicing of cars and trucks was necessary because of "very definite and substantial" increases in the cost of the labor force, according to the Automobile Union. Mr. F. E. Condit, the union's general secretary, said for a comprehensive survey of inquiry into the motor industry.

The executive officers of the United Trades and Allied Industries Employers' Association, who met on Wednesday, said that the increases were necessary because of a rise in the motor industry's wage bill which would amount to about £150,000 a year.

Mr. Condit said that the rise in business and profits by the motor industry was proved by the fact that there was a rise in the import of buses in 1961, compared with 1960, and that the import of buses increased by 100 per cent.

He said that the rise in the import of buses in 1961, compared with 1960, was 100 per cent, and that the number of trucks and lorries were 1,500 and 1,100.

# TOO MANY WORDS, NOT ENOUGH ACTION

It was the French doctor-philosopher Pascal, I think, who used to advise his his words, suffering from an insatiable curiosity to stand in front of the mirror at the morning and say aloud "Every day and I better and better."

It is a pity that there is no one to advise us to do this. In our business world, the tendency is to go on and on with a never-ending stream of words. The more words the better, it is thought. The result is that we get lost in a sea of words, and the only thing that is clear is that we have said a great deal.

By **BOWEN HOWE**

In our business world, the tendency is to go on and on with a never-ending stream of words. The more words the better, it is thought. The result is that we get lost in a sea of words, and the only thing that is clear is that we have said a great deal. This is particularly true when it comes to business negotiations and presentations. The more words, the more likely we are to be misunderstood or even laughed at.

I have referred to this before but since the season has not yet, let me say it again. It is a pity that there is no one to advise us to do this. In our business world, the tendency is to go on and on with a never-ending stream of words. The more words the better, it is thought. The result is that we get lost in a sea of words, and the only thing that is clear is that we have said a great deal.

It has been said that a man is known by the company he keeps. In the same way, a man's words are known by the company he keeps. If he keeps the company of those who speak clearly and concisely, he will learn to do the same. If he keeps the company of those who speak in a never-ending stream of words, he will learn to do the same. It is up to us to choose our company wisely.

# THE BOOKS PEOPLE BUY IN KENYA

ANYBODY who is a regular buyer of books must  
 have wondered as he made his choice as to how  
 his taste compared with other people's, or even simply  
 thought that it must be a little better.  
 The answer of D. L. Patel  
 Press, Mr. H. M. Upadhye, about  
 various people's choices about  
 books, is that the good  
 books are in great demand  
 in Kenya. This is not  
 surprising, since education  
 is the main demand of the  
 public.

This book is advertised by  
 publishers overseas to show  
 the number of book ex-  
 ports and suppliers who are  
 regular "customers" of the D. L.  
 Patel Press and other establish-  
 ments. Upadhye Kama and Tri-  
 pathy, who are regular ex-  
 ports of printing to a  
 large number of countries  
 in the East, are also  
 regular buyers of books.

**Craze for yoga**  
 There is also a great interest  
 in books, and yoga is the  
 latest craze. The book 'The  
 Dhyana of Yama, of which  
 the author, Dharma Bhakti, is  
 available has sold 150 copies  
 in the last month. Since it  
 has been published in Kenya  
 it has sold 1,000 copies.  
 The dealer for knowledge in  
 East Africa and Africa as a  
 whole is Hologram and Cassel,  
 Nairobi.  
 This is also a healthy  
 high demand for books in  
 East Africa.

# Mr. WILSON FLEES TO Mr. SMITH

## Talks begin today at secret venue

Secret security precautions Britain's Prime Minister, Mr. Wilson, flew from London last night to a secret Mediterranean destination with the Rhodesian prime minister, Mr. Smith.

Before the left he told the House of Commons that there was still a "considerable gap to bridge" before there could be a settlement of the independence problem, but a solution was within "hailing distance".

Joe Jones, South West Africa, together with the Rhodesian Governor Sir Humphrey Gibbs, and other officials, took off in a Royal Air Force Comet for the secret venue.

Reports reaching Salisbury hinted that it would be a secret British camp. H.M.S. Tiger cut short a courtesy call at Capetown and was sailing for Gaborone. A London Air Force official later said Mr. Wilson, along with a fact-bound for Gaborone. Experts thought that if the meeting was held though the two leaders would not talk, "straight ahead and the warship would be sent off for the sea."

## Salisbury Cabinet row

A Rhodesian announcement said the meeting was to be held at Capetown and was being held in London. Mr. Wilson said he would be flying to the meeting with the Commonwealth Secretary Mr. Bowden, and the Attorney-General, Sir Elyan Jones.

Although Mr. Bowden announced on Monday after visiting Salisbury, Mr. Smith had made "no serious concessions" there was no indication whether other concessions had since been made by either side. There was no "adequate" mystery as to who actually proposed the meeting.

## 'NONSENSE' SAYS Dr. KAUNDA

Dr. Kaunda, Zambia's first president, said today that the Salisbury Government's announcement that it was prepared to meet with the Rhodesian Government was "nonsense".

Mr. Kaunda said that the Salisbury Government's announcement was "nonsense" and that the Salisbury Government was "not serious" in its offer to meet with the Rhodesian Government.

He said that the Salisbury Government was "not serious" in its offer to meet with the Rhodesian Government and that the Salisbury Government was "not serious" in its offer to meet with the Rhodesian Government.

## Friendship sought by Jordan

King Hussein of Jordan said yesterday his country was anxious to gain the friendship of the largest possible number of foreign States, while maintaining the principle of non-alignment.

He said Jordan would be "pleased to see the Arab States, by their own initiative, to join the Arab League, which is the only organization in the Arab world which we are prepared to join."

## 'GREAT WALL' FOR CHINESE

The United Nations High Commissioner for Refugees said today that the Chinese Government had agreed to accept 100,000 refugees from the North China coast.

He said that the Chinese Government had agreed to accept 100,000 refugees from the North China coast and that the Chinese Government had agreed to accept 100,000 refugees from the North China coast.

## Bugging investigation in U.S.

The United States Department of Justice has started a searching review of all criminal cases in which evidence was obtained by bugging (hidden microphones).

Government lawyers dealing with all cases involving the use of bugging devices will be required to file a report with the Justice Department.

A refugee army of 1,000 men, believed to be heavily armed, is being trained in the Congo and other countries, it is said, to overthrow the Burundian regime.

### 24 in a Mini

SHORTLY after the discovery of the 24 in a Mini, the British Government was reported to be considering the possibility of introducing a similar car in the United Kingdom. There were no official statements, however, and the car was not to be introduced in the United Kingdom.

## BURUNDI TAKES COUP IN ITS STRIDE

Many arrests, according to Akintola, were made. She said she had a car driven to the airport. Ministers were ordered to arrest him, and he fled to Ghana.

He was on "As soon as the Prime Minister left the country, the king went to the radio station to broadcast the dismissal of the government. He was then taken back to his home and taken to prison. He was then taken to prison and taken to prison."

"Although he had a good reputation for his role in the 'L' movement and the 'L' movement," said the King Ntare left for

political manoeuvres and counter-maneuvres, and widespread bloodshed.

It is surprising therefore that the country's latest, and perhaps most significant upheaval, was bloodless.

Though there have been reports of shooting within the ranks of dissidents, the King's officers who have been placed in various positions in the 100,000 strong army commented later today that shooting in the marketplace was probably the result of a stray soldier firing his rifle.

Life in Burundi goes on much as usual, though a few more restrictions on the airport remain closed to commercial traffic and all but essential travel outside the capital is prohibited.

Only the airport is under armed guard, and the general population is that any suspicion of dissent will be met with the severest of penalties, which brought his overthrow and ended a republic.

The turmoil which preceded the coup has settled. But many people are still baffled by the sheer complexity of Burundi politics.

# BIRDS OF PASSAGE

At no time is the bird bander in the "bull" more than when you are out to study them. The banding industry is a business to be studied by anyone who is interested in birds. A number of species of birds are banded in the "bull" in order to provide the scientist with reliable data about their habits, nesting, and the "season" of the "bull".

It is not only the bird bander but also the bird bander who is interested in the "bull" and the "season" of the "bull".
