SHAPING A BEER

Sovereign at glittering Downing Street dinner

Sir Winston Churchill on Monday night at a dinner attended by nearly 50 of the great figures of his life and times.

The glittering function at 19 Whitehall, the residence which he has made his headquarters in company with the greatest living Englishman, is being given by the Second World War, Allies and Friends, a new and most fitting tribute to the man who has been the greatest of his time.

It was the same as a 100th birthday, the Queen was in a splendid form, of white and red, and she was smiling as she looked at the guests.

KEYNES TO BEAT THE FUTURE

Development plan to cost £23,688,350 GOVERNMENT PRESENTS 3 1/2-YEAR PROGRAMME

DETAILS of a development programme for Kenya costing £23,688,350 were laid on the table of the Legislative Council yesterday by the Government. The period covered in the plan is from January 1, 1954, to June 30, 1957.

The Government explains in the Seasonal Paper that the proposals are self-contained in that they are not merely an extension of the ten-year development programme for the period 1946-56.

In the light of experience the Government considers that a ten-year plan "becomes in time unrealistic" and that in present circumstances three or four years is the most suitable period for which a development programme should be drawn up.

With the prolongation of the Emergency and the rapidly changing circumstances which face the country, the Government decided in April, 1953, to prepare a completely revised development programme for the period January 1, 1954, to June 30, 1957.

The planning period is already 15 months old, but in the interval the Legislative Council has been asked to vote the money for continuing projects and for some of the new projects which are included in the programme.

A forecast to the Financial Paper points out that the Government's policy is, firstly, to bring the present state of emergency to a speedy conclusion.

Progressive to improve and expand the range of its administrative, economic and social services within at the same time maintaining a tax system which is fair and just.

The Government anticipates that the total of £23,688,350 will be available to meet the cost of the programme.

The largest allocation (£12,000,000) will be for health, medical services and African houses.

£1,500,000 for NEW EMBARKMENT WORK for the Ministry of Education, along with £2,000,000 which is to be spent on the educational requirements of the European, Asian, African and Arab communities.

For the port of the Chief Harbour Officer, the Government has allocated £1,200,000 for the largest port in the world, the port of Mombasa.

£1,700,000 to be used for the construction of a new road to be built between the port of Mombasa and the port of Kisumu.

UNITY AGAINST COLOUR BAR

COLONIALISM and racial discrimination are expected to be closely scrutinized by the Afro-Asian conference at Bandung, Indonesia, this month. A factor which will not create dissension among all the 29 countries represented from Turkey to Zagan, will be the conference's international "colour bar" policies.

CALL FOR WHITLEY COUNCILS

Appeal by Asian civil servants

THE chief formation of departmental Whitley Councils was recommended by Mr. N. V. Varughese, the president, at the annual meeting of the Kenya Asian Civil Service Association in Nairobi.

"Without a better and more democratic appeal, but for progressive age of the age in the country, it is not possible to have a better representation of the civil servants in the Whitley Councils," he said. "I am sure that the Government will accept the formation of departmental Whitley Councils which would reduce the present situation of the civil servants."

Turning to the factor of living, the Governor of Kenya, who has been invited to address the conference, Mr. Varughese said he would like to know whether the Government would consider the possibility of a "cost of living" index which would be used as a basis for the determination of the salaries of the civil servants.

He also mentioned the fact that the Government should consider the possibility of a "cost of living" index which would be used as a basis for the determination of the salaries of the civil servants.

Here's Jimmy, back for the Holidays...

It's wonderful to be able to have Jimmy back with the family for every one of the school holidays. And it's even more impressive to do that, when he flies by Safair Service. The Safair boys are so well and the journey is so easy that you can come to Kenya at Christmas, Easter and in the summer.

Children arrive fresh and happy
The Safair Service - 3 days from London to Kenya - is ideal for children's travel. There are two night stops, when they get rest and work off their energy, and have a sound night's rest in comfortable hotel beds, too.

The Family Airline
Because the Safair Service is ideal for children, and because the boys are so reasonable, Airwork can justify claim that it is the best of the family airlines.

It's the Safair Service that has led to the development of a new belief that air transport is the best method of long-distance travel, and so much should be easily available to all. The lower fares mean no reduction at all in the standards of safety and comfort associated with air travel. They are made possible by the Safair Service's long-term programme of expansion that Airwork has gained over 30 years of air transport experience.

DEVELOPMENT IN THE ECONOMIES OF EUROPE'S COLONIES

A CHERRING picture of the last five years of economic development in the overseas territories of Western Europe, with hints of less rosy prospects ahead, was presented in the report of the Organisation for Economic Co-operation and Development. For the first time, this European body originally formed to coordinate European economic planning and help distribute American aid has taken a quick and somewhat gingerly look at what goes on in the colonies of member States.

On the other hand, Metropolitan France has gained more territories than any other European State. Africa's territory by 10 per cent of the total land area of France, and the ports from France, and the present French empire is difficult to see where these colonies are. The report does not try to answer the larger question whether or not it is better to have the advantages of an independent State, or whether it is better to have the advantages of a French colony which is dependent on France. The report also does not try to answer whether it is better to have the advantages of a French colony which is dependent on France, or whether it is better to have the advantages of an independent State.

Good relations at Mombasa port

AFTER-THE-STRIKE REVIEW

THE Provincial Commissioner, Coast Province, Mr. Desmond O'Hagan, said yesterday: "We have come to the end of the Mombasa docks dispute with good relations existing between port employers and employees." He said that the strike had been a success in that there might occasionally be differences of opinion between the employers and the employees.

THAT EASTER BON

Most of London's leading couturiers have designed their light-hearted models to be an obvious choice for the question answer. What kind of hat goes with a fabric so identified in country use but is now seen even at part-time shops in town?

The answer is a favourite Easter bonnet, one in the centre of a usually-fitted head in a light-colored fabric. This is made of a washable material in pink, blue, yellow, or white. It is made of a washable material in pink, blue, yellow, or white. It is made of a washable material in pink, blue, yellow, or white.

But backing up is integral part of such scoring moves

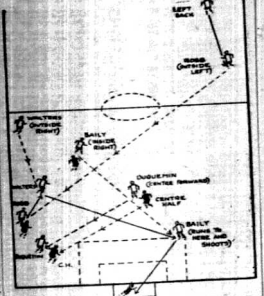

GEORGE BOBB, Esplanade international who plays as outside-left for Spurs, is a very difficult player to mark. He is fast, dextrous and has a powerful kicking ability. He is a goal-scoring position in the middle of the penalty area, where he can be most effective. Bobb, capped 10 times for the national team, has since been capped in the international side.

His style of play is very well known. He is very quick with the ball, and he is a very good defender. He is a very good player in the defensive half. He is a very good player in the defensive half. He is a very good player in the defensive half.

Lures the defence
He goes deep into his own half to pick-up a clearance from left-back Hopkins. Immediately he starts to work the ball towards the right. He is a very good player in the defensive half. He is a very good player in the defensive half.

The vital aspect
The vital thing about a move like this is that the man with the ball is not left alone by his defence. He is always being backed up by his teammates. He is always being backed up by his teammates.

This backing up is an integral part of the Spurs' tactical plan. They rely on the team, if Ditchburn is in goal, he is always working in close contact with his defence. He is always working in close contact with his defence.

This diagram illustrates how Spurs switch position, as described in the accompanying text. It shows the various players in the team and the ball's position in the half during the switch.

Swimming records broken in America and Holland

JACK WARDROP, the British Olympic swimmer, beat his own world record for the 400 yards individual medley at New Haven, Connecticut, on Saturday. He clocked 4 min. 36.8 sec. compared with his former best time of 4 min. 41.7 sec. Wardrop was competing in the American Amateur Athletic Union.

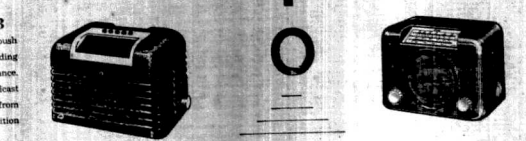

George Tompaq of Hungary set a new world record for the 100 metres backstroke when he clocked 1 min. 21.8 sec. at New Haven. Tompaq was competing in the American Amateur Athletic Union.

Three-minute record
Ford Koenig of Hawaii was only a touch of a second outside the world 400 yards freestyle mark with a time of 4 min. 28.2 sec. His rival, Jack Wainwright of Scotland, was second in 4 min. 28.2 sec.

Holder not defending
George Brown of New York won the 1,500 metres freestyle in 18 min. 25.4 sec. There were 21 entries, but the holder, Ford Koenig, did not defend.

SIR ANTHONY EDEN BECOMES PRIME MINISTER

Cotton worth £900,000 sold at Kampala auction

Handed seals of office by Queen

36-MIN. AUDIENCE AT BUCKINGHAM PALACE

SIR ANTHONY EDEN'S appointment as Prime Minister was officially announced yesterday at 11:25 a.m., G.M.T., after his audience with the Queen in Buckingham Palace.

The new Prime Minister expected to start work almost immediately on plans for a General Election, the date generally accepted is May 20. A statement is expected afterwards the following announcement was issued from Buckingham Palace:

The Queen received the Rt. Hon. Sir Anthony Eden, M.P., in audience this morning and offered him the office of Prime Minister and First Lord of the Treasury. Sir Anthony Eden accepted Her Majesty's offer and kissed hands upon his appointment.

As he left for the Palace, he made an odd contrast with the appearance on Tuesday of Sir Winston Churchill. Sir Winston had sworn an odd oath-fueled from coat with a polka-dot tie and sea-fanned bowtie. Sir Anthony was in a handsome morning suit with a shining hat.

Tourists from many parts of the world joined Sir Anthony in the Prime Minister's car when he left the Palace gates. Sir Anthony drove to the Foreign Office where a crowd of 200 people awaited him. He smiled and waved as he walked up the steps. The people of London heard of his appointment only from radio broadcasts.

For the 13th day, there were no newspapers published in the Capital because of a strike of mechanics and electricians.

During the afternoon, Sir Anthony was expected to take the seat on the Front Bench in the House of Commons. It is thought that his speech was likely to be a tribute to his predecessor.

SON RESTORES KING TO YEMEN THRONE

Uncle flees to border

A SON has restored the King to the throne of Yemen today. Reports from Sana'a said that the 81-year-old Imam Ahmed, white-haired and in flowing robes with a green sash and a turban, emerged on horseback from Al-Udrif fortress in Qa'biya.

Emir Saif Islam, Abdullah took over the throne of the Red Sea kingdom last Saturday after a clash between his bodyguard and the army. The King's son, Emir Saif Islam, had fled to the stronghold of Hulla in Northern Yemen where he rallied tribes to support his father.

What anti-tribesmen led by the Imam had been angry from of centuries' despotic rule, he had been king for 10 years. He had a reputation for being a just ruler.

The Government will set up a Royal Commission to survey Yemen's economic prospects.

World leaders praise retiring British Premier

'LIFETIME OF SERVICE'

POLITICAL leaders in many parts of the world joined yesterday's tributes to Sir Winston Churchill on his retirement as Prime Minister. The New Zealand Parliament passed a resolution declaring its deep appreciation of Sir Winston's "outstanding and indeed untiring services to the Commonwealth."

The resolution went on: "Members of this House regard with admiration the example of his lifelong courageously but also the the new generation."

Zoukri, Prime Minister of the New Zealand Government said: "Through the years Sir Winston has shown to the world the way to prize down the special place in their midst a lifetime of active and achievement."

Times of India said: "The late Sir Winston Churchill was one of the greatest human beings who ever lived on this earth."

IN VITATION TO NEW ZEALAND
The Prime Minister of New Zealand has invited Sir Winston Churchill to visit New Zealand in the near future. Sir Winston has accepted the invitation and will be in New Zealand in the latter part of this year.

Frugal prodigals
Sir Winston Churchill is a man of many talents. He is a writer, a speaker, a statesman, and a soldier. He has served his country with distinction and has won the admiration of the people of many countries.

THE CREATIVE SPIRIT: A STUDY OF SIR WINSTON CHURCHILL
By ARNOLD TOYNBEE
The British historian, author of "The British Empire"

Sir Winston Churchill has returned from his first term as Prime Minister of the United Kingdom... He is, in fact, constitutionally 'unimpaired'.

So, in the trust sense, he has not really retired after all. He is, in fact, constitutionally 'unimpaired'.

Most of us, however, are rather more concerned with the fact that Sir Winston Churchill is an imperial general.

It is his past, rather than his present, that is the subject of the book 'The Creative Spirit' by Arnold Toynbee.

So, in the trust sense, he has not really retired after all. He is, in fact, constitutionally 'unimpaired'.

ENGLISH LEAGUE fixtures for the week-end:

Footballers are all set for their toughest time of the season—Easter. This for many happy, quiet Easterdays is a weekend of hard work and busy feet for over 2,000 players in the four divisions who are not in vacation resorts, for many teams play three matches over the four-day period.

Over this testing weekend, writes Douglas Hill, the editor of the Football League Year Book, the nation will witness the most important football matches of the year. A Good Friday and Easter Monday games, will play a key part in the season.

The selections for Saturday's races

RACEGOERS are, as is customary at Easter, well catered for this weekend with a two-day meeting on the Langford Forest course on Saturday and Sunday. The seven-race daily card, beginning at 1.30 on each occasion, opens on both Saturday and Sunday with races run under National Hunt rules. It is expected that the going will be rather heavy as it was for the last day in March, with both days set to be run in the rain.

Fields should be good on both days but the ground will be softer than on Saturday. The first race on Saturday is a 2-year-old handicap over 1 mile, with 12 runners. The going is expected to be rather heavy as it was for the last day in March, with both days set to be run in the rain.

Central Africa steps up drive for immigrants

More enter the Federation

A large number of immigrants are expected to enter the Federation this year. The number of immigrants who have entered the Federation since the start of the year is 1,177. This compares with 1,177 in 1954 and 1,177 in 1953. The number of immigrants who have entered the Federation since the start of the year is 1,177. This compares with 1,177 in 1954 and 1,177 in 1953.

Five-year subsidy of £150,000 for university

The Federal Government has announced that it will grant a five-year subsidy of £150,000 to the University of East Africa. This subsidy will be used for the purchase of books, the appointment of staff, and the maintenance of buildings. The Government also announced that it will grant a five-year subsidy of £150,000 to the University of East Africa.

'WELCOME' CARD PLANNED

The Central African Federation is stepping up its campaign for immigrants. Plans are being made to issue a 'welcome' card to immigrants. This card will be issued to immigrants who have entered the Federation since the start of the year. The card will contain information about the Federation and the services available to immigrants.

Happy and contented

These things mean much to the immigrants who have entered the Federation since the start of the year. They are happy and contented. They are happy because they have found a new home in the Federation. They are contented because they have found a new life in the Federation.

Industrial liaison

There will be a close liaison between the Government and the industrial community. This liaison will be maintained through the Industrial Liaison Committee. This committee will be responsible for the promotion of industrial development in the Federation.

3,000,000 A.S.

The population of the Federation is estimated to be 3,000,000. This population is growing rapidly. The Government is taking steps to ensure that the population is well served. These steps include the provision of education, health services, and social services.

The Emergency: Opinion in Britain

Opinion in Britain is divided on the emergency in the Federation. Some people believe that the emergency is a result of the Government's policy. Others believe that the emergency is a result of the actions of the immigrants. The Government is taking steps to deal with the emergency.

Multi-racial Society

The Federation is a multi-racial society. It is a society where people of different races and religions live together in harmony. The Government is taking steps to ensure that the Federation remains a multi-racial society.

Manu Mau and the Kikuyu

Manu Mau and the Kikuyu are the main protagonists of the emergency in the Federation. Manu Mau is a Kikuyu leader who is leading a struggle for the independence of the Federation. The Kikuyu are a large tribe in the Federation.

New company to market phosphates Imports considerably above average during March

A NEW subsidiary company is being formed by Messrs. Chemicals Ltd., the British firm which is concerned in the exploration of valuable mineral deposits at Sukulu, near Tabora.

The new company, Messrs. Phosphates Ltd., will administer Messrs.' interest in the Tabora Exploration Co. Ltd. in which the Uganda Development Corporation Ltd. and the Canadian firm of Producers Ltd. are also involved.

Plans planned
 Mr. J. T. Simpson, chairman of the U.C.C. and in Kampala that the formation of the new phosphate company does not mean that plans company had been taken. It was likely to be May-June before any development occurred. Messrs.' entry into the phosphate market, however, would provide an alternative outlet for the Kampala phosphate. Messrs. Phosphates Ltd. is also concerned in the production of sulphate and other phosphoric compounds.

Mining profits up 10 per cent
 The Transvaal and Orange Free State Chamber of Mines has published details of mining operations in March, indicating a 10 per cent increase in profit. This was in spite of the fact that the price of gold was 10/- per fine ounce lower than in February 1955. For the first time in history the profit of one mining company group—the New Consolidated Gold Fields group—totalled more than £1,000,000. The Cornet House group of companies showed the biggest increase in profit—about £149,000.

WATER BOROUGH 1951 Notice

The Corporation of the City of Nairobi has received from the Kenya Government a notice under Section 107 of the Town and Country Planning Act, 1947, that the Nairobi Waterworks Act, 1947, is to be amended to provide for the construction of a new water supply system for the City of Nairobi.

Oil is our way of life

The Rev. Sydney Smith confessed that his idea of heaven was eating *pate de foie gras* to the sound of trumpets. You yourself may be a vegetarian, and you like music with your meals. You will have your own conception of a pinnacle of happiness, a flashpoint of Better Living.

It is not for the modern Petroleum Industry to interrupt your dreams. Oil is content to go on multiplying the basic amenities of your life on this earth. It makes your transport quick and safe; it speeds the plough; it lubricates the machines of factories. Oil provides ingredients for new drugs, new materials for the modern synthetic fabrics. And oil helps in your home, too. It provides an essential ingredient in the washing powder that that wife uses. The linoleum on her kitchen floor, the fluid in which she preserves her eggs, her rubberised apron and gloves, the plastic curtains in her bathroom, even the nail-varnish on her dressing table.... Petroleum chemicals have been at work in their manufacture, which probably accounts for their high quality and low price.

The name of SHELL may not be on them, but Shell Research stands behind them.

Petroleum in its crude form, dredged from the desert, marsh and jungle, is an unrefined looking substance, dark, often sticky, sometimes smelly. But the products of its refinement, the wheels of life: clean, smoothly and increasingly,

SHELL research points the way

Trinidad have fighting chance to salvage match

TRINIDAD, trailing Australia by 82 runs on the first innings, got on 79 without loss on the way at Port of Spain on Wednesday and were well on the way to saving the match with one day left to play.

The Trinidad batsmen were most lethargic and began to show signs of the wear and tear of the long day when Jeffrey Stollmeyer (44) and Hammond (30) were dismissed. Some afterwards, he was taking the catch above his head.

Batler's fifth victim

Carl Furber made his third century in the first innings. Another savior, a firm leg spinner who has been playing since the start of the tour, made his fourth century in his 28th innings on Wednesday. He was dismissed in his 23rd, after a ball and was caught for a century.

Without further addition to the score, the Trinidad batsmen were dismissed for 79. The Trinidad batsmen were dismissed for 79. The Trinidad batsmen were dismissed for 79.

Commercial League XI beaten 4-2 by Nakuru

NAKURU beat a Nairobi team by 4-2 in a friendly football match at the Stadium on Wednesday after losing 2-1 at half-time.

Both sides played well but Nakuru were the better team. In the second half, they were attacking and scoring goals.

Referee's decision

Referee's decision was to award Nakuru a goal for a foul by the Nairobi team.

PERFECT LUBRICATION 24 HOURS A DAY

While you sleep...

Most of us spend one-third of our lives in necessary rest. But resting time can be resting time for engines. An engine, remember, works best when it is hot... Research scientists agree that substantial engine wear can take place when you are not even using your car!

All the time an engine is warming up and cooling down and, of course, standing idle, corrosive acids condense on the precisely finished surfaces of the engine parts and corrode them away... unless you are protecting your engine by running on Shell X-100 Motor Oil.

Shell X-100 Motor Oil has been most carefully developed to give perfect lubrication of your engine and outstanding protection twenty-four hours a day.

OFFICERS' SAME STORY

ABOUT SINKING Inquiry evidence into loss of Dutch liner

QUESTIONS were asked at an official inquiry in Amsterdam into the sinking of the 15,000-ton Dutch liner *Klipperschip* about an alleged agreement on the ship's sinking.

The Klipperschip sank after striking an underwater obstruction off the coast of Portuguese East Africa on January 4, 1952. All her 112 passengers were killed and the boats were picked up by the British Royal Netherlands Navy. While the British liner, the Klipperschip, was on its way to drive up a written statement.

The first was P. A. K. van der Meer, who was the captain of the ship. He was asked to give a statement. He said that he was not a member of the crew. There was no one else on the ship. BRITISH SCIENTISTS HELP THE COLONIES

SOME 40 British scientists, working in a corner of a large London building — the Imperial Institute in Kensington — are doing much to make the world a better place in which to live for millions of people. Their work is helping to improve and increase the natural resources of many countries.

Successful for small forests of soft timber, rubber, latex, and other laboratory products — including some of the most modern research equipment — these men and women, the staff of the Colonial Products Laboratory, are chemists, biologists, or specialists in various fields of scientific research.

These are but a few of the problems posed to the 40 men and women working in the Colonial Products Laboratory — under the direction of Sir R. A. E. Galley. It is their job to tackle and solve them. They invariably do so.

Personal calls

During last year for instance, they answered nearly 100 inquiries, couched along the laboratory investigations — many of which occupy the attention of several members of the staff for a number of weeks — and received hundreds of personal letters from abroad wanting to consult the Department.

A private manufacturer (or a government department) may be interested in producing a certain crop or trying out a new one in a territory where it has not been grown before.

Varied tasks

So varied are the tasks undertaken by the London organization that there are few subjects which have not been touched, which have not been investigated. The staff are mostly British. Dependence that only to advise and guide. A few of its investigations have helped United Nations bodies like the World Health Organization, the Food and Agriculture Organization, and the World Bank. A number of requests have been made to the Colonial Products Laboratory by individuals and organizations from foreign countries.

Who pays for this service? Not the Colonial Government nor yet those of other overseas territories. For the Colonial Products Laboratory is financed from the £1,000,000 Colonial Development and Welfare Fund voted

by Parliament, at Westminster since 1948. The current year's expenditure from that fund is £175 million, only a small fraction of which represents the cost of the laboratory. It is also one of the largest works by means of which the benefits of the scientific research to the British economy are being spread.

No. 6 The Ferguson Hammer Mill

The development of the Ferguson Hammer Mill achieved yet another step forward in farm mechanization. It is no longer necessary to cart heavy material to the mill. We have reversed this procedure by fitting you to transport the mill to any required point on a farm. When fitted with a 17 H.P. motor the mill gives an output of 3-6 sacks of maize meal per hour.

	GENEROUS PERFORMANCE		
	Maximum Capacity	Screen Size	Output per hour

admirable civility. There is no appeal against it either by employers or employees.

The order is retrospective to March 11.

The award is a reasonable one. An increase of the wages of shift workers and of workers employed on monthly contracts is a substantial one.

The casual labourers' award is based on the principle of an additional rate for the hours of "dirty" cargoes and the monthly workers' award is based on an annual period of annual paid leave.

It is to be regretted that the consideration and settlement of such disputes in the industrial field do not appear to be so simple as the Just Industrial Council was aware of when the award of a dispute was brewing but the picture, if not the solution, were taken by surprise.

The award was brought to a sudden stop by the intervention of a contractor to examine these weaknesses and to require to be studied and removed.

The award is to be studied and removed. It is necessary to find any excuse for the action of the contractor. The law which provides for the procedure for the examination of public service is concerned. The nature of the award is such that nearly all the demands, a large number of which were grievances which had already been satisfied, were made in the month of the Colony and commercial and industrial interests. Many have been involved in substantial losses which their removal might have been prevented.

There has been a less leniently approach by the employer. It is necessary, too, that the interests of the Government should be left in no doubt. The award is not a public sympathy. It is adopted again. Trade union leaders are not to be run from such a course.

The award is of course another problem. It is the failure of the Government of Kenya. It is a matter of living problems. It is a matter of raising wages and salary levels. It will give the Government the spirit of local initiation and add to the price of handling orders. It may also lead to other demands.

Such high relief as is still high cost of coffee. It is a matter of the Government to maintain regular supplies with the minimum of problems which presently with many others of the same kind on the way.

In addition to carrying their own weight, the taxpayer is in the end to bear the cost of such acts of unwise and arbitrary increases to the Civil Service. Associations of Civil Servants are not to be treated with gratitude or understanding of the burden thrown on the public.

Unless there is a forthright assault on the cost of living problem and genuine examination of the award, the Government and producer and the consumer, a haunting of the award will continue to be a problem and reduction of the burdensome high cost of transport and the need adjustment in the cost of expenditure on domestic and industrial goods will become worse and the unemployment problem a threat to the stability of the colony.
