'COLONIALISM' BY RUSSIANS 'CONDEMNED'

Premier of Ceylon's attack at Bandung PROPOSALS ON FREEDOM FOR DEPENDENCIES

THE strongly anti-Communist tone which has dominated the Afro-Asian conference in Bandung was sharpened when Sir John Kotelawala, Prime Minister of Ceylon, attacked Russia for 'colonialism' in Eastern Europe.

Speaking in the Political Committee, Sir John said that satellite countries of Eastern Europe were not colonies to be dissolved. He said Russia must be persuaded to abandon South-East Europe, and went on: "If we are truly opposed to colonialism, should it not be our wish to see the Western imperialist powers to give up their colonies in the Asian and African regions to set a definite target for the granting of full independence to all every colony in Asia and Africa should be given its every colony in the next decade."

Latterly Mr. Chou En-Lai, the Chinese Premier, proposed that 15 years should be set as a limit for freedom to be granted to colonies, and the Eastern European countries had elected their own Governments through their own free will. They had their own views, and wanted to respect the views of others.

He asked Sir John his purpose in attacking Russia. Sir John said he was not attacking Russia. He said he was attacking colonialism. He said he was attacking the system of colonialism which was based on force and not on justice. He said he was attacking the system of colonialism which was based on the interests of a few and not on the interests of the many.

Progress on Thika homes for Africans

DESCRIBING the progress of the first phase of the Thika urban council's African housing scheme as 'very good', the District Commissioner's annual report stated that houses were allocated at a economic rate, this year with first priority to people from the Old African location, which is being developed by the Government.

A loan of £42,000 was obtained from the Government for the purpose of the scheme. The report says that the supply of houses was adequate to meet the demand and that the scheme was being carried out in a most satisfactory manner.

The report also states that the Thika urban council has been successful in securing a loan of £42,000 from the Government for the purpose of the scheme. The loan is being used to finance the construction of houses for Africans in Thika.

UGANDA BALANCE OF £12,000,000

Report details income and spending for half-year

UGANDA'S general revenue balance amounted to £12,000,000 on June 30 last year, states the report on the Protectorate's accounts for the first half of 1961, just published.

This figure included more than £250,000 from appreciation of investments, and a surplus of revenue over expenditure of £1,700,000. The public debt of the country was unchanged, amounting to £2,853,000, the Accountant-General, Mr. W. R. Korbus, reports.

The report details the way in which Uganda's income was received, and how the money was spent. The two items with the largest excess over their estimates of income were export taxes, which produced £2,348,161—£378,161 more than had been expected—military tax and similar non-African taxes, which yielded £1,832,000—£1,552,000 more than had been anticipated.

Government sales unlikely to harm copper's strength

The Financial Times has maintained that the basic strength of copper was hardly likely to be seriously impaired by the sale of Government stock in Britain.

"The report against the effect of the Rhodesian strikes there would have been little if any surplus copper," it said. "This is not to say that the release was of passing significance nor that its effect has been confined to the United Kingdom."

"The shortage in the United States and Europe continues and the only quick alleviation could be for the United States to increase supply in port of copper borrowed last year but to make a further return."

MR. CHOU ON PEACEFUL SOLUTION OF PROBLEMS

MR. CHOU EN-LAI, the Chinese Prime Minister, announced in a statement at the Bandung Afro-Asian conference on Saturday, that he is willing to negotiate with the United States on the Formosa situation.

This offer made a great impact on U.S. Government officials. The State Department has called on its consular representatives in Indonesia to cable an official text of the Chinese Premier's speech. A spokesman for the State Department said: "If the reports are accurate, this is a development of very great interest."

Although it was officially reported in Washington that the U.S. would insist on Nationalist China being represented in talks on Formosa, a Nationalist spokesman in Taipei said his country could not take part in any international talks on the subject with Communist China. He said the Nationalists would not recognize any decision on Formosa made outside the United Nations.

STAY TOWARD PEACE

China and the United States, both, should stay toward peace, Mr. Chou said in his statement. He said that the United States should not use force to change the status of Formosa.

Temptation of 'writing off' Emergency

SLAYING THE WRONG DRAGON

Column by Bishop of Mombasa

THE present generation spends too much time in trying to write off the Emergency as a mere phase of the great struggle which is still going on unacknowledged as the British Empire's last gasp. The Rt. Rev. Bishop, who has written a book on the subject, says that the British people are to stay with the Emergency for a long time. There was a great deal of talk about the Emergency being a mere phase of the great struggle which is still going on unacknowledged as the British Empire's last gasp. The Rt. Rev. Bishop, who has written a book on the subject, says that the British people are to stay with the Emergency for a long time.

UNION BREAKS OFF TALKS

Negotiations with New Delhi on Indian population fail
Attempts to initiate talks between India and South Africa on the treatment of Indians in the Union have broken down according to the text of telegrams exchanged between the two Governments.

South Africa told India that she was "regrettably obliged" to abandon the attempts because of "unfounded charges" and "unintentional attacks" by the Indian Premier, Mr. Nehru. She said she had been forced to the conclusion that the Indian Government was "deliberately attempting to wreck" the proposed discussions.

The proposed discussions were to have been held in London. Mr. Nehru was charged with "recklessness for the failure of the proposed discussions."

South Africa has now a slate of talks with the Indian Government, which is considered responsible for the failure of the South African proposal.

Kenya appeals for British farmer immigrants

World-wide federation to defend liberty

A POLYGLOT federation of middle classes throughout the world, was launched here today by Mr. Pierre Fougade, Minister of French Colonies, in a speech before the Chamber of Deputies.

Mr. Fougade explained that the plan for an international federation was to represent the interests of all the world's middle classes, and to defend their liberties and their property.

He declared the aims of the present organization to be the defence of man and human rights, the defence of the rights of the individual, and the defence of the rights of the community.

They were particularly attracted to the extraordinarily rich and fertile lands of the White Highlands in Kenya. Mr. Alexander Sherrin, Assistant Director of Agriculture, and Brig. V. K. Channer, of the Kenyan Agricultural Settlement Board, were also present.

Mr. Sherrin said that the Government of Kenya was anxious to attract more British farmers to the country, and that the Settlement Board was prepared to assist them in every way.

Mr. Channer said that the Government of Kenya was also anxious to attract more British farmers to the country, and that the Settlement Board was prepared to assist them in every way.

MINISTERIAL PLAN FOR UGANDA ON JULY 1

18 African seats in 30-member council
DIFFERENCE IN DRAFT ESTIMATES EXPLAINED

THE Ministerial system in the Uganda Government and changes in the composition of the Executive Council to give it a greater proportion of African members are to be introduced on July 1. This was announced by the Legislative Council yesterday by the Acting Governor, Mr. C. H. Thornley.

The changes, outlined by the Governor, Sir Andrew Cohen, last night at the Buganda Lukiko, include the appointment of five Ministers (of whom three would be Africans) drawn from the public; two African Parliamentary Under-Secretaries, and an increase in the representation of the Council from 28 members of whom 18 would be Africans, six Asians and six Europeans.

Mr. Thornley made the announcement in explaining that the draft estimates of revenue and expenditure for 1955-56, which are to be tabled in the Council today, had been prepared in a different form, he said, and that the opening of a new financial year was obviously a convenient time to introduce the change, he said, and that he was very anxious for them had to be allowed in the estimates. "Necessary adjustments," he said, "which estimates if any 'minor modifications' were found to be needed to carry out the proposals.

KEEP OUT OF THE KITCHEN

By Muriel Pardee

The Duke of Edinburgh, not long ago, made a speech in which he commended all husbands to help their wives in the kitchen. The reaction from a few million disgruntled husbands was probably that the noble Duke had little sense himself to go into the kitchen.

It takes little sense and women literary review clubs prefer plain members but one who won't help with the washing up, but generally, a man who plans murders for men who won't keep out of the kitchen.

Nauseating

I would willingly concede a woman who took a short-cut in her housework by not washing up, but a man who does so is a different matter. It is a man who does so who is a different matter. It is a man who does so who is a different matter.

Rare

There were moments when my father was a different man. He was a different man. He was a different man. He was a different man. He was a different man.

A 'RECAP' OF PRINCIPAL CHANGES IN RUGBY LAWS

But time is required for their proper appreciation

From a Special Correspondent

SEVEN weeks ago three special articles written by Mr. Ken Ryle were published giving explanations of the new laws of Rugby Union football under which the game is to be played in Kenya this season. The Kenya Rugby Union has been busy installing into its members' minds the essence and details of the new changes in laws.

It is not possible to recapitulate all the changes in laws, but the following are the most important ones. The new laws are intended to make the game more attractive and to give it a more scientific character. The new laws are intended to make the game more attractive and to give it a more scientific character. The new laws are intended to make the game more attractive and to give it a more scientific character.

Should fix 'hookers'

There is another important change in the new laws which should be noted. This is the fixing of hookers. The hooker is a player who is responsible for the scrum and the line-out. The new laws require that the hooker must be a player who is not a forward. This is a change from the old laws where the hooker could be a forward.

A penalty follows

Another important change in the new laws is the introduction of a penalty. A penalty is now given for a scrum which is not properly formed. This is a change from the old laws where a scrum which was not properly formed was simply broken up.

Can't change direction

There is also a change in the laws regarding the scrum. A scrum which is once formed cannot be broken up and then re-formed in a different direction.

Manchester City blazed trail with the Revie plan

Rone twins lose the world title

FCP finalists Manchester City have blazed a trail of victory without a shocking football throughout the League season now drawing to a close. Their plan of having a 'leading' centre-forward, Don Revie, has become the talk of the entire English Soccer world. It is plain that many clubs, seeing its success with City, will try to copy this style of play, writes Harry Johnson, Liverpool's international.

Manchester City's attack policy, the result of which they were first runners-up in the League, was to have a 'leading' centre-forward, Don Revie, who was to be supported by a 'leading' half-back, John Johnson, who was to be supported by a 'leading' full-back, John Johnson.

ROTHERHAM FOR TOP DIVISION?

Fight for promotion is as fierce, unrelenting as ever

HIGHLIGHTS of Monday's League football matches were the victory of Rotherham United over their favourites to win the Division II championship—and their first missed chance to reach the top division.

They lost to Bradford City in the first half of the match, but they were able to level the score in the second half. The match, however, was a draw, 2-2.

Rotherham United, who have been in the top division for the last two seasons, were back in the second division on Monday.

Man's carelessness causing spread of world's dry wastelands

THE dry wastelands of the world are spreading because of man's carelessness. Dr. Henry Shantz, leader of the International Arid Lands Institute in Albuquerque, New Mexico, "is almost responsible for reversing these destructive trends under increasing population pressure. But it must be as to find the reasons in our own conditions as we found it," he said.

Former president of the United States and city of California, Shantz is the speaker of the meeting of the International Arid Lands Institute on the subject of "World's Dry Wastelands" which is being held at the University of California, Los Angeles, California, from April 21 to 25.

Shantz said that the world's dry wastelands are spreading at an alarming rate. He said that the world's dry wastelands are spreading at an alarming rate. He said that the world's dry wastelands are spreading at an alarming rate.

HAVER DAMPING DOWN
Hoover Steam Ironing gives all dampening down, except with heavy cottons, silks and starched fabrics.

EASY TO FILL
You simply pour cold water through the wide opening in front of the handle - there it's there it is.

EVEN DISTRIBUTION OF STEAM
Steam is more distributed evenly than in any other iron (to have clean press automatically).

WEIGHS LESS THAN HOVERDONS
This marvelous steam or dry iron weighs only 1/2 lb. when dry, less than 4 lb. when full.

ONE DIAL - 7 SETTINGS
One setting for all steam ironing, and 6 separate fabric settings when used as a dry iron.

HANDLE KEEPS COOL
Keeps handle to hold your hand cool. No heat conduction with steam control.

This amazing new Hoover invention completely revolutionizes the whole idea of what an iron should be. It is two irons in one. To change from Steam to Dry Ironing you just flick the control. With the Hoover THERE IS NO NEED TO EMPTY.

It must be good... it's made by HOVER

STEAM IRONING. Hoover steam ironing gives smoother, crispier results than you've dreamed of getting! A really professional finish! Marvellous for steam pressing, too!

DRY IRONING. Once you've tried steam ironing you'll probably use it for nearly everything - but remember as a dry iron, too, the Hoover is very light in weight, easiest to hold, easiest to use, quickest and gives the best results. Nothing like it!

British trade gap widened: Higher prices partly to blame

EXCHANGE HOLIDAYS IN MAY

Imports into Britain rose more than exports in the first quarter of this year compared with the same period of 1955, the Board of Trade announced today.

The average value of exports during the first quarter of the year was £287,280,000 a month representing a 10 per cent increase on the corresponding quarter of 1955.

The value of imports was £312,000,000 a month, an increase of 12 per cent on the corresponding quarter of 1955.

The trade gap was £24,720,000 in the first quarter of 1956, compared with £17,720,000 in the first quarter of 1955.

The Board of Trade said that the increase in imports was due to a number of factors, including higher prices for raw materials and a rise in the value of imports from the United States.

Federation high on U.S. list for investment purposes

Dr. Kendeu

COUNTRY 'PIONEER STAGE'

THE Federation of Rhodesia and Nyasaland is fifth in a list of 70 countries that the United States Department of State is studying for investment purposes. Dr. George H. T. Kimble, of the U.S. State Department, New York, disclosed this in an interview in Zambia on his second month.

Dr. Kimble, who was Director of the United States Geographical Names Board until 1955, is a surveyor but is directing the U.S. Government's study of the Federation for the first time.

He stated last week in part of a survey of the investment possibilities of the Federation for the Department of Commerce.

Dr. Kimble said that there was a scarcity of statistics on the Federation and the United States had to do an appraisement of this country in new perspective through the use of various statistics at the beginning of the century. The Federation is one of the last frontiers in the world for the first enterprise.

In the past two or three years American newspapers had given the most complete list of Africa's resources. The U.S. State Department has been studying the Federation for some time.

War reception
He was preparing a handbook on the U.S. Government's interest in the potentialities of the Federation. The Department of Commerce is also studying the Federation for the past 25 years.

Mr. Kimble is a white-haired man with a friendly smile. He is a member of the U.S. State Department's Office of African Affairs. He has been in the U.S. since 1946.

UNIONS' FIGHT TO MAINTAIN STANDARDS

A Union committee of representatives of the Northern Rhodesia Government wants to advise the African Union. The committee is headed by Mr. J. H. Roberts, leader of the African Union. The committee is also headed by Mr. M. H. Roberts, leader of the African Union. The committee is also headed by Mr. M. H. Roberts, leader of the African Union.

SPIN BOWLERS DOMINATE THIRD WEST INDIES TEST

Tomorrow's Australians pinned down but lead on first innings

AUSTRALIA gained a first innings lead of 75 runs over the West Indies on the second day of the third Test match at Georgetown, Guyana, on Wednesday. In a match made up to reply to the West Indies' first innings of 182, and at close of play the West Indies' first innings of 177 for two wickets in their second innings.

Accurate spin bowling kept the batting side pinned down during the morning. The Australian bowlers were led by the spinners, who were able to restrict the West Indies to 177 runs in their first innings. The partnership of 100 between the batsmen was broken by the spinners.

Willie Watson was out for 147, and the West Indies were out for 177 in their first innings. The West Indies were out for 177 in their first innings.

Seven bowlers tried to restrict the West Indies to a low score. The Australian bowlers were led by the spinners, who were able to restrict the West Indies to 177 runs in their first innings.

McDonald reached his half century on the second day. He was out for 50 runs. The West Indies were out for 177 in their first innings.

UGANDA ACTS TO SMASH MAU MAU GANGS

Bill expelling three tribes given Second Reading

A SKILLFUL and thorough Mau Mau organization has been unearthed in Uganda, the Acting Chief Secretary, Mr. G. B. Cartland, told the Legislative Council today. He was moving the Second Reading of a Bill which seeks to expel members of the Kikuyu, Mau Mau and tribes from the Protectorate. It was passed unanimously.

Cartland revealed that at least one murder in Uganda had been directly connected with Mau Mau and a gang had been recruited by Mau Mau. The only Mau Mau prisoner from Uganda in Mau Mau camps here was taken to the Mau Mau camp in Uganda, Mr. Cartland said.

Albert Einstein (1879-1955)

By BERTRAND RUSSELL

EINSTEIN was, in my opinion, the most scientific great man that I have ever known. I have known scientific men of various kinds—statements from Gladiolus to Lenin and Sir Winston, poets from Browning and Tennyson and Malraux to T. S. Eliot, and most of the philosophers of the past 50 years. But none of them, though they were great men, were like Einstein. I am sure that you, like me, will agree that Einstein was not only a great physicist, but a great philosopher. He was a man of great intellect and great character. He was a man who was not only a great physicist, but a great philosopher. He was a man who was not only a great physicist, but a great philosopher.

His youth

Einstein's youth was spent in Aarau, Switzerland. He was a brilliant student and was awarded a scholarship to the Polytechnic in Zurich. He was a man of great intellect and great character. He was a man who was not only a great physicist, but a great philosopher. He was a man who was not only a great physicist, but a great philosopher.

Looking Back

40 YEARS

The advance of civilization in Kenya has been beginning to make itself felt in the uncertain manner during this week in 1920. Because of the increasing number of lifts in the buildings of Nairobi, grave social problems were arising. So much so that the Standard devoted the whole of a leading article to them.

The West Yorkshire Regiment And The K.A.R.

This article, which first appeared in the *Representative* of the 1st Battalion of the West Yorkshire Regiment, was reprinted in the *Standard* on April 20, 1935. It is written by COLONEL THOMAS W. B. HARRIS, who is now in the 1st Battalion of the West Yorkshire Regiment in the East African Territory.

THE Emergency

In Kenya, occasioned by the widespread rising of the Mau Mau tribe against the general administration in 1952, the Mau Mau, has become the focus of the public on the task of the security forces in that Colony.

It is only natural, however, that the Mau Mau should be given the status of a public enemy, and that the Mau Mau should be given the status of a public enemy, and that the Mau Mau should be given the status of a public enemy.

ART LOVERS LOSE A FRIEND BUT HIS WORK STILL GOES ON

ART LOVERS the world over have lost a friend with the recent death of Dr. Boris Florentin, founder and owner of the firm which publishes the famous Phosion Art books. These books, in the past 15 years or so, have brought into the hands of millions of people the best works of the so-called Old Masters and the leading modern masters.

Moderate cost... Thousands would have remained indifferent to it and even ignorant of these masterpieces of art but for the inspiration and determination of a man who succeeded in making the highest standard of position with a moderate cost to the reader.

Obstacles... For these retrospectives who are a history of art by Professor Dr. Florentin, published in the last 15 years of his life, each one is a masterpiece of art in itself, and each one is a masterpiece of art in itself, and each one is a masterpiece of art in itself.

Laziest Men In World

AUSTRALIAN aborigines are among the laziest businessmen in the world today because of an ancient trade law. And also because of the law, the aborigines who have the highest fame and a reputation for laziness must share their profits.

The aboriginal artist Albert Munnah, who is reported to have made more than £2,000 a year, said the aboriginal law has been unable to avoid the obligations imposed on him.

"This old tribal law on food business requires nature and to be satisfied with the proceeds of the business of the natives has not changed for decades. But the aborigines and applies to their business as well as to the sale of their produce."

When the Australian aborigine was known from his travel notes by the white man, he was known that it moved him to the white man's law. He was killed by a white man's law. He was killed by a white man's law. He was killed by a white man's law.

This opposition to the law is not a new thing. It has been known from the time of the first white man to come to Australia. It has been known from the time of the first white man to come to Australia. It has been known from the time of the first white man to come to Australia.

THEY'RE ALL AT SEA

WHEN Dutch millionaire and international director Mr. Bernard Van Leer reached his 71st birthday, he thought it time to celebrate, so he had a day out at Blackpool. He said afterwards: "It was a day I shall never forget."
The little man sat in his armchair afterwards for his birthday luncheon, for they reached a cool 52.000.

£20,000 For A Day Out

Special trains
MR. VAN LEER booked 2,000 guests to join him in his fabulous day by the sea and gave the most spectacular party in the country's history.

His employees from London, Glasgow, Glasgow Park and Burton - on - Trent, among others, were also invited to the party. An all-star variety show was staged for their benefit. In the evening Opera Biederle and the whole of the Royal Opera House were taken over for a mammoth dinner, dance and concert.

Giant cake

EACH guest received a slice of the five-foot 10-inch birthday cake. After dinner, Mr. Van Leer sat for several hours in the London Lounge having signed photographs and danced with his employees.

EXPLANATION proposals which will raise the price of petrol, paraffin, tins, inner tubes, tobacco, cigarettes, woollen goods, socks, stockings, shirts and khaki cloth were announced by the Minister of Finance, Mr. Vasey, in his Budget speech this evening in Kenya Legislative Council. No changes are to be made in income tax.

TODAY'S increased duty will be unmanufactured leaf tobacco from 12/50 to 14/10; locally made leaf tobacco 2/-; locally manufactured tobacco by 4/- to 11/- 4/6. The effect will be to increase the price of 50 cigarettes from 3/7 to 4/15 and for locally made tobacco from 7/50 to 7/10.

PETROL—The duty will be raised from 50 cents to 72 cents a gallon. The cost in Nairobi will now be 3/23 1/2, which includes an extra 8 cents imposed by the Government.

PARAFFIN—A duty of 20 cents per gallon is imposed on kerosene and power paraffin. A duty of 20 cents on cardigan, jerseys, pullovers, jumpers, slippers, underwaists and singlets. A duty of 25 cents on socks and stockings; a duty of 25 cents on shirts and of an extra ten cents per yard on khaki cloth.

TIRES—Those for all motor vehicles, bicycles and non-self-propelled vehicles will cost more than 5 per cent dearer and for a motorized car between 21 and 25 per cent. The price of inner tubes will also be raised.

Mr. Vasey said that he had been advised that the effect of the proposals would be to raise the cost-of-living index by nearly three points—about 1 per cent. The only increase in the special tax imposed on the first three-quarters of the K.M.V. Mery and Embu districts. It will be raised by the Ministry of Agriculture to 4/11 1/2. The information and the statistics available show that the Government has not done so much as it could do in the past year. The revised estimates for 1953-54 show a deficit of £1,814,000.
