MORE BOMB EXPLOSIONS IN BRITAIN

Post Office Wrecked At Liverpool

MR. DE VALERA'S COMMENT

Irish terrorists have a second death in Britain. In London a Scottish University lecturer was killed and 50 people were injured in explosion at King's Cross and Victoria and soon towards the interior at the main post office at Liverpool.

The House of Commons has given the Government the drastic powers asked for to deal with I.R.A. activities.

In Ireland Mr. de Valera while denying the outbreak said the Government's position was difficult and in London the British Home Secretary announced the British method of dealing with terrorism with that which would have been advised in stronger circumstances in some countries of Europe.

London, July 25. Later details of the bomb explosion which occurred in Britain yesterday said that more people are at the station of King's Cross and Victoria than were killed was Mr. Deane Campbell, a lecturer at Edinburgh University. His wife was killed. Mr. Deane Campbell, a lecturer at Edinburgh University, his wife was killed. Mr. Deane Campbell, a lecturer at Edinburgh University, his wife was killed.

The second explosion occurred shortly after one o'clock this morning in the main post office at Liverpool. The explosion was the most serious since the first one at King's Cross and Victoria. It was caused by a bomb which was thrown into the main post office at Liverpool. The explosion was the most serious since the first one at King's Cross and Victoria.

There was also this explosion in the main post office at Liverpool. The explosion was the most serious since the first one at King's Cross and Victoria. It was caused by a bomb which was thrown into the main post office at Liverpool. The explosion was the most serious since the first one at King's Cross and Victoria.

Another explosion brought down the Liverpool bridge yesterday afternoon. The explosion was the most serious since the first one at King's Cross and Victoria. It was caused by a bomb which was thrown into the main post office at Liverpool. The explosion was the most serious since the first one at King's Cross and Victoria.

The Home Government had expected that the Government's policy would be to deal with the I.R.A. movement by force. The Home Government had expected that the Government's policy would be to deal with the I.R.A. movement by force.

The British Government's Bill providing powers to deal with I.R.A. activities has been introduced in the House of Commons. The Bill provides for the Home Secretary to make regulations for the control of I.R.A. activities.

The Home Secretary accepted the Bill yesterday. He said that the Government's policy was to deal with the I.R.A. movement by force. He said that the Government's policy was to deal with the I.R.A. movement by force.

In expressing opposition against the Bill, Mr. Deane Campbell said that the Government's policy was to deal with the I.R.A. movement by force. He said that the Government's policy was to deal with the I.R.A. movement by force.

INCREASED WHEAT OVER-CARRY

Advisory Board's Decision

The Wheat Advisory Board met at Nairobi on Monday. The increase in the quantities of wheat over-carry was referred to and the fact was noted that the Government has generally undervalued wheat in the past. The Board decided to recommend that the Government should increase the price of wheat over-carry from the present 10/- to 15/- per ton. This decision was based on the fact that the price of wheat has been very low, and the price of flour has been very low.

The Board also decided to recommend that the Government should increase the price of flour from the present 10/- to 15/- per ton. This decision was based on the fact that the price of flour has been very low, and the price of wheat has been very low.

The Board also decided to recommend that the Government should increase the price of grain from the present 10/- to 15/- per ton. This decision was based on the fact that the price of grain has been very low, and the price of wheat has been very low.

If you are, you will have a use for the "Maco" Patent (Adjustable) Templates. The "Maco" Template is composed of a number of very fine strips of hard drawn mild brass, and is consequently rustless. The thickness of each strip is .007 in., thus great accuracy is ensured when using the "Maco" Template. The laminations are held in position by two specially constructed clamps secured by two thumb-screws and springs, by the tension of which the laminations are held firmly, and they adapt themselves to the exact shape of whatever medium the instrument is pressed against. A special feature of the "Maco" Patent Adjustable Template is that the laminations will not fall out even when the locking nuts are loosened to their full extent.

Cut out "PROFIT LEAKAGE"

Profit leakage through inefficient and worn "leaves" (leaves) is always the direct or indirect cause of friction. It is seldom due to inefficient lubrication. You may have a plant in losing profit this way. A survey of YOUR plant by a Vacuum engineer competent to suggest the best methods of lubrication, may effect noticeable improvements in maintenance costs. We shall be glad to arrange an interview at your convenience.

Petal Smooth Skin WINS EVERY TIME

WEATHER DOESN'T HURT MY SKIN—IT ALWAYS USES POND'S VANISHING CREAM TO HELP SMOOTH AWAY LITTLE ROUGHNESSES WITH ONE APPLICATION.

Now smoothing away roughness brings EXTRA "SKIN-VITAMIN" TOO! BEFORE POWDERING, MAKE UP SMOOTH BY APPLYING POND'S VANISHING CREAM. I OPEN UP MY SKIN AT NIGHT, TOO!

THE LADY ABOVE WILL have similar opportunities. It is available while supplies last in a special machine.

LONDONER'S TALK— I FOR ONE...

OF POLITICS, A.B.P. AND ART * OF FILMS AND PLAYS AND PARTIES * OF HOLIDAYS AND FUTURE FASHIONS

THE LAST LAP of the London Season has been reached and its signs of the past are things have not gone so badly after all.

They mean you must be wearing a.B.P. gloves, hanging out to a fish line Cigarettes are an Auxiliary Force of the season.

These days when everyone professes to be a social reformer, it is a disgrace to be a social party where one had to drink to the health of the King.

Everyone is talking about better days and after the alarm and confusion that we have endured in the past few years...

The Children's Corner NICKY AND THE GNOME

THE FOREST OF TOYS.

A day or two later, Nicky met Boddin at his house and told him that it was his birthday that day.

Many boys return, Nicky told Boddin "I was going to show you the Triangular Book, but I'll put it off until another day; I think we will go to the Forest of Toys and find you a Birthday Present."

Nicky thought that this sound of fun, and followed Boddin to his Arsenal.

"What do you think of this Arsenal, Nicky?" asked Boddin. "I think it is very nice, and I think this year's model is a great improvement on the old ones, don't you? Look at the lovely streamlined sub-machine! Nicky did admire the last little bit up-and-down."

Presently they came to a tall forest, and Nicky could hear the tinkling of unmanageable little silvery bells. They flew lower and lower until they finally came to rest on a carpet of pine needles in the middle of the forest.

"Oh!" cried Nicky, and looked at the forest.

CIVIL CASE No. 28 of 1929.
 In the matter of **BOUSTEAD & CLARKE LIMITED** and
 In the matter of **THE COMPANIES ORDINANCE, 1930**
 Notice is hereby given that a petition was on the 25th day of June presented to His Majesty's Supreme Court of Kenya by the said BOUSTEAD & CLARKE LIMITED to confirm an alteration of the said COMPANY as provided for to be effected by a special resolution of the said COMPANY unanimously passed at an Extraordinary General Meeting of the said Company held on the 25th day of April, 1929, an which resolution runs as follows:-
 "That the Memorandum and Articles of the Company be altered by the addition of the following clause:-
 (a) To carry on the business of garage proprietors including the dealing in, hiring out, repairing, cleaning, storing and warehousing of motor cars, motor cycles, motor bicycles, aeroplanes, gliders, conveyances and vehicles of all kinds, motor boats, hydroplanes, swiftness and of all component parts, accessories and fittings and of everything that may be used in connection with the same.
 (b) To do all or any of the above things in any part of the world as principals, agents, contractors, trustees, or otherwise, whether alone or in conjunction with others or as partner with any person or persons.
 And notice is further given that the said petition directed to be heard in the Mombasa District Registry of His Majesty's Supreme Court of Kenya on Thursday, the 14th day of September, 1929, at 10 o'clock in the forenoon, and any person interested in the said COMPANY, whether as creditor, pledgee, or otherwise, who wishes to object to the confirmation of the said alteration under the above Act, should appear at the time of hearing, by himself or his counsel, for the purpose, and a copy of the said petition will be furnished to any such person on demand.
 In witness whereof the Public Trustee, His Majesty's Attorney General, Mombasa, has on the day of the date hereof signed the certificate for the same.
 Dated the 19th day of July, 1929.

Analysis of Kenya Migration

NON-NATIVE POPULATION UP BY 4,612 Increase of Europeans Averages 500 A Year

Population statistics for the year 1928 reveal an increase in the non-native population of Kenya of 4,612. Indians—whose increase and movement constitute a good barometer of the country's prosperity—totalled 4,000, an increase of 1,000. There are now there 14,000 persons of European extraction as against 13,000 in 1927. The increase of population, however, was general over all races.

The Annual Report on Migration for 1928, prepared by the Kenya and Protectorate Office, under the supervision of the Chief Commissioner, shows that the non-native population of Kenya increased by 4,612 persons during the year. The increase was general over all races.

The increase in the number of Europeans was 500, and in that of the Indians 1,000. The increase in the number of Europeans was 500, and in that of the Indians 1,000. The increase in the number of Europeans was 500, and in that of the Indians 1,000.

THE SISAL INDUSTRY Improvement in Decortication

In the course of a letter to the Financial Times Mr. James McCall, Managing Director, MCHS, writes:

The sisal industry has made great progress in the past few years, and it is now possible to produce sisal of a higher quality than ever before. This is due to the fact that the industry has invested heavily in new machinery and equipment, and has improved its methods of cultivation and harvesting.

The improvement in decortication has been particularly noticeable, and has resulted in a higher yield of sisal per acre. This has led to a significant increase in the output of the industry, and has helped to meet the growing demand for sisal in various parts of the world.

The sisal industry is now in a position to produce sisal of a higher quality than ever before, and is well equipped to meet the growing demand for sisal in various parts of the world. This is due to the fact that the industry has invested heavily in new machinery and equipment, and has improved its methods of cultivation and harvesting.

RAW BALANCE STANDARD BANK

Fall in Profits

The profits of the Standard Bank have fallen in the first half of 1935 compared with the same period in 1934. This is due to the fact that the bank has experienced a decline in its income, and has had to increase its expenses.

London List Prices

The prices of various commodities in London have fallen in the first half of 1935 compared with the same period in 1934. This is due to the fact that the market is still heavily weighted in favour of the United States, and the price of many commodities is still expected to fall.

If you are, you will have a use for the "Maco" Patent (Adjustable) Template. The "Maco" Template is composed of a number of very fine strips of hard drawn solid brass, and is consequently rigid. The thickness of each strip is .007 in., thus great accuracy is ensured when using the "Maco" Template. The laminations are held in position by two specially constructed clamps secured by two thumb-screws and springs, by the tension of which the laminations are held firmly, and they adapt themselves to the exact shape of whatever medium the instrument is pressed against. A special feature of the "Maco" Patent Adjustable Template is that the laminations will not fall out even when the locking nuts are loosened to their full extent.

THE SISAL INDUSTRY Improvement in Decortication

In the course of a letter to the Financial Times, James McCall, Managing Director, McCall Patents, writes:

Best Practice

The present practice of the sisal industry is to decorticate the sisal in the country. This is done by hand, and the process is very slow and inefficient. The use of machinery has been introduced, and this has resulted in a great improvement in the industry.

Improvement in Decortication

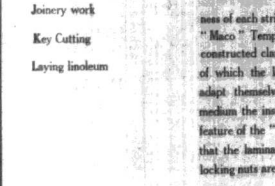

The use of machinery has resulted in a great improvement in the industry. The process is now much faster and more efficient, and the quality of the sisal is improved.

THE HUSH IN EUROPE

The hush which has spread over Europe in these July days gives the appearance of surveying an extensive sea-bed, in its shadows and in its lights.

The next attempt to wear down the British and French democracies by what is called "a war of nerves," and by warty abuse is destined to failure. The people of the British Empire and the French Alliance have passed through too many alternations of hope and disappointment in recent years to be affected in their reactions by any such manoeuvre. If they look up for a moment from the work of defensive preparation upon which they are engaged, it is not because they expect to see anything which will lead them to take a new view of their duty. No, they know well that in going to happen abroad, nor when it will "happen." All we know is that the war will not stop.

There never has been in time of peace such a universal sense of duty as now. In the days of the war, the people of every continent were united in a sense of duty which was not only a duty to their own country, but a duty to the world. The people of every continent were united in a sense of duty which was not only a duty to their own country, but a duty to the world.

The British, therefore, should be encouraged to be confident. The British should be encouraged to be confident. The British should be encouraged to be confident. The British should be encouraged to be confident. The British should be encouraged to be confident.

By the Rt. Hon. WINSTON CHURCHILL P.C., M.P.

It is not to be expected that the British will be able to do more than to hold their own. It is not to be expected that the British will be able to do more than to hold their own.

should still be hoping half-hatched in the air. The reaction of President Roosevelt's reply in the United States is a more satisfactory one, and it may be that the perfectly reasonable course, unaccountable to the criticism of a few Government officials in England, about what all American officials must do to prevent, and have a very serious effect on the world.

The maintenance of the British Empire is a matter of the highest importance. It is a matter of the highest importance. It is a matter of the highest importance.

The Tenth Birthday

Wilson Airways will celebrate its Tenth Birthday as a Company on 31st July, 1920. Aviation is taken on much further than it was when it was first started. It is difficult to realize the pioneering work which has built up the Company to its present position. It will be impossible to do with this in detail. But the following gives a brief outline of what has been achieved.

SPANISH Squares held during the CHU REACTION which began on July 17, 1918, and ended on April 2, 1919. The reaction was a series of events which led to the formation of the Spanish Republic. The reaction was a series of events which led to the formation of the Spanish Republic.

THEY do claim the Spanish economic machine is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken.

It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken. It is broken.

Athletics At The White City and Racing at Sandown

Athletics

In the heavy individual titles at the Amateur Athletic Championships, at the White City, London, England, two Great Britain men, Fred and Walter, won the 100-yard race. The remainder of the boys went to English athletes. Only four leaders retained their titles, though in a number of events the 1936 winners did not show up.

The 400-yard race was won by Fred and Walter, of Pennsylvania. The 800-yard race, seemed to start in a new era. It had never been won by a British man before. Fred and Walter, of Pennsylvania, won the 800-yard race. The 1500-yard race was won by Fred and Walter, of Pennsylvania.

TWENTY YEARS AGO

Being extracts from the East African Standard (established 1916) of 20 years ago.

A Government Bill has been introduced in the House of Commons, to amend the law relating to the registration of motor vehicles. The bill provides for the registration of motor vehicles in Great Britain and Ireland, and for the issue of license plates thereon. It also provides for the issue of license plates to motor vehicles used for the carriage of passengers or goods, and for the issue of license plates to motor vehicles used for the carriage of passengers only.

The King and Queen are expected to visit the East African Standard office in London, on the 20th of the month. The King will be accompanied by the Queen, the Prince of Wales, and the Duchess of York. They are expected to arrive in London on the 20th of the month, and to remain in the city for several days.

The Royal Commission on the Law Relating to the Sale of Goods has issued a report. The report contains a number of recommendations for the reform of the law relating to the sale of goods. It also contains a number of recommendations for the reform of the law relating to the contract of sale.

The British Government has announced that it has granted a loan of £1,000,000 to the Government of India. The loan is for the purpose of financing the construction of the Great Indian Peninsula Railway. The loan is to be repaid by the Government of India over a period of 25 years.

It's Amazing

to the general public of East Africa, the number of Vauxhall Tens there are on the road to-day. It is not, however, amazing to us, or to the Vauxhall owner. We know that Vauxhall "10" popularity is due to its low initial cost, low running cost (40 m.p.g.), safety (all-steel roof), comfort (independent springing), and reliability. If you have not yet seen or driven one of these cars come along to our showrooms and try one for yourself. There is no obligation to buy but it won't be long before you also are one of the increasing number of Vauxhall enthusiasts.

THE TOKYO TALKS

To the Editor, "E.A. Standard," Sir—The article in your issue of July 14, under the heading "British Foreign Policy," is a most interesting and valuable contribution to the discussion of the subject. It is a pity that the article is so short, and that it does not touch upon the points which are of greatest importance to the public mind.

I am sure that you will be glad to receive any correspondence which may be sent to you on this subject. I am, Sir, your obedient servant, G. H. JONES.

not lead to expect that even the children of emigrant schools would be so well educated as those in their own countries. Children are citizens only by birth, and it is their duty to be loyal to their own country. Their mental, moral, physical and social education should be given in their own country. This is a general principle, and it applies to all countries. It is a pity that the article does not touch upon the points which are of greatest importance to the public mind.

U. S. A. ACTION A PLAIN WARNING TO JAPAN

Britain can Take Similar Steps If Necessary

REACTION IN TOKYO

Although there is naturally an desire to precipitate the action in the Tokyo take it is recalled that Britain has a similar trade treaty with Japan and the possibility of its denunciation has caused a certain amount of concern.

The policy adopted by the United States is regarded generally as a plain warning to Japan.

London, July 25.—The denunciation of the United States agreement to denounce the Anti-Comintern Trade Treaty of 1911 is viewed as good grounds for the belief that the United States is a highly sophisticated power.

Although the manner selected for the action has the appearance of being unduly cautious, it would be difficult to imagine that the United States is not completely aware of the British Government's long-standing policy of non-interference in the internal affairs of other Governments.

It is reported from Washington that there has been no serious discussion with other Governments in the past few days.

It is recalled that the British Government has a similar trade treaty with Japan and the possibility of its denunciation has caused a certain amount of concern.

The action has today taken by the United States Government has raised those who are close to the British Government to a state of alarm.

SEEING LIFE

Three Loves Has Nancy

ONE of the worst things that could happen to this grand little picture—and it has long odds that it will happen—is that some irresponsible wide-waiver will label it an another "Big Deal Goes to Town." It isn't that, though the plot generally is similar. It is a very bright engaging affair on its own account and I think it will amuse people a lot.

The female, John Gower—played by the most strikingly beautiful young actress since October's award, Miss Joan Crawford—performs her part as Nancy. It is all her picture, and she does it so well that she is the best young Hollywood actress in the world today. She is so good that she is a real joy to see in the picture. She is so good that she is a real joy to see in the picture.

KEEP FIT

There are several excellent and perfect comedies there are comedies that are worth seeing. The most interesting is "Keep Fit" which is a comedy about a young man who goes to a health resort. The picture is very well made and the acting is excellent. It is a very good picture and it is well worth seeing.

The Crown Roars

In the picture, "The Crown Roars" is a comedy about a young man who goes to a health resort. The picture is very well made and the acting is excellent. It is a very good picture and it is well worth seeing.

his latter part, the brilliant, precocious, heady young woman (Not Patsy's) father played surprisingly well by Frank Morgan, and with some excellent scenes by Billie Burke, who plays the part of the mother. The picture is very well made and the acting is excellent. It is a very good picture and it is well worth seeing.

Another Good French Film

The new French film "The French Connection" is a very good picture. It is a comedy about a young man who goes to a health resort. The picture is very well made and the acting is excellent. It is a very good picture and it is well worth seeing.

Television in Colour

Colour television is now being introduced in many parts of the world. The picture is very well made and the acting is excellent. It is a very good picture and it is well worth seeing.

And New
World Order**

Disillusionment over the present world order has been expressed by many of the leading statesmen of the world. Dr. Buchman, a prominent statesman, has expressed his views on the present world order and his vision of a new world order. He has stated that the present world order is based on a system of power and privilege, which is not just and equitable. He has stated that the new world order should be based on a system of justice and equality, which would benefit all people.
