4,000 ISMAILI OFFER PRAYERS FOR QUEEN

FOUR THOUSAND Ismaili followers of the Aga Khan packed the Aga Khan Mosque in Government Road, Nairobi, on Saturday to offer prayers for the Queen in a colourful, moving ceremony lasting 45 minutes. Also there were a number of European Government and civic dignitaries.

These included Col. Grey-Howard, representing the Government; Major Sir Robert Haring, the Mayor of Nairobi; Alderman Dr. F. H. Gregory; the Provincial Chief Secretary (Mr. R. G. Tully); the Member for Constituency No. 10 (Mr. J. M. Woodley); the Deputy Mayor (Mr. W. B. Hayward); the District Commissioner, Nairobi (Mr. C. F. Aikens).

Strong bonds

Others present included the Hon. the Member for Nairobi and East Africa (Mr. A. M. Chiba, Khan) and the Nairobi City African members of the Council.

The guests were received by Sheikh Khalaf, wearing a red turban, and the Council members. They were then seated in the mosque, which had been expanded to accommodate the large gathering.

The prayer was led by the Imam, who read the opening of the Koran with the reading of the opening of the Koran and the recitation of the Basmala.

The prayer was followed by a sermon by the Imam, who stressed the importance of the Queen's coronation and the unity of the Muslim community.

NAIROBI PREPARATIONS ALMOST COMPLETE

Miles of streamers and bunting

APART from a few final touches, mainly in the vicinity of All Saints Cathedral where the saluting hoist for tomorrow's march-past is to be erected, Nairobi's Coronation decorations are complete, reports the City Engineer, this week-end.

A host of the main thoroughfares are festooned with their miles of flags and bunting. It is estimated that the £12,000 worth of bunting and streamers for the Coronation preparations is a record for any city in the world.

Kenya's flag

Thousands of pounds have gone towards the Kenyan flag, which is to be flown at all Commonwealth countries which fly their own flag every day in Nairobi and throughout the country.

Showers?

It is not yet known whether it will be possible to have showers in the city during the Coronation week-end. The possibility is being investigated by the Corporation.

Cable to carry power 50 miles under sea

The laying of the world's longest underwater electric power cable will start in the next few days. The cable will carry power 50 miles under the sea from the British Isles to the continent of Europe.

High above

They are hung from scaffolding and are to be used for the lighting of the Coronation week-end. The lights will be hung from the roof of the City Hall.

CORONATION SAFARIS IS CROWD THRILLER

Intense interest at every point

It is highly doubtful if any single sporting event in Kenya has aroused the immense interest that is being shown in the Coronation Safari, sponsored by the East African Standards, which left Nairobi for Kampala and Morogoro on Saturday. The largest class of motorists, who have the highest speed, are watching with the greatest interest and curiosity as having the greatest interest and progress was watched avidly.

Spectators thronged the roads, the motorists in the 14 scheduled sprints and the car got away with rain dust blowing in the air and the set off of the drivers were also followed with interest.

Just after noon yesterday he had, after Griffith's retirement, the lead and set off the 11th mile in under 24 hours and had a lead of 10 minutes over the rest of the group.

This was the Standard Van, owned by Mr. J. Collins and had been in the front in amazing fashion and easily led.

Golf, football on page two

Cherishing spectators allowed every man waving good luck to the party moving event that he for many miles, looking from the air like some gigantic, red-tinted aircraft.

About the route

As the route from the city every time was an almost exact replica of that which the party passed interest was never given to the details of the day. Up to the point of departure, it is the very small bands as many people have been forming around the car and in the air as they pass through the forest, and the 200 miles from Nairobi to Morogoro, the fastest car averages about 20 m.p.h.

And when Cot. G. Thompson came in, leaving the field on his own, he was the only man to reach the destination.

His condition, Cliff Collins, who has been following the party on the microphone and, from an unobstructed view, has said that the car is moving well.

Amazing trip

He had done an amazing trip in under 40 hours time and was given a rousing send-off by the thousands, his light presence in the darkness, he had for another 200 miles or so.

It was a tragic misfortune that he was out of the event, but the fact of the matter was that his car was broken down.

and tyre trouble while a number were broken.

In the contribution on the leaders in class "D", the position of the leaders was somewhat different from what is generally expected.

What it proves

Class position can only be sorted out when all information is in from the various outposts and officials have been working round the circuit to collect and collate the information.

If the safari proves nothing, it will show that the endurance of the motorists is not what it is often claimed to be. For this is not a hardy feat, but a test of the will and the will of the motorist is what counts.

It is also a test of the will of the motorist, and it is a test of the will of the motorist, and it is a test of the will of the motorist.

START OF "CORONATION SAFARI" HERE

YOUTH TRIUMPHS IN PARIS

HIGHLIGHTS of the French lawn tennis championships at the Stade Roland Garros, Paris, on Saturday were the singles victories of 18-year-old Ken Rosewall, of Australia, and of 18-year-old Mas Maunten Connolly, of the United States. Rosewall was the youngest player ever to defeat an opponent aged 19 or over, both before and after the match.

'Fantastic' Rosewall's triumph

Rosewall's triumph over Seixas was a fantastic feat, a triumph over a veteran of over 30 years, and a triumph over a champion who had won the French title in 1931.

BRITAIN'S MATCHLESS MONARCH

Her own life... The Matchless Monarch is the most reliable and most economical motorcycle ever made. It is built to last and to give you the most pleasure and comfort in the world.

Have an ANGEL type your letters

Even if your typist hasn't wings on her back or a robe reaching to her feet, she'll have wings on her fingers when typing on Halda, the Swedish precision-built typewriter. Thanks to Halda's world-famous feather-touch! This feather-touch, the automatically accelerating typebars and eye-protecting green colour make typing a pleasure. And she can keep at top speed all day long—in high spirits—even finishing your 5 o'clock dictation like a Angel in disguise.

QUEEN ELIZABETH IS CROWNED

**Goods stand with heads bared
as rain lashes down
7,000 SEE ABBEY POMP, CEREMONY**

The bells of London pealed yesterday and guns thundered to salute the crowning of Queen Elizabeth II. A great assembly in Westminster Abbey crowned the Queen in her head, the St. Edward's Crown, symbol of British monarchy.

Outside beneath grey skies the cry was taken up by vast crowds who had watched her progress to the ancient Abbey and were to see her emerge again as the crowned Queen. At the moment of crowning the crowd outside the Abbey rose in a great hush. Hats came off, heads were bowed.

Then down came the rain—a heavy lashing squall. Umbrellas went up and people pulled their clothes around their necks and inches down together. A few seconds passed. People resumed their seats.

In the Abbey, looking down on the unfolding ceremony built up through 1,000 years, Prince Charles, who may one day wear the Crown, watched his mother. At his side his grandmother, the Queen Mother, who whispered explanations to him as the Archbishop of Canterbury stood before the oak Coronation chair and slowly, gently, placed the glittering Crown on the Queen's head.

Dressed in a white silk suit, the Prince had come to the Abbey in time to see his mother announced Queen in ceremony that it rained.

Once crowned, the Queen's glittering gown, made from the blazing lights, moved slowly down the aisle. Her golden shoes, studded with pearls, her empire in a crown and a robe of coronation in a low-cut gown surrounded by the superb diamonds in the land she watched for her. Lilies, the symbol of the Queen's reign, were scattered on the floor.

Great banks of flowers and more flowers brought a cascading panorama of color to the scene. The Queen's robes were adorned with white York roses and the white and blue stripes of the national colors. The French flag, blue and white, was draped from the top of the altar.

THE QUEEN SIGNALS EVEREST MEN

The Queen, preparing for the greatest day of her life, laid the eye of Coronation Day that she had by Colonel Hunt had conquered the highest mountain in the world.

Her Majesty was told that Mt. Everest, New Zealand mountaineer and the French mountaineer, Sir George Finch, had reached the summit of the world's highest mountain. The Prime Minister, Sir Winston Churchill, also told his congratulations.

At the announcement of the conquest came through hundreds of loudspeakers playing the B.M.C. programme. The Duke and Duchess of Edinburgh, the Duke of Windsor and the Princess Margaret, who were in the air, were also congratulated.

Duke of Windsor sees the ceremony

The Duke of Windsor sat in a Park villa watching with deep emotion on the television screen the Coronation of his niece.

With the Duchess at his side, the Duke sat intent for the first time in his life to see the Coronation of his niece, the Queen.

The Duchess was accompanied by the Duke of Devonshire, the Duke of Norfolk, the Duke of Northumberland, the Duke of Gloucester and the Duke of Kent.

Kenya lays aside its problems for a few hours

Kenya forgot its problems for a few hours yesterday as it joins with the rest of the Commonwealth in the proclamation of Queen Elizabeth II's Coronation.

Other features followed such as the playing of the national anthem, the reading of the Coronation Oath and the presentation of the Queen to the people.

The ceremony was presided over by the Archbishop of Canterbury, who read the opening prayer and the Coronation Oath.

The Queen's coronation was a historic event which marked the beginning of a new era in the history of the Commonwealth.

THE STONE OF DESTINY

The Rt. Hon. Robert McNeil, P.C., M.P., Secretary of State for Scotland, 1952-1953 relates the history of the Stone of Scone on which all British monarchs are crowned.

There is a story (which I do not intend to repeat) that the present king in Scotland is the first-born of King James' Fifth. It is considered that the stone of Scone is the stone which was used in the coronation of King James the Fourth in 1527. It is recorded that the stone was used in the coronation of King James the Fourth in 1527. It is recorded that the stone was used in the coronation of King James the Fourth in 1527.

The Stone, in its present position, is the one which was used in the coronation of King James the Fourth in 1527. It is recorded that the stone was used in the coronation of King James the Fourth in 1527.

The Queen's Gown Was Symbolic Of The Commonwealth

THE Commonwealth was the symbol of the Queen Elizabeth who was her Coronation. The dress was embroidered all over with the emblem of Great Britain and the Commonwealth.

Eleven young men of Kenya get the loudest cheers

NAIROBI'S MARCH PAST

ELEVEN young men of Kenya got the loudest cheers and the heartiest hand-claps as they marched along Delamere Avenue in yesterday's Nairobi match-part of the Queen's Services to salute the Colony's Governor, Sir Maurice Collinson, Major Sir Evelyn Baring, outside Africa.

The smallest contingent in the parade—had only 11 in the Aberdare force—was in hours before to represent their unit in the City's Coronation celebration.

Tired as they were, these 11, all in the ranks of the bearing and veterans of the war, were saluted and their commander gave them the "Eye, Larr" at the salute.

Special ovation

Hundreds of Europeans, Africans and Asians, soon into spontaneous applause to welcome them—the only Kenyan Regiment which could be spared for the parade.

The parade started at 10.30 am. The band of the Royal Air Force, the Regiment got up the show, except of its own accord.

Bringing up the rear were the Officers of the Kenya Reserve, Emergency Coy. They too had the show, except of its own accord.

Commanded by Mr. Douglas MacCreary, these men, who represent the city's African contingent, were given a special ovation by the crowd.

Speakers, who thanked the staff of the State Service, the Police, the City, and the Queen's Services, felt that their services were in place on the saluting line.

Senior Service

Viewing behind him was Vice-Admiral Sir William Stewart, Commander-in-Chief of the East African Squadron.

Other high-ranking officials present were the Hon. Sir James Douglas, the Hon. Sir Alexander Cameron, East African Commissioner General, Mr. J. J. Stearns, Commissioner of the Kenya Police, and the Hon. Sir Evelyn Baring, Governor.

The Governor was welcomed with a volley of cheers and clapping as he led his men past the Calverly tower peak of Kileleshwa.

Officers and men gave way to the band of the Lancashire Fusiliers as it marched down the parade.

the strength as a die in their pattern following the white line of Delamere Avenue as their salutes streamed in the air.

... and the dog. The dancing crowd, stopped and stopped again to watch the city, saluted in the air.

More cheers and clapping broke the Governor "die" in their pattern following the white line of Delamere Avenue as their salutes streamed in the air.

After their march of 400 paces from the Royal East African Navy with apertures while salutes and the shabbed, died of fixed bayonets.

Chief was in volume as the unit continued came along—the band of the 38th Infantry Brigade, the Buffs, Lancashire Fusiliers, and Devon, in formation.

There was a special cheer for the band of the Royal Air Force, the Regiment got up the show, except of its own accord.

Two Big Days For Masai

Feasting, dancing, coronation

HUNDREDS of Masai from the vast Athi-grazing plains south-west of Nairobi today tiny Kajiado village on Coronation Day for the biggest single colony to be held in any African Reserve in the world. There to join them in their feasting, dancing and coronation were scores of Masai from all over the country.

The Masai, including many of the warriors who are at present in the area, packed themselves round the Masai camp at the invitation of their Chief—Mr. John P. O'Connell. They were the happiest they have ever seen in the area. They were the guests of the British Government and the Kenya Government. They were the guests of the British Government and the Kenya Government. They were the guests of the British Government and the Kenya Government.

EVEREST: 1924 tragedy recalled
MID all the excitement at Kajiado, Nepal, at the conquest of Everest, people are wondering whether the British climbers will bring back with them direct evidence of what happened to Mallory and Irvine who disappeared near the top of 1924.

Commonwealth men get their Coronation medals
AS London began the big cleaning yesterday, trying to get back to normal after the Coronation Day crowds, the newly crowned Queen presented Coronation medals to the distinguished Commonwealth representatives who marched in the State Procession. These representatives of the Commonwealth countries, which in the next few weeks will take her to many parts of Great Britain, will receive their Coronation medals from the Queen.

Enthroned in our hearts, says Premier
BROADCASTING from No. 10, Downing Street before the Queen spoke to the Commonwealth representatives, Sir Winston Churchill, Premier, said: "We have had a day which the world has never known before. It is a day which will be remembered all their lives. It is a day which will be remembered all their lives. It is a day which will be remembered all their lives."

Patty Hendren reviews...

ENGLAND TEST BATTING POTENTIALITIES

STAN McCABE, who was batsman in recent Test cricket, has given it as his opinion that the present batting strength of the tourists is sufficient to win the Ashes. I will allow here the point that Lindsay Hassett's side comprises some really fine batsmen—men like Arthur Morris, Neil Harvey, Keith Miller, young George Horne and Hassett himself—who they have yet to prove to me that they are superior to England's own Test batsmen. Stan says "There are just according to Test batting ideas of the teams as to when one side is in the preferable position of having no test..."

As to the tail... I am not a specialist on this, but I think that the tail is a very important part of the batting team. It is often the tail that determines the result of a match. In the recent Test, the tail was very strong and it was a major factor in the tourists' success.

Without peer... Have the Australians an opening batsman to compare with Ian Duffell? Of course not, but I think that England will have a "reasonably" good tail to look at in the forthcoming Test.

Neatly does not impress... I think that the tourists' batting is very neat, but it does not impress me. I think that the tourists' batting is very neat, but it does not impress me.

WORLD APPETITE FOR FOUR TASKS

Whole-hearted support for Bermuda meeting too

THE self-governing Commonwealth countries are supporting the call of Sir Winston Churchill, the British Minister of Great Britain, for a top-level meeting between the Western and Soviet leaders. It was announced authoritatively yesterday that at the first session of the conference of Commonwealth Prime Ministers, held at Downing Street, London, when foreign affairs dominated the two-and-a-half-hour discussion, all the Prime Ministers were in agreement with Sir Winston's efforts to bring about talks between the political heads of the United Kingdom, Britain, France and the Soviet Union to settle outstanding problems.

No risk of general war - President

PRESIDENT EISENHOWER assured the American people last night that there is no risk of a general war and that there is no chance of a "new Munich" in the near future. He made the statement in a talk from Washington.

Security forces still harry routed gang

SECURITY forces are still tracking down stragglers from the Mau Mau gang which has been hiding in the forests above Katanya and Nyandarua in the Kenyan Reserve.

Queen thanks all who made it a memorable day

THE Queen has thanked everybody who made Coronation Day so happy and memorable. Her message addressed to the Commonwealth countries and the people of the world, expressed her appreciation for the devotion and care of the great crowd which gathered to witness the months of preparation for this great ceremony.

Itinerary

was made to make the Safari as easy as possible from all three control points of the route there is a 50 m.p.h. limit in Uganda and that Morogoro will cover portions of a rough route which was arranged that starting lines will allow for these contingencies.

Starting and finishing points there were 100 miles apart and the 30 m.p.h. limit had to be observed.

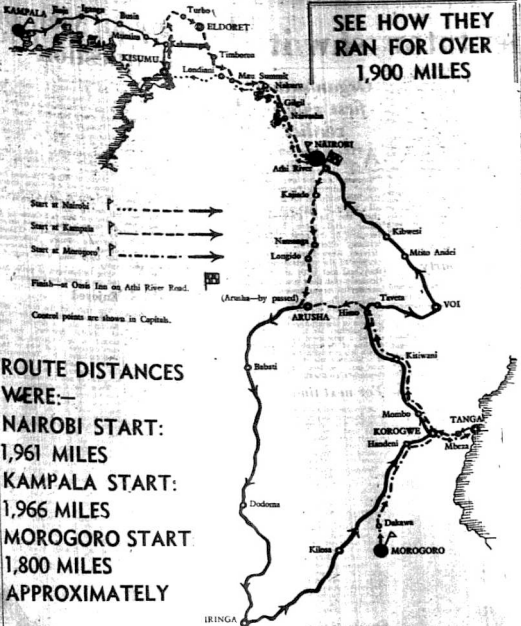

Starting at Nairobi, the route went through Kakamega, Turbo and Hama to ARUSHA (Control point) and the same route is followed through Dodoma, Morogoro, Iringa and Handeni to MOROGORO. From there the route comes through Mto. Mti to the finish at the Ombaka River to the finish at the Ombaka River.

Notable along the route, where stoppages were many was the way competitors helped one another and the excellent service at controls. All were good and helpful. Certain ones deserve special mention. Those at Kusumu and Eldoret in particular where the two big motor firms, Motor Mart and Hayes Ltd. did everything to help. From Eldoret, Michael Flint drove out and back 60 miles each way, in the early hours to bring in the occupants of the Jaguar Mark V which had hit a bank and returned.

At both the Iringa and Arusha controls fuel, oil and other items were freely and graciously handed out with the slightest loss of time. Hot drinks, cigarettes and food were pressed on the drivers and car crews and much-needed and freshening washes were provided with soap and towels for each. It was a remarkable demonstration of that good fellowship for which the territories are famed.

RELY ON RENAULT

Our hits off to two real sportsmen, and to a real car! A Renault Baby 750 c.c. Saloon, brilliantly piloted by Mr. P. A. Russell and Mr. G. Button, completed the gruelling 1,975 miles of the Coronation Safari in 68 hours, 5 minutes, without any outside assistance whatever. No speed record, engineering achievement. This valiant little car, which has served these two drivers so well throughout this testing course, will SERVE YOU TOO!

CORROSION is at its worst

Short-circuiting never lets your engine get really warmed up. Acidic moisture—formed during combustion—condenses in the cylinder heads and corrodes them while the car continues to be standing idle. Research has proved that corrosion is the major cause of engine wear. Specially blended additives in Shell X-100 Motor Oil neutralize these corrosive fumes, and cause the oil to spread and cling better. That protective film is there all the while, always shielding your engine against corrosion.

ANGLO-IRANIAN OIL COMPANY

SUPPLIES FROM IRAN
Production and Refining
SIR WILLIAM FRASER ON IRANIAN DISPUTE
The 4th Annual General Meeting of the Anglo-Iranian Oil Company, Ltd., will be held on June 11, 1953, at the London headquarters of the company.

Mr. Fraser said that the company had a very successful year in 1952, with a record production of oil from Iran and Iraq. He also mentioned the company's efforts to improve its refining facilities and its commitment to providing a steady supply of oil to its customers.

SALES

The sales of the Anglo-Iranian Oil Company for the year 1952 were estimated to be around 100 million barrels, a significant increase from the previous year. This was attributed to the company's expanded production and distribution network.

The company's sales were particularly strong in the Middle East and Europe, where it has a long-established presence. It also reported a steady increase in its share of the global oil market.

PRODUCTION

Crude oil production from the Anglo-Iranian Oil Company's fields in Iran and Iraq has increased significantly in 1953. The company's production is expected to reach a new record this year.

The increase in production is due to the company's investment in new drilling techniques and its expansion of its operating areas. It also reflects the growing demand for oil in the region.

PRODUCTION AND REFINING

The Anglo-Iranian Oil Company's refining capacity has been expanded to meet the growing demand for refined petroleum products. The company's refineries are now producing a wide range of products, including gasoline, diesel, and kerosene.

The company's refineries are also equipped with advanced technology, ensuring that the products they produce meet the highest standards of quality and efficiency.

INTERNATIONAL TRADE

The Anglo-Iranian Oil Company has a strong presence in the international oil market. It exports a significant portion of its production to various parts of the world, including Europe, the Americas, and Asia.

The company's international trade is supported by its extensive network of shipping and distribution lines. It also maintains a strong relationship with its customers, ensuring that they receive reliable and timely deliveries.

INTERNATIONAL TRADE

The Anglo-Iranian Oil Company's international trade is a testament to its commitment to providing high-quality oil products to its customers. The company's reputation for reliability and efficiency is well-known throughout the world.

CORRESPONDENCE

The Royal Commission

To enquire "A. S. House"

The Commission has been established to enquire into the housing problem in Kenya. It is expected that the Commission will report to the Government within three months.

African Housing

It is estimated that the total population of Kenya will be about 10 million by the year 2000. This will necessitate the provision of a large number of houses for the growing population.

Water Board

The Water Board has been established to regulate the supply of water to the townships of Kenya. It is expected that the Board will report to the Government within three months.

Public Works Department

The Public Works Department has been established to undertake the construction and maintenance of public works in Kenya. It is expected that the Department will report to the Government within three months.

Communications in Kuru Areas

The development of a communications system in Kenya is a priority task. It is expected that the Government will report to the Parliament within three months.

end of the library are built-in cupboards which accommodate the family's new apparatus. Plain-colored velvet curtains match the curtain and French doors lead out to a magnificent view overlooking the lake and the surrounding hills. The entrance of the house, which is built of local grey stone, is finished in cream and painted in dark green.

The lounge

On the other side of the hall is the lounge, divided into two by sliding doors and an archway. A suite, covered in light chocolate-colored tapestry, and a matching standard lamp and three outstanding pieces by an Israeli painter, Abul Pann, pottery, biblical scenes.

Blue wrought-iron railing encloses a little shrubbery towards the back of the house where the kitchen, cream-shaded, with terrazo, floor and stainless steel sinks are situated.

All in blue

Appears, the main bedroom is decorated entirely in blue. There blue taffeta curtains, a bed with a deeper blue carpet, the bedspread is of pink and blue and the ceiling is pale blue and the ceiling is painted in shades of blue. The glass-topped dressing table is also covered with taffeta showing. Over it hangs a mirror framed in a wood manner with the same choice.

Complete suite

The second bedroom has grey painted furniture and cream walls, and in the third the furniture is of oakwood.

The extension to "Rock-Edge" just completed, comprise a complete suite of furniture, being of wood, beautifully grained, and the

McCormick No. 64 HARVESTER THRESHER

- Look at these performance-proved advantages:
- III Full-width design. All units extend the full width of the machine. The 6-bar rasp-type cylinder is 64 inches long and 15 inches diameter.
 - III Straight-through operation. The crop flows smoothly and in a straight line through the machine. There are no turns or obstructions to cause chaffing.
 - III Balanced flow. All units of the No. 64 are matched in capacity and performance. You get no bunching or overcrowding of the crop at any point.
 - III Positive separation. The No. 64 gives you as much separating capacity as many combines. Double cleaning of the seed under a controllable air blast.

June Brings An Anniversary For City Father

A MAN who has seen continuous service to Nairobi City Council and who is also the City's senior alderman this month celebrating 20 years of unbroken public service to the Colony where he has made his home since 1933. He is Mr. George A. Tyson, C.M.G., P.R.C.S., who was decorated by the Queen on the Birthday Honours of 1949. Mr. Tyson's record of public service is so long that he elected a councillor to represent Nairobi in June 1933. He became an alderman in May, 1942; President of the Nairobi Chamber of Commerce in 1946 and 1947, and President of the Association of Chambers of Commerce of Eastern Africa in 1948.

Travels abroad
A member of the Harbours Committee for many years, he joined the Transport Advisory Council when it was set up in 1948, and remained a member for two years. Mr. Tyson is also on the Board of Commerce and

THROUGH MY HAT by Kenneth Meadows

YOU know how it is when your conscience pricks you to write your biannual message to the folks at home. Life one big whirl, always busy, always doing something, parties, jolly, exciting evenings on patrol with the Home Guard, sundowners and lib.

Well, such the same myself right now. Flummoxed, as it were, but had a single word from Mozambique, for days. It is a funny bit that when he stepped into the sports at the start of the Darbush Safari. Especially when I remember he had said my offer of a company,

Industry and the Transport Licensing Board. In the latter capacity he does a good deal of traveling to Mombasa, Kisumu and Eldoret, as well as other places. He has met, at his Mombasa when he attended the meeting of the Port Council there. In 1944, Mr. Tyson joined the firm of George A. Tyson & Co., P.R.C.S., who were decorated by the Queen on the Birthday Honours of 1949. Mr. Tyson is also the Chairman of the Kenya Central College of East Africa.

Greatest interest
But perhaps his greatest interest and the one to which he is constantly working is to get younger people interested in further education by attending classes. Believing that the only way to get young people to see the possibilities in the Colony are limited, Mr. Tyson organizes an annual series of evening classes. They should attract evening classes, he says, with the encouragement of their parents, and if they will only trouble to make use of the existing facilities, there is little that he can do.

He has also many excellent correspondence courses. Mr. Tyson takes as his model the London School of Tropical Agriculture and Horticulture, which is available both day and evening. He has also been successful in getting some evening classes. Mr. Tyson is also the Chairman of the Kenya Central College of East Africa.

Through my hat
Lately, temporal destiny that he had spotted was not believed to have been a storage amphibious craft, because it was starting around a few miles off the coast. A man was standing on the roof and waving a white flag. He reported that it was not known whether this was a distress signal of a happy marriage day, but he was washing in Lamu. Again, it is not clear whether it was a distress signal or not.

Not overflocking the fact.
But there was a short reference on the wireless tonight to "half-life" marks on a long track. It is worth the investigation, perhaps, but it is a pity that it is not known whether it was a distress signal or not.

A London journal makes the most of his launch in service in a hour of exasperation?

There are many excellent correspondence courses.

African affairs
But more encouragingly, by the parents must be given. For Mr. Tyson believes that the responsibility of leadership will fall heavily on the shoulders of the present generation of young men and women, especially in the long-term problem of bringing the African up to a higher level of education.

Born in London
Both European and African housing has always been well in the forefront of Mr. Tyson's activities, and a recent memorandum on the Nairobi Chamber of Commerce on the subject has also been printed and circulated.

TRANSLATING THE BIBLE INTO KIKUYU

THIS translation of the Bible into a new language is a most fascinating and interesting job. The meaning of every word must be ascertained, and the human personality of Greek, Latin or Hebrew must be ascertained, and the words must be translated so as to be as near as possible to the original sense. The original sense must be ascertained, and the words must be translated so as to be as near as possible to the original sense.

This article was written by MRS L. J. BECHER, wife of the Bishop of Mombasa, and one of the chief translators of the Kikuyu Old Testament.

In Kenya
K ENYA, most of the Bible has been translated into Kiswahili, but so far has been understood by Africans assisting. Consequently few of them have been good enough Greek or Latin to understand the Bible in its original language, and the Bible in its original language, and the Bible in its original language.

A student of the Kikuyu Girl High School reads her copy
A student of the Kikuyu Girl High School reads her copy of the Bible. The Bible is a book of life, and it is a book that is read by millions of people in every part of the world.

Committee formed
NO other part of the Bible has been translated into Kiswahili. This was the Gospel of St. Mark, and it was a young man who had come out a few years before his father's death to the Church in Mombasa. He was Mr. Mark, and he was a young man who had come out a few years before his father's death to the Church in Mombasa.

Long history
THE history of the translation of the Kikuyu Bible is a long one. It began in 1902, when the Rev. H. Leakey arrived at Mombasa and proceeded to the Kikuyu people. He was a young man who had come out a few years before his father's death to the Church in Mombasa.
