No topic is more often discussed in the Letters to the Editor columns than Kenya roads and no letters are more scathing. On this page the Member for Health and Local Government takes the opportunity to meet the critics and clear up some misapprehensions.

# KENYA'S MUCH-MALIGNED ROADS: A NEW SURVEY

Where the money comes from — and how it goes

By C. E. MORTIMER  
Member for Health and Local Government.

There have recently appeared in the Press many letters on the subject of roads, and in particular, much criticism of the state of the roads in the Nairobi District. As these public comments have frequently shown a lack of understanding of the facts it seems an opportunity for a statement to be made setting out the true picture and clearing up any misapprehensions.

It is with the Nairobi district that I am primarily concerned, and I should like to refer to the Department of Development and Revenue, which is responsible for the improvement of the roads in the Nairobi District. It is a Department which is looked after by local public officers, and it is for their benefit that the Government has provided the necessary staff and equipment.

The roads in the Nairobi District are of two main types, the main roads and the feeder roads. The main roads are those which connect the Nairobi District with the other parts of the country, and the feeder roads are those which connect the Nairobi District with the surrounding areas.

**Athi River**

The Athi River is one of the main roads in the Nairobi District, and it is a road which is of great importance to the Nairobi District. It is a road which is of great importance to the Nairobi District, and it is a road which is of great importance to the Nairobi District.

- You mustn't always blame the P.W.D. wherever your car meets trouble
- The problem of a Road Fund and a Road Authority
- Those Karen roads: Nairobi District Council makes a move
- The alarming cost of bituminising and the difficulty of estimating

# Local 'Derby' at Highbury today

## Wolves have tough task on Wearside

A fairly good and dried track at Ashfield Road today and after last week's performance against Charlton should not pose any particular problem for Wolves. But one never knows and this is a more open match than it might seem.

Wolves travel to Sunderland and they need 100 runs a match to beat the Wearside side. The fact that the Wolves have a strong batting line-up is a great advantage.
