## BANK ADVANCES REACH A NEW RECORD IN BRITAIN

BANK advances in Britain in the three months September-November, reached the new record level of £1,100,000,000, or 17 per cent over the previous quarter of £936,000,000. The similar quarter of 1948 when there was a record fall of £1,700,000,000 at £1,970,000,000. That was the first decline recorded since the beginning of the war.

The Bank of England said the increase in the third quarter was due to the fact that the Government had not asked for a reduction in the rate of advance. It said the rate of advance was 17 per cent in the third quarter of 1949, compared with 15 per cent in the third quarter of 1948.

When we look back after a Merry Christmas afternoon morning we shall be using a phrase which for generations has been symbolic of a festive occasion—the happy things of human life. For the traditional Christmas of Britain, wherever Britons have travelled has always been the happy festival of relatives, the gathering together of families and the enjoyment of good things which give pleasure and joy.

But the lack of material things in many lands will make it a more austere Christmas. While the message of good will and peace between friends and nations continues to be the spirit of the season, the joy of the Christmas message is a precious because of this that the King's broadcast is so eagerly anticipated.

Christmas in Sandringham really is a family affair. It means Christmas cards and carols, cakes and presents, the morning walk to the church.

At Sandringham the King enjoys the status of a Sovereign as if a Norfolk squire during the summer life of his country and the domestic life of a family with a happy informal atmosphere. There are no pomp and ceremony. There are no traditional Christmas dinner parties of the Palace, no banquet tables laden with delicacies.

It is this which makes King George VI and Queen Elizabeth's Christmas Day carols and messages so touching and reverent.

**Bible Thought for Christmas**

For unto us a child is born, unto us a son is given; and the government shall be upon his shoulder; and his name shall be called Wonderful, Counsellor, The mighty God, The everlasting Father, The Prince of Peace.— Isaiah 9, 6.

**Santa, St. Nicholas or an old woman on a donkey—it's still Christmas the world over**

**CHRISTMAS** is the great family festival, as above everything else, the children's festival. All the world over this week-end will see family reunions and joyful celebrations.

To the people of the British Commonwealth Christmas Day has been inaugurated for years past by a personal message from the King in Britain. This year he will again speak to the Empire from his home in Sandringham—from a home where the Christmas message is understood, is a precious because of this that the King's broadcast is so eagerly anticipated.

## JANUARY 1, 1952, WILL SEE 'BEGINNING OF THE END' OF PHONE SHORTAGES

WHILE working as a houseboy in Nakuru, Shauri Moyo, a young Indian, said the crockery which he handled each day he would make earthenware mugs and butter dishes himself.

Now, after three months of working in the same way, he has decided to start a business of his own. He has bought a small shop in the town and is now producing earthenware mugs and butter dishes.

# Europeans-Asians match: a commentary

FROM A CORRESPONDENT.

NOW that the annual tennis match between Europeans and Asians has come and gone it may be appropriate to venture an opinion on the game as a whole.

It was a disappointing match in the whole. Except for the late and early periods, the match was very dull and the play was very slow. The only interesting part was the final set when the Europeans were seen to play with great skill and speed.

The match was a great eye appeal and the spectators were well served by the excellent refereeing.

### Speed does it

# PROBLEMS OF AGRICULTURE IN THE SUB-TROPICS

Standard Agricultural Correspondent

**T**HE agriculture of Samoa, Cook Islands and Fiji may seem a far cry from Kenya, but I have just been reading a report by Professor G. S. Cooper, Principal of New Zealand's famous Massey Agricultural College on his visit of inspection to these tropical territories which contains something of interest to all who farm in the sub-tropics. For these reasons, I have translated the parts of his report which bear upon the agriculture of Kenya and in this way hope to help some of our readers who have been puzzled by the fact that the natives are not getting through annual crops in their fields as well as they should. I have written about the insecticide, D.D.T., and the fact that it is not safe to use it in the tropics. I have also written about the fact that the natives in Samoa are planting their crops in the same way as we do, and that they are not getting through them as well as we do.

**NEW McCORMICK-DEERING No. 9 MOWER**

It takes less power to pull the New McCormick-Deering No. 9 mower. That's because of the new ball-bearing transmission. All gears are located back of the axle and run in a bath of oil. All gears are steel and machined to precision accuracy. That means a very smooth, quiet-running mower, geared for a lifetime of outstanding performance.

One you see the New No. 9, you'll agree with us it's the best of a long line of new McCormick-Deering Mowers. We'll be glad to show you the one we have on display.

### Charge reduced

When the hospital opened, the charge was 7/6 a day also the cost of fuel and oil was included. The hospital being a small unit of the Kereka hospital, it was necessary to reduce the charge to 4/6 a day.

IF you compare the new lines for 1949 with those which the fashion magazines displayed for 1948, you will see that the changes proposed are radical.

The new year has seen a marked change in the way women are dressed. The fashion magazines have shown a new style of dress, one that is more practical and more comfortable than the styles of the past. The new styles are more in line with the needs of the modern woman, who is more active and more busy than ever before.

AN invitation to a party... The new year has seen a marked change in the way women are dressed. The fashion magazines have shown a new style of dress, one that is more practical and more comfortable than the styles of the past.

The new fashion trend towards informal evening wear comes in particularly well at this time of the year. The new styles are more in line with the needs of the modern woman, who is more active and more busy than ever before.

THE recently concluded tournament for the British Championship, played in the last round, is a noteworthy example of the chess player having the Black pieces. Robert Murray, a young English player, defeated the theoretical and player of the highest reputation, the English master, the ingenuity of the brilliant Grand Amateurs. He did a very poor figure in the present game.

White: G. Al. Abramov, R. B. B. K. P. C. H. Black: R. B. K. P. C. H. White's position is a strong one. The Black pieces are in a very weak position. The White pieces are in a very strong position. The Black pieces are in a very weak position. The White pieces are in a very strong position.
